Source Note Information

A source note shows the legislative history of a C.R.S. section and is located immediately after the text of the section. The source note for each section indicates the year the section was added, each year it was amended, and the page of the Session Laws and the section of the bill where the amendment can be found. The source note includes the number of the section in prior codifications when applicable. For amendments made after 1973, information on each specific provision of the section that has been changed by a bill, the specific change to the provision (i.e. added, added with relocations, amended, amended with relocations, repealed, repealed and reenacted, or recreated and reenacted), and the effective date of the bill are shown.

The legislative history is arranged by year of passage; if the section was amended by two or more acts in the same year, the order of the information for that year is determined by the effective dates of the acts. The effective date in the source note indicates the date the act or portion of the act takes effect even if the text of the amendment indicates a different date. If the year is not included with the month and day, the provision is effective the year of passage. Additional information to assist the user in researching C.R.S. sections can be found beginning on page vii.

The following provides a further explanation of the information found in a source note:

“L.” is the symbol for “Session Laws” and will be followed by a number indicating the year when the C.R.S. section was changed by an act generally either creating new law, amending existing law, or repealing existing law; except that, in the constitution, “L.” also means constitutional measures referred by the General Assembly and voted on by the people of Colorado at a general or an odd-year election.

“Ex. Sess.” is the symbol for “Extraordinary Session”. If this symbol follows the year, the amended provision can be found in the Session Laws for an extraordinary session for that year and not in the Session Laws for the regular session of the General Assembly for that year (S, S2 in the Red Book).

“p.” is the symbol for “page” and will be followed by a number indicating the page of the Session Laws where the amendment to the C.R.S. section can be found.

“§” is the symbol for “section” and will be followed by a number indicating the section of the act where the amendment to the C.R.S. section can be found.

“IP” is the symbol for the “introductory portion” to a section, subsection, paragraph, or subparagraph.

“Added” means the provision was newly enacted by the act (N in the Red Book).

“Added with relocations” means the provision in existing law was relocated from one title, article, part, or section to another title, article, part, or section with amendments by the act.

“Amended” means the provision in existing law was amended by the act (A in the Red Book).

“Amended with relocations” means the provision in existing law was amended to reorganize an entire title, article, part, or section by the act.

“Repealed” means the provision was deleted from the existing law by the act through the use of a repeal provision (R in the Red Book).

“R&RE” is the symbol for “Repealed and Reenacted” and means the provision in existing law was repealed and reenacted by the act (RE in the Red Book).

“RC&RE” is the symbol for “Recreated and Reenacted” and means a previously repealed provision has been recreated by the act (RC in the Red Book).

“Added by revision” means a provision providing for the repeal of a statutory provision on a specified date has been added by the Revisor of Statutes as a C.R.S. provision. Adding the provision is necessary because a separate section of the act provided for the repeal of the provision with a future effective date.

“Initiated” means a provision that was amended by means of an initiated petition approved by a vote of the people of Colorado at a general or an odd-year election.

“Referred” means a provision that was amended by a measure referred by the General Assembly and voted on by the people of Colorado at a general or an odd-year election; except that, in the constitution, a referred measure is indicated by “L.” and also means constitutional measures referred by the General Assembly and voted on by the people of Colorado at a general or an odd-year election.

Starting in 2009, references to the bill number and chapter number have been included in the source note. If you are conducting a search on-line, the bill number reference within the source note links directly to the bill itself.

Colorado Statutory Research

Legislative history is not already written. It must be compiled by the researcher from many different sources and materials. The following information is a helpful starting point in identifying information you wish to research. Consult the red book table distributed with the session laws, the softbound editions of Colorado Revised Statutes beginning in 1997, the comparative tables located in the back of the C.R.S. index, C.R.S. 1963 and subsequent cumulative supplements thereto through 1971, and C.R.S. 1973 and annual cumulative supplements thereto through 1996.

Prior to 1921, enacted laws were not compiled into a comparative table, thereby making it more difficult to track the legislative history. Determining the subject matter in the statutory index is the only choice for tracking the history of a statute since a statute did not retain its original number. The General Statutes of 1883 arranged laws into numbered chapters, alphabetically entitled, collated, and arranged by sections. This became the foundation and

model for compiling the statutes until the codification of C.R.S. 1973. (See Revised Statutes of Colorado 1908, An Act Providing For the Compilation, Publication, and Distribution of all the general statutes of the state.)

References in some source notes throughout the Colorado Revised Statutes to “Code 08”, “Code 21”, and “Code 35” are to the Revised Statutes of Colorado 1908, the Compiled Laws of Colorado 1921, and the Colorado Statutes Annotated 1935, respectively. Each of these volumes set forth the general statutes of the state of Colorado, including the Code of Civil Procedure and, in 1935, the Colorado Supreme Court Rules. On January 6, 1941, the Colorado Supreme Court adopted the new Rules of Civil Procedure, which became effective on April 6, 1941, resulting in the publication of a replacement volume. Thereafter, the publication of the Colorado Court Rules, although a continuing part of the Colorado Revised Statutes, contained a combination of the Federal Rules and the Colorado Code of Civil Procedure and, in addition, included some provisions that were entirely distinct from both the Federal Rules and the Colorado Code of Civil Procedure, as adopted or amended by the Supreme Court of Colorado.

To research a statute as it existed in previous years, the following is a chronological list of C.R.S. publications and the correct citation for each publication.

Revised Statutes of Colorado	(1868)	R.S.
General Laws of Colorado	(1877)	G.L.
General Statutes of Colorado	(1883)	G.S.
Revised Statutes of Colorado	(1908)	R.S. 08
Compiled Laws of Colorado	(1921)	C.L.
Colorado Statutes Annotated	(1935)	CSA
Colorado Revised Statutes 1953	(1953)	CRS 53
Colorado Revised Statutes 1963	(1963)	C.R.S. 1963
Colorado Revised Statutes	(1973)	C.R.S.

Comparative Tables:

- R.S. 08 to C.L. 1921 - located in the front of the C.L. 1921
- C.L. 1921 to CSA 1935 - located in the back of the Index to CSA 1935
- CSA 1935 to CRS 1953 - located in the front of the Index to CRS 1953
- CRS 1953 to C.R.S. 1963 - located in the front of the Index to C.R.S. 1963
- C.R.S. 1963 to C.R.S. - located in the back of the Index to C.R.S.

Supplements to C.R.S. 1963 include:

- 1965 hardbound supplement containing laws enacted in 1964 and 1965
- 1967 hardbound supplement containing laws enacted in 1966 and 1967
- 1969 hardbound supplement containing laws enacted in 1968 and 1969
- 1971 hardbound supplement containing laws enacted in 1970 and 1971

The softbound publication of the “Official Report of the Committee on Legal Services” was not intended as an official publication of our office. Copies were distributed to the members of the General Assembly for the purpose of certifying the laws enacted in the 1972 and 1973 Sessions for inclusion in the compilation of the 1973 C.R.S., which was not available until 1974. To find the 1972 or 1973 amended language, refer to the session laws of either 1972 or 1973.

Supplements and Replacement Volumes to C.R.S. 1973 and, on and after 1983, to Colorado Revised Statutes

Titles	Supplements to C.R.S. 1973 and, on and after 1983, to Colorado Revised Statutes	Replacement Volumes and Supplements to Replacement Volumes
Titles 25, 26, 27, & 28	1975-81 Supplements	1982 Replacement Volume 1983-88 Supplements 1989 Replacement Volume Vol. 11A - Title 25 1990-96 Supplements Vol. 11B - Titles 26-28 1990-96 Supplements

Starting in 1997, annual softbound volumes are published each year.

**Bills Enacted Without A Safety Clause
Explanation of Effective Date**

If a bill is enacted without a safety clause and an effective date is not indicated in the bill, the effective date is the day following the expiration of the ninety-day period after final adjournment of the General Assembly that is allowed for submitting a referendum petition pursuant to article V, section 1 (3) of the state Constitution unless a referendum petition is filed against the act within such time period. If a referendum petition is filed, the act, if approved by the people, will take effect on the date of the official declaration of the vote thereon by proclamation of the Governor or the date indicated in the act if it is later than the Governor’s proclamation. The source note for a provision contained in such an act will indicate the actual date following the ninety-day period or the date set out in the act. If a referendum petition is filed, the date in the source note will be adjusted accordingly in the next publication following the election where the referendum petition is considered.

Annotations

Beginning in 2012, the annotations for Colorado state appellate court decisions include both public domain and regional reporter case cites. In preparing annotations to court decisions, we endeavor to include the most recent decisions. Occasionally, this may result in the inclusion of a decision before it becomes finalized and published in an official reporter. In such instances, the case cite will contain blank spaces for the volume and page number of the reporter. The volume and page number will be substituted for the blank spaces in subsequent publications of the statutes.

- 25-1-518. Nuisances.
- 25-1-519. Existing intergovernmental agreements.
- 25-1-520. Clean syringe exchange programs - approval - reporting requirements - repeal.

PART 6

LOCAL BOARDS OF HEALTH

- 25-1-601 to
25-1-667. (Repealed)

PART 7

REGIONAL HEALTH DEPARTMENTS

- 25-1-701 to
25-1-719. (Repealed)

PART 8

PATIENT RECORDS

- 25-1-801. Patient records in custody of health care facility.

- 25-1-802. Patient records in custody of individual health care providers.
- 25-1-803. Effect of this part 8 on similar rights of a patient.

PART 9

ADVISORY COMMISSION ON FAMILY MEDICINE

- 25-1-901. Legislative declaration.
- 25-1-902. Commission created - composition - terms of office.
- 25-1-903. Duties of commission.
- 25-1-904. Sunset review. (Repealed)

PART 10

CHILD CARE PROGRAMS IN NURSING HOME FACILITIES

- 25-1-1001. Legislative declaration.
- 25-1-1002. Definitions.
- 25-1-1003. Grant program - requirements - use of medical assistance funds prohibited.
- 25-1-1004. Study of statutes and rules and regulations pertaining to nursing home facilities and day care centers.

PART 11

DRUG ABUSE PREVENTION, EDUCATION, AND TREATMENT

- 25-1-1100.2 to
25-1-1112. (Repealed)

PART 12

MEDICAL RECORD CONFIDENTIALITY

- 25-1-1201. Legislative declaration.
- 25-1-1202. Index of statutory sections regarding medical record confidentiality and health information.
- 25-1-1203. Electronic storage of medical records.
- 25-1-1204. On-line exchange of advanced directives forms permitted.

PART 13

CLIMATE CHANGE MARKETS GRANT PROGRAM

- 25-1-1301. Short title.
- 25-1-1302. Legislative declaration.
- 25-1-1303. Grants for research - reports to general assembly.

PART 14

HEALTH INFORMATION TECHNOLOGY

25-1-1401 to
25-1-1403. (Repealed)

PART 1

DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT

25-1-101. Construction of terms. (1) When any law of this state refers to the executive director of the state department of public health or of the department of health, said law shall be construed as referring to the executive director of the department of public health and environment.

(2) Whenever any law of this state refers to the state department of public health or to the department of health, said law shall be construed as referring to the department of public health and environment.

Cross references: For the legislative declaration contained in the 1993 act amending this section, see section 1 of chapter 230, Session Laws of Colorado 1993.

ANNOTATION

This article is a legislative declaration of the prevailing policy of Colorado in connection with the practice of medicine and the operation of hospitals. Moon v. Mercy Hosp., 150 Colo. 430, 373 P.2d 944 (1962).

Overview of the state's three-tiered public health system and the responsibilities delegated under parts 5 and 6 of this article appears in

Jefferson County Health Servs. Ass'n v. Feeney, 974 P.2d 1001 (Colo. 1998).

County board of health, not the board of county commissioners, is the "governing body" of a county health department for purposes of notice under the Governmental Immunity Act. Jefferson County Health Servs. Ass'n v. Feeney, 974 P.2d 1001 (Colo. 1998).

25-1-101.5. Authority of revisor of statutes to amend references to department - affected statutory provisions. The revisor of statutes is hereby authorized to change all references in the Colorado Revised Statutes to the department of health from said reference to the department of public health and environment, as appropriate. In connection with such authority, the revisor of statutes is hereby authorized to amend or delete provisions of the Colorado Revised Statutes so as to make the statutes consistent with the renaming of the department to the department of public health and environment.

Source: L. 93: Entire section added, p. 1095, § 10, effective July 1, 1994.

Cross references: For the legislative declaration contained in the 1993 act enacting this section, see section 1 of chapter 230, Session Laws of Colorado 1993.

25-1-102. Department created - executive director - divisions. (1) There is hereby created a department of public health and environment, referred to in this part 1 and article 1.5 of this title as the "department". The head of the department shall be the executive director of the department of public health and environment, which office is hereby created. The governor shall appoint said executive director, with the consent of the senate, and the executive director shall serve at the pleasure of the governor. The reappointment of an executive director after initial election of a governor shall be subject to the provisions of section 24-20-109, C.R.S. The executive director shall administer the department, subject to the authority of the state board of health, the air quality control commission, the state water quality control commission, and the solid and hazardous waste commission.

- (2) The department shall consist of the following divisions:
- (a) The division of administration, and such sections and units established as provided by law.
- (b) (Deleted by amendment, L. 93, p. 1095, § 11, effective July 1, 1994.)

L. 79: (1) amended, p. 1058, § 4, effective June 20. L. 86: (1) amended, p. 888, § 18, effective May 23. L. 92: (1) amended, p. 1235, § 2, effective August 1. L. 93: Entire section amended, p. 1095, § 11, effective July 1, 1994. L. 2003: (1) amended, p. 706, § 29, effective July 1. L. 2006: (1) amended, p. 1138, § 26, effective July 1.

Cross references: For the legislative declaration contained in the 1993 act amending this section, see section 1 of chapter 230, Session Laws of Colorado 1993.

25-1-103. State board of health created. (1) There is hereby created a state board of health, referred to in this part 1 as the “board”, which shall consist of nine members, of which one member shall be appointed by the governor, with the consent of the senate, from each congressional district and the remainder from the state at large. A vacancy on the board occurs whenever any member moves out of the congressional district from which he was appointed. A member who moves out of such congressional district shall promptly notify the governor of the date of such move, but such notice is not a condition precedent to the occurrence of the vacancy. The governor shall fill the vacancy by appointment for the unexpired term. No more than five members of the board shall be members of the same major political party. Appointments made to take effect on January 1, 1983, shall be made in accordance with section 24-1-135, C.R.S. Appointments thereafter shall be made, with the consent of the senate, for terms of four years each and shall be made so that no business or professional group shall constitute a majority of the board. In making appointments to the board, the governor is encouraged to include representation by at least one member who is a person with a disability, as defined in section 24-45.5-102 (2), C.R.S., a family member of a person with a disability, or a member of an advocacy group for persons with disabilities, provided that the other requirements of this subsection (1) are met.

(2) The first vacancy that occurs on the board after July 1, 1977, shall be filled by the appointment of a person who is then serving as a county commissioner. Thereafter, as vacancies occur and terms expire, there shall always be one county commissioner member on the board. Whenever a county commissioner ceases to hold the office of county commissioner, he ceases to hold his position as a member of the board. A county commissioner shall not vote on any matter coming before the board which affects his county in a manner significantly different from the manner in which it affects other counties.

L. 82: (1) amended, p. 356, § 15, effective April 30. L. 2009: (1) amended, (HB 09-1281), ch. 399, p. 2154, § 3, effective August 5.

Cross references: For the transfer of the state board of health to an administrative department, see § 24-1-119.

25-1-104. State board - organization. The board shall elect from its members a president, a vice-president, and such other board officers as it shall determine. The executive director of the department, in the discretion of the board, may serve as secretary of the board but shall not be eligible to appointment as a member. All board officers shall hold their offices at the pleasure of the board. Regular meetings of the board shall be held not less than once every three months at such times as may be fixed by resolution of the board. Special meetings may be called by the president, by the executive director of the department, or by a majority of the members of the board at any time on three days' prior notice by mail or,

in case of emergency, on twenty-four hours' notice by telephone or telegraph. The board shall adopt, and at any time may amend, bylaws in relation to its meetings and the transaction of its business. A majority shall constitute a quorum of the board. Members shall receive the same per diem compensation and reimbursement of expenses as those provided for members of boards and commissions in the division of professions and occupations pursuant to section 24-34-102 (13), C.R.S. All meetings of the board, in every suit and proceeding, shall be taken to have been duly called and regularly held, and all orders and proceedings of the board to have been authorized, unless the contrary is proved.

25-1-105. Executive director - chief medical officer - qualifications - salary - office.

(1) The executive director of the department shall:

(a) Have a degree of doctor of medicine or doctor of osteopathy, be licensed to practice medicine in the state of Colorado, and have at least one of the following qualifications:

(I) One year of graduate study in a school of public health;

(II) Not less than two years' experience in an administrative capacity in a health care organization;

(III) Four years of said experience when one year of graduate study in a school of public health has not been completed; or

(b) Have, at a minimum, experience or education in public administration and public or environmental health.

(2) (a) If the governor appoints an executive director who does not have the qualifications specified in paragraph (a) of subsection (1) of this section, the executive director of the department shall, pursuant to the provisions of section 13 of article XII of the state constitution, upon consultation with the governor, and with the consent of a majority of the members of the senate, appoint a chief medical officer. The chief medical officer shall have the qualifications specified in paragraph (a) of subsection (1) of this section and shall serve at the pleasure of the governor. The executive director shall initially appoint the chief medical officer no later than three months after the executive director's appointment has been confirmed by the senate.

(b) The chief medical officer shall provide independent medical judgment, guidance, and advice to the governor and to the executive director regarding medical and public health issues in all areas identified in article 1.5 of this title.

(c) The chief medical officer shall be afforded direct access to the governor and the governor's staff.

(3) The executive director shall receive such salary as may be fixed by the board subject to the state constitution and state laws and within the limits of funds made available to the department by appropriation of the general assembly or otherwise. The executive director shall be allowed traveling and subsistence expenses actually and necessarily incurred in the performance of the executive director's official duties when absent from his or her place of residence. The executive director shall be custodian of all property and records of the department.

25-1-106. Division personnel. The executive director of the department shall appoint the director of the division of administration, pursuant to the provisions of section 13 of article XII of the state constitution. Each subdivision (and section) of the division of administration shall be under the management of a head, and such heads and all other subordinate personnel of the division shall be appointed by the director of the division, subject to the constitution and state personnel system laws of the state, and shall possess

qualifications approved by the board. All personnel shall receive such compensation as fixed by the executive director with the approval of the board, subject to the constitution and state personnel system laws of the state and within the limits of funds made available to the department by appropriation of the general assembly or otherwise. With the approval of the executive director, employees shall also be allowed traveling and subsistence expenses actually and necessarily incurred in the performance of their official duties when absent from their places of residence.

§ 1, effective August 2. **L. 2001:** (1)(jj) added, p. 473, § 2, effective April 27; (1)(kk) added, p. 928, § 4, effective June 4; (1)(n)(I) amended, p. 1274, § 36, effective June 5; (1)(a.5)(IV), (1)(a.5)(V), and (1)(a.5)(VI) added, p. 824, § 1, effective August 8. **L. 2002:** (1)(x)(VII)(C.5) amended, p. 1024, § 45, effective June 1; (1)(l)(I) and (4) amended, p. 1327, § 14, effective July 1; (1)(m) amended, p. 411, § 4, effective July 1; (1)(q) amended, p. 427, § 3, effective July 1. **L. 2003:** (1)(II) added, p. 1035, § 7, effective April 17; (1)(ee)(II.5)(A) and (1)(ee)(II.5)(C) amended, p. 1997, § 45, effective May 22; entire section repealed, p. 676, § 1, effective July 1; IP(1)(a.5)(IV) amended, p. 1617, § 23, effective August 6.

Editor's note: This section was repealed, effective July 1, 2003, and relocated to article 1.5 of this title. Prior to its repeal, this section was amended by House Bill 03-1266, House Bill 03-1344, and House Bill 03-1100. Those amendments have been relocated and harmonized with article 1.5 of this title. Amendments to the introductory portion to subsection (1)(a.5)(IV) by House Bill 03-1266 were harmonized with Senate Bill 03-002 and relocated to the introductory portion to § 25-1.5-102 (1)(b)(IV). Amendments to subsections (1)(ee)(II.5)(A) and (1)(ee)(II.5)(C) by House Bill 03-1344 were harmonized with Senate Bill 03-002 and relocated to § 25-1.5-301 (2)(a) and (2)(b.5), respectively. Subsection (1)(II) as enacted by House Bill 03-1100 was harmonized with Senate Bill 03-002 and relocated to § 25-1.5-101 (1)(y).

25-1-107.5. Additional authority of department - rules - remedies against nursing facilities - criteria for recommending assessments for civil penalties - cooperation with department of health care policy and financing - nursing home penalty cash fund - accountability board - reports - repeal. (1) For the purposes of this section, unless the context otherwise requires:

(a) "Accountability board" means the nursing facility culture change accountability board, authorized by subsection (6) of this section.

(b) "Federal regulations for participation" means the regulations found in part 442 of title 42 of the code of federal regulations, as amended, for participation under Title XIX of the federal "Social Security Act", as amended.

(c) "Nursing facility" means any skilled or intermediate nursing care facility that receives federal and state funds under Title XIX of the federal "Social Security Act", as amended.

(2) The department, as the state agency responsible for certifying nursing facilities, is authorized to adopt rules necessary to establish a series of remedies in accordance with this section and the federal "Omnibus Budget Reconciliation Act of 1987", Pub.L. 100-203, as amended, that may be imposed by the department of health care policy and financing when a nursing facility violates federal regulations for participation in the medicaid program. The remedies shall include any remedies required under federal law and the imposition of civil money penalties.

(3) (a) In accordance with rules promulgated under this section, the department is authorized to recommend to the department of health care policy and financing an appropriate civil money penalty based on the nature of the violation. Any penalties recommended shall not be less than one hundred dollars nor more than ten thousand dollars for each day the facility is found to be in violation of the federal regulations. Penalties assessed shall include interest at the statutory rate.

(b) The department shall adopt criteria for determining the amount of the penalty to be recommended for assessment. The criteria shall include, but need not be limited to, consideration of the following factors:

- (I) The period during which the violation occurred;
- (II) The frequency of the violation;
- (III) The nursing facility's history concerning the type of violation for which the penalty is assessed;
- (IV) The nursing facility's intent or reason for the violation;
- (V) The effect, if any, of the violation on the health, safety, security, or welfare of the residents of the nursing facility;

(VI) The existence of other violations, in combination with the violation for which the penalty is assessed, that increase the threat to the health, safety, security, or welfare of the residents of the nursing facility;

(VII) The accuracy, thoroughness, and availability of records regarding the violation that the nursing facility is required to maintain; and

(VIII) The number of additional related violations occurring within the same period as the violation in question.

(c) (I) If the department finds that a violation is life threatening to one or more residents or creates a direct threat of serious adverse harm to the health, safety, security, rights, or welfare of one or more residents, the department of health care policy and financing shall impose a penalty for each day the deficiencies that constitute the violation are found to exist.

(II) Except as provided in subparagraph (I) of this paragraph (c), the department of health care policy and financing shall not assess a penalty prior to the date a nursing facility receives written notice from the department of its recommendation to assess civil money penalties. The department shall provide the notice to the facility no later than five days after the last day of the inspection or survey during which the deficiencies that constitute the violation were found. The notice shall:

(A) Set forth the deficiencies that are the basis for the recommendation to assess a penalty;

(B) Provide instructions for responding to the notice; and

(C) Require the nursing facility to submit a written plan of correction. The department shall adopt criteria for the submission of written plans of correction by nursing facilities and approval of the plans by the department. If the facility acts in a timely and diligent manner to correct the violation in accordance with an approved plan of correction, the department may recommend to the department of health care policy and financing that it suspend or reduce the penalty during the period of correction specified in the approved plan of correction.

(d) Except as provided in sub-subparagraph (C) of subparagraph (II) of paragraph (c) of this subsection (3), the department of health care policy and financing shall continue to assess any penalty recommended under this section until the department verifies to the department of health care policy and financing that the violation is corrected or until the nursing facility notifies the department that correction has occurred, whichever is earlier. If the penalty has been suspended or reduced pursuant to sub-subparagraph (C) of subparagraph (II) of paragraph (c) of this subsection (3) and the nursing facility has not corrected the violation, the department of health care policy and financing shall reinstate the penalty at an increased amount and shall retroactively assess the penalty to the date the penalty was suspended.

(4) (a) The department of health care policy and financing, after receiving a recommendation from the department, is authorized to assess, enforce, and collect the civil money penalty pursuant to section 25.5-6-205, C.R.S., for credit to the nursing home penalty cash fund, created pursuant to section 25.5-6-205 (3) (a), C.R.S.

(b) (I) The department of public health and environment and the department of health care policy and financing have joint authority for administering the nursing home penalty cash fund; except that final authority regarding the administration of moneys in the fund is in the department of health care policy and financing.

(II) The authority of both departments includes establishing circumstances under which funds may be distributed in order to protect the health or property of individuals residing in nursing facilities that the department of health care policy and financing has found to be in violation of federal regulations for participation in the medicaid program.

(III) The department of health care policy and financing shall promulgate rules necessary to ensure proper administration of the nursing home penalty cash fund.

(c) The departments shall consider, as a basis for distribution from the nursing home penalty cash fund, the following:

(I) The need to pay costs to:

(A) Relocate residents to other facilities when a nursing facility closes;

(B) Maintain the operation of a nursing facility pending correction of violations;

- (C) Close a nursing facility;
- (D) Reimburse residents for personal funds lost;
- (II) Measures that will benefit residents of nursing facilities by improving their quality of life at the facilities, including:
 - (A) Consumer education to promote resident-centered care in nursing facilities;
 - (B) Training for state surveyors, supervisors, and the state and local long-term care ombudsman, established pursuant to article 11.5 of title 26, C.R.S., regarding resident-centered care in nursing facilities;
 - (C) Development of a newsletter and web site detailing information on resident-centered care in nursing facilities and related information; and
 - (D) Education and consultation for purposes of identifying and implementing resident-centered care initiatives in nursing facilities.
- (d) (I) The departments shall distribute the following amounts of moneys in the nursing home penalty cash fund for the purposes described in subparagraph (II) of paragraph (c) of this subsection (4):
 - (A) For the 2009-10 fiscal year, two hundred thousand dollars;
 - (B) For the 2010-11 fiscal year and each fiscal year thereafter, an amount equal to the lesser of the amount specified in a budget approved by the accountability board or twenty-five percent of the moneys deposited into the nursing home penalty cash fund in the immediately preceding fiscal year.
- (II) The departments may allocate the moneys specified in this paragraph (d) on a quarterly basis, but in no case shall the total amount distributed in any given fiscal year exceed the amount specified in subparagraph (I) of this paragraph (d).
- (III) Notwithstanding subparagraph (I) of this paragraph (d), the departments shall ensure that the balance of the nursing home penalty cash fund does not fall below one million dollars as a result of expenditures for the purposes described in subparagraph (II) of paragraph (c) of this subsection (4) and shall not distribute moneys pursuant to this paragraph (d) for such purposes if making a distribution would cause the fund balance to fall below the minimum balance required by this subparagraph (III).
- (IV) In determining how to allocate the moneys authorized to be distributed pursuant to this paragraph (d), the departments shall take into consideration the recommendations of the accountability board made pursuant to paragraph (c) of subsection (6) of this section. If the departments disagree with the recommendations of the accountability board, they shall meet with the accountability board to explain their rationale and shall seek to achieve a compromise with the accountability board regarding the allocation of the moneys. If a compromise cannot be achieved with regard to all or a portion of the moneys to be distributed, the medical services board created pursuant to section 25.5-1-301, C.R.S., shall have the final authority regarding the distribution of moneys for which a compromise has not been reached.
- (e) The departments shall not utilize moneys from the nursing home penalty cash fund for the purpose of paying their cost for administering such fund or for any administration costs associated with any specific movement, association, or organization; except that up to ten percent of the moneys distributed pursuant to paragraph (d) of this subsection (4) may be used to pay the cost to administer and operate the accountability board, including expense reimbursement for accountability board members.
- (5) Repealed.
- (6) (a) No later than September 1, 2009, the nursing facility culture change accountability board shall be established and operated under the department of health care policy and financing either directly or by contract with or grant to any public agency or appropriate private nonprofit organization. The department of health care policy and financing, in consultation with stakeholders, shall determine the appropriate entity to administer the accountability board. The accountability board shall be composed of ten members as follows:
 - (I) The state long-term care ombudsman or his or her designee;
 - (II) The executive director of the department of health care policy and financing or the executive director's designee;

(III) The executive director of the department of public health and environment or the executive director's designee;

(IV) Seven members appointed by the governor as follows:

- (A) Three members currently employed in long-term care nursing facilities;
- (B) One member who is or represents a consumer of long-term care;
- (C) One member representing the disability community who is either a resident of a nursing facility or a family member of a nursing facility resident;
- (D) One member representing the business community; and
- (E) One member representing the Colorado culture change coalition, or its successor organization.

(b) The members of the accountability board shall serve without compensation but may be reimbursed for expenses incurred while serving on the accountability board.

(c) The accountability board shall review and make recommendations to the departments regarding the use of moneys in the nursing home penalty cash fund for the purposes described in subparagraph (II) of paragraph (c) of subsection (4) of this section.

(d) By October 1, 2010, and by each October 1 thereafter, the departments, with the assistance of the accountability board, shall jointly submit a report to the governor and the health and human services committees of the senate and house of representatives of the general assembly, or their successor committees, regarding the expenditure of moneys in the nursing home penalty cash fund for the purposes described in subparagraph (II) of paragraph (c) of subsection (4) of this section. The report shall detail the amount of moneys expended for such purposes, the recipients of the funds, the effectiveness of the use of the funds, and any other information deemed pertinent by the departments or requested by the governor or the committees.

(7) (a) Subparagraph (II) of paragraph (c) of subsection (4) of this section, subsection (6) of this section, and this subsection (7) are repealed, effective September 1, 2016.

(b) Prior to such repeal, the nursing facility culture change accountability board and its functions, and the use of moneys in the nursing home penalty cash fund for the purposes described in subparagraph (II) of paragraph (c) of subsection (4) of this section, shall be reviewed pursuant to section 24-34-104, C.R.S.

ANNOTATION

Section does not require recipient to exhaust all administrative remedies prior to filing a common law tort claim against provider. Reimbursement of amounts paid by or on behalf of the recipient was not available through

the administrative process and therefore administrative process was not a prerequisite to filing claims. *Salas v. Grancare, Inc.*, 22 P.3d 568 (Colo. App. 2001).

25-1-108. Powers and duties of state board of health. (1) In addition to all other powers and duties conferred and imposed upon the state board of health by the provisions of this part 1, the board has the following specific powers and duties:

(a) To determine general policies to be followed by the division of administration in administering and enforcing the public health laws and the orders, standards, rules, and regulations of the board;

(b) To act in an advisory capacity to the executive director of the department on all matters pertaining to public health;

(c) (I) To issue from time to time such orders, to adopt such rules and regulations, and to establish such standards as the board may deem necessary or proper to carry out the provisions and purposes of this part 1 and to administer and enforce the public health laws of this state;

(II) To adopt rules and regulations and standards concerning building regulations and fire safety for skilled and intermediate health care facilities. The enforcement of these rules and regulations may be waived by the board for periods of time as recommended by the department if the rigid application thereof would result in demonstrated financial hardship to a skilled or intermediate facility, but only if the waiver will not adversely affect the health and safety of patients.

(III) All rules, regulations, and standards adopted prior to February 21, 1947, by the board concerning building regulations or fire safety for nursing homes which are more strict than those provided by the highest standards as set forth in this paragraph (c) are nullified by this section, but nothing contained in this paragraph (c) shall be construed to prevent the department from adopting and enforcing, with respect to projects for which federal assistance has been obtained or shall be requested, such higher standards as may be required by applicable federal laws or regulations of federal agencies responsible for the administration of such federal laws.

(IV) For the purpose of this part 1, all rules, regulations, and standards adopted prior to February 21, 1947, by the board or any board, office, or bureau whose duties are by virtue of this section transferred to the board or the department, in effect immediately prior to February 21, 1947, and not inconsistent with the authority of the board as provided in this part 1 shall remain in full force and effect until superseded by rules, regulations, or standards duly adopted pursuant to this paragraph (c) by the board in conformance with this part 1, to the same effect as though such rules, regulations, and standards were adopted subsequent to the passage of this part 1 in full conformance therewith.

(V) Repealed.

(VI) To adopt rules and to establish such standards as the board may deem necessary or proper to assure that hospitals, other acute care facilities, county, district, and municipal public health agencies, trauma centers, area trauma advisory councils, and managed care organizations are prepared for an emergency epidemic, as defined in section 24-32-2103 (1.7), C.R.S., that is declared to be a disaster emergency, including the immediate investigation of any case of a suspected emergency epidemic.

(d) To hold hearings, administer oaths, subpoena witnesses, and take testimony in all matters relating to the exercise and performance of the powers and duties vested in or imposed upon the board. The board may designate an administrative law judge appointed pursuant to part 10 of article 30 of title 24, C.R.S., to conduct hearings for the board, pursuant to section 24-4-105, C.R.S., and to carry out such administrative and other duties of the board as the board may require in the conduct of its hearings.

(e) To establish and appoint, as the board may deem necessary or advisable, special advisory committees to advise and confer with the board concerning the public health aspects of any business, profession, or industry within the state of Colorado. Any committee established and appointed under the provisions of this section shall act only in an advisory capacity to the board and shall meet with the board at least once each year at such regular meeting of the board as may be designated by the board and at such other times as such committee may be called into meeting by the president of the board. Members of any special advisory committee shall serve without compensation but may, in the discretion of the board, be allowed actual and necessary traveling and subsistence expenses when in attendance at meetings away from their places of residence.

(f) To accept and, through the division of administration, use, disburse, and administer all federal aid or other property, services, and moneys allotted to the department for state and local public works or public health functions, or allotted without designation of a specific agency for purposes which are within the functions of the department; and to

prescribe, by rule or regulation not inconsistent with the laws of this state, the conditions under which such property, services, or moneys shall be accepted and administered. On behalf of the state, the board is empowered to make such agreements, with the approval of the attorney general, not inconsistent with the laws of this state, as may be required as a condition precedent to receiving such funds or other assistance.

(g) Repealed.

(h) To comply with the requirements of section 24-1-136.5, C.R.S., concerning the preparation of operational master plans, facilities master plans, and facilities program plans, as if the state board of health were the executive director of the department.

(2) The board shall act only by resolution adopted at a duly called meeting of the board, and no individual member of the board shall exercise individually any administrative authority with respect to the department.

(3) In the exercise of its powers, the department shall not promulgate any rule or standard that limits or interferes with the ability of an individual to enter into a contract with a private pay facility concerning the programs or services provided at the private pay facility. For the purposes of this subsection (3), "private pay facility" means a skilled nursing facility or intermediate care facility subject to the requirements of section 25-1-120 or an assisted living residence licensed pursuant to section 25-27-105 that is not publicly funded or is not certified to provide services that are reimbursed from state or federal assistance funds.

(4) and (5) Repealed.

ANNOTATION

Regulations held not unconstitutionally applied. Federal regulations adopted by the department of health were held not to be so vague that their application would deprive the regulated party of procedural due process. *Geriatrics, Inc. v. State Dept. of Health*, 650 P.2d 1288 (Colo. App. 1982), *aff'd in part, rev'd in part* on other grounds, 699 P.2d 952 (Colo. 1985).

State licensing standards which provided the basis for the revocation of a nursing facility's

operating license were not in violation of the regulated party's due process rights for the regulations were detailed and specific and the final agency decision set out detailed findings concerning the revocation of the operating license. *State Dept. of Health v. Geriatrics*, 699 P.2d 952 (Colo. 1985).

Applied in *Winkler v. State Dept. of Health*, 193 Colo. 170, 564 P.2d 107 (1977).

25-1-108.5. Additional powers and duties of state board of health and department - programs that receive tobacco settlement moneys - monitoring - annual report.

(1) As used in this section:

- (a) "Health sciences facility" has the meaning set forth in section 25-31-103.
- (b) "Master settlement agreement" means the master settlement agreement, the smokeless tobacco master settlement agreement, and the consent decree approved and entered by the court in the case denominated *State of Colorado, ex rel. Gale A. Norton, Attorney General v. R.J. Reynolds Tobacco Co.; American Tobacco Co., Inc.; Brown & Williamson Tobacco Corp.; Liggett & Myers, Inc.; Lorillard Tobacco Co., Inc.; Philip Morris, Inc.; United States Tobacco Co.; B.A.T. Industries, P.L.C.; The Council For Tobacco Research—U.S.A., Inc.; and Tobacco Institute, Inc.*, Case No. 97 CV 3432, in the district court for the city and county of Denver.
- (c) "Nurse home visitor program" means the tobacco settlement program established in article 31 of this title.

(d) "Tobacco settlement program" means any program that receives appropriations from moneys received by the state pursuant to the master settlement agreement.

(2) Except for the nurse home visitor program, which shall be monitored by the health sciences facility in accordance with section 25-31-105 (1), the state board and the department shall monitor the operation and effectiveness of tobacco settlement programs. Each tobacco settlement program shall annually submit to the department, in accordance with rules promulgated by the state board, the following information:

- (a) The amount of tobacco settlement moneys received by the program for the preceding fiscal year;
- (b) A description of the program, including the program goals, the population served by the program, including the actual number of persons served, and the services provided through the program;
- (c) Information evaluating the operation of the program, including the effectiveness of the program in achieving its stated goals; and
- (d) Any other information required by rule of the state board.

(3) (a) On or before January 15, 2002, and on or before each January 15 thereafter, the department shall submit to the joint budget committee, the health and human services committees of the senate and the house of representatives, or any successor committees, the attorney general, and the governor a report summarizing the information received by the department pursuant to subsection (2) of this section. In addition, the report shall include:

(I) The reports prepared by the state auditor during the preceding fiscal year pursuant to section 2-3-113, C.R.S., reviewing and evaluating tobacco settlement programs, so long as such reports have been previously released by the audit committee; and

(II) The state board's recommendations concerning any programs for which funding should be discontinued and any additional programs for which the general assembly should consider appropriating moneys received pursuant to the master settlement agreement.

(b) The report prepared pursuant to this subsection (3) shall also be available upon request to any member of the public.

(4) The state board shall adopt rules to ensure that no person who is involved in evaluating tobacco settlement programs pursuant to this section has a conflict of interest in conducting such evaluations, including but not limited to any conflict involving the person and the recipient of any tobacco settlement program moneys and any conflict involving the person and the tobacco industry. If the state board determines that a person has a conflict, as described by rule, the state board shall prohibit that person from participating in any reviews that may be affected by the conflict.

(5) Each tobacco settlement program shall pay a proportionate share of the costs incurred by the department in implementing the requirements of this section, with the amount paid by each tobacco settlement program proportionate to the amounts annually appropriated to each tobacco settlement program from the master settlement agreement; except that the total amount of the program evaluation costs shall not exceed four-tenths of one percent of the total amount of moneys received by the state pursuant to the master settlement agreement in any fiscal year.

Source: **L. 2000:** Entire section added, p. 592, § 2, effective May 18. **L. 2002:** (5) amended, p. 778, § 2, effective May 30. **L. 2003:** (5) amended, p. 1665, § 2, effective July 1. **L. 2007:** IP(3)(a) amended, p. 2040, § 63, effective June 1. **L. 2010:** (1), IP(2), and (5) amended, (SB 10-073), ch. 386, p. 1807, § 2, effective June 30.

25-1-108.7. Health care credentials uniform application act - legislative declaration - definitions - state board of health rules. (1) This section shall be known and may be cited as the “Health Care Credentials Uniform Application Act”.

(2) The purpose of the “Health Care Credentials Uniform Application Act” is to make credentialing more efficient, less costly, and less duplicative by making it uniform through the use of a single application form for the collection of core credentials data for use by entities.

(3) As used in this section, unless the context otherwise requires:

(a) “Core credentials data” means data, information, or answers to questions that are collected and retained and that are common and necessary for the credentialing or recredentialing of a health care professional, but does not include additional nonduplicative credentials data deemed essential by a credentialing entity to complete credentialing.

(b) “Credentialing” means the process of assessing and validating the qualifications of a health care professional.

(c) “Credentialing entity” means any health care entity or health care plan that is engaged in the collection of information to be used in the process of credentialing or recredentialing of health care professionals.

(d) “Health care entity” means any of the following that require health professionals to submit credentials data:

(I) A health care facility or other health care organization licensed or certified to provide medical or health services in Colorado;

(II) A health care professional partnership, corporation, limited liability company, professional services corporation, or group practice;

(III) An independent practice association or physician-hospital organization;

(IV) A professional liability insurance carrier; or

(V) An insurance company, health maintenance organization, or other entity that contracts for the provision of health benefits.

(e) “Health care plan” means any entity that is licensed by the division of insurance as a prepaid health care plan, health maintenance organization, or insurer and that requires the submission of credentials data.

(f) “Health care professional” means a physician, dentist, dental hygienist, chiropractor, podiatrist, psychologist, advanced practice nurse, optometrist, physician assistant, licensed clinical social worker, child health associate, marriage and family therapist, or other health care professional who is registered, certified, or licensed pursuant to title 12, C.R.S.; who is subject to credentialing; and who practices, or intends to practice, in Colorado.

(g) “Nonspecific credentials data” means credentials data that is aggregated and reported without reference to the identity of the individual health care professional to whom it pertains.

(4) (a) Nothing in this section shall be construed to restrict the authority of any health care entity or health care plan to approve, suspend, or deny an application for insurance, staff membership, clinical privileges, or managed care network participation. This section shall not be construed to apply to the licensing activities of any board responsible for licensing health care professionals.

(b) Nothing in this section shall be construed to require a credentialing entity to use a particular credentialing process or to restrict or require such an entity from using a particular vendor in the credentialing process.

(5) Upon the effective date of the rule established by the state board of health pursuant to paragraph (e) of subsection (6) of this section, a credentialing entity shall collect core credentials data through the use of the Colorado health care professional credentials application established pursuant to paragraph (a) of subsection (6) of this section. The form may be submitted electronically or by paper copy. The credentialing entity may require a

health care professional to answer only select provisions of the application according to the needs of the entity. Questions that are prohibited by law shall not be included in the request for credentialing data by the credentialing entity.

(6) (a) There is hereby established the health care credentials application review committee to recommend to the state board of health, and to periodically review, a single application form for the collection of core credentials data in this state. The form shall be known as the "Colorado health care professional credentials application". The review committee shall consist of the following eight members, who shall serve for terms of four years and who shall be appointed by the state board of health:

- (I) One member representing a statewide association or society of physicians;
- (II) One member representing a statewide association or society of Colorado hospitals;
- (III) One member representing a statewide association or society of health plans;
- (IV) One member representing a professional liability insurance carrier domiciled in Colorado that provides professional liability insurance to health care professionals in Colorado;
- (V) One member representing a statewide association or society of Colorado health care medical staff service specialists;
- (VI) One advanced practice nurse;
- (VII) Two members at large.

(b) Each board member may bring consultants and advisors to participate in board meetings. Consultants and advisors shall not have decision-making powers or voting privileges.

(c) The review committee shall be staffed by an entity approved by the Colorado medical board to collect medical license registration fees pursuant to section 12-36-123.5, C.R.S.

(d) Members of the review committee shall serve without compensation.

(e) Within one hundred twenty days after the time of appointment, the review committee shall make a recommendation to the state board of health regarding proposed contents of the Colorado health care professional credentials application. In accordance with section 24-4-103, C.R.S., the state board of health shall establish, by rule, the Colorado health care professional credentials application. The Colorado health care professional credentials application shall be the same as the provider application form developed by the council for affordable quality healthcare as of January 1, 2004, as modified, if necessary, to comply with Colorado law or as may be recommended by the majority of members of the review committee.

(f) The review committee shall meet at least annually to review and make any necessary recommendations for modifications to the Colorado health care professional credentials application to the state board of health.

(g) Initial appointments to the review committee shall be made on or before July 1, 2004. The state board of health shall appoint replacement members as necessary for a full committee.

(h) On or before September 1, 2008, the review committee shall make recommendations to the board concerning the feasibility of requiring all requests for additional credentials data deemed essential by a credentialing entity be uniform among all credentialing committees by July 1, 2009. On or before March 1, 2009, the review committee shall make recommendations to the board concerning the feasibility of requiring all Colorado health care professional credentials applications to be submitted through online electronic methods and that all health care entities required by this section to use the health care professional credentials application be required to accept and process the application through electronic means by January 1, 2010. If determined feasible by the board, the board shall establish by rule the standards, means, methods, and forms necessary to require the use of uniform supplemental questions and the submission, receipt, and processing of the health care professional credentials application electronically.

(7) Core credentials data collected and retained on behalf of a credentialing entity shall not be modified without the approval of the credentialing entity.

(8) The state board of health may promulgate rules as necessary to carry out the provisions of this section.

(9) (Deleted by amendment, L. 2008, p. 688, § 1, effective July 1, 2008.)

Source: L. 2004: Entire section added, p. 466, § 1, effective April 14. L. 2008: (2), (5), and (9) amended and (6)(h) added, pp. 688, 689, §§ 1, 2, effective July 1. L. 2010: (6)(c) amended, (HB 10-1260), ch. 403, p. 1990, § 85, effective July 1.

25-1-109. Powers and duties of division of administration. (1) In addition to the other powers and duties conferred and imposed in this part 1 upon the division of administration, the division, through the director or, upon the director's direction and under the director's supervision, through the other officers and employees of the division, has the following powers and duties:

(a) To administer and enforce the public health laws of the state of Colorado and the standards, orders, rules, and regulations established, issued, or adopted by the board;

(b) To exercise all powers and duties conferred and imposed upon the department not expressly delegated to the board by the provisions of this part 1;

(c) To hold hearings, administer oaths, subpoena witnesses, and take testimony in all matters relating to the exercise and performance of the powers and duties vested in or imposed upon the division of administration. The director may designate an administrative law judge appointed pursuant to part 10 of article 30 of title 24, C.R.S., to conduct hearings pursuant to section 24-4-105, C.R.S.

(d) Repealed.

(e) To supervise all subdivisions and boards of the department to determine that publications of the department and of any subdivisions thereof circulated in quantity outside the executive branch are issued in accordance with the provisions of section 24-1-136, C.R.S.;

(f) To appoint, pursuant to section 13 of article XII of the state constitution, a chief health inspector and such deputy inspectors as may be authorized. Such inspectors have the power to enter any workplace as provided in section 8-1-116, C.R.S. All expenses incurred by the division and its employees, pursuant to the provisions of this section, shall be paid from the funds appropriated for its use, upon approval of the director.

(g) Repealed.

(h) To administer and enforce the minimum general sanitary standards and regulations adopted pursuant to section 25-1.5-202.

L. 83: (1)(d) and (1)(e) amended, p. 839, § 58, effective July 1. L. 87: (1)(c) amended, p. 967, § 77, effective March 13. L. 96: (1)(d) repealed, p. 1256, § 145, effective August 7. L. 2003: IP(1) and (1)(h) amended, p. 706, § 31, effective July 1.

Cross references: For the legislative declaration contained in the 1996 act amending this section, see section 1 of chapter 237, Session Laws of Colorado 1996.

ANNOTATION

Subsection (1)(c) grants subject matter jurisdiction. Subsection (1)(c) gives the department of health subject matter jurisdiction to conduct hearings relating generally to health

matters, such as nursing care services. *Geriatrics, Inc. v. State Dept. of Health*, 650 P.2d 1288 (Colo. App. 1982), *aff'd in part and rev'd in part* on other grounds, 699 P.2d 952 (Colo. 1985).

25-1-110. Higher standards permissible. Nothing in this part 1 shall prevent any incorporated city, city and county, town, county, or other political subdivision of the state from imposing and enforcing higher standards than are imposed under this part 1.

Source: L. 47: p. 513, § 7A. CSA: C. 78, § 21(8). CRS 53: § 66-1-10. C.R.S. 1963: § 66-1-10.

25-1-111. Revenues of department.

(1) Repealed.

(2) The department of the treasury of this state is designated as custodian of all funds allotted to the state for the purpose outlined by section 25-1-108 (1) (f). Such funds and all other funds of the department shall be payable only on voucher signed by the executive director of the department and by the president of the board and shall be paid by warrant of the controller.

Source: L. 47: p. 514, § 9. CSA: C. 78, § 21(10). CRS 53: § 66-1-11. C.R.S. 1963: § 66-1-11. L. 87: (1) repealed, p. 1124, § 1, effective July 1.

25-1-112. Legal adviser - actions. The attorney general shall be the legal adviser for the department and shall defend it in all actions and proceedings brought against it. The district attorney of the judicial district in which a cause of action may arise shall bring any action, civil or criminal, requested by the executive director of the department to abate a condition which exists in violation of, or to restrain or enjoin any action which is in violation of, or to prosecute for the violation of or for the enforcement of the public health laws or the standards, orders, rules, and regulations of the department established by or issued under the provisions of this part 1. If the district attorney fails to act, the executive director may bring any such action and shall be represented by the attorney general or, with the approval of the board, by special counsel.

Source: L. 47: p. 514, § 10. CSA: C. 78, § 21(11). CRS 53: § 66-1-12. C.R.S. 1963: § 66-1-12.

25-1-113. Judicial review of decisions. (1) Any person aggrieved and affected by a decision of the board or the executive director of the department is entitled to judicial review by filing in the district court of the county of his residence, or of the city and county of Denver, within ninety days after the public announcement of the decision, an appropriate action requesting such review. The court may make any interested person a party to the action. The review shall be conducted by the court without a jury and shall be confined to the record, if a complete record is presented; except that, in cases of alleged irregularities in the record or in the procedure before the board or the division of administration, testimony may be taken in the court. The court may affirm the decision or may reverse or modify it if the substantial rights of the appellant have been prejudiced as a result of the findings and decisions of the board being: Contrary to constitutional rights or privileges; or in excess of the statutory authority or jurisdiction of the board or the executive director of the department; or affected by any error of law; or made or promulgated upon unlawful procedure; or unsupported by substantial evidence in view of the entire record as submitted; or arbitrary or capricious.

(2) Any party may have a review of the final judgment or decision of the district court by appellate review in accordance with law and the Colorado appellate rules.

Source: L. 47: p. 514, § 11. CSA: C. 78, § 21(12). CRS 53: § 66-1-13. C.R.S. 1963: § 66-1-13.

ANNOTATION

Claim of arbitrary refusal to grant license is cause of action. Petitioner states a cause of action under this section where he alleges that the state board of health has arbitrarily and capriciously refused to grant him a master

plumber's license although he has complied with all the requirements for the license. *Grimm v. State Bd. of Health*, 121 Colo. 269, 215 P.2d 324 (1950).

Action not controlled by C.R.C.P. 106. An

action under this section is a statutory action and is not controlled by C.R.C.P. 106. Grimm v. State Bd. of Health, 121 Colo. 269, 215 P.2d 324 (1950).

Court may enter own judgment. Under this section, the court may enter what is more or less its judgment because provision is made for the court to modify the decision of the board if it so concludes. Grimm v. State Bd. of Health, 121 Colo. 269, 215 P.2d 324 (1950).

No review of failure to act. This section does not provide for judicial review of the depart-

ment's failure to act. Nat'l Wildlife Fed'n v. Cotter Corp., 665 P.2d 598 (Colo. 1983).

County is a "person aggrieved and affected" by decision of department of public health and environment concerning the issuance of a hazardous waste permit. Adams Bd. of County Comm'rs v. Colo. Dept. of Pub. Health & Env't, 218 P.3d 336 (Colo. 2009).

Applied in Stone Environmental Eng'r Servs., Inc. v. State Dept. of Health, 631 P.2d 1185 (Colo. App. 1981).

25-1-114. Unlawful acts - penalties. (1) It is unlawful for any person, association, or corporation, and the officers thereof:

(a) To willfully violate, disobey, or disregard the provisions of the public health laws or the terms of any lawful notice, order, standard, rule, or regulation issued pursuant thereto; or

(b) To fail to make or file reports required by law or rule of the board relating to the existence of disease or other facts and statistics relating to the public health; or

(c) To conduct any business or activity over which the department possesses the power to license and regulate without such license or permit as required by the department; or

(d) To willfully and falsely make or alter any certificate or license or certified copy thereof issued pursuant to the public health laws; or

(e) To knowingly transport or accept for transportation, interment, or other disposition a dead body without an accompanying permit issued in accordance with the public health laws or the rules of the board; or

(f) To willfully fail to remove from private property under his control at his own expense, within forty-eight hours after being ordered so to do by the health authorities, any nuisance, source of filth, or cause of sickness within the jurisdiction and control of the department, whether such person, association, or corporation is the owner, tenant, or occupant of such private property; except that, if such condition is due to an act of God, it shall be removed at public expense; or

(g) To pay, give, present, or otherwise convey to any officer or employee of the department any gift, remuneration, or other consideration, directly or indirectly, which such officer or employee is forbidden to receive by the provisions of this part 1; or

(h) To make, install, maintain, or permit any cross-connection between any water system supplying drinking water to the public and any pipe, plumbing fixture, or water system which contains water of a quality below the minimum general sanitary standards as to the quality of drinking water supplied to the public or to fail to remove such connection within ten days after being ordered in writing by the department to remove the same. For the purposes of this paragraph (h), "cross-connection" means any connection which would allow water to flow from any pipe, plumbing fixture, or water system into a water system supplying drinking water to the public.

(i) To sell or offer for sale any raw milk, milk product, or unsanitary dairy product, as defined in section 25-5.5-104, for other than human consumption unless it has first been treated with a dye approved by the department.

(2) It is unlawful for any officer or employee of the department or member of the board to accept any gift, remuneration, or other consideration, directly or indirectly, for an incorrect or improper performance of the duties imposed upon him by or on behalf of the department.

(3) It is unlawful:

(a) For any officer or employee of the department to perform any work, labor, or services other than the duties assigned to him by or on behalf of the department during the hours such officer or employee is regularly employed by the department, or to perform his duties as an officer or employee of the department under any condition or arrangement that involves a violation of this or any other law of the state of Colorado;

(b) For any officer or employee of the department other than members of the board to perform any work, labor, or services which consist of the private practice of medicine, veterinary surgery, sanitary engineering, nursing, or any other profession which is or may be of special benefit to any private person, association, or corporation as distinguished from the department or the public generally, and which is performed by such officer or employee, directly or indirectly, for remuneration, whether done in an active, advisory, or consultative capacity or performed within or without the hours such officer or employee is regularly employed by the department.

(4) Except as provided in subsection (5) of this section, any person, association, or corporation, or the officers thereof, who violates any provision of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than one year, or by both such fine and imprisonment and, in addition to such fine and imprisonment, shall be liable for any expense incurred by health authorities in removing any nuisance, source of filth, or cause of sickness. Conviction under the penalty provisions of this part 1 or any other public health law shall not relieve any person from any civil action in damages that may exist for an injury resulting from any violation of the public health laws.

(5) (a) It is unlawful for any person, association, or corporation, or the officers thereof, to tamper, attempt to tamper, or threaten to tamper with a public water system or with drinking water after its withdrawal for or treatment by a public water system. For purposes of this subsection (5), "tamper" means to introduce a contaminant into a public water system or into drinking water or to otherwise interfere with drinking water or the operation of a public water system with the intention of harming persons or the public water system. "Tamper" does not include the standardized and accepted treatment procedures performed by a supplier of water in preparing water for human consumption.

(b) (I) Any person, association, or corporation, or the officers thereof, who tampers with a public water system or with drinking water after its withdrawal for or treatment by a public water system commits a class 3 felony and shall be punished as provided in section 18-1.3-401, C.R.S.

(II) Any person, association, or corporation, or the officers thereof, who attempts to tamper or threatens to tamper with a public water system or with drinking water after its withdrawal for or treatment by a public water system commits a class 5 felony and shall be punished as provided in section 18-1.3-401, C.R.S.

(III) Conviction under this subsection (5) shall not relieve any person from a civil action initiated pursuant to section 25-1-114.1.

L. 86: (1)(i) amended, p. 1220, § 25, effective May 30. L. 87: (4) amended and (5) added, p. 610, § 21, effective July 1. L. 2002: (5)(b)(I) and (5)(b)(II) amended, p. 1536, § 262, effective October 1.

Cross references: For the legislative declaration contained in the 2002 act amending this section, see section 1 of chapter 318, Session Laws of Colorado 2002.

25-1-114.1. Civil remedies and penalties. (1) The division of administration of the department may institute a civil action or administrative action, as described in subsection (2.5) of this section, against any person who violates a final enforcement order of the department issued for a violation of any minimum general sanitary standard or regulation adopted pursuant to section 25-1.5-202. Such civil action shall be brought in the district court of the county in which the violation of the standard or regulation is alleged to have occurred.

(2) Upon finding that a final enforcement order of the department has been violated and that the violation of the standard or regulation described in the order in fact occurred, the court shall:

(a) Impose a civil penalty on the violator of not more than one thousand dollars per day for each day the violation of the standard or regulation occurred if the court determines the violation was willful; or

(b) Enter such order as the public health may require, taking into consideration, where appropriate, the cost and time necessary to comply; or

(c) Impose such civil penalty and enter such order.

(2.5) (a) Any person who violates any minimum general sanitary standard and regulation promulgated pursuant to section 25-1.5-202 or 25-1-114 (1) (h), or any final enforcement order issued by the department, shall be subject to an administrative penalty as follows:

(I) For systems that serve a population of more than ten thousand people, an amount not to exceed one thousand dollars per violation per day; or

(II) For systems that serve a population of ten thousand people or less, an amount not to exceed one thousand dollars per violation per day, but only in an amount, as determined by the division, that is necessary to ensure compliance.

(b) Penalties under this subsection (2.5) shall be determined by the executive director or the executive director's designee and may be collected by the division of administration by an action instituted in a court of competent jurisdiction for collection of such penalty. The final decision of the executive director or the executive director's designee may be appealed to the water quality control commission, created pursuant to section 25-8-201. A stay of any order of the division ending judicial review shall not relieve any person from any liability with respect to past or continuing violations of any minimum general sanitary standard or any regulation promulgated pursuant to section 25-1.5-202 or 25-1-114 (1) (h), but the reason for the request for judicial review shall be considered in the determination of the amount of the penalty. In the event that such an action is instituted for the collection of such penalty, the court may consider the appropriateness of the amount of the penalty, if such issue is raised by the party against whom the penalty was assessed. Any administrative penalty collected under this section shall be credited to the general fund.

(3) The department may request the attorney general to bring a suit for a temporary restraining order or a preliminary or permanent injunction to prevent or abate any violation of a minimum general sanitary standard or regulation adopted pursuant to section 25-1.5-202 or to prevent or abate any release or imminent release that causes or is likely to cause contamination resulting in liability under section 25-1.5-207, and the department, in such a suit, may collect, on behalf of political subdivisions or public water systems, the damages incurred by such political subdivisions or public water systems under section 25-1.5-207. The department shall pay to such political subdivisions or public water systems all damages collected on their behalf. The department is not required to issue an enforcement order prior to institution of such a suit. Upon a de novo finding by the court that such a violation has occurred, is occurring, or is about to occur or that such release or imminent release exists, the court may enjoin such violation, release, or imminent release and enter such order as the public health may require, taking into consideration, where appropriate, the cost and time necessary to comply. An enforcement settlement with the state under the provisions of this subsection (3) shall bar a separate action by a political subdivision or public water system under section 25-1.5-207 whenever notice and adequate opportunity to comment on the proposed settlement have been given to the political subdivision or public water system, damages have been collected on behalf of and paid to such political subdivision or public water system by the state, and the release or imminent release has been prevented or abated by means of the settlement.

(4) Suits brought pursuant to subsection (3) of this section shall be brought in the district court of the county in which the violation is alleged to have occurred. The institution of such a suit by the division of administration shall confer upon such court exclusive jurisdiction to determine finally the subject matter of the proceeding; except that the exclusive jurisdiction of the court shall apply only to such proceeding and shall not preclude assessment of any civil penalties or any other enforcement action or sanction authorized by this section.

(4.5) An action for civil penalties under this section may be joined with a civil action to recover the state's costs pursuant to subsection (3) of this section.

(5) The powers of the department established by this section shall be in addition to, and not in derogation of, any powers of the department.

(6) (a) The attorney general, at the request of the department, or the district attorney of the county in which an affected public water system is located or the attorney of the supplier of water may institute a civil action against any person, association, or corporation, or the officers thereof, who tampers, attempts to tamper, or threatens to tamper with a public water system or with drinking water after its withdrawal for or treatment by a public water system. Such action shall be brought in the district court of the county in which the violation is alleged to have occurred. As used in this subsection (6), “tamper” means to introduce a contaminant into a public water system or into drinking water or to otherwise interfere with drinking water or the operation of a public water system with the intention of harming persons or public water systems. “Tamper” does not include the standardized and accepted treatment procedures performed by a supplier of water in preparing water for human consumption.

(b) Upon finding that tampering, attempting to tamper, or threatening to tamper has occurred, the court shall have the authority to:

(I) Order appropriate injunctive relief;

(II) Impose a civil penalty on the violator of not more than fifty thousand dollars for each act of tampering or of not more than twenty thousand dollars for each act of attempting to tamper or threatening to tamper;

(III) Impose on the violator all costs incurred by the state and by the affected public water system in assessing and remedying all consequences of the tampering, attempting to tamper, or threatening to tamper; and

(IV) Impose on the violator all court costs associated with remedying consequences of the tampering, attempting to tamper, or threatening to tamper.

(7) Any person subject to an action brought pursuant to subsection (3) of this section or section 25-1.5-207 shall have an affirmative defense to such action if such person’s potential liability results from a discharge of contaminants or substances authorized by and in substantial compliance with an existing federal or state permit which controls the quality of the release of the contaminant or substance.

ANNOTATION

Law reviews. For article, “Local Governments and the Environment: Part I, CERCLA”, see 17 Colo. Law. 1997 (1988). For article,

“Local Governments and the Environment: Part II, RCRA”, see 17 Colo. Law. 2159 (1988).

25-1-114.5. Voluntary disclosure arising from self-evaluation - presumption against imposition of administrative or civil penalties. (1) For the purposes of this section, a disclosure of information by a person or entity to any division or agency within the department of public health and environment regarding any information related to an environmental law is voluntary if all of the following are true:

(a) The disclosure is made promptly after knowledge of the information disclosed is obtained by the person or entity;

(b) The disclosure arises out of a voluntary self-evaluation;

(c) The person or entity making the disclosure initiates the appropriate effort to achieve compliance, pursues compliance with due diligence, and corrects the noncompliance within two years after the completion of the voluntary self-evaluation. Where such evidence shows the noncompliance is the failure to obtain a permit, appropriate efforts to correct the noncompliance may be demonstrated by the submittal of a complete permit application within a reasonable time.

(d) The person or entity making the disclosure cooperates with the appropriate division

or agency in the department of public health and environment regarding investigation of the issues identified in the disclosure.

(2) For the purposes of paragraph (c) of subsection (1) of this section, upon application to and at the discretion of the department of public health and environment, the time period within which the noncompliance is required to be corrected may be extended if it is not practicable to correct the noncompliance within the two-year period. A request for a de novo review of the decision of the department of public health and environment may be made to the appropriate district court or administrative law judge.

(3) If a person or entity is required to make a disclosure to a division or agency within the department of public health and environment under a specific permit condition or under an order issued by the division or agency, then the disclosure is not voluntary with respect to that division or agency.

(4) If any person or entity makes a voluntary disclosure of an environmental violation to a division or agency within the department of public health and environment, then there is a rebuttable presumption that the disclosure is voluntary and therefore the person or entity is immune from any administrative and civil penalties associated with the issues disclosed and is immune from any criminal penalties for negligent acts associated with the issues disclosed. The person or entity shall provide information supporting its claim that the disclosure is voluntary at the time that the disclosure is made to the division or agency.

(5) To rebut the presumption that a disclosure is voluntary, the appropriate division or agency shall show to the satisfaction of the respective commission in the department of public health and environment or the state board of health, if no respective commission exists, that the disclosure was not voluntary based upon the factors set forth in subsections (1), (2), and (3) of this section. A decision by the commission or the state board of health, whichever is appropriate, regarding the voluntary nature of a disclosure is final agency action. The division or agency may not include any administrative or civil penalty or fine or any criminal penalty or fine for negligent acts in a notice of violation or in a cease-and-desist order on any underlying environmental violation that is alleged absent a finding by the respective commission or the state board of health that the division or agency has rebutted the presumption of voluntariness of the disclosure. The burden to rebut the presumption of voluntariness is on the division or agency.

(6) The elimination of administrative, civil, or criminal penalties under this section does not apply if a person or entity has been found by a court or administrative law judge to have committed serious violations that constitute a pattern of continuous or repeated violations of environmental laws, rules, regulations, permit conditions, settlement agreements, or orders on consent and that were due to separate and distinct events giving rise to the violations, within the three-year period prior to the date of the disclosure. Such a pattern of continuous or repeated violations may also be demonstrated by multiple settlement agreements related to substantially the same alleged violations concerning serious instances of noncompliance with environmental laws that occurred within the three-year period immediately prior to the date of the voluntary disclosure.

(7) Except as specifically provided in this section, this section does not affect any authority the department of public health and environment has to require any action associated with the information disclosed in any voluntary disclosure of an environmental violation.

(8) Unless the context otherwise requires, the definitions contained in section 13-25-126.5 (2), C.R.S., apply to this section.

(9) This section applies to voluntary disclosures that are made and voluntary self-evaluations that are performed on or after June 1, 1994.

Source: **L. 94:** Entire section added, p. 1870, § 3, effective June 1; IP(1), (1)(d), (2), (3), (4), (5), and (7) amended, p. 2618, § 30, effective July 1. **L. 99:** (9) amended, p. 301, § 3, effective April 14.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portion to subsection (1) and subsections (1)(d), (2), (3), (4), (5), and (7), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Law reviews. For comment, “Colorado’s Environmental Audit Privilege Statute: Striking the Appropriate Balance?”, see 67 U. Colo. L. Rev. 443 (1996). For article, “Pilot Project Offers

New Hope for Colorado’s Environmental Self-Audit Law”, see 30 Colo. Law. 71 (February 2001).

25-1-114.6. Implementation of environmental self-audit law - pilot project - legislative declaration. (1) (a) The general assembly hereby finds and determines that, in order to encourage the regulated community to utilize the environmental self-audit provisions contained in this section and sections 25-1-114.5, 13-25-126.5, and 13-90-107 (1) (j), C.R.S., a pilot project is established. The general assembly hereby declares that the purpose of the environmental self-audit provisions contained in this section and sections 25-1-114.5, 13-25-126.5, and 13-90-107 (1) (j), C.R.S., is to encourage the regulated community to voluntarily identify environmental concerns and to address them expeditiously without fear of enforcement action by regulatory agencies. The general assembly recognizes that, due to concerns with the environmental self-audit provisions, the United States environmental protection agency has, in the past, taken direct action against entities in the regulated community that have made disclosures under the environmental self-audit provisions. The general assembly further declares that the pilot project enacted by this section is intended to allow entities to proceed under the environmental self-audit provisions with assurance that, if any such entity complies with such environmental self-audit provisions, the United States environmental protection agency will forego any enforcement action based on the disclosures made and addressed under the environmental self-audit pilot project.

(b) The general assembly further recognizes that, under the pilot project enacted by this section, the department of public health and environment will have discretion to consider certain factors in assessing a regulated entity’s eligibility for penalty immunity under the environmental laws. The general assembly intends that this additional flexibility to assess an entity’s eligibility, along with the protection from federal overfiling that the pilot project provides, will encourage entities to participate in the project and allow the department of public health and environment to assess the effectiveness of the environmental self-audit provisions.

(c) The provisions of this section shall only apply to disclosures made under this section and sections 25-1-114.5, 13-25-126.5, and 13-90-107 (1) (j), C.R.S., after the department of public health and environment and the United States environmental protection agency have entered into a memorandum of agreement binding Colorado and the federal government to enforce environmental laws in a manner consistent with the provisions of this section.

(2) Notwithstanding the provisions of sections 25-1-114.5 (4) and (5), 13-25-126.5, and 13-90-107 (1) (j), C.R.S., on and after May 30, 2000, the department of public health and environment may assess penalties for criminal negligence when available under federal environmental law.

(3) (a) In addition to the provisions of subsection (2) of this section, notwithstanding the provisions of sections 25-1-114.5 (4) and (5), 13-25-126.5, and 13-90-107 (1) (j), C.R.S., on and after May 30, 2000, in determining whether an entity is entitled to penalty immunity under the provisions of section 25-1-114.5, the department of public health and environment may consider:

(I) Whether the activities disclosed may create imminent and substantial endangerment of, or result in serious harm to, public health and the environment; and

(II) Whether the activities disclosed conferred an unfair or excessive economic benefit on the disclosing entity.

(b) Notwithstanding any provision of sections 25-1-114.5 (4) and (5), 13-25-126.5, and 13-90-107 (1) (j), C.R.S., the department of public health and environment has discretion to determine whether and to what degree the factors in paragraph (a) of this subsection (3) apply given the particular circumstances of each situation.

(4) The pilot project created by this section applies to voluntary disclosures made under this section and sections 25-1-114.5, 13-25-126.5, and 13-90-107 (1) (j), C.R.S., on and

after the effective dates of both this section (May 30, 2000) and the memorandum of agreement entered into under paragraph (c) of subsection (1) of this section.

(5) Pursuant to the procedures set forth in section 13-25-126.5, C.R.S., the department of public health and environment may obtain access to an environmental self-audit report where the department of public health and environment has independent evidence of any criminal violation of an environmental law. Evidence of a criminal violation constitutes "compelling circumstances" for purposes of section 13-25-126.5 (3) (c), C.R.S., where the department of public health and environment seeks access to an environmental self-audit report. When a self-audit report is obtained, reviewed, or used in a criminal proceeding under this subsection (5), the privilege provided in section 13-25-126.5, C.R.S., applicable to civil or administrative proceedings is not waived or eliminated.

(6) Repealed.

Source: L. 2000: Entire section added, p. 1377, § 1, effective May 30. L. 2008: (6) repealed, p. 1906, § 98, effective August 5.

25-1-115. Treatment - religious belief. Nothing in this part 1 shall authorize the department to impose any mode of treatment inconsistent with the religious faith or belief of any person.

Source: L. 47: p. 517, § 15. CSA: C. 78, § 21(14). CRS 53: § 66-1-15. C.R.S. 1963: § 66-1-15.

25-1-116. Licensed healing systems not affected. Nothing in this part 1 shall be construed or used to amend or restrict any statute in force pertaining to the scope of practice of any state licensed healing system.

25-1-117. Acquisition of federal surplus property. The governor of the state of Colorado is authorized, for and on behalf of the state of Colorado, to make application for and secure the transfer to the state of Colorado of federal surplus property for the purpose of establishing state public health facilities in the state of Colorado; and to do and perform any acts and things which may be necessary to carry out the above, including the preparing, making, and filing of plans, applications, reports, and other documents, and the execution, acceptance, delivery, and recordation of agreements, deeds, and other instruments pertaining to the transfer of said property. The governor is further authorized to expend available general revenue funds, or such other funds as may be made available by the general assembly, for the purpose of making the above application and securing the transfer of said property in accordance with federal laws and with rules and regulations and requirements of the United States department of health, education, and welfare.

25-1-120. Nursing facilities - rights of patients. (1) The department shall require all skilled nursing facilities and intermediate care facilities to adopt and make public a statement of the rights and responsibilities of the patients who are receiving treatment in such facilities and to treat their patients in accordance with the provisions of said statement. The statement shall ensure each patient the following:

(a) The right to civil and religious liberties, including knowledge of available choices and the right to independent personal decisions, which will not be infringed upon, and the right to encouragement and assistance from the staff of the facility in the fullest possible exercise of these rights;

(b) The right to have private and unrestricted communications with any person of his choice;

(c) The right to present grievances on behalf of himself or others to the facility's staff or administrator, to governmental officials, or to any other person, without fear of reprisal, and to join with other patients or individuals within or outside of the facility to work for improvements in patient care;

(d) The right to manage his own financial affairs or to have a quarterly accounting of any financial transactions made in his behalf, should he delegate such responsibility to the facility for any period of time;

(e) The right to be fully informed, in writing, prior to or at the time of admission and during his stay, of services available in the facility and of related charges, including charges for services not covered under medicare or medicaid or not covered by the basic per diem rate;

(f) The right to be adequately informed of his medical condition and proposed treatment, unless otherwise indicated by his physician, and to participate in the planning of all medical treatment, including the right to refuse medication and treatment, unless otherwise indicated by his physician, and to know the consequences of such actions;

(g) The right to receive adequate and appropriate health care consistent with established and recognized practice standards within the community and with skilled and intermediate nursing care facility rules and regulations as promulgated by the department;

(h) The right to have privacy in treatment and in caring for personal needs, confidentiality in the treatment of personal and medical records, and security in storing and using personal possessions;

(i) The right to be treated courteously, fairly, and with the fullest measure of dignity and to receive a written statement of the services provided by the facility, including those required to be offered on an as-needed basis;

(j) The right to be free from mental and physical abuse and from physical and chemical restraints, except those restraints initiated through the judgment of the professional staff for a specified and limited period of time or on the written authorization of a physician;

(k) The right to be transferred or discharged only for medical reasons or his welfare, or that of other patients, or for nonpayment for his stay and the right to be given reasonable advance notice of any transfer or discharge, except in the case of an emergency as determined by the professional staff;

(l) The right to devolution of his or her rights and responsibilities upon a sponsor, guardian, or person exercising rights contained in a designated beneficiary agreement executed pursuant to article 22 of title 15, C.R.S., who shall see that he or she is provided with adequate, appropriate, and respectful medical treatment and care and all rights which he or she is capable of exercising should he or she be determined to be incompetent pursuant to law and not be restored to legal capacity;

(m) The right to freedom of choice in selecting a health care facility;

(n) The right to copies of the facility's rules and regulations and an explanation of his responsibility to obey all reasonable rules and regulations of the facility and to respect the personal rights and private property of the other patients.

(1.5) If a facility requires a lease agreement with a provision requiring in excess of a month-to-month tenancy and the lease agreement results in or requires forfeiture of more than thirty days of rent if a patient moves due to a medical condition or dies during the term of the lease agreement, then the lease agreement shall be deemed to be against public policy and shall be void; except that inclusion of such a provision shall not render the remainder of the contract or lease agreement void. A contract provision or lease agreement that requires forfeiture of rent for thirty days after the patient moves due to a medical condition or dies does not violate this section. The provisions regarding forfeiture of rent shall appear on the front page of the contract or lease agreement and shall be printed in no less than twelve-point bold-faced type. The provisions shall read as follows:

This lease agreement is for a month-to-month tenancy. The lessor shall not require the forfeiture of rent beyond a thirty-day period if the lessee moves due to a medical condition or dies during the term of the lease.

In circumstances in which the patient moves due to a medical condition or dies during the term of a contract or lease agreement, the facility shall return that part of the rent paid in excess of thirty days' rent after a patient moves or dies to the patient or the patient's estate. The facility may assess daily rental charges for any days in which the former or deceased patient's personal possessions remain in the patient's room after the period for which the patient has paid rent and for the usual time to clean the room after the patient's personal possessions have been removed. The facility shall have forty-five days after the date the patient's personal possessions have been removed from the patient's room to reconcile the patient's accounts and to return any moneys owed. This subsection (1.5) applies to any facility, or a distinct part of a facility, that meets the state nursing home licensing standards set forth in section 25-1.5-103 (1) (a) (I) and the licensing requirements specified in section 25-3-101. For purposes of this section, "daily rental charges" means an amount not to exceed one-thirtieth of thirty days' rental amount plus reasonable expenses.

(2) Each skilled nursing facility or intermediate care facility shall provide a copy of the statement required by subsection (1) of this section to each patient or his guardian at or before the patient's admission to a facility and to each staff member of a facility. Each such facility shall prepare a written plan and provide appropriate staff training to implement the provisions of this section.

(3) Each skilled nursing facility or intermediate care facility shall prepare a written plan and provide appropriate facilities to ensure that the rights guaranteed by subsection (1) of this section are enforced by a grievance procedure which contains the following procedures and rights:

(a) A resident of any facility, the residents' advisory council, or the sibling, child, spouse, parent, or person exercising rights contained in a designated beneficiary agreement executed pursuant to article 22 of title 15, C.R.S., of any resident may formally complain in the manner described in this subsection (3) about any conditions, treatment, or violations of his or her rights by the facility or its staff or about any treatment, conditions, or violations of the rights of any other resident, regardless of the consent of the victim of the alleged improper treatment, condition, or violation of rights by the facility or its staff.

(b) Each facility shall designate one full-time staff member, referred to in this subsection (3) as the "designee", to receive all grievances when they are first made.

(c) Each facility shall establish a grievance committee consisting of the chief administrator of the facility or his designee, a resident selected by the resident population of the facility, and a third person to be agreed upon by the administrator and the resident representative.

(d) If anyone designated in paragraph (a) of this subsection (3) wishes to complain about treatment, conditions, or violations of rights, he shall write or cause to be written his grievance or shall state it orally to the designee no later than fourteen days after the

occurrence giving rise to the grievance. The designee shall confer with persons involved in the occurrence and with any other witnesses and, no later than three days after the grievance, give a written explanation of findings and proposed remedies, if any, to the complainant and to the aggrieved party, if someone other than the complainant. Where appropriate because of the mental or physical condition of the complainant or the aggrieved party, the written explanation shall be accompanied by an oral explanation.

(e) If the complainant or aggrieved party is dissatisfied with the findings and remedies or the implementation thereof, he may then make the same grievance orally or in writing, with any additional comments or information, to the grievance committee no later than ten days after the receipt of the explanation from the designee. Said committee shall confer with persons involved in the occurrence and with any other witnesses and, no later than ten days after the appeal from the designee, give a written explanation of its findings and proposed remedies, if any, to the complainant and to the aggrieved party, if someone other than the complainant. Where appropriate because of the mental or physical condition of the complainant or the aggrieved party, the written explanation shall be accompanied by an oral explanation.

(4) Each skilled nursing facility or intermediate care facility shall also establish a residents' advisory council which shall consist of not less than five members selected by and from the resident population of the facility. The council shall meet at least once a month with the administrator of the facility and a representative of the staff to make recommendations concerning policies of the facility. The council may also present grievances to the grievance committee on behalf of a resident.

(5) If a complainant or aggrieved party is dissatisfied with the findings and remedies of the grievance committee or implementation thereof, except for grievances against a physician or his prescribed treatment, he may file the same grievance in writing with the executive director of the department. The department shall investigate the facts and circumstances of the grievance and make findings of fact, conclusions, and recommendations, copies of which shall be transmitted to the complainant and the nursing home administrator. If the complainant or the nursing home administrator is aggrieved by the findings and the recommendations of the department, the aggrieved party may request a hearing to be conducted by the department pursuant to section 24-4-105, C.R.S. The board shall adopt rules and regulations to carry out the intent of this section.

(6) Implementation of this section shall be pursuant to section 25.5-6-204, C.R.S.

(7) Nothing in this section shall apply to any nursing institution conducted by or for the adherents of any well-recognized church or religious denomination for the purpose of providing facilities for the care and treatment of the sick who depend exclusively upon spiritual means through prayer for healing in the practice of the religion of such church or denomination.

(8) (a) A patient who is eligible to receive medicaid benefits pursuant to articles 4, 5, and 6 of title 25.5, C.R.S., and who qualifies for nursing facility care shall have the right to select any nursing care facility recommended for certification by the department of public health and environment under Title XIX of the federal "Social Security Act", as amended, as a provider of medicaid services and licensed by the department pursuant to article 3 of this title where space is available, and the department of health care policy and financing shall reimburse the selected facility for services pursuant to section 25.5-6-204, C.R.S., unless such nursing care facility shall have been notified by the department of health care policy and financing that it may not qualify as a provider of medicaid services.

(b) A patient who is residing in such nursing care facility shall be assured the resident rights which are provided by section 4211 of Title IV of the federal "Omnibus Budget Reconciliation Act of 1987", as amended, Pub.L. 100-203. Failure to protect and promote those rights shall subject the violating facility to sanctions imposed by the department.

(9) A patient who is eligible to receive benefits from a skilled or intermediate nursing care facility certified by the department under Title XVIII of the federal "Social Security Act", as amended, as a provider of medicare services shall be assured the same rights as provided in paragraph (a) of subsection (8) of this section.

ANNOTATION

Law reviews. For article, "Advocating for Quality Nursing Home Care and Sufficient Staffing in Colorado", see 34 Colo. Law. 31 (October 2005). For article, "Involuntary Discharge From Nursing Homes", see 34 Colo. Law. 37 (October 2005).

Substantive and due process rights of nursing home patients are established by this sec-

tion. *Macleod v. Miller*, 44 Colo. App. 313, 612 P.2d 1158 (1980).

Burden is on nursing facility to show that the transfer is in accordance with subsections (1)(k) and (8). *Macleod v. Miller*, 44 Colo. App. 313, 612 P.2d 1158 (1980).

25-1-121. Patient grievance mechanism - institution's obligations to patient.

(1) As used in this section, "institution" means every hospital or related facility or institution having in excess of fifty beds and required to be licensed under part 1 of article 3 of this title or required to be certified pursuant to section 25-1.5-103 (1) (a) (II), except skilled nursing facilities and intermediate care facilities which are subject to the provisions of section 25-1-120.

(2) The department shall require every institution to submit to the department a plan for a patient grievance mechanism and a policy statement with respect to the obligations of the institution to patients using the facilities of such institution. The plan and policy statement must meet with the approval of the department prior to certification of compliance or issuance or renewal of a license.

(3) A patient grievance mechanism plan shall include, but not be limited to:

(a) A provision for a patient representative to serve as a liaison between the patient and the institution;

(b) A description of the qualifications of the patient representative;

(c) An outline of the job description of the patient representative;

(d) A description of the amount of decision-making authority given to the patient representative;

(e) A method by which each patient will be made aware of the patient representative program and how the representative of the program may be contacted.

(4) The policy statement with respect to the obligations of the institution to patients using facilities of such an institution shall be posted conspicuously in a public place on its premises and made available to each patient upon admission. Such policy statement shall include, but need not be limited to, a clarification of a physician's duty to provide informed consent, admission procedures, staff identification, privacy, medical records, billing procedures, and the obligation of the physician to provide information regarding research, experimental, or educational projects relating to the patient's own case. Nothing in this section shall apply to any nursing institution conducted by or for the adherents of any well-recognized church or religious denomination for the purpose of providing facilities for the care and treatment of the sick who depend exclusively upon spiritual means through prayer for healing in the practice of the religion of such church or denomination.

Source: **L. 76:** Entire section added, p. 640, § 2, effective May 26. **L. 2003:** (1) amended, p. 708, § 33, effective July 1.

25-1-122. Named reporting of certain diseases and conditions - access to medical records - confidentiality of reports and records. (1) With respect to investigations of epidemic and communicable diseases, morbidity and mortality, cancer in connection with

the statewide cancer registry, environmental and chronic diseases, sexually transmitted infections, tuberculosis, and rabies and mammal bites, the board has the authority to require reporting, without patient consent, of occurrences of those diseases and conditions by any person having knowledge of such to the state department of public health and environment and county, district, and municipal public health agencies, within their respective jurisdictions. Any required reports shall contain the name, address, age, sex, and diagnosis and such other relevant information as the board determines is necessary to protect the public health. The board shall set the manner, time period, and form in which such reports are to be made. The board may limit reporting for a specific disease or condition to a particular region or community or for a limited period of time. Nothing in this subsection (1) shall be construed to apply to cases of AIDS, HIV-related illness, or HIV infection, which shall be governed solely by the reporting requirements set forth in part 14 of article 4 of this title.

(2) When investigating diseases and conditions pursuant to subsection (1) of this section, authorized personnel of the state department of public health and environment and county, district, and municipal public health agencies, within their respective jurisdictions, may, without patient consent, inspect, have access to, and obtain information from pertinent patient medical, coroner, and laboratory records in the custody of all medical practitioners, veterinarians, coroners, institutions, hospitals, agencies, laboratories, and clinics, whether public or private, which are relevant and necessary to the investigation. Review and inspection of records shall be conducted at reasonable times and with such notice as is reasonable under the circumstances. Under no circumstances may personnel of the state department of public health and environment or county, district, or municipal public health agencies, within their local jurisdictions, have access pursuant to this section to any medical record that is not pertinent, relevant, or necessary to the public health investigation. Nothing in this subsection (2) shall be construed to apply to cases of AIDS, HIV-related illness, or HIV infection, which shall be governed solely by the requirements relating to access to records and the release of information as set forth in part 14 of article 4 of this title.

(3) Any report or disclosure made in good faith pursuant to subsection (1) or (2) of this section shall not constitute libel or slander or a violation of any right of privacy or privileged communication.

(4) Reports and records resulting from the investigation of epidemic and communicable diseases, environmental and chronic diseases, reports of morbidity and mortality, reports of cancer in connection with the statewide cancer registry, and reports and records resulting from the investigation of sexually transmitted infections, tuberculosis, and rabies and mammal bites held by the state department of public health and environment or county, district, or municipal public health agencies shall be strictly confidential. Such reports and records shall not be released, shared with any agency or institution, or made public, upon subpoena, search warrant, discovery proceedings, or otherwise, except under any of the following circumstances:

(a) Release may be made of medical and epidemiological information in a manner such that no individual person can be identified.

(b) Release may be made of medical and epidemiological information to the extent necessary for the treatment, control, investigation, and prevention of diseases and conditions dangerous to the public health; except that every effort shall be made to limit disclosure of personal identifying information to the minimal amount necessary to accomplish the public health purpose.

(c) Release may be made to the person who is the subject of a medical record or report with written authorization from such person.

(d) An officer or employee of the county, district, or municipal public health agency or the state department of public health and environment may make a report of child abuse to agencies responsible for receiving or investigating reports of child abuse or neglect in accordance with the applicable provisions of the "Child Protection Act of 1987" set forth in part 3 of article 3 of title 19, C.R.S. However, in the event a report is made by the state department of public health and environment, only the following information shall be included in the report:

(I) The name, address, and sex of the child;

(II) The name and address of the person responsible for the child;

(III) The name and address of the person who is alleged to be responsible for the suspected abuse or neglect, if known; and

(IV) The general nature of the child's injury.

(e) Medical and epidemiological information may be released to a peace officer as described in section 16-2.5-101, C.R.S., the federal bureau of investigation, a federal law enforcement agency as designated by the United States attorney for the district of Colorado, or any prosecutor to the extent necessary for any investigation or prosecution related to bioterrorism; except that reasonable efforts shall be made to limit disclosure of personal identifying information to the minimal amount necessary to accomplish the law enforcement purpose. For purposes of this paragraph (e), "bioterrorism" means the intentional use of, attempted use of, conspiracy to use, or solicitation to use microorganisms or toxins of biological origin or chemical or radiological agents to cause death or disease among humans or animals.

(5) No officer or employee or agent of the state department of public health and environment or county, district, or municipal public health agency shall be examined in any judicial, executive, legislative, or other proceeding as to the existence or content of any individual's report obtained by such department pursuant to subsection (1) or (2) of this section without that individual's consent. However, this provision shall not apply to individuals who are under isolation or quarantine, school exclusion, or other restrictive action taken pursuant to section 25-1.5-102 (1) (c) or part 4, 5, 6, or 9 of article 4 of this title.

(6) Any officer or employee or agent of the state department of public health and environment or a county, district, or municipal public health agency who violates this section by releasing or making public confidential public health reports or records or by otherwise breaching the confidentiality requirements of subsection (4) or (5) of this section commits a class 1 misdemeanor and, upon conviction thereof, shall be punished as provided in section 18-1.3-501 (1), C.R.S.

(7) Nothing in subsections (4) to (6) of this section shall apply to records and reports held by the state or local department of health pursuant to part 14 of article 4 of this title.

(8) Pursuant to section 25-1-113, any person may seek judicial review of a decision of the board or of the department affecting such person under this section.

(9) Notwithstanding any other provision of law to the contrary, the department shall administer the provisions of this section regardless of an individual's race, religion, gender, ethnicity, national origin, or immigration status.

25-1-123. Restructure of health and human services - development of plan - participation of department required. The department, in cooperation with the department of health care policy and financing and the department of human services, shall develop a plan for the restructuring of the health and human services delivery system in the state in accordance with article 1.7 of title 24, C.R.S.

Source: **L. 93:** Entire section added, p. 1097, § 14, effective July 1, 1994.

Cross references: For the legislative declaration contained in the 1993 act enacting this section, see section 1 of chapter 230, Session Laws of Colorado 1993.

25-1-124. Health care facilities - consumer information - reporting - release. (1) The general assembly hereby finds that an increasing number of people are faced with the difficult task of choosing a health care facility for themselves and their family members. This task may be made less difficult by improved access to reliable, helpful, and unbiased information concerning the quality of care and the safety of the environment offered by each health care facility. The general assembly further finds that it is appropriate that the department, in keeping with its role of protecting and improving the public health, solicit this information from health care facilities and disseminate it to the public in a form that will assist people in making informed choices among health care facilities.

(2) Each health care facility licensed pursuant to section 25-3-101 or certified pursuant to section 25-1.5-103 (1) (a) (II) shall report to the department all of the following occurrences:

(a) Any occurrence that results in the death of a patient or resident of the facility and is required to be reported to the coroner pursuant to section 30-10-606, C.R.S., as arising from an unexplained cause or under suspicious circumstances;

(b) Any occurrence that results in any of the following serious injuries to a patient or resident:

(I) Brain or spinal cord injuries;

(II) Life-threatening complications of anesthesia or life-threatening transfusion errors or reactions;

(III) Second- or third-degree burns involving twenty percent or more of the body surface area of an adult patient or resident or fifteen percent or more of the body surface area of a child patient or resident;

(c) Any time that a resident or patient of the facility cannot be located following a search of the facility, the facility grounds, and the area surrounding the facility and there are circumstances that place the resident's health, safety, or welfare at risk or, regardless of whether such circumstances exist, the patient or resident has been missing for eight hours;

(d) Any occurrence involving physical, sexual, or verbal abuse of a patient or resident, as described in section 18-3-202, 18-3-203, 18-3-204, 18-3-206, 18-3-402, 18-3-403, as it existed prior to July 1, 2000, 18-3-404, or 18-3-405, C.R.S., by another patient or resident, an employee of the facility, or a visitor to the facility;

(e) Any occurrence involving neglect of a patient or resident, as described in section 26-3.1-101 (4) (b), C.R.S.;

(f) Any occurrence involving misappropriation of a patient's or resident's property. For purposes of this paragraph (f), "misappropriation of a patient's or resident's property" means a pattern of or deliberately misplacing, exploiting, or wrongfully using, either temporarily or permanently, a patient's or resident's belongings or money without the patient's or resident's consent.

(g) Any occurrence in which drugs intended for use by patients or residents are diverted to use by other persons. If the diverted drugs are injectable, the health care facility shall also report the full name and date of birth of any individual who diverted the injectable drugs, if known.

(h) Any occurrence involving the malfunction or intentional or accidental misuse of patient or resident care equipment that occurs during treatment or diagnosis of a patient or resident and that significantly adversely affects or if not averted would have significantly adversely affected a patient or resident of the facility.

(2.5) (a) In addition to the reports required by subsection (2) of this section, if the Colorado attorney general, the division for developmental disabilities in the department of human services, a community centered board, an adult protection service, or a law enforcement agency makes a report of an occurrence as described in subsection (2) of this section involving a licensed long-term care facility, that report shall be provided to the department and shall be made available for inspection consistent with the provisions of subsection (6) of this section. Any reports concerning an adult protection service shall be in compliance with the confidentiality requirements of section 26-3.1-102 (7), C.R.S.

(b) For purposes of this subsection (2.5), a "licensed long-term care facility" means a licensed community residential or group home, a licensed intermediate care facility for the mentally retarded, and a licensed facility for persons with developmental disabilities.

(3) The board by rule shall specify the manner, time period, and form in which the reports required pursuant to subsection (2) of this section shall be made.

(4) Any report submitted pursuant to subsection (2) of this section shall be strictly confidential; except that information in any such report may be transmitted to an appropriate regulatory agency having jurisdiction for disciplinary or license sanctions. The information in such reports shall not be made public upon subpoena, search warrant, discovery proceedings, or otherwise, except as provided in subsection (6) of this section.

(5) The department shall investigate each report submitted pursuant to subsection (2) of this section that it determines was appropriately submitted. For each report investigated, the department shall prepare a summary of its findings, including the department's conclusions and whether there was a violation of licensing standards or a deficiency or whether the facility acted appropriately in response to the occurrence. If the investigation is not conducted on site, the department shall specify in the summary how the investigation was conducted. Any investigation conducted pursuant to this subsection (5) shall be in addition to and not in lieu of any inspection required to be conducted pursuant to section 25-1.5-103 (1) (a) with regard to licensing.

(6) (a) The department shall make the following information available to the public:

(I) Any investigation summaries prepared pursuant to subsection (5) of this section;

(II) Any complaints against a health care facility that have been filed with the department and that the department has investigated, including the conclusions reached by the department and whether there was a violation of licensing standards or a deficiency or whether the facility acted appropriately in response to the subject of the complaint; and

(III) A listing of any deficiency citations issued against each health care facility.

(b) The information released pursuant to this subsection (6) shall not identify the patient or resident or the health care professional involved in the report.

(7) Prior to the completion of an investigation pursuant to this section, the department may respond to any inquiry regarding a report received pursuant to subsection (2) of this section by confirming that it has received such report and that an investigation is pending.

(8) In addition to the report to the department for an occurrence described in paragraph (d) of subsection (2) of this section, the occurrence shall be reported to a law enforcement agency.

25-1-124.5. Nursing care facilities - employees - criminal history check. (1) On and after September 1, 1996, prior to employing any person, a nursing care facility or the person seeking employment at a nursing care facility shall make an inquiry to the director of the Colorado bureau of investigation or to private criminal background check companies authorized to do business in the state of Colorado to ascertain whether such person has a criminal history, including arrest and conviction records. The Colorado bureau of investigation or private criminal background check companies are authorized to utilize fingerprints to ascertain from the federal bureau of investigation whether such person has a criminal history record. The nursing care facility or the person seeking employment in a nursing care facility shall pay the costs of such inquiry. The criminal history check shall be conducted not more than ninety days prior to the employment of the applicant. For purposes of this section, criminal background check companies shall be approved by the state board of nursing. In approving such companies, approval shall be based upon the provision of lawfully available, accurate, and thorough information pertaining to criminal histories, including arrest and conviction records.

(2) As used in this section, “nursing care facility” includes, but is not limited to:

(a) A nursing facility as defined in section 25.5-4-103 (14), C.R.S.;

(b) An intermediate nursing facility for the mentally retarded as defined in section 25.5-4-103 (9), C.R.S.;

(c) An adult day care facility as defined in section 25.5-6-303 (1), C.R.S.;

(d) An alternative care facility as defined in section 25.5-6-303 (3), C.R.S.;

(e) Any business that provides temporary nursing care services or that provides personnel who provide such services.

Source: L. 2002: Entire section added, p. 1180, § 3, effective July 1. L. 2006: (2)(a) to (2)(d) amended, p. 2013, § 82, effective July 1.

25-1-125. Applications for licenses - authority to suspend licenses - rules. (1) Every application by an individual for a license issued by the department or any authorized agent of the department shall require the applicant’s name, address, and social security number.

(2) The department or any authorized agent of the department shall deny, suspend, or revoke any license pursuant to the provisions of section 26-13-126, C.R.S., and any rules promulgated in furtherance thereof, if the department or agent thereof receives a notice to deny, suspend, or revoke from the state child support enforcement agency because the licensee or applicant is out of compliance with a court or administrative order for current child support, child support debt, retroactive child support, child support arrearages, or child support when combined with maintenance or because the licensee or applicant has failed to comply with a properly issued subpoena or warrant relating to a paternity or child support proceeding. Any such denial, suspension, or revocation shall be in accordance with the procedures specified by rule of the department, rules promulgated by the state board of human services, and any memorandum of understanding entered into between the department or an authorized agent thereof and the state child support enforcement agency for the implementation of this section and section 26-13-126, C.R.S.

(3) (a) The department shall enter into a memorandum of understanding with the state child support enforcement agency, which memorandum shall identify the relative responsibilities of the department and the state child support enforcement agency in the department of human services with respect to the implementation of this section and section 26-13-126, C.R.S.

(b) The appropriate rule-making body of the department is authorized to promulgate rules to implement the provisions of this section.

(4) For purposes of this section, “license” means any recognition, authority, or permission that the department or any authorized agent of the department is authorized by law to issue for an individual to practice a profession or occupation or for an individual to

participate in any recreational activity. “License” may include, but is not necessarily limited to, any license, certificate, certification, letter of authorization, or registration issued for an individual to practice a profession or occupation or for an individual to participate in any recreational activity.

PART 4

STATE CHEMIST

25-1-401. Office of state chemist created. The professor of food and drug chemistry in the department of chemistry at the university of Colorado shall be the state chemist of Colorado. The office and laboratory of the state chemist shall be in the department of chemistry at the university of Colorado. The office of state chemist shall be a section of the division of administration of the department of public health and environment.

SUBPART 1

GENERAL

25-1-501. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The public health system reduces health care costs by preventing disease and injury, promoting healthy behavior, and reducing the incidents of chronic diseases and conditions. Thus, the public health system is a critical part of any health care reform.

(b) Each community in Colorado should provide high-quality public health services regardless of its location. Thus, the state of Colorado and each local public health agency should have a comprehensive public health plan outlining how quality public health services will be provided.

(c) Each county should establish or be part of a local public health agency organized under a local board of health with a public health director and other staff necessary to provide public health services;

(d) A strong public health infrastructure is needed to provide essential public health services and is a shared responsibility among state and local public health agencies and their partners within the public health system; and

(e) Developing a strong public health infrastructure requires the coordinated efforts of state and local public health agencies and their public and private sector partners within the public health system to:

(I) Identify and provide leadership for the provision of essential public health services;

(II) Develop and support an information infrastructure that supports essential public health services and functions;

(III) Develop and provide effective education and training for members of the public health workforce;

(IV) Develop performance-management standards for the public health system that are tied to improvements in public health outcomes or other measures; and

(V) Develop a comprehensive plan and set priorities for providing essential public health services.

Source: L. 2008: Entire part R&RE, p. 2030, § 1, effective July 1.

25-1-502. Definitions. As used in this part 5, unless the context otherwise requires:

(1) "Agency" means a county or district public health agency established pursuant to section 25-1-506.

(2) "Core public health" shall be defined by the state board and shall include, but need not be limited to, the assessment of health status and health risks, development of policies to protect and promote health, and assurance of the provision of the essential public health services.

(3) "Essential public health services" means to:

(a) Monitor health status to identify and solve community health problems;

(b) Investigate and diagnose health problems and health hazards in the community;

(c) Inform, educate, and empower individuals about health issues;

- (d) Mobilize public and private sector collaboration and action to identify and solve health problems;
 - (e) Develop policies, plans, and programs that support individual and community health efforts;
 - (f) Enforce laws and rules that protect health and promote safety;
 - (g) Link individuals to needed personal health services and ensure the provision of health care;
 - (h) Encourage a competent public health workforce;
 - (i) Evaluate effectiveness, accessibility, and quality of personal and population-based public health services; and
 - (j) Contribute to research into insightful and innovative solutions to health problems.
- (4) “Medical officer” means a volunteer or paid licensed physician who contracts with or is employed by a county or district public health agency to advise the public health director on medical decisions if the public health director is not a licensed physician.
- (5) “Public health” means the prevention of injury, disease, and premature mortality; the promotion of health in the community; and the response to public and environmental health needs and emergencies and is accomplished through the provision of essential public health services.
- (6) “Public health agency” means an organization operated by a federal, state, or local government or its designees that acts principally to protect or preserve the public’s health. “Public health agency” includes a county public health agency or a district public health agency.
- (7) “Public health director” means the administrative and executive head of each county or district public health agency.
- (8) “Public health system” means state, county, and district public health agencies and other persons and organizations that provide public health services or promote public health.
- (9) “State board” means the state board of health created pursuant to section 25-1-103.
- (10) “State department” means the department of public health and environment created pursuant to section 25-1-102.

Source: L. 2008: Entire part R&RE, p. 2031, § 1, effective July 1.

25-1-503. State board - public health duties. (1) In addition to all other powers and duties conferred and imposed upon the state board, the state board has the following specific powers and duties:

- (a) To establish, by rule, the core public health services that each county and district public health agency must provide or arrange for the provision of said services;
- (b) To establish, by rule, the minimum quality standards for public health services;
- (c) To establish, by rule, the minimum qualifications for county and district public health directors and medical officers;
- (d) To ensure the development and implementation of a comprehensive, statewide public health improvement plan;
- (e) To review all county and district public health agency public health plans, which review shall be based on criteria established by rule by the state board and against which each county or district public health plan shall be evaluated; and
- (f) To establish, by rule, for the fiscal year beginning July 1, 2009, if practicable, and for each fiscal year thereafter, a formula for allocating moneys to county or district public health agencies based on input from the state department and from county or district public health agencies.

Source: L. 2008: Entire part R&RE, p. 2032, § 1, effective July 1.

SUBPART 2

PUBLIC HEALTH PLANS

25-1-504. Comprehensive public health plan - development - approval - reassessment - cash fund. (1) On or before December 31, 2009, and at a minimum on or before December 31 every five years thereafter, the state department shall develop a comprehensive, statewide public health improvement plan, referred to in this section as the “plan”, that assesses and sets priorities for the public health system. The state board may appoint ad hoc or advisory committees as needed for the plan development process. The plan shall be developed in consultation with the state board and representatives from the state department, county or district public health agencies, and their partners within the public health system. The plan shall rely on existing or available data or other information acquired pursuant to this part 5, as well as national guidelines or recommendations concerning public health outcomes or improvements.

(2) (a) The plan shall assess and set priorities for the public health system and shall:

(I) Guide the public health system in targeting core public health services and functions through program development, implementation, and evaluation;

(II) Increase the efficiency and effectiveness of the public health system;

(III) Identify areas needing greater resource allocation to provide essential public health services;

(IV) Incorporate, to the extent possible, goals and priorities of public health plans developed by county or district public health agencies; and

(V) Consider available resources, including but not limited to state and local funding, and be subject to modification based on actual subsequent allocations.

(b) The plan shall include or address at a minimum the following elements:

(I) Core public health services and standards for county and district public health agencies;

(II) Recommendations for legislative or regulatory action, including but not limited to updating public health laws, eliminating obsolete statutory language, and establishing an effective and comprehensive state and local public health infrastructure;

(III) Identification and quantification of existing public health problems, disparities, or threats at the state and county levels;

(IV) Identification of existing public health resources at the state and local levels;

(V) Declaration of the goals of the plan;

(VI) Identification of specific recommendations for meeting these goals;

(VII) Development of public and environmental health infrastructure that supports core public health functions and essential public health services at the state and local levels;

(VIII) Explanation of the prioritization of one or more conditions of public health importance;

(IX) Detailed description of strategies to develop and promote culturally and linguistically appropriate services;

(X) Development, evaluation, and maintenance of, and improvements to, an information infrastructure that supports essential public health services;

(XI) Detailed description of the programs and activities that will be pursued to address existing public and environmental health problems, disparities, or threats;

(XII) Detailed description of how public health services will be integrated and public health resources shared to optimize efficiency and effectiveness of the public health system;

(XIII) Detailed description of how the plan will support county or district public health agencies in achieving the goals of their county or district public health plans;

(XIV) Estimation of costs of implementing the plan;

(XV) A timeline for implementing various elements of the plan;

(XVI) A strategy for coordinating service delivery within the public health system; and

(XVII) Measurable indicators of effectiveness and successes.

(c) The plan, including core public health services and standards, shall prospectively cover up to five years, subject to annual revisions and the implementation schedule established by the state board.

(3) The state department shall make the plan available to the governor, the general assembly, the state board, county and district public health agencies, and other partners.

(4) The state department is authorized to solicit and accept any gifts, grants, or donations to pay for the development of the plan. Any moneys received pursuant to this subsection (4) shall be transmitted to the state treasurer, who shall credit the same to the comprehensive public health plan cash fund, which is hereby created and referred to in this subsection (4) as the “fund”. Any interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund. Moneys in the fund may be expended by the state department, subject to annual appropriation by the general assembly, for the development of the plan described in this section.

(5) If the moneys received by the state department through gifts, grants, and donations are insufficient to cover the direct and indirect costs of complying with the provisions of section 25-1-503 and this section, the state department shall not be required to implement the provisions of said sections.

Source: L. 2008: Entire part R&RE, p. 2033, § 1, effective July 1.

25-1-505. County and district public health plans - approval. (1) As soon as practicable after the approval of each comprehensive, statewide public health improvement plan pursuant to section 25-1-504, each county or district public health agency shall prepare a county or district public health plan, referred to in this section as the “local plan”. Each local plan shall not be inconsistent with the comprehensive, statewide public health improvement plan required under section 25-1-504.

(2) Each local plan shall, at a minimum:

- (a) Examine data about health status and risk factors in the local community;
- (b) Assess the capacity and performance of the county or district public health system;
- (c) Identify goals and strategies for improving the health of the local community;
- (d) Describe how representatives of the local community develop and implement the local plan;
- (e) Address how county or district public health agencies coordinate with the state department and others within the public health system to accomplish goals and priorities identified in the comprehensive, statewide public health improvement plan; and
- (f) Identify financial resources available to meet identified public health needs and to meet requirements for the provision of core public health services.

(3) Subject to available appropriations, the state department shall encourage and provide technical assistance to county or district public health agencies that request such assistance and otherwise work with county or district public health agencies to generate their local plans.

Source: L. 2008: Entire part R&RE, p. 2035, § 1, effective July 1.

SUBPART 3

COUNTY OR DISTRICT PUBLIC HEALTH AGENCIES

25-1-506. County or district public health agency. (1) Each county, by resolution of its board of county commissioners, shall establish and maintain a county public health agency or shall participate in a district public health agency. Any two or more contiguous counties, by resolutions of the boards of county commissioners of the respective counties, may establish and maintain a district public health agency. An agency shall consist of a county or district board of health, a public health director, and all other personnel employed or retained under the provisions of this subpart 3.

(2) (a) (I) The jurisdiction of any agency shall extend over all unincorporated areas and over all municipal corporations within the territorial limits of the county or the counties comprising the district, but not over the territory of any municipal corporation that

maintains its own public health agency. If the county has a county public health agency or a district board of health and if the county is within a district public health agency, any municipal corporation not otherwise within the jurisdiction of an agency, by agreement of its city council, board of trustees or other governing body, and the board of county commissioners of the county wherein the municipal corporation is situated may merge its department with the county or district public health agency.

(II) In the event of a merger between a health department of a municipal corporation with a county or district public health agency, the agreement of merger, among other things, shall provide that a member or members of the county or district board of health, as is specified in the agreement, shall be appointed by the city council or board of trustees of the municipal corporation rather than as provided in this section. The city council or board of trustees shall appoint the number of members specified in the agreement of merger, and the remaining members shall be appointed as provided in this section.

(III) The board of county commissioners, in order to give the municipal corporation representation on a county board of health previously established, may declare vacancies in the county board of health and permit the vacancies to be filled by the city council or board of trustees of the municipal corporation.

(b) All county or district boards of health existing within the county or district shall be dissolved upon the organization of a county or district public health agency under the provisions of this part 5 or upon the acceptance of a county into a district already established.

(c) In the event of the dissolution of any county or district public health agency, the withdrawal of a county from an established district, or the withdrawal of a municipal corporation that has voluntarily merged its health department or agency with a county or district public health agency, local boards of health shall be reestablished under the provisions of this part 5 and assume the powers and duties conferred upon such local boards.

(3) (a) Subject to available appropriations, an agency shall provide or arrange for the provisions of services necessary to carry out the public health laws and rules of the state board, the water quality control commission, the air quality control commission, and the solid and hazardous waste commission according to the specific needs and resources available within the community as determined by the county or district board of health or the board of county commissioners and as set out in both the comprehensive, statewide public health improvement plan developed pursuant to section 25-1-504 and the county or district public health plan developed pursuant to section 25-1-505.

(b) In addition to other powers and duties, an agency shall have the following duties:

(I) To complete a community health assessment and to create the county or district public health plan at least every five years under the direction of the county or district board and to submit the plan to the county or district board and state board for review;

(II) To advise the county or district board on public policy issues necessary to protect public health and the environment;

(III) To provide or arrange for the provision of quality, core public health services deemed essential by the state board and the comprehensive, statewide public health improvement plan; except that the agency shall be deemed to have met this requirement if the agency can demonstrate to the county or district board that other providers offer core public health services that are sufficient to meet the local needs as determined by the plan;

(IV) To the extent authorized by the provisions of this title or article 20 of title 30, C.R.S., to administer and enforce the laws pertaining to:

(A) Public health, air pollution, solid and hazardous waste, and water quality;

(B) Vital statistics; and

(C) The orders, rules, and standards of the state board and any other **type 1** agency created pursuant to the provisions of this title;

(V) To investigate and control the causes of epidemic or communicable diseases and conditions affecting public health;

(VI) To establish, maintain, and enforce isolation and quarantine, and in pursuance thereof, and for this purpose only, to exercise physical control over property and over the

persons of the people within the jurisdiction of the agency as the agency may find necessary for the protection of the public health;

(VII) To close schools and public places and to prohibit gatherings of people when necessary to protect public health;

(VIII) To investigate and abate nuisances when necessary in order to eliminate sources of epidemic or communicable diseases and conditions affecting public health;

(IX) To establish, maintain, or make available chemical, bacteriological, and biological laboratories, and to conduct such laboratory investigations and examinations as it may deem necessary or proper for the protection of the public health;

(X) To purchase and distribute to licensed physicians and veterinarians, with or without charge, as the county or district board may determine upon considerations of emergency or need, approved biological or therapeutic products necessary for the protection of public health;

(XI) To initiate and carry out health programs consistent with state law that are necessary or desirable by the county or district board to protect public health and the environment;

(XII) To collect, compile, and tabulate reports of marriages, dissolutions of marriage, and declarations of invalidity of marriage, births, deaths, and morbidity, and to require any person having information with regard to the same to make such reports and submit such information as is required by law or the rules of the state board;

(XIII) To make necessary sanitation and health investigations and inspections, on its own initiative or in cooperation with the state department, for matters affecting public health that are within the jurisdiction and control of the agency; and

(XIV) To collaborate with the state department and the state board in all matters pertaining to public health, the water quality control commission in all matters pertaining to water quality, the air quality control commission and the division of administration of the state department in all matters pertaining to air pollution, and the solid and hazardous waste commission in all matters pertaining to solid and hazardous waste.

(c) If a county or district board of health does not receive sufficient appropriations to fulfill all the duties described in paragraph (b) of this subsection (3), the county or district board shall set priorities for fulfilling the duties and shall include the list of priorities in its county or district public health plan submitted pursuant to section 25-1-505.

(4) Repealed.

Source: L. 2008: Entire part R&RE, p. 2036, § 1, effective July 1.

Editor's note: (1) The provisions of this section are similar to provisions of several former sections as they existed prior to 2008. For a detailed comparison, see the comparative tables located in the back of the index.

(2) Subsection (4)(b) provided for the repeal of subsection (4), effective July 1, 2009. (See L. 2008, p. 2036.)

ANNOTATION

Law reviews. For article, "Synthetic Fuels — Policy and Regulation", see 51 U. Colo. L. Rev. 465 (1980).

Annotator's note. Since § 25-1-506 is similar to §§ 25-1-501 and 25-1-506 as they existed prior to the 2008 repeal and reenactment of this part 5, relevant cases construing those provisions have been included in the annotations to this section.

Overview of the state's three-tiered public health system and the responsibilities delegated

under parts 5 and 6 of this article appears in *Jefferson County Health Servs. Ass'n v. Feeney*, 974 P.2d 1001 (Colo. 1998).

County board of health, not the board of county commissioners, is the "governing body" of a county health department for purposes of notice under the Colorado Governmental Immunity Act. *Jefferson County Health Servs. Ass'n v. Feeney*, 974 P.2d 1001 (Colo. 1998).

Applied in *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

25-1-507. Municipal board of health. Except as otherwise provided by law, the mayor and council of each incorporated town or city, whether incorporated under general statutes

or special charter in this state, may establish a municipal public health agency and appoint a municipal board of health. If appointed, the municipal board of health shall have all the powers and responsibilities and perform all the duties of a county or district board of health as provided in this part 5 within the limits of the respective city or town of which they are the officers.

Source: L. 2008: Entire part R&RE, p. 2039, § 1, effective July 1.

Editor's note: This section is similar to former § 25-1-609 as it existed prior to 2008.

25-1-508. County or district boards of public health - public health directors.

(1) Within ninety days after the adoption of a resolution to establish and maintain a county public health agency or to participate in a district public health agency, the respective board of county commissioners shall proceed to organize the agency by the appointment of a county or district board of health, referred to in this part 5 as a "county or district board".

(2) (a) (I) Each county board of health shall consist of at least five members to be appointed by the board of county commissioners for five-year terms; except that the board of county commissioners shall stagger the terms of the initial appointments. Thereafter, full-term appointments shall be for five years.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (a), a county with a population of less than one hundred thousand people may have a county board of health that consists of at least three members to be appointed by the board of county commissioners for five-year terms; except that the board of county commissioners shall stagger the terms of the initial appointments. Thereafter, full-term appointments shall be for five years.

(b) Each member of the county board of health shall be a resident of the county in which the county agency is located. Appointments shall be made to the board so that no business or professional group or governmental entity shall constitute a majority of the board. Any vacancy on the board shall be filled in the same manner as full-term appointments by the appointment of a qualified person for the unexpired term.

(c) In a county with a population of less than one hundred thousand people that, as of July 1, 2008, does not have a board of health that is separate from the board of county commissioners, the board of county commissioners may designate itself as the county board of health as of July 1, 2008. The terms of the members of the county board of health shall coincide with their terms as commissioners. Such county boards shall assume all the duties of appointed county boards.

(d) Notwithstanding the provisions of paragraphs (a) to (c) of this subsection (2), a county board of health in a home-rule county shall comply with the requirements of its home-rule charter.

(3) (a) Each district board of health shall consist of a minimum of five members. The membership of each district board of health shall include at least one representative from each county in the district. The members of the board shall be appointed by an appointments committee composed of one member of each of the boards of county commissioners of the counties comprising the district. The appointments committee for each district board shall designate the number of members of its district board and shall establish staggered terms for the initial appointments. Thereafter, full-term appointments shall be for five years.

(b) Each member of the district board shall be a resident of one of the counties comprising the district, and there shall be at least one member from each of the counties comprising the district. Appointments shall be made to the district board so that no business or professional group or governmental entity shall constitute a majority of the district board. The appointments committee shall fill any vacancy on the district board by the appointment of a qualified person for the remainder of the unexpired term.

(c) Upon establishment of a district board, all county boards previously existing within the county or district shall be dissolved. Upon the acceptance of a new county into an established district, the county or district board previously existing for the county being added shall be dissolved and the chair of the previous county or district board or the chair's

designee shall represent the new county on the district board until a new member is appointed by the appointments committee.

(4) (a) A county or district board, at its organizational meeting, shall elect from its members a president and other officers as it shall determine. The public health director of the agency, at the discretion of the board, may serve as secretary but shall not be a member of the board. All officers and the public health director shall hold their positions at the pleasure of the board.

(b) (I) Regular meetings of a county or district board shall be held at least once every three months at such times as may be established by resolution of the board. Special meetings of a board may be called by the president, by the public health director, or by a majority of the members of the board at any time on three days' prior notice; except that, in case of emergency, twenty-four hours' notice shall be sufficient.

(II) A county or district board may adopt, and at any time may amend, bylaws in relation to its meetings and the transaction of its business. A majority of the board shall constitute a quorum. Members of the board shall serve without compensation but shall be reimbursed for their actual and necessary travel and subsistence expenses to attend meetings.

(5) In addition to all other powers and duties conferred and imposed upon a county board of health or a district board of health by the provisions of this subpart 3, a county board of health or a district board of health shall have and exercise the following specific powers and duties:

(a) To develop and promote the public policies needed to secure the conditions necessary for a healthy community;

(b) To approve the local public health plan completed by the county or district agency, and to submit the local plan to the state board for review;

(c) (I) To select a public health director to serve at the pleasure of the county or district board. The public health director shall possess such minimum qualifications as may be prescribed by the state board. A public health director may be a physician, a public health nurse, or other qualified public health professional. A public health director may practice medicine or nursing within his or her license and scope of practice, as necessary, to carry out the functions of the office of the public health director. The qualifications shall reflect the resources and needs of the county or counties covered by the agency. If the public health director is not a physician, the county or district board shall employ or contract with at least one medical officer to advise the public health director on medical decisions. The public health director shall maintain an office location designated by the county or district board and shall be the custodian of all property and records of the agency.

(II) A person employed or under contract to act as a medical officer pursuant to this paragraph (c) shall be covered by the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S., for duties performed for the agency.

(d) (I) In the event of a vacancy in the position of public health director or medical officer, to either employ or contract with a person deemed qualified to fill the position or to request temporary assistance from a public health director or a medical officer from another county. The county or district board may also request that an employee of the state department, such as a qualified executive director or the chief medical officer, serve on an interim basis with all the powers and duties of the position.

(II) A person filling a temporary vacancy as public health director or medical officer shall be covered by the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S., for duties performed for the agency.

(e) To provide, equip, and maintain suitable offices and all necessary facilities for the proper administration and provision of core public health services, as defined by the state board;

(f) To determine general policies to be followed by the public health director in administering and enforcing public health laws, orders, and rules of the county or district board, and orders, rules, and standards of the state board;

(g) To issue orders and to adopt rules not inconsistent with the public health laws of this state nor with the orders or rules of the state board as the county or district board may deem

necessary for the proper exercise of the powers and duties vested in or imposed upon an agency or county or district board by this part 5;

(h) To act in an advisory capacity to the public health director on all matters pertaining to public health;

(i) To hold hearings, administer oaths, subpoena witnesses, and take testimony in all matters relating to the exercise and performance of the powers and duties vested in or imposed upon a county or district board;

(j) To provide environmental health services and to assess fees to offset the actual, direct cost of such services; except that no fee for a service shall be assessed against any person who has already paid a fee to the state or federal government for the service, and except that the only fee that shall be charged for annual retail food establishment inspections shall be the fee set forth in section 25-4-1607;

(k) To accept and, through the public health director, to use, disburse, and administer all federal aid, state aid, or other property, services, or moneys allotted to an agency for county or district public health functions or allotted without designation of a specific agency for purposes that are within the functions of an agency, and to prescribe, by rule consistent with the laws of this state, the conditions under which the property, services, or moneys shall be accepted and administered. The county or district board is empowered to make agreements that may be required to receive such moneys or other assistance.

(l) To approve, as provided for in section 25-1-520, a clean syringe exchange program proposed by an agency. A county board of health or district board of health shall not be required to approve a proposed program.

(6) Repealed.

Source: L. 2008: Entire part R&RE, p. 2039, § 1, effective July 1. L. 2010: IP(5) and (5)(j) amended and (5)(l) added, (SB 10-189), ch. 272, p. 1252, § 2, effective August 11.

Editor's note: (1) The provisions of this section are similar to provisions of several former sections as they existed prior to 2008. For a detailed comparison, see the comparative tables located in the back of the index.

(2) Subsection (6)(b) provided for the repeal of subsection (6), effective July 1, 2009. (See L. 2008, p. 2039.)

ANNOTATION

Law reviews. For article, "A Review of the 1959 Constitutional and Administrative Law Decisions", see 37 Dicta 81 (1960).

Annotator's note. Since § 25-1-508 is similar to §§ 25-1-505, 25-1-507, 25-1-601, and 25-1-610 as they existed prior to the 2008 repeal and reenactment of this part 5, relevant cases construing those provisions have been included in the annotations to this section.

This section is unlawful delegation of legislative power. Subsection (1)(d), delegating power to local boards of health to adopt rules and regulations, and § 25-1-514 (1)(a), providing that a violation of such rules and regulations shall be a misdemeanor, constitute an unlawful delegation of power to the executive department to define a crime in violation of Colo. Const. art. III. *Casey v. People*, 139 Colo. 89, 336 P.2d 308 (1959).

The general assembly cannot lawfully delegate its power of defining a crime to district or county health departments. *Casey v. People*, 139 Colo. 89, 336 P.2d 308 (1959).

County board's rules may not override statutory authority. County personnel rules,

even though adopted by the county board of health, do not override the explicit statutory authority of the board to discharge a public health officer appointed by the board at any time without cause or formal procedure. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

A county board of health, as a political subdivision of the state, may not by rule or regulation abdicate the authority and responsibility delegated to it by the general assembly. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Overview of the state's three-tiered public health system and the responsibilities delegated under parts 5 and 6 of this article appears in *Jefferson County Health Svcs. Ass'n v. Feeney*, 974 P.2d 1001 (Colo. 1998).

County board of health, not the board of county commissioners, is the "governing body" of a county health department for purposes of notice under the Colorado Governmental Immunity Act. *Jefferson County Health Svcs. Ass'n v. Feeney*, 974 P.2d 1001 (Colo. 1998).

Board may not discharge employee in retaliation for exercise of free speech rights. Even though a public health officer is subject to discharge at the pleasure of the board, this does not mean that the board's discretion is limitless. It is well established that even where a government employer may discharge an employee for no reason whatsoever, it nevertheless may not discharge that employee in retaliation for the exercise of his free speech rights. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Resignation prompted by threat of dismissal is equivalent of refusal to rehire. A resignation precipitated by the threat of dismissal is the substantive equivalent of a refusal to rehire by the board. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Appointed physician may substitute another physician's services. Even if the contract between a county and a physician to provide medical attention for the poor were one which called for personal services, it would be unreasonable to hold that the physician could not substitute another reputable physician in his stead during sickness or temporary absence. *Bd. of County Comm'rs v. Bedell*, 13 Colo. App. 261, 57 P. 187 (1899).

25-1-509. County and district public health directors. (1) (a) The director of each agency shall be the public health director.

(b) All other personnel required by an agency shall be selected by the public health director. All personnel shall perform duties as prescribed by the public health director.

(c) In the event of a public health emergency, the agency shall issue orders and adopt rules consistent with the laws and rules of the state as the public health director may deem necessary for the proper exercise of the powers and duties vested in or imposed upon the agency or county or district board.

(2) In addition to the other powers and duties conferred by this part 5 or by the agency, a public health director has the following powers and duties:

(a) To administer and enforce:

(I) The public health laws of the state and, as authorized by the provisions of this title or article 20 of title 30, C.R.S., the public health orders, rules, and standards of the state department or the state board; and

(II) The orders and rules of the county or district board;

(b) To exercise all powers and duties conferred and imposed upon agencies not expressly delegated by the provisions of this part 5 to a county or district board;

(c) To hold hearings, administer oaths, subpoena witnesses, and take testimony in all matters relating to the exercise and performance of his or her powers and duties;

(d) To act as the local registrar of vital statistics or to contract out the responsibility of registrar in the area over which the agency has jurisdiction;

(e) To direct the resources needed to carry out the county or district public health plan developed pursuant to section 25-1-505; and

(f) If requested by the county or district board, to serve as secretary to the board responsible for maintaining all records required by part 2 of article 72 of title 24, C.R.S., and ensuring public notice of all meetings in accordance with part 4 of article 6 of title 24, C.R.S. The director shall be the custodian of all properties and records for the agency.

Source: L. 2008: Entire part R&RE, p. 2043, § 1, effective July 1.

Editor's note: This section is similar to former §§ 25-1-505 (3) and 25-1-508 as they existed prior to 2008.

ANNOTATION

Annotator's note. Since § 25-1-509 is similar to §§ 25-1-505 and 25-1-508 as they existed prior to the 2008 repeal and reenactment of this part 5, a relevant case construing those provisions has been included in the annotations to this section.

County personnel rules do not override statutory authority. County personnel rules, even though adopted by the county board of

health, do not override the explicit statutory authority of the board to discharge a public health officer appointed by the board at any time without cause or formal procedure. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

A county board of health, as a political subdivision of the state, may not by rule or regulation abdicate the authority and responsibility

delegated to it by the general assembly. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Board may not discharge employee in retaliation for exercise of free speech rights. Even though a public health officer is subject to discharge at the pleasure of the board, this does not mean that the board's discretion is limitless. It is well established that even where a government employer may discharge an employee for no reason whatsoever, it nevertheless may not discharge that employee in retaliation for the exercise of his free speech rights. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Even with the enhanced potential for negative impact which the public statements of a policy-making employee may bear on the efficiency of governmental functions, the policymaking employee may nonetheless demonstrate that the interest in allowing free commentary on a matter of public concern overrides any governmental interest. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Resignation prompted by threat of dismissal is equivalent of refusal to rehire. A resignation precipitated by the threat of dismissal is the substantive equivalent of a refusal to rehire by the board. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

25-1-510. County or district board unable or unwilling to act. (1) If the county or district board is unable or unwilling to efficiently or promptly abate a nuisance or prevent the introduction or spread of a contagious or infectious disease, the county or district board or agency shall notify the state department and request assistance to take measures that will abate the nuisance or prevent the introduction or spread of disease.

(2) Upon receipt of the notice and request described in subsection (1) of this section, or upon determination that the county or district board is unable or unwilling to act, the state department has full power to take measures to ensure the abatement of the nuisance or prevent the introduction or spread of disease. The state department, for this purpose, may assume all powers conferred by law on the county or district board.

(3) The state department may reallocate state moneys from an agency that is not able to provide core public health services or standards to another entity to deliver services in that agency's jurisdiction.

Source: L. 2008: Entire part R&RE, p. 2044, § 1, effective July 1.

Editor's note: This section is similar to former § 25-1-602 as it existed prior to 2008.

25-1-511. County treasurer - agency funds. (1) In the case of a county public health agency, the county treasurer, as a part of his or her official duties as county treasurer, shall serve as treasurer of the agency, and the treasurer's official bond as county treasurer shall extend to and cover his or her duties as treasurer of the agency. In the case of a district public health agency, the county treasurer of the county in the district having the largest population as determined by the most recent federal census, as a part of his or her official duties as county treasurer, shall serve as treasurer of the district agency, and the treasurer's official bond as county treasurer shall extend to and cover his or her duties as treasurer of the district agency.

(2) The treasurer of an agency, upon organization of the agency, shall create a county or district public health agency fund, to which shall be credited:

- (a) Any moneys appropriated from a county general fund; and
- (b) Any moneys received from state or federal appropriations or any other gifts, grants, donations, or fees for local public health purposes.

(3) Any moneys credited to a fund created pursuant to subsection (2) of this section shall be expended only for the purposes of this part 5, and claims or demands against the fund shall be allowed only if certified by the public health director and the president of the county or district board or any other member of the county or district board designated by the president for such purpose.

(4) On or before September 1, 2008, and on or before September 1 of each year thereafter, a county board of health shall estimate the total cost of maintaining the county public health agency for the ensuing fiscal year, and the amount of moneys that may be available from unexpended surpluses or from state or federal funds or other grants or donations. On or before September 1 of each year, the estimates shall be submitted in the

form of a budget to the board of county commissioners. The board of county commissioners is authorized to provide any moneys necessary, over estimated moneys from surpluses, grants, and donations, to cover the total cost of maintaining the agency for the ensuing fiscal year by an appropriation from the county general fund.

(5) On or before September 1, 2008, and on or before September 1 of each year thereafter, a district board of health shall estimate the total cost of maintaining the district public health agency for the ensuing fiscal year, and the amount of moneys that may be available from unexpended surpluses or from state or federal funds or other grants or donations. On or before September 1 of each year, the estimates shall be submitted in the form of a budget to a committee composed of the chairs of the boards of county commissioners of all counties comprising the district. The cost for maintaining the agency, over estimated moneys from surpluses, grants, or donations, shall be apportioned by the committee among the counties comprising the district in the proportion that the population of each county in the district bears to the total population of all counties in the district, population figures to be based on the most recent federal census. The boards of county commissioners of the respective counties are authorized to provide any moneys necessary to cover the proportionate shares of their counties by an appropriation from the county general fund.

Source: L. 2008: Entire part R&RE, p. 2044, § 1, effective July 1.

Editor's note: This section is similar to former §§ 25-1-505 (2) and 25-1-509 as they existed prior to 2008.

ANNOTATION

Annotator's note. Since § 25-1-511 is similar to §§ 25-1-505 as it existed prior to the 2008 repeal and reenactment of this part 5, a relevant case construing that provision has been included in the annotations to this section.

County personnel rules do not override statutory authority. County personnel rules, even though adopted by the county board of health, do not override the explicit statutory authority of the board to discharge a public health officer appointed by the board at any time without cause or formal procedure. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

A county board of health, as a political subdivision of the state, may not by rule or regulation abdicate the authority and responsibility delegated to it by the general assembly. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Board may not discharge employee in retaliation for exercise of free speech rights.

Even though a public health officer is subject to discharge at the pleasure of the board, this does not mean that the board's discretion is limitless. It is well established that even where a government employer may discharge an employee for no reason whatsoever, it nevertheless may not discharge that employee in retaliation for the exercise of his free speech rights. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

Resignation prompted by threat of dismissal is equivalent of refusal to rehire. A resignation precipitated by the threat of dismissal is the substantive equivalent of a refusal to rehire by the board. *Johnson v. Jefferson County Bd. of Health*, 662 P.2d 463 (Colo. 1983).

25-1-512. Allocation of moneys - public health services support fund - created.

(1) (a) The state department shall allocate any moneys that the general assembly may appropriate for distribution to county or district public health agencies organized pursuant to this part 5 for the provision of local health services. The state board shall determine the basis for the allocation of moneys to the agencies. In determining the allocation of moneys, the state board shall take into account the population served by each agency, the additional costs involved in operating small or rural agencies, and the scope of services provided by each agency.

(b) (I) In order to qualify for state assistance, each county and city and county shall contribute a minimum of one dollar and fifty cents per capita for its local health services and may contribute additional amounts as it may determine to be necessary to meet its local health needs.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), for a district public health agency, the counties or cities and counties of the district in total shall contribute a minimum of one dollar and fifty cents per capita for local health services within the district.

(c) Federally funded and state-funded special projects and demonstrations shall be in addition to the allotments specified in paragraph (b) of this subsection (1).

(2) The public health services support fund is hereby created in the state treasury and shall be known in this section as the “fund”. The principal of the fund shall consist of tobacco litigation settlement moneys transferred by the state treasurer to the fund pursuant to section 24-75-1104.5 (1.5) (a) (IV), C.R.S., and shall, subject to annual appropriation by the general assembly to the state department, be allocated by the state department to all agencies authorized pursuant to this part 5 as specified in subsection (1) of this section; except that, at the end of the 2011-12 fiscal year and at the end of each fiscal year thereafter, all unexpended and unencumbered principal of the fund shall be transferred to the general fund, in accordance with section 24-75-1104.5 (1.5) (b), C.R.S. Interest and income earned on the deposit and investment of moneys in the public health services support fund before July 1, 2011, shall be credited to the fund and shall remain in the fund until the end of the fiscal year in which credited, when it shall be transferred to the general fund.

Source: L. 2008: Entire part R&RE, p. 2045, § 1, effective July 1. L. 2009: (2) amended, (SB 09-292), ch. 369, p. 1969, § 82, effective August 5. L. 2011: (2) amended, (SB 11-225), ch. 189, p. 730, § 3, effective May 19. L. 2012: (2) amended, (HB 12-1247), ch. 53, p. 193, § 3, effective March 22.

Editor’s note: This section is similar to former § 25-1-516 as it existed prior to 2008.

25-1-513. Enlargement of or withdrawal from public health agency. (1) Any county contiguous to a district maintaining a district public health agency may become a part of the district by agreement between its board of county commissioners and the boards of county commissioners of the counties comprising the district. The county, upon being accepted into the district, shall thereupon become subject to the provisions of this part 5.

(2) Any county in a district maintaining a district public health agency may withdraw from the district by resolution of its board of county commissioners. A county may not withdraw from a district within the two-year period following the establishment of the district or the county becoming a part of the district. A county may only withdraw from a district after one year’s written notice given to the agency. In the event of withdrawal of a county from a district, any moneys that had been appropriated by the county before withdrawal to cover its proportionate share of maintaining the district may be returned to the county. A county shall establish a county public health agency or join another district public health agency once the county withdraws from a district.

(3) A municipal corporation that has voluntarily merged its public health agency with a county or district public health agency under the authority of section 25-1-506 may withdraw from the county or district public health agency by resolution of its city council, board of trustees, or other governing body. A municipal corporation may not withdraw from an agency within the two-year period following the municipal corporation becoming a part of the agency. A county may only withdraw from a district ninety days after a written notice is given to the agency.

Editor’s note: This section is similar to former § 25-1-511 as it existed prior to 2008.

25-1-514. Legal actions - legal adviser. The county attorney for the county or the district attorney of the judicial district in which a cause of action arises shall bring any civil or criminal action requested by a county or district public health director to abate a condition that exists in violation of, or to restrain or enjoin any action that is in violation

of, or to prosecute for the violation of or for the enforcement of, the public health laws and the standards, orders, and rules of the state board or a county or district board of health. If the county attorney or the district attorney fails to act, the public health director may bring an action and be represented by special counsel employed by him or her with the approval of the county or district board. An agency, through its county or district board of health or through its public health director with the approval of the state board, may employ or retain and compensate an attorney to be the legal adviser of the agency and to defend all actions and proceedings brought against the agency or the officers and employees of the agency.

Source: L. 2008: Entire part R&RE, p. 2047, § 1, effective July 1.

Editor's note: This section is similar to former § 25-1-512 as it existed prior to 2008.

25-1-515. Judicial review of decisions. (1) Any person aggrieved and affected by a decision of a county or district board of health or a public health director acting under the provisions of this part 5 shall be entitled to judicial review by filing, in the district court of any county over which the county or district board or public health director has jurisdiction, an appropriate action requesting the review within ninety days after the public announcement of the decision. The court may make any interested person a party to the action. The review shall be conducted by the court without a jury and shall be confined to the record, if a complete record is presented. In a case of alleged irregularities in the record or in the procedure before the county or district board or public health director, testimony may be taken in the court. The court may affirm the decision or may reverse or modify it if the substantial rights of the appellant have been prejudiced as a result of the findings and decision of the county or district board being:

- (a) Contrary to constitutional rights or privileges;
 - (b) In excess of the statutory authority or jurisdiction of the county or district board or public health director;
 - (c) Affected by any error of law;
 - (d) Made or promulgated upon unlawful procedure;
 - (e) Unsupported by substantial evidence in view of the entire record as submitted; or
 - (f) Arbitrary or capricious.
- (2) Any party may have a review of the final judgment or decision of the district court by appellate review in accordance with law and the Colorado appellate rules.

Editor's note: This section is similar to former § 25-1-513 as it existed prior to 2008.

ANNOTATION

Applied in *C Bar H, Inc. v. Bd. of Health ex rel. Jefferson County*, 56 P.3d 1189 (Colo. App. 2002) (decided under former § 25-1-513).

25-1-516. Unlawful acts - penalties. (1) It is unlawful for any person, association, or corporation and the officers thereof to:

- (a) Willfully violate, disobey, or disregard the provisions of the public health laws or the terms of any lawful notice, order, standard, or rule;
- (b) Fail to make or file a report required by law or rule of the state board relating to the existence of disease or other facts and statistics relating to the public health;
- (c) Willfully and falsely make or alter a certificate or certified copy of any certificate issued pursuant to the public health laws;
- (d) Willfully fail to remove from private property under his or her control at his or her own expense, within forty-eight hours after being ordered to do so by the county or district public health agency, any nuisance, source of filth, or cause of sickness within the jurisdiction and control of the agency whether the person, association, or corporation is the

owner, tenant, or occupant of the private property; except that, when the condition is due to an act of God, it shall be removed at public expense; or

(e) Pay, give, present, or otherwise convey to any officer or employee of an agency any gift, remuneration, or other consideration, directly or indirectly, that the officer or employee is forbidden to receive by the provisions of this part 5.

(2) It is unlawful for any officer or employee of any agency or member of any county or district board of health to accept any gift, remuneration, or other consideration, directly or indirectly, for an incorrect or improper performance of the duties imposed upon him or her by or on behalf of the agency or by the provisions of this part 5.

(3) Any person, association, or corporation, or the officers thereof, who violates any provision of this section is guilty of a class 1 misdemeanor and, upon conviction thereof, shall be punished pursuant to the provisions of section 18-1.3-501, C.R.S. In addition to the fine or imprisonment, the person, association, or corporation shall be liable for any expense incurred by health authorities in removing any nuisance, source of filth, or cause of sickness. Conviction under the penalty provisions of this part 5 or any other public health law shall not relieve any person from any civil action in damages that may exist for an injury resulting from any violation of the public health laws.

Source: L. 2008: Entire part R&RE, p. 2048, § 1, effective July 1.

Editor's note: This section is similar to former § 25-1-514 as it existed prior to 2008.

ANNOTATION

Law reviews. For article, "A Review of the 1959 Constitutional and Administrative Law Decisions", see 37 Dicta 81 (1960).

Annotator's note. Since § 25-1-516 is similar to § 25-1-514 as it existed prior to the 2008 repeal and reenactment of this part 5, a relevant case construing that provision has been included in the annotations to this section.

This section is unlawful delegation of legislative power to define crime. Section 25-1-507(1)(d), delegating power to local boards of health to adopt rules and regulations, and sub-

section (1)(a), providing that a violation of such rules and regulations shall be a misdemeanor, constitute an unlawful delegation of power to the executive department to define a crime in violation of art. III, Colo. Const. *Casey v. People*, 139 Colo. 89, 336 P.2d 308 (1959).

Only general assembly may declare an act to be a crime, and that precious power cannot be delegated to others not elected by or responsible to the people. *Casey v. People*, 139 Colo. 89, 336 P.2d 308 (1959).

25-1-517. Mode of treatment inconsistent with religious creed or tenet. Nothing in this part 5 authorizes a county or district board of health to impose on any person any mode of treatment inconsistent with the creed or tenets of any religious denomination of which he or she is an adherent if the person complies with sanitary and quarantine laws and rules.

Source: L. 2008: Entire part R&RE, p. 2049, § 1, effective July 1.

Editor's note: This section is similar to former § 25-1-515 as it existed prior to 2008.

25-1-518. Nuisances. (1) **Removal of nuisances.** The county or district board of health shall examine all nuisances, sources of filth, and causes of sickness, which, in its opinion, may be injurious to the health of the inhabitants, within its town, city, county, city and county, or district, and it shall destroy, remove, or prevent the nuisance, source of filth, or cause of sickness, as the case may require.

(2) **Unhealthy premises cleaned - structures removed.** If any cellar, vault, lot, sewer, drain, place, or premises within any city is damp, unwholesome, offensive, or filthy, or is covered for any portion of the year with stagnant or impure water, or is in a condition as to produce unwholesome or offensive exhalations, the county or district board of health may cause the area to be drained, filled up, cleaned, amended, or purified; or may require the owner or occupant or person in charge of the lot, premises, or place to perform such duty; or may cause the removal to be done by the proper officers of the city.

(3) **Expense for abating nuisance.** If any person or company neglects to remove or abate any nuisance or to perform any requirement made by or in accordance with any ordinance or resolution of the county or district board of health for the protection of the health of the inhabitants and if any expense is incurred by the board in removing or abating the nuisance or in causing such duty or requirement to be performed, such expense may be recovered by the board in an action against such person or company. In all cases where the board incurs any expense for draining, filling, cleaning, or purifying any lot, place, or premises, or for removing or abating any nuisance found upon such lot or premises, the board, in addition to all other remedies, may provide for the recovery of such expense, charge the same or such part thereof as it deems proper to the lot or premises upon or on account of which such expense was incurred or from which such nuisance was removed or abated, and cause the same to be assessed upon such lot or premises and collected as a special assessment.

(4) **Removal of nuisance on private property - penalty.** Whenever any nuisance, source of filth, or cause of sickness is found on private property, the county or district board of health shall order the owner or occupant or the person who has caused or permitted such nuisance, at his or her own expense, to remove the same within twenty-four hours. In default thereof, he or she shall forfeit a sum not to exceed one hundred dollars at the suit of the board of county commissioners of the proper county or the board of the proper city, town, or village for the use of the county or district board of health of the city or town where the nuisance is found.

(5) **Board to remove - when.** If the owner or occupant does not comply with an order of the county or district board of health, the board may cause the nuisance, source of filth, or cause of sickness to be removed, and all expense incurred thereby shall be paid by the owner or occupant or by such other person who has caused or permitted the nuisance, source of filth, or cause of sickness.

(6) **Conviction - nuisance to be abated.** Whenever any person is convicted of maintaining a nuisance that may be injurious to the public health, the court, in its discretion, may order the nuisance abated, removed, or destroyed at the expense of the defendant under the direction of the county or district board of health of the town, city, county, or district where the nuisance is found, and the form of the warrant to the sheriff or other officer may be varied accordingly.

(7) **Stay warrant of conviction.** The court, on the application of the defendant, may order a stay of a warrant issued pursuant to subsection (6) of this section for such time as may be necessary, not exceeding six months, to give the defendant an opportunity to remove the nuisance upon giving satisfactory security to do so within the time specified in the order.

(8) **Expense of abating.** The expense of abating and removing the nuisance pursuant to a warrant issued pursuant to subsection (6) of this section shall be collected by the officer in the same manner as damages and costs are collected upon execution; except that the materials of any buildings, fences, or other things that may be removed as a nuisance may be sold by the officer in like manner as goods are sold on execution for the payment of debts. The officer may apply the proceeds of the sale to defray the expenses of the removal and shall pay over the balance thereof, if any, to the defendant upon demand. If the proceeds of the sale are not sufficient to defray the expenses incurred pursuant to this subsection (8), the sheriff shall collect the residue thereof as provided in subsection (3) of this section.

(9) **Refusal of admittance to premises.** (a) Whenever a county or district board of health finds it necessary for the preservation of the lives or health of the inhabitants to enter any building, car, or train of cars in its town, city, county, or district for the purpose of examining and abating, removing, or preventing any nuisance, source of filth, or cause of sickness and is refused entry, any member of the board may make complaint under oath to the county court of his or her county stating the facts of the case as far as he or she has knowledge thereof.

(b) The court may thereupon issue a warrant directed to the sheriff commanding him or her to take sufficient aid and, being accompanied by any two or more members of the county or district board of health, during daylight hours, to return to the place where the nuisance, source of filth, or cause of sickness complained of may be and destroy, remove, or prevent

the nuisance, source of filth, cause of sickness, or danger to life or limb under the direction of the members of the board of health.

(10) **Damages occasioned by nuisance - action.** Any person injured either in his or her comfort or in the enjoyment of his or her estate by any nuisance may have an action for damages sustained thereby.

Source: L. 2008: Entire part R&RE, p. 2049, § 1, effective July 1. L. 2009: (1) amended, (SB 09-292), ch. 369, p. 1970, § 83, effective August 5.

Editor's note: The provisions of this section are similar to provisions of several former sections as they existed prior to 2008. For a detailed comparison, see the comparative tables located in the back of the index.

ANNOTATION

Annotator's note. Since § 25-1-518 is similar to § 25-1-613 as it existed prior to the 2008 repeal and reenactment of this part 5, relevant cases construing that provision have been included in the annotations to this section.

Only nuisances per se may be removed or abated summarily. City of Denver v. Mullen, 7 Colo. 345, 3 P. 693 (1884).

Compensation required for property mistakenly destroyed as nuisance. If property is destroyed under a mistaken belief that it is a nuisance, when in fact it is not a nuisance, it is taken for a public use, and the loss to the owner should be made good. McMahon v. City of Telluride, 79 Colo. 281, 244 P. 1017 (1926).

25-1-519. Existing intergovernmental agreements. Nothing in this part 5 shall void the terms of any intergovernmental agreement concerning public health entered into as of July 1, 2008, so long as all core and essential public health services continue to be provided.

Source: L. 2008: Entire part R&RE, p. 2051, § 1, effective July 1.

25-1-520. Clean syringe exchange programs - approval - reporting requirements - repeal. (1) A county public health agency or district public health agency may request approval from its county board of health or district board of health, referred to in this section as the "board", for a clean syringe exchange program operated by the agency or by a nonprofit organization with which the agency contracts to operate the clean syringe exchange program. Prior to approving or disapproving any such optional program, the board shall consult with the agency and interested stakeholders concerning the establishment of the clean syringe exchange program. Interested stakeholders shall include, but need not be limited to, local law enforcement agencies, district attorneys, substance abuse treatment providers, persons in recovery, nonprofit organizations, hepatitis C and HIV advocacy organizations, and members of the community. The board and interested stakeholders shall consider, at a minimum, the following issues:

(a) The scope of the problem being addressed and the population the program would serve;

(b) Concerns of the law enforcement community; and

(c) The parameters of the proposed program, including methods for identifying program workers and volunteers.

(2) Each proposed clean syringe exchange program shall, at a minimum, have the ability to:

(a) Provide an injection drug user with the information and the means to protect himself or herself, his or her partner, and his or her family from exposure to blood-borne disease through access to education, sterile injection equipment, voluntary testing for blood-borne diseases, and counseling;

(b) Provide thorough referrals to facilitate entry into drug abuse treatment, including opioid substitution therapy;

(c) Encourage usage of medical care and mental health services as well as social welfare and health promotion;

(d) Provide safety protocols and classes for the proper handling and disposal of injection materials;

(e) Plan and implement the clean syringe exchange program with the clear objective of reducing the transmission of blood-borne diseases within a specific geographic area; and

(f) Develop a timeline for the proposed program and for the development of policies and procedures.

(3) The board may approve or disapprove the proposed clean syringe exchange program based on the results of the meetings held pursuant to subsection (1) of this section.

(4) If the board approves a clean syringe exchange program that is operated through a contract with a nonprofit organization, the contract shall be subject to annual review and shall be renewed only if the board approves the contract after consultation with the county or district public health agency and interested stakeholders as described in subsection (1) of this section.

(5) One or more counties represented on a district board of health may at any time opt out of a clean syringe exchange program proposed or approved pursuant to this section.

(6) (a) On or before July 1, 2011, and on or before July 1 each year thereafter, each board that authorizes a clean syringe exchange program pursuant to this section shall submit a report to the department of public health and environment concerning the results of the program. On or before September 1, 2011, and on or before September 1 each year thereafter, the department of public health and environment shall submit a report to the health and human services committees of the house of representatives and the senate, or any successor committees, summarizing the reports received from boards pursuant to this paragraph (a).

(b) This subsection (6) is repealed, effective July 1, 2014.

LOCAL BOARDS OF HEALTH

25-1-601 to 25-1-667. (Repealed)

Source: L. 2008: Entire part repealed, p. 2051, § 3, effective July 1.

Editor's note: This part 6 was numbered as article 3 of chapter 66, C.R.S. 1963. For amendments to this part 6 prior to its repeal in 2008, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. The provisions of this part 6 were relocated to part 5 of this article. For the location of specific provisions, see the editor's notes following each section in said part 5 and the comparative tables located in the back of the index.

PART 7

REGIONAL HEALTH DEPARTMENTS

25-1-701 to 25-1-719. (Repealed)

Source: L. 2008: Entire part repealed, p. 2051, § 3, effective July 1.

Editor's note: This part 7 was numbered as article 37 of chapter 66, C.R.S. 1963. For amendments to this part 7 prior to its repeal in 2008, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 8

PATIENT RECORDS

Law reviews: For article, “Rights to and Disclosure of Medical Information: HIPAA and Colorado Law”, see 33 Colo. Law. 101 (October 2004).

25-1-801. Patient records in custody of health care facility. (1) (a) Every patient record in the custody of a health facility licensed or certified pursuant to section 25-1.5-103 (1) or article 3 of this title, or both, or any entity regulated under title 10, C.R.S., providing health care services, as defined in section 10-16-102 (22), C.R.S., directly or indirectly through a managed care plan, as defined in section 10-16-102 (26.5), C.R.S., or otherwise shall be available for inspection to the patient or the patient’s designated representative through the attending health care provider or such provider’s designated representative at reasonable times and upon reasonable notice, except records pertaining to mental health problems or notes by a physician that, in the opinion of a licensed physician who practices psychiatry and is an independent third party, would have significant negative psychological impact upon the patient. Such independent third-party physician shall consult with the attending physician prior to making a determination with regard to the availability for inspection of any patient record and shall report in writing findings to the attending physician and to the custodian of said record. A summary of records pertaining to a patient’s mental health problems may, upon written request and signed and dated authorization, be made available to the patient or the patient’s designated representative following termination of the treatment program.

(b) (I) Following any treatment, procedure, or health care service rendered by a health facility licensed or certified pursuant to section 25-1.5-103 (1) or article 3 of this title, or both, or by an entity regulated under title 10, C.R.S., providing health care services, as defined in section 10-16-102 (22), C.R.S., directly or indirectly through a managed care plan, as defined in section 10-16-102 (26.5), C.R.S., or otherwise, copies of said records, including X rays, shall be furnished to the patient upon submission of a written authorization-request for records, dated and signed by the patient, and upon the payment of the reasonable costs.

(II) In the event that a licensed health care professional determines that a copy of any X ray, mammogram, CT SCAN, MRI, or other film is not sufficient for diagnostic or other treatment purposes, the health facility or entity shall make the original of any such film available to the patient or another health care professional or facility as specifically directed by the patient pursuant to a written authorization-request for films and upon the payment of the reasonable costs for such film. If a health facility releases an original film pursuant to this subparagraph (II), it shall not be responsible for any loss, damage, or other consequences as a result of such release. Any original X ray, mammogram, CT SCAN, MRI, or other film made available pursuant to this subparagraph (II) shall be returned upon request to the lending facility within thirty days.

(c) The hospital or related facility or institution shall post in conspicuous public places on the premises a statement of the requirements set forth in paragraphs (a) and (b) of this subsection (1) and shall make available a copy of said statement to each patient upon admission.

(d) Nothing in this section shall be construed to require a person responsible for the diagnosis or treatment of sexually transmitted infections or addiction to or use of drugs in the case of minors pursuant to sections 25-4-402 (4) and 13-22-102, C.R.S., to release patient records of such diagnosis or treatment to a parent, guardian, or person other than the minor or his or her designated representative.

(2) All requests by patients for inspection of their medical records made under this section shall be noted with the time and date of the patient’s request, and the time and date of inspection noted by the attending health care provider or his designated representative. The patient shall acknowledge the fact of his inspection by dating and signing his record file.

(3) Nothing in this section shall apply to any nursing institution conducted by or for the adherents of any well-recognized church or religious denomination for the purpose of providing facilities for the care and treatment of the sick who depend exclusively upon spiritual means through prayer for healing and the practice of the religion of such church or denomination.

(4) For the purposes of this section, medical information transmitted during the delivery of health care via telemedicine, as defined in section 12-36-106 (1) (g), C.R.S., is part of the patient's medical record maintained by the health care facility.

Source: **L. 76:** Entire part added, p. 648, § 1, effective July 1. **L. 83:** (1)(a) R&RE, p. 1040, § 1, effective May 20. **L. 97:** (1)(a) and (1)(b) amended, p. 348, § 1, effective April 19. **L. 2001:** (4) added, p. 1163, § 10, effective January 1, 2002. **L. 2003:** (1)(a) and (1)(b)(I) amended, p. 708, § 36, effective July 1. **L. 2009:** (1)(d) amended, (SB 09-179), ch. 112, p. 475, § 20, effective April 9.

Cross references: For the legislative declaration contained in the 2001 act enacting subsection (4), see section 1 of chapter 300, Session Laws of Colorado 2001.

ANNOTATION

Law reviews. For article, "The Authorization to Release Medical Information Form: Its Genesis and Usage", see 11 Colo. Law. 1179 (1982). For article, "Legislative Update", see 12 Colo. Law. 1251 (1983).

Exception to broad disclosure. This section can be read consistently with former § 27-10-116 (1)(a) as a specific exception to a general policy of broad disclosure and is not unconstitutional on its face as it operates with the short-term commitment procedure. *Brown v. Jensen*, 572 F. Supp. 193 (D. Colo. 1983).

The phrase "the reasonable costs" of providing copies of medical records, as used in

subsection (1)(b), does not indicate that providers may only charge for the singular costs directly incurred in the physical act of copying. The term "costs" is not singular and is not limited to the costs of supplies and the labor of copying. *Colo. Consumer Health Initiative v. Colo. Bd. of Health*, 240 P.3d 525 (Colo. App. 2010).

"Reasonable costs" may include the costs inherent in record inspection. *Colo. Consumer Health Initiative v. Colo. Bd. of Health*, 240 P.3d 525 (Colo. App. 2010).

25-1-802. Patient records in custody of individual health care providers.

(1) (a) Every patient record in the custody of a podiatrist, chiropractor, dentist, doctor of medicine, doctor of osteopathy, nurse, optometrist, audiologist, acupuncturist, direct-entry midwife, or physical therapist required to be licensed under title 12, C.R.S., or a person practicing psychotherapy under the provisions of article 43 of title 12, C.R.S., except records pertaining to mental health problems, shall be available to the patient upon submission of a written authorization-request for inspection of records, dated and signed by the patient, at reasonable times and upon reasonable notice. A summary of records pertaining to a patient's mental health problems may, upon written request and signed and dated authorization, be made available to the patient or the patient's designated representative following termination of the treatment program.

(b) (I) A copy of such records, including X rays, shall be made available to the patient or the patient's designated representative, upon written authorization-request for a copy of such records, dated and signed by the patient, upon reasonable notice and payment of the reasonable costs.

(II) In the event that a licensed health care professional determines that a copy of any X ray, mammogram, CT SCAN, MRI, or other film is not sufficient for diagnostic or other treatment purposes, the podiatrist, chiropractor, dentist, doctor of medicine, doctor of osteopathy, nurse, optometrist, audiologist, acupuncturist, direct-entry midwife, or physical therapist required to be licensed under title 12, C.R.S., or, subject to the provisions of section 25-1-801 (1) (a) and paragraph (a) of this subsection (1), the person practicing psychotherapy under the provisions of article 43 of title 12, C.R.S., shall make the original of any such film available to the patient or another health care professional or facility as

specifically directed by the patient pursuant to a written authorization-request for films and upon the payment of the reasonable costs for such film. If a practitioner releases an original film pursuant to this subparagraph (II), the practitioner shall not be responsible for any loss, damage, or other consequences as a result of such release. Any original X ray, mammogram, CT SCAN, MRI, or other film made available pursuant to this subparagraph (II) shall be returned upon request to the lending practitioner within thirty days.

(2) Nothing in this section shall be construed to require a person responsible for the diagnosis or treatment of sexually transmitted infections or addiction to or use of drugs in the case of minors pursuant to sections 25-4-402 (4) and 13-22-102, C.R.S., to release patient records of such diagnosis or treatment to a parent, guardian, or person other than the minor or his or her designated representative.

(3) For purposes of this section, "patient record" does not include a doctor's office notes.

(4) All requests by patients for inspection of their medical records made under this section shall be noted with the time and date of the patient's request and the time and date of inspection noted by the health care provider or his designated representative. The patient shall acknowledge the fact of his inspection by dating and signing his record file.

(5) For the purposes of this section, medical information transmitted during the delivery of health care via telemedicine, as defined in section 12-36-106 (1) (g), C.R.S., is part of the patient's medical record maintained by a health care provider.

Source: L. 76: Entire part added, p. 649, § 1, effective July 1. L. 97: (1) amended, p. 349, § 2, effective April 19; (1)(a) amended, p. 1032, § 69, effective August 6. L. 2001: (5) added, p. 1163, § 11, effective January 1, 2002. L. 2009: (2) amended, (SB 09-179), ch. 112, p. 475, § 21, effective April 9.

Cross references: For the legislative declaration contained in the 2001 act enacting subsection (5), see section 1 of chapter 300, Session Laws of Colorado 2001.

ANNOTATION

The phrase "mental health problems" means psychiatric or psychological problems. The phrase does not include general professional counseling, addressing life skill building, decision making, and problem solving, unrelated to psychiatric or psychological problems. Therefore, such records are available to the patient under this section. *Dauwe v. Musante*, 122 P.3d 15 (Colo. App. 2004).

The phrase "the reasonable costs" of providing copies of medical records, as used in subsection (1)(b), does not indicate that pro-

viders may only charge for the singular costs directly incurred in the physical act of copying. The term "costs" is not singular and is not limited to the costs of supplies and the labor of copying. *Colo. Consumer Health Initiative v. Colo. Bd. of Health*, 240 P.3d 525 (Colo. App. 2010).

"Reasonable costs" may include the costs inherent in record inspection. *Colo. Consumer Health Initiative v. Colo. Bd. of Health*, 240 P.3d 525 (Colo. App. 2010).

25-1-803. Effect of this part 8 on similar rights of a patient. (1) Nothing in this part 8 shall be construed so as to:

(a) Limit the right of a patient or the patient's designated representative to inspect the patient's medical or mental health data pursuant to section 24-72-204 (3) (a) (I), C.R.S.; or

(b) Limit a right to inspect the patient's records which is otherwise granted by state statute to the patient or his designated representative.

Source: L. 76: Entire part added, p. 650, § 1, effective July 1. L. 97: (1)(a) amended, p. 350, § 3, effective April 19.

PART 9

ADVISORY COMMISSION ON FAMILY MEDICINE

25-1-901. Legislative declaration. (1) The general assembly hereby finds and declares that:

- (a) Physicians engaged in family medicine are in critically short supply in this state;
- (b) Because of the distribution of such physicians, many rural and urban areas of the state are underserved;
- (b.1) A significant portion of the state population is medically underserved because of indigency;
- (b.2) Family physicians provide health care to all segments of the population;
- (c) The provision of more competent family physicians is a public purpose of great importance; and
- (d) The creation of an advisory commission on family medicine is a desirable, necessary, and economic means of addressing the needs described in paragraphs (a) and (b) of this subsection (1).

Source: **L. 77:** Entire part added, p. 1271, § 1, effective July 1. **L. 83:** (1)(b.1) and (1)(b.2) added, p. 1041, § 1, effective May 20.

25-1-902. Commission created - composition - terms of office. (1) There is hereby created, in the department of health, the commission on family medicine, referred to in this part 9 as the "commission". Appointments of members made to take effect on January 1, 1983, shall be made in accordance with section 24-1-135, C.R.S. No more than eight members of the commission shall be members of the same major political party. A vacancy on the commission occurs whenever any health care consumer member moves out of the congressional district from which he was appointed. A health care consumer member who moves out of such congressional district shall promptly notify the governor of the date of such move, but such notice is not a condition precedent to the occurrence of the vacancy. The governor shall fill the vacancy by appointment for the unexpired term. The commission shall consist of members determined as follows:

- (a) The dean of the university of Colorado school of medicine or his designated representative;
- (b) The director of all family medicine programs in the state accredited by the accreditation council on graduate medical education of the American medical association or the American osteopathic association;
- (c) A representative of the Colorado academy of family physicians; and
- (d) A health care consumer to be appointed by the governor from each congressional district in the state.

(2) The members appointed under paragraph (d) of subsection (1) of this section shall serve at the pleasure of the governor and shall serve for three-year terms.

(3) The commission shall elect a chairman and a vice-chairman from among its members. Administrative, staff, and clerical services shall be provided to the commission by the Colorado academy of family physicians, as determined necessary by the academy. Members of the commission shall serve without compensation, but members described in paragraphs (b), (c), and (d) of subsection (1) of this section shall be entitled to their actual and necessary expenses incurred in the performance of their duties. The commission shall meet on call of the chairman, but not less than once every three months. A majority of the members of the commission constitutes a quorum for the transaction of business.

25-1-903. Duties of commission. (1) The commission shall:

(a) Assure that family medicine residency program standards are equal to or more stringent than the standards established by the accreditation council on graduate medical education of the American medical association or the American osteopathic association for residency training in family medicine;

(b) In cooperation with the dean of the school of medicine, approve and recommend allocation of any funds which are identified and appropriated in the general appropriation bill as a line item for any community family medicine residency training program;

(c) Monitor the state's family medicine residency programs and recommend from time to time that the general assembly appropriate funds for said programs;

(d) Locate specific areas of the state which are underserved by family physicians and determine the priority of need among such areas;

(e) Offer to the general assembly alternative ideas on providing medical care to the medically indigent in the state.

(2) Repealed.

PART 10**CHILD CARE PROGRAMS IN NURSING HOME FACILITIES**

25-1-1001. Legislative declaration. The general assembly hereby finds that the operation of child care centers in nursing home facilities is desirable because the benefit to nursing home facility employees in having on-location child care will improve the quality of care in nursing home facilities by stabilizing the nursing home work force and because the general public, especially in rural areas, will benefit from the increased availability of day care centers in their communities. The general assembly also finds that the operation of child care centers in nursing home facilities is desirable because the intergenerational contact has been proven to be beneficial to the health and well-being of elderly persons and, therefore, will improve the quality of life of elderly residents in nursing home facilities and because the intergenerational contact will be beneficial to the children as well. The general assembly, therefore, declares that the intent of this part 10 is to encourage the development of child care centers in nursing home facilities by encouraging the creation of private grants to provide funds to start such centers and by requiring the state agencies which license nursing home facilities and child care centers to study and recommend statutory and regulatory changes to facilitate and encourage the development of child care centers in nursing home facilities.

Source: **L. 88:** Entire part added, p. 1003, § 1, effective April 28.

25-1-1002. Definitions. As used in this part 10, unless the context otherwise requires:

(1) "Nursing home facility" means a facility which provides skilled nursing home services or intermediate care nursing home services.

Source: L. 88: Entire part added, p. 1004, § 1, effective April 28.

25-1-1003. Grant program - requirements - use of medical assistance funds prohibited. (1) The department of public health and environment may encourage the development of a private grant program to provide start-up funds to nursing home facilities for the purpose of establishing child care centers located in such nursing home facilities.

(2) The state board of health, after consultation with the division in the department of human services involved in licensing child care centers and if the committee formed in section 25-1-1004 recommends the establishment of child care facilities in nursing homes, shall promulgate reasonable rules and regulations establishing any necessary requirements for operating a day care center in a nursing home facility. Such rules and regulations shall include, but need not be limited to, the following:

(a) Requirements for the operation of a safe and good-quality child care operation in the nursing home facility or upon the nursing home facility's grounds, which shall include:

(I) Precautions required to be taken to ensure that all staff and residents who will participate in the intergenerational programs have not been involved in incidents of sexual abuse or child abuse;

(II) Requirements relating to the ability to properly care for the children;

(III) Child care ratios of staff to children;

(IV) Requirements relating to the constant supervision of the children by staff members and not by nursing home residents;

(V) Life safety and fire regulations;

(b) Requirements on the amount and type of liability insurance necessary to insure the risks associated with the child care operation;

(c) Requirements on the ways in which the nursing home residents may be involved in the child care center and the requirement that the participation of nursing home residents in intergenerational activities with the children in the child care operation shall be on a voluntary basis;

(d) Requirements that any fees assessed to the employees of the nursing home facility whose children participate in the child care program will be based on a sliding scale;

(e) Requirements that the participation of employees of the nursing home facility in the enrollment of their children in the intergenerational day care program of the nursing home facility shall be on a voluntary basis.

(3) No medical assistance funds under the "Colorado Medical Assistance Act", articles 4, 5, and 6 of title 25.5, C.R.S., shall be used to subsidize the cost of operating a day care center or day care program in a nursing home facility.

Source: L. 88: Entire part added, p. 1004, § 1, effective April 28. L. 94: (1) and IP(2) amended, pp. 2746, 2702, §§ 395, 255, effective July 1. L. 2006: (3) amended, p. 2014, § 85, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1) and the introductory portion to subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-1-1004. Study of statutes and rules and regulations pertaining to nursing home facilities and day care centers. (1) The department of public health and environment and the department of human services, in conjunction with representatives of the nursing home industry, child care operators, and experts on child care programs in nursing home facilities, shall examine and study the existing statutes and rules and regulations concerning the licensing of child care centers and of nursing home facilities to determine what statutory or regulatory changes or both would make it easier for a nursing home facility to operate a child care center. The study shall also include an examination of the advantages and disadvantages of operating such intergenerational programs and the most appropriate and practical ways to design such intergenerational child care programs which are beneficial both to the children and to the elderly persons.

(2) The study conducted by the department of public health and environment and the department of human services shall include, but need not be limited to, consideration of the following:

(a) The establishment of new rules and regulations by the department of public health and environment and the department of human services which would allow nursing home facilities to operate a child care operation in the nursing home facilities;

(b) A coordinated licensure program to license a child care operation in a nursing home facility which would be based on rules and regulations designed specifically for the operation of a child care center in a nursing home facility.

(3) Repealed.

(4) The department of public health and environment and the department of human services shall comply with the requirements of this part 10 within the current appropriation established for each department. No request for appropriations shall be made to the general assembly for the implementation of this part 10.

PART 11

DRUG ABUSE PREVENTION, EDUCATION, AND TREATMENT

25-1-1100.2 to 25-1-1112. (Repealed)

Source: L. 2010: Entire part repealed, (SB 10-175), ch. 188, p. 675, § 1, effective April 29.

Editor's note: (1) This part 11 was added in 1991. For amendments to this part 11 prior to its repeal in 2010, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) The provisions of this part 11 were relocated to article 82 of title 27 in 2010.

PART 12

MEDICAL RECORD CONFIDENTIALITY

25-1-1201. Legislative declaration. The general assembly hereby finds, determines, and declares that maintaining the confidentiality of medical records is of the utmost importance to the state and of critical importance to patient privacy for high quality medical care. Most people in the United States consider confidentiality of health information important and worry that the increased computerization of health records may result in inappropriate disclosure of such records. Patients have a strong interest in preserving the privacy of their personal health information, but they also have an interest in medical research and other efforts by health care organizations to improve the medical care they receive. How best to preserve confidentiality within a state health information infrastructure is an important discussion that is affected by recent regulations promulgated by the federal department of health and human services related to the electronic storage of health information. The purpose of this part 12 is to index the provisions that govern medical

record confidentiality to facilitate locating the law concerning the confidentiality of medical records and health information. It is not intended to expand, narrow, or clarify existing provisions.

Source: L. 2001: Entire part added, p. 828, § 5, effective August 8.

25-1-1202. Index of statutory sections regarding medical record confidentiality and health information. (1) Statutory provisions concerning policies, procedures, and references to the release, sharing, and use of medical records and health information include the following:

(a) Section 10-16-1003, C.R.S., concerning use of information by health care cooperatives;

(b) Section 8-43-404, C.R.S., concerning examinations by a physician or chiropractor for the purposes of workers' compensation;

(c) Section 8-43-501, C.R.S., concerning utilization review related to workers' compensation;

(d) Section 8-73-108, C.R.S., concerning the award of benefits for unemployment compensation benefits;

(e) Section 10-3-1104.7, C.R.S., concerning the confidentiality and use of genetic testing information;

(f) Section 10-16-113, C.R.S., concerning the procedures related to the denial of health benefits by an insurer;

(g) Section 10-16-113.5, C.R.S., concerning the use of independent external review when health benefits have been denied;

(h) Section 10-16-423, C.R.S., concerning the confidentiality of medical information in the custody of a health maintenance organization;

(i) Section 12-32-108.3, C.R.S., concerning disciplinary actions against podiatrists;

(j) Section 12-33-126, C.R.S., concerning disciplinary actions against chiropractors;

(k) Section 12-35-129, C.R.S., concerning disciplinary actions against dentists and dental hygienists;

(l) Section 12-36-118, C.R.S., concerning disciplinary actions against physicians;

(m) Section 12-36-135 (1), C.R.S., concerning reporting requirements for physicians pertaining to certain injuries;

(n) Section 12-36.5-104, C.R.S., concerning professional review committees for physicians;

(o) Section 12-36.5-104.4, C.R.S., concerning hospital professional review committees;

(p) Section 12-37.5-104, C.R.S., concerning reporting requirements by physicians related to abortions for minors;

(q) Section 12-38-116.5, C.R.S., concerning disciplinary proceedings against a practical nurse, a professional nurse, or a psychiatric technician;

(r) Section 12-43-218, C.R.S., concerning the disclosure of confidential communications by a mental health professional;

(s) Section 12-43-224 (4), C.R.S., concerning disciplinary proceedings against a mental health professional;

(t) Section 13-21-110, C.R.S., concerning confidentiality of information, data, reports, or records of a utilization review committee of a hospital or other health care facility;

(u) Section 13-21-117, C.R.S., concerning civil liability of a mental health professional, mental health hospital, community mental health center, or clinic related to a duty to warn or protect;

(v) Sections 13-22-101 to 13-22-106, C.R.S., concerning the age of competence for certain medical procedures;

(w) Section 13-64-502, C.R.S., concerning civil liability related to genetic counseling and screening and prenatal care, or arising from or during the course of labor and delivery, or the period of postnatal care in a health institution;

- (x) Section 13-80-103.7, C.R.S., concerning a limited waiver of medical information in civil actions related to sexual assault or sexual offenses against a child;
- (y) Section 13-90-107 (1) (d), C.R.S., concerning when a physician, surgeon, or registered professional nurse may testify related to the care and treatment of a person;
- (z) Section 14-10-124, C.R.S., concerning the best interests of a child for the purposes of a separation or dissolution of marriage;
- (aa) Section 14-10-127, C.R.S., concerning the allocation of parental responsibilities with respect to a child;
- (bb) Section 17-27.1-101 (4), C.R.S., concerning nongovernmental facilities for offenders and the waiver of confidential information;
- (cc) Section 18-3-203 (1) (f.5), C.R.S., concerning assault in the second degree and the availability of medical testing for certain circumstances;
- (dd) Section 18-4-412, C.R.S., concerning theft of medical records or medical information;
- (ee) Sections 18-6-101 to 18-6-104 C.R.S., concerning a justified medical termination of pregnancy;
- (ee.5) Section 18-18-406.3, C.R.S., concerning medical marijuana patient records;
- (ff) Section 18-18-503, C.R.S., concerning cooperative agreements to control substance abuse;
- (gg) Section 19-3-304, C.R.S., concerning persons required to report child abuse or neglect;
- (hh) Section 19-3-305, C.R.S., concerning postmortem investigation related to the death of a child;
- (ii) Section 19-3-306, C.R.S., concerning evidence of abuse or neglect of a child;
- (jj) Section 19-5-103 (2), C.R.S., concerning relinquishment of rights concerning a child;
- (kk) Section 19-5-305, C.R.S., concerning access to adoption records;
- (ll) Section 22-1-123 (5), C.R.S., concerning the protection of student data;
- (mm) Sections 22-32-109.1 (6) and 22-32-109.3 (2), C.R.S., concerning specific powers and duties of the state board of education;
- (nn) Section 22-64-216, C.R.S., concerning confidentiality of records maintained by school district retirement plans;
- (oo) Section 24-51-213, C.R.S., concerning confidentiality of records maintained by the public employees' retirement association;
- (pp) Section 24-72-204 (3), C.R.S., concerning public records not open to public inspection;
- (qq) Section 25-1-122, concerning reporting of certain diseases and conditions for investigation of epidemic and communicable diseases, morbidity and mortality, cancer in connection with the statewide cancer registry, environmental and chronic diseases, sexually transmitted infections, tuberculosis, and rabies and mammal bites by the department of public health and environment;
- (rr) Section 25-1-124 (2), concerning health care facilities and reporting requirements;
- (ss) Sections 27-81-110 and 27-81-113, C.R.S., concerning the treatment of intoxicated persons;
- (tt) Section 25-1-801, concerning patient records in the care of a health care facility;
- (uu) Section 25-1-802, concerning patient records in the care of individual health care providers;
- (vv) Sections 27-82-106 and 27-82-109, C.R.S., concerning the treatment of drug abusers;
- (vv.5) Section 25-1.5-106, concerning the medical marijuana program;
- (ww) Section 25-2-120, concerning reports of electroconvulsive treatment;
- (xx) Section 25-3-109, concerning quality management functions of health care facilities licensed by the department of public health and environment;

- (yy) Section 25-3.5-501, concerning records maintained by ambulance services and emergency medical service providers;
- (zz) Section 25-3.5-704 (2) (d) and (2) (f), concerning the designation of emergency medical facilities and the statewide trauma system;
- (aaa) Section 25-4-402 (4), concerning the reporting of sexually transmitted infections;
- (bbb) Section 25-4-1003, concerning newborn screening programs and genetic counseling;
- (ccc) Sections 25-4-1402 to 25-4-1407, concerning reporting and investigation of the human immunodeficiency virus;
- (ddd) Section 25-4-1705, concerning immunization information;
- (eee) Section 25-4-1905, concerning records collected related to Gulf War syndrome;
- (fff) Section 25-32-106, concerning the release of medical information to a poison control service provider;
- (ggg) Section 26-3.1-102 (2), C.R.S., concerning reporting requirements related to at-risk adults;
- (hhh) Section 26-11.5-108, C.R.S., concerning the long-term ombudsman program and access to medical records;
- (iii) Section 27-65-103 (2), C.R.S., concerning voluntary applications for mental health services;
- (jjj) Sections 27-65-121 (2) and 27-65-122, C.R.S., concerning records related to mental health services for minor children;
- (kkk) Section 30-10-606 (6), C.R.S., concerning postmortem investigations and records;
- (lll) Section 35-9-109, C.R.S., concerning confidentiality of information released to the commissioner of agriculture related to human exposure to pesticide applications;
- (mmm) Section 42-2-112, C.R.S., concerning information supplied to the department of revenue for the purpose of renewing or obtaining a license to operate a motor vehicle; and
- (nnn) Section 12-42.5-406, C.R.S., concerning information entered into the prescription drug monitoring program database.

Editor's note: Section 26 of chapter 271, Session Laws of Colorado 2012, provides that the act amending this section applies to acts committed on or after July 1, 2012.

PART 13

CLIMATE CHANGE MARKETS GRANT PROGRAM

25-1-1301. Short title. This part 13 shall be known and may be cited as the "Colorado Climate Change Markets Act".

Source: L. 2006: Entire part added, p. 1743, § 4, effective June 6.

25-1-1302. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) As the United States and other countries take action to address issues related to climate change, Colorado faces important policy choices.

(b) Emerging technologies and markets related to climate change promise significant economic opportunities for the state, particularly for agriculture and rural economies.

(c) The general assembly enacts the "Colorado Climate Change Markets Act" for the purpose of positioning Colorado at the forefront of emerging markets related to climate change and helping affected industries and economies benefit from these opportunities.

Source: L. 2006: Entire part added, p. 1743, § 4, effective June 6.

25-1-1303. Grants for research - reports to general assembly. (1) The department of public health and environment shall administer a program to award grants pursuant to this section.

(2) (a) A grant of fifty thousand dollars shall be awarded to Colorado state university to conduct research on the potential for the use of terrestrial carbon sequestration in agricultural, rangeland, and forest soils as a technique for mitigating the emissions of greenhouse gases in the state.

(b) A grant of fifty thousand dollars shall be awarded to the Colorado school of mines to conduct research on the potential for the use of geologic carbon sequestration as a technique for mitigating the emissions of greenhouse gases in the state.

(c) A grant of thirty-five thousand dollars shall be awarded to the university of Colorado to conduct research on the emerging international and domestic markets in greenhouse gas emissions and to conduct research on private firms in various economic sectors that are reducing emissions of greenhouse gases.

(3) Each recipient of a grant awarded pursuant to this section shall report the results of the research conducted under the grant to the agriculture committees of the senate and the house of representatives no later than March 15, 2007.

Source: L. 2006: Entire part added, p. 1743, § 4, effective June 6.

PART 14

HEALTH INFORMATION TECHNOLOGY

25-1-1401 to 25-1-1403. (Repealed)

Editor’s note: (1) This part 14 was added in 2007 and was not amended prior to its repeal in 2012. For the text of this part 14 prior to 2012, consult the 2011 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

(2) Section 25-1-1403 provided for the repeal of this part 14, effective July 1, 2012. (See L. 2007, p. 1182.)

ARTICLE 1.5

Powers and Duties of the Department
of Public Health and Environment

Editor’s note: This article was added with relocations in 2003. Former C.R.S. section numbers are shown in editor’s notes following those sections that were relocated.

PART 1

GENERAL POWERS AND DUTIES

- 25-1.5-101. Powers and duties of department - laboratory cash fund.
- 25-1.5-102. Epidemic and communicable diseases - powers and duties of department.
- 25-1.5-103. Health facilities - powers and duties of department - limitations on rules promulgated by department.
- 25-1.5-104. Regulation of standards relating to food - powers and duties of department.
- 25-1.5-105. Detection of diseases - powers and duties of department.
- 25-1.5-106. Medical marijuana program - powers and duties of state health agency - rules - medical review board - medical marijuana program cash fund - created - repeal.
- 25-1.5-107. Pandemic influenza - purchase of antiviral therapy - definitions.
- 25-1.5-108. Regulation of dialysis treatment clinics - training for hemodialysis technicians - state board of health rules - definitions - repeal.
- 25-1.5-109. Food allergies and anaphylaxis form for schools - powers and duties of department.

PART 2

POWERS AND DUTIES OF THE
DEPARTMENT WITH RESPECT TO
WATER

- 25-1.5-201. Definitions.
- 25-1.5-202. Water - minimum general sanitary standards.
- 25-1.5-203. Water - powers and duties of department.
- 25-1.5-204. Inspection for violations of minimum general sanitary standards relating to quality of drinking water.
- 25-1.5-205. Advice to other entities.
- 25-1.5-206. Applicability.
- 25-1.5-207. Damages and injunctive relief to prevent or abate release of contaminants in water.
- 25-1.5-208. Grant program for drinking water and water treatment systems - small communities water and wastewater grant fund - rules.
- 25-1.5-209. Drinking water fee - drinking water cash fund.

PART 3

ADMINISTRATION OF MEDICATIONS

- 25-1.5-301. Definitions.
- 25-1.5-302. Administration of medications - powers and duties of department - criminal history record checks.
- 25-1.5-303. Medication reminder boxes or systems - medication cash fund.
- 25-1.5-304. Repeal of part. (Repealed)

PART 1

GENERAL POWERS AND DUTIES

25-1.5-101. Powers and duties of department - laboratory cash fund. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) To close theaters, schools, and other public places, and to forbid gatherings of people when necessary to protect the public health;

(b) (I) To establish and enforce minimum general sanitary standards as to the quality of wastes discharged upon land and the quality of fertilizer derived from excreta of human beings or from the sludge of sewage disposal plants.

(II) The phrase "minimum general sanitary standards" as used in this section means the minimum standards reasonably consistent with assuring adequate protection of the public health. The word "standards" as used in this section means standards reasonably designed to promote and protect the public health.

(c) (I) To collect, compile, and tabulate reports of marriages, dissolution of marriages, declaration of invalidity of marriages, births, deaths, and morbidity and to require any person having information with regard to the same to make such reports and submit such information as the board shall by rule or regulation provide.

(II) For the purposes of this paragraph (c), the board is authorized to require reporting of morbidity and mortality in accordance with the provisions of section 25-1-122.

(d) To regulate the disposal, transportation, interment, and disinterment of the dead;

(e) (I) To establish, maintain, and approve chemical, bacteriological, and biological laboratories, and to conduct such laboratory investigations and examinations as it may deem necessary or proper for the protection of the public health.

(II) The department shall transmit all fees received by the department in connection with the laboratories established pursuant to this paragraph (e), with the exception of fees received pursuant to part 10 of article 4 of this title that are credited to the newborn screening and genetic counseling cash funds created in section 25-4-1006 (1), to the state treasurer, who shall deposit them in the laboratory cash fund, which is hereby created in the state treasury. The state treasurer shall credit all interest earned from the revenues in the fund to the fund. At the end of each fiscal year, the unencumbered balance of the fund remains in the fund. The revenues in the fund are subject to annual appropriation by the general assembly to the department to carry out its duties under this paragraph (e).

(f) To make, approve, and establish standards for diagnostic tests by chemical, bacteriological, and biological laboratories, and to require such laboratories to conform thereto; and to prepare, distribute, and require the completion of forms or certificates with respect thereto;

(g) To purchase, and to distribute to licensed physicians and veterinarians, with or without charge, as the board may determine upon considerations of emergency or need, such vaccines, serums, toxoids, and other approved biological or therapeutic products as may be necessary for the protection of the public health;

(h) To establish and enforce sanitary standards for the operation and maintenance of orphanages, day care nurseries, foster homes, family care homes, summer camps for children, lodging houses, guest child care facilities as defined in section 26-6-102 (5), C.R.S., public services short-term child care facilities as defined in section 26-6-102 (6.7), C.R.S., hotels, public conveyances and stations, schools, factories, workshops, industrial and labor camps, recreational resorts and camps, swimming pools, public baths, mobile home parks, and other buildings, centers, and places used for public gatherings;

(i) (I) To establish sanitary standards and make sanitary, sewerage, and health inspections and examinations for charitable, penal, and other public institutions, and, with respect to the state institutions under the department of human services specified in section 27-90-104, C.R.S., or under the department of corrections specified in section 17-1-104.3 (1) (b), C.R.S., such inspections and examinations shall be made at least once each year. Reports on such inspections of institutions under control of the department of human

services or the department of corrections shall be made to the executive director of the appropriate department for appropriate action, if any.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (i), the standards adopted pursuant to subparagraph (I) of this paragraph (i) with regard to space requirements, furnishing requirements, required special use areas or special management housing, and environmental condition requirements, including but not limited to standards pertaining to light, ventilation, temperature, and noise level, shall not apply to any penal institution operated by or under contract with a county or municipality if the penal institution begins operations on or after August 30, 1999, and if the governing body of the jurisdiction operating the penal institution has adopted standards pertaining to such issues for the penal institution pursuant to section 30-11-104 (1), C.R.S., or section 31-15-711.5, C.R.S., whichever is applicable.

(j) (I) To disseminate public health information;

(II) To provide poison control services, for the fiscal year beginning July 1, 2002, and fiscal years thereafter, on a statewide basis and to provide for the dissemination of information concerning the care and treatment of individuals exposed to poisonous substances pursuant to article 32 of this title;

(k) To establish and enforce standards for exposure to toxic materials in the gaseous, liquid, or solid phase that may be deemed necessary for the protection of public health;

(l) To establish and enforce standards for exposure to environmental conditions, including radiation, that may be deemed necessary for the protection of the public health;

(m) (I) To accept on behalf of and in the name of the state, gifts, donations, and grants for any purpose connected with the work and programs of the department.

(II) Any such property so given shall be held by the state treasurer, but the department shall have the power to direct the disposition of any property so given for any purpose consistent with the terms and conditions under which such gift was created.

(n) To carry out the policies of the state as set forth in part 1 of article 6 of this title with respect to family planning;

(o) To carry out the policies of this state relating to the "Colorado Health Care Coverage Act" as set forth in parts 1 and 4 of article 16 of title 10, C.R.S.;

(p) To compile and maintain current information necessary to enable the department to answer any inquiry concerning the proper action to take to counteract, eliminate, or minimize the public health hazards of a hazardous substance incident involving any specific kind of hazardous substance. To make such information available and to facilitate the reporting of hazardous substance incidents, the department shall establish, maintain, and publicize an environmental emergency telephone service that shall be available to the public twenty-four hours each day. With respect to the powers and duties specified in this paragraph (p), the department shall have no rule-making authority and shall avail itself of all available private resources. As used in this paragraph (p), the terms "hazardous substance" and "hazardous substance incident" shall have the meanings ascribed to them in section 29-22-101, C.R.S. The department shall coordinate its activities pursuant to this section with the Colorado state patrol.

(q) (I) To establish and maintain a statewide cancer registry providing for compilation and analysis of appropriate information regarding incidence, diagnosis, treatment, and end results and any other data designed to provide more effective cancer control for the citizens of Colorado.

(II) For the purposes of this paragraph (q), the board is authorized to require reports relating to cancer in accordance with the provisions of section 25-1-122 and to have access to medical records relating to cancer in accordance with the provisions of section 25-1-122.

(r) To operate and maintain a program for children with disabilities to provide and expedite provision of health care services to children who have congenital birth defects or who are the victims of burns or trauma or children who have acquired disabilities;

(s) To annually enter into an agreement with a qualified person to perform necessary hazardous substance incident response actions when such actions are beyond the ability of the local and state response capabilities. Such response actions may include, but are not limited to, containment, clean-up, and disposal of a hazardous substance. Nothing in this

article shall prevent the attorney general's office from pursuing cost recovery against responsible persons.

(t) To operate special health programs for migrant and seasonal farm workers and their dependent family members and to accept and employ federal and other moneys appropriated to implement such programs;

(u) To carry out the duties prescribed in article 11.5 of title 16, C.R.S., relating to substance abuse in the criminal justice system;

(v) To establish and maintain a statewide gulf war syndrome registry pursuant to part 19 of article 4 of this title providing for compilation and analysis of information regarding incidence, diagnosis, treatment, and treatment outcomes of veterans or family members of veterans suffering from gulf war syndrome;

(w) (I) To act as the coordinator for suicide prevention programs throughout the state.

(II) The department is authorized to accept gifts, grants, and donations to assist it in performing its duties as the coordinator for suicide prevention programs. All such gifts, grants, and donations shall be transmitted to the state treasurer who shall credit the same to the suicide prevention coordination cash fund, which fund is hereby created. Any moneys remaining in the suicide prevention coordination cash fund at the end of any fiscal year shall remain in the fund and shall not be transferred or credited to the general fund. The general assembly shall make appropriations from the suicide prevention coordination cash fund for expenditures incurred by the department in the performance of its duties under this paragraph (w).

(III) (A) As part of its duties as coordinator for suicide prevention programs, on or before each November 1, the department shall submit to the chairs of the senate health and human services committee and the house of representatives health and environment committee, or their successor committees, and to the members of the joint budget committee a report listing all suicide prevention programs in the state and describing the effectiveness of the department acting as the coordinator for suicide prevention programs. For the report submitted in 2013 and each year thereafter, the department shall include any findings and recommendations it has to improve suicide prevention in the state.

(B) (Deleted by amendment, L. 2012.)

(IV) In its role as coordinator for suicide prevention programs, the department may collaborate with each facility licensed or certified pursuant to section 25-1.5-103 in order to coordinate suicide prevention services. When a facility treats a person who has attempted suicide or exhibits a suicidal gesture, the facility may provide oral and written information or educational materials to the person or, in the case of a minor, to parents, relatives, or other responsible persons to whom the minor will be released, prior to the person's release, regarding warning signs of depression, risk factors of suicide, methods of preventing suicide, available suicide prevention resources, and any other information concerning suicide awareness and prevention. The department may work with facilities to determine whether and where gaps exist in suicide prevention programs and services, including gaps that may be present in:

(A) The information and materials being used and distributed in facilities throughout the state;

(B) Resources available to persons who attempt suicide or exhibit a suicidal gesture and, when the person is a minor, to parents, relatives, and other responsible persons to whom a minor is released; and

(C) The process for referring persons who attempt suicide or exhibit a suicidal gesture to suicide prevention services and programs or other appropriate health care providers for treatment.

(x) To implement the state dental loan repayment program created in article 23 of this title;

(y) To coordinate with the United States secretary of the interior and the United States secretary of agriculture to develop resource management plans consistent with this article for federal lands pursuant to 16 U.S.C. sec. 530, 16 U.S.C. sec. 1604, and 43 U.S.C. sec. 1712;

(z) To perform the duties specified in part 6 of article 10 of title 30, C.R.S., relating to the Colorado coroners standards and training board;

(aa) To determine if there is a shortage of drugs critical to the public safety of the people of Colorado and declare an emergency for the purpose of preventing the practice of unfair drug pricing as prohibited by section 6-1-714, C.R.S.;

(bb) To include on its public web site home page a link to forms containing advanced directives regarding a person's acceptance or rejection of life-sustaining medical or surgical treatment, which forms are available to be downloaded electronically.

Annotator's note. Since § 25-1.5-101 is similar to § 25-1-107 as it existed prior to its

2003 repeal and relocation to this article 1.5, a relevant case construing that provision has been included in the annotations to this section.

Constitutionality of subsection (1)(m). Subsection (1)(m) does not unconstitutionally delegate any power or duty to the department of health, nor does it abdicate the legislative prerogative of making or defining a law. People ex rel. Dunbar v. Giordano, 173 Colo. 567, 481 P.2d 415 (1971).

The scope of authority and guidelines to be followed by the department of health in adopting sanitary standards are to be those which are reasonably designed to promote and protect the public health. People ex rel. Dunbar v. Giordano, 173 Colo. 567, 481 P.2d 415 (1971).

25-1.5-102. Epidemic and communicable diseases - powers and duties of department. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) (I) To investigate and control the causes of epidemic and communicable diseases affecting the public health.

(II) For the purposes of this paragraph (a), the board shall determine, by rule and regulation, those epidemic and communicable diseases and conditions that are dangerous to the public health. The board is authorized to require reports relating to such designated diseases in accordance with the provisions of section 25-1-122 and to have access to medical records relating to such designated diseases in accordance with the provisions of section 25-1-122.

(III) For the purposes of this paragraph (a), "epidemic diseases" means cases of an illness or condition, communicable or noncommunicable, in excess of normal expectancy, compared to the usual frequency of the illness or condition in the same area, among the

specified population, at the same season of the year. A single case of a disease long absent from a population may require immediate investigation.

(IV) For the purposes of this paragraph (a), “communicable diseases” means an illness due to a specific infectious agent or its toxic products that arises through transmission of that agent or its products from an infected person, animal, or reservoir to a susceptible host, either directly or indirectly through an intermediate plant or animal host, vector, or the inanimate environment.

(b) (I) To investigate and monitor the spread of disease that is considered part of an emergency epidemic as defined in section 24-32-2103 (1.7), C.R.S., to determine the extent of environmental contamination resulting from the emergency epidemic, and to rapidly provide epidemiological and environmental information to the governor’s expert emergency epidemic response committee, created in section 24-32-2104 (8), C.R.S.

(II) Except as otherwise directed by executive order of the governor, the department shall exercise its powers and duties to control epidemic and communicable diseases and protect the public health as set out in this section.

(III) The department may accept and expend federal funds, gifts, grants, and donations for the purposes of an emergency epidemic or preparation for an emergency epidemic.

(IV) When a public safety worker, emergency medical service provider, peace officer, or staff member of a detention facility has been exposed to blood or other bodily fluid which there is a reason to believe may be infectious with hepatitis C, the state department and county, district, and municipal public health agencies within their respective jurisdictions shall assist in evaluation and treatment of any involved persons by:

(A) Accessing information on the incident and any persons involved to determine whether a potential exposure to hepatitis C occurred;

(B) Examining and testing such involved persons to determine hepatitis C infection when the fact of an exposure has been established by the state department or county, district, or municipal public health agency;

(C) Communicating relevant information and laboratory test results on the involved persons to such persons’ attending physicians or directly to the involved persons if the confidentiality of such information and test results is acknowledged by the recipients and adequately protected, as determined by the state department or county, district, or municipal public health agency; and

(D) Providing counseling to the involved persons on the potential health risks resulting from exposure and the available methods of treatment.

(V) The employer of an exposed person shall ensure that relevant information and laboratory test results on the involved person are kept confidential. Such information and laboratory results are considered medical information and protected from unauthorized disclosure.

(VI) For purposes of this paragraph (b), “public safety worker” includes, but is not limited to, law enforcement officers, peace officers, and firefighters.

(c) To establish, maintain, and enforce isolation and quarantine, and, in pursuance thereof and for this purpose only, to exercise such physical control over property and the persons of the people within this state as the department may find necessary for the protection of the public health;

(d) To abate nuisances when necessary for the purpose of eliminating sources of epidemic and communicable diseases affecting the public health.

(2) Notwithstanding any other provision of law to the contrary, the department shall administer the provisions of this section regardless of an individual’s race, religion, gender, ethnicity, national origin, or immigration status.

Source: **L. 2003:** Entire article added with relocations, p. 680, § 2, effective July 1; IP(1)(b)(IV) amended, p. 1617, § 23, effective August 6. **L. 2006, 1st Ex. Sess.:** (2) added, p. 25, § 2, effective July 31. **L. 2010:** IP(1)(b)(IV), (1)(b)(IV)(B), and (1)(b)(IV)(C) amended, (HB 10-1422), ch. 419, p. 2091, § 86, effective August 11.

Editor’s note: (1) This section is similar to former § 25-1-107 (1)(a), (1)(a.5), (1)(b), and (1)(d) as they existed prior to 2003.

(2) Amendments to subsection (1)(b)(IV) by House Bill 03-1266 and Senate Bill 03-002 were harmonized.

ANNOTATION

Law reviews. For article, “2006 Immigration Legislation in Colorado”, see 35 Colo. Law. 79 (October 2006).

25-1.5-103. Health facilities - powers and duties of department - limitations on rules promulgated by department. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) (I) (A) To annually license and to establish and enforce standards for the operation of general hospitals, hospital units as defined in section 25-3-101 (2), psychiatric hospitals, community clinics, rehabilitation hospitals, convalescent centers, community mental health centers, acute treatment units, facilities for persons with developmental disabilities, nursing care facilities, hospice care, assisted living residences, dialysis treatment clinics, ambulatory surgical centers, birthing centers, home care agencies, and other facilities of a like nature, except those wholly owned and operated by any governmental unit or agency.

(B) In establishing and enforcing such standards and in addition to the required announced inspections, the department shall, within available appropriations, make additional inspections without prior notice to the health facility, subject to sub-subparagraph (C) of this subparagraph (I). Such inspections shall be made only during the hours of 7 a.m. to 7 p.m.

(C) The department shall extend the survey cycle or conduct a tiered inspection or survey of a health facility licensed for at least three years and against which no enforcement activity has been taken, no patterns of deficient practices exist, as documented in the inspection and survey reports issued by the department, and no substantiated complaint resulting in the discovery of significant deficiencies that may negatively affect the life, health, or safety of consumers of the health facility has been received within the three years prior to the date of the inspection. The department may expand the scope of the inspection or survey to an extended or full survey if the department finds deficient practice during the tiered inspection or survey. The department, by rule, shall establish a schedule for an extended survey cycle or a tiered inspection or survey system designed, at a minimum, to: Reduce the time needed for and costs of licensure inspections for both the department and the licensed health facility; reduce the number, frequency, and duration of on-site inspections; reduce the scope of data and information that health facilities are required to submit or provide to the department in connection with the licensure inspection; reduce the amount and scope of duplicative data, reports, and information required to complete the licensure inspection; and be based on a sample of the facility size. Nothing in this sub-subparagraph (C) limits the ability of the department to conduct a periodic inspection or survey that is required to meet its obligations as a state survey agency on behalf of the centers for medicare and medicaid services or the department of health care policy and financing to assure that the health facility meets the requirements for participation in the medicare and medicaid programs.

(D) In connection with the renewal of licenses issued pursuant to this subparagraph (I), the department shall institute a performance incentive system pursuant to section 25-3-105 (1) (a) (I) (C).

(E) The department shall not cite as a deficiency in a report resulting from a survey or inspection of a licensed health facility any deficiency from an isolated event identified by the department that can be effectively remedied during the survey or inspection of the health facility, unless the deficiency caused harm or a potential for harm, created a life- or limb-threatening emergency, or was due to abuse or neglect.

(F) Sections 24-4-104, C.R.S., and 25-3-102 govern the issuance, suspension, renewal, revocation, annulment, or modification of licenses. All licenses issued by the department must contain the date of issue and cover a twelve-month period. Nothing contained in this

paragraph (a) prevents the department from adopting and enforcing, with respect to projects for which federal assistance has been obtained or is requested, higher standards as may be required by applicable federal laws or regulations of federal agencies responsible for the administration of applicable federal laws.

(II) To establish and enforce standards for the operation and maintenance of the health facilities named in subparagraph (I) of this paragraph (a), wholly owned and operated by the state or any of its political subdivisions, and no such facility shall be operated or maintained without an annual certificate of compliance;

(b) To suspend, revoke, or refuse to renew any license issued to a health facility pursuant to subparagraph (I) or (II) of paragraph (a) of this subsection (1) if such health facility has committed abuse of health insurance pursuant to section 18-13-119, C.R.S., or if such health facility has advertised through newspapers, magazines, circulars, direct mail, directories, radio, television, or otherwise that it will perform any act prohibited by section 18-13-119 (3), C.R.S., unless the health facility is exempted from section 18-13-119 (5), C.R.S.;

(c) (I) To establish and enforce standards for licensure of community mental health centers and acute treatment units.

(II) The department of public health and environment has primary responsibility for the licensure of community mental health centers and acute treatments units. The department of human services has primary responsibility for program approval at these facilities. In performing their respective responsibilities pursuant to this subparagraph (II), both departments shall take into account changes in health care policy and practice incorporating the concept and practice of integration of services and the development of a system that commingles and integrates health care services.

(2) For purposes of this section, unless the context otherwise requires:

(a) "Acute treatment unit" means a facility or a distinct part of a facility for short-term psychiatric care, which may include substance abuse treatment, and which provides a total, twenty-four-hour therapeutically planned and professionally staffed environment for persons who do not require inpatient hospitalization but need more intense and individual services than are available on an outpatient basis, such as crisis management and stabilization services.

(a.5) "Community clinic" has the same meaning as set forth in section 25-3-101 and does not include:

(I) A federally qualified health center, as defined in section 1861 (aa) (4) of the federal "Social Security Act", 42 U.S.C. sec. 1395x (aa) (4);

(II) A rural health clinic, as defined in section 1861 (aa) (2) of the federal "Social Security Act", 42 U.S.C. sec. 1395x (aa) (2).

(b) "Community mental health center" means either a physical plant or a group of services under unified administration and including at least the following: Inpatient services; outpatient services; day hospitalization; emergency services; and consultation and educational services, which services are provided principally for persons with mental illness residing in a particular community in or near which the facility is situated.

(b.5) "Enforcement activity" means the imposition of remedies such as civil money penalties; appointment of a receiver or temporary manager; conditional licensure; suspension or revocation of a license; a directed plan of correction; intermediate restrictions or conditions, including retaining a consultant, department monitoring, or providing additional training to employees, owners, or operators; or any other remedy provided by state or federal law or as authorized by federal survey, certification, and enforcement regulations and agreements for violations of federal or state law.

(c) "Facility for persons with developmental disabilities" means a facility specially designed for the active treatment and habilitation of persons with developmental disabilities or a community residential home, as defined in section 27-10.5-102 (4), C.R.S., which is licensed and certified pursuant to section 27-10.5-109, C.R.S.

(d) "Hospice care" means an entity that administers services to a terminally ill person utilizing palliative care or treatment.

(3) (a) In the exercise of its powers pursuant to this section, the department shall not promulgate any rule, regulation, or standard relating to nursing personnel for rural nursing

care facilities, rural intermediate care facilities, and other rural facilities of a like nature more stringent than the applicable federal standards and regulations.

(b) For purposes of this subsection (3), "rural" means:

- (I) A county of less than fifteen thousand population; or
- (II) A municipality of less than fifteen thousand population which is located ten miles or more from a municipality of over fifteen thousand population; or
- (III) The unincorporated part of a county ten miles or more from a municipality of fifteen thousand population or more.

(c) A nursing care facility which is not rural as defined in paragraph (b) of this subsection (3) shall meet the licensing requirements of the department for nursing care facilities. However, if a registered nurse hired pursuant to department regulations is temporarily unavailable, a nursing care facility may use a licensed practical nurse in place of a registered nurse if such licensed practical nurse is a current employee of the nursing care facility.

(3.5) (a) (I) The department of public health and environment may establish life safety code and physical plant requirements for an occupancy that is contiguous with an acute treatment unit if the occupancy is operated by the acute treatment unit licensee and the services provided by the occupancy are outpatient services certified in accordance with article 65 of title 27, C.R.S., to determine appropriate placement or detoxification services licensed by the department of human services. The services provided by the occupancy shall benefit acute treatment unit clients, although the occupancy may also provide such services to other populations. It shall be at the discretion of the acute treatment unit licensee to either construct the necessary fire safety separations between the occupancy and the acute treatment unit or to assume fiscal and administrative responsibility for assuring that the occupancy meets the life safety code requirements as specified and verified by the department of public health and environment.

(II) The state board of health may promulgate rules authorizing the department of public health and environment to assess a penalty of up to one hundred dollars per day if the department finds that an occupancy does not comply with life safety code requirements. The department shall only assess the penalty after the acute treatment unit licensee has had an opportunity to correct the noncompliance.

(III) Nothing in this subsection (3.5) shall be construed to extend the life safety code authority of the department of public health and environment to an occupancy that is not subject to licensure by the department and that has the appropriate fire safety separations between the occupancy and the acute treatment unit.

(b) A licensee that is subject to life safety code oversight of one or more occupancies pursuant to paragraph (a) of this subsection (3.5) shall pay a fee or fees in accordance with rules promulgated by the state board of health.

(c) Any moneys collected pursuant to this subsection (3.5) shall be transmitted to the state treasurer, who shall credit the same to the health facilities general licensure cash fund created in section 25-3-103.1.

(4) In the exercise of its powers, the department shall not promulgate any rule, regulation, or standard that limits or interferes with the ability of an individual to enter into a contract with a private pay facility concerning the programs or services provided at the private pay facility. For the purposes of this subsection (4), "private pay facility" means a skilled nursing facility or intermediate care facility subject to the requirements of section 25-1-120 or an assisted living residence licensed pursuant to section 25-27-105 that is not publicly funded or is not certified to provide services that are reimbursed from state or federal assistance funds.

(5) (a) This subsection (5) applies to construction, including substantial renovation, and ongoing compliance with article 33.5 of title 24, C.R.S., of a health care facility building or structure on or after July 1, 2013. All health facility buildings and structures shall be constructed in conformity with the standards adopted by the director of the division of fire prevention and control in the office of preparedness, security, and fire safety within the department of public safety.

(b) Except as provided in paragraph (c) of this subsection (5) but notwithstanding any other provision of law to the contrary, the department shall not issue or renew any license

under this article unless the department has received a certificate of compliance from the division of fire prevention and control certifying that the building or structure of the health facility is in conformity with the standards adopted by the director of the division of fire prevention and control.

(c) The department has no authority to establish or enforce standards relating to building or fire codes. All functions, personnel, and property of the department as of June 30, 2013, that are principally directed to the administration, inspection, and enforcement of any building or fire codes or standards shall be transferred to the health facility construction and inspection section of the division of fire prevention and control pursuant to section 24-33.5-1201 (5), C.R.S.

(d) Notwithstanding any provision of law to the contrary, all health facilities seeking certification pursuant to the federal insurance or assistance provided by title XIX of the federal "Social Security Act", as amended and commonly known as "medicaid", or the federal insurance or assistance provided by title XVIII of the federal "Social Security Act", as amended and commonly known as "medicare", or any successor code adopted or promulgated by the appropriate federal authorities, shall continue to meet such certification requirements.

(e) Nothing in this subsection (5) divests the department of the authority to perform health survey work or prevents the department from accessing related funds.

Editor's note: Subsection (5) is effective July 1, 2013, only if the revisor of statutes receives notification. (See the editor's note following this section.)

Editor's note: (1) This section is similar to former § 25-1-107 (1)(I), (3), and (4) as they existed prior to 2003.

(2) Amendments to subsection (2) in sections 21 and 63 of House Bill 06-1277 were harmonized. As a result of the harmonization, subsection (2)(a) in section 63 of House Bill 06-1277 was renumbered as subsection (2)(b).

(3) Section 15 of chapter 234, Session Laws of Colorado 2012, provides that subsection (5) is effective July 1, 2013, only if the division of fire prevention and control in the department of public safety notifies the revisor of statutes in writing, by June 30, 2013, that the secretary of the United States department of health and human services has granted a modification to the agreement entered into between said secretary and the state of Colorado pursuant to section 1864 of the federal "Social Security Act", 42 U.S.C. sec. 1395aa, which modification allows said division to fulfill the duties under that law associated with the assessment of compliance with the federal fire safety code requirements for health facilities.

Cross references: For the legislative declaration in the 2012 act amending subsections (1)(a)(I) and (1)(c) and the introductory portion to subsection (2)(a.5) and adding subsection (2)(b.5), see section 1 of chapter 252, Session Laws of Colorado 2012.

ANNOTATION

Annotator's note. Since § 25-1.5-103 is similar to § 25-1-107 as it existed prior to its 2003 repeal and relocation to this article 1.5, a relevant case construing that provision has been included in the annotations to this section.

This section is not a licensing statute, but rather one specifying the powers of the state

department of public health. *Adams v. Poudre Valley Hosp. Dist.*, 173 Colo. 98, 476 P.2d 565 (1970).

Thus, subsection (1)(I)(II), "certificate of compliance", is not a license. *Adams v. Poudre Valley Hosp. Dist.*, 173 Colo. 98, 476 P.2d 565 (1970).

25-1.5-104. Regulation of standards relating to food - powers and duties of department. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) To impound any vegetables and other edible crops and meat and animal products intended for and unfit for human consumption, and, upon five days' notice and after affording reasonable opportunity for a hearing to the interested parties, to condemn and destroy the same if deemed necessary for the protection of the public health;

(b) (I) To promulgate and enforce rules, regulations, and standards for the grading, labeling, classification, and composition of milk, milk products, and dairy products, including imitation dairy products; to establish minimum general sanitary standards of quality of all milk, milk products, dairy products, and imitation dairy products sold for human consumption in this state; to inspect and supervise, in dairy plants or dairy farms and in other establishments handling any milk, milk products, dairy products, or imitation dairy products, the sanitation of production, processing, and distribution of all milk, milk products, dairy products, and imitation dairy products sold for human consumption in this state and, to this end, to take samples of milk, milk products, dairy products, and imitation dairy products for bacteriological, chemical, and other analyses; and to enforce the standards for milk, milk products, dairy products, and imitation dairy products in processing plants, dairy farms, and other facilities and establishments handling, transporting, or selling such products; to certify persons licensed by the department under the provisions of section 25-5.5-107 as duly qualified persons for the purpose of collecting raw milk samples for official analyses in accordance with minimum qualifications established by the department; to issue, for the fees established by law, licenses and temporary permits to operate milk plants, dairy plants, receiving stations, dairy farms, and other facilities manufacturing any milk, milk products, dairy products, or imitation dairy products for human consumption.

(II) The phrase "minimum general sanitary standards" as used in this section means the minimum standards reasonably consistent with assuring adequate protection of the public health. The word "standards" as used in this section means standards reasonably designed to promote and protect the public health.

(c) To promulgate and enforce rules and regulations for the labeling and sale of oleomargarine and for the governing of milk- or cream-weighing-and-testing operations;

(d) To approve all oils used in reading tests of samples of cream and milk;

(e) To examine and license persons to sample or test milk, cream, or other dairy products for the purpose of determining the value of such products or to instruct other persons in the sampling and testing of such products and to cancel licenses issued by the department on account of incompetency or any violation of the provisions of the dairy laws or the rules and regulations promulgated by the board;

(f) To license manufacturers of oleomargarine;

(g) To establish and enforce sanitary standards for the operation of slaughtering, packing, canning, and rendering establishments and stores, shops, and vehicles wherein meat and animal products intended for human consumption may be offered for sale or transported, but this shall not be construed to authorize any state officer or employee to interfere with regulations or inspections made by anyone acting under the laws of the United States.

Editor's note: This section is similar to former § 25-1.5-107 (1)(k), (1)(o), and (1)(p) as they existed prior to 2003.

25-1.5-105. Detection of diseases - powers and duties of department. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) To establish and operate programs which the department determines are important in promoting, protecting, and maintaining the public's health by preventing, delaying, or detecting the onset of environmental and chronic diseases;

(b) To develop and maintain a system for detecting and monitoring environmental and chronic diseases within the state and to investigate and determine the epidemiology of those conditions which contribute to preventable or premature sickness and to death and disability;

(c) To establish programs of community and professional education relevant to the detection, prevention, and control of environmental and chronic diseases.

(2) For purposes of this section, "chronic disease" means impairment or deviation from the normal functioning of the human body which:

(a) Is permanent;

(b) Leaves residual disability;

(c) Is caused by nonreversible pathological alterations;

(d) Requires special patient education and instruction for rehabilitation; or

(e) May require a long period of supervision, observation, and care.

(3) For the purposes of this section, "environmental disease" means an impairment or deviation from the normal functioning of the human body which:

(a) May be either temporary or permanent;

(b) May leave residual disability;

(c) May result in birth defects, damage to tissues and organs, and chronic illness; and

(d) Is caused by exposure to hazardous chemical or radiological materials present in the environment.

(4) For the purposes of this section, the board shall determine, by rule and regulation, those environmental and chronic diseases that are dangerous to the public health. The board is authorized to require reports relating to such designated diseases in accordance with the provisions of section 25-1-122 and to have access to medical records relating to such designated diseases in accordance with the provisions of section 25-1-122.

Editor's note: This section is similar to former § 25-1-107 (1)(dd) as it existed prior to 2003.

25-1.5-106. Medical marijuana program - powers and duties of state health agency - rules - medical review board - medical marijuana program cash fund - created - repeal. (1) **Legislative declaration.** (a) The general assembly hereby declares that it is necessary to implement rules to ensure that patients suffering from legitimate debilitating medical conditions are able to safely gain access to medical marijuana and to ensure that these patients:

(I) Are not subject to criminal prosecution for their use of medical marijuana in accordance with section 14 of article XVIII of the state constitution, this section, and the rules of the state health agency; and

(II) Are able to establish an affirmative defense to their use of medical marijuana in accordance with section 14 of article XVIII of the state constitution, this section, and the rules of the state health agency.

(b) The general assembly hereby declares that it is necessary to implement rules to prevent persons who do not suffer from legitimate debilitating medical conditions from using section 14 of article XVIII of the state constitution as a means to sell, acquire, possess, produce, use, or transport marijuana in violation of state and federal laws.

(2) **Definitions.** In addition to the definitions set forth in section 14 (1) of article XVIII of the state constitution, as used in this section, unless the context otherwise requires:

(a) "Bona fide physician-patient relationship", for purposes of the medical marijuana program, means:

(I) A physician and a patient have a treatment or counseling relationship, in the course of which the physician has completed a full assessment of the patient's medical history and current medical condition, including an appropriate personal physical examination;

(II) The physician has consulted with the patient with respect to the patient's debilitating medical condition before the patient applies for a registry identification card; and

(III) The physician is available to or offers to provide follow-up care and treatment to the patient, including but not limited to patient examinations, to determine the efficacy of the use of medical marijuana as a treatment of the patient's debilitating medical condition.

(b) "Executive director" means the executive director of the state health agency.

(c) "In good standing", with respect to a physician's license, means:

(I) The physician holds a doctor of medicine or doctor of osteopathic medicine degree from an accredited medical school;

(II) The physician holds a valid license to practice medicine in Colorado that does not contain a restriction or condition that prohibits the recommendation of medical marijuana or for a license issued prior to July 1, 2011, a valid, unrestricted and unconditioned license; and

(III) The physician has a valid and unrestricted United States department of justice federal drug enforcement administration controlled substances registration.

(d) "Medical marijuana program" means the program established by section 14 of article XVIII of the state constitution and this section.

(d.5) "Primary caregiver" means a natural person, other than the patient or the patient's physician, who is eighteen years of age or older and has significant responsibility for managing the well-being of a patient who has a debilitating medical condition.

(e) "Registry identification card" means the nontransferable confidential registry identification card issued by the state health agency to patients and primary caregivers pursuant to this section.

(f) "State health agency" means the public health-related entity of state government designated by the governor by executive order pursuant to section 14 of article XVIII of the state constitution.

(3) **Rule-making.** (a) The state health agency shall, pursuant to section 14 of article XVIII of the state constitution, promulgate rules of administration concerning the implementation of the medical marijuana program that specifically govern the following:

(I) The establishment and maintenance of a confidential registry of patients who have applied for and are entitled to receive a registry identification card. The confidential registry of patients may be used to determine whether a physician should be referred to the Colorado board of medical examiners for a suspected violation of section 14 of article XVIII of the state constitution, paragraph (a), (b), or (c) of subsection (5) of this section, or the rules promulgated by the state health agency pursuant to this subsection (3).

(II) The development by the state health agency of an application form and the process for making the form available to residents of this state seeking to be listed on the confidential registry of patients who are entitled to receive a registry identification card;

(III) The verification by the state health agency of medical information concerning patients who have applied for a registry identification card or for renewal of a registry identification card;

(IV) The development by the state health agency of a form that constitutes "written documentation" as defined and used in section 14 of article XVIII of the state constitution, which form a physician shall use when making a medical marijuana recommendation for a patient;

(V) The conditions for issuance and renewal, and the form, of the registry identification cards issued to patients, including but not limited to standards for ensuring that the state health agency issues a registry identification card to a patient only if he or she has a bona fide physician-patient relationship with a physician in good standing and licensed to practice medicine in the state of Colorado;

(VI) Communications with law enforcement officials about registry identification cards that have been suspended when a patient is no longer diagnosed as having a debilitating medical condition;

(VII) The manner in which the state health agency may consider adding debilitating medical conditions to the list of debilitating medical conditions contained in section 14 of article XVIII of the state constitution; and

(VIII) A waiver process to allow a homebound patient who is on the registry to have a primary caregiver transport the patient's medical marijuana from a licensed medical marijuana center to the patient.

(b) The state health agency may promulgate rules regarding the following:

(I) What constitutes “significant responsibility for managing the well-being of a patient”; except that the act of supplying medical marijuana or marijuana paraphernalia, by itself, is insufficient to constitute “significant responsibility for managing the well-being of a patient”;

(II) The development of a form for a primary caregiver to use in applying to the registry, which form shall require, at a minimum, that the applicant provide his or her full name, home address, date of birth, and an attestation that the applicant has a significant responsibility for managing the well-being of the patient for whom he or she is designated as the primary caregiver and that he or she understands and will abide by section 14 of article XVIII of the state constitution, this section, and the rules promulgated by the state health agency pursuant to this section;

(III) The development of a form that constitutes “written documentation”, as defined and used in section 14 of article XVIII of the state constitution, which form a physician shall use when making a medical marijuana recommendation for a patient; and

(IV) The grounds and procedure for a patient to change his or her designated primary caregiver.

(c) Repealed.

(4) Notwithstanding any other requirements to the contrary, notice issued by the state health agency for a rule-making hearing pursuant to section 24-4-103, C.R.S., for rules concerning the medical marijuana program shall be sufficient if the state health agency provides the notice no later than forty-five days in advance of the rule-making hearing in at least one publication in a newspaper of general distribution in the state and posts the notice on the state health agency’s web site; except that emergency rules pursuant to section 24-4-103 (6), C.R.S., shall not require advance notice.

(5) **Physicians.** A physician who certifies a debilitating medical condition for an applicant to the medical marijuana program shall comply with all of the following requirements:

(a) The physician shall have a valid and active license to practice medicine, which license is in good standing.

(b) After a physician, who has a bona fide physician-patient relationship with the patient applying for the medical marijuana program, determines, for the purposes of making a recommendation, that the patient has a debilitating medical condition and that the patient may benefit from the use of medical marijuana, the physician shall certify to the state health agency that the patient has a debilitating medical condition and that the patient may benefit from the use of medical marijuana. If the physician certifies that the patient would benefit from the use of medical marijuana based on a chronic or debilitating disease or medical condition, the physician shall specify the chronic or debilitating disease or medical condition and, if known, the cause or source of the chronic or debilitating disease or medical condition.

(c) The physician shall maintain a record-keeping system for all patients for whom the physician has recommended the medical use of marijuana, and, pursuant to an investigation initiated pursuant to section 12-36-118, C.R.S., the physician shall produce such medical records to the Colorado state board of medical examiners after redacting any patient or primary caregiver identifying information.

(d) A physician shall not:

(I) Accept, solicit, or offer any form of pecuniary remuneration from or to a primary caregiver, distributor, or any other provider of medical marijuana;

(II) Offer a discount or any other thing of value to a patient who uses or agrees to use a particular primary caregiver, distributor, or other provider of medical marijuana to procure medical marijuana;

(III) Examine a patient for purposes of diagnosing a debilitating medical condition at a location where medical marijuana is sold or distributed; or

(IV) Hold an economic interest in an enterprise that provides or distributes medical marijuana if the physician certifies the debilitating medical condition of a patient for participation in the medical marijuana program.

(6) **Enforcement.** (a) If the state health agency has reasonable cause to believe that a physician has violated section 14 of article XVIII of the state constitution, paragraph (a), (b), or (c) of subsection (5) of this section, or the rules promulgated by the state health agency pursuant to subsection (2) of this section, the state health agency may refer the matter to the state board of medical examiners created in section 12-36-103, C.R.S., for an investigation and determination.

(b) If the state health agency has reasonable cause to believe that a physician has violated paragraph (d) of subsection (5) of this section, the state health agency shall conduct a hearing pursuant to section 24-4-104, C.R.S., to determine whether a violation has occurred.

(c) Upon a finding of unprofessional conduct pursuant to section 12-36-117 (1) (mm), C.R.S., by the state board of medical examiners or a finding of a violation of paragraph (d) of subsection (5) of this section by the state health agency, the state health agency shall restrict a physician's authority to recommend the use of medical marijuana, which restrictions may include the revocation or suspension of a physician's privilege to recommend medical marijuana. The restriction shall be in addition to any sanction imposed by the state board of medical examiners.

(d) When the state health agency has objective and reasonable grounds to believe and finds, upon a full investigation, that a physician has deliberately and willfully violated section 14 of article XVIII of the state constitution or this section and that the public health, safety, or welfare imperatively requires emergency action, and the state health agency incorporates those findings into an order, the state health agency may summarily suspend the physician's authority to recommend the use of medical marijuana pending the proceedings set forth in paragraphs (a) and (b) of this subsection (6). A hearing on the order of summary suspension shall be held no later than thirty days after the issuance of the order of summary suspension, unless a longer time is agreed to by the parties, and an initial decision in accordance with section 24-4-105 (14), C.R.S., shall be rendered no later than thirty days after the conclusion of the hearing concerning the order of summary suspension.

(7) **Primary caregivers.** (a) A primary caregiver may not delegate to any other person his or her authority to provide medical marijuana to a patient nor may a primary caregiver engage others to assist in providing medical marijuana to a patient.

(b) Two or more primary caregivers shall not join together for the purpose of cultivating medical marijuana.

(c) Only a medical marijuana center with an optional premises cultivation license, a medical marijuana-infused products manufacturing operation with an optional premises cultivation license, or a primary caregiver for his or her patients or a patient for himself or herself may cultivate or provide marijuana and only for medical use.

(d) A primary caregiver shall provide to a law enforcement agency, upon inquiry, the registry identification card number of each of his or her patients. The state health agency shall maintain a registry of this information and make it available twenty-four hours per day and seven days a week to law enforcement for verification purposes. Upon inquiry by a law enforcement officer as to an individual's status as a patient or primary caregiver, the state health agency shall check the registry. If the individual is not registered as a patient or primary caregiver, the state health agency may provide that response to law enforcement. If the person is a registered patient or primary caregiver, the state health agency may not release information unless consistent with section 14 of article XVIII of the state constitution. The state health agency may promulgate rules to provide for the efficient administration of this paragraph (d).

(e) A primary caregiver who cultivates medical marijuana for his or her patients shall register the location of his or her cultivation operation with the state medical marijuana licensing authority and provide the registration identification number of each patient to the state licensing authority. The information provided to the state medical marijuana licensing authority pursuant to this paragraph (e) shall not be provided to the public and shall be confidential. The state licensing authority shall verify the location of a primary caregiver cultivation operation to a local government or law enforcement agency upon receiving an address-specific request for verification. The location of the cultivation operation shall comply with all applicable local laws, rules, or regulations.

(8) **Patient - primary caregiver relationship.** (a) A person shall be listed as a primary caregiver for no more than five patients on the medical marijuana program registry at any given time; except that the state health agency may allow a primary caregiver to serve more than five patients in exceptional circumstances. In determining whether exceptional circumstances exist, the state health agency may consider the proximity of medical marijuana centers to the patient. A primary caregiver shall maintain a list of his or her patients including the registry identification card number of each patient at all times.

(b) A patient shall have only one primary caregiver at any given time.

(c) A patient who has designated a primary caregiver for himself or herself may not be designated as a primary caregiver for another patient.

(d) A primary caregiver may not charge a patient more than the cost of cultivating or purchasing the medical marijuana, but may charge for caregiver services.

(e) (I) The state health agency shall maintain a secure and confidential registry of available primary caregivers for those patients who are unable to secure the services of a primary caregiver.

(II) An existing primary caregiver may indicate at the time of registration whether he or she would be willing to handle additional patients and waive confidentiality to allow release of his or her contact information to physicians or registered patients only.

(III) An individual who is not registered but is willing to provide primary caregiving services may submit his or her contact information to be placed on the primary caregiver registry.

(IV) A patient-primary caregiver arrangement secured pursuant to this paragraph (e) shall be strictly between the patient and the potential primary caregiver. The state health agency, by providing the information required by this paragraph (e), shall not endorse or vouch for a primary caregiver.

(V) The state health agency may make an exception, based on a request from a patient, to paragraph (a) of this subsection (8) limiting primary caregivers to five patients. If the state health agency makes an exception to the limit, the state health agency shall note the exception on the primary caregiver's record in the registry.

(f) At the time a patient applies for inclusion on the confidential registry, the patient shall indicate whether the patient intends to cultivate his or her own medical marijuana, both cultivate his or her own medical marijuana and obtain it from either a primary caregiver or licensed medical marijuana center, or obtain it from either a primary caregiver or a licensed medical marijuana center. If the patient elects to use a licensed medical marijuana center, the patient shall register the primary center he or she intends to use.

(9) **Registry identification card required - denial - revocation - renewal.** (a) To be considered in compliance with the provisions of section 14 of article XVIII of the state constitution, this section, and the rules of the state health agency, a patient or primary caregiver shall have his or her registry identification card in his or her possession at all times that he or she is in possession of any form of medical marijuana and produce the same upon request of a law enforcement officer to demonstrate that the patient or primary caregiver is not in violation of the law; except that, if more than thirty-five days have passed since the date the patient or primary caregiver filed his or her medical marijuana program application and the state health agency has not yet issued or denied a registry identification card, a copy of the patient's or primary caregiver's application along with proof of the date of submission shall be in the patient's or primary caregiver's possession at all times that he or she is in possession of any form of medical marijuana until the state health agency issues or denies the registry identification card. A person who violates section 14 of article XVIII of the state constitution, this section, or the rules promulgated by the state health agency may be subject to criminal prosecution for violations of section 18-18-406, C.R.S.

(b) The state health agency may deny a patient's or primary caregiver's application for a registry identification card or revoke the card if the state health agency, in accordance with article 4 of title 24, C.R.S., determines that the physician who diagnosed the patient's debilitating medical condition, the patient, or the primary caregiver violated section 14 of article XVIII of the state constitution, this section, or the rules promulgated by the state health agency pursuant to this section; except that, when a physician's violation is the basis for adverse action, the state health agency may only deny or revoke a patient's application

or registry identification card when the physician's violation is related to the issuance of a medical marijuana recommendation.

(c) A patient or primary caregiver registry identification card shall be valid for one year and shall contain a unique identification number. It shall be the responsibility of the patient or primary caregiver to apply to renew his or her registry identification card prior to the date on which the card expires. The state health agency shall develop a form for a patient or primary caregiver to use in renewing his or her registry identification card.

(d) If the state health agency grants a patient a waiver to allow a primary caregiver to transport the patient's medical marijuana from a medical marijuana center to the patient, the state health agency shall designate the waiver on the patient's registry identification card.

(e) A homebound patient who receives a waiver from the state health agency to allow a primary caregiver to transport the patient's medical marijuana to the patient from a medical marijuana center shall provide the primary caregiver with the patient's registry identification card, which the primary caregiver shall carry when the primary caregiver is transporting the medical marijuana. A medical marijuana center may provide the medical marijuana to the primary caregiver for transport to the patient if the primary caregiver produces the patient's registry identification card.

(10) **Renewal of patient identification card upon criminal conviction.** Any patient who is convicted of a criminal offense under article 18 of title 18, C.R.S., sentenced or ordered by a court to drug or substance abuse treatment, or sentenced to the division of youth corrections, shall be subject to immediate renewal of his or her patient registry identification card, and the patient shall apply for the renewal based upon a recommendation from a physician with whom the patient has a bona fide physician-patient relationship.

(11) A parent who submits a medical marijuana registry application for his or her child shall have his or her signature notarized on the application.

(12) **Use of medical marijuana.** (a) The use of medical marijuana is allowed under state law to the extent that it is carried out in accordance with the provisions of section 14 of article XVIII of the state constitution, this section, and the rules of the state health agency.

(b) A patient or primary caregiver shall not:

(I) Engage in the medical use of marijuana in a way that endangers the health and well-being of a person;

(II) Engage in the medical use of marijuana in plain view of or in a place open to the general public;

(III) Undertake any task while under the influence of medical marijuana, when doing so would constitute negligence or professional malpractice;

(IV) Possess medical marijuana or otherwise engage in the use of medical marijuana in or on the grounds of a school or in a school bus;

(V) Engage in the use of medical marijuana while:

(A) In a correctional facility or a community corrections facility;

(B) Subject to a sentence to incarceration; or

(C) In a vehicle, aircraft, or motorboat;

(VI) Operate, navigate, or be in actual physical control of any vehicle, aircraft, or motorboat while under the influence of medical marijuana; or

(VII) Use medical marijuana if the person does not have a debilitating medical condition as diagnosed by the person's physician in the course of a bona fide physician-patient relationship and for which the physician has recommended the use of medical marijuana.

(c) A person shall not establish a business to permit patients to congregate and smoke or otherwise consume medical marijuana.

(13) **Limit on cultivation of medical marijuana.** Only registered patients, licensed primary caregivers, medical marijuana-infused products manufacturing operations with an optional premises cultivation license, and licensed medical marijuana centers with optional premises cultivation licenses may cultivate medical marijuana.

(14) **Affirmative defense.** If a patient or primary caregiver raises an affirmative defense as provided in section 14 (4) (b) of article XVIII of the state constitution, the patient's physician shall certify the specific amounts in excess of two ounces that are necessary to

address the patient's debilitating medical condition and why such amounts are necessary. A patient who asserts this affirmative defense shall waive confidentiality privileges related to the condition or conditions that were the basis for the recommendation. If a patient, primary caregiver, or physician raises an exception to the state criminal laws as provided in section 14 (2) (b) or (2) (c) of article XVIII of the state constitution, the patient, primary caregiver, or physician waives the confidentiality of his or her records related to the condition or conditions that were the basis for the recommendation maintained by the state health agency for the medical marijuana program. Upon request of a law enforcement agency for such records, the state health agency shall only provide records pertaining to the individual raising the exception, and shall redact all other patient, primary caregiver, or physician identifying information.

(15) (a) Except as provided in paragraph (b) of this subsection (15), the state health agency shall establish a basic fee that shall be paid at the time of service of any subpoena upon the state health agency, plus a fee for meals and a fee for mileage at the rate prescribed for state officers and employees in section 24-9-104, C.R.S., for each mile actually and necessarily traveled in going to and returning from the place named in the subpoena. If the person named in the subpoena is required to attend the place named in the subpoena for more than one day, there shall be paid, in advance, a sum to be established by the state health agency for each day of attendance to cover the expenses of the person named in the subpoena.

(b) The subpoena fee established pursuant to paragraph (a) of this subsection (15) shall not be applicable to any federal, state, or local governmental agency.

(16) **Fees.** (a) The state health agency may collect fees from patients who, pursuant to section 14 of article XVIII of the state constitution, apply to the medical marijuana program for a registry identification card for the purpose of offsetting the state health agency's direct and indirect costs of administering the program. The amount of the fees shall be set by rule of the state health agency. The amount of the fees set pursuant to this section shall reflect the actual direct and indirect costs of the state licensing authority in the administration and enforcement of this article so that the fees avoid exceeding the statutory limit on uncommitted reserves in administrative agency cash funds as set forth in section 24-75-402 (3), C.R.S. The state health agency shall not assess a medical marijuana registry application fee to an applicant who demonstrates, pursuant to a copy of the applicant's state tax return certified by the department of revenue, that the applicant's income does not exceed one hundred eighty-five percent of the federal poverty line, adjusted for family size. All fees collected by the state health agency through the medical marijuana program shall be transferred to the state treasurer who shall credit the same to the medical marijuana program cash fund, which fund is hereby created.

(b) Repealed.

(17) **Cash fund.** (a) The medical marijuana program cash fund shall be subject to annual appropriation by the general assembly to the state health agency for the purpose of establishing, operating, and maintaining the medical marijuana program. All moneys credited to the medical marijuana program cash fund and all interest derived from the deposit of such moneys that are not expended during the fiscal year shall be retained in the fund for future use and shall not be credited or transferred to the general fund or any other fund.

(b) (Deleted by amendment, L. 2010, (HB 10-1284), ch. 355, p. 1677, § 2, effective July 1, 2010.)

(b.5) Notwithstanding any provision of paragraph (a) of this subsection (17) to the contrary, on June 30, 2011, the state treasurer shall deduct three million dollars from the medical marijuana program cash fund and transfer such sum to the general fund.

(c) Repealed.

(18) This section is repealed, effective July 1, 2019.

Source: L. 2003: Entire article added with relocations, p. 686, § 2, effective July 1. L. 2009: (3) amended, (SB 09-208), ch. 149, p. 624, § 20, effective April 20. L. 2010: Entire section amended, (SB 10-109), ch. 356, p. 1691, § 1, effective June 7; (17)(b.5) added, (HB 10-1388), ch. 362, p. 1716, § 1, effective June 7; entire section amended, (HB

10-1284), ch. 355, p. 1677, § 2, effective July 1. **L. 2011:** (2)(c)(II), (5)(a), and (16)(a) amended and (7)(e) added, (HB 11-1043), ch. 266, pp. 1211, 1212, §§ 19, 20, 22, 21, effective July 1.

Editor's note: (1) This section is similar to former § 25-1-107 (1)(jj) as it existed prior to 2003. (2) Amendments to this section by Senate Bill 10-109 and House Bill 10-1284 were harmonized. (3) Subsection (17)(b.5) was added as subsection (3)(c) by House Bill 10-1388. That provision was harmonized with Senate Bill 10-109 and House Bill 10-1284 resulting in its relocation. (4) Subsection (3)(c)(II) provided for the repeal of subsection (3)(c), effective July 1, 2011. (See L. 2010, p. 1677.) Subsections (16)(b)(II) and (17)(c)(II) provided for the repeal of subsections (16)(b) and (17)(c), respectively, effective July 1, 2012. (See L. 2010, p. 1691.)

25-1.5-107. Pandemic influenza - purchase of antiviral therapy - definitions.

(1) The department may enter into partnerships with one or more authorized purchasers to purchase antiviral therapy in order to acquire a ready supply or stockpile of antiviral drugs in the event of an epidemic emergency, including pandemic influenza. If an entity wishes to purchase antiviral therapy through the department, the entity shall notify the department of its intent and shall demonstrate to the department, in a form and manner determined by the department, that the entity satisfies the criteria of an authorized purchaser. Upon a determination that an entity is an authorized purchaser, the department shall seek approval from the United States department of health and human services for the purchase of antiviral therapy by the authorized purchaser. Any purchase of antiviral therapy shall be approved by the United States department of health and human services, and antiviral therapy shall be stored and used in accordance with state and federal requirements.

(2) As used in this section, unless the context otherwise requires:

(a) "Authorized purchaser" means an entity licensed by the department pursuant to section 25-1.5-103 (1) (a), a local public health agency, or a health maintenance organization, as defined in section 10-16-102 (23), C.R.S., authorized to operate in this state pursuant to part 4 of article 16 of title 10, C.R.S., that:

(I) Is part of the state pandemic preparedness and response plan;

(II) Will purchase antiviral therapy with its own funds; and

(III) Agrees to stockpile the antiviral therapy for use in an epidemic emergency declared a disaster emergency pursuant to section 24-32-2104, C.R.S., and to use the antiviral therapy only in accordance with state and federal requirements and for no other purpose.

(b) "Bioterrorism" means the intentional use of microorganisms or toxins of biological origin to cause death or disease among humans or animals.

(c) "Emergency epidemic" means cases of an illness or condition, communicable or noncommunicable, caused by bioterrorism, pandemic influenza, or novel and highly fatal infectious agents or biological toxins.

(d) "Pandemic influenza" means a widespread epidemic of influenza caused by a highly virulent strain of the influenza virus.

Source: **L. 2007:** Entire section added with relocations, p. 1290, § 2, effective May 25.

25-1.5-108. Regulation of dialysis treatment clinics - training for hemodialysis technicians - state board of health rules - definitions - repeal. (1) As used in this section, unless the context otherwise requires:

(a) "Dialysis treatment clinic" means a health facility or a department or unit of a licensed hospital that is planned, organized, operated, and maintained to provide outpatient hemodialysis treatment to, or hemodialysis training for home use of hemodialysis equipment by, end-stage renal disease patients.

(b) "End-stage renal disease" means the stage of renal impairment that appears irreversible and permanent and that requires a regular course of dialysis or a kidney transplant to maintain life.

(c) "Hemodialysis technician" means a person who is not a physician or a registered nurse and who provides dialysis care.

(d) “National credentialing program” means any national program for credentialing or determining the competency of hemodialysis technicians that is recognized by the national association of nephrology technicians/technologists (NANT), or a successor association.

(2) By January 1, 2008, the state board of health shall adopt rules to establish a process to verify that persons performing the duties and functions of a hemodialysis technician at or for a dialysis treatment clinic have been credentialed by a national credentialing program. The verification process shall be part of the department of public health and environment’s licensing of dialysis treatment clinics and part of each routine survey of licensed dialysis clinics conducted by the department. As part of the rules adopted pursuant to this section, the state board shall establish fees consistent with section 25-3-105 to be assessed by the department against dialysis treatment clinics to cover the department’s administrative costs in implementing this section.

(3) (a) On and after January 1, 2009, a person shall not act as, or perform the duties and functions of, a hemodialysis technician unless the person has been credentialed by a national credentialing program and is under the supervision of a licensed physician or licensed professional nurse experienced or trained in dialysis treatment.

(b) On and after January 1, 2009, a dialysis treatment clinic licensed by the department shall not allow a person to perform the duties and functions of a hemodialysis technician at or for the dialysis treatment clinic if the person has not been credentialed by a national credentialing program.

(c) Nothing in this subsection (3) shall prohibit:

(I) A person from providing dialysis care to himself or herself or in-home, gratuitous dialysis care provided to a person by a friend or family member who does not represent himself or herself to be a hemodialysis technician;

(II) A person participating in a hemodialysis technician training program from performing the duties and functions of a hemodialysis technician if:

(A) The person is under the direct supervision of a physician, or a registered nurse experienced or trained in dialysis treatment, who is on the premises and available for prompt consultation or treatment; and

(B) The person receives his or her credentials from a national credentialing program within eighteen months after the date the person enrolled in the training program.

(4) In connection with its regulation of dialysis treatment clinics pursuant to section 25-1.5-103 (1) (a) (I) and 25-3-101 (1) and rules adopted by the state board of health pursuant to subsection (2) of this section, on and after January 1, 2009, the department shall verify that a dialysis treatment clinic only employs hemodialysis technicians who have been credentialed by a national credentialing program. Compliance by a dialysis treatment clinic with this section shall be a condition of licensure by the department.

(5) Each dialysis treatment clinic licensed by the department and operating in this state shall post a clear and unambiguous notice in a public location in the clinic specifying that the clinic is licensed, regulated, and subject to inspection by the Colorado department of public health and environment. The dialysis treatment clinic shall also inform consumers, either in the public notice required by this subsection (5) or in written materials provided to consumers, about the ability to provide feedback to the clinic and to the department, including the method by which consumers can provide feedback. The state board may adopt rules, as necessary, to specify the contents of the notice or written materials required by this subsection (5).

(6) This section is repealed, effective September 1, 2019. Prior to this repeal, the department of regulatory agencies shall review the functions of the state board of health and the department regarding hemodialysis technicians as provided in section 24-34-104, C.R.S.

Source: L. 2007: Entire section added with relocations, p. 1623, § 1, effective July 1. L. 2012: (2), (3)(a), and (6) amended, (HB 12-1204), ch. 103, p. 348, § 1, effective July 1.

25-1.5-109. Food allergies and anaphylaxis form for schools - powers and duties of department. The department has, in addition to all other powers and duties imposed upon it by law, the duty to develop, maintain, and make available to school districts and institute

charter schools a standard form to be used by school districts and institute charter schools to gather information from physicians and parents and guardians of students concerning students' risks of food allergies and anaphylaxis and the treatment thereof. The standard form shall include, at a minimum, fields for gathering the information described in section 22-2-135 (3) (b), C.R.S.

Source: L. 2009: Entire section added with relocations, (SB 09-226), ch. 245, p. 1106, § 6, effective August 5.

Cross references: For the legislative declaration contained in the 2009 act adding this section, see section 1 of chapter 245, Session Laws of Colorado 2009.

PART 2

POWERS AND DUTIES OF THE DEPARTMENT WITH RESPECT TO WATER

25-1.5-201. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Public water systems" means systems for the provision to the public of piped water for human consumption, if such system has at least fifteen service connections or regularly serves at least twenty-five individuals. Such term includes:

(a) Any collection, treatment, storage, and distribution facilities under control of the operator of such system and used primarily in connection with such system; and

(b) Any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system.

(2) "Supplier of water" means any person who owns or operates a public water system.

Source: L. 2003: Entire article added with relocations, p. 687, § 2, effective July 1.

Editor's note: This section is similar to former § 25-1-107 (1)(x)(V) and (1)(x)(VI) as they existed prior to 2003.

25-1.5-202. Water - minimum general sanitary standards. (1) The phrase "minimum general sanitary standards" as used in this part 2 and section 25-1-109 (1) (h) means the minimum standards reasonably consistent with assuring adequate protection of the public health, and, in the case of minimum general sanitary standards as to the quality of water supplied to the public, the same shall be established by rule and regulation and shall be appropriate to promote and protect the public health from endangerment presented by carcinogenic, mutagenic, teratogenic, pathogenic, or toxic contaminants or substances. Such standards shall be based on the best available endangerment assessment evidence and the best available treatment technology or methodology. The word "standards" as used in this part 2 and section 25-1-109 (1) (h) means standards reasonably designed to promote and protect the public health.

(2) Minimum general sanitary standards for the quality of water supplied to the public shall be no more stringent than the drinking water standards promulgated pursuant to the federal "Safe Drinking Water Act", if such standards exist. If no standards have been promulgated pursuant to the federal "Safe Drinking Water Act" regarding the permissible concentration of any contaminant or any substance in drinking water, the department may recommend to the water quality control commission for promulgation minimum general sanitary standards regarding such contaminant or substance.

(3) (a) The department shall annually establish and revise a priority list of contaminants or substances for which standards may be considered and shall submit said list to the water quality control commission for review and approval.

(b) The priority list of contaminants or substances, together with the department's evaluation of the considerations listed in this paragraph (b), shall be submitted to the water quality control commission for review and approval. The priority list shall be prepared according to a ranking process that incorporates the following considerations:

(I) The actual presence of a contaminant or substance in a drinking water supply system or the relative imminence of threat of contamination of a drinking water supply source;

(II) The identifiability of a potential pathway or continued pathway of contamination;

(III) The availability of analytical techniques for measuring and identifying the contaminant or substance in a reasonable manner;

(IV) Sufficient available information concerning the contaminant or substance to allow an appropriate standard to be developed, including information on the health effects of the contaminant or substance as well as available treatment technology;

(V) The magnitude of potential health risks of the contaminant or substance at reasonably anticipated exposure levels, utilizing the same exposure considerations, criteria for health risk, and criteria for data availability which are used by the criteria and standards division of the office of drinking water, United States environmental protection agency, in establishing the federal drinking water priority list;

(VI) The fact that the contaminant or substance will be the subject of a national primary drinking water regulation in the near future;

(VII) An analysis of the environmental fate and transport mechanisms within relevant environmental media;

(VIII) Identification, characterization, and analysis of the populations and drinking water supplies at risk; and

(IX) The level of effort and scope of work that will be necessary to develop sufficient data for the purpose of supporting an appropriate standard.

(4) (a) Following the department's submission of recommended standards to the water quality control commission, the commission may promulgate standards for contaminants or substances that are not the subject of a standard set pursuant to the federal "Safe Drinking Water Act".

(b) In the promulgation of such standards, the water quality control commission shall find that the standards are necessary to protect public health and have a demonstrated medical, technological, and scientific basis and that:

(I) Based on credible medical and toxicological evidence that has been subjected to peer review, there exists a substantial risk to the public health;

(II) The analytical techniques for measuring and identifying the contaminant or substance are reasonably available;

(III) The adverse health effects posed by the contaminant or substance are known to a reasonable degree of scientific certainty; and

(IV) Compliance with such standard is feasible utilizing the best technology or methodology which is generally available.

(5) All acts, orders, and rules adopted by the state board of health under the authority of this part 2 prior to July 1, 2006, that were valid prior to said date and not otherwise subject to judicial review shall, to the extent that they are not inconsistent with said provisions, be deemed and held to be legal and valid in all respects, as though issued by the water quality control commission under the authority of this part 2. No provision of this part 2 shall be construed to validate any actions, orders, or rules that were not valid when adopted by the board of health prior to such date.

Source: L. 2003: Entire article added with relocations, p. 687, § 2, effective July 1. L. 2006: (2), (3)(a), IP(3)(b), (4)(a), and IP(4)(b) amended and (5) added, p. 1127, § 2, effective July 1.

Editor's note: This section is similar to former § 25-1-107 (2) as it existed prior to 2003.

25-1.5-203. Water - powers and duties of department. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) **Construction of community water facilities.** To examine plans, specifications, and other related data pertaining to the proposed construction of any publicly or privately owned community water facilities submitted for review of sanitary engineering features prior to construction of such facilities;

(b) **Quality of drinking water.** (I) To adopt and enforce minimum general sanitary standards and regulations to protect the quality of drinking water supplied to the public, including the authority to require disinfection and treatment of such water.

(II) Standards and regulations adopted pursuant to this paragraph (b) may also include such minimum standards and regulations as are necessary to assure enforcement of the federal "Safe Drinking Water Act" with regard to public water systems, including, but not limited to, requirements for:

(A) Review and approval by the department, prior to initiation of construction, of the technical plans and specifications, long-term financial plans, and operations and management plans for any new waterworks or technical plans and specifications for substantial modifications to existing waterworks. For the purposes of this subparagraph (II), "waterworks" means the facilities that are directly involved in the production, treatment, or distribution of water for public water systems, as defined in section 141.2 of the national primary drinking water regulations. The department shall approve those new or substantially modified waterworks it determines are capable of complying with the Colorado primary drinking water regulations.

(B) Maintenance of records by the supplier of water relating to the results of tests and procedures required by the standards and regulations, including filing periodic reports with the department;

(C) Public notification by the supplier of water, pursuant to the provisions of the federal "Safe Drinking Water Act";

(D) Granting exemptions and variances from the minimum general sanitary standards to allow appropriate time for compliance, when such procedure can be effected without seriously jeopardizing the public health.

(c) **Exemption of public water systems.** (I) To exempt a water supplier from any further documentation requirements for purposes of establishing that it does not meet the definition of a public water system and is not subject to the requirements of the federal "Safe Drinking Water Act", where such water supplier has provided to the department evidence of the following:

(A) An ordinance, resolution, contractual provision, or other similarly enforceable enactment that prohibits connection to the system for the purpose of obtaining water for human consumption; and

(B) Either an annual visual inspection of the water supply system for the purpose of determining the presence of any unauthorized connections to the water supply system, or an annual written survey of those individuals or entities with whom the supplier has a contractual relationship governing the uses to which such water is placed by the contracting parties.

(II) Nothing in subparagraph (I) of this paragraph (c) shall be construed to eliminate from the provisions of the federal "Safe Drinking Water Act" any exclusion that may otherwise be available under federal law or regulation.

(d) **Lab certification program for testing drinking water.** (I) To establish and maintain a laboratory certification program for the purpose of ensuring competent testing of drinking water as required by the federal "Safe Drinking Water Act" and minimum general sanitary standards as set forth in section 25-1.5-202. Certification procedures shall, at a minimum, include water supply evaluation verification and on-site inspections. The laboratory certification program shall consist of certification levels which correspond to the testing capability and capacity of each laboratory. In addition to certifying laboratories for contaminants regulated as of May 11, 1988, the department shall adopt and implement a schedule for certifying sufficient laboratory capacity for the testing and analysis of contaminants for which reference methods are available and which are scheduled to be regulated under the federal "Safe Drinking Water Act".

(II) Upon request, the department shall refer a public water supplier to a laboratory, either the department's or one certified by the department, which is determined to be equipped to perform the required testing and analysis on a timely basis.

(III) To facilitate an effective laboratory certification program, the department shall work with local public water suppliers toward creating and maintaining a centralized data base which:

(A) Quantifies the current and expected demands for the monitoring, testing, and analysis of each supplier, grouped according to the size of the supply system, the source of its supply, and the requirements imposed on each supplier;

(B) Includes an updated list of laboratories certified and available for the testing and analysis of specific contaminants; and

(C) Tracks violations of drinking water standards for the purpose of facilitating an exchange among public water suppliers in addressing similar problems posed by specific contaminants.

(e) **Drinking water list.** To cooperate with and assist the Colorado water resources and power development authority in the administration of the drinking water revolving fund created by section 37-95-107.8, C.R.S., including adopting rules governing the drinking water project eligibility list provided by said section and modifications to the eligibility list for submission to the general assembly, and to take any other actions necessary to assist the authority in complying with the requirements of the federal “Safe Drinking Water Act”.

Source: L. 2003: Entire article added with relocations, p. 689, § 2, effective July 1.

Editor’s note: This section is similar to former § 25-1-107 (1)(r), (1)(x)(I), (1)(x)(II), (1)(x.2), (1)(x.5), and (1)(gg) as they existed prior to 2003.

25-1.5-204. Inspection for violations of minimum general sanitary standards relating to quality of drinking water. (1) Upon presentation of proper credentials, authorized inspectors of the department may enter and inspect, at any reasonable time and in a reasonable manner, any property, premises, or place for the purpose of investigating any actual, suspected, or potential violations of minimum general sanitary standards adopted pursuant to section 25-1.5-202. Samples of drinking water may be obtained by such inspectors, and a portion of any samples to be used as evidence in an enforcement action shall be left with the owner, operator, or person in charge of the premises. A copy of the results of any analysis of such sample shall be furnished promptly to the owner, operator, or person in charge.

(2) If such entry or inspection is denied or not consented to, the department is empowered to and shall obtain, from the district or county court for the judicial district or county in which such property, premises, or place is located, a warrant to enter and inspect said property, premises, or place. The said district and county courts of the state are empowered to issue such warrants upon a proper showing of the need for such entry and inspection, and a copy of any inspection report shall be provided the court within a reasonable time after making the inspection.

Editor’s note: This section is similar to former § 25-1-107 (1)(x)(III) as it existed prior to 2003.

25-1.5-205. Advice to other entities. The department may advise municipalities, utilities, institutions, organizations, and individuals concerning the methods or processes believed best suited to provide the protection or purification of water to meet minimum general sanitary standards adopted pursuant to section 25-1.5-202.

Source: L. 2003: Entire article added with relocations, p. 691, § 2, effective July 1.

Editor’s note: This section is similar to former § 25-1-107 (1)(x)(IV) as it existed prior to 2003.

25-1.5-206. Applicability. (1) Except as otherwise provided in the federal “Safe Drinking Water Act”, the provisions of this part 2 shall apply to each public water system in this state; except that the provisions of this part 2 shall not apply to a public water system that:

- (a) Consists only of distribution and storage facilities (and does not have any collection and treatment facilities);
- (b) Obtains all of its water from, but is not owned or operated by, a public water system to which such regulations apply;
- (c) Does not sell water to any person;
- (d) Does not authorize incidental use of untreated water; and
- (e) Is not a carrier that conveys passengers in interstate commerce; or
- (f) Prohibits, through ordinance, resolution, or other enforceable enactment, the use of its system, or connections thereto, for the delivery of water to the public for human consumption, except to the extent that such user is a public water system subject to the provisions of this part 2.

Source: L. 2003: Entire article added with relocations, p. 691, § 2, effective July 1.

Editor's note: This section is similar to former § 25-1-107 (1)(x)(VII) as it existed prior to 2003.

25-1.5-207. Damages and injunctive relief to prevent or abate release of contaminants in water. (1) (a) Except as provided in section 25-1-114.1 (3), any political subdivision or public water system which stores, releases, carries, conveys, supplies, or treats water for human consumption may bring suit to collect damages and for injunctive relief, in addition to all remedies otherwise available to prevent or abate any release or imminent release of contaminants or substances which, in water withdrawn for use, results or would likely result in:

(I) A violation, at the point where the contaminant or substance enters or would enter the intake of the water treatment system of the same or another political subdivision or public water system, of any minimum general sanitary standard or regulation adopted pursuant to this part 2, and the existing treatment system cannot effectively treat the contaminant or substance in question so as to assure that treated water complies with such standard or regulation; or

(II) Significant impairment of the normal operational capability of a water treatment system which meets the applicable specifications of the department for water treatment; or

(III) Rendering the system's drinking water supply unfit for human consumption. Where there are no minimum general sanitary standards, water shall be deemed unfit for human consumption where it is shown that the risk of adverse human health effects from exposure to carcinogens in that water is greater than one times ten to the minus sixth power or greater than the acceptable levels of exposure to noncarcinogens as determined by the reference dose method.

(b) Such an action may be maintained against any person who owns or operates the source or sources of the release of the contaminants, but no such action may be maintained with regard to surface or underground agricultural return flows except as otherwise provided in the "Colorado Chemigation Act", article 11 of title 35, C.R.S. Damages, including the costs of any remedy ordered or approved by the court shall include, as appropriate, those incurred in providing an interim substitute drinking water supply and monitoring and responding to the release or imminent release of contaminants or substances.

(2) **Other remedies.** Except as provided in this subsection (2), nothing in this section shall be construed to restrict or preempt any right which the state, the department, any public water system, or any other person may have under any other law to seek enforcement, in any court or in any administrative proceeding, of any provision of this section or any other relief regarding contamination of any drinking water supply. In addition, nothing in this section shall be construed to condition, restrict, or prevent any other civil or criminal actions which may be brought by the state or any political subdivision pursuant to any other state or federal statute or regulation or any local ordinance or regulation; except that, with respect to any release or substantial threat of release of a hazardous substance, pollutant, or contaminant addressed in pleadings or otherwise in a lawsuit brought pursuant to the federal "Comprehensive Environmental Response, Compensation and Liability Act", 42 U.S.C. sec. 9601 et seq., or by the terms and conditions of a remedial action plan, removal order,

consent decree, or other order or decree entered or issued by a court or administrative body of competent jurisdiction pursuant to such federal act, any person or entity which is a defendant in such a lawsuit or is subject to the terms and conditions of such a remedial action plan, removal order, consent decree, or other order or decree, shall not be subjected with respect to the same release or substantial threat of release of a hazardous substance, pollutant, or contaminant to any suit, action, or liability pursuant to section 25-1-114.1 (3); nor shall such person or entity be subject to any suit, action, or liability initiated or prosecuted by a political subdivision or a public water system pursuant to this section with respect to any release or substantial threat of release of a hazardous substance, pollutant, or contaminant which has been addressed by relief granted, or by measures implemented or legally required to be implemented, pursuant to a lawsuit brought pursuant to such federal act or the terms and conditions of a remedial action plan, removal order, consent decree, or other order or decree entered or issued by a court or administrative body of competent jurisdiction pursuant to such federal act. Nothing in this section shall be construed to bar a political subdivision or public water system from seeking to recover pursuant to applicable law its damages which have been reasonably incurred for the protection of the human health if enforceable arrangements to pay such damages have not otherwise been made.

Editor's note: This section is similar to former § 25-1-107 (1)(x)(VIII) as it existed prior to 2003.

25-1.5-208. Grant program for drinking water and water treatment systems - small communities water and wastewater grant fund - rules. (1) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section as follows:

(a) To assist suppliers of water in the state with meeting their responsibilities with respect to protection of public health, the department, in the name of the state and to the extent that state funds are appropriated therefor, may enter into contracts with both governmental and not-for-profit public water systems, as defined in section 25-1.5-201 (1), or with counties representing unincorporated areas that serve a population of not more than five thousand people, to grant moneys for the planning, design, and construction of drinking water or water treatment systems.

(b) The department may use up to five percent of the appropriated funds for the administration and management of such project grants.

(2) The water quality control commission shall promulgate rules for the administration of any appropriated grant moneys pursuant to this section and for prioritizing proposed drinking water and water treatment system projects based upon public health impact and compliance with applicable rules.

(3) During the grant application process, the department shall seek from the division of local government in the department of local affairs a fiscal analysis of the applying entity to determine financial need. Based upon its fiscal analysis, the division of local government shall issue or deny a certificate of financial need. If a certificate of financial need is issued, the department may authorize a state grant to the project in accordance with the project prioritization adopted by the department.

(4) (a) There is hereby created in the state treasury the small communities water and wastewater grant fund, referred to in this subsection (4) as the "fund". The fund shall consist of moneys transferred pursuant to section 39-29-109 (2) (a) (III), C.R.S., and any other moneys transferred to the fund by the general assembly. The fund shall be used only for grants made pursuant to this section. All income derived from the deposit and investment of the moneys in the fund shall be credited to the fund. At the end of each fiscal year, all unexpended and unencumbered moneys in the fund shall remain in the fund and shall not revert to the general fund or to any other fund.

(b) The revenues in the fund are continuously appropriated to the department for the purposes of this section.

Source: L. 2003: Entire article added with relocations, p. 693, § 2, effective July 1. **L. 2006:** (2) amended, p. 1128, § 3, effective July 1. **L. 2009:** (1)(a) and (2) amended and (4) added, (SB 09-165), ch. 183, p. 803, § 1, effective April 22.

Editor's note: This section is similar to former § 25-1-107 (1)(x)(IX) as it existed prior to 2003.

25-1.5-209. Drinking water fee - drinking water cash fund. (1) Effective July 1, 2007, the division may assess an annual fee upon public water systems, and all such fees shall be in accordance with the following schedule:

Facility Categories and Subcategories for Drinking Water Fees		Annual Fees
(a) Category 01 Community surface water systems		
Subcategory 1	Population from 25 - 250	\$ 75
Subcategory 2	Population from 251 - 500	\$ 100
Subcategory 3	Population from 501 - 1,000	\$ 310

(2) All fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit them to the drinking water cash fund, which fund is hereby created in the state treasury. Moneys so collected shall be annually appropriated by the general assembly to the department for allocation to the division of administration to operate the drinking water program established in this part 2. The general assembly shall review expenditures of such moneys to assure that they are used only for such purposes. All interest earned on the investment or deposit of moneys in the cash fund and all unappropriated or unencumbered moneys in the cash fund shall remain in the cash fund and shall not revert to the general fund or any other fund at the end of any fiscal year or any other time. Any funds remaining from fees collected prior to the repeal of former section 25-1.5-209, as it existed prior to July 1, 2005, shall be transmitted to the state treasurer, who shall credit the same to the cash fund.

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 2005. (See L. 2003, p. 1502.)

PART 3

ADMINISTRATION OF MEDICATIONS

25-1.5-301. Definitions. As used in this part 3, unless the context otherwise requires:

(1) "Administration" means assisting a person in the ingestion, application, inhalation, or, using universal precautions, rectal or vaginal insertion of medication, including prescription drugs, according to the legibly written or printed directions of the attending physician or other authorized practitioner or as written on the prescription label and making a written record thereof with regard to each medication administered, including the time and the amount taken, but "administration" does not include judgment, evaluation, or assessments or the injections of medication, the monitoring of medication, or the self-administration of medication, including prescription drugs and including the self-injection of medication by the resident. "Administration" also means ingestion through gastrostomy tubes or naso-gastric tubes, if administered by an individual authorized pursuant to section 27-10.5-103 (2) (k), C.R.S., as part of residential or day program services provided through service agencies approved by the department of human services and supervised by a licensed physician or nurse.

(2) "Facility" means:

(a) The correctional facilities under the supervision of the executive director of the department of corrections including, but not limited to:

(I) Those facilities provided for in article 20 of title 17, C.R.S.;

(II) Minimum security facilities provided for in article 25 of title 17, C.R.S.;

(III) Jails provided for in article 26 of title 17, C.R.S.;

(IV) Community correctional facilities and programs provided for in article 27 of title 17, C.R.S.;

(V) The regimented inmate discipline and treatment program provided for in article 27.7 of title 17, C.R.S.; and

(VI) The Denver regional diagnostic center provided for in article 40 of title 17, C.R.S.;

(b) Institutions for juveniles provided for in part 4 of article 2 of title 19, C.R.S.;

(b.5) Assisted living residences as defined in section 25-27-102 (1.3);

(c) Adult foster care facilities provided for in section 26-2-122.3, C.R.S.;

(d) Alternate care facilities provided for in section 25.5-6-303 (3), C.R.S.;

(e) Residential child care facilities for children as defined in section 26-6-102 (8), C.R.S.;

(f) Secure residential treatment centers as defined in section 26-6-102 (9), C.R.S.;

(g) Facilities that provide treatment for persons with mental illness as defined in section 27-65-102 (7), C.R.S., except for those facilities which are publicly or privately licensed hospitals;

(h) All services funded through and regulated by the department of human services pursuant to article 10.5 of title 27, C.R.S., in support of persons with developmental disabilities; and

(i) Adult day care facilities providing services in support of persons as defined in section 25.5-6-303 (1), C.R.S.

(3) "Monitoring" means:

(a) Reminding the resident to take medication or medications at the time ordered by the physician or other authorized licensed practitioner;

(b) Handing a resident a container or package of medication lawfully labeled previously for the individual resident by a licensed physician or other authorized licensed practitioner;

(c) Visual observation of the resident to ensure compliance;

(d) Making a written record of the resident's compliance with regard to each medication, including the time taken; and

(e) Notification to the physician or other authorized practitioner if the resident refuses to or is not able to comply with the physician's or other practitioner's instructions with regard to the medication.

(4) "Qualified manager" means a person who:

(a) Is the owner or operator of the facility or a supervisor designated by the owner or operator of the facility for the purpose of implementing section 25-1.5-303; and

(b) Has completed training in the administration of medications pursuant to section 25-1.5-303 or is a licensed nurse pursuant to article 38 of title 12, C.R.S., a licensed physician pursuant to article 36 of title 12, C.R.S., or a licensed pharmacist pursuant to article 42.5 of title 12, C.R.S. Every unlicensed person who is a “qualified manager” within the meaning of this subsection (4) shall, every four years, successfully complete a test approved by the department pertaining to the administration of medications.

(5) “Self-administration” means the ability of a person to take medication independently without any assistance from another person.

Editor’s note: This section is similar to former § 25-1-107 (1)(ee)(I.5)(A), (1)(ee)(I.5)(B), (1)(ee)(II), (1)(ee)(II.5), and (1)(ee)(III)(A) as it existed prior to 2003.

25-1.5-302. Administration of medications - powers and duties of department - criminal history record checks. (1) The department has, in addition to all other powers and duties imposed upon it by law, the power and duty to establish and maintain by rule and regulation a program for the administration of medications in facilities, which program shall be developed and conducted by the department of human services and the department of corrections, as provided in this part 3, within the following guidelines:

(a) As a condition to authorizing or renewing the authorization to operate any facility that administers medications to persons under its care, the authorizing agency shall require that the facility have a staff member qualified pursuant to paragraph (b) of this subsection (1) on duty at any time that the facility administers such medications and that the facility maintain a written record of each medication administered to each resident, including the time and the amount of the medication. Such record will be subject to review by the authorizing agency as a part of its procedure in authorizing the continued operation of the facility. Notwithstanding any exemption enumerated in paragraph (b) of this subsection (1), any facility may establish a policy which requires a person authorized to administer medication to report to, be supervised by, or to be otherwise accountable for the performance of such administration to a registered nurse as defined in section 12-38-103, C.R.S.

(b) Any individual who is not otherwise authorized by law to administer medication in a facility shall be allowed to perform such duties only after passing a competency evaluation. An individual who administers medications in facilities in compliance with the provisions of this part 3 shall be exempt from the licensing requirements of the “Colorado Medical Practice Act”, the “Nurse Practice Act”, and the laws of this state pertaining to possession of controlled substances as contained in article 42.5 of title 12, C.R.S., part 2 of article 80 of title 27, C.R.S., or the “Uniform Controlled Substances Act of 1992”, article 18 of title 18, C.R.S.

(2) The department, in cooperation with appropriate agencies or advisory bodies, shall develop or approve training curricula and competency evaluation procedures for those who administer medications in facilities.

(3) If either the department of human services or the department of corrections wishes to use a different training curriculum and competency evaluation procedure for those who administer medications in the facilities whose operation is authorized by those departments, such department shall ensure that such training curriculum and competency evaluation procedure are first submitted to the department of public health and environment for its review. If, after such review, the department of public health and environment has no objection, the submitting department shall assume responsibility for the cost and implementation of such curriculum and evaluation in keeping with the other provisions of this medications administration program for those facilities whose operation is authorized by

such department. Any department that administers competency evaluations shall maintain a list of those who have successfully completed such competency evaluation and shall forward a copy of such list to the department of public health and environment within forty-five days after administration of such evaluation.

(4) The department shall assure that training sessions, each followed by a competency evaluation set to measure basic competency only, are offered at various geographic locations in the state. An individual who does not pass the competency evaluation may apply to retake it. An appropriate fee must be paid each time the competency evaluation is taken. An individual may apply for and take the competency evaluation only once without having first attended a training session approved by the department. If such individual fails to meet a minimum competency level on such first evaluation, the applicant must attend an approved training session before again taking the competency evaluation.

(5) The department shall set and collect a uniform fee for any training session given and a uniform fee for any competency evaluation administered under the provisions of this section whether the department administers such training or testing or contracts with a private provider pursuant to subsection (7) of this section, so that the revenue generated from such fees approximates the direct and indirect costs incurred by the department in the performance of its duties under this section. No person shall enroll in a training session or take the competency evaluation test until such person applies and makes payment of the appropriate fees to the department.

(6) If the individual authorized to administer medication pursuant to subsection (1) of this section is found, during the course of any review by the authorizing agency as part of its procedure in authorizing the continued operation of the facility, to be unable or unwilling to comply with the training regimen established for medication administration, the department may order retraining as a remedial measure.

(7) (a) If the department determines that it is not able to provide the training and administer competency evaluations pursuant to this section, the department may contract with a private provider or instructor to provide such training and administer such competency evaluations.

(b) Before any private contractor may offer training pursuant to this subsection (7), such private contractor shall be reviewed by the department. Only those private contractors approved by the department may offer training. Any such approved private contractor shall offer only a medication administration training program which has been approved by the department. The department shall maintain a list of approved medication administration contractors. The department shall compensate contractors from the fees collected from each trainee in attendance at any such privately contracted training session or competency evaluation.

(c) All private contractors shall provide the department with a list of all persons who have taken such contractor's approved training sessions or have passed the competency evaluation or both. Such contractors shall also provide the department with any other pertinent information reasonably requested by the department pursuant to its obligations and authority under this section. The department shall maintain a listing of all persons who have passed the competency evaluation on its web site.

(8) Each owner, operator, or supervisor of a facility who employs a person who is not licensed to administer medications shall conduct a drug-related criminal background check on each employee prior to employment.

Source: L. 2003: Entire article added with relocations, p. 696, § 2, effective July 1. L. 2009: (7)(c) amended and (8) added, (SB 09-128), ch. 365, p. 1915, § 6, effective July 1. L. 2012: (1)(b) amended, (HB 12-1311), ch. 281, p. 1627, § 71, effective July 1.

Editor's note: This section is similar to former § 25-1-107 (1)(ee)(I) and (1)(ee)(I.3) as they existed prior to 2003.

Cross references: For the "Colorado Medical Practice Act", see article 36 of title 12; for the "Nurse Practice Act", see article 38 of title 12.

25-1.5-303. Medication reminder boxes or systems - medication cash fund.

(1) Medication reminder boxes or systems may be used if such containers have been filled and properly labeled by a pharmacist licensed pursuant to article 42.5 of title 12, C.R.S., a nurse licensed pursuant to article 38 of title 12, C.R.S., or an unlicensed person trained pursuant to this section or filled and properly labeled through the gratuitous care by members of one's family or friends. Nothing in this section authorizes or shall be construed to authorize the practice of pharmacy, as defined in section 12-42.5-102 (31), C.R.S. No unlicensed person shall fill and label medication reminder boxes pursuant to this section until such person has completed appropriate training approved by the department, and no facility shall use an unlicensed person to perform such services unless such facility has a qualified manager to oversee the work of such unlicensed person or persons. Every unlicensed person and qualified manager described in this section shall sign a disclosure statement under penalty of perjury stating that he or she never had a professional license to practice nursing, medicine, or pharmacy revoked in this or any other state for reasons directly related to the administration of medications.

(2) The department has, in addition to all other powers and duties imposed upon it by law, the powers and duties provided in this section to develop and implement policies and procedures with respect to the provisions in subsection (1) of this section concerning the administration of medication reminder boxes.

(3) The executive directors of the departments that control the "facilities" defined in section 25-1.5-301 (2) (a) and (2) (b) may direct the unlicensed staff of any such facility to monitor medications in any part of any such facility. Administration of medications in any such facility shall be allowed only in those areas of any such facility that have a licensed physician or other licensed practitioner on duty. Notwithstanding other training requirements established in this section, the operator or administrator of every facility that hires an unlicensed person to administer medications pursuant to this section shall provide on-the-job training for such person, and all such unlicensed persons hired on or after July 1, 1998, shall be adequately supervised until they have completed such training. Such on-the-job training shall be appropriate to the job responsibilities of each trainee. Facility operators and administrators shall require each unlicensed person who administers medication in the facility to pass the competency evaluation developed or approved by the department pursuant to section 25-1.5-302 (2) as a condition of employment in that facility at least once every five years. Facility operators and administrators shall document each unlicensed person's satisfactory completion of on-the-job training and passage of the competency evaluation in his or her permanent personnel file.

(4) A person who self-administers medication is personally responsible for medication administration. No facility shall be responsible for observing or documenting the self-administration of medication. Compliance with the requirements for the training of unlicensed persons in medication administration pursuant to this section is not required when persons being cared for are self-administering.

(5) (a) All fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the medication administration cash fund, which fund is hereby created.

(b) The general assembly shall make annual appropriations from the medication administration cash fund for expenditures of the department incurred in the performance of its duties under this section.

(c) Any moneys collected by the department from persons taking a training program or a competency examination from a private contractor approved pursuant to section 25-1.5-302 (7) shall be transmitted to the state treasurer, who shall credit the same to the medication administration cash fund created in paragraph (a) of this subsection (5). Such moneys collected from the fees charged for any such training program or competency examination shall be annually appropriated by the general assembly to the department for the purpose of paying private contractors for services rendered and for paying the department's direct and indirect costs incurred pursuant to section 25-1.5-302 (7).

(d) In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of the medication administration cash fund created in paragraph (a) of this subsection (5) shall be credited to the general fund.

ANNOTATION

Law reviews. For article, “Curative Statutes of Colorado Respecting Titles to Real Estate”, see 16 Dicta 35 (1939). For article, “Transsexuals — Their Legal Sex”, see 40 U. Colo. L. Rev. 282 (1968).

This article is a valid exercise of the police power of the state, and it operates in all parts of the state, including Denver and other home-rule cities. *People ex rel. Hershey v. McNichols*, 91 Colo. 141, 13 P.2d 266 (1932).

25-2-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Dead body” means a lifeless human body or parts of such body or bones thereof from the state of which it reasonably may be concluded that death recently occurred.

(2) “Fetal death” means death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy. The death is indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

(2.5) “Final disposition” means the burial, interment, cremation, removal from the state, or other authorized disposition of a dead body or fetus.

(2.7) “Induced termination of pregnancy” means the purposeful interruption of a pregnancy with an intention other than producing a live-born infant or removing a dead fetus and that does not result in a live birth.

(3) “Institution” means any establishment which provides inpatient medical, surgical, or diagnostic care or treatment or nursing, custodial, or domiciliary care to two or more unrelated individuals or to which persons are committed by law.

(3.5) “Physician” means a person licensed to practice medicine in Colorado pursuant to article 36 of title 12, C.R.S.

(4) “Regulations” means regulations duly adopted pursuant to section 25-2-103.

(4.5) “Stillborn death” or “stillbirth” means death prior to the complete expulsion or extraction from its mother of a product of human conception, occurring after the twentieth week of pregnancy, and does not include “induced termination of pregnancy”, as defined by subsection (2.7) of this section. The death is indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

(5) “Vital statistics certificate” means any certificate required by section 25-2-110, 25-2-112, or 25-2-112.3.

(6) “Vital statistics report” means any report required by section 25-2-106 or 25-2-107.

Source: L. 67: R&RE, p. 1056, § 1. C.R.S. 1963: § 66-8-2. L. 84: (2.5) and (3.5) added and (6) amended, p. 742, § 3, effective July 1. L. 2000: (2.7) added, p. 1073, § 1, effective August 2. L. 2001: (4.5) added, p. 439, § 1, effective August 8. L. 2004: (4.5) and (5) amended, p. 473, § 1, effective July 1.

Editor’s note: Subsection (4.5) was originally numbered as (3.7) in House Bill 01-1325 but has been renumbered on revision for ease of location.

ANNOTATION

Limitation on definition of “fetal death”. The definition of “fetal death” in this section does not indicate an intent on the part of the general assembly generally to recognize somatic

expiration as the only form of death. It is solely a definition of fetal death. *Lovato v. District Court*, 198 Colo. 419, 601 P.2d 1072 (1979).

25-2-103. Centralized registration system for all vital statistics - appointment of registrar - rules. (1) In order to provide for the maintenance of a centralized registry of the vital statistics of this state, the office of state registrar of vital statistics, referred to in this article as the “state registrar”, is hereby created in the department of public health and environment. The state registrar shall be appointed by the state board of health and shall have such staff and clerical help as reasonably may be required in the performance of the state registrar’s duties. The state registrar and the staff and clerical help of the state registrar shall be subject to the state constitution and state personnel system laws.

(2) The state board of health shall adopt, promulgate, amend, and repeal such rules and orders in accordance with the provisions of section 24-4-103, C.R.S., as are necessary and proper for carrying out the provisions of this article.

(3) (a) The state registrar shall direct and supervise the operation of the vital statistics system, prepare and publish annual reports of vital statistics, and administer and enforce the provisions of this article and all rules issued under this article.

(b) In conjunction with the requirements of paragraph (a) of this subsection (3), the state registrar shall collect the name of the provider of prenatal care, if any, and the name of the provider of initial delivery services and shall require that such information be reported on all birth certificates. In addition, whenever an investigation or inquest is conducted pursuant to section 30-10-606, C.R.S., concerning the death of a child under one year of age, the coroner shall forward the information described in this paragraph (b) to the state registrar for inclusion on the death certificate of the subject of the inquest or investigation.

(4) Federal, state, local, and other public or private agencies may, upon request, be furnished copies of records of data for statistical purposes upon such terms and conditions as may be prescribed by regulation.

(5) The state registrar shall designate organized county, district, or municipal public health agencies established pursuant to part 5 of article 1 of this title and may establish or designate additional offices throughout Colorado to aid in the efficient administration of the system of vital statistics.

(6) The state registrar may:

(a) Require departments or offices so designated or established to comply with performance and accounting standards as set forth in rules promulgated by the state board of health;

(b) Delegate such functions and duties to the staff and clerical help and to any offices established or designated by the state registrar pursuant to this section as deemed necessary or expedient;

(c) Conduct training programs to promote the uniformity of the administration of this article throughout Colorado.

ANNOTATION

Annotator's note. Since provisions similar to those in repealed § 25-2-109 were included in this section when it was amended in 1984, the applicable annotations under the repealed section have been included in the annotations to this section.

Purpose of this section is to place the state system of registration of births and deaths in charge of the state board of health with power to appoint local registrars. *McNichols v. People ex rel. Hershey*, 92 Colo. 469, 22 P.2d 131 (1933).

Section supersedes municipal ordinances. And so far as local registrars of vital statistics are concerned, municipal ordinances are superseded by this section. *McNichols v. People ex rel. Hershey*, 92 Colo. 469, 22 P.2d 131 (1933).

Birth certificate certified by the local registrar is as dependable as one certified by the state registrar, since it is the former who furnishes the information to the latter. *Trujillo v. People*, 122 Colo. 436, 222 P.2d 775 (1950).

Effect of failure to appoint local registrar. Under former provision, failure of the state board of health to appoint a local registrar of vital statistics for Denver for a number of years did not deprive it of its statutory power to appoint, nor relieve it of the necessity of performing a plain statutory duty. *McNichols v. People ex rel. Hershey*, 92 Colo. 469, 22 P.2d 131 (1933).

25-2-104. Registration of vital statistics. Promptly upon receipt of each vital statistics report or certificate, the state registrar shall examine it to determine that it has been properly completed. If the report has been properly completed, the state registrar shall register the statistical event described therein and shall note the date the report has been accepted as having been properly completed and shall place the same, or a reproduction thereof, made in accordance with section 25-2-117 (3), in the permanent files of the office. If not properly completed, the state registrar shall take such action with respect thereto as may be required by applicable regulations.

Source: L. 67: R&RE, p. 1057, § 1. C.R.S. 1963: § 66-8-4. L. 84: Entire section amended, p. 743, § 5, effective July 1.

25-2-105. Vital statistics, reports, and certificates - forms and information to be included. The state registrar shall prescribe, furnish, and distribute such forms as are required by this article and shall furnish and distribute such rules and regulations as are promulgated pursuant to section 25-2-103. The state registrar may also prescribe such other means for transmission of data as will accomplish the purpose of complete and accurate reporting and registration.

ANNOTATION

Law reviews. For article, "Transsexuals — Their Legal Sex", see 40 U. Colo. L. Rev. 282 (1968).

25-2-106. Reports of marriage. Each county clerk and recorder shall prepare a report containing such information and using such form as may be prescribed and furnished by the state registrar with respect to every duly executed marriage certificate that is returned in accordance with section 14-2-109, C.R.S. On or before the tenth day of each month, or more frequently if so requested by the state registrar, such clerk and recorder shall forward to the state registrar all such marriage reports for all marriage certificates returned in the preceding period. Certified copies of marriage certificates may be issued by any clerk and recorder.

Source: L. 67: R&RE, p. 1057, § 1. C.R.S. 1963: § 66-8-6.

25-2-107. Reports of adoption, dissolution of marriage, parentage, and other court proceedings affecting vital statistics - tax on court action affecting vital statistics.

(1) The clerk of each court or, for parentage proceedings, the clerk of the court or a delegate child support enforcement unit shall prepare a report containing such information and using such form as may be prescribed and furnished by the state registrar with respect to every decree entered by the court with respect to parentage, legitimacy, adoption, change of name, dissolution of marriage, legal separation, or declaration of invalidity of marriage and every decree amending or nullifying such a decree and also with respect to every decree entered pursuant to section 25-2-114. On or before the tenth day of each month, or more frequently if so requested by the state registrar, such clerk shall forward to the state registrar the reports for all such decrees entered during the preceding period.

(2) In order to help defray the maintenance of vital statistics records, there shall be levied, in addition to the tax levied under section 2-5-119, C.R.S., a tax of three dollars upon each action with respect to parentage, legitimacy, adoption, change of name, dissolution of marriage, legal separation, or declaration of invalidity of marriage that is filed in the office of each clerk of a court of record in this state on or after July 1, 1985. The tax shall be paid at the time of the filing of such action, and the clerk shall keep such tax in a separate fund and shall transmit such tax monthly to the state treasurer, who shall credit the same to the vital statistics records cash fund pursuant to section 25-2-121. A delegate child support enforcement unit acting pursuant to article 13 of title 26, C.R.S., shall be exempt from paying the tax authorized in this subsection (2).

25-2-108. Reports and certificates as to births and deaths. (Repealed)

Source: L. 67: R&RE, p. 1058, § 1. C.R.S. 1963: § 66-8-8. L. 84: Entire section repealed, p. 751, § 16, effective July 1.

25-2-109. Local registration districts for processing of birth and death certificates. (Repealed)

Source: L. 67: R&RE, p. 1058, § 1. C.R.S. 1963: § 66-8-9. L. 83: (1) amended, p. 1039, § 18, effective May 20. L. 84: Entire section repealed, p. 751, § 16, effective July 1.

25-2-110. Certificates of death - repeal. (1) (a) A certificate of death for each death, including a stillborn death, that occurs in Colorado must be filed with the state registrar or as otherwise directed by the state registrar, within five days after the death occurs and prior to final disposition. The state registrar shall register the certificate if it has been completed in accordance with this section. Every certificate of death must identify the decedent's social security number, if available. If the place of death is unknown but the dead body is found in Colorado, the certificate of death must be completed and filed in accordance with this section. The place where the body is found must be shown as the place of death. If the date of death is unknown, the date must be determined by approximation.

(b) (I) The department of public health and environment shall create and the state registrar shall use an electronic death registration system for the purpose of collecting death information from funeral directors, coroners, physicians, local registrars, health facilities, and other authorized individuals, as determined by the department. Death information submitted electronically by a funeral director, coroner, physician, local registrar, health facility, or authorized individual, as determined by the department, to the electronic death

registration system for purposes of fulfilling the requirements of this section satisfies the signature and filing requirements of this section and section 30-10-606, C.R.S.

(II) No later than two years after August 8, 2012, the department shall report to the health and human services committee of the senate and the health and environment committee of the house of representatives, or their successor committees, on the development and implementation of the electronic death registration system. The department shall include in the report information regarding whether the department has modified staffing levels and fees since the implementation of the system. This subparagraph (II) is repealed, effective September 1, 2014.

(2) When a death occurs in a moving conveyance in the United States and the body is first removed from the conveyance in Colorado, the death shall be registered in Colorado, and the place where it is first removed shall be considered the place of death. When a death occurs on a moving conveyance while in international air space or in a foreign country or its air space and the body is first removed from the conveyance in Colorado, the death shall be registered in Colorado, but the certificate shall show the actual place of death insofar as can be determined.

(3) (a) The funeral director or person acting as such who first assumes custody of a dead body, stillborn fetus, or dead fetus shall be responsible for the filing of the death certificate required by subsection (1) of this section. He or she shall obtain the personal data required by the certificate from the next of kin or the best qualified person or source available. He or she shall obtain the medical certification necessary to complete the portion of the certificate pertaining to the cause of death from the best qualified person or source available, pursuant to subsection (4) of this section.

(b) In the case of a stillborn fetus, notwithstanding the provisions of paragraph (a) of this subsection (3), the physician, nurse, or other medical personnel attending to the stillborn death may assume responsibility for filing the death certificate required by paragraph (a) of this subsection (3). The person filing the death certificate in the case of a stillborn fetus shall obtain the personal data required by the certificate from a parent and shall include a name on the death certificate if a parent desires to identify a name.

(c) If a death certificate is not filed in the case of a stillborn death as required by paragraph (a) of this subsection (3), a parent may inform the state registrar of the information necessary to complete the death certificate. The state registrar shall confirm such information and complete the death certificate accordingly.

(4) Except when inquiry is required by section 30-10-606, C.R.S., the physician in charge of the patient's care for the illness or condition that resulted in death shall complete, sign, and return to the funeral director or person acting as such all medical certification within forty-eight hours after a death occurs. In the absence of said physician or with his or her approval, the certificate may be completed and signed by his or her associate physician, by the chief medical officer of the institution in which the death occurred, or by the physician who performed an autopsy upon the decedent, if such individual has access to the medical history of the case, if he or she views the decedent at or after the time of death, and if the death is due to natural causes. If an autopsy is performed, the certification shall indicate whether the decedent was pregnant at the time of death, and said information shall be reported on the death certificate as required by subsection (9) of this section.

(5) When inquiry is required by section 30-10-606, C.R.S., the coroner shall determine the cause of death and shall complete and sign the medical certification within forty-eight hours after taking charge of the case. If an autopsy is performed, the certification shall indicate whether the decedent was pregnant at the time of death, and said information shall be reported on the death certificate as required by subsection (9) of this section.

(6) If the cause of death cannot be determined within forty-eight hours after a death, the medical certification shall be completed as provided by rule. If an autopsy is performed, the certification shall indicate whether the decedent was pregnant at the time of death, and said information shall be reported on the death certificate as required by subsection (9) of this section. The attending physician or coroner shall give the funeral director or person acting as such notice of the reason for the delay, and final disposition of the body shall not be made until authorized by the office designated or established pursuant to section 25-2-103 in the county where the death occurred or, if such an office does not exist in the county where the

death occurred, final disposition of the body shall not be made until authorized by the coroner or the coroner's designee.

(7) When a death is presumed to have occurred within Colorado but the body cannot be located, a death certificate may be prepared by the state registrar upon receipt of an order of a court of competent jurisdiction which shall include the finding of facts required to complete the death certificate. Such a death certificate shall be marked "presumptive" and shall show on its face the date of registration and shall identify the court and the date of decree.

(8) Every funeral establishment shall maintain registration with the office of the state registrar and shall act in accordance with the provisions of this article.

(9) (a) If an autopsy is performed, a certificate of death shall identify whether the decedent was pregnant at the time of death.

(b) The requirement in this subsection (9) and subsections (4), (5), and (6) of this section to indicate whether the decedent was pregnant at the time of death shall be complied with when the person required to make the designation has access to the certification form that permits compliance.

ANNOTATION

Law reviews. For article, "Scientific Findings on Death and Coroner's Inquest", see 20 Rocky Mt. L. Rev. 197 (1948).

The term "physician" relates solely to doctors of medicine and osteopathy. Colo. Chiropractic Ass'n v. State, 171 Colo. 395, 467 P.2d 795 (1970).

Death under care of chiropractor is "without medical assistance". Where one dies while under the care of a chiropractor, it is a "death

occurring without medical attendance". Colo. Chiropractic Ass'n v. State, 171 Colo. 395, 467 P.2d 795 (1970).

Thus, a chiropractor may not sign a death certificate. Colo. Chiropractic Ass'n v. State, 171 Colo. 395, 467 P.2d 795 (1970).

Article does not encompass autopsy reports. Denver Publishing Co. v. Dreyfus, 184 Colo. 288, 520 P.2d 104 (1974).

25-2-110.5. Fetal deaths - treatment of remains. (1) In every instance of fetal death, the pregnant woman shall have the option of treating the remains of a fetal death pursuant to article 54 of title 12, C.R.S.

(2) In every instance of fetal death, the health care provider, upon request of the pregnant woman, shall release to the woman or the woman's designee the remains of a fetal death for final disposition in accordance with applicable law. Such request shall be made by the pregnant woman or her authorized representative prior to or immediately following the expulsion or extraction of the fetal remains. Unless a timely request was made, nothing in this section shall require the health care provider to maintain or preserve the fetal remains.

(3) (a) Nothing in this section shall prohibit a health care provider from conducting or acquiring medical tests on the remains of a fetal death prior to release.

(b) Upon a request pursuant to subsection (2) of this section, whenever a medical test is conducted pursuant to paragraph (a) of this subsection (3), the health care provider conducting the test shall, where medically permissible and otherwise permitted by law,

release to the pregnant woman or the woman's designee the remains of a fetal death for final disposition.

(4) Nothing in this section shall prohibit the health care provider from requiring a release of liability for the release of the remains of a fetal death prior to such release.

(5) A health care provider shall be immune from all civil or criminal liability, suit, or sanction with regard to any action taken in good faith compliance with the provisions of this section.

Source: L. 2001: Entire section added, p. 1032, § 2, effective June 5.

25-2-111. Dead bodies - disposition - removal from state - records. (1) Any person requested to act as funeral director for a dead body or otherwise whoever first assumes custody of a dead body shall, prior to final disposition of the body, obtain authorization for final disposition of the body. The office designated or established pursuant to section 25-2-103 in the county where the death occurred or, if such an office does not exist in the county where the death occurred, the coroner or the coroner's designee shall authorize final disposition of the body on a form prescribed and furnished by the state registrar. No body shall be buried, cremated, deposited in a vault or tomb, or otherwise disposed of, nor shall any body be removed from this state, until such authorization has been obtained, completed, and approved. The coroner or the coroner's designee shall include in the authorization notice of the requirements of subsection (7) of this section.

(2) A disposition permit issued under the law of another state which accompanies a dead body or fetus brought into this state shall be authority for final disposition of the body or fetus in this state.

(3) Repealed.

(4) Any person who removes from the place of death or transports or finally disposes of a dead body or fetus, in addition to filing any certificate or other form required by this article, shall keep a record which shall identify the body and such information pertaining to his receipt, removal, and delivery of such body as may be prescribed in regulations. Such record shall be retained for a period of not less than seven years and shall be made available for inspection by the state registrar or his representative upon demand.

(5) No sexton or other person in charge of any place in which interment or other disposition of dead bodies is made shall inter or allow interment or other disposition of a dead body or fetus unless it is accompanied by authorization for final disposition.

(6) Authorization for disinterment and reinterment shall be required prior to disinterment of a dead body or fetus. Such authorization shall be issued by the state registrar to a funeral director or person acting as such upon proper application.

(7) (a) The owner of land that is used to inter a dead human body shall record the burial within thirty days after the burial with the county clerk and recorder of the county in which the land is situated. The owner shall record the following:

(I) The dead person's name as it appears on the death certificate;

(II) The dead person's date of birth;

(III) The dead person's age at the time of death;

(IV) The cause of death;

(V) The name of the owner or owners of the property where the dead human body is interred;

(VI) The legal description of the property where the dead human body is interred if the person is interred on private property;

(VII) The reception number for the death certificate if recorded by the county clerk; and

(VIII) The latitude and longitude coordinates, such as those given by a global positioning system, that are verified by two witnesses or the county coroner, sheriff, or a designee of the county coroner or sheriff.

(b) This subsection (7) does not apply to dead human bodies interred in cemeteries, vaults, or tombs operated or maintained by public entities or businesses that inter people in the ordinary course of business and are available to the general public.

Source: **L. 67:** R&RE, p. 1059, § 1. **C.R.S. 1963:** § 66-8-11. **L. 84:** (1) amended, (3) repealed, and (5) and (6) added, p. 745, 751, §§ 9, 16, effective July 1. **L. 85:** (1) amended, p. 880, § 2, effective May 24. **L. 2010:** (1) amended and (7) added, (HB 10-1275), ch. 193, p. 827, § 1, effective August 11.

25-2-111.5. Transfer of fetal tissue from induced termination of pregnancy - legislative declaration. (1) The general assembly hereby finds, determines, and declares that the United States congress enacted 42 U.S.C. sec. 289g-2, prohibiting the acquisition, receipt, or other transfer of human fetal tissue for valuable consideration if the transfer affects interstate commerce. The general assembly determines and declares that the acquisition, receipt, or other transfer of human fetal tissue for valuable consideration affects intrastate commerce and is not in the public interest of the residents of Colorado. Therefore, the general assembly finds, determines, and declares that the exchange for valuable consideration of human fetal tissue should be prohibited.

(2) (a) No physician or institution that performs procedures for the induced termination of pregnancy shall transfer such tissue for valuable consideration to any organization or person that conducts research using fetal tissue or that transplants fetal tissue for therapeutic purposes. For the purposes of this section, “valuable consideration” includes, but is not limited to:

(I) Any lease-sharing agreement in excess of the current market value for commercial rental property for the area in which the physician’s or institution’s place of business is located;

(II) Any lease-sharing agreement that is based on the term or number of induced terminations of pregnancy performed by such physician or institution;

(III) Any moneys, gifts in lieu of money, barter arrangements, or exchange of services that do not constitute reasonable payment associated with the transportation, implantation, processing, preservation, quality control, or storage of human fetal tissue as defined in 42 U.S.C. sec. 289g-2; or

(IV) Any agreement to purchase fetal tissue for a profit.

(b) Nothing in this subsection (2) shall prevent the disposition of fetal tissue from an induced termination of pregnancy pursuant to part 4 of article 15 of this title.

(3) Any physician or institution that violates subsection (2) of this section shall be fined by the state registrar not more than ten thousand dollars, depending upon the severity of the violation.

(4) The department of public health and environment may promulgate rules related to enforcement activities necessary to implement subsections (2) and (3) of this section.

Source: **L. 2000:** Entire section added, p. 1073, § 2, effective August 2.

25-2-112. Certificates of birth - filing - establishment of paternity. (1) A certificate of birth for each live birth which occurs in this state shall be filed with the state registrar or as otherwise directed by the state registrar within ten days after such birth and shall be registered if it has been completed and filed in accordance with this section. When a birth occurs on a moving conveyance within the United States and the child is first removed from the conveyance in Colorado, the birth shall be registered in Colorado, and the place where the child is first removed shall be considered the place of birth. When a birth occurs on a moving conveyance while in international air space or in a foreign country or its air space and the child is first removed from the conveyance in Colorado, the birth shall be registered in this state but the certificate shall show the actual place of birth insofar as can be determined. Either of the parents of the child shall verify the accuracy of the personal data entered thereon in time to permit its filing within such ten-day period.

(2) When a birth occurs in an institution, or upon order of any court with proper jurisdiction, the person in charge of the institution or such person’s designated representative shall obtain the personal data, prepare the certificate, certify the authenticity of the birth registration either by signature or by an approved electronic process, and file it with the state registrar or as otherwise directed by the state registrar within the required ten days;

the physician in attendance shall provide the medical information required by the certificate within five days after the birth. When the birth occurs outside an institution, the certificate shall be prepared and filed by the physician in attendance at or immediately after birth, or in the absence of such a physician by any person witnessing the birth, or in the absence of any such witness by the father or mother, or in the absence of the father and the inability of the mother by the person in charge of the premises where the birth occurred. The person who completes and files the certificate shall also be responsible for obtaining the social security account numbers of the parents and delivering those numbers to the state registrar along with the certificate.

(2.5) Repealed.

(2.7) For the purposes of a birth registration, the mother is deemed to be the woman who has given birth to the child, unless otherwise provided by law or determined by a court of competent jurisdiction prior to the filing of the birth certificate. The information about the father shall be entered as provided in subsection (3) of this section.

(3) (a) If the mother was married either at the time of conception or birth, the name of the husband shall be entered on the certificate as the father of the child unless:

(I) Paternity has been determined otherwise by a court of competent jurisdiction, in which case the name of the father as so determined shall be entered; or

(II) The mother and the mother's husband execute joint or separate forms prescribed and furnished by the state registrar reflecting the mother's and the husband's signatures individually witnessed and attesting that the husband is not the father of the child, in which case, information about the father shall be omitted from the certificate; or

(III) The mother executes a form prescribed and furnished by the state registrar attesting that the husband is not the father and that the putative father is the father, the putative father executes a form prescribed and furnished by the state registrar attesting that he is the father, and the husband executes a form prescribed and furnished by the state registrar attesting that he is not the father. Such forms may be joint or individual or a combination thereof, and each signature shall be individually witnessed. In such event, the putative father shall be shown as the father on the certificate.

(IV) A court of competent jurisdiction has determined the husband is not the presumed father and the putative father executes a form prescribed and furnished by the state registrar which is individually witnessed attesting that he is the father and the mother executes a form prescribed and furnished by the state registrar which is individually witnessed that the putative father is the father. In such event the putative father shall be shown as the father on the birth certificate.

(b) If the mother was not married at the time of conception or birth, the name of the father shall be entered if, but only if, the mother and the person to be named as the father so request in writing on a form prescribed and furnished by the state registrar or if paternity has been determined by a court of competent jurisdiction, in which case the name of the father as so determined shall be entered.

(c) For purposes of acknowledging paternity, the form prescribed and furnished by the state registrar shall contain the minimum requirements specified by the secretary of the federal department of health and human services.

(3.5) Upon the birth of a child to an unmarried woman in an institution, the person in charge of the institution or that person's designated representative shall provide an opportunity for the child's mother and natural father to complete a written acknowledgment of paternity on the form prescribed and furnished by the state registrar.

(4) Whoever assumes the custody of a living infant of unknown parentage shall report on a form and in the manner prescribed by the state registrar within ten days to the state registrar or as otherwise directed by the state registrar such information as the state registrar shall require, which report shall constitute the certificate of birth for the infant. The place where the child was found shall be entered as the place of birth, and the date of birth shall be determined by approximation. If the child is identified and a certificate of birth is found or obtained, any report registered under this section shall be sealed and filed and, except as provided in section 25-2-113.5, may be opened only by order of a court of competent jurisdiction or as provided by regulation.

ANNOTATION

Effect of failure to file within time specified in this section is to subject the doctor to a fine or imprisonment under § 25-2-118. *Manship v. People*, 99 Colo. 1, 58 P.2d 1215 (1936) (concurring opinion).

But it does not affect the admissibility of a copy of the certificate certified by the registrar.

Manship v. People, 99 Colo. 1, 58 P.2d 1215 (1936) (concurring opinion).

Applied in *People in Interest of an Unborn Child v. Estergard*, 169 Colo. 445, 457 P.2d 698 (1969).

25-2-112.3. Certificates of stillbirth - filing - delayed registration - rules. (1) The state registrar shall create a certificate of stillbirth and shall furnish and distribute such form as necessary. The state board of health shall promulgate rules necessary to implement this section.

(2) (a) A certificate of stillbirth shall be offered to a mother after the occurrence of any stillbirth. If the mother decides to have a certificate of stillbirth filed, it shall be filed with the state registrar within three days after the stillbirth occurs and shall be registered by the state registrar if it has been completed and filed in accordance with the provisions of this section and section 25-2-112.

(b) If the mother decides not to place a name on the certificate of stillbirth, the person preparing the certificate of stillbirth shall leave this option on the certificate blank.

(3) Notwithstanding the provisions set forth in subsection (2) of this section, if a certificate of stillbirth is not registered after one year from the date the stillbirth occurs, a certificate marked "Delayed" may be filed and registered in accordance with the provisions of section 25-2-114.

Source: L. 2004: Entire section added, p. 473, § 2, effective July 1.

25-2-112.5. Social security account numbers - acknowledgments of paternity - to be furnished. (1) Regardless of the marital status of the mother, each parent shall furnish the social security account number or numbers, if the parent has more than one such number, issued to that parent, and the other parent's social security account number, if known, at the time of the child's birth to the person authorized under section 25-2-112 to obtain them for the state registrar, unless the state, in accordance with federal regulations, finds good cause for not requiring the parent to furnish such numbers to the state.

(2) The department of public health and environment shall make the birth certificate, the mother's and father's social security account numbers, and any written acknowledgments of paternity, including any notarized affidavits acknowledging paternity and any witnessed forms prescribed and furnished by the state registrar, furnished under this section

and section 25-2-112 available to the state agency responsible for enforcing child support under Title IV-D of the federal "Social Security Act" upon request of that agency. The social security account numbers shall not be recorded on the birth certificate and may not be used for any purpose other than for the establishment and enforcement of child support orders.

Source: L. 93: Entire section added, p. 954, § 2, effective September 1. L. 94: (2) amended, p. 2045, § 3, effective June 3; (2) amended, p. 2748, § 399, effective July 1.

Editor's note: Amendments to subsection (2) by Senate Bill 94-141 and House Bill 94-1029 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-2-113. New certificates of birth following adoption - legitimation - parentage determination. (1) (a) A new certificate of birth shall be prepared by the state registrar as to any person born in this state whenever he receives with respect to such a person any of the following: A report concerning adoption, legitimacy, or parentage as required by section 25-2-107; or a report or certified copy of a decree concerning the adoption, legitimacy, or parentage of such a person from a court of competent jurisdiction outside this state; or a certified copy of the marriage certificate of the parents, together with a statement of the husband, executed after such marriage, in which the husband acknowledges paternity; but with respect to adoptions no new certificate of birth shall be prepared if the state registrar is requested not to do so by the court that has decreed the adoption, by an adoptive parent, or by the adopted person. Each new certificate shall show all information shown on the original certificate of birth, except information for which substitute information is included as a result of the report or decree which prompts the preparation of the new certificate.

(b) A new certificate of birth shall be prepared by the state registrar as to any adopted person born in a foreign country and a resident of this state whenever the state registrar receives with respect to such person a certified copy of the final decree of adoption as required by section 19-5-212, C.R.S., and section 25-2-107 and findings of fact as required by this section. In proceedings for the adoption of a person who was born in a foreign country, the juvenile court having jurisdiction of adoptions, upon evidence from reliable sources, shall make findings of fact as to the date and place of birth and parentage of such person. The state registrar shall prepare a new birth certificate in the new name of the adopted person and shall seal the certified copy of the findings of the court and the certified copy of the final decree of adoption which shall be kept confidential except as otherwise provided in part 3 of article 5 of title 19, C.R.S. The birth certificate shall be labeled as a certificate of foreign birth and shall show specifically the true or probable country of birth and that the certificate is not evidence of United States citizenship. If the child was born in a foreign country but was a citizen of the United States at the time of birth, the state registrar shall not prepare a certificate of foreign birth but instead shall notify the adoptive parents of the procedures for obtaining a revised birth certificate for their child through the United States department of state. Any copy of a certificate of foreign birth issued shall indicate this policy, show the actual place of birth, and indicate the fact that the certificate is not proof of United States citizenship for the adopted child. A new certificate of birth in the new name of the adopted person prepared by the state registrar pursuant to this section is hereby legalized and made valid.

(c) Repealed.

(2) (a) The state registrar shall register each new certificate of birth prepared pursuant to subsection (1) of this section by marking thereon the words "new certificate", by marking thereon the date such certificate is completed, which date thereafter shall be the registration date, and by substituting such new certificate for the original certificate of birth for such person.

(b) A new certificate of birth issued pursuant to an adoption, and any copy of such certificate issued, shall be marked by the state registrar with the words "issued pursuant to adoption" if so requested by an adoptive parent or by an adopted person.

(c) The state registrar shall develop rules to ensure that the adoptive parent's decision to include such information, in paragraph (b) of this subsection (2), is made knowingly, including having a separate signature line verifying such choice.

(3) Thereafter, the original certificate and evidence concerning adoption, legitimacy, or parentage shall be sealed and not be subject to inspection except as provided in section 25-2-113.5 or in part 3 of article 5 of title 19, C.R.S., by regulation, or upon order of a court of competent jurisdiction after the court has satisfied itself that the interests of the child or the child's descendants or the parents will best be served by opening said seal. The information obtained from opening said seal may be withheld from public view or from being presented as evidence at the discretion of the judge.

(4) In the event the decree which formed the basis for the new certificate of birth is annulled and if the state registrar receives either a certified copy of such decree of annulment or a report with respect to such decree as required by section 25-2-107, the state registrar shall return the original certificate to its place in the files. Thereafter the new certificate and evidence concerning the annulment shall not be subject to inspection except as provided in section 25-2-113.5, upon order of a court of competent jurisdiction, or as provided by regulation.

(5) If no certificate of birth is on file for the person for whom a new birth certificate is to be established under this section and the date and place of birth have not been determined in the adoption or paternity proceedings, a delayed certificate of birth shall be filed with the state registrar before a new certificate of birth is established. The new birth certificate shall be prepared on the delayed birth certificate form.

(6) When a new certificate of birth is established by the state registrar, all copies of the original certificate of birth in the custody of any other custodian of vital records in this state shall be sealed from inspection, except as otherwise provided in part 3 of article 5 of title 19, C.R.S., or forwarded to the state registrar, as the state registrar shall direct.

ANNOTATION

Law reviews. For article, "The Adoption of Children in Colorado", see 37 Dicta 100 (1960).

25-2-113.5. Limited access to information upon consent of all parties - voluntary adoption registry. (1) Adoption is based upon the legal termination of parental rights and responsibilities of birth parents and the creation of the legal relationship of parent and child between an adoptee and his or her adoptive parents. Under current laws and the social premises underlying adoption, the general assembly has been charged with the duty to preserve the right to privacy and confidentiality of birth parents whose children were adopted, the adoptees, and the adoptive parents. The general assembly recognizes, however, that some adults who were adopted as children, their siblings who may or may not have been adopted, and some birth parents whose children were surrendered for adoption have a strong desire to obtain information about each other. The purpose of this section is to set up a voluntary adoption registry where qualified persons may register their willingness to the release of information to each other and to provide for the disclosure of such information.

(2) As used in this section, unless the context otherwise requires:

(a) "Adoptive parent" means an adult who has become a parent of a child through the legal process of adoption.

(b) "Consent" means a verified written statement which has been notarized.

(c) "Identifying information" includes the following information:

(I) The name of the qualified adoptee before placement in adoption;

(II) The name and address of each qualified birth parent as it appears in birth records;

(III) The current name, address, and telephone number of the qualified adult adoptee; and

(IV) The current name, address, and telephone number of each qualified birth parent.

(d) "Qualified adult adoptee" means an adopted person eighteen years of age or older who was born in Colorado and who meets the requirements of this section.

(e) "Qualified birth parent" means a genetic, biological, or natural parent whose rights were voluntarily or involuntarily terminated by a court or otherwise and who meets the requirements of this section. "Birth parent" includes a man who is the parent of a child as established in accordance with the provisions of the "Uniform Parentage Act", article 4 of title 19, C.R.S., prior to the termination of parental rights and who meets the requirements of this section.

(f) "Registrar" means the state registrar of vital statistics or his designated representative.

(g) "Relative" includes an individual's spouse, birth parent, adoptive parent, sibling, or child who is twenty-one years of age or older.

(g.5) "Sibling" shall have the same meaning as "biological sibling", section 19-1-103 (14), C.R.S.

(h) "Voluntary adoption registry" or "registry" means a place where eligible persons, as described in this section, may indicate their willingness to have their identities and whereabouts disclosed to each other under conditions specified in this section.

(3) The registrar shall maintain a confidential list of qualified adult adoptees who have presented a consent regarding the release of identifying information about themselves. Any consent by a qualified adult adoptee shall be accompanied by the adoptee's desired method of notification in the event that a match occurs; however, the state shall not incur costs of notification in excess of that part of the fee charged to the applicant for the purpose of notification. Any consent shall also indicate whether the qualified adult adoptee desires release of his identifying information if a match occurs after his death. The qualified adult adoptee may revise his consent with respect to change of address or method of notification. Any name and accompanying information shall be removed from the list upon the verified written request of the listed adoptee. The registrar shall maintain a closed record of such list and accompanying information, except as provided in accordance with this section.

(4) The registrar shall maintain a confidential list of qualified birth parents who have presented a consent regarding the release of identifying information about themselves. Any consent by a qualified birth parent shall be accompanied by the birth parent's desired method of notification in the event that a match occurs; however, the state shall not incur costs of notification in excess of that part of the fee charged to the applicant for the purpose of notification. Any consent shall also indicate whether the qualified birth parent desires release of his identifying information if a match occurs after his death. The qualified birth parent may revise his consent with respect to change of address or method of notification. Any name and accompanying information shall be removed from the list upon the verified written request of the listed birth parent. The registrar shall maintain a closed record of such list and accompanying information, except as provided in accordance with this section. Any birth parent who in terminating his parental rights used an alias, and this alias is listed in the original sealed birth certificate, may also file a consent with the registry. A birth parent shall not be matched with the qualified adult adoptee without the consent of the other birth parent unless:

(a) There is only one birth parent listed on the birth certificate; or

(b) The other birth parent is deceased; or

(c) The other birth parent is unable to be located by the department of public health and environment after an exhaustive search, the cost of said search to be fully funded by the

birth parent seeking a match, said search to be in accordance with the rules and regulations promulgated by the department.

(5) The registrar shall maintain a confidential list of relatives of deceased qualified adult adoptees and relatives of deceased qualified birth parents who have presented a consent regarding the release of identifying information about themselves. Any consent by such relative shall be accompanied by the person's desired method of notification in the event that a match occurs; however, the state shall not incur costs of notification in excess of that part of the fee charged to the applicant for the purpose of notification. Such relative may revise his consent with respect to change of address or method of notification. Any name and accompanying information shall be removed from the list upon the verified written request of the listed relative. The registrar shall maintain a closed record of such list and accompanying information, except as provided in accordance with this section.

(5.5) The registrar shall maintain a confidential list of former foster children who may or may not have been adopted, who are eighteen years of age or older, who have presented a consent regarding the release of identifying information about themselves and who are searching for a sibling who is also eighteen years of age or older, who may or may not have been adopted, and who may or may not have been in the foster care system. Any consent by such sibling shall be accompanied by the sibling's desired method of notification in the event that a match occurs. However, the state shall not incur costs of notification in excess of that part of the fee charged to the applicant for the purpose of notification. A sibling may revise his or her consent with respect to change of address or method of notification. Any name and accompanying information shall be removed from the list upon the verified written request of the listed sibling. The registrar shall maintain a closed record of the list and accompanying information except as provided for pursuant to this section.

(6) The registrar shall regularly review the lists provided for in subsections (3), (4), (5), and (5.5) of this section and any other nonsealed administrative files or records within his or her office to determine if there is a match. If it appears that a match has occurred, then and only then is the registrar authorized to proceed to confirm the match through recourse to sealed documents on file in the office of the registrar. When a match is confirmed, the registrar shall notify each party, by his or her designated method only, prior to an exchange of identifying information. Nothing in this section shall be construed to allow any state or local governmental department, agency, or institution, or any employee thereof, to solicit any consent for the release of identifying information.

(7) Nothing in this section shall be construed to allow the registrar to issue a copy of the original birth certificate to any registrant.

(8) Any person who knowingly uses, publishes, or divulges information obtained through operation of the registry to any person in a manner not authorized by this section commits a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of five hundred dollars.

(9) Notwithstanding any other provision of law, the information acquired by the registry shall not be disclosed under any public records law, sunshine or freedom of information legislation, rules, or practice.

(10) (a) The executive director of the department of public health and environment shall establish fees to be charged each person requesting that his name be placed on the list provided for in subsection (3), (4), or (5) of this section and for the services provided by the registrar in establishing and implementing the registry pursuant to this section. It is the intent of the general assembly that the fees shall cover all direct and indirect costs incurred pursuant to this section.

(b) The fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the general fund. The general assembly shall annually appropriate from the general fund to the department of public health and environment an amount sufficient to meet expenses incurred pursuant to this section.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (4)(c), (10)(a), and (10)(b), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-2-114. Delayed registration of births and deaths. (1) When a birth, founding birth, death, or fetal death has occurred in this state but no certificate as to such event has been filed or registered in accordance with the provisions of section 25-2-110 or 25-2-112, a certificate as to such event may be accepted for filing or registration, or both, in accordance with applicable regulations concerning certificates that have not been timely or properly filed or registered. The state registrar shall endorse on the certificate a summary statement of the evidence submitted to substantiate the facts asserted in such certificate. If a certificate is not registered until more than a year after the event, the state registrar shall mark the word "Delayed" on the face thereof.

(2) When the state registrar finds the certificate or such supplementary evidence as may be required by regulations to be deficient or invalid, the certificate shall not be registered, and the person who requested the registration shall be advised in writing both as to the basis for the alleged deficiency or invalidity and also as to such person's right of appeal. Judicial review of the action of the state registrar may be had in accordance with the provisions of section 24-4-106, C.R.S., but an action for judicial review shall be commenced within sixty days after the date the state registrar gives his notice in writing of his decision. If no action for judicial review is commenced within said period, the state registrar shall return the certificate and all documents submitted in support thereof to the person submitting the same if registration of the certificate has been refused.

Source: L. 67: R&RE, p. 1061, § 1. C.R.S. 1963: § 66-8-14.

25-2-115. Alteration of reports and certificates - amended reports and certificates. (1) No vital statistics report or certificate shall ever be altered in any way except in accordance with this article and applicable regulations. The date of alteration and a summary description of the evidence submitted in support of the alteration shall be endorsed on or made a part of each vital statistics certificate that is altered. Every vital statistics report or certificate that is altered in any way shall be marked "Amended" except the birth report or certificate of any illegitimate child altered by the addition of a father's name pursuant to section 25-2-112 (3), in which case, upon request of the parents, the surname of the child shall be changed on the report and certificate to that of the father, and also except additions and minor corrections made within one year after the date of the statistical event as may be specified by applicable regulations. A child's surname may be changed upon affidavit of the parent that the change is being made to conform such child's surname to the parent's legal surname.

(2) Upon receipt of a certified copy of a court order changing the name of a person born in this state and upon request of such person, or upon the request of his parent, guardian, or legal representative if he is under a legal disability, the original certificate of birth shall be amended to reflect the new name thereon.

(3) In the event the state registrar alters a birth certificate or death certificate, he shall promptly report the amendment to any other custodians of the vital statistics record and their records shall be amended accordingly.

(4) Upon receipt of a certified copy of an order of a court of competent jurisdiction indicating that the sex of an individual born in this state has been changed by surgical procedure and that such individual's name has been changed, the certificate of birth of such individual shall be amended as prescribed by regulation.

(5) When an applicant does not submit the minimum documentation required in the regulations for amending a vital statistics record or when the state registrar has reasonable cause to question the validity or adequacy of the applicant's sworn statements or documentary evidence, and if the deficiencies are not corrected, the state registrar shall not amend the vital statistics record and shall advise the applicant of the reason for this action and shall further advise the applicant of the right of appeal to a court of competent jurisdiction.

Source: L. 67: R&RE, p. 1061, § 1. C.R.S. 1963: § 66-8-15. L. 77: (1) amended, p. 1274, § 1, effective May 20. L. 84: (3) amended and (4) and (5) added, p. 748, § 12, effective July 1.

25-2-116. Institutions to keep records - persons to furnish information. (1) Every person in charge of an institution shall keep a record of personal particulars and dates concerning each person admitted or confined to such institution. This record shall include such information as required by the standard certificate of birth, death, and fetal death forms issued under the provisions of this article. The record shall be made at the time of admission. The name and address of the person providing the information shall appear on the record.

(2) When a dead human body is released or disposed of by an institution, the person in charge of the institution shall record the name of the deceased, date of death, name and address of the person to whom the body is released, and date of removal from the institution, or, if finally disposed of by the institution, the date, place, and manner of disposition shall be recorded.

(3) Any person having knowledge of the facts shall furnish such information as he may possess regarding any birth, death, fetal death, adoption, marriage, or dissolution of marriage upon demand of the state registrar.

Source: L. 67: R&RE, p. 1062, § 1. C.R.S. 1963: § 66-8-16.

25-2-117. Certified copies furnished - fee. (1) Vital statistics records shall be treated as confidential, but the department of public health and environment shall, upon request, furnish to any applicant having a direct and tangible interest in a vital statistics record a certified copy of any record registered under the provisions of this article. Any copy of the record of a birth or death, when properly certified by the state registrar or as otherwise directed by the state registrar to be a true copy thereof, shall be prima facie evidence in all courts and places of the facts therein stated.

(2) An applicant shall pay fees established pursuant to section 25-2-121 for each of the following services:

(a) The reproduction and certification of birth or death records; except that an applicant shall not pay a fee:

(I) For the provision of a certified copy of such a record to:

(A) Another state agency;

(B) A county department of social services or human services; or

(C) An individual presenting a letter of referral from a county department of social services; or

(II) If the applicant is a delegate child support enforcement unit acting pursuant to article 13 of title 26, C.R.S.;

(b) Any search of the files and records of the state registrar when no certified copy is made, such fee to pertain to each hour or fractional hour of time of the search;

(c) The processing of new certificates, delayed certificates, or corrected certificates;

(d) The verification of marriage or divorce; and

(e) The reproduction of various vital statistics, publications, reports, and data services.

(3) To preserve vital statistics records, the state registrar is authorized to prepare typewritten, photographic, electronic, or other reproductions of certificates or reports. When certified by the state registrar, such reproductions shall be accepted as the original records. The documents from which permanent reproductions have been made and verified may be disposed of as provided by regulation.

ANNOTATION

- I. General Consideration.
- II. Confidentiality.
- III. Certified Copy as Evidence.

I. GENERAL CONSIDERATION.

Law reviews. For article, "Hearsay in Criminal Cases Under the Colorado Rules of Evidence: An Overview", see 50 U. Colo. L. Rev. 277 (1979).

II. CONFIDENTIALITY.

Records exempt from public record act's right to inspect. This section exempts vital statistics records from right to inspect given by public records act and person is entitled to copies of such records only if he can show direct and tangible interest. *Eugene Cervi & Co. v. Russell*, 31 Colo. App. 525, 506 P.2d 748 (1972), *aff'd*, 184 Colo. 282, 519 P.2d 1189 (1974).

Provisions for record search not authority to provide copy. The provisions of this section providing for a search of the records by their custodian do not authorize the custodian to provide a copy of the record or to divulge the contents. Purpose of such search is to determine whether a particular record exists, and information contained in such record can only be released to those having prescribed interest. *Eugene Cervi & Co. v. Russell*, 31 Colo. App. 525, 506 P.2d 748 (1972), *aff'd*, 184 Colo. 282, 519 P.2d 1189 (1974).

Registrar of vital statistics has limited discretion. The registrar of vital statistics is a ministerial officer who, unlike a judge, has but limited discretion in the performance of his duties. *Eugene Cervi & Co. v. Russell*, 184 Colo. 282, 519 P.2d 1189 (1974).

The discretion of the registrar of vital statistics is limited to furnishing the information to an "applicant having a direct and tangible interest", and, where the petitioner does not have the requisite "significant legal relationship", then the registrar does not have discretion to furnish the information. *Eugene Cervi & Co. v. Russell*, 184 Colo. 282, 519 P.2d 1189 (1974).

"Applicant having direct and tangible interest" is one who has significant legal relationship to person who is subject of record. Eugene

Cervi & Co. v. Russell, 31 Colo. App. 525, 506 P.2d 748 (1972), *aff'd*, 184 Colo. 282, 519 P.2d 1189 (1974).

Person seeking copies of vital statistics record for commercial purposes does not have the direct and tangible interest required by this section. *Eugene Cervi & Co. v. Russell*, 31 Colo. App. 525, 506 P.2d 748 (1972), *aff'd*, 184 Colo. 282, 519 P.2d 1189 (1974).

III. CERTIFIED COPY AS EVIDENCE.

Dependability of certification by local registrar. A birth certificate certified by the local registrar is as dependable as one certified by the state registrar, since it is the former who furnishes the information to the latter. *Trujillo v. People*, 122 Colo. 436, 222 P.2d 775 (1950).

Copy is prima facie evidence. A certified copy of a death certificate is admissible and is prima facie evidence of the facts recited therein. *Parfet v. Kansas City Life Ins. Co.*, 128 F.2d 361 (10th Cir.), cert. denied, 317 U.S. 654, 63 S. Ct. 50, 87 L.Ed. 526 (1942); *Occidental Life Ins. Co. v. United States Nat'l Bank*, 98 Colo. 126, 53 P.2d 1180 (1935); *Indus. Comm'n v. Havens*, 136 Colo. 111, 314 P.2d 698 (1957); *Michael v. John Hancock Mut. Life Ins. Co.*, 138 Colo. 450, 334 P.2d 1090 (1959); *Nat'l Farmers Union Life Ins. Co. v. Norwood*, 147 Colo. 283, 363 P.2d 681 (1961); *City & County of Denver v. Smerdel*, 165 Colo. 475, 440 P.2d 158 (1968); *Robinson v. New York Life Ins. Co.*, 30 Colo. App. 83, 490 P.2d 81 (1971); *Lockwood v. Travelers Ins. Co.*, 179 Colo. 103, 498 P.2d 947 (1972).

However, the weight of the certified copy of a death certificate depends upon the information upon which it is based, the source of that information, and the manner in which it is obtained. *Prudential Ins. Co. v. Cline*, 98 Colo. 275, 57 P.2d 1205 (1935); *Nat'l Farmers Union Life Ins. Co. v. Norwood*, 147 Colo. 283, 363 P.2d 681 (1961); *City & County of Denver v. Smerdel*, 165 Colo. 475, 440 P.2d 158 (1968); *Robinson v. New York Life Ins. Co.*, 30 Colo. App. 83, 490 P.2d 81 (1971); *Lockwood v. Travelers Ins. Co.*, 179 Colo. 103, 498 P.2d 947 (1972); *Simonton v. Continental Cas. Co.*, 32 Colo. App. 138, 507 P.2d 1132 (1973).

Limitation where issue is cause of death.

The term "facts" as used in this section does not extend to the coroner's opinion as to whether death from external means resulted from accident, suicide, or homicide, when the critical issue in the case is whether death resulted from one of these causes. *Lockwood v. Travelers Ins. Co.*, 179 Colo. 103, 498 P.2d 947 (1972).

Coroner's conclusive statement should be excised.

Therefore, it is error to introduce a coroner's death certificate statement without excision of the conclusive statement that death resulted by accident rather than by suicide or homicide. *Lockwood v. Travelers Ins. Co.*, 179 Colo. 103, 498 P.2d 947 (1972).

25-2-118. Penalties. (1) Any person who knowingly and willfully makes any false statement in or supplies any false information for or for purposes of deception applies for, alters, mutilates, uses, attempts to use, applies for amendments thereto, or furnishes to another for deceptive use any vital statistics certificate, and any person who knowingly and willfully and for purposes of deception uses or attempts to use or furnishes for use by another any vital statistics certificate knowing that such certificate contains false information or relates to a person other than the person with respect to whom it purports to relate, and any person who manufactures, advertises for sale, sells, or alters any vital statistics certificate knowing or having reason to know that such document establishes or may be used to establish a false status, occupation, membership, license, privilege, or identity for himself or any other person, and any person who uses any such document to commit a crime is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than one year, or by both such fine and imprisonment.

(2) Any person who willfully violates any of the provisions of this article or refuses or neglects to perform any of the duties imposed upon him by this article is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars, or by imprisonment in the county jail for not more than thirty days, or by both such fine and imprisonment.

Source: L. 67: R&RE, p. 1062, § 1. **C.R.S. 1963:** § 66-8-18. **L. 84:** (1) amended, p. 750, § 14, effective July 1.

ANNOTATION

Malice must be proved. Where an undertaker was issued a permit to remove a body, but sought no burial permit from any registrar of vital statistics prior to interment of body, believ-

ing the former to be sufficient, he is guilty of no misdemeanor in the absence of malice. *Addington v. Bates*, 101 Colo. 293, 73 P.2d 529 (1937).

25-2-119. Tax on court action affecting vital statistics. (Repealed)

25-2-120. Reports of electroconvulsive treatment. (1) Any person who performs electroconvulsive treatment in the state of Colorado shall file a report with the department of public health and environment setting forth the data required by subsection (2) of this section. An institution in which electroconvulsive treatment is performed shall be the reporting entity for all electroconvulsive treatments performed at that institution.

(2) Such reports shall be made to the department of public health and environment on forms prescribed by the department within thirty days after January 1 and July 1 of each year on a semiannual basis and shall contain the following detailed information for each reporting period:

(a) The total number, broken down by inpatient and outpatient and exclusive of substance abuse, of adult psychiatric admissions, minor children psychiatric admissions, and readmissions of both;

(b) The number of patients within each category of paragraph (a) of this subsection (2) who received electroconvulsive treatment;

(c) Statistical information on each patient receiving electroconvulsive treatment including, but not limited to, the following:

(I) Diagnosis;

(II) Number of electroconvulsive treatments;

(III) Age;

(IV) Sex;

(V) Ethnicity;

(VI) Whether such patient was voluntary or involuntary;

(VII) Whether or not such patient was capable of giving his written informed consent;

(VIII) Whether or not any complications resulted from such electroconvulsive treatment, such as cardiac arrest, fracture, apnea, memory loss, or death (including autopsy results with particular attention to the brain);

(IX) The method of payment for such electroconvulsive treatment and, if applicable, the name of the insurance company making such payments.

(3) The name of the patient receiving electroconvulsive treatment shall remain confidential information and shall not be disclosed to the department, any other agency or individual. The forms prescribed by subsection (2) of this section shall not require any information which would disclose, directly or indirectly, the identity of the patient.

Source: L. 79: Entire section added, p. 613, § 2, effective June 22. L. 94: (1) and IP(2) amended, p. 2749, § 402, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1) and the introductory portion to subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-2-121. Fee adjustments - vital statistics records cash fund created. (1) This section shall apply to all activities of the office of the state registrar in the department of public health and environment.

(2) (a) The office of the state registrar shall propose, as part of its annual budget request, an adjustment in the amount of each fee that the office of the state registrar is authorized by law to collect. The budget request and the adjusted fees for the office of the state registrar shall reflect its direct and indirect costs and the direct and indirect costs necessary to maintain and operate the Colorado responds to children with special needs program.

(b) (I) Based upon the appropriation made and subject to the approval of the executive director of the department of public health and environment, the office of the state registrar shall adjust its fees so that the revenue generated from said fees approximates its direct and indirect costs and the direct and indirect costs necessary to maintain and operate the Colorado responds to children with special needs program. Such fees shall remain in effect for the fiscal year for which the budget request applies. All fees collected by the office of the state registrar shall be transmitted to the state treasurer, who shall credit the same to the vital statistics records cash fund, which fund is hereby created. All moneys credited to the vital statistics records cash fund and all interest earned thereon shall be subject to appropriation by the general assembly to be used as provided in this section and shall not be deposited in or transferred to the general fund of this state or any other fund.

(II) For those services required by this article and those services provided by the Colorado responds to children with special needs program, each office designated or established pursuant to section 25-2-103 shall charge fees as specified by the state registrar. Such fees shall be used for the purpose of paying the direct and indirect costs of the office and the office of the state registrar for compliance with the provisions of this article and the direct and indirect costs necessary to maintain and operate the Colorado responds to children with special needs program.

(c) Beginning July 1, 1985, and each July 1 thereafter, whenever moneys appropriated to the office of the state registrar for its activities for the prior fiscal year are unexpended,

said moneys shall be made a part of the appropriation to the office of the state registrar for the next fiscal year, and such amount shall not be raised from fees collected by the office of the state registrar. If a supplemental appropriation is made to the office of the state registrar for its activities and the services provided by the Colorado responds to children with special needs program, the fees of the office of the state registrar, when adjusted for the fiscal year following that in which the supplemental appropriation was made, shall be adjusted by an additional amount that is sufficient to compensate for the supplemental appropriation. Moneys appropriated to the office of the state registrar in the annual general appropriation act shall be designated as cash funds and shall not exceed the amount anticipated to be raised from fees collected by the office of the state registrar.

(d) For purposes of this section, "Colorado responds to children with special needs program" means the program established within the department of public health and environment under the authority of section 25-1.5-105.

(3) Notwithstanding any provision of subsection (2) of this section to the contrary, on March 5, 2003, the state treasurer shall deduct seven hundred sixty-three thousand six hundred eighty dollars from the vital statistics records cash fund and transfer such sum to the general fund.

Source: **L. 84:** Entire section added, p. 750, § 15, effective July 1. **L. 94:** (1) and (2)(b)(I) amended, p. 2750, § 403, effective July 1. **L. 2003:** (3) added, p. 458, § 18, effective March 5. **L. 2008:** (2) amended, p. 2065, § 1, effective June 3. **L. 2010:** (2)(b)(II) amended, (SB 10-006), ch. 341, p. 1578, § 3, effective June 5.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1) and (2)(b)(I), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration in the 2010 act amending subsection (2)(b)(II), see section 1 of chapter 341, Session Laws of Colorado 2010.

25-2-122. Heirloom birth and marriage certificates - funds created - report - rules - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Heirloom birth certificate" means a birth certificate that is suitable for display and may bear the seal of the state and be signed by the governor.

(b) "Heirloom marriage certificate" means a marriage certificate that is suitable for display and may bear the seal of the state and be signed by the governor.

(2) (a) In addition to any other birth certificate issued pursuant to section 25-2-112, the state registrar shall issue, upon request and upon payment of a fee established by rule of the state board of health, an heirloom birth certificate representing the birth of the individual named on the original birth certificate. The state registrar may establish procedures for issuing heirloom birth certificates; except that an heirloom birth certificate shall be issued in a form consistent with the need to protect the integrity of vital records, including secure measures designed to prevent tampering, counterfeiting, or otherwise duplicating the birth certificate for fraudulent purposes, pursuant to the federal "Intelligence Reform and Terrorism Prevention Act of 2004", 5 U.S.C. sec. 301.

(b) An heirloom birth certificate shall have the same status as evidence as that of an original birth certificate.

(c) The fee established pursuant to paragraph (a) of this subsection (2) shall be sufficient to cover the direct and indirect costs of producing and issuing the heirloom birth certificate, plus an additional ten dollars. The state registrar shall transmit moneys generated pursuant to this subsection (2), along with an explanation of the number of heirloom birth certificate sales that correspond to such moneys, to the state treasurer, who shall credit:

(I) For each sale of an heirloom birth certificate, ten dollars to the immunization fund created in section 25-4-1708; and

(II) The remainder of such moneys to the vital statistics records cash fund created in section 25-2-121.

(3) (a) In addition to any other marriage certificate issued pursuant to section 25-2-106, the state registrar shall issue, upon request and upon payment of a fee established by rule of the state board of health, an heirloom marriage certificate representing the marriage of

the persons named on the original marriage certificate recorded in the county clerk and recorder’s office. The state registrar may establish procedures for issuing the heirloom marriage certificates; except that an heirloom marriage certificate shall be issued in a form consistent with the need to protect the integrity of vital records.

(b) An heirloom marriage certificate shall have the same status as evidence as that of an original marriage certificate.

(c) The fee established pursuant to paragraph (a) of this subsection (3) shall be sufficient to cover the direct and indirect costs of producing and issuing the heirloom marriage certificate, plus an additional ten dollars. The state registrar shall transmit moneys generated pursuant to this subsection (3), along with an explanation of the number of heirloom marriage certificate sales that correspond to such moneys, to the state treasurer, who shall credit:

(I) For each sale of an heirloom marriage certificate, ten dollars to the Colorado domestic abuse program fund created in section 39-22-802, C.R.S.; and

(II) The remainder of such moneys to the vital statistics records cash fund created in section 25-2-121.

PART 1

HOSPITALS

25-3-100.5. Definitions. As used in this article, unless the context otherwise requires:

(1) “Acute treatment unit” means a facility or a distinct part of a facility for short-term psychiatric care, which may include substance abuse treatment, that provides a total, twenty-four-hour, therapeutically planned and professionally staffed environment for persons who do not require inpatient hospitalization but need more intense and individual services than are available on an outpatient basis, such as crisis management and stabilization services.

Source: L. 2006: Entire section added, p. 1391, § 22, effective August 7.

25-3-101. Hospitals - health facilities - licensed - definitions. (1) It is unlawful for any person, partnership, association, or corporation to open, conduct, or maintain any general hospital, hospital unit, psychiatric hospital, community clinic, rehabilitation hospital, convalescent center, community mental health center, acute treatment unit, facility for persons with developmental disabilities, as defined in section 25-1.5-103 (2) (c), nursing care facility, hospice care, assisted living residence, except an assisted living residence shall be assessed a license fee as set forth in section 25-27-107, dialysis treatment clinic, ambulatory surgical center, birthing center, home care agency, or other facility of a like nature, except those wholly owned and operated by any governmental unit or agency, without first having obtained a license from the department of public health and environment.

(2) As used in this section, unless the context otherwise requires:

(a) (I) “Community clinic” means a health care facility that provides health care services on an ambulatory basis, is neither licensed as an on-campus department or service of a hospital nor listed as an off-campus location under a hospital’s license, and meets at least one of the following criteria:

(A) Operates inpatient beds at the facility for the provision of extended observation and other related services for not more than seventy-two hours;

(B) Provides emergency services at the facility; or

(C) Is not otherwise subject to health facility licensure under this section or section 25-1.5-103 but opts to obtain licensure as a community clinic in order to receive private donations, grants, government funds, or other public or private reimbursement for services rendered.

(II) “Community clinic” includes a prison clinic operated by the department of corrections.

(III) “Community clinic” does not include:

(A) A federally qualified health center, as defined in section 1861 (aa) (4) of the federal “Social Security Act”, 42 U.S.C. sec. 1395x (aa) (4);

(B) A rural health clinic, as defined in section 1861 (aa) (2) of the federal “Social Security Act”, 42 U.S.C. sec. 1395x (aa) (2);

(C) A facility that functions only as an office for the practice of medicine or the delivery of primary care services by other licensed or certified practitioners.

(b) “Hospital unit” means a physical portion of a licensed or certified general hospital, psychiatric hospital, maternity hospital, or rehabilitation hospital that is leased or otherwise occupied pursuant to a contractual agreement by a person other than the licensee of the host facility for the purpose of providing outpatient or inpatient services.

(3) Nothing in this section shall be construed to require the licensing of individual services provided by a licensed or certified provider on its own premises.

(4) A health care facility is not required to be licensed as a community clinic solely due to the facility’s ownership status, corporate structure, or engagement of outside vendors to perform nonclinical management services. This section permits regulation of a physician’s office only to the extent the office is a community clinic as defined in this section.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration in the 2012 act amending subsections (1) and (2)(a) and adding subsection (4), see section 1 of chapter 252, Session Laws of Colorado 2012.

ANNOTATION

Law reviews. For comment on *Moon v. Mercy Hosp.*, appearing below, see 35 U. Colo. L. Rev. 612 (1963). For article, “Smith v. O’Halloran: Nursing Home Reform in the Courts”, see 13 Colo. Law. 2248 (1984).

Hospital license is prerequisite. A license to operate a hospital is a prerequisite to the functioning of such an establishment. *Moon v.*

Mercy Hosp., 150 Colo. 430, 373 P.2d 944 (1962).

Hospitals and doctors require different licenses. This section and § 12-36-107 are expressions of the legislative will that hospitals and doctors require different licenses. These licenses authorize related but different activities, and the issuance of the one does not permit

operation under the other. The general assembly plainly and unequivocally has treated these pursuits as separate and distinct pursuits requiring different licenses. *Purcell v. Poor Sisters of St. Francis Seraph*, 147 Colo. 478, 364 P.2d 184 (1961); *Moon v. Mercy Hosp.*, 150 Colo. 430, 373 P.2d 944 (1962).

Licensed hospital covered by malpractice limitations section. A hospital which is licensed under this section is clearly embraced within provisions of § 13-80-105 (now § 13-80-102 (1)(c)) prohibiting the bringing of an action to recover from a "licensed health establishment" due to alleged negligence unless such action be

instituted within two years after the cause accrued. *Adams v. Poudre Valley Hosp. Dist.*, 173 Colo. 98, 476 P.2d 565 (1970).

Licensing by home-rule city. The provisions of this article do not conflict with any rights of a home-rule city as to the licensing of a chiropractic sanitarium since the general assembly can provide for the licensing of hospitals within the limits of home-rule cities in the interest of general health. *Spears Free Clinic & Hosp. for Poor Children v. State Bd. of Health*, 122 Colo. 147, 220 P.2d 872 (1950).

Applied in *In re Estate of Smith v. O'Halloran*, 557 F. Supp. 289 (D. Colo. 1983).

25-3-102. License - application - issuance - certificate of compliance required.

(1) (a) An applicant for a license described in section 25-3-101 shall apply to the department of public health and environment annually upon such form and in such manner as prescribed by the department; except that a community residential home shall make application for a license pursuant to section 27-10.5-109, C.R.S.

(b) The department has authority to administer oaths, subpoena witnesses or documents, and take testimony in all matters relating to issuing, denying, limiting, suspending, or revoking a license.

(c) The department shall issue licenses to applicants furnishing satisfactory evidence of fitness to conduct and maintain a health facility described in section 25-3-101 in accordance with this part 1 and the rules adopted by the department. The department shall not require, as satisfactory evidence of fitness, evidence as to whether an applicant has provided self declarations, affidavits, or other attestations as to its general compliance with statutory or regulatory licensing requirements. The department shall determine an applicant's fitness solely based on the specific fitness information or documentation submitted by the applicant upon the department's request or as otherwise acquired by the department through its own review or investigation of the applicant. The department may require the applicant to attest to the accuracy of the information provided as long as the attestation does not require the applicant's affirmation of its general compliance with statutory or regulatory licensing requirements.

(d) The license shall be signed by the president and attested by the secretary of the state board of health and have the state board's seal affixed to the license. The license expires one year from the date of issuance.

(e) (I) For a change of ownership, the department shall conduct a fitness review of a new owner based upon information compiled within the five years preceding the date of the application; except that the new owner shall disclose whether, within the ten years preceding the date of an application, the new owner:

(A) Has been convicted of a felony or misdemeanor involving moral turpitude;

(B) Had a state license or federal certification denied, revoked, or suspended by another jurisdiction;

(C) Had a civil judgment or criminal conviction against the new owner in a case brought by the federal, state, or local authorities that resulted from the operation, management, or ownership of a health facility or other entity related to substandard patient care or health care fraud.

(II) The new owner shall provide the information specified in subparagraph (I) of this paragraph (e) to the department regardless of whether action has been stayed during a judicial appeal or otherwise settled between the parties.

(III) The department may review an existing owner of a licensed health facility or entity only when the department has new information not previously available or disclosed that bears on the fitness of the existing owner to operate or maintain a licensed health facility or entity.

(IV) A conversion of the health facility's or entity's legal structure, or the legal structure of an entity that has a direct or indirect ownership interest in the health facility or

entity, is not a change of ownership unless the conversion also includes a transfer of at least fifty percent of the licensed facility's direct or indirect ownership interest to one or more new owners.

(2) In the licensing of a community mental health center, acute treatment unit, or clinic, satisfactory evidence that the applicant is in compliance with the standards, rules, and regulations promulgated pursuant to section 27-66-102, C.R.S., shall be required for licensure.

(3) (a) Notwithstanding any provision of law to the contrary, the department of public health and environment shall not issue or renew any license described in section 25-3-101 for a facility covered by section 25-1.5-103 (5) unless the department receives a certificate of compliance for the applicant's building or structure from the division of fire prevention and control in the office of preparedness, security, and fire safety within the department of public safety in accordance with part 12 of article 33.5 of title 24, C.R.S.

(b) The department of public health and environment shall take action on an application for licensure within thirty days after the date that the department receives from the applicant all of the necessary information and documentation required for licensure, including a certificate of compliance from the division of fire prevention and control.

Editor's note: Subsection (3) is effective July 1, 2013, only if the revisor of statutes receives notification. (See the editor's note following the section.)

ANNOTATION

Relicensing and recertification. The court of appeals cannot order the department of health to recertify or relicense a nursing facility for this decision is statutorily committed to the department of health. *State Dept. of Health v. Geriatrics*, 699 P.2d 952 (Colo. 1985).

Applied in *Spears Free Clinic & Hosp. for Poor Children v. State Bd. of Health*, 122 Colo. 147, 220 P.2d 872 (1950).

25-3-102.1. Deemed status for certain facilities. (1) (a) In the licensing of an ambulatory surgical center following the issuance of initial licensure by the department of public health and environment, the voluntary submission of satisfactory evidence that the applicant is accredited by the joint commission, the American association for accreditation of ambulatory surgery facilities, inc., the accreditation association for ambulatory health care, the American osteopathic association, or any successor entities shall be deemed to

meet certain requirements for license renewal so long as the standards for accreditation applied by the accrediting organization are at least as stringent as the licensure requirements otherwise specified by the department.

(b) (I) In the application for the renewal of a license for a health facility described in section 25-3-101, other than an ambulatory surgical center, the department of public health and environment shall deem health facilities that are currently accredited by an accrediting organization recognized by the federal centers for medicare and medicaid services as satisfying the requirements for renewal of the license.

(II) If the standards for national accreditation are less stringent than the state's licensure standards for a particular health facility, the department of public health and environment may conduct a survey that focuses on the more stringent state standards. Beginning one year after the department first grants deemed status to a health facility pursuant to this paragraph (b), the department may conduct validation surveys, based on a valid sample methodology, of up to ten percent of the total number of accredited health facilities in the industry, excluding hospitals. If the department conducts a validation survey of a health facility, the validation survey is in lieu of a licensing renewal survey that the health facility would have undergone if the health facility did not have deemed status pursuant to this paragraph (b).

(III) If the department of public health and environment takes an enforcement activity, as defined in section 25-1.5-103 (2) (b.5), against a health facility to which it has granted deemed status pursuant to this paragraph (b), the department may revoke the health facility's deemed status.

(c) Upon submission of a completed application for license renewal, the department of public health and environment shall accept proof of the accreditation in lieu of licensing inspections or other requirements. Nothing in this section exempts an accredited health facility from inspections or from other forms of oversight by the department as necessary to ensure public health and safety.

(2) In determining fees otherwise payable by a health facility for license renewal, the department of public health and environment shall give due consideration to efficiencies and savings generated in connection with the deemed status process in subsection (1) of this section and shall specifically provide an appropriate credit or reduced fee to a health facility that achieves license renewal through deemed status.

25-3-102.5. Nursing facilities - consumer satisfaction survey - pilot survey.

(1) (a) The department shall develop and implement a consumer satisfaction survey based on the results of the pilot survey implemented pursuant to paragraph (a.5) of this subsection (1). The pilot survey and the resulting consumer satisfaction survey shall be implemented to determine the level of satisfaction among residents and residents' families regarding the quality of care and quality of living in nursing facilities. "Nursing facility", as used in this section, means a nursing facility as defined in section 25.5-4-103 (14), C.R.S. The department shall appoint an advisory committee to develop the consumer satisfaction survey. The advisory committee shall include, but not be limited to, the state ombudsman, representatives of senior groups, representatives of the disabled community, representatives of providers of long term care services, and long term care consumers or their family members. The advisory committee shall develop recommendations for the development of an assessment tool for the consumer satisfaction survey and shall develop recommendations for the implementation of the pilot survey and the consumer satisfaction survey. The advisory committee shall ensure that a representative sample of participants are chosen and surveyed in a manner that will yield accurate and useful results. The department shall ensure that every nursing facility licensed by the department participates in the assessment of consumer satisfaction; except that any nursing facility that accepts exclusively private pay

residents shall not be required to participate. Information about results of the most recent consumer satisfaction survey and how such survey was conducted shall be included by the facility in all informational materials provided to persons who inquire about the facility. The department shall assure confidentiality for residents during the survey process. The department shall make the results of consumer satisfaction surveys available to the public.

(a.5) (I) The department shall develop and implement a pilot consumer satisfaction survey to aid in the determination of the level of satisfaction among residents and residents' families regarding the quality of care and quality of living in nursing facilities. The pilot survey shall be used exclusively for the development of the consumer satisfaction survey to be implemented pursuant to paragraph (d) of this subsection (1) and shall not be used to penalize any participating facility. The pilot survey shall be used to assess:

(A) The validity of the questionnaire for use in the consumer satisfaction survey implemented pursuant to paragraph (d) of this subsection (1);

(B) The nursing facilities residents' cognition levels in order to determine the ability of the residents to complete the survey in a meaningful manner;

(C) The techniques employed to obtain the number of completed survey questionnaires needed to achieve a statistical validity of plus or minus ten percent on the final consumer satisfaction survey; and

(D) The survey data to ensure that such data is meaningful to consumers.

(II) The pilot survey shall involve the participation of no more than ten percent of all nursing facilities licensed by the department. The department shall select nursing facilities to participate in the pilot survey based on characteristics including, but not limited to, the rural or urban location of the facilities, and the cross-section of the resident population of the facilities. Facilities that volunteer to participate in the pilot survey shall be given priority in the selection process so long as the required characteristics are met.

(III) (A) The individual nursing facility results of the pilot survey shall be confidential and not made available to the public; except that each nursing facility shall be provided with the pilot survey results from its own facility.

(B) Aggregate statistical results of the pilot survey may be made available to the public.

(C) Repealed.

(IV) Repealed.

(b) The consumer satisfaction survey shall be easy to understand so that each resident or resident's family member or representative who participates may fill out the survey unassisted; except that the department or its designated representative may assist a resident or resident's family with filling out the survey. Nursing facility volunteers and employees shall be prohibited from assisting participants with the completion of the survey. The names of the participants in the survey shall be kept confidential, and all surveys shall be returned directly to the department.

(c) Repealed.

(d) The department shall administer the consumer satisfaction survey based on the recommendations of the advisory committee in all licensed nursing facilities that are required to participate in accordance with paragraph (a) of this subsection (1). The department shall commence implementation of the survey on or before July 1, 2003. After the pilot survey is complete, the department shall evaluate the effectiveness of the pilot survey instruments, adopt any recommendations, and continue to survey all licensed facilities on a three-year cycle with one-third of the participating licensed nursing facilities completing the initial survey in one of the three years. Each participating licensed nursing facility shall perform a new consumer satisfaction survey every three years thereafter; except that the department may require, or a participating licensed nursing facility may request, that a new consumer satisfaction survey be performed more often if conditions warrant. If the licensed nursing facility requests such a survey, the department shall perform the survey if the licensed nursing facility pays the department for the costs associated with performing the survey. A licensed nursing facility may comment on the results of a consumer satisfaction survey and have such comments included in any publication or distribution of the results by the department.

(e) Hospice residents and their family members and transitional care unit residents and their family members, shall be exempt from participation in the pilot survey and consumer satisfaction survey conducted in each nursing facility.

(f) Nursing facilities shall release the name, address, and telephone number of each family member or party responsible for a nursing facility resident to the department for the sole use of conducting the pilot survey and the consumer satisfaction survey.

(2) (a) The department shall respond to a complaint from a nursing facility resident or resident's family member or representative within five working days after receipt of the complaint and, for sixty days after the date the department received the complaint, the department shall update the complainant on the status of the complaint investigation at least every fourteen days until the complaint is resolved and an investigation is finalized. If the complaint is not resolved within sixty days after the date the department received the complaint, the department shall continue to update the complainant on the status of the complaint every thirty days until the complaint is resolved and an investigation report is resolved and an investigation is finalized. At the request of the complainant, the department shall not maintain such contact.

(b) (I) The state and local long-term care ombudsman, established pursuant to article 11.5 of title 26, C.R.S., in compliance with the federal "Older Americans Act of 1965", ("ombudsman") shall refer to the state department for investigation and resolution all complaints received by the ombudsman involving possible licensure violations in nursing homes that are exclusively private pay facilities.

(II) Information about the ombudsman, including the ombudsman's role in dealing with resident complaints and all contact information and telephone numbers for the ombudsman, shall be included in the information provided to a resident upon admission to a facility that is not a private pay facility.

25-3-103. License denial or revocation - provisional license - rules. (1) (a) The department of public health and environment may deny an application for a new or renewal license under this part 1 or revoke a license if the applicant or licensee has not satisfied the requirements of this part 1 or part 6 of this article and the rules of the department or the state board of health. If a license is denied or revoked, the department may grant the applicant or licensee a provisional license upon payment of a fee established by the state board of health by rule, subject to the limitations in paragraph (c) of this subsection (1). The provisional license is valid for no longer than ninety days and may be issued to allow the applicant or licensee time to comply with the requirements for a regular license. A second provisional license may be issued if the department determines it is necessary to effect compliance. The second provisional license must be issued for the same duration as the first provisional license upon payment of the fee established by the state board of health by rule, subject to the limitations in paragraph (c) of this subsection (1). No further provisional licenses may be issued for the then current year after the second issuance.

(b) The state board of health by rule or as otherwise provided by law may reduce the amount of the fee established pursuant to paragraph (a) of this subsection (1) if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the state board of health by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

(c) On or after June 4, 2012, the state board of health may increase the amount of a provisional license fee established pursuant to paragraph (a) of this subsection (1) that is in effect on June 4, 2012, by an amount not to exceed the annual percentage change in the United States department of labor, bureau of labor statistics, consumer price index for Denver-Boulder-Greeley for all urban consumers, all goods, or its successor index. Nothing

in this paragraph (c) limits the ability of the state board of health to reduce the amount of a provisional license fee in effect on such date or to modify fees in accordance with paragraph (b) of this subsection (1) as necessary to comply with section 24-75-402, C.R.S.

(2) Upon a finding of reasonable compliance by an applicant holding a provisional license, a regular license shall be issued upon receipt of the regular license fee established pursuant to section 25-3-105.

(3) No denial of a renewal license shall be lawful unless, before institution of such proceedings by the department of public health and environment, said department has given the licensee notice in writing of facts on conduct that may warrant denial, has afforded the applicant opportunity to submit written data, views, and arguments with respect to such facts on conduct, and, except in cases of deliberate and willful violation, has given the applicant a reasonable opportunity to comply with all lawful requirements for licensure.

(4) No application for renewal of a license shall be denied by the department of public health and environment, and no previously issued license shall be revoked, suspended, annulled, limited, or modified until after a hearing as provided in section 24-4-105, C.R.S.

(5) The department of public health and environment may suspend or revoke the license for the operation of a nursing care facility or intermediate care facility of any licensee convicted of violating any provision of section 26-1-127 or section 25.5-6-206 (8), C.R.S., if the department finds such suspension or revocation necessary to safeguard the rights of patients in the future. No license or permit shall thereafter be issued to any person so convicted, except upon a specific finding by the department that the rights of the patients will have adequate safeguards.

ANNOTATION

Law reviews. For article, "Smith v. O'Halloran: Nursing Home Reform in the Courts", see 13 Colo. Law. 2248 (1984).

Applied in Spears Free Clinic & Hosp. for Poor Children v. State Bd. of Health, 122 Colo.

147, 220 P.2d 872 (1950); In re Estate of Smith v. O'Halloran, 557 F. Supp. 289 (D. Colo. 1983).

25-3-103.1. Health facilities general licensure cash fund. (1) All fees collected pursuant to this article shall be transmitted to the state treasurer, who shall credit the same to the health facilities general licensure cash fund, which fund is hereby created.

(2) The general assembly shall make annual appropriations from the health facilities general licensure cash fund to partially reimburse the department of public health and environment for the direct and indirect costs of the department incurred in the performance of its duties under this article and for the purposes of section 25-1.5-103 (3.5). No appropriation shall be made out of the cash fund for expenditures incurred by the department pursuant to section 25-1.5-103 (1) (a) (II) in carrying out duties relating to health facilities wholly owned and operated by a governmental unit or agency.

Source: L. 95: Entire section added, p. 1024, § 5, effective July 1. L. 2003: (2) amended, p. 709, § 37, effective July 1. L. 2008: (2) amended, p. 1948, § 2, effective June 2.

25-3-103.5. Nondiscrimination - hospital surgical privileges - hospital rules and regulations. (1) The bylaws of any hospital licensed pursuant to the provisions of part 3 of this article or established pursuant to section 32-1-1003, C.R.S., which does not limit staff privileges to employees or contracting physicians of such hospital, shall include provisions for the use of the facility by, and staff privileges for, duly licensed doctors of medicine, osteopathy, dentistry, and podiatry within the scope of their respective licenses. Such bylaws shall not discriminate on the basis of the staff member's holding a degree of doctor of medicine, doctor of osteopathy, doctor of dental science, or doctor of podiatric medicine within the scope of their respective licensure. Provision shall be made in the bylaws for the right to pursue and practice full surgical privileges for holders of a degree of doctor of medicine, doctor of osteopathy, doctor of dental science, or doctor of podiatric medicine within the scope of their respective licensure. Such rights and privileges may be limited or restricted upon the basis of an individual practitioner's demonstrated training, experience, current competence, professional ethics, health status, or failure to abide by the hospital's rules, regulations, and procedures.

(2) Nothing in this section shall be construed to require a hospital to offer a specific service or services not otherwise offered or to buy, construct, or renovate facilities, to purchase equipment, hire additional staff, or to comply with other requirements of law concerning its planning, financing, or operation. If a health service is offered, the hospital shall not discriminate between persons holding a degree of doctor of medicine, doctor of osteopathy, or doctor of podiatric medicine who are authorized by law to perform such services.

(3) A hospital may require the coadmittance by a medical doctor or doctor of osteopathy for any patient admitted for surgical treatment by a podiatrist or dentist. The responsibility for obtaining such coadmittance shall be that of the podiatrist or dentist admitting said patient and not of the hospital. Patients admitted for podiatric or dental care shall receive the same basic medical appraisal as patients admitted for other services. Such appraisal shall include an admission history and physical examination by a medical doctor, doctor of osteopathy, or qualified, hospital-credentialed and -privileged podiatrist, who is either on the medical staff or approved by the medical staff of such hospital. The findings of such appraisal shall be recorded on the patient's medical record. The admitting podiatrist or dentist shall be responsible for that part of the history and examination that is related to podiatry or dentistry. The medical doctor or doctor of osteopathy shall be responsible for the treatment of any medical problem that may be present on admission or arise during hospitalization of such podiatric or dental patient. Such doctor shall evaluate the general medical condition of the podiatric or dental patient and determine, after consultation if necessary, the overall risk of the pending surgical treatment to the patient's health.

(4) Within one hundred eighty days after May 25, 1983, the governing body of every hospital subject to the provisions of part 3 of this article or established pursuant to section 32-1-1003, C.R.S., which does not limit staff privileges to employees or contracting physicians of such hospital, shall provide in its bylaws reasonable standards and procedures to be applied by such hospital and its staff in considering and acting upon applications for staff membership or privileges by a person holding a Colorado license to practice as a doctor of medicine, doctor of osteopathic medicine, podiatrist, or dentist in conformance with the requirements of any national accrediting body to which the hospital subscribes. Such standards and procedures shall be available for public inspection and shall be based on an applicant's individual training, experience, current competence, professional ethics, health status, and the hospital's rules of professional conduct applied equally to all persons holding a Colorado license to practice as a doctor of medicine, doctor of osteopathic medicine, podiatrist, or dentist.

(5) Hospital rules and regulations shall be reasonable, necessary, and applied in good faith equally and in a nondiscriminatory manner to all staff members, or applicants seeking to become staff members, holding a degree of doctor of medicine, doctor of osteopathic medicine, doctor of dental science, or doctor of podiatric medicine.

Source: L. 83: Entire section added, p. 1053, § 1, effective May 25. L. 2007: (3) amended, p. 436, § 1, effective August 3.

25-3-103.7. Employment of physicians - when permissible - conditions - definitions. (1) For purposes of this section:

(a) “Community mental health center” means a community mental health center, as defined in section 25-1.5-103 (2), that is currently licensed and regulated by the department pursuant to the department’s authority under section 25-1.5-103 (1) (a).

(b) “Department” means the department of public health and environment.

(c) “Federally qualified health center” or “FQHC” shall have the same meaning as set forth in section 1861(aa) (4) of the federal “Social Security Act”, 42 U.S.C. sec. 1395x (aa) (4).

(d) “Health care facility” means a hospital, hospice, community mental health center, federally qualified health center, school-based health center, rural health clinic, PACE organization, or long-term care facility.

(e) “Hospice” means an entity that administers services to a terminally ill person utilizing palliative care or treatment and that is currently licensed and regulated by the department pursuant to the department’s authority under section 25-1.5-103 (1) (a).

(f) “Hospital” means a hospital currently licensed or certified by the department pursuant to the department’s authority under section 25-1.5-103 (1) (a).

(f.3) “Long-term care facility” means:

(I) A nursing facility as defined by section 25.5-4-103, C.R.S., and licensed pursuant to section 25-1.5-103;

(II) An assisted living residence as defined by section 25-27-102 and licensed pursuant to section 25-27-103; or

(III) An independent living facility or a residence for seniors that provides assistance to its residents in the performance of their daily living activities.

(f.5) “PACE organization” means an organization providing a program of all-inclusive care for the elderly pursuant to section 25.5-5-412, C.R.S.

(g) “Physician” means a person duly licensed to practice under article 32, 35, or 36 of title 12, C.R.S.

(h) “Rural health clinic” shall have the same meaning as set forth in section 1861(aa) (2) of the federal “Social Security Act”, 42 U.S.C. sec. 1395x (aa) (2).

(i) “School-based health center” shall have the same meaning as set forth in section 25-20.5-502.

(2) (a) A health care facility may employ physicians, subject to the limitations set forth in subsections (3) to (6) of this section. The employment of physicians at a long-term care facility may be direct or through a separate entity authorized to conduct business in this state that has common or overlapping ownership as an affiliate or subsidiary of an entity, including a foreign entity, that owns, controls, or manages the long-term care facility, subject to the limitations set forth in subsections (3) to (6) of this section.

(b) Nothing in this subsection (2) allows any person who is not licensed pursuant to article 36 of title 12, C.R.S., to practice or direct the practice of medicine at a long-term care facility.

(3) Nothing in this section shall be construed to allow any health care facility that employs a physician to limit or otherwise exercise control over the physician’s independent professional judgment concerning the practice of medicine or diagnosis or treatment or to require physicians to refer exclusively to the health care facility or to the health care facility’s employed physicians. Any health care facility that knowingly or recklessly so limits or controls a physician in such manner or attempts to do so shall be deemed to have violated standards of operation for the particular type of health care facility and may be held liable to the patient or the physician, or both, for such violations, including proximately caused damages. Nothing in this section shall be construed to affect any health care facility’s decisions with respect to the availability of services, technology, equipment, facilities, or treatment programs, or as requiring any health care facility to make available to patients or physicians additional services, technology, equipment, facilities, or treatment programs.

(4) Nothing in this section shall be construed to allow a health care facility that employs a physician to offer the physician any percentage of fees charged to patients by the health care facility or other financial incentive to artificially increase services provided to patients.

(5) The medical staff bylaws or policies or the policies of any health care facility that employs physicians shall not discriminate with regard to credentials or staff privileges on the basis of whether a physician is an employee of, a physician with staff privileges at, or a contracting physician with, the health care facility. Any health care facility that discriminates with regard to credentials or staff privileges on the basis of whether a physician is an employee of, a physician with staff privileges at, or a contracting physician with, the health care facility shall be deemed to have violated standards of operation for the particular type of health care facility and may be held liable to the physician for such violations, including proximately caused damages. This subsection (5) shall not affect the terms of any contract or written employment arrangement that provides that the credentials or staff and clinical privileges of any practitioner are incident to or coterminous with the contract or employment arrangement or the individual's association with a group holding the contract.

(6) When applying for initial facility licensure and upon each application for license renewal, every health care facility licensed or certified by the department that employs a physician shall report to the department the number of physicians on the health care facility's medical staff. The report shall separately identify the number of those physicians who are employed by the health care facility under separate contract to the health care facility and independent of the health care facility.

(7) The medical staff bylaws or policies or the policies of any health care facility that employs physicians shall contain a procedure by which complaints by physicians alleging a violation of subsection (3), (4), or (5) of this section may be heard and resolved, which procedure shall ensure that the due process rights of the parties are protected. A physician who believes he or she has been the subject of a violation of subsection (3), (4), or (5) of this section has a right to complain and request review of the matter pursuant to such procedure.

(8) Nothing in this section shall preclude a physician or a patient from seeking other remedies available to the physician or to the patient at law or in equity.

ANNOTATION

Law reviews. For article, "The Physician as the Hospital's Employee: SB 95-212", see 24 Colo. Law. 2345 (1995).

No exposure to vicarious liability. Since a hospital may employ a physician but cannot limit or otherwise exercise control over the physician's independent professional judgment, this section does not expose the hospital to vicarious

liability with respect to negligent or tortious acts committed by the physician employee. *Estate of Harper ex rel. Al-Hamim v. Denver Health & Hosp. Auth.*, 140 P.3d 273 (Colo. App. 2006).

Corporate practice of medicine doctrine is statutorily altered, but not abolished, in Colorado. *Daly v. Aspen Ctr. for Women's Health, Inc.*, 134 P.3d 450 (Colo. App. 2005).

25-3-104. Reports. Any person, partnership, association, or corporation maintaining any hospital or other facility for the treatment or care of the sick or injured shall make a report to the department of public health and environment upon request but not more frequently than quarterly. The department of public health and environment shall have power to investigate and shall have free access to such facilities consistent with section 25-1.5-103 (1) (a).

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-3-105. License - fee - rules - penalty. (1) (a) (I) (A) Subject to the limitations in sub-subparagraph (B) of this subparagraph (I), the state board of health shall establish a schedule of fees, which must be set at a level sufficient to meet the direct and indirect costs of administration and enforcement of this article, as appropriated by the general assembly for each fiscal year, less any moneys appropriated for the same fiscal year by the general assembly from any other source to meet such costs. The fee schedule must also ensure that the reserve balance in the health facilities general licensure cash fund created in section 25-3-103.1 (1) is consistent with the limits specified in section 24-75-402 (3), C.R.S., and must be modified, as necessary, to comply with said limits. The state board shall establish and modify, as necessary, the fee schedule by rules adopted in accordance with article 4 of title 24, C.R.S. Except as specified in subparagraph (II) of this paragraph (a), the department of public health and environment may assess fees in accordance with the fee schedule established by the state board against health facilities licensed by the department. All fees collected pursuant to the fee schedule must be deposited in the health facilities general licensure cash fund created in section 25-3-103.1 (1) and are subject to appropriation by the general assembly in accordance with section 25-3-103.1 (2).

(B) On or after June 4, 2012, the state board of health may increase the amount of any fee on the schedule of fees established pursuant to sub-subparagraph (A) of this subparagraph (I) that is in effect on June 4, 2012, by an amount not to exceed the annual percentage change in the United States department of labor, bureau of labor statistics, consumer price index for Denver-Boulder-Greeley for all urban consumers, all goods, or its successor index. Nothing in this sub-subparagraph (B) limits the ability of the state board of health to reduce the amount of any fee on the schedule of fees in effect on such date or to modify fees as necessary to comply with section 24-75-402, C.R.S.

(C) The department of public health and environment shall institute, by rule, a performance incentive system for licensed health facilities under which a licensed health facility would be eligible for a reduction in its license renewal fee if: The department's on-site relicensure inspection demonstrates that the health facility has no significant deficiencies that have negatively affected the life, safety, or health of its consumers; the licensed health facility has fully and timely cooperated with the department during the on-site inspection; the department has found no documented actual or potential harm to consumers; and, in the case where any significant deficiencies are found that do not negatively affect the life, safety, or health of consumers, the licensed health facility has submitted, and the department has accepted, a plan of correction and the health facility has corrected the deficient practice, as verified by the department, within the period required by the department.

(II) An acute treatment unit shall be assessed a fee as set forth in paragraph (c) of this subsection (1), an assisted living residence shall be assessed a fee as set forth in section 25-27-107, and a separate fee shall be collected pursuant to section 25-3-704 to meet the costs incurred by the department in completing the requirements of part 7 of this article.

(III) A license issued by the department may be revoked at any time by the state board of health for any of the causes set forth in section 25-3-103 or for a licensee's failure to

comply with any of the rules of the state board or to make the reports required by section 25-3-104. Any person, partnership, association, company, or corporation opening, conducting, or maintaining any facility for the treatment and care of the sick or injured who does not have a provisional or regular license authorizing such person or entity to open, conduct, or maintain the facility is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars.

(b) (Deleted by amendment, L. 2007, p. 953, § 2, effective May 17, 2007.)

(c) (I) On and after August 7, 2006, an applicant for licensure for an acute treatment unit shall submit to the department nonrefundable fees with an application for licensure as follows:

(A) A fee of one hundred dollars per available bed in addition to a fee of three thousand five hundred dollars for a license related to new facility operations; except that a facility that converts from a different licensure category to an acute treatment unit shall submit its application and initial licensure fee no later than July 1, 2008;

(B) A fee of twenty dollars per available bed in addition to a fee of one thousand seven hundred dollars to issue a new license when there has been a change of ownership of an existing licensed acute treatment unit;

(C) A fee of twenty dollars per available bed in addition to a fee of one thousand five hundred dollars when the licensee seeks annual renewal of an existing acute treatment unit license.

(II) A licensee shall submit a fee of one hundred dollars for an acute treatment unit in the following circumstances:

(A) When submitting a name change for approval by the department; or

(B) When submitting a request to increase the number of licensed beds for approval by the department.

(III) A licensee shall submit a fee of five hundred dollars for an acute treatment unit in the following circumstances:

(A) For remodeling plan review by the department when the licensee undergoes new construction or substantial remodeling of an acute treatment unit, as defined by rule of the state board of health; or

(B) For remodeling on-site review by the department when the licensee undergoes new construction or substantial remodeling of an acute treatment unit, as defined by rule of the state board of health. Fees for remodeling on-site review shall be in addition to the fees assessed for remodeling plan review.

(2) The department of public health and environment shall maintain a full, true, and accurate accounting of the costs of providing services under this article, including indirect costs, and, at least annually, shall provide a detailed cost accounting report to the health care facility stakeholder forum created in section 25-3-113. The department shall regularly evaluate and update its cost-accounting methods.

(3) Repealed.

(4) On July 1, 2013, any moneys remaining in the health facilities general licensure cash fund created in section 25-3-103.1 (1) from fees collected by the department of public health and environment for health facility building and structure code plan reviews and inspections are transferred to the health facility construction and inspection cash fund created in section 24-33.5-1207.8, C.R.S.

Editor's note: Subsection (4) is effective July 1, 2013, only if the revisor of statutes receives notification. (See the editor's note following this section.)

25-3-106. Unincorporated associations. An unincorporated association organized and existing for the purpose of providing hospital services for its members shall be governed, managed, and controlled by a board of trustees selected in accordance with the provisions of the state constitution and bylaws of such association. Such board of trustees shall have the right to acquire, own, and hold, in the name of such association or in the name of persons who hold title in trust for said association, real property devoted to or connected with hospital purposes and to operate and manage the same in accordance with the laws of this state, and such board of trustees shall have the power and right from time to time to sell, convey, lease, or otherwise dispose of such property, including any hospital building of such association, whenever acquired, and to direct the sale, conveyance, lease, or other disposition of the same by persons who hold the title to such property in trust for said association to such purchaser, lessee, or other person or entity for such price and upon such terms and conditions as may be determined by resolution of the board of trustees of the association adopted by two-thirds vote of the entire board of trustees of such association at any regular or special meeting of said board. The sale, conveyance, lease, or other disposition of such property may be made in the manner provided in this section to any person, corporation, county, municipality, or other entity.

Source: L. 57: p. 416, § 1. CRS 53: § 66-4-6. C.R.S. 1963: § 66-4-6.

25-3-107. Disciplinary actions reported to Colorado medical board or podiatry board. (1) Any disciplinary action to suspend, revoke, or otherwise limit the privileges of a licensed physician or podiatrist that is taken by the governing board of a hospital required to be licensed or certified pursuant to this part 1 or required to obtain a certificate of compliance pursuant to section 25-1.5-103 (1) (a) (I) or (1) (a) (II) shall be reported to the Colorado medical board or the Colorado podiatry board, whichever board is appropriate, in the form prescribed by said board.

(2) Said hospital shall provide such additional information as is deemed necessary by the Colorado medical board or the Colorado podiatry board to conduct a further investigation and hearing.

Source: L. 76: Entire section added, p. 421, § 7, effective July 1. L. 79: (1) amended, p. 523, § 28, effective July 1. L. 85: Entire section amended, p. 505, § 23, effective July 1. L. 88: (1) amended, p. 527, § 11, effective July 1. L. 2003: (1) amended, p. 710, § 40, effective July 1. L. 2010: Entire section amended, (HB 10-1260), ch. 403, p. 1990, § 86, effective July 1.

25-3-108. Receivership. (1) It is the purpose of this section to establish a receivership mechanism that will be available as a remedy for such violations of applicable laws and regulations by a licensee of a long-term health care facility that require facility closure by the department of public health and environment in order to safeguard against potential transfer trauma resulting from relocation of its residents as a result of closure of the facility.

(2) The department of public health and environment, the licensee or owner of a long-term health care facility, or the lessee of such facility with the approval of the owner

may apply to the district court for the appointment of a receiver to operate the long-term health care facility when:

(a) The department of public health and environment has refused to issue a renewal license or has revoked the license of such facility and the action of the department is final; or

(b) The department of public health and environment, through the executive director thereof, has taken summary action to suspend the license of any such facility in accordance with the provisions of section 24-4-104 (4), C.R.S.

(3) The action of the department of public health and environment with respect to nonrenewal or revocation of a license and recommendation for certification for medicaid participation shall not be final for the purposes of paragraph (a) of subsection (2) of this section until all administrative hearings and judicial appeals sought by a licensee of a long-term health care facility have been exhausted or the time permitted for the same has expired and until the decisions resulting from any such appeals, if any, sustain the action of said department.

(4) Application for the appointment of a receiver pursuant to this section shall be to the district court for the county where the long-term health care facility is located. No hearing on such application shall be held sooner than seventy-two hours after the licensee of such facility has been served with notice thereof, as provided in the Colorado rules of civil procedure; except that when the department exercises its summary powers, an emergency receiver may be appointed upon agreement in writing between the department and licensee, with the approval of the owner, until a hearing for appointment of a receiver as provided in this section. Notice shall also be served upon any owner and any lessee of a long-term health care facility and any holder of a security interest of record in said facility. An application for appointment of a receiver pursuant to this section shall have precedence and priority over any civil or criminal case pending in the district court wherein the application is filed.

(5) For the purposes of this section the action of the department of public health and environment exercised pursuant to subsection (2) of this section shall become effective upon appointment of the receiver of the court.

(6) Prior to ordering the appointment of a receiver for the operation of a long-term health care facility, the district court must find:

(a) That grounds for the appointment of a receiver exist as provided in subsection (2) of this section; and

(b) That proper notice as required by subsection (4) of this section has been served; and

(c) That there is a necessity to continue care on a temporary basis at the facility to avoid potential transfer trauma which would serve the best interests of the residents of the facility pending arrangements for the lease, sale, or closure of the facility.

(7) The department of public health and environment shall grant the receiver a license pursuant to section 25-3-102 and shall recommend certification for medicaid participation, and the department of health care policy and financing shall reimburse the receiver for the long-term health care facility's medicaid residents pursuant to section 25.5-6-204, C.R.S.

(8) The appointment of the receiver shall be in accordance with and governed by the provisions of rule 66 of the Colorado rules of civil procedure. The court shall enter an order of appointment and fix the fees and expenses of the receiver. The receiver shall be a licensed nursing home administrator and shall post a bond with adequate sureties as determined by the court, and the receiver may be sued upon the same in the name of the people of the state of Colorado at the instance and for the use of any party injured. The receiver shall perform duties, assume responsibilities, and preserve the long-term health care facility property in accordance with established principles of law for receivers of real property. Such duties and responsibilities shall be determined by the court following a hearing, at which time the parties may appear and be heard. The court shall specify the duties and responsibilities of the receiver in the order of appointment. No security interest in any real or personal property comprising said facility or contained within the facility nor any fixture of the facility shall be impaired or diminished by the receiver, but the receiver shall comply with the standards of the department of public health and environment in providing health care to patients.

(9) Nothing in this section shall prevent the court from altering or amending the terms and conditions of the receivership or the receiver's responsibilities and duties following a hearing, at which time the parties may appear and be heard; and nothing in this section shall prohibit the parties from stipulating to the terms and conditions of the receivership and the responsibilities and duties of the receiver, including the duration thereof, and such stipulation shall be submitted to the court for approval.

(10) A receivership established pursuant to this section may be terminated by the court upon application therefor by the licensee of a long-term health care facility, the department of public health and environment, or the receiver. The receivership may be terminated upon a finding by the court that the receivership is no longer necessary, but in no case shall the receivership continue for longer than one hundred eighty days from the date of the initial appointment of the receiver unless extended by written agreement of the parties as provided in subsection (9) of this section.

(11) Upon termination of the receivership, the court shall order a final accounting and finally fix the fees and expenses of the receiver following a hearing, at which time the parties may appear and be heard.

Source: **L. 79:** Entire section added, p. 1003, § 1, effective June 7. **L. 91:** (7) amended, p. 1857, § 15, effective April 11. **L. 94:** (1), (2), (3), (5), (7), (8), and (10) amended, pp. 2752, 2624, §§ 409, 43, effective July 1. **L. 2006:** (7) amended, p. 2015, § 89, effective July 1. **L. 2007:** (1) amended, p. 2040, § 64, effective June 1.

Editor's note: Amendments to subsection (7) by sections 43 and 409 of House Bill 94-1029 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1), (2), (3), (5), (7), (8), and (10), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Law reviews. For article, "Smith v. O'Halloran: Nursing Home Reform in the Courts", see 13 Colo. Law. 2248 (1984).

This section modifies the general rule that a receiver stands in the shoes of the entity in receivership and may assert no greater rights than the entity whose property the receiver was appointed to receive. Rather, to implement the statutory purpose to avoid "transfer trauma" from relocation of patients, the Department of Social Services is required to reimburse a receiver appointed pursuant to this section for its

medicaid residents in accordance with § 26-4-110 (5). Thus, despite an apparent conflict with its regulations, the Department may not withhold the final month's payment claimed by a receiver pending completion of audits. *Good Shepherd v. Dept. of Health*, 789 P.2d 423 (Colo. App. 1989).

Applied in *State ex rel. State Dept. of Health v. I.D.I., Inc.*, 642 P.2d 14 (Colo. App. 1981); *In re Estate of Smith v. O'Halloran*, 557 F. Supp. 289 (D. Colo. 1983).

25-3-109. Quality management functions - confidentiality and immunity. (1) The general assembly hereby finds and declares that the implementation of quality management functions to evaluate and improve patient and resident care is essential to the operation of health care facilities licensed or certified by the department of public health and environment pursuant to section 25-1.5-103 (1) (a). For this purpose, it is necessary that the collection of information and data by such licensed or certified health care facilities be reasonably unfettered so a complete and thorough evaluation and improvement of the quality of patient and resident care can be accomplished. To this end, quality management information relating to the evaluation or improvement of the quality of health care services shall be confidential, subject to the provisions of subsection (4) of this section, and persons performing such functions shall be granted qualified immunity. It is the intent of the general assembly that nothing in this section revise, amend, or alter article 36 or part 1 of article 36.5 of title 12, C.R.S.

(2) For purposes of this section, a "quality management program" means a program which includes quality assurance and risk management activities, the peer review of licensed health care professionals not otherwise provided for in part 1 of article 36.5 of title

12, C.R.S., and other quality management functions which are described by a facility in a quality management program approved by the department of public health and environment. Nothing in this section shall revise, amend, or alter article 36 or part 1 of article 36.5 of title 12, C.R.S.

(3) Except as otherwise provided in this section, any records, reports, or other information of a licensed or certified health care facility that are part of a quality management program designed to identify, evaluate, and reduce the risk of patient or resident injury associated with care or to improve the quality of patient care shall be confidential information; except that such information shall be subject to the provisions of subsection (4) of this section.

(4) The records, reports, and other information described in subsection (3) and subsection (5.5) of this section shall not be subject to subpoena or discoverable or admissible as evidence in any civil or administrative proceeding. No person who participates in the reporting, collection, evaluation, or use of such quality management information with regard to a specific circumstance shall testify thereon in any civil or administrative proceeding. However, this subsection (4) shall not apply to:

(a) Any civil or administrative proceeding, inspection, or investigation as otherwise provided by law by the department of public health and environment or other appropriate regulatory agency having jurisdiction for disciplinary or licensing sanctions;

(b) Persons giving testimony concerning facts of which they have personal knowledge acquired independently of the quality management information program or function;

(c) The availability, as provided by law or the rules of civil procedure, of factual information relating solely to the individual in interest in a civil suit by such person, next friend or legal representative. In no event shall such factual information include opinions or evaluations performed as a part of the quality management program.

(d) Persons giving testimony concerning an act or omission which they have observed or in which they participated, notwithstanding any participation by them in the quality management program;

(e) Persons giving testimony concerning facts they have recorded in a medical record relating solely to the individual in interest in a civil suit by such person.

(5) Nothing in this section shall affect the voluntary release of any quality management record or information by a health care facility; except that no patient-identifying information shall be released without the patient's consent.

(5.5) (a) The confidentiality of information provided for in this section shall in no way be impaired or otherwise adversely affected solely by reason of the submission of the information to a nongovernmental entity to conduct studies that evaluate, develop, and analyze information about health care operations, practices, or any other function of health care facilities. The records, reports, and other information collected or developed by a nongovernmental entity shall remain protected as provided in subsections (3) and (4) of this section. In order to adequately protect the confidentiality of such information, no findings, conclusions, or recommendations contained in such studies conducted by any such nongovernmental entity shall be deemed to establish a standard of care for health care facilities.

(b) For purposes of this subsection (5.5), "health care facility" includes a health carrier as defined in section 10-16-102 (8), C.R.S., and a health care practitioner licensed or certified pursuant to title 12, C.R.S.

(6) Any person who in good faith and within the scope of the functions of a quality management program participates in the reporting, collection, evaluation, or use of quality management information or performs other functions as part of a quality management program with regard to a specific circumstance shall be immune from suit in any civil action based on such functions brought by a health care provider or person to whom the quality information pertains. In no event shall this immunity apply to any negligent or intentional act or omission in the provision of care.

(7) and (8) (Deleted by amendment, L. 97, p. 507, § 2, effective April 24, 1997.)

(9) Nothing in this section shall be construed to limit any statutory or common law privilege, confidentiality, or immunity.

(10) Nothing in this section shall revise, amend, or alter the requirements of section 25-3-107.

(11) (Deleted by amendment, L. 97, p. 507, § 2, effective April 24, 1997.)

(12) Nothing in this section shall affect a person's access to his medical record as provided in section 25-1-801, nor shall it affect the right of any family member or any other person to obtain medical record information upon the consent of the patient or his authorized representative.

ANNOTATION

The federal Protection and Advocacy for Mentally Ill Individuals Act (PAMII) requires disclosure of peer review and quality assurance records. To the extent Colorado's laws conflict with PAMII and the access to peer review and medical assurance records that PAMII provides, they are preempted. *Ctr. for Legal Advocacy v. Hammons*, 323 F.3d 1262 (10th Cir. 2003).

Documents that exist regardless of any quality management functions undertaken pursuant to a state approved quality management program are discoverable, but only from their original source; and conversations between or among health care providers about medical care before a qualifying quality management function is initiated or outside the operation of a qualifying quality management function are not

privileged. *Zander v. Craig Hosp.*, 743 F. Supp. 2d 1225 (D. Colo. 2010).

Doctor's investigation, undertaken on his own, was outside the scope of hospital's quality management program and is not privileged. Doctor's belief and expectation that hospital would initiate a quality management review does not alter the independent nature of doctor's investigation or make it privileged. *Zander v. Craig Hosp.*, 743 F. Supp. 2d 1225 (D. Colo. 2010).

A wrongful discharge claim could not be predicated on this section where, with regard to the employee's conduct at issue, this section neither established a public duty nor created an important job-related right or privilege. *Jaynes v. Centura Health Corp.*, 148 P.3d 241 (Colo. App. 2006).

25-3-110. Emergency contraception - definitions. (1) For purposes of this section, unless the context otherwise requires:

(a) "Emergency contraception" means a drug approved by the federal food and drug administration that prevents pregnancy after sexual intercourse, including but not limited to oral contraceptive pills; except that "emergency contraception" shall not include RU-486, mifepristone, or any other drug or device that induces a medical abortion. Nothing in section 2-4-401 (1.5), C.R.S., shall be construed to amend or alter the definition of "emergency contraception".

(b) "Sexual assault survivor" shall have the same meaning as "victim" as defined in section 18-3-401 (7), C.R.S.

(2) Notwithstanding any other provision of law to the contrary, all health care facilities that are licensed pursuant to this part 1 and provide emergency care to sexual assault survivors shall amend their evidence-collection protocols for the treatment of sexual assault survivors to include informing the survivor in a timely manner of the availability of emergency contraception as a means of pregnancy prophylaxis and educating the survivor on the proper use of emergency contraception and the appropriate follow-up care.

(3) Nothing in this section shall be interpreted to require:

(a) A health care professional who is employed by a health care facility that provides emergency care to a sexual assault survivor to inform the survivor of the availability of emergency contraception if the professional refuses to provide the information on the basis of religious or moral beliefs; or

(b) A health care facility to provide emergency contraception to a sexual assault survivor who is not at risk of becoming pregnant as a result of the sexual assault or who was already pregnant at the time of the assault.

(4) If any licensed pharmacy does not have nonprescription emergency contraception in stock, the pharmacy shall place a conspicuous notice in the area where customers obtain prescription drugs that states "Plan B Emergency Contraception Not Available".

(5) The general assembly encourages health care facilities to provide training to emergency room staff concerning the efficacy of emergency contraception and the time-sensitive nature of the drug.

(6) Because emergency contraception is time-sensitive and a sexual assault survivor may seek information on or direct access to emergency contraception to prevent an unintended pregnancy resulting from the assault instead of or prior to seeking hospital treatment, it is critical that sexual assault survivors have accurate information about the availability and use of emergency contraception. Therefore, the general assembly encourages:

(a) Entities offering victim assistance or counseling and rape crisis hotlines to include information concerning the availability and use of emergency contraception; and

(b) Licensed or registered pharmacies in the state of Colorado to distribute information concerning the availability and use of emergency contraception.

Source: L. 2007: Entire section added, p. 63, § 2, effective March 15. **L. 2009:** (1)(a) amended, (SB 09-225), ch. 126, p. 546, § 2, effective August 5.

Cross references: For the legislative declaration contained in the 2007 act enacting this section, see section 1 of chapter 24, Session Laws of Colorado 2007.

25-3-111. Authentication of verbal orders - hospital policies or bylaws. (1) A hospital licensed pursuant to part 3 of this article shall require that all verbal orders be authenticated by a physician or responsible individual who has the authority to issue verbal orders in accordance with hospital and medical staff policies or bylaws. The policies or bylaws shall require that:

(a) Authentication of a verbal order occurs within forty-eight hours after the time the order is made unless a read-back and verify process pursuant to paragraph (b) of this subsection (1) is used. The individual receiving a verbal order shall record in writing the date and time of the verbal order, and sign the verbal order in accordance with hospital policies or medical staff bylaws.

(b) A hospital policy may provide for a read-back and verify process for verbal orders. A read-back and verify process shall require that the individual receiving the order immediately read back the order to the physician or responsible individual, who shall immediately verify that the read-back order is correct. The individual receiving the verbal order shall record in writing that the order was read back and verified. If the read-back and verify process is followed, the verbal order shall be authenticated within thirty days after the date of the patient's discharge.

(2) Verbal orders shall be used infrequently. Nothing in this section shall be interpreted to encourage the more frequent use of verbal orders by the medical staff at a hospital.

Source: L. 2010: Entire section added, (HB 10-1229), ch. 199, p. 869, § 1, effective May 5.

25-3-112. Hospitals - charges for the uninsured - collections protection - charity care information. (1) Each hospital shall make information available to each patient about the hospital's financial assistance, charity care, and payment plan policies. Each hospital shall communicate this information in a clear and understandable manner and in languages appropriate to the communities and patients the hospital serves. The hospital shall:

(a) Post the information conspicuously on its web site;

- (b) Make the information available in patient waiting areas;
- (c) Make the information available to each patient, when possible, before the patient's discharge from the hospital; and
- (d) Include the information in each patient's billing statement.

(2) (a) When possible, each hospital shall offer to screen each uninsured patient for eligibility for financial assistance as described by this subsection (2). Each hospital shall offer financial assistance for qualified patients on a community-specific basis. In determining eligibility for financial assistance, each hospital shall, at a minimum, take into consideration federal, state, and local government requirements.

- (b) For purposes of this section, a qualified patient is an individual:

(I) Who is uninsured;

(II) Whose annual family income is not more than two hundred fifty percent of the federal poverty guidelines; and

(III) Who received a service at a hospital for which the "Colorado Indigent Care Program" established in part 1 of article 3 of title 25.5, C.R.S., was not available.

(3) A hospital shall limit the amounts charged for emergency or other medically necessary care provided to individuals eligible for assistance under the financial assistance policy described in subsection (2) of this section to not more than the lowest negotiated rate from a private health plan.

- (4) Before initiating collection proceedings, a hospital shall:

(a) Offer a qualified patient a reasonable payment plan; and

(b) Allow for at least thirty days past the due date of any scheduled payment that is not paid in full. A hospital must allow the thirty-day period only for the first late payment.

(5) Nothing in this section limits or affects a hospital's right to pursue the collection of personal injury, bodily injury, liability, uninsured, underinsured, medical payment rehabilitation, disability, homeowner's, business owner's, workers' compensation, or fault-based insurance.

(6) For the purposes of this section, "hospital" means a hospital licensed pursuant to part 1 of article 3 of this title or certified pursuant to section 25-1.5-103 (1) (a) (II).

Source: L. 2012: Entire section added, (SB 12-134), ch. 162, p. 569, § 1, effective August 8.

25-3-113. Health care facility stakeholder forum - creation - membership - duties.

(1) There is hereby created in the department of public health and environment the health care facility stakeholder forum, referred to in this section as the "stakeholder forum". The stakeholder forum must consist of representatives from various types of provider facilities licensed by the department, consumers, consumer advocates, ombudsmen, and other interested parties. The department shall meet at least four times each year with the stakeholder forum to discuss and take into consideration the concerns and issues of interest to the forum members and other attendees regarding the development and implementation of rules and other matters that affect all health care facilities licensed by the department.

(2) The members of the stakeholder forum serve on a voluntary basis without compensation and are responsible for noticing, staffing, recording, and reporting the notes from the stakeholder forum meetings. The department shall consider the attendance of its representatives at meetings with the stakeholder forum to be within the normal course of business, with no additional appropriation to or resources from the department required.

(3) The stakeholder forum and the department shall work to coordinate with, and shall not duplicate the work being done by, established or statutorily authorized advisory committees or working groups on issues related to the development and implementation of rules.

(4) For purposes of section 24-4-103 (2), C.R.S., as amended by House Bill 12-1008, enacted in 2012, the department may use the stakeholder forum described in this section, when appropriate, to serve as the representative group for the department of public health and environment.

Source: L. 2012: Entire section added, (HB 12-1294), ch. 252, p. 1258, § 8, effective June 4.

Editor's note: Subsection (4) is effective June 4, 2012, only if House Bill 12-1008 is enacted and becomes law. Said bill was signed by the governor on May 17, 2012.

Cross references: For the legislative declaration in the 2012 act adding this section, see section 1 of chapter 252, Session Laws of Colorado 2012.

PART 2

MATERNITY HOSPITALS

25-3-201 to 25-3-207. (Repealed)

Source: L. 96: Entire part repealed, p. 561, § 23, effective April 24.

Editor's note: This part 2 was numbered as article 5 of chapter 66, C.R.S. 1963. For amendments to this part 2 prior to its repeal in 1996, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 3

COUNTY HOSPITALS - ESTABLISHMENT

25-3-301. Establishment of public hospital. (1) Whenever the board of county commissioners of any county which has a population of at least three thousand is presented with a petition signed by five hundred resident registered qualified electors, or by fifty percent of the resident registered qualified electors of such county, at least two hundred fifty of whom are residents of other than the county seat or town where it is proposed to locate such public hospital, asking that a public hospital board be appointed and that an annual tax be levied for the establishment and maintenance of a public hospital at a place in the county named therein, and which petition shall specify the maximum amount of money proposed to be expended in purchasing or building said hospital, such board of county commissioners shall have the power to create, by resolution, such public hospital board, to levy such tax, and to appropriate to such public hospital board the funds for purchasing or building such hospital and for maintaining the hospital, as well as the power to turn to the control and maintenance of such public hospital board any public or other hospital then being conducted by the board of county commissioners. Said tax shall not exceed three mills on the dollar for each year.

(2) If it is proposed in such petition, or in a petition later filed with like number of resident registered qualified elector signers, to create an indebtedness of the county for purchasing, erecting, or enlarging of buildings or equipment for such public hospital, then the board of county commissioners shall submit such question in the manner provided by law for creating debt for erecting public buildings and, if the vote authorizes it, shall issue such bonds, so authorized, as the public hospital board requests. In those counties having a population of less than three thousand, a public hospital board may be created by the petition of not less than fifty-one percent of the resident registered qualified electors or two hundred such resident registered qualified electors, regardless of where they live in the county. In such counties, an annual levy of not to exceed five mills on the dollar shall be assessed to purchase, build, and maintain such a county hospital.

Source: L. 43: p. 275, § 1. **CSA: C. 78,** § 151(1). **L. 53:** p. 342, § 1. **CRS 53:** § 66-7-1. **C.R.S. 1963:** § 66-7-1. **L. 70:** p. 140, § 9. **L. 71:** p. 634, § 1.

25-3-302. Board of trustees. (1) If the board of county commissioners decides to create such public hospital board, levy such annual tax, and appropriate funds to purchase,

erect, and maintain or turn over to it control of such county hospital, the board of county commissioners shall proceed at once to appoint, for designated terms, a board of seven public hospital trustees chosen from the citizens at large with reference to their fitness for such office, all of whom shall be residents of the county and none of whom shall be an elective or appointive state, county, or city official. Not more than four of said hospital trustees shall be residents of the city or town in which said hospital is to be located. Nothing in this article shall require that a licensed physician be appointed to the board of hospital trustees; however, should a licensed physician be appointed to the board, membership on that board shall be limited to one licensed physician at any given time. The seven appointees shall constitute the board of hospital trustees for said public hospital. Such board shall be a body corporate under the name "Board of Trustees for Hospital", the name of the hospital being inserted in the blank.

(2) One of the trustees, so designated in such original appointment, shall hold office until the second Tuesday of January following his appointment, one until the second Tuesday of the second January following his appointment, two until the second Tuesday of the third January following their appointment, one until the second Tuesday of the fourth January following his appointment, and two until the second Tuesday of the fifth January from their appointment. Thereafter, the term of office of each appointee shall be five years from the end of the preceding term. At the expiration of the term of each of said trustees, the office shall be filled by appointment of the board of county commissioners.

(3) In those counties having a population of less than three thousand, the board of public hospital trustees shall consist of five citizens at large having the same requirements with reference to their fitness for such office as all other counties. One of said trustees, so designated in such original appointment, shall hold office until the second Tuesday of January following his appointment, one until the second Tuesday of the second January following his appointment, one until the second Tuesday of the third January following his appointment, one until the second Tuesday of the fourth January following his appointment, and one until the second Tuesday of the fifth January following his appointment. The term of office and the method of filling vacancies shall be the same as for all other counties.

Source: L. 43: p. 276, § 2. L. 47: p. 503, § 1. CSA: C. 78, § 151(2). L. 53: p. 343, § 2. CRS 53: § 66-7-2. C.R.S. 1963: § 66-7-2. L. 84: (1) amended, p. 752, § 1, effective March 5.

25-3-303. Organization of trustees. (1) The members of the board of public hospital trustees within ten days after their appointment shall qualify by taking the oath of office. On the second Tuesday of each January, they shall organize and operate as follows:

(a) Unless otherwise authorized under the provisions of paragraph (b) of this subsection (1), they shall elect one of their number as president, one as vice-president, and one as secretary. No bond shall be required of them. The county treasurer of the county shall be treasurer of the board of trustees and shall receive and pay out all moneys under the control of said board as ordered by it but shall receive no compensation from such board. No trustee shall receive any compensation for services performed but may receive reimbursement for any cash expenditures actually made for personal expenses incurred as such trustee. An itemized statement of all such expenses and money paid out shall be made under oath by such trustee and filed with the secretary and allowed only by the affirmative vote of all the trustees present at a meeting of the board.

(b) If approved by resolution of the board of county commissioners, the board may organize and operate by electing one of their number as president, one as vice-president, and one as secretary-treasurer. The trustees may appoint an assistant secretary-treasurer from outside the membership of the board of trustees. No bond shall be required of the trustees, except of the secretary-treasurer and assistant secretary-treasurer who shall each file with the board of trustees, at the expense of the hospital, a corporate fidelity bond in an amount not less than ten thousand dollars, conditioned on the faithful performance of the duties of his office. The secretary-treasurer shall receive and pay out all the moneys under the control of the board of trustees as ordered by it. No trustee shall receive any compensation for services performed, but may receive reimbursement for any cash expenditures actually

made for personal expenses incurred as such trustee. An itemized statement of all such expenses and money paid out shall be made under oath by such trustee and filed with the secretary-treasurer and allowed only by the affirmative vote of all the trustees present at a meeting of the board.

(2) For purposes of part 4 of article 6 of title 24, C.R.S., any board of public hospital trustees created pursuant to section 25-3-302 shall continue to be a local public body, as defined in section 24-6-402 (1) (a), C.R.S., regardless of whether the hospital governed by such board of trustees is designated an enterprise pursuant to section 25-3-304 (3).

Source: L. 43: p. 276, § 3. CSA: C. 78, § 151(3). CRS 53: § 66-7-3. C.R.S. 1963: § 66-7-3. L. 73: p. 690, § 1. L. 93: (2) added, p. 1819, § 2, effective June 6.

25-3-304. Trustees - powers and duties. (1) The board of public hospital trustees shall make and adopt such bylaws, rules, and regulations for its own guidance and for the government of the hospital as it deems expedient for the economic and equitable conduct thereof, not inconsistent with state law or the ordinances of the city or town wherein such public hospital is located. The public hospital board shall have the exclusive control of the use and expenditure of all moneys collected to the credit of the hospital, including the right to invest or have invested hospital moneys and funds held by the hospital or in the office of the county treasurer and to receive the interest and income therefrom, and of the purchase of sites, the purchase, construction, or enlargement of any hospital building, and the supervision, care, and custody of the grounds, rooms, or buildings purchased, constructed, leased, or set apart for that purpose. The hospital board may acquire by lease real and personal property subject to the approval of the board of county commissioners. All tax moneys received for hospital purposes shall be paid out of the county treasury only upon warrants drawn by the county commissioners upon sworn vouchers approved by the hospital board. All other moneys received for such hospital shall be deposited in the treasury of the hospital and paid out only upon order of said hospital board. Hospital property and facilities, including real and personal property, may be acquired and held by lease or conveyance on transfer of title, but if by conveyance title to all lands shall be in the name of the county. County hospitals situated in home rule counties shall have the additional borrowing authority as granted by section 30-35-201 (23) (b), C.R.S.

(2) The board of public hospital trustees shall have power to hire, retain, and remove agents and employees, including administrative, nursing, and professional personnel, engineers, architects, and attorneys, and to fix their compensation; shall have the power to borrow money and incur indebtedness, and to issue bonds and other evidence of such indebtedness; except that no indebtedness shall be created, except as otherwise provided by statute, in excess of the revenue which may reasonably be expected to be available to the hospital for repayment thereof in the fiscal year in which such indebtedness is to be created, and except that no such indebtedness shall be incurred without the approval of the board of county commissioners; and shall in general carry out the spirit and intent of this part 3 in establishing and maintaining a county public hospital. Such board of public hospital trustees shall hold meetings at least once each month and shall keep a complete record of all its proceedings. Four members of the board shall constitute a quorum for the transaction of business. One of the trustees shall visit and examine said hospital at least twice each month, and the public hospital board, during the first week in each January and July, shall file with the board of county commissioners a report of their proceedings with reference to such hospital and a statement of all receipts and expenditures during the half year. On or before each October first, the board shall certify to the board of county commissioners the amount necessary to maintain and improve said hospital for the ensuing year. No trustee shall have a personal pecuniary interest, either directly or indirectly, in the purchase of any supplies for said hospital, unless the same are purchased by competitive bidding.

(3) (a) The board of public hospital trustees may, in accordance with the provisions of paragraph (b) of this subsection (3), designate the hospital as an enterprise for purposes of section 20 of article X of the state constitution so long as said board of trustees retains authority to issue revenue bonds and the hospital receives less than ten percent of its total annual revenues in grants. So long as the hospital is designated as an enterprise pursuant to

the provisions of this subsection (3), the hospital shall not be subject to any of the provisions of section 20 of article X of the state constitution.

(b) (I) The board of public hospital trustees may, by resolution, designate the hospital as an enterprise as long as the hospital meets the requirements for an enterprise as stated in paragraph (a) of this subsection (3). Such designation shall be effective beginning with the budget year immediately following the budget year in which such resolution is adopted. Such resolution shall be adopted no sooner than ninety days and no later than thirty days prior to the commencement of the budget year in which such designation becomes effective.

(II) The board of public hospital trustees may, by resolution, revoke the designation of the hospital as an enterprise. Such revocation shall be effective beginning with the budget year immediately following the budget year in which such resolution is adopted. Such resolution shall be adopted no sooner than ninety days and no later than thirty days prior to the commencement of the budget year in which such revocation becomes effective.

(III) Upon adoption of any resolution pursuant to the provisions of subparagraph (I) or (II) of this paragraph (b), the board of public hospital trustees shall transmit a copy of the resolution to the division of local government in the department of local affairs and the appropriate board or boards of county commissioners.

(IV) The termination or revocation of the designation of the hospital as an enterprise shall not affect in any manner the validity of any revenue bonds issued by the board of public hospital trustees of such hospital pursuant to subsection (4) of this section.

(c) (I) For purposes of this subsection (3), "grant" means any direct cash subsidy or other direct contribution of money from the state or any local government in Colorado which is not required to be repaid.

(II) "Grant" does not include:

(A) Any indirect benefit conferred upon a hospital from the state or any local government in Colorado;

(B) Any revenues resulting from rates, fees, assessments, or other charges imposed by a hospital for the provision of goods or services by such hospital;

(C) Any federal funds, regardless of whether such federal funds pass through the state or any local government in Colorado prior to receipt by a hospital.

(4) (a) Subject to the limitations set forth in paragraph (b) of this subsection (4), the board of public hospital trustees shall have the power to issue revenue bonds, secured by any revenues of the hospital other than property tax revenues. Notwithstanding subsection (2) of this section to the contrary, such revenue bonds may provide for their repayment over a term greater than one fiscal year. The board shall authorize the issuance of revenue bonds by resolution, duly approved by no less than two-thirds of the entire membership of the board. All bonds shall be signed by the president of the board of trustees, countersigned by the secretary of the board of trustees, and shall be numbered and registered in a book kept by the secretary or the secretary-treasurer, as applicable. Each bond shall state upon its face the amount for which such bond is issued, to whom such bond is issued, and the date of its issuance.

(b) Except as otherwise provided in this paragraph (b), the issuance of any revenue bonds pursuant to the provisions of this subsection (4) shall not become effective for a period of thirty days following the adoption of any resolution authorizing such issuance for the purpose of allowing the board of county commissioners to review such pending bond issue. Such review period shall commence upon the date of receipt by the board of county commissioners of written notice from the board of public hospital trustees of such pending revenue bond issue. During said thirty days, the board of county commissioners may file a written notice with the board of trustees stating that the board of county commissioners has no objection to such pending bond issue. Upon receipt of such notice of no objection, the issuance of such revenue bonds shall become effective. If, within said thirty days, the board of county commissioners does not file with the board of trustees either a written notice of no objection or a written objection, the issuance of such revenue bonds shall become effective. If the board of county commissioners files a written objection, the issuance of such revenue bonds shall be prohibited until such time as the board of county commissioners gives written notice to the board of trustees of withdrawal of the board's objection.

Source: L. 43: p. 277, § 4. CSA: C. 78, § 151(4). CRS 53: § 66-7-4. C.R.S. 1963: § 66-7-4. L. 73: p. 691, § 2. L. 81: (1) amended, p. 1486, § 2, effective June 8. L. 93: (3) and (4) added, p. 1817, § 1, effective June 6. L. 94: (3)(c)(II)(B) amended, p. 1640, § 59, effective May 31.

25-3-305. Vacancies - removal for cause. Vacancies in the board of trustees occasioned by removals, resignations, or otherwise shall be reported to the board of county commissioners and be filled in like manner as original appointments. Any trustee may be removed for cause by the board of county commissioners.

Source: L. 43: p. 278, § 5. CSA: C. 78, § 151(5). CRS 53: § 66-7-5. C.R.S. 1963: § 66-7-5.

25-3-306. Right of eminent domain. If the board of public hospital trustees and the owners of any property desired by it for hospital purposes cannot agree as to the price to be paid therefor, said board shall report the facts to the board of county commissioners, and condemnation proceedings shall be instituted by the board of county commissioners and prosecuted in the name of the county wherein such public hospital is to be located.

Source: L. 43: p. 278, § 6. CSA: C. 78, § 151(6). CRS 53: § 66-7-6. C.R.S. 1963: § 66-7-6.

25-3-307. Building requirements. No hospital buildings shall be erected or constructed until the plans and specifications have been made therefor and adopted by the board of public hospital trustees and bids advertised for according to law as for other county public buildings. Such hospital may be in more than one unit or set of buildings within the same town or city, or in separate towns or cities, or within adjacent counties, and, if in adjacent counties, upon approval of the respective boards of county commissioners.

Source: L. 43: p. 278, § 7. CSA: C. 78, § 151(7). L. 51: p. 442, § 1. CRS 53: § 66-7-7. C.R.S. 1963: § 66-7-7. L. 73: p. 692, § 3.

25-3-308. Improvements or enlargements. In counties exercising the rights conferred by this part 3, the board of county commissioners may appropriate each year, in addition to the tax for hospital fund provided for in section 25-3-301, not more than five percent of its general fund for the improvement or enlargement of any public hospital so established.

Source: L. 43: p. 278, § 8. CSA: C. 78, § 151(8). CRS 53: § 66-7-8. C.R.S. 1963: § 66-7-8.

25-3-309. Hospital fees. Every hospital established under this part 3 shall be for the benefit of the inhabitants of such county and of any person falling sick or being injured or maimed within its limits. Every inhabitant or person who is not a pauper shall pay to the board of public hospital trustees or such officer as it shall designate for such county public hospital a reasonable compensation for occupancy, nursing, laboratories, care, medicine, or attendants according to the rules and regulations prescribed by said board in order to render the use of said hospital of the greatest benefit to the greatest number.

Source: L. 43: p. 278, § 9. CSA: C. 78, § 151(9). CRS 53: § 66-7-9. C.R.S. 1963: § 66-7-9.

25-3-310. Rules and regulations. (1) When such hospital is established, the physicians, nurses, attendants, persons sick therein, and persons approaching or coming within the limits of same and all buildings and grounds of such hospital and all furniture and other

articles used or brought there shall be subject to such rules and regulations as said public hospital board may prescribe.

(2) Said public hospital board may exclude from the use of such hospital any inhabitants and persons who willfully violate such rules and regulations. The board may extend the privileges and use of such hospital to persons residing outside of such county upon such terms and conditions as said board may from time to time by its rules and regulations prescribe.

Source: L. 43: p. 279, § 10. CSA: C. 78, § 151(10). CRS 53: § 66-7-10. C.R.S. 1963: § 66-7-10.

25-3-311. Donations permitted. Any person, firm, organization, corporation, or society desiring to make donations of money, personal property, or real estate for the benefit of such public hospital shall have the right to vest title of the money, personal property, or real estate so donated in said county, to be controlled, when accepted, by the board of public hospital trustees according to the terms of the deed, gift, devise, or bequest of such property.

Source: L. 43: p. 279, § 11. CSA: C. 78, § 151(11). CRS 53: § 66-7-11. C.R.S. 1963: § 66-7-11. L. 83: Entire section amended, p. 2050, § 16, effective October 14.

25-3-312. Training school for nurses. The board of trustees of such county public hospital may establish and maintain, in connection therewith and as a part of said public hospital, a training school for nurses.

Source: L. 43: p. 279, § 12. CSA: C. 78, § 151(12). CRS 53: § 66-7-12. C.R.S. 1963: § 66-7-12.

25-3-313. Lease of hospital. The public hospital board having control of such hospital after its establishment and turning over to its management may in its discretion rent or lease the said hospital, for such rental and for such term as it deems reasonable and proper, to any corporation not for pecuniary profit duly organized under the laws of the state of Colorado for the purpose of conducting a hospital.

25-3-314. Charge for professional services. Any hospital which is owned by a county, or by a city and county, having a population in excess of two hundred fifty thousand persons and which is a teaching hospital duly accredited as such by the joint commission on accreditation of hospitals and by the council on medical education of the American medical association may employ physicians and surgeons licensed to practice medicine in the state of Colorado for the performance of professional services in such hospital or in any related outpatient facility which is owned by such county or city and county. Charges for the services so rendered by any such physician or surgeon, excluding professional trainees, may be collected through the medium of such hospital in the name of the physician or surgeon and, upon collection, may be placed in a medical practice fund to be established, maintained, and used by such hospital solely for the purpose of payment of compensation to the physicians and surgeons so employed and for the payment of consultation fees to other physicians and surgeons not so employed, or directly to physicians and surgeons who are directly engaged in medical research or medical education.

25-3-315. Records of hospital. For purposes of part 2 of article 72 of title 24, C.R.S., the records of any hospital established pursuant to this part 3 shall continue to be public records, as defined in section 24-72-202 (6), C.R.S., regardless of whether such hospital is designated as an enterprise pursuant to section 25-3-304 (3).

Source: L. 93: Entire section added, p. 1819, § 3, effective June 6.

PART 4

STATE PLAN FOR IMPLEMENTATION OF FEDERAL ACT FOR THE CONSTRUCTION OF HEALTH FACILITIES

25-3-401. Department to administer plan. (1) The department of public health and environment is designated as the sole agency for carrying out the purposes of the federal "Hospital Survey and Construction Act", Public Law 79-725 of the 79th Congress of the United States, approved August 13, 1946, or any amendments thereto, and the successor provisions thereof of Public Law 93-641, and is authorized to formulate, submit, and administer a state plan for carrying out the provisions thereof and to accept on behalf of the state any funds allotted to the state under the provision of the said federal acts, or any amendments thereto. In carrying out the purposes of this section, the department of public health and environment is authorized to make such reports as may be required by the said federal acts, or any amendments thereto, and to do all things that may be required as a condition precedent to the proper application for the receipt of federal grants under the said federal acts, and any amendments thereto and regulations thereof, and to administer and supervise the expenditure of such grants for the purposes of this section.

(2) The state plan established under subsection (1) of this section shall provide for adequate hospital facilities for the people residing in the state, without discrimination on account of race, creed, or color, and shall provide for adequate hospital facilities for persons unable to pay therefor. The department of public health and environment shall provide minimum standards for the maintenance and operation of hospitals which receive federal aid under this part 4, and compliance with such standards shall be required in the case of hospitals which have received federal aid under the provisions of said federal acts, or any amendments thereto.

25-3-403. Department to administer federal mental retardation and mental health construction funds. The department of public health and environment is designated as the sole agency for carrying out the purposes of Part C of Title I and Title II of the federal "Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963", Public Law 88-164 of the 88th congress of the United States, approved October 31, 1963, or any amendments thereto, and is authorized to administer a state plan for carrying out the provisions thereof and to accept, on behalf of the state, all funds allotted to the state

under the provisions of said federal act, or any amendments thereto. Such state plan shall be formulated by the state mental health and mental retardation authority. In carrying out the purposes hereof, the department of public health and environment is authorized to make such reports as may be required by said federal act, or any amendments thereto, and to do all things that may be required as a condition precedent to the proper application for the receipt of federal grants under said federal act, and any amendments thereto and regulations thereof, and to administer and supervise the expenditure of such grants for the purposes hereof in consultation with the mental health and mental retardation authority of the state of Colorado.

PART 5

CERTIFICATE OF PUBLIC NECESSITY

25-3-501 to 25-3-521. (Repealed)

Editor’s note: (1) This part 5 was numbered as article 41 of chapter 66, C.R.S. 1963. For amendments to this part 5 prior to its repeal in 1987, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Pursuant to § 25-3-521, as enacted by section 1 of chapter 107, Session Laws of Colorado 1982, this part 5 was to be repealed effective July 1 after the date congress repealed state requirements for certificates of public necessity as provided in Pub.L. 93-641. Such requirements were repealed by Pub.L. 99-660, effective January 1, 1987. This part 5 was therefore repealed effective July 1, 1987.

PART 6

HOSPITAL-ACQUIRED INFECTIONS DISCLOSURE

25-3-601. Definitions. As used in this part 6, unless the context otherwise requires:

(1) “Advisory committee” means the advisory committee created pursuant to section 25-3-602 (4).

(2) “Department” means the department of public health and environment.

(3) “Health facility” means a hospital, a hospital unit, an ambulatory surgical center, or a dialysis treatment clinic currently licensed or certified by the department pursuant to the department’s authority under section 25-1.5-103 (1) (a).

(4) “Hospital-acquired infection” means a localized or systemic condition that results from an adverse reaction to the presence of an infectious agent or its toxins that was not present or incubating at the time of admission to the health facility.

(5) “Infection” means the invasion of the body by pathogenic microorganisms that reproduce and multiply, causing disease by local cellular injury, secretion of a toxin, or antigen-antibody reaction in the host.

Source: L. 2006: Entire part added, p. 1569, § 1, effective June 2. L. 2007: IP added, p. 2041, § 65, effective June 1.

25-3-602. Health facility reports - repeal. (1) (a) A health facility shall collect data on hospital-acquired infection rates for specific clinical procedures, including the following categories:

- (I) Cardiac surgical site infections;
- (II) Orthopedic surgical site infections; and
- (III) Central line-related bloodstream infections.

(b) The advisory committee may define criteria to determine when data on a procedure listed in paragraph (a) of this subsection (1) shall be collected.

(c) An individual who collects data on hospital-acquired infection rates shall take the test for the appropriate national certification for infection control and become certified within six months after the individual becomes eligible to take the certification test. Mandatory national certification requirements shall not apply to individuals collecting data on hospital-acquired infections in hospitals licensed for fifty beds or less, licensed ambulatory surgical centers, and certified dialysis treatment centers. Qualifications for these individuals may be met through ongoing education, training, experience, or certification, as defined by the department.

(2) Each physician who performs a clinical procedure listed in subsection (1) of this section shall report to the health facility at which the clinical procedure was performed a hospital-acquired infection that the physician diagnoses at a follow-up appointment with the patient using standardized criteria and methods consistent with guidelines determined by the advisory committee. The reports made to the health facility under this subsection (2) shall be included in the reporting the health facility makes under subsection (3) of this section.

(3) (a) A health facility shall routinely submit its hospital-acquired infection data to the national healthcare safety network in accordance with national healthcare safety network requirements and procedures. The data submissions shall begin on or before July 31, 2007, and continue thereafter.

(b) If a health facility is a division or subsidiary of another entity that owns or operates other health facilities or related organizations, the data submissions required under this part 6 shall be for the specific division or subsidiary and not for the other entity.

(c) Health facilities shall authorize the department to have access to health-facility-specific data contained in the national healthcare safety network database consistent with the requirements of this part 6.

(4) (a) The executive director of the department shall appoint an advisory committee. The advisory committee shall consist of:

- (I) One representative from a public hospital;
- (II) One representative from a private hospital;
- (III) One board-certified or board-eligible physician licensed in the state of Colorado, who is affiliated with a Colorado hospital or medical school, who is an active member of a national organization specializing in health care epidemiology or infection control, and who has demonstrated an interest and expertise in health facility infection control;
- (IV) Four infection control practitioners as follows:
 - (A) One from a stand-alone ambulatory surgical center; and
 - (B) Three health care professionals certified by the certification board of infection control and epidemiology, inc., or its successor;
- (V) Either one medical statistician with an advanced degree in such specialty or one clinical microbiologist with an advanced degree in such specialty;
- (VI) One representative from a health consumer organization;
- (VII) One representative from a health insurer; and
- (VIII) One representative from a purchaser of health insurance.

(b) The advisory committee shall assist the department in development of the department's oversight of this article and the department's methodology for disclosing the information collected under this part 6, including the methods and means for release and dissemination.

(c) The department and the advisory committee shall evaluate on a regular basis the quality and accuracy of health-facility information reported under this part 6 and the data collection, analysis, and dissemination methodologies.

(d) The advisory committee shall elect a chair of the advisory committee annually. The advisory committee shall meet no less than four times per year in its first year of existence

and no less than two times in each subsequent year. The chair shall set the meeting dates and times. The members of the advisory committee shall serve without compensation.

(5) (a) The advisory committee shall recommend additional clinical procedures based upon the criteria set forth in paragraph (c) of this subsection (5) that must be reported pursuant to subsection (1) of this section in the manner specified in paragraph (b) of this subsection (5). The recommendations of the advisory committee shall be consistent with information that may be collected by the national healthcare safety network.

(b) (I) On or before November 1, 2008, the advisory committee shall either recommend to the department the addition of abdominal surgical site infections and at least one other clinical procedure to the data collected on hospital-acquired infection rates as required in this section or comply with the provisions of paragraph (d) of this subsection (5) and shall recommend to the department whether to include long-term acute care centers as health facilities that are subject to the reporting requirements of this part 6.

(II) In addition to the requirements of subparagraph (I) of this paragraph (b), on or before November 1, 2010, the advisory committee shall either recommend to the department the addition of at least two clinical procedures to the data collected on hospital-acquired infection rates as required in this section or comply with the provisions of paragraph (d) of this subsection (5).

(c) In making its recommendations under paragraph (a) or (b) of this subsection (5), the advisory committee shall recommend clinical procedures using the following considerations:

(I) Whether the procedure contains a high risk for infection contraction;

(II) Whether the type or types of infection present a serious risk to the patient's health or life; and

(III) Any other factors determined by the advisory committee.

(d) If the advisory committee determines that it is unable to identify at least two clinical procedures for addition to the data collected by the deadline, the committee shall report to the department its reasons for not identifying at least two new clinical procedures.

(6) The advisory committee may recommend that health facilities report process measures to the advisory committee, in addition to those listed in subsections (1) and (5) of this section, to accommodate best practices for effective prevention of infection.

(7) (a) Subsections (4), (5), and (6) of this section and this subsection (7) are repealed, effective July 1, 2016.

(b) Prior to such repeal, the advisory committee and its functions shall be reviewed as provided for in section 2-3-1203, C.R.S.

Source: **L. 2006:** Entire part added, p. 1570, § 1, effective June 2. **L. 2009:** (1)(c) amended, (HB 09-1025), ch. 34, p. 143, § 1, effective August 5. **L. 2012:** (4)(a)(IV) amended, (HB 12-1294), ch. 252, p. 1259, § 9, effective June 4.

Cross references: For the legislative declaration in the 2012 act amending subsection (4)(a)(IV), see section 1 of chapter 252, Session Laws of Colorado 2012.

25-3-603. Department reports. (1) On or before January 15, 2008, and each January 15 thereafter, the department shall submit to the health and human services committees of the house of representatives and of the senate a report summarizing the risk-adjusted health-facility data. The department shall post the report on its web site.

(2) The department shall issue semi-annual informational bulletins summarizing all or part of the information submitted in the health-facility reports.

(3) (a) All data in reports issued by the department shall be risk-adjusted consistent with the standards of the national healthcare safety network.

(b) The annual report shall compare the risk-adjusted, hospital-acquired infection rates, collected under section 25-3-602, for each individual health facility in the state. The department, in consultation with the advisory committee, shall make this comparison as easy to comprehend as possible. The report shall include an executive summary, written in plain language, that includes, but is not limited to, a discussion of findings, conclusions, and trends concerning the overall state of hospital-acquired infections in the state, including a

comparison to prior years when available. The report may include policy recommendations as appropriate.

(c) The department shall publicize the report and its availability as widely as practical to interested parties, including but not limited to health facilities, providers, media organizations, health insurers, health maintenance organizations, purchasers of health insurance, organized labor, consumer or patient advocacy groups, and individual consumers. The annual report shall be made available to any person upon request.

(d) A health-facility report or department disclosure may not contain information identifying a patient, employee, or licensed health care professional in connection with a specific infection incident.

Source: L. 2006: Entire part added, p. 1572, § 1, effective June 2.

25-3-604. Privacy. Compliance with this part 6 shall not violate a patient's right to confidentiality. A patient's social security number and any other information that could be used to identify a patient shall not be released, notwithstanding any other provision of law.

Source: L. 2006: Entire part added, p. 1573, § 1, effective June 2.

25-3-605. Confidentiality. (1) Except as provided by subsection (5) of this section, all information and materials obtained and compiled by the department under this part 6 or compiled by a health facility under this part 6, including all related information and materials, are confidential; are not subject to disclosure, discovery, subpoena, or other means of legal compulsion for release to any person, subject to subsection (2) of this section; and may not be admitted as evidence or otherwise disclosed in a civil, criminal, or administrative proceeding.

(2) The confidential protections under subsection (1) of this section shall apply without regard to whether the information or materials are obtained from or compiled by a health facility or an entity that has ownership or management interests in a health facility.

(3) The transfer of information or materials under this part 6 is not a waiver of a privilege or protection granted under law.

(4) Information reported by a health facility under this part 6 and analyses, plans, records, and reports obtained, prepared, or compiled by a health facility under this part 6 and all related information and materials are subject to an absolute privilege and shall not be used in any form against the health facility, its agents, employees, partners, assignees, or independent contractors in any civil, criminal, or administrative proceeding, regardless of the means by which a person came into possession of the information, analysis, plan, record, report, or related information or materials.

(5) The provisions of this section regarding the confidentiality of information or materials compiled or reported by a health facility in compliance with or as authorized under this part 6 shall not restrict access, to the extent authorized by law, by the patient or the patients' legally authorized representative to records of the patient's medical diagnosis or treatment or to other primary health records.

Source: L. 2006: Entire part added, p. 1573, § 1, effective June 2.

25-3-606. Penalties. (1) A determination that a health facility has violated the provisions of this part 6 may result in the following:

(a) Termination of licensure or other sanctions related to licensure under part 1 of this article; or

(b) A civil penalty of up to one thousand dollars per violation for each day the health facility is in violation of this part 6.

Source: L. 2006: Entire part added, p. 1574, § 1, effective June 2.

25-3-607. Regulatory oversight. The department shall be responsible for ensuring compliance with this part 6 as a condition of licensure under part 1 of this article and shall enforce compliance according to the provisions in part 1 of this article.

Source: L. 2006: Entire part added, p. 1574, § 1, effective June 2.

PART 7

COLORADO HOSPITAL REPORT CARD ACT

Editor's note: This part 7 was originally numbered as part 6 in House Bill 06-1278 but has been renumbered on revision for ease of location.

25-3-701. Short title. This part 7 shall be known and may be cited as the "Colorado Hospital Report Card Act".

Source: L. 2006: Entire part added, p. 1576, § 1, effective August 7.

25-3-702. Comprehensive hospital information system - executive director - duties - definitions. (1) (a) The executive director shall approve a comprehensive hospital information system to provide for the collection, compilation, coordination, analysis, indexing, and utilization of both purposefully collected and extant hospital-related data and statistics to produce and report comparable and uniform health information and statistics that shall be utilized in the development and production of the report card described in section 25-3-703. The executive director shall designate or contract with any individual or entity he or she deems appropriate to carry out the purposes of this part 7.

(b) (I) The association selected pursuant to subsection (3) of this section shall review and prepare the nursing-sensitive quality measures set forth in this paragraph (b) for inclusion in the hospital information system and hospital report card developed pursuant to this part 7. In reviewing and preparing to implement the nursing-sensitive quality measures, the association shall determine whether the measures should be reported for the hospital as a whole or by unit level of a hospital. In making its determinations pursuant to this paragraph (b), the association shall involve and seek input from no more than seven direct-care nurses who have been recommended by the governor.

(II) The association shall collect, review, and implement the following nursing-sensitive quality measures as soon as practicable:

(A) Practice environment scale or PES, as defined by the national quality forum, which is the nursing work index that measures the composite score and individual scores for the following subscales: Nurse participation in hospital affairs; nursing foundations for quality of care; nurse manager ability, leadership, and support of nurses; staffing and resource adequacy; and collegiality of nurse-physician relations; and

(B) Registered nurse education and certification.

(III) The association shall collect, review, and implement the following nursing-sensitive quality measures, as defined by the national quality forum, no later than November 30, 2010:

(A) Skill mix;

(B) The nursing hours per patient day;

(C) Voluntary turnover;

(D) Patient falls prevalence rate; and

(E) Patient falls with injury.

(IV) The association shall identify a process or mechanism to allow access to or use of the data collected pursuant to this paragraph (b), as appropriate, for research purposes.

(V) The association may exempt from the requirements of this paragraph (b) a licensed or certified hospital that has not more than one hundred licensed beds.

(VI) As used in this paragraph (b):

(A) “Direct-care nurse” means a registered nurse who is engaged in direct patient care responsibilities in an inpatient hospital unit setting for more than fifty percent of his or her working hours.

(B) (Deleted by amendment, L. 2010, (SB 10-217), ch. 315, p. 1474, § 1, effective May 27, 2010.)

(C) “National quality forum” means the private, not-for-profit membership organization created to develop and implement a national strategy for healthcare quality measurement and reporting, or its successor organization.

(2) In order to implement this section the executive director or his or her designee shall:

(a) Develop and implement a long-range plan for making available clinical outcomes and data that will allow consumers to compare health care services;

(b) On or before May 15, 2007, submit an initial plan and an annual update to the plan and a report on the status of implementation to the governor, the president of the senate, and the speaker of the house of representatives with copies to all members of the general assembly and available to the public on an internet web site. The plan shall identify the process and time frames for implementation, barriers to implementation, and recommendations of changes in the law that may be enacted by the general assembly to eliminate the barriers.

(c) Make available clinical outcomes measures from general hospitals licensed pursuant to this article and public hospitals certified pursuant to section 25-1.5-103 (1) (a). When determining which data to report, the executive director or designee shall consider:

(I) Inclusion of data on all patients regardless of the payer source for Colorado hospitals and other information that may be required for either individual or group purchasers to assess the value of the product;

(II) Use of standardized clinical outcomes measures recognized by national organizations that establish standards to measure the performance of health care providers;

(III) Data that is severity and acuity adjusted using statistical methods that show variation in reported outcomes, where applicable, and data that has passed standard edits;

(IV) Reporting the results with separate documents containing the technical specification and measures;

(V) Standardization in reporting; and

(VI) Disclosure of the methodology of reporting.

(3) (a) The executive director shall select a duly constituted association of hospitals for assistance in carrying out the purposes of this part 7 and shall rely upon the advice and assistance of the selected association. The association shall provide the executive director with a copy of the association’s organizational documents and any rules or regulations governing the association’s activities and a list of the association’s members. The association shall provide to the executive director a plan outlining the association’s inclusion and consideration of the interests of health care consumers, including health plans and employers, in the process of carrying out the purposes of this part 7. The name and address of a representative of the organization, who is a resident of this state, upon whom notices or orders of the executive director may be served shall be provided to the executive director. The executive director shall have the authority to examine the collection, analysis, and validity of the data used as a basis for the reporting required in this part 7.

(b) The executive director may refuse to accept, or may suspend or revoke the acceptance of, an association for any of the following reasons:

(I) It reasonably appears that the association will not be able to carry out the purpose of this part 7.

(II) The association does not provide to the executive director a plan outlining the association’s inclusion and consideration of the interests of health care consumers, including health plans and employers, in the process of carrying out the purposes of this part 7.

(III) On or before April 15, 2007, the association does not submit a plan to the executive director and report on the status of its implementation satisfactory to the executive director.

(IV) The association fails to meet other applicable requirements prescribed in this part 7.

(c) There shall not be liability on the part of, nor shall a cause of action of any nature arise against, the association or its agents, employees, directors, or authorized designees of the executive director for actions taken or omitted in the performance of their powers and duties under this section.

(4) (a) In the event the executive director refuses to accept, or suspends or revokes the acceptance of, an association previously accepted for assistance in carrying out the purposes of this part 7 for any of the reasons set forth in this part 7, there shall be created in the state department the Colorado commission for hospital statistics, referred to in this subsection (4) as the "commission", to carry out the purposes of this part 7.

(b) The commission shall consist of nine members, who shall be appointed by the governor with the consent of the senate, as follows:

(I) Three members representing hospitals licensed under this article;

(II) Two members representing licensed health care providers; and

(III) Four members representing consumers or businesses without any direct interest in hospitals licensed under this article.

(c) At no time shall the commission have more than five members of any one political party. Members of the commission shall be compensated for actual and necessary expenses incurred in the conduct of official business.

(d) The commission shall annually elect the chairman of the commission from its members. A majority of the commission shall constitute a quorum.

(e) The commission shall meet at least once during each calendar quarter. Meeting dates shall be set upon written request by three or more members of the commission or by a call of the chairman upon five days' notice to the members.

(f) Action of the commission shall not be taken except upon the affirmative vote of a majority of a quorum of the commission.

(g) All meetings of the commission shall be open to the public pursuant to section 24-6-402, C.R.S.

Source: L. 2006: Entire part added, p. 1576, § 1, effective August 7. L. 2008: (1) amended, p. 709, § 1, effective August 5. L. 2010: (1)(b)(II)(B) and (1)(b)(VI)(B) amended, (SB 10-217), ch. 315, p. 1474, § 1, effective May 27.

Editor's note: This section was originally numbered as § 25-3-602 in House Bill 06-1278 but has been renumbered on revision for ease of location.

25-3-703. Hospital report card. (1) The executive director shall approve a Colorado hospital report card consisting of public disclosure of data assembled pursuant to this part 7. At a minimum, the data shall be made available on an internet web site in a manner that allows consumers to conduct an interactive search that allows them to view and compare the information for specific hospitals. The web site shall include such additional information as is determined necessary to ensure that the web site enhances informed decision making among consumers and health care purchasers, which shall include, at a minimum, appropriate guidance on how to use the data and an explanation of why the data may vary from hospital to hospital. The data specified in this subsection (1) shall be released on or before November 30, 2007.

(2) Prior to the completion of the Colorado hospital report card, the executive director shall ensure that every hospital is allowed thirty days within which to examine the data and submit comments for consideration and inclusion in the final Colorado hospital report card.

Source: L. 2006: Entire part added, p. 1579, § 1, effective August 7.

25-3-704. Fees. (1) The executive director shall annually determine the costs incurred by the department and the Colorado commission for hospital statistics in completing the requirements of this part 7.

(2) The executive director shall apportion, according to net patient service revenues, the costs annually among the hospitals who pay the annual registration fee required by this

section and report the same to the state board of health. The state board of health by rule or as otherwise provided by law may increase the amount of the annual fee imposed by this section. At no time shall the fee be higher than what is necessary to implement the report required pursuant to this part 7.

(3) All fees collected pursuant to this part 7 shall be transmitted to the state treasurer, who shall credit the same to the health facilities general licensure cash fund created in section 25-3-103.1.

(4) Notwithstanding the amount specified for the fee in this section, the state board of health by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the state board of health by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

Source: L. 2006: Entire part added, p. 1579, § 1, effective August 7.

25-3-705. Health care charge transparency - hospital charge report. (1) The commissioner of insurance shall work with the duly constituted association of hospitals selected by the executive director pursuant to section 25-3-702 for assistance in carrying out the purposes of this section.

(2) (a) On or before August 1, 2009, and on or before each August 1 thereafter, each hospital licensed pursuant to part 1 of this article shall report annually to the association of hospitals the information necessary to allow the association to determine the charges for the twenty-five most common inpatient diagnostic-related groups for which there are at least ten cases rendered by the hospital during the calendar year immediately preceding the release of the hospital charge report. If a hospital does not have twenty-five of the most common diagnostic-related groups with at least ten or more cases rendered, the hospital shall report only on those most common diagnostic-related groups that have at least ten cases rendered.

(b) A hospital that does not use diagnostic-related groups is exempt from paragraph (a) of this subsection (2).

(3) (a) The commissioner of insurance shall work with the association of hospitals to incorporate the information reported pursuant to this section on the web site.

(b) The commissioner of insurance shall require the association of hospitals to submit a plan to the commissioner on or before November 30, 2008, that states the implementation status of a plan to make the hospital charges reported pursuant to this section available to the public on the web site. The plan shall identify the process and time periods for implementation, any barriers to implementation, and recommendations of changes in the law that may be enacted by the general assembly to eliminate the barriers.

(c) When developing the required plan, the association of hospitals shall consider:

- (I) The method for hospitals to report charges to the association;
- (II) Standards that provide for the validity and comparability of hospital charges; and
- (III) The format for making hospital charges available to the public.

(4) (a) The association of hospitals shall make the information reported by the hospitals pursuant to this section available on the web site on or before August 1, 2009, and on or before August 1 of each year thereafter. The information reported by the hospitals shall include disclaimers regarding factors including case severity ratings and individual patient variations that may affect actual charges to a patient for services provided.

(b) The information reported by the hospitals that is published in accordance with this section shall include:

- (I) Volume of cases by diagnostic-related group required to be reported by the hospital;
- (II) Rank by volume of the top twenty-five diagnostic-related groups required to be reported by the hospital;
- (III) Mean charge for each of the top twenty-five diagnostic-related groups with more than ten occurrences by hospital;

(IV) Case severity rating by hospital by diagnostic-related group; and

(V) A general disclaimer statement regarding the hospital variations and patient variations that affect the actual charges to patients.

(c) Before publication of the information published pursuant to this section on the web site, the commissioner shall ensure that every hospital is allowed thirty days within which to examine the data and submit comments for consideration and inclusion in the final hospital charge report.

(5) (a) The commissioner of insurance shall approve the publication of information on the web site consisting of public disclosure of charge data assembled pursuant to this section. At a minimum, the information shall be made available on the web site in a manner that allows consumers to conduct an interactive search to view and compare the information for specific hospitals. The web site shall include any additional information necessary to ensure that the web site information is available to consumers and health care purchasers. The information shall include, at a minimum, appropriate guidance on how to use the data and an explanation of why the data may vary from hospital to hospital. The report specified in this subsection (5) shall be released on the web site on or before August 1, 2009, and on or before each August 1 thereafter.

(b) The commissioner of insurance shall make the web site available by hyperlink on the division of insurance web site.

(c) The division of insurance shall review the information posted on the web site to ensure that the web site and information provided by the association is easy to navigate, contains consumer-friendly language, and fulfills the intent of this section. The division shall also ensure that the hyperlink from the division's web site to the web site is easily accessible.

(6) There shall be no liability on the association of hospitals or a cause of action against the association or its agents, employees, or directors or authorized designees of the commissioner for actions taken or omitted in the performance of duties pursuant to this section.

(7) Repealed.

(8) For purposes of this section:

(a) "Charge" means the amount that a hospital expects to charge for an inpatient diagnostic-related group. A charge that is required to be reported to the public shall be the mean charge for all cases of the diagnostic-related group occurring in the calendar year prior to the release of the hospital charge report.

(b) "Diagnostic-related group" means the classification assigned to an inpatient hospital service claim based on the patient's age and sex, the principal and secondary diagnoses, the procedures performed, and the discharge status.

(c) "Web site" means a web site established by the association of hospitals that links to the web site created pursuant to section 25-3-703.

Source: L. 2008: Entire section added, p. 1262, § 3, effective May 27. L. 2011: (7) repealed, (HB 11-1303), ch. 264, p. 1165, § 60, effective August 10.

PART 1

GENERAL AND ADMINISTRATIVE

25-3.5-101. Short title. This article shall be known and may be cited as the “Colorado Emergency Medical and Trauma Services Act”.

Source: **L. 77:** Entire article added, p. 1278, § 2, effective January 1, 1978. **L. 2000:** Entire section amended, p. 525, § 1, effective July 1.

25-3.5-102. Legislative declaration. (1) The general assembly hereby declares that it is in the public interest to provide available, coordinated, and quality emergency medical and trauma services to the people of this state. It is the intent of the general assembly in enacting this article to establish an emergency medical and trauma services system, consisting of at least treatment, transportation, communication, and documentation subsystems, designed to prevent premature mortality and to reduce the morbidity that arises from critical injuries, exposure to poisonous substances, and illnesses.

(2) To effect this end, the general assembly finds it necessary that the department of public health and environment assist, when requested by local government entities, in planning and implementing any one of such subsystems so that it meets local and regional needs and requirements and that the department coordinate local systems so that they interface with an overall state system providing maximally effective emergency medical and trauma systems.

(3) The general assembly further finds that the provision of adequate emergency medical and trauma services on highways in all areas of the state is a matter of statewide concern and requires state financial assistance and support.

Source: **L. 77:** Entire article added, p. 1278, § 2, effective January 1, 1978. **L. 83:** (1) amended, p. 1055, § 2, effective July 1. **L. 89:** (3) added, p. 1148, § 1, effective July 1. **L. 94:** (2) amended, p. 2757, § 417, effective July 1. **L. 2000:** Entire section amended, p. 525, § 2, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Limitation on entities eligible to license ambulances. Since the general assembly has indicated a coordinated system of emergency medical care to be of statewide concern and has provided a comprehensive statutory scheme to regulate the field, governmental entities other than those provided in § 25-3.5-301 may not license ambulances. *DuHamel v. People ex rel. City of Arvada*, 42 Colo. App. 491, 601 P.2d 639 (1979).

To subject ambulance companies to authority of two jurisdictions is contrary to purpose of section because it fragments the coordinated system and could reduce the availability of service. *DuHamel v. People ex rel. City of Arvada*, 42 Colo. App. 491, 601 P.2d 639 (1979).

25-3.5-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Air ambulance” means a fixed-wing or rotor-wing aircraft that is equipped to provide air transportation and is specifically designed to accommodate the medical needs of individuals who are ill, injured, or otherwise mentally or physically incapacitated and who require in-flight medical supervision.

(1.5) “Ambulance” means any privately or publicly owned ground vehicle:

(a) Especially constructed or modified and equipped, intended to be used, and maintained or operated by an ambulance service for the transportation, upon the streets and highways in this state, of individuals who are sick, injured, or otherwise incapacitated or helpless; and

(b) That is required to be licensed pursuant to part 3 of this article.

(2) (Deleted by amendment, L. 2005, p. 1330, § 1, effective July 1, 2005.)

(3) “Ambulance service” means the furnishing, operating, conducting, maintaining, advertising, or otherwise engaging in or professing to be engaged in the transportation of patients by ambulance. Taken in context, it also means the person so engaged or professing to be so engaged. The person so engaged and the vehicles used for the emergency transportation of persons injured at a mine are excluded from this definition when the personnel utilized in the operation of said vehicles are subject to the mandatory safety standards of the federal mine safety and health administration, or its successor agency.

(3.5) “Board” means the state board of health created pursuant to section 25-1-103.

(4) “Board of county commissioners” includes the governing body of any city and county.

(5) “Department” means the department of public health and environment.

(6) “Director” means the executive director of the department of public health and environment.

(7) “Emergency” means any actual or self-perceived event which threatens life, limb, or well-being of an individual in such a manner that a need for immediate medical care is created.

(7.5) “Emergency medical practice advisory council” or “advisory council” means the emergency medical practice advisory council created in section 25-3.5-206.

(8) “Emergency medical service provider” means an individual who holds a valid emergency medical service provider certificate issued by the department as provided in this article.

(9) “Patient” means any individual who is sick, injured, or otherwise incapacitated or helpless.

(10) “Permit” means the authorization issued by the governing body of a local government with respect to an ambulance used or to be used to provide ambulance service in this state.

(10.6) “Refresher course program” means a program establishing a course of instruction designed to keep emergency medical service providers abreast of developments or new techniques in their profession, which course includes an examination administered at any time during or following the course to facilitate continuing evaluation of emergency medical service providers.

(11) “Rescue unit” means any organized group chartered by this state as a corporation not for profit or otherwise existing as a nonprofit organization whose purpose is the search for and the rescue of lost or injured persons and includes, but is not limited to, such groups as search and rescue, mountain rescue, ski patrols (either volunteer or professional), law enforcement posses, civil defense units, or other organizations of governmental designation responsible for search and rescue.

(11.5) “Service agency” means a fixed-base or mobile prehospital provider of emergency medical services that employs emergency medical service providers to render medical care to patients.

(12) “Volunteer emergency medical service provider” means an emergency medical service provider who does not receive direct remuneration for the performance of emergency medical services.

Source: **L. 77:** Entire article added, p. 1279, § 2, effective January 1, 1978. **L. 80:** (1) and (3) amended, p. 633, § 1, effective April 8. **L. 84:** (10.6) added, p. 763, § 1, effective July 1. **L. 87:** (12) added, p. 1126, § 1, effective July 1. **L. 94:** (5) and (6) amended, p. 2757, § 418, effective July 1. **L. 2000:** (3.5) and (11.5) added, p. 526, § 3, effective July 1. **L. 2005:** (1) and (2) amended and (1.5) added, p. 1330, § 1, effective July 1. **L. 2010:** (7.5) added, (HB 10-1260), ch. 403, p. 1944, § 6, effective July 1. **L. 2012:** (8), (10.6), (11.5), and (12) amended, (HB 12-1059), ch. 271, p. 1437, § 20, effective July 1.

Editor's note: Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending subsections (8), (10.6), (11.5), and (12) applies to acts committed on or after July 1, 2012.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (5) and (6), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-3.5-104. Emergency medical and trauma services advisory council - creation - duties. (1) (a) There is hereby created, in the department of public health and environment, a state emergency medical and trauma services advisory council, referred to in this article as the "council", to be composed of thirty-two members, of whom twenty-five shall be appointed by the governor no later than January 1, 2001, and at least one of whom shall be from each of the regional emergency medical and trauma advisory council planning areas established in section 25-3.5-704. The other seven members shall be ex officio, nonvoting members. Not more than thirteen of the appointed members of the council shall be members of the same political party. A majority of the members shall constitute a quorum. The membership of the council shall reflect, as equally as possible, representation of urban and rural members.

- (b) The appointed members of the council shall be from the following categories:
- (I) A fire chief of a service that provides prehospital care in an urban area;
 - (II) A fire chief of a service that provides prehospital care in a rural area;
 - (III) An administrative representative of an urban trauma center;
 - (IV) An administrative representative of a rural trauma center;
 - (V) A licensed physician who is a prehospital medical director;
 - (VI) A board-certified physician certified in pediatrics or a pediatric subspecialty;
 - (VII) A board-certified emergency physician;
 - (VIII) A flight nurse of an emergency medical service air team or unit;
 - (IX) An officer or crew member of a volunteer organization who provides prehospital care;
 - (X) An officer or employee of a public provider of prehospital care;
 - (XI) An officer or employee of a private provider of prehospital care;
 - (XII) A representative of a government provider of prehospital care;
 - (XIII) Three county commissioners or council members from a city and county, two of whom shall represent rural counties and one of whom shall represent an urban county or city and county;
 - (XIV) A board-certified surgeon providing trauma care at a level I trauma center;
 - (XV) A board-certified surgeon providing trauma care at a level II trauma center;
 - (XVI) A board-certified surgeon providing trauma care at a level III trauma center;
 - (XVII) A board-certified neurosurgeon involved in providing trauma care at a level I or II trauma center;
 - (XVIII) A trauma nurse coordinator;
 - (XIX) A registered nurse involved in rural emergency medical and trauma services care;
 - (XX) A regional council chair;
 - (XXI) A county emergency manager; and
 - (XXII) Two representatives of the general public, one from a rural area and one from an urban area.

(c) Ex officio, nonvoting members of the council shall include members from the following categories:

- (I) A representative of the state coroners' association, as selected by the association;

(II) The director of the state board for community colleges and occupational education or the director's designee;

(III) The manager of the telecommunication services of the Colorado information technology services in the department of personnel, general support services, or the manager's designee;

(IV) The executive director of the department of public health and environment or the director's designee;

(V) The director of the office of transportation safety in the department of transportation or the director's designee;

(VI) A representative from the state sheriffs' association; and

(VII) A representative from the Colorado state patrol.

(2) Members of the council shall serve for terms of three years each; except that, of the members first appointed, eight shall be appointed for terms of one year, nine shall be appointed for terms of two years, and eight shall be appointed for terms of three years. Members of the council shall be reimbursed for actual and necessary expenses incurred in the actual performance of their duties. All vouchers for expenditures shall be subject to approval by the director. A vacancy shall be filled by appointment by the governor for the remainder of the unexpired term. Any appointed member who has two consecutive unexcused absences from meetings of the council shall be deemed to have vacated the membership, and the governor shall fill such vacancy as provided in this subsection (2).

(3) The council shall meet at least quarterly at the call of the chairperson or at the request of any seven members. At the first meeting after the appointment of new members, the members shall elect a chairperson who shall serve for a term of one year.

(4) The council shall:

(a) Advise the department on all matters relating to emergency medical and trauma services programs;

(b) Make recommendations concerning the development and implementation of statewide emergency medical and trauma services;

(c) Identify and make recommendations concerning statewide emergency medical and trauma service needs;

(d) Review and approve new rules and modifications to rules existing prior to July 1, 2000, prior to the adoption of such rules or modifications by the state board of health;

(e) Review and make recommendations concerning guidelines and standards for the delivery of emergency medical and trauma services, including:

(I) Establishing a list of minimum equipment requirements for ambulance vehicles operated by an ambulance service licensed in this state and making recommendations on the process used by counties in the licensure of ambulance services;

(II) Developing curricula for the training of emergency medical personnel; and

(III) Making recommendations on the verification process used by the department to determine facility eligibility to receive trauma center designation;

(f) Seek advice and counsel, up to and including the establishment of special ad hoc committees with other individuals, groups, organizations, or associations, when in the judgment of the council such is advisable to obtain necessary expertise for the purpose of meeting the council's responsibilities under this article. The council is authorized to establish special committees for the functions described in this paragraph (f).

(g) Review and make recommendations to the department regarding the amount, allocation, and expenditure of funds for the development, implementation, and maintenance of the statewide emergency medical and trauma system.

25-3.5-106. Local standards - uninterrupted service. (1) Nothing in this article shall be construed to prevent a municipality or special district from adopting standards more stringent than those provided in this article.

(2) In no event shall the providing of service to sick or injured persons be interrupted, between point of origin and point of destination, when an ambulance run traverses one or more jurisdictions whose adopted standards are more stringent than those adopted in the jurisdiction where such ambulance run originates.

Source: **L. 77:** Entire article added, p. 1281, § 2, effective January 1, 1978.

ANNOTATION

This section does not refer to licensing of ambulances. DuHamel v. People ex rel. City of Arvada, 42 Colo. App. 491, 601 P.2d 639 (1979).

25-3.5-107. Religious exception. Nothing in this article or the rules and regulations adopted pursuant to this article shall be construed to authorize any medical treatment or transportation to any hospital or other emergency care center of an adult who objects thereto on religious grounds and signs a written waiver to that effect.

Source: **L. 77:** Entire article added, p. 1281, § 2, effective January 1, 1978.

PART 2

TREATMENT SUBSYSTEM

25-3.5-201. Training programs. (1) The department shall design and establish specialized curricula for personnel who respond routinely to emergencies. The board of county commissioners may select from the various curricula available those courses meeting the minimum requirements established by said board.

(2) The department shall distribute the curricula and teaching aids to training institutions and hospitals upon request from a recognized training group or hospital. If a county

is unable to arrange for necessary training programs, the department shall arrange a training program within the immediate vicinity of the agency requesting the program. The department shall issue emergency medical service provider certificates in accordance with section 25-3.5-203 (1) and may issue certificates of successful course completion to those individuals who successfully complete other emergency medical services training programs of the department. The programs may provide for the training of emergency medical dispatchers, emergency medical services instructors, emergency medical services coordinators, and other personnel who provide emergency medical services. The receipt of the certificate of course completion is not deemed state licensure, approval, or a determination of competency.

Source: **L. 77:** Entire article added, p. 1281, § 2, effective January 1, 1978. **L. 92:** (2) amended, p. 1143, § 1, effective May 29. **L. 2010:** (1) amended, (HB 10-1260), ch. 403, p. 1944, § 7, effective July 1. **L. 2012:** (2) amended, (HB 12-1059), ch. 271, p. 1428, § 2, effective July 1.

Editor's note: Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending subsection (2) applies to acts committed on or after July 1, 2012.

25-3.5-202. Personnel - basic requirements. Emergency medical personnel employed or utilized in connection with an ambulance service shall meet the qualifications established, by resolution, by the board of county commissioners of the county in which the ambulance is based in order to be certified. For ambulance drivers, the minimum requirements include the possession of a valid driver's license and other requirements established by the board by rule under section 25-3.5-308; for any person responsible for providing direct emergency medical care and treatment to patients transported in an ambulance, the minimum requirement is possession of an emergency medical service provider certificate issued by the department. In the case of an emergency in an ambulance service area where no person possessing the qualifications required by this section is present or available to respond to a call for the emergency transportation of patients by ambulance, any person may operate the ambulance to transport any sick, injured, or otherwise incapacitated or helpless person in order to stabilize the medical condition of the person pending the availability of medical care.

Source: **L. 77:** Entire article added, p. 1281, § 2, effective January 1, 1978. **L. 78:** Entire section amended, p. 409, § 1, effective April 4. **L. 79:** Entire section amended, p. 1011, § 1, effective July 1. **L. 84:** Entire section amended, p. 764, § 4, effective July 1. **L. 2000:** Entire section amended, p. 529, § 5, effective July 1. **L. 2012:** Entire section amended, (HB 12-1059), ch. 271, p. 1428, § 3, effective July 1.

Editor's note: Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending this section applies to acts committed on or after July 1, 2012.

25-3.5-203. Emergency medical service providers - certification - renewal of certificate - duties of department - rules - criminal history record checks.

(1) (a) Repealed.

(a.5) The executive director or chief medical officer shall regulate the acts emergency medical service providers are authorized to perform subject to the medical direction of a licensed physician. The executive director or chief medical officer, after considering the advice and recommendations of the advisory council, shall adopt and revise rules, as necessary, regarding the regulation of emergency medical service providers and their duties and functions.

(b) The department shall certify emergency medical service providers. The board shall adopt rules for the certification of emergency medical service providers. The rules must include the following:

(I) A statement that a certificate is valid for a period of three years after the date of issuance;

(II) A statement that the certificate shall be renewable at its expiration upon the certificate holder's satisfactory completion of the training requirements established pursuant to subsection (2) of this section;

(III) Provisions governing the use of results of national and state criminal history record checks by the department to determine the action to take on a certification application pursuant to subsection (4) of this section. Notwithstanding the provisions of section 24-5-101, C.R.S., these provisions shall allow the department to consider whether the applicant has been convicted of a felony or misdemeanor involving moral turpitude and the pertinent circumstances connected with the conviction and to make a determination whether any such conviction disqualifies the applicant from certification.

(IV) Disciplinary sanctions, which shall include provisions for the denial, revocation, and suspension of certificates and the suspension and probation of certificate holders; and

(V) An appeals process pursuant to sections 24-4-104 and 24-4-105, C.R.S., that is applicable to department decisions in connection with certifications and sanctions.

(c) (I) The department may issue a provisional certification to an applicant for certification as an emergency medical service provider who requests issuance of a provisional certification and who pays any fee authorized under rules adopted by the board. A provisional certification is valid for not more than ninety days.

(II) The department shall not issue a provisional certification unless the applicant satisfies the requirements for certification in accordance with this section and rules adopted by the board under this subsection (1). If the department finds that an emergency medical service provider that has received a provisional certification has violated any requirements for certification, the department may impose disciplinary sanctions under subparagraph (IV) of paragraph (b) of this subsection (1).

(III) The department may issue a provisional certification to an applicant whose fingerprint-based criminal history record check has not yet been completed. The department shall require the applicant to submit a name-based criminal history record check prior to issuing a provisional certification.

(IV) The board shall adopt rules as necessary to implement this paragraph (c), including rules establishing a fee to be charged to applicants seeking a provisional certification. Any fee collected for a provisional certification shall be deposited in the emergency medical services account created in section 25-3.5-603.

(d) (I) The department shall exempt certified emergency medical service providers who have been called to federally funded active duty for more than one hundred twenty days to serve in a war, emergency, or contingency from the payment of certification fees and from continuing education or professional competency requirements of this article for a renewal date during the service or the six months after the completion of service.

(II) Upon presentation of satisfactory evidence by an applicant for renewal of certification, the department may accept continuing medical education, training, or service completed by an individual as a member of the armed forces or reserves of the United States, the National Guard of any state, the military reserves of any state, or the naval militia of any state toward the qualifications to renew the individual's certification.

(III) An individual serving in the armed services of the United States or the spouse of the individual may apply for certification under this article while stationed within this state. The individual or spouse is exempt from the initial certification requirements in this article, except for those in subsection (4) of this section if the person holds a valid certificate or license to provide emergency medical services from another state, the certificate or license is current, and the person is in good standing.

(IV) The board shall promulgate rules to implement this paragraph (d), including the criteria and evidence for acceptable continuing medical education and training or service.

(2) The council shall advise the department and the board in establishing the training requirements for certificate renewal. Such training requirements shall consist of not more than fifty classroom hours and not less than thirty-six classroom hours.

(3) Repealed.

(4) (a) The department may, with reasonable cause, acquire a fingerprint-based criminal history record check from the Colorado bureau of investigation to investigate the holder of or applicant for an emergency medical service provider certificate. The department may acquire a name-based criminal history record check for a certificate holder or an applicant who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable.

(b) (I) Any government entity that employs a person as or allows a person to volunteer as an emergency medical service provider in a position requiring direct contact with patients shall require all volunteer and employed emergency medical service providers, who have lived in the state for three years or less at the time of the initial certification or certification renewal, to submit to a federal bureau of investigation fingerprint-based national criminal history record check to determine eligibility for employment. Each emergency medical service provider required to submit to a federal bureau of investigation fingerprint-based national criminal history record check shall obtain a complete set of fingerprints taken by a local law enforcement agency or another entity designated by the department. The local law enforcement agency or other designated entity that took the fingerprints shall transmit them to the Colorado bureau of investigation, which shall in turn forward them to the federal bureau of investigation for a national criminal history record check. The department or other authorized government entity is the authorized agency to receive and disseminate information regarding the result of a national criminal history record check. Each entity handling the national criminal history record check shall comply with Pub.L. 92-544, as amended. Each government entity acting as the authorized recipient of the result of a national criminal history record check shall forward the result of the initial national criminal history record check and any subsequent notification of activity on the record to the department to determine the individual's eligibility for initial certification or certification renewal.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), the government entity may acquire a name-based criminal history record check for an individual who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable.

(c) (I) (A) A government entity or private, not-for-profit, or for-profit organization that employs a person or allows a person to volunteer as an emergency medical service provider in a position requiring direct contact with patients shall require all volunteer and employed emergency medical service providers, who have lived in the state for more than three years at the time of initial certification or certification renewal, to submit to a fingerprint-based criminal history record check by the Colorado bureau of investigation to determine eligibility for employment. The organization shall forward the result of the criminal history record check and any subsequent notification of activity on the record to the department to determine eligibility for initial certification or certification renewal.

(B) Notwithstanding the provisions of sub-subparagraph (A) of this subparagraph (I), the government entity or private, not-for-profit, or for-profit organization may acquire a name-based criminal history record check for an individual who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (c), if a person submitted to a fingerprint-based criminal history record check at the time of initial certification or certification renewal, the person shall not be required to submit to a subsequent fingerprint-based criminal history record check.

(d) (I) If an applicant for initial certification or certification renewal is not employed at the time of application, the department shall require the applicant to submit to a fingerprint-based criminal history record check by the Colorado bureau of investigation as defined in rule by the board of health, if the applicant has lived in the state for more than three years; except that the department may acquire a state name-based criminal history record check for an applicant who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (d), if a person submitted to a fingerprint-based criminal history record check at the time of initial

certification or certification renewal, the person shall not be required to submit to a subsequent fingerprint-based criminal history record check.

(e) If the applicant is not employed or is employed by a nongovernmental entity at the time of application and has lived in the state for three years or less, the department shall require the applicant to submit to a federal bureau of investigation fingerprint-based national criminal history record check; except that the department may acquire a national name-based criminal history record check for an applicant who has twice submitted to a fingerprint-based criminal history record check and whose fingerprints are unclassifiable. The department shall be the authorized agency to receive and disseminate information regarding the result of any national criminal history record check. Any such national criminal history record check shall be handled in accordance with Pub.L. 92-544, as amended.

(5) For the purposes of this article, unless the context otherwise requires, “medical direction” includes, but is not limited to, the following:

(a) Approval of the medical components of treatment protocols and appropriate prearrival instructions;

(b) Routine review of program performance and maintenance of active involvement in quality improvement activities, including access to dispatch tapes as necessary for the evaluation of procedures;

(c) Authority to recommend appropriate changes to protocols for the improvement of patient care; and

(d) Provide oversight for the ongoing education, training, and quality assurance for providers of emergency care.

25-3.5-204. Emergency medical services for children. (1) The department is authorized to establish a program to improve the quality of emergency care to pediatric patients throughout the state, including a component to address public awareness of pediatric emergencies and injury prevention.

(2) The department is authorized to receive contributions, grants, donations, or funds from any public or private entity to be expended for the program authorized pursuant to this section.

Source: **L. 95:** Entire section added, p. 1361, §4, effective July 1.

25-3.5-205. Emergency medical service providers - investigation - discipline.

(1) (a) The department may administer oaths, take affirmations of witnesses, and issue subpoenas to compel the attendance of witnesses and the production of all relevant records and documents to investigate alleged misconduct by certified emergency medical service providers.

(b) Upon failure of a witness to comply with a subpoena, the department may apply to a district court for an order requiring the person to appear before the department or an administrative law judge, to produce the relevant records or documents, or to give testimony or evidence touching the matter under investigation or in question. When seeking an order, the department shall apply to the district court of the county in which the subpoenaed person resides or conducts business. The court may punish such failure as a contempt of court.

(2) An emergency medical service provider, the employer of an emergency medical service provider, a medical director, and a physician providing medical direction of an emergency medical service provider shall report to the department any misconduct that is known or reasonably believed by the person to have occurred.

(3) A person acting as a witness or consultant to the department, a witness testifying, and a person or employer who reports misconduct to the department under this section shall be immune from liability in any civil action brought for acts occurring while testifying, producing evidence, or reporting misconduct under this section if such individual or employer was acting in good faith and with a reasonable belief of the facts. A person or employer participating in good faith in an investigation or an administrative proceeding pursuant to this section shall be immune from any civil or criminal liability that may result from such participation.

(4) All records, documents, testimony, or evidence obtained under this section shall remain confidential except to the extent necessary to support the administrative action taken by the department, to refer the matter to another regulatory agency, or to refer the matter to a law enforcement agency for criminal prosecution.

(5) For the purposes of this section:

(a) "Medical director" means a physician who supervises certified emergency medical service providers consistent with the rules adopted by the executive director or chief medical officer, as applicable, under section 25-3.5-206.

(b) "Misconduct" means an activity meeting the good cause for disciplinary sanctions standard, as defined by the board.

Source: **L. 2005:** Entire section added, p. 875, § 1, effective August 8. **L. 2010:** (5)(a) amended, (HB 10-1260), ch. 403, p. 1945, § 9, effective July 1. **L. 2012:** (1)(a), (2), and (5)(a) amended, (HB 12-1059), ch. 271, p. 1430, § 5, effective July 1.

Editor's note: Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending subsections (1)(a), (2), and (5)(a) applies to acts committed on or after July 1, 2012.

25-3.5-206. Emergency medical practice advisory council - creation - powers and duties - emergency medical service provider scope of practice rules.

(1) There is hereby created within the department, as a **type 2** entity under the direction of the executive director of the department, the emergency medical practice advisory council, referred to in this part 2 as the "advisory council". The advisory council is responsible for advising the department regarding the appropriate scope of practice for emergency medical service providers certified under section 25-3.5-203.

(2) (a) The emergency medical practice advisory council consists of the following eleven members:

(I) Eight voting members appointed by the governor as follows:

(A) Two physicians licensed in good standing in Colorado who are actively serving as emergency medical service medical directors and are practicing in rural or frontier counties;

(B) Two physicians licensed in good standing in Colorado who are actively serving as emergency medical service medical directors and are practicing in urban counties;

(C) One physician licensed in good standing in Colorado who is actively serving as an emergency medical service medical director in any area of the state;

(D) One emergency medical service provider certified at an advanced life support level who is actively involved in the provision of emergency medical services;

(E) One emergency medical service provider certified at a basic life support level who is actively involved in the provision of emergency medical services; and

(F) One emergency medical service provider certified at any level who is actively involved in the provision of emergency medical services;

(II) One voting member who, as of July 1, 2010, is a member of the state emergency medical and trauma services advisory council, appointed by the executive director of the department; and

(III) Two nonvoting ex officio members appointed by the executive director of the department.

(b) Members of the advisory council shall serve four-year terms; except that, of the members initially appointed to the advisory council by the governor, four members shall serve three-year terms. A vacancy on the advisory council shall be filled by appointment by the appointing authority for that vacant position for the remainder of the unexpired term. Members serve at the pleasure of the appointing authority and continue in office until the member's successor is appointed.

(c) Members of the advisory council shall serve without compensation but shall be reimbursed from the emergency medical services account, created in section 25-3.5-603, for their actual and necessary travel expenses incurred in the performance of their duties under this article.

(d) The advisory council shall elect a chair and vice-chair from its members.

(e) The advisory council shall meet at least quarterly and more frequently as necessary to fulfill its obligations.

(f) The department shall provide staff support to the advisory council.

(g) As used in this subsection (2), "licensed in good standing" means that the physician holds a current, valid license to practice medicine in Colorado that is not subject to any restrictions.

(3) The advisory council shall provide general technical expertise on matters related to the provision of patient care by emergency medical service providers and shall advise or make recommendations to the department in the following areas:

(a) The acts and medications that certified emergency medical service providers at each level of certification are authorized to perform or administer under the direction of a physician medical director;

(b) Requests for waivers to the scope of practice rules adopted pursuant to this section and section 25-3.5-203 (1) (a.5);

(c) Modifications to emergency medical service provider certification levels and capabilities; and

(d) Criteria for physicians to serve as emergency medical service medical directors.

(4) (a) The executive director or, if the executive director is not a physician, the chief medical officer shall adopt rules in accordance with article 4 of title 24, C.R.S., concerning the scope of practice of emergency medical service providers for prehospital care. The rules must include the following:

(I) Allowable acts for each level of emergency medical service provider certification and the medications that each level of emergency medical service provider certification can administer;

(II) Defining the physician medical direction required for appropriate oversight of an emergency medical service provider by an emergency medical services medical director;

(III) Criteria for requests to waive the scope of practice rules and the conditions for such waivers; and

(IV) Minimum standards for physicians to be emergency medical services medical directors.

(b) Rules adopted pursuant to this subsection (4) supersede any rules of the Colorado medical board regarding the matters set forth in this subsection (4).

Source: L. 2010: Entire section added, (HB 10-1260), ch. 403, p. 1945, § 10, effective July 1. **L. 2012:** (1), IP(2)(a), (2)(a)(I)(D), (2)(a)(I)(E), (2)(a)(I)(F), IP(3), (3)(a), (3)(c), IP(4)(a), (4)(a)(I), and (4)(a)(II) amended, (HB 12-1059), ch. 271, p. 1431, § 6, effective July 1.

Editor's note: Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending subsection (1), the introductory portion to subsection (2)(a), subsections (2)(a)(I)(D), (2)(a)(I)(E), and (2)(a)(I)(F), the introductory portion to subsection (3), subsections (3)(a) and (3)(c), the introductory portion to subsection (4)(a), and subsections (4)(a)(I) and (4)(a)(II) applies to acts committed on or after July 1, 2012.

PART 3

TRANSPORTATION SUBSYSTEM

25-3.5-301. License required - exceptions. (1) After January 1, 1978, no person shall provide ambulance service publicly or privately in this state unless that person holds a valid license to do so issued by the board of county commissioners of the county in which the ambulance service is based, except as provided in subsection (5) of this section. Licenses, permits, and renewals thereof, issued under this part 3, shall require the payment of fees in amounts to be determined by the board to reflect the direct and indirect costs incurred by the department in implementing such licensure, but the board may waive payment of such fees for ambulance services operated by municipalities or special districts.

(2) (a) (I) Each ambulance operated by an ambulance service shall be issued a permit and, in order to be approved, shall bear evidence that its equipment meets or is equivalent to the minimum requirements set forth in the minimum equipment list established by the council and approved by the state board of health. The board of county commissioners of any county may impose by resolution additional requirements for ambulances based in such county.

(II) Repealed.

(a.1) Repealed.

(b) The council shall make available to the board of county commissioners guidelines for ambulance design criteria for use in developing standards for vehicle replacement.

(3) No patient shall be transported in an ambulance in this state after January 1, 1978, unless there are two or more individuals, including the driver, present and authorized to operate said ambulance except under unusual conditions when only one authorized person is available.

(4) (Deleted by amendment, L. 2002, p. 696, § 1, effective May 29, 2002.)

(5) The provisions of subsections (1) to (3) of this section shall not apply to the following:

(a) The exceptional emergency use of a privately or publicly owned vehicle, including search and rescue unit vehicles, or aircraft not ordinarily used in the formal act of transporting patients;

(b) A vehicle rendering services as an ambulance in case of a major catastrophe or emergency when ambulances with permits based in the localities of the catastrophe or emergency are insufficient to render the services required;

(c) Ambulances based outside this state which are transporting a patient in Colorado;

(d) Vehicles used or designed for the scheduled transportation of convalescent patients, individuals with disabilities, or persons who would not be expected to require skilled treatment or care while in the vehicle;

(e) Vehicles used solely for the transportation of intoxicated persons or persons incapacitated by alcohol as defined in section 27-81-102, C.R.S., but who are not otherwise disabled or seriously injured and who would not be expected to require skilled treatment or care while in the vehicle.

Source: L. 77: Entire article added, p. 1282, § 2, effective January 1, 1978. **L. 81:** (2)(a) amended, p. 1944, § 4, effective July 1; (2)(a.1) added, p. 1951, § 18, effective July

1, 1984. **L. 84:** (2)(a)(I) amended, p. 1125, § 45, effective July 1; (2)(a)(II) and (2)(a.1) repealed, p. 1080, § 1, effective July 1; (2)(a.1)(I) amended, p. 765, § 6, effective July 1. **L. 93:** (5)(d) amended, p. 1664, § 73, effective July 1. **L. 2002:** (1) and (4) amended, p. 696, § 1, effective May 29. **L. 2010:** (5)(e) amended, (SB 10-175), ch. 188, p. 799, § 62, effective April 29.

ANNOTATION

Limitation on entities which may license ambulances. Since the general assembly has indicated a coordinated system of emergency medical care to be of statewide concern and has provided a comprehensive statutory scheme to regulate the field, governmental entities other than those provided in this section may not license ambulances. *DuHamel v. People ex rel. City of Arvada*, 42 Colo. App. 491, 601 P.2d 639 (1979).

To subject ambulance companies to authority of two jurisdictions is contrary to purpose of this act because it fragments the coordinated system and could reduce the availability of service. *DuHamel v. People ex rel. City of Arvada*, 42 Colo. App. 491, 601 P.2d 639 (1979).

25-3.5-302. Issuance of licenses and permits - term - requirements. (1) (a) After receipt of an original application for a license to provide ambulance service, the board of county commissioners shall review the application and the applicant's record and provide for the inspection of equipment to determine compliance with the provisions of this part 3.

(b) The board of county commissioners shall issue a license to the applicant to provide ambulance service and a permit for each ambulance used, both of which shall be valid for twelve months following the date of issue, upon a finding that the applicant's staff, vehicle, and equipment comply with the provisions of this part 3 and any other requirement established by said board.

(2) Any such license or permit, unless revoked by the board of county commissioners, may be renewed by filing an application as in the case of an original application for such license or permit. Applications for renewal shall be filed annually but not less than thirty days before the date the license or permit expires.

(3) No license or permit issued pursuant to this section shall be sold, assigned, or otherwise transferred.

ANNOTATION

Applied in *DuHamel v. People ex rel. City of Arvada*, 42 Colo. App. 491, 601 P.2d 639 (1979).

25-3.5-303. Vehicular liability insurance required. No ambulance shall operate in this state unless it is covered by a complying policy as defined in section 10-4-601 (2), C.R.S.

Source: **L. 77:** Entire article added, p. 1283, § 2, effective January 1, 1978. **L. 2006:** Entire section amended, p. 1504, § 45, effective June 1.

25-3.5-304. Suspension - revocation - hearings. (1) Upon a determination by the board of county commissioners that any person has violated or failed to comply with any provisions of this part 3, the board may temporarily suspend, for a period not to exceed thirty days, any license or permit issued pursuant to this part 3. The licensee shall receive written notice of such temporary suspension, and a hearing shall be held no later than ten days after such temporary suspension. After such hearing, the board may suspend any license or permit, issued pursuant to this part 3, for any portion of or for the remainder of

its life. At the end of such period, the person whose license or permit was suspended may apply for a new license or permit as in the case of an original application.

(2) Upon a second violation or failure to comply with any provision of this part 3 by any licensee, the board of county commissioners may permanently revoke such license or permit.

Source: L. 77: Entire article added, p. 1283, § 2, effective January 1, 1978.

25-3.5-305. Alleged negligence. (1) In any legal action filed against a person who has been issued a license pursuant to this part 3 in which it is alleged that the plaintiff's injury, illness, or incapacity was exacerbated or that he was otherwise injured by the negligence of the licensee, an act of negligence shall not be presumed based on the fact of the allegation.

(2) In the event a judgment is entered against any such licensee, he shall, within thirty days thereof, file a copy of the findings of fact, conclusions of law, and order in such case with the clerk and recorder of the county issuing the license. Said board shall take note of such judgment for purposes of investigation and appropriate action if a violation of this part 3 is present. Any and all complaints received directly by said board shall be subject to review.

Source: L. 77: Entire article added, p. 1283, § 2, effective January 1, 1978.

25-3.5-306. Violation - penalty. Any person who violates any provision of this part 3 commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S.

Source: L. 77: Entire article added, p. 1284, § 2, effective January 1, 1978. **L. 2002:** Entire section amended, p. 1536, § 264, effective October 1.

Cross references: For the legislative declaration contained in the 2002 act amending this section, see section 1 of chapter 318, Session Laws of Colorado 2002.

25-3.5-307. Licensure of fixed-wing and rotor-wing air ambulances - cash fund created - rules. (1) (a) Except as provided in paragraph (b) of this subsection (1), prior to beginning air ambulance operations in this state, all fixed-wing and rotor-wing air ambulance services shall be licensed by the department. Successful completion of an accreditation process as established and updated by the commission on accreditation of medical transport systems (CAMTS) or a successor organization is required for full licensure and renewal of such license by the department for all fixed-wing and rotor-wing air ambulance services. The department may issue a conditional license to an air ambulance service that has not completed CAMTS accreditation if the service is actively working toward CAMTS accreditation. An air ambulance service that receives a conditional license shall complete its CAMTS accreditation within two years after issuance of the conditional license. If an air ambulance service to which a conditional license has been issued fails to complete the CAMTS accreditation process within two years after issuance of the initial conditional license, the conditional license shall be revoked, and the air ambulance service shall not be issued any type of license until it successfully completes the CAMTS accreditation process.

(b) Upon a showing of exigent circumstances, as defined by the board, the department may authorize an unlicensed air ambulance service to provide a particular transport.

(c) The board shall promulgate rules specifying additional licensure requirements, establishing a reasonable fee for licensure, defining exigent circumstances for purposes of the exception in paragraph (b) of this subsection (1), and specifying the procedure and grounds for the suspension, revocation, or denial of a license. Such rules shall include the process used to investigate complaints against an air ambulance service and procedures for data collection and reporting to the department by an air ambulance service; except that

complaints that are related to the requirements of CAMTS or a successor organization shall be referred to CAMTS or such successor organization for investigation. The department shall consider the results of such investigations in making licensure decisions concerning air ambulance services.

(2) (a) The board shall establish the amount of the licensure fee to reflect the direct and indirect costs incurred by the department in implementing such licensure. The department shall transmit all fees collected pursuant to this section to the state treasurer who shall credit the same to the fixed-wing and rotary-wing ambulances cash fund, which fund is hereby created in the state treasury.

(b) Any interest derived from the deposit and investment of moneys in the fixed-wing and rotary-wing ambulances cash fund shall be credited to such fund. Any unexpended or unencumbered moneys remaining in such fund at the end of any fiscal year shall remain in the fund and shall not revert or be transferred to the general fund or any other fund of the state. Moneys in such fund shall be subject to annual appropriation by the general assembly to the department for the costs incurred by the department in implementing this section.

Source: L. 2002: Entire section added, p. 697, § 2, effective May 29. **L. 2005:** (1) amended, p. 1331, § 2, effective July 1. **L. 2007:** (1) amended, p. 380, § 1, effective April 2.

25-3.5-308. Rules. (1) The board shall adopt rules establishing the minimum requirements for ground ambulance service licensing, including but not limited to:

- (a) Minimum equipment to be carried on an ambulance pursuant to section 25-3.5-104;
- (b) Staffing requirements for ambulances as required in section 25-3.5-104;
- (c) Medical oversight and quality improvement of ambulance services pursuant to section 25-3.5-704 (2) (h);
- (d) The process used to investigate complaints against an ambulance service; and
- (e) Data collection and reporting to the department by an ambulance service.

PART 4

TELECOMMUNICATIONS SUBSYSTEM

25-3.5-401. Responsibility for coordination. (1) The telecommunications subsystem shall be used to maintain effective interface with the other components of the system, which shall include but not be limited to the following:

- (a) To dispatch the ambulance;
 - (b) To maintain contact while en route to the scene of the emergency;
 - (c) To provide for triage at the scene of the emergency;
 - (d) To provide for treatment while en route to the primary emergency care center;
 - (e) To arrange for transfer to advanced emergency care centers.
- (2) (a) The department of personnel, in consultation with the office of information technology created in the office of the governor, shall coordinate the telecommunications subsystem with the existing state telecommunications network to the extent possible.
- (b) Repealed.

Source: L. 77: Entire article added, p. 1284, § 2, effective January 1, 1978. **L. 81:** IP(1) amended, p. 2028, § 29, effective June 7; (2)(b) repealed, p. 2028, § 31, effective July 14. **L. 83:** (2)(a) amended, p. 889, § 5, effective July 1. **L. 84:** IP(1) amended, p. 1121, § 26, effective June 7. **L. 95:** (2)(a) amended, p. 663, § 96, effective July 1. **L. 2001:** (2)(a) amended, p. 125, § 6, effective March 23. **L. 2006:** (2)(a) amended, p. 1736, § 25, effective June 6.

25-3.5-403. Poison information center - state funding. (Repealed)

Source: **L. 83:** Entire section added, p. 1056, § 3, effective July 1. **L. 94:** Entire section amended, p. 1665, § 2, effective July 1.

Editor's note: Subsection (3) provided for the repeal of this section, effective July 1, 1995. (See L. 94, p. 1665.)

PART 5

DOCUMENTATION SUBSYSTEM

25-3.5-501. Records. (1) Each ambulance service shall prepare and transmit copies of uniform and standardized records, as specified by regulation adopted by the department, concerning the transportation and treatment of patients in order to evaluate the performance of the emergency medical services system and to plan systematically for improvements in said system at all levels.

(2) The record forms adopted by the department may distinguish between rural ambulance service and urban ambulance service and between mobile intensive care units and basic ambulance service.

Source: **L. 77:** Entire article added, p. 1284, § 2, effective January 1, 1978. **L. 78:** Entire section amended, p. 270, § 84, effective May 23.

25-3.5-502. Forms and reports. The department shall provide the necessary forms and copies of quarterly statistical report forms for local and state evaluation of ambulance service unless specifically exempted by the board of county commissioners of a particular county for that county.

Source: **L. 77:** Entire article added, p. 1285, § 2, effective January 1, 1978. **L. 78:** Entire section amended, p. 271, § 85, effective May 23.

PART 6

LOCAL EMERGENCY MEDICAL SERVICES

25-3.5-601. Legislative declaration. (1) The general assembly recognizes that an efficient and reliable statewide emergency medical and trauma network would serve not only to promote the health, safety, and welfare of Colorado residents, but would also, by increasing safety throughout the state, indirectly serve to facilitate tourism and economic development in the state.

(2) The general assembly also finds that accident victims are often transported over state highways and that an improved response to accidents through an efficient and reliable statewide emergency medical and trauma network impacts both directly and indirectly on the maintenance and supervision of the public highways of this state.

(3) Therefore, it is the purpose of this part 6 to enhance emergency medical and trauma services statewide by financially assisting local emergency medical and trauma service providers who operate or wish to operate in the counties in their efforts to improve the quality and effectiveness of local emergency medical and trauma services, including emergency medical and trauma equipment and communications, and by supporting the overall coordination of such efforts by the department.

Source: **L. 89:** Entire part added, p. 1148, § 2, effective July 1. **L. 94:** (3) amended, p. 2758, § 421, effective July 1. **L. 2000:** Entire section amended, p. 532, § 10, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-3.5-602. Definitions. As used in this part 6, unless the context otherwise requires:

(1) "Council" means the state emergency medical and trauma services advisory council created in section 25-3.5-104.

(2) "Department" means the department of public health and environment.

(3) "EMTS" means emergency medical and trauma services.

(4) "Local emergency medical and trauma service providers" includes, but is not limited to, local governing boards, training centers, hospitals, special districts, and other private and public service providers that have as their purpose the provision of emergency medical and trauma services.

Source: **L. 89:** Entire part added, p. 1149, § 2, effective July 1. **L. 94:** (2) amended, p. 2758, § 422, effective July 1. **L. 2000:** (1), (3), and (4) amended, p. 532, § 11, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-3.5-603. Emergency medical services account - creation - allocation of funds.

(1) (a) There is hereby created a special account within the highway users tax fund established under section 43-4-201, C.R.S., to be known as the emergency medical services account, which consists of all moneys transferred thereto in accordance with section 42-3-304 (21), C.R.S., and fees collected under section 25-3.5-203 for provisional certifications of emergency medical service providers.

(b) All moneys in and state FTE funded by the emergency medical services account shall be subject to annual appropriation by the general assembly.

(c) At the end of any fiscal year, all unexpended and unencumbered moneys in the emergency medical services account shall remain therein and shall not be credited or transferred to the general fund or any other fund. Any interest earned on the investment or deposit of moneys in the account shall also remain in the account and shall not be credited to the general fund.

(2) (Deleted by amendment, L. 2005, p. 280, § 13, effective August 8, 2005.)

(3) On and after July 1, 2002, the general assembly shall appropriate moneys in the emergency medical services account:

(a) (I) To the department for distribution as grants to local emergency medical and trauma service providers pursuant to the emergency medical and trauma services (EMTS) grant program set forth in section 25-3.5-604.

(II) Of the amount appropriated under subparagraph (I) of this paragraph (a) for grants:

(A) One hundred thousand dollars shall remain in the account for unexpected emergencies that arise after the deadline for grant applications has passed. The department and the council shall promulgate any rules necessary to define the expenditures of such emergency funds.

(B) The department shall award a minimum of one hundred fifty thousand dollars to offset the training costs of emergency medical service providers, emergency medical dispatchers, emergency medical services instructors, emergency medical services coordinators, and other personnel who provide emergency medical services. Of said one hundred fifty thousand dollars, no less than eighty percent shall be used in the training of emergency medical service providers.

(b) (I) To the department for distribution for each Colorado county within a RETAC no less than fifteen thousand dollars and seventy-five thousand dollars to each RETAC, in accordance with section 25-3.5-605 for planning and, to the extent possible, coordination of emergency medical and trauma services in the county and between counties when such coordination would provide for better service geographically. In the event that a RETAC is composed of less than five counties as of July 1, 2002, the council shall recommend that for each Colorado county within such RETAC, the RETAC shall receive fifteen thousand dollars in accordance with section 25-3.5-605 for planning and, to the extent possible, coordination of emergency medical and trauma services in the county and between counties when such coordination would provide for better service geographically. Any RETAC may apply for additional moneys and may receive such moneys if the request is approved by the council, so long as the moneys are used in accordance with section 25-3.5-605 for planning and, to the extent possible, coordination of emergency medical and trauma services in the county and between counties when such coordination would provide for better service geographically.

(II) A county may request to the council that the county's representative fifteen thousand dollars be divided between two different RETACs pursuant to section 25-3.5-704 (2) (c) (IV) (B).

(c) To the direct and indirect costs of planning, developing, implementing, maintaining, and improving the statewide emergency medical and trauma services system. These costs include:

(I) Providing technical assistance and support to local governments, local emergency medical and trauma service providers, and RETACs operating a statewide data collection system, coordinating local and state programs, providing assistance in selection and purchasing of medical and communication equipment, administering the EMTS grant program, and establishing and maintaining scope of practice for certified medical service providers; and

(II) The costs of the department of revenue in collecting the additional motor vehicle registration fee pursuant to section 42-3-304 (21), C.R.S.

Source: **L. 89:** Entire part added, p. 1149, § 2, effective July 1. **L. 92:** Entire section amended, p. 1143, § 2, effective May 29. **L. 94:** (1)(a) and (2)(c)(III) amended, p. 2559, § 61, effective January 1, 1995. **L. 2000:** IP(2), (2)(a)(I), (2)(a)(II)(A), (2)(b), IP(2)(c), (2)(c)(I), and (2)(c)(II) amended and (3) added, p. 533, § 12, effective July 1. **L. 2005:** (1)(a) and (3)(c)(II) amended, p. 1183, § 33, effective August 8; (1)(b) and (2) amended, p. 280, § 13, effective August 8. **L. 2009:** (1)(a) amended, (HB 09-1275), ch. 278, p. 1245, § 2, effective May 19. **L. 2010:** (3)(c)(I) amended, (HB 10-1260), ch. 403, p. 1947, § 11, effective July 1. **L. 2012:** (1)(a), IP(3), IP(3)(a)(II), (3)(a)(II)(B), IP(3)(c), and (3)(c)(I) amended, (HB 12-1059), ch. 271, p. 1437, § 21, effective July 1.

Editor's note: (1) Subsection (3) was originally enacted as subsection (2.5) in Senate Bill 00-180 but was renumbered on revision for ease of location.

(2) Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending subsection (1)(a), the introductory portions to subsections (3) and (3)(a)(II), subsection (3)(a)(II)(B), the introductory portion to subsection (3)(c), and subsection (3)(c)(I) applies to acts committed on or after July 1, 2012.

25-3.5-604. EMTS grant program - EMS account - role of council and department - rules - awards. (1) (a) The council shall make recommendations to the department concerning the application for and distribution of moneys from the EMS account for the development, maintenance, and improvement of emergency medical and trauma services in Colorado and for the establishment of priorities for emergency medical and trauma services grants.

(b) Any rules that relate to the distribution of grants shall provide that awards shall be made on the basis of a substantiated need and that priority shall be given to those applicants that have underdeveloped or aged emergency medical and trauma services equipment or systems.

(c) The department, upon recommendations from the council, shall allocate moneys pursuant to section 25-3.5-603.

(2) (a) Applications for grants shall be made to the department commencing January, 2001, and each January thereafter, except as otherwise provided in section 25-3.5-603 (3).

(b) The department shall review each application and make awards in accordance with the rules promulgated pursuant to subsection (1) of this section.

(c) Grants awarded under this section shall require local matching funds, unless such requirement is waived by the council upon demonstration that local sources of matching funds are not available.

(3) Grants shall be awarded July 1 of each year.

(4) The council shall review the adequacy of funding for each RETAC for the period beginning July 1, 2002. The review shall be completed by December 31, 2005. The council may recommend any necessary changes to the department as a result of the review conducted pursuant to this subsection (4).

Source: L. 89: Entire part added, p. 1150, § 2, effective July 1. L. 92: Entire section amended, p. 1145, § 3, effective May 29. L. 2000: (1), (2)(a), and (2)(b) amended and (4) added, p. 535, § 13, effective July 1.

Editor's note: "EMS account" referenced in subsection (1) refers to the "emergency medical services account" created in § 25-3.5-603.

25-3.5-605. Improvement of county emergency medical and trauma services - eligibility for county funding - manner of distributing funds. (1) Moneys in the emergency medical services account shall be apportioned pursuant to subsection (2.5) of this section.

(2) In order to qualify for moneys under this section, a county must:

(a) Comply with all provisions of part 3 of this article regarding the inspection and licensing of ambulances that are based in the county;

(b) Require all licensed ambulance services to utilize the statewide emergency medical and trauma services uniform prehospital care reporting system operated by the department;

(c) Repealed.

(d) Ensure that all moneys received under this section are expended on developing and updating the emergency medical and trauma services plan and other emergency medical and trauma services needs of the county such as:

(I) Training and certification of emergency medical service providers;

(II) Assisting local emergency medical and trauma providers in applying for grants under section 25-3.5-604;

(III) Improving the emergency medical and trauma services system on a county wide or regional basis and implementing the county emergency medical and trauma services plan;

(e) Repealed.

(2.5) (a) On or before October 1, 2003, and on or before October 1 each year thereafter, each RETAC shall submit to the council an annual financial report that details the expenditure of moneys received. Such report shall be in a format specified by the council and the department. In instances where the council finds such report inadequate, the RETAC shall resubmit the report to the council by December 1 of the same year.

(b) On or before July 1, 2003, and on or before July 1 each odd-numbered year thereafter, each RETAC shall submit to the council a biennial plan that details the RETAC's EMTS plan and any revisions pursuant to section 25-3.5-704 (2) (c) (I) (B). If the RETAC includes a county that has been divided geographically pursuant to section 25-3.5-704 (2) (c) (IV), the plan shall include an evaluation of such division. Such plan shall be in a format specified by the council and the department. In instances where the council finds such plan inadequate, the RETAC shall resubmit the plan to the council by September 14 of the same year.

(c) On or before October 15, 2003, and on or before October 15 each odd-numbered year thereafter, the council shall submit to the department a plan for all RETACs in the state. On or before November 1, 2003, and on or before November 1 each odd-numbered year thereafter, the department, in consultation with the council, shall approve a plan for all RETACs in the state.

(3) Funds distributed to counties and RETACs pursuant to this section shall be used in planning the improvement of existing county emergency medical and trauma service programs and shall not be used to supplant moneys already allocated by the county for emergency medical and trauma services.

(4) (a) Failure to comply with the requirements of subsection (2) of this section shall render a county ineligible to receive moneys from the emergency medical services account until the following January.

(b) At the end of any fiscal year, moneys which are not distributed to a county shall remain in the emergency medical services account until the following January.

Editor's note: (1) Subsection (2)(c)(II) provided for the repeal of subsection (2)(c) and subsection (2)(e)(II) provided for the repeal of subsection (2)(e), effective October 1, 2002. (See L. 2002, p. 697.)

(2) Section 18 of chapter 271, Session Laws of Colorado 2012, provides that the act amending the introductory portions to subsections (2) and (2)(d) and subsection (2)(d)(I) applies to acts committed on or after July 1, 2012.

25-3.5-606. Annual report. No later than January 1, 1991, and prior to November 1 of each year thereafter, the department, in cooperation with the council, shall submit a report to the health, environment, welfare, and institutions committees and the joint budget committee of the general assembly on the moneys credited to the emergency medical services account and on the expenditure of such moneys during the preceding fiscal year. Such report shall contain a listing of the grant recipients, proposed projects, and a statement of the short-term and long-term planning goals of the department and the council to further implement the provisions of this part 6.

PART 7

STATEWIDE TRAUMA SYSTEM

Editor's note: This part 7 was repealed and reenacted in 1994 and was subsequently repealed and reenacted in 1995, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 7 prior to 1995, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

25-3.5-701. Short title. This part 7 shall be known and may be cited as the "Statewide Trauma Care System Act".

Source: L. 95: Entire part R&RE, p. 1351, § 3, effective July 1.

25-3.5-702. Legislative declaration. (1) The general assembly hereby finds and declares that trauma is the greatest single cause of death and disability in Colorado for persons under the age of forty-five years and that trauma care is a unique type of emergency medical service.

(2) The general assembly further finds that a trauma system task force made up of various emergency health and trauma care entities submitted a report to the general assembly in 1993 indicating a compelling need to develop and implement a statewide trauma care system in order to assure that appropriate resources are available to trauma victims from the point of injury through rehabilitative care. In addition, a statewide system is essential to provide Colorado residents and visitors with a greater probability of surviving a life-threatening injury and to reduce trauma-related morbidity and mortality in this state.

(3) The general assembly, therefore, declares that it is necessary to enact legislation directing the board of health to adopt rules that govern the implementation and oversight of the trauma care system. The general assembly further declares that to ensure the availability and coordination of resources necessary to provide essential care, it is necessary to enact legislation that directs the department of public health and environment to collaborate with existing agencies and organizations, including governing bodies for counties and cities and counties, in implementing and monitoring a statewide trauma care system.

Source: L. 95: Entire part R&RE, p. 1351, § 3, effective July 1.

25-3.5-703. Definitions. As used in this article, unless the context otherwise requires:

(1) (Deleted by amendment, L. 2000, p. 537, § 16, effective July 1, 2000.)

(2) "Board" means the state board of health.

(3) Repealed.

(3.5) "Council" means the state emergency medical and trauma services advisory council created by section 25-3.5-104.

(4) "Designation" means the process undertaken by the department to assign a status to a health care facility based on the level of trauma services the facility is capable of and committed to providing to injured persons. Facilities may be designated at one of the following levels:

(a) Nondesignated, which is for facilities that do not meet the criteria required for level I to V facilities, but that receive and are accountable for injured persons, which accountability includes having a transfer agreement to transfer persons to level I to V facilities as determined by rules promulgated by the board;

(a.5) Level V, which is for basic trauma care in rural areas, including resuscitation, stabilization, and arrangement for the transfer of all patients with potentially life- or limb-threatening injuries, consistent with triage and transport protocols as recommended by the council and adopted by the board. Level V facilities shall transfer patients within their own region or to a higher level facility in another region, as described in paragraphs (c), (d), and (e) of this subsection (4).

(b) Level IV, which is for basic trauma care, including resuscitation, stabilization, and arrangement for appropriate transfer of persons requiring a higher level of care based upon patient criticality and triage practices within each facility, which are consistent with triage criteria and transport protocols as recommended by the council and adopted by the board. These facilities must transfer appropriate patients to a higher level facility within their own region or to a higher level facility in another region, as described in paragraphs (d) and (e) of this subsection (4).

(c) Level III, which is for general trauma care, including resuscitation, stabilization, and assessment of injured persons, and either the provision of care for the injured person or arrangement for appropriate transfer based upon patient criticality and triage practices within each facility, which are consistent with triage criteria and transport protocols as recommended by the council and adopted by the board. The facilities must transfer appropriate patients to a higher level facility within its own region or to a higher level facility in another region, as described in paragraphs (d) and (e) of this subsection (4).

(d) Level II, which is for major trauma care based upon patient criticality and triage practices within each facility, which are consistent with triage criteria and transport protocols as recommended by the council and adopted by the board. This type of facility may serve as a resource for lower level facilities when a level I facility, as described in paragraph (e) of this subsection (4), is not available within its region, but it is not a facility required to conduct research or provide comprehensive services through subspecialty units such as, but not limited to, burn units, spinal cord injury centers, eye trauma centers, and reimplantation centers.

(e) Level I, which is for comprehensive trauma care, including the acute management of the most severely injured patients, which is a facility that may serve as the ultimate resource for lower level facilities or as the key resource facility for a trauma area and which is a facility that provides education in trauma-related areas for health care professionals and performs trauma research;

(f) Regional pediatric trauma center, which is a facility that provides comprehensive pediatric trauma care, including acute management of the most severely injured pediatric trauma patients, and is a facility that may serve as an ultimate resource for lower level facilities on pediatric trauma care, and which is a facility that performs pediatric trauma research and provides pediatric trauma education for health care professionals. No facility shall be deemed a regional pediatric trauma center unless the facility predominately serves children and is a facility where at least eighty-five percent of hospital admissions are for individuals who are under eighteen years of age. A separate administrative unit within a general hospital or hospital system shall not be deemed a regional pediatric trauma center.

(5) (Deleted by amendment, L. 2000, p. 537, § 16, effective July 1, 2000.)

(6) "Interfacility transfer" means the movement of a trauma victim from one facility to another.

(6.5) "Key resource facility" means a level I or level II certified trauma facility that provides consultation and technical assistance to a RETAC, as such term is defined in subsection (6.8) of this section, regarding education, quality, training, communication, and other trauma issues described in this part 7 that relate to the development of the statewide trauma care system.

(6.8) "Regional emergency medical and trauma services advisory council" or "RETAC" means the representative body appointed by the governing bodies of counties or cities and counties for the purpose of providing recommendations concerning regional area emergency medical and trauma service plans for such counties or cities and counties.

(7) Repealed.

(8) "Statewide trauma registry" means a statewide data base of information concerning injured persons and licensed facilities receiving injured persons, which information is used to evaluate and improve the quality of patient management and care and the quality of trauma education, research, and injury prevention programs. The data base integrates medical and trauma systems information related to patient diagnosis and provision of care. Such information includes epidemiologic and demographic information.

(9) "Trauma" means an injury or wound to a living person caused by the application of an external force or by violence. Trauma includes any serious life-threatening or limb-threatening situations.

(10) “Trauma care system” means an organized approach to providing quality and coordinated care to trauma victims throughout the state on a twenty-four-hour per day basis by transporting a trauma victim to the appropriate trauma designated facility.

(11) “Trauma transport protocols” means written standards adopted by the board that address the use of appropriate resources to move trauma victims from one level of care to another on a continuum of care.

(12) “Triage” means the assessment and classification of an injured person in order to determine the severity of trauma injury and to prioritize care for the injured person.

(13) “Verification process” means a procedure to evaluate a facility’s compliance with trauma care standards established by the board and to make recommendations to the department concerning the designation of a facility.

Source: **L. 95:** Entire part R&RE, p. 1352, § 3, effective July 1. **L. 99:** (4) amended, p. 412, § 1, effective April 22. **L. 2000:** (1), (4)(a), (4)(b), (4)(c), (4)(d), (4)(f), (5), and (6.5) amended and (3.5), (4)(a.5), and (6.8) added, pp. 537, 538, §§ 16, 17, effective July 1; (3) and (7) repealed, p. 547, § 26, effective January 1, 2001.

25-3.5-704. Statewide emergency medical and trauma care system - development and implementation - duties of department - rules adopted by board. (1) The department shall develop, implement, and monitor a statewide emergency medical and trauma care system in accordance with the provisions of this part 7 and with rules adopted by the state board. The system shall be implemented statewide no later than July 1, 1997. In addition, the board shall cooperate with the department of personnel in adopting criteria for adequate communications systems that counties shall be required to identify in regional emergency medical and trauma system plans in accordance with subsection (2) of this section. Pursuant to section 24-50-504 (2), C.R.S., the department may contract with any public or private entity in performing any of its duties concerning education, the statewide trauma registry, and the verification process as set forth in this part 7.

(2) The board shall adopt rules for the statewide emergency medical and trauma care system, including but not limited to the following:

(a) **Minimum services in rendering patient care.** These rules ensure the appropriate access through designated centers to the following minimum services:

- (I) Prehospital care;
- (II) Hospital care;
- (III) Rehabilitative care;
- (IV) Injury prevention;
- (V) Disaster medical care;
- (VI) Education and research; and
- (VII) Trauma communications.

(b) **Transport protocols.** The board shall set forth trauma transport protocols in these rules, which include but are not limited to a requirement that a facility that receives an injured person provide the appropriate available care, which may include stabilizing an injured person before transferring that person to the appropriate facility based on the person’s injury. These rules ensure that when the most appropriate trauma facility for an injured person is not easily accessible in an area, that person will be transferred as soon as medically feasible to the nearest appropriate facility, which may be in or out of the state. These rules shall conform with applicable federal law governing the transfer of patients.

(c) **Regional emergency medical and trauma advisory councils - plans established - process.** (1) These rules provide for the implementation of regional emergency medical and trauma system plans that describe methods for providing the appropriate service and care to persons who are ill or injured in areas included under a regional emergency medical and trauma system plan. In these rules, the board shall specify that:

(A) The governing body of each county or city and county throughout the state shall establish a regional emergency medical and trauma advisory council (RETAC) with the governing body of four or more other counties, or with the governing body of a city and county, to form a multicounty RETAC. The number of members on a RETAC shall be defined by the participating counties. Membership shall reflect, as equally as possible,

representation between hospital and prehospital providers and from each participating county and city and county. There shall be at least one member from each participating county and city and county in the RETAC. Each county within a RETAC shall be located in reasonable geographic proximity to the other counties and city and counties within the same RETAC. In establishing a RETAC, the governing body shall obtain input from health care facilities and providers within the area to be served by the RETAC. If the governing body for a county or city and county fails to establish a RETAC by July 1, 2002, two counties with a combined population of at least seven hundred fifty thousand residents may apply to the council for establishment of a RETAC of fewer than four counties. The council shall conduct a hearing with all counties that may be affected by the establishment of a RETAC with fewer than four counties before deciding whether to grant such application. The decision on such an application shall be completed within sixty days after the date of application. For all other counties that do not qualify as a two-county RETAC and that have not established a RETAC by July 1, 2002, the council shall designate an established RETAC to serve as the county's or city and county's RETAC.

(B) No later than July 1, 2003, each RETAC with approval from the governing bodies for a multicounty RETAC shall submit a regional emergency medical and trauma system plan to the council for approval by the department. If the governing body for a county or city and county fails to submit a plan, if a county or city and county is not included in a multicounty plan, or, if a multicounty plan is not approved pursuant to a procedure established by the board for approving plans, the department shall design a plan for the county, city and county, or multicounty area.

(II) In addition to any issues the board requires to be addressed, every regional emergency medical and trauma system plan shall address the following issues:

(A) The provision of minimum services and care at the most appropriate facilities in response to the following factors: Facility-established triage and transport plans; interfacility transfer agreements; geographical barriers; population density; emergency medical services and trauma care resources; and accessibility to designated facilities;

(B) The level of commitment of counties and city and counties under a regional emergency medical and trauma system plan to cooperate in the development and implementation of a statewide communications system and the statewide emergency medical and trauma care system;

(C) The methods for ensuring facility and county or city and county adherence to the regional emergency medical and trauma system plan, compliance with board rules and procedures, and commitment to the continuing quality improvement system described in paragraph (h) of this subsection (2);

(D) A description of public information, education, and prevention programs to be provided for the area;

(E) A description of the functions that will be contracted services; and

(F) The identification of regional emergency medical and trauma system needs through the use of a needs assessment instrument developed by the department; except that the use of such instrument shall be subject to approval by the counties and city and counties included in a RETAC.

(III) The board shall specify in regional emergency medical and trauma system plan rules the time frames for approving regional emergency medical and trauma system plans and for resubmitting plans, as well as the number of times the plans may be resubmitted by a governing body before the department designs a plan for a multicounty area. The department shall provide technical assistance to any RETAC for preparation, implementation, and modification, as necessary, of regional emergency medical and trauma system plans.

(IV) (A) A county may request that the county be included in two separate RETACs because of geographical concerns. The council shall review and approve any request that a county be divided prior to inclusion within two separate RETACs if the county demonstrates such a division will not adversely impact the emergency medical and trauma needs for the county, that such a division is beneficial to both RETACs, and that such division does not create a RETAC with fewer than five contiguous counties, except for RETACs that

contain two counties with a combined population of at least seven hundred fifty thousand residents pursuant to sub-subparagraph (A) of subparagraph (I) of this paragraph (c).

(B) A county that is included in two separate RETACs may request that the council allocate any portion of the fifteen thousand dollars received by a RETAC, pursuant to section 25-3.5-603, between the two separate RETACs.

(d) **Designation of facilities.** The designation rules shall provide that every facility in this state required to be licensed in accordance with article 3 of this title and that receives ambulance patients shall participate in the statewide emergency medical and trauma care system. Each such facility shall submit an application to the department requesting designation as a specific level trauma facility or requesting nondesignation status. A facility that is given nondesignated status shall not represent that it is a designated facility, as prohibited in section 25-3.5-707. The board shall include provisions for the following:

(I) The criteria to be applied for designating and periodically reviewing facilities based on level of care capability providing trauma care. In establishing such criteria, the board shall take into consideration recognized national standards including, but not limited to, standards on trauma resources for optimal care of the injured patient adopted by the American college of surgeons' committee and the guidelines for trauma care systems adopted by the American college of emergency physicians.

(II) A verification process;

(III) The length of a designation period;

(IV) The process for evaluating, reviewing, and designating facilities, including an ongoing periodic review process for designated facilities, which process shall take into account the national standards referenced in subparagraph (I) of this paragraph (d). Each facility shall be subject to review in accordance with rules adopted pursuant to this paragraph (d). In the event a certified facility seeks to be designated at a different level or seeks nondesignation status, the facility shall comply with the board's procedures for initial designation.

(V) Disciplinary sanctions, which shall be limited to the revocation of a designation, temporary suspension while the facility takes remedial steps to correct the cause of the discipline, redesignation, or assignment of nondesignation status to a facility;

(VI) A designation fee established in accordance with section 25-3.5-705; and

(VII) An appeals process concerning department decisions in connection with evaluations, reviews, designations, and sanctions.

(e) **Communications system.** (I) The communications system rules shall require that a regional emergency medical and trauma system plan ensure citizen access to emergency medical and trauma services through the 911 telephone system or its local equivalent and that the plan include adequate provisions for:

(A) Public safety dispatch to ambulance service and for efficient communication from ambulance to ambulance and from ambulance to a designated facility;

(B) Efficient communications among the trauma facilities and between trauma facilities and other medical care facilities;

(C) Efficient communications among service agencies to coordinate prehospital, day-to-day, and disaster activities; and

(D) Efficient communications among counties and RETACs to coordinate prehospital, day-to-day, and disaster activities.

(II) In addition, the board shall require that a regional emergency medical and trauma system plan identify the key resource facilities for the area. The key resource facilities shall assist the RETAC in resolving trauma care issues that arise in the area and in coordinating patient destination and interfacility transfer policies to assure that patients are transferred to the appropriate facility for treatment in or outside of the area.

(f) **Statewide trauma registry.** (I) The registry rules shall require the department to establish and oversee the operation of a statewide trauma registry. The rules shall allow for the provision of technical assistance and training to designated facilities within the various trauma areas in connection with requirements to collect, compile, and maintain information for the statewide central registry. Each licensed facility, clinic, or prehospital provider that provides any service or care to or for persons with trauma injury in this state shall collect the information described in this subparagraph (I) about any such person who is admitted

to a hospital as an inpatient or transferred from one facility to another or who dies from trauma injury. The facility, clinic, or prehospital provider shall submit the following information to the registry:

- (A) Admission and readmission information;
- (B) Number of trauma deaths;
- (C) Number and types of transfers to and from the facility or the provider; and
- (D) Injury cause, type, and severity.

(II) In addition to the information described in subparagraph (I) of this paragraph (f), facilities designated as level I, II, or III shall provide such additional information as may be required by board rules.

(III) The registry rules shall include provisions concerning access to information in the registry that does not identify patients or physicians. Any data maintained in the registry that identifies patients or physicians shall be strictly confidential and shall not be admissible in any civil or criminal proceeding.

(g) **Public information, education, and injury prevention.** The department and county, district, and municipal public health agencies may operate injury prevention programs, but the public information, education, and injury prevention rules shall require the department and county, district, and municipal public health agencies to consult with the state and regional emergency medical and trauma advisory councils in developing and implementing area and state-based injury prevention and public information and education programs including, but not limited to, a pediatric injury prevention and public awareness component. In addition, the rules shall require that regional emergency medical and trauma system plans include a description of public information and education programs to be provided for the area.

(h) (I) **Continuing quality improvement system (CQI).** These rules require the department to oversee a continuing quality improvement system for the statewide emergency medical and trauma care system. The board shall specify the methods and periods for assessing the quality of regional emergency medical and trauma systems and the statewide emergency medical and trauma care system. These rules include, but are not limited to, the following requirements:

(A) That RETACs assess periodically the quality of their respective regional emergency medical and trauma system plans and that the state assess periodically the quality of the statewide emergency medical and trauma care system to determine whether positive results under regional emergency medical and trauma system plans and the statewide emergency medical and trauma care system can be demonstrated;

(B) That all facilities comply with the trauma registry rules;

(C) That reports concerning regional emergency medical and trauma system plans include results for the emergency medical and trauma area, identification of problems under the regional emergency medical and trauma system plan, and recommendations for resolving problems under the plan. In preparing these reports, the RETACs shall obtain input from facilities, counties included under the regional emergency medical and trauma system plan, and service agencies.

(D) That the names of patients or information that identifies individual patients shall be kept confidential and shall not be publicly disclosed without the patient's consent;

(E) That the department be allowed access to prehospital, hospital, and coroner records of emergency medical and trauma patients to assess the continuing quality improvement system for the area and state-based injury prevention and public information and education programs pursuant to paragraph (g) of this subsection (2). All information provided to the department shall be confidential pursuant to subparagraph (II) of this paragraph (h). To the greatest extent possible, patient-identifying information shall not be gathered. If patient-identifying information is necessary, the department shall keep such information strictly confidential, and such information may only be released outside of the department upon written authorization of the patient. The department shall prepare an annual report that includes an evaluation of the statewide emergency medical and trauma services system. Such report shall be distributed to all designated trauma centers, ambulance services, and service agencies and to the chairpersons of the health and human services committees of the house of representatives and the senate, or any successor committees.

(II) Any data or information related to the identification of individual patient's, provider's, or facility's care outcomes collected as a result of the continuing quality improvement system and any records or reports collected or compiled as a result of the continuing quality improvement system are confidential and are exempt from the open records law in part 2 of article 72 of title 24, C.R.S. Such data, information, records, or reports shall not be subject to subpoena or discovery and shall not be admissible in any civil action, except pursuant to a court order that provides for the protection of sensitive information about interested parties. Nothing in this subparagraph (II) shall preclude the patient or the patient's representative from obtaining the patient's medical records as provided in section 25-1-801. Nothing in this subparagraph (II) shall be construed to allow access to confidential professional review committee records or reviews conducted under article 36.5 of title 12, C.R.S.

(III) That reports concerning regional emergency medical and trauma system plans include results for the emergency medical and trauma area, identification of problems under the regional emergency medical and trauma system plan, and recommendations for resolving problems under the plan. In preparing these reports, the RETACs shall obtain input from facilities, counties included under the regional emergency medical and trauma system plan, and service agencies.

(i) **Trauma care for pediatric patients.** The trauma care for pediatric patient rules shall provide for the improvement of the quality of care for pediatric patients.

(3) The board shall adopt rules that take into consideration recognized national standards for emergency medical and trauma care systems, such as the standards on trauma resources for optimal care of the injured patient adopted by the American college of surgeons' committee on trauma and the guidelines for emergency medical and trauma care systems adopted by the American college of emergency physicians and the American academy of pediatrics.

(4) The board shall adopt and the department shall use only cost-efficient administrative procedures and forms for the statewide emergency medical and trauma care system.

(5) In adopting its rules, the board shall consult with and seek advice from the council, as defined in section 25-3.5-703 (3.5), where appropriate, and from any other appropriate agency. In addition, the board shall obtain input from appropriate health care agencies, institutions, facilities, and providers at the national, state, and local levels and from counties and city and counties.

25-3.5-705. Creation of fee - creation of trauma system cash fund. (1) The board is authorized, by rule, to establish a schedule of fees based on the direct and indirect costs incurred in designating facilities. In addition, the department is authorized to collect the appropriate fee on the schedule. The board may adjust fees in amounts necessary to cover such costs. The fees collected pursuant to this section shall be deposited in the trauma system cash fund created by subsection (2) of this section.

(2) There is hereby created in the state treasury a statewide trauma care system cash fund. All moneys in the fund shall be subject to appropriation by the general assembly for allocation to the department to administer the trauma system. Any moneys in the fund not appropriated shall remain in the fund and shall not be transferred or revert to the general fund at the end of any fiscal year. All interest derived from the deposit and investment of moneys in the fund shall remain in the fund.

Source: L. 95: Entire part R&RE, p. 1359, § 3, effective July 1.

25-3.5-706. Immunity from liability. The department, the board, the council as defined in section 25-3.5-703 (3.5), a RETAC as defined in section 25-3.5-703 (6.8), the emergency medical practice advisory council created in section 25-3.5-206, key resource facilities, any other public or private entity acting on behalf of or under contract with the department, and counties and cities and counties shall be immune from civil and criminal liability and from regulatory sanction for acting in compliance with the provisions of this part 7. Nothing in this section shall be construed as providing any immunity to such entities or any other person in connection with the provision of medical treatment, care, or services that are governed by the medical malpractice statutes, article 64 of title 13, C.R.S.

Source: L. 95: Entire part R&RE, p. 1360, § 3, effective July 1. L. 2000: Entire section amended, p. 545, § 19, effective July 1. L. 2010: Entire section amended, (HB 10-1260), ch. 403, p. 1948, § 12, effective July 1.

25-3.5-707. False representation as trauma facility - penalty. (1) No facility, or agent or employee of a facility, shall represent that the facility functions as a level I, II, III, IV, or V trauma facility unless the facility possesses a valid certificate of designation issued pursuant to section 25-3.5-704 (2) (d). In addition, no facility, provider, or person shall violate any rule adopted by the board.

(2) Any facility, provider, or person who violates the provisions of subsection (1) of this section is subject to a civil penalty, which the board shall establish by rule, but which shall not exceed five hundred dollars. The penalty shall be assessed and collected by the department. Before a fee is collected, a facility, provider, or person shall be provided an opportunity for review of the assessed penalty. The procedures for review shall be in accordance with the "State Administrative Procedure Act", article 4 of title 24, C.R.S., and board rules. Any penalty collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the statewide trauma care system cash fund created in section 25-3.5-705.

Source: L. 95: Entire part R&RE, p. 1360, § 3, effective July 1. L. 2000: (1) amended, p. 545, § 20, effective July 1.

25-3.5-708. Financing for statewide trauma system. (1) The implementation of the statewide trauma system shall be subject to the availability of:

(a) Federal transportation highway safety seed moneys that the department of transportation transfers to the department of public health and environment pursuant to an intergovernmental agreement between the two agencies;

(b) Moneys from the emergency medical services account within the highway users tax fund that are unexpended portions of state administrative funds that may be allocated pursuant to section 25-3.5-603 (2) (c). Nothing in this paragraph (b) shall be construed to authorize moneys that may be allocated pursuant to section 25-3.5-603 (2) (a) (I) or (2) (b) to be used for the financing of the administration of the statewide trauma system.

(c) Moneys from the statewide trauma care system cash fund created in section 25-3.5-705.

(2) In addition to any funds available pursuant to subsection (1) of this section, the executive director of the department of public health and environment is hereby authorized to accept any grants, donations, gifts, or contributions from any other private or public entity for the purpose of implementing this part 7.

Source: L. 95: Entire part R&RE, p. 1360, § 3, effective July 1.

25-3.5-709. Annual report. No later than January 1, 1999, and prior to November 1 of each year thereafter, the department, in cooperation with the council, as defined in section 25-3.5-703 (3.5), shall submit a report to the health, environment, welfare, and institutions

committees and the joint budget committee of the general assembly on the quality of the statewide emergency medical and trauma care system. Such report shall include an evaluation of each component of the statewide emergency medical and trauma care system and any recommendation for legislation concerning the statewide emergency medical and trauma care system or any component thereof.

Source: **L. 95:** Entire part R&RE, p. 1361, § 3, effective July 1. **L. 2000:** Entire section amended, p. 545, § 21, effective July 1; entire section amended, p. 462, § 4, effective August 2.

Editor's note: Amendments to this section by Senate Bill 00-180 and House Bill 00-1297 were harmonized.

PART 8

TOBACCO EDUCATION, PREVENTION, AND CESSATION PROGRAMS

25-3.5-801. Short title. This part 8 shall be known and may be cited as the "Tobacco Education, Prevention, and Cessation Act".

Source: **L. 2000:** Entire part added, p. 613, § 13, effective May 18.

25-3.5-802. Legislative declaration. (1) The general assembly hereby finds that:

(a) The use of all types of tobacco products, including smokeless tobacco, results in a high incidence of addiction, disease, illness, and death;

(b) Persons who begin using and become addicted to tobacco products in their youth often face a lifetime of struggle and recurring illness in coping with and attempting to overcome addiction to tobacco products;

(c) Experimentation with tobacco products by youth is often a first step toward more serious drug experimentation and creates a greater likelihood that the youth who experiment with tobacco will at some point be addicted to even more harmful substances;

(d) Implementation of aggressive tobacco and substance abuse prevention, education, and cessation programs for school-age children is necessary to assist young people in avoiding and ending tobacco use;

(e) School districts, schools, and other entities that provide tobacco and substance abuse prevention, education, and cessation programs for school-age children should reach out to parents and encourage them to participate, either as students or role models, in implementing said programs.

(2) The general assembly hereby finds that persons with mental illness are more likely to abuse tobacco products than any other segment of society. The general assembly further finds that the unusually heavy pattern of tobacco abuse engaged in by persons with mental illness requires special treatment strategies that are not provided by other alcohol, drug, or tobacco abuse programs. It is therefore the general assembly's intent that the programs funded pursuant to this part 8 include comprehensive programs to prevent and treat tobacco addiction among persons with mental illness.

(3) The general assembly also finds that:

(a) Each year, thousands of people in this state die from diseases that have been clinically proven to be caused by or directly related to tobacco use;

(b) Once a person starts using tobacco, he or she usually becomes addicted to the nicotine contained in the tobacco, which makes it terribly difficult for the person to quit using tobacco even when the person is aware of the significant health risks that accompany tobacco use;

(c) Studies show that a child is at a substantially greater risk of starting to use tobacco if the child's parents or older siblings use tobacco. Therefore, reducing tobacco use by adults may significantly reduce the risk that children will begin using tobacco.

(d) Annual direct medical costs from tobacco use in Colorado currently exceed one billion dollars;

(e) Comprehensive tobacco education, prevention, and cessation programs may result in millions of dollars in savings to the state and individual residents of the state for generations.

Source: **L. 2000:** Entire part added, p. 613, § 13, effective May 18. **L. 2005:** (3)(d) amended, p. 932, § 22, effective June 2.

Cross references: For the legislative declaration contained in the 2005 act amending subsection (3)(d), see section 1 of chapter 241, Session Laws of Colorado 2005.

25-3.5-803. Definitions. As used in this part 8, unless the context otherwise requires:

(1) “Division” means the division within the department of public health and environment responsible for prevention services.

(2) “Entity” means any local government, county, district, or municipal public health agency, political subdivision of the state, county department of social services, state agency, state institution of higher education that offers a teacher education program, school, school district, or board of cooperative services or any private nonprofit or not-for-profit community-based organization. “Entity” also means a for-profit organization that applies for a grant for the sole purpose of providing a statewide public information campaign concerning tobacco use prevention and cessation.

(3) “Master settlement agreement” means the master settlement agreement, the smokeless tobacco master settlement agreement, and the consent decree approved and entered by the court in the case denominated *State of Colorado, ex rel. Gale A. Norton, Attorney General v. R.J. Reynolds Tobacco Co.; American Tobacco Co., Inc.; Brown & Williamson Tobacco Corp.; Liggett & Myers, Inc.; Lorillard Tobacco Co., Inc.; Philip Morris, Inc.; United States Tobacco Co.; B.A.T. Industries, P.L.C.; The Council For Tobacco Research—U.S.A., Inc.; and Tobacco Institute, Inc.*, Case No. 97 CV 3432, in the district court for the city and county of Denver.

(4) “Program” means the tobacco education, prevention, and cessation grant program created in section 25-3.5-804.

(5) “State board” means the state board of health created in section 25-1-103.

Source: **L. 2000:** Entire part added, p. 614, § 13, effective May 18. **L. 2005:** (2) amended, p. 932, § 23, effective June 2. **L. 2009:** (1) amended, (SB 09-292), ch. 369, p. 1970, § 85, effective August 5. **L. 2010:** (2) amended, (HB 10-1422), ch. 419, p. 2092, § 89, effective August 11.

Cross references: For the legislative declaration contained in the 2005 act amending subsection (2), see section 1 of chapter 241, Session Laws of Colorado 2005.

25-3.5-804. Tobacco education, prevention, and cessation programs - review committee - grants. (1) There is hereby created the tobacco education, prevention, and cessation grant program to provide funding for community-based and statewide tobacco education programs designed to reduce initiation of tobacco use by children and youth, promote cessation of tobacco use among youth and adults, and reduce exposure to secondhand smoke. Any such tobacco programs may be presented in combination with other substance abuse programs. The program shall be administered by the division within the department and coordinated with efforts pursuant to part 5 of article 35 of title 24, C.R.S. The state board shall award grants to selected entities from moneys appropriated to the department from the tobacco education programs fund created in section 24-22-117, C.R.S.

(2) The state board shall adopt rules that specify, but are not necessarily limited to, the following:

(a) The procedures and timelines by which an entity may apply for program grants;

(b) Grant application contents;

(c) Criteria for selecting those entities that shall receive grants and determining the amount and duration of said grants;

(d) Reporting requirements for entities that receive grants pursuant to this part 8.

(3) (a) The division shall review the applications received pursuant to this part 8 and make recommendations to the state board regarding those entities that may receive grants and the amounts of said grants. On and after October 1, 2005, the review committee shall review the applications received pursuant to this part 8 and submit to the state board and the director of the department recommended grant recipients, grant amounts, and the duration of each grant. Within thirty days after receiving the review committee's recommendations, the director shall submit his or her recommendations to the state board. The review committee's recommendations regarding grantees of the Tony Grampsas youth services program, section 25-20.5-201, pursuant to section 25-3.5-805 (5) shall be submitted to the state board and the Tony Grampsas youth services board. Within thirty days after receiving the review committee's recommendations, the Tony Grampsas youth services board shall submit its recommendations to the state board. The state board shall have the final authority to approve the grants under this part 8. If the state board disapproves a recommendation for a grant recipient, the review committee may submit a replacement recommendation within thirty days. In reviewing grant applications for programs to provide tobacco education, prevention, and cessation programs for persons with mental illness, the division or the review committee shall consult with the programs for public psychiatry at the university of Colorado health sciences center, the national alliance for the mentally ill, the mental health association of Colorado, and the department of human services.

(b) The state board shall award grants to the selected entities, specifying the amount and duration of the award. No grant awarded pursuant to this part 8 shall exceed three years without renewal. Of the amount awarded each year pursuant to the provisions of this part 8, the state board shall award at least one-third of the amount to entities that provide tobacco education, prevention, and cessation programs, solely or in combination with substance abuse programs, to school-age children.

(4) In implementing the program, the division shall survey the need for trained teachers, health professionals, and others involved in providing tobacco education, prevention, and cessation programs. To the extent the division determines there is a need, the division may provide technical training and assistance to entities that receive program grants pursuant to this part 8.

(5) (a) There is hereby created the tobacco education, prevention, and cessation grant program review committee, referred to in this part 8 as the "review committee". The review committee is established in the division. The review committee is responsible for ensuring that program priorities are established consistent with the Colorado tobacco prevention and control strategic plan, overseeing program strategies and activities, and ensuring that the program grants are in compliance with section 25-3.5-805.

(b) The review committee shall consist of the following sixteen members:

(I) The director of the department or the director's designee;

(II) Five members who shall be appointed by the director of the department, one of whom shall include the director of the tobacco education, prevention, and cessation program within the division and four of whom shall be staff of the program with expertise in tobacco prevention among youth, reducing exposure to secondhand smoke, tobacco cessation, or public education.

(III) Eight members who shall be appointed by the state board as follows:

(A) One member who is a member of the state board;

(B) One member who is a representative of a local public health agency;

(C) One member who is a representative of a statewide association representing physicians;

(D) One member who is a representative of an association representing family physicians;

(E) One member who is a representative of the Colorado department of education;

(F) One member who is a representative of the university of Colorado health sciences center who has expertise in evaluation;

(G) One member who represents a socio-demographic disadvantaged population in Colorado; and

(H) One member who is a representative of a statewide nonprofit organization with a demonstrated expertise in and commitment to tobacco control.

(IV) The president of the senate shall appoint one member of the senate.

(V) The speaker of the house of representatives shall appoint one member of the house of representatives.

(c) (I) Except as provided in subparagraph (II) of this paragraph (c), members of the review committee shall serve three-year terms; except that of the members initially appointed to the review committee, five members appointed by the state board shall serve two-year terms. Members of the review committee appointed pursuant to subparagraph (III) of paragraph (b) of this subsection (5) shall not serve more than two consecutive terms.

(II) The terms of the members appointed by the speaker of the house of representatives and the president of the senate and who are serving on March 22, 2007, shall be extended to and expire on or shall terminate on the convening date of the first regular session of the sixty-seventh general assembly. As soon as practicable after such convening date, the speaker and the president shall appoint or reappoint members in the same manner as provided in subparagraphs (IV) and (V) of paragraph (b) of this subsection (5). Thereafter, the terms of members appointed or reappointed by the speaker and the president shall expire on the convening date of the first regular session of each general assembly, and all subsequent appointments and reappointments by the speaker and the president shall be made as soon as practicable after such convening date. The person making the original appointment or reappointment shall fill any vacancy by appointment for the remainder of an unexpired term. Members shall serve at the pleasure of the appointing authority and shall continue in office until the member's successor is appointed.

(d) The composition of the review committee shall reflect, to the extent practical, Colorado's ethnic, racial, and geographic diversity.

(e) Members of the review committee shall serve without compensation but shall be reimbursed from moneys deposited in the tobacco education programs fund created in section 24-22-117, C.R.S., for their actual and necessary expenses incurred in the performance of their duties pursuant to this part 8.

(f) The review committee shall elect from its membership a chair and a vice-chair of the committee.

(g) The division shall provide staff support to the review committee.

(h) If a member of the review committee has an immediate personal, private, or financial interest in any matter pending before the review committee, the member shall disclose the fact and shall not vote upon such matter.

Editor's note: Amendments to subsection (1) by House Bill 05-1261 and House Bill 05-1262 were harmonized.

Cross references: For the legislative declaration contained in the 2005 act amending subsections (1) and (3)(a) and enacting subsection (5), see section 1 of chapter 241, Session Laws of Colorado 2005.

25-3.5-805. Tobacco education, prevention, and cessation programs - requirements. (1) An entity that applies for a grant pursuant to the provisions of this part 8 shall in the application demonstrate that the tobacco education, prevention, or cessation program provides at least one of the following:

(a) Education designed for school-age children that, at a minimum, addresses tobacco use prevention and cessation strategies and the dangers of tobacco use; or

(b) Education programs, including but not limited to school, work site, mass media, and health-care setting programs, designed to prevent or reduce the use of all types of tobacco products or help reduce exposure to secondhand smoke; or

(c) Counseling regarding the use of all types of tobacco products; or

(d) Programs that address prevention and cessation of the abuse of various types of drugs, with an emphasis on prevention and cessation of tobacco use; or

(e) (Deleted by amendment, L. 2005, p. 935, § 25, effective June 2, 2005.)

(f) Tobacco use and substance abuse prevention and cessation services addressed to specific population groups such as adolescents and pregnant women and provided within specific ethnic and low-income communities; or

(g) Training of teachers, health professionals, and others in the field of tobacco use and prevention; or

(h) Tobacco addiction prevention and treatment strategies that are designed specifically for persons with mental illness; or

(i) Activities to prevent the sale or furnishing by other means of cigarettes or tobacco products to minors; or

(j) Programs that are designed to eliminate health disparities among segments of the population that have higher than average tobacco burdens.

(1.5) Notwithstanding the requirements of subsection (1) of this section, an entity may apply for a grant for the purpose of evaluating the entire statewide program or individual components of the program.

(2) If the entity applying for a grant pursuant to the provisions of this part 8 is a school district or board of cooperative services, in addition to the information specified in subsection (1) of this section, the entity shall demonstrate in the application that the tobacco education, prevention, and cessation program to be operated with moneys received from the grant is a program that has not been previously provided by the school district or board of cooperative services. The entity shall also demonstrate that the program is specifically designed to appeal to and address the concerns of the age group to which the program will be presented.

(3) In adopting criteria for awarding grants, the state board shall adopt such criteria as will ensure that the implementation of a comprehensive program is consistent with the Colorado tobacco prevention and control strategic plan, that tobacco education, prevention, and cessation programs are available throughout the state, and that the programs are available to serve persons of all ages.

(4) At least fifteen percent of the moneys annually awarded to grantees pursuant to this section shall be for the purposes of providing funding to eliminate health disparities among minority populations and high-risk populations that have higher-than-average tobacco burdens.

(5) Up to fifteen percent of the moneys annually awarded pursuant to this section shall be allocated to grantees of the Tony Gramsas youth services program, section 25-20.5-201, for proven tobacco prevention and cessation programs.

(6) The majority of moneys annually awarded to grantees that qualify pursuant to subsections (1), (2), and (5) of this section shall be for evidence-based programs and programs that prevent and reduce tobacco use among youth and young adults.

25-3.5-806. Tobacco education, prevention, and cessation programs - reporting requirements. (1) In adopting rules specifying the reporting requirements for entities that receive grants pursuant to this part 8, the state board shall ensure that such reports, at a minimum, include:

(a) An evaluation of the implementation of the program, including but not limited to the number of persons served and the services provided;

(b) The results achieved by the program, specifying the goals of the program and the criteria used in measuring attainment of the goals;

(c) An explanation of how the results achieved by the program contribute to the achievement of the program goals as stated in section 25-3.5-802.

(2) The division shall compile the annual reports received from entities pursuant to this section and the department shall include the compilation and any other necessary information in the annual report on programs that are funded by moneys received by the state pursuant to the master settlement agreement prepared pursuant to section 25-1-108.5 (3).

(3) (a) The division shall annually review the reports received from entities receiving grants pursuant to this part 8 and shall make recommendations to the state board concerning whether the amount received by an entity should be continued, reduced, or increased. The division may also recommend that the grant for an entity be immediately terminated or not renewed if the tobacco education, prevention, and cessation program funded by the grant does not demonstrate a sufficient level of success, as determined by the division.

(b) The division may contract with one or more public or private entities to review and compile the reports received pursuant to this section and prepare the recommendations pursuant to paragraph (a) of this subsection (3).

PART 1

SANITARY REGULATIONS

25-4-101. Premises sanitation - food defined. Every building, room, basement, enclosure, or premises occupied, used, or maintained as a bakery, confectionery, cannery,

packing house, slaughterhouse, creamery, cheese factory, restaurant, hotel, grocery, meat market factory, shop, or warehouse, or any public place or manufacturing place used for the preparation, manufacture, packing, storage, sale, or distribution of any food, as defined in this section, which is intended for sale shall be properly and adequately lighted, drained, plumbed, and ventilated and shall be conducted with strict regard to the influence of such conditions upon the health of operatives, employees, clerks, or other persons therein employed and the purity and wholesomeness of the food therein produced, prepared, manufactured, packed, stored, sold, or distributed. For the purposes of this part 1, "food" includes all articles used for food, drink, confectionery, or condiment, whether simple, mixed, or compound, and all substances or ingredients used in the preparation thereof.

ANNOTATION

Law reviews. For article, "Impact of the Uniform Commercial Code on Colorado Law", see 42 Den. L. Ctr. J. 67 (1965).

25-4-102. Sanitary regulations. The floors, sidewalls, ceilings, furniture, receptacles, utensils, dishes, implements, and machinery of every restaurant, hotel kitchen, and establishment or place where such food intended for sale is produced, prepared, manufactured, packed, stored, sold, or distributed and all cars, trucks, and vehicles used in the transportation of such food products shall at no time be kept or permitted to remain in an unclean, unhealthful, or unsanitary condition. For the purpose of this part 1, unclean, unhealthful, and unsanitary conditions shall be deemed to exist if food in the process of production, preparation, manufacture, packing, storage, sale, distribution, or transportation is not securely protected from flies, dust, dirt, and all other foreign or injurious contamination, as far as may be necessary by all reasonable means; or if the refuse, dirt, or waste products incident to the manufacture, preparation, packing, selling, distributing, or transportation of such food are not removed daily; or if all trucks, trays, boxes, buckets, or other receptacles or the chutes, platforms, racks, tables, shelves, and knives, saws, cleavers, or other utensils, or the machinery used in moving, handling, cutting, chopping, mixing, canning, or other processes are not thoroughly cleaned daily; or if the clothing of operatives, employees, clerks, or other persons therein employed is unclean; or if all dishes, cups, glasses, knives, forks, and spoons are not thoroughly washed in hot or running water and rinsed after each usage; or if dishes, cups, or glasses are used which are so cracked, chipped, or broken as to be detrimental to health; or if all ice-cream cones and straws are not securely covered.

25-4-104. Protection from dirt. All such factories, buildings, and other places containing food shall be provided with proper doors and screens necessary and adequate to protect against the contamination of the product from flies, dust, or dirt.

Source: L. 13: p. 511, § 4. L. 21: p. 676, § 2. C.L. § 1018. CSA: C. 69, § 24. CRS 53: § 66-13-4. C.R.S. 1963: § 66-13-4.

25-4-105. Toilet rooms and lavatories. Every such building, room, basement, enclosure, or premises occupied, used, or maintained for the production, preparation, manufacture, canning, packing, storage, sale, or distribution of such food shall have adequate and convenient toilet rooms or lavatories. The toilet rooms shall be separate and apart from the rooms where the process of production, preparation, manufacture, packing, storing, canning, selling, and distributing is conducted. The floors of such toilet rooms shall be of cement, tile, wood, brick, or other nonabsorbent material and shall be washed and scoured daily. Such toilets shall be furnished with separate ventilating flues and pipes discharging into soil pipes or shall be on the outside of and well removed from the building. Lavatories and washrooms shall be maintained in a sanitary condition.

Source: L. 13: p. 511, § 5. C.L. § 1019. CSA: C. 69, § 25. CRS 53: § 66-13-5. C.R.S. 1963: § 66-13-5.

25-4-106. Nuisances - misdemeanor. If any such building, room, basement, enclosure, or premises occupied, used, or maintained for the purposes stated in sections 25-4-101 to 25-4-105 or if the floors, sidewalls, ceilings, furniture, receptacles, utensils, implements, appliances, or machinery of any such establishment shall be constructed, kept, maintained, or permitted to remain in a condition contrary to any of the provisions of sections 25-4-101 to 25-4-105, the same is declared a nuisance. Any toilet room, lavatory, or washroom which shall be constructed, kept, maintained, or permitted to remain in a condition contrary to the requirements of section 25-4-105 is declared a nuisance. Any car, truck, or vehicle used in the moving or transportation of any food product which shall be kept or permitted to remain in an unclean, unhealthful, or unsanitary condition is declared a nuisance. Whoever unlawfully maintains, or allows or permits to exist, a nuisance as defined in this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in section 25-4-111.

Source: L. 13: p. 512, § 6. L. 21: p. 677, § 3. C.L. § 1020. CSA: C. 69, § 26. CRS 53: § 66-13-6. C.R.S. 1963: § 66-13-6.

25-4-107. Rooms not used for sleeping. It is unlawful for any person to sleep or to allow or permit any person to sleep in any workroom of a bakeshop, kitchen, dining room, confectionery, creamery, cheese factory, or other place where food is prepared for sale, served, or sold unless all foods therein handled are at all times in hermetically sealed packages.

Source: L. 13: p. 512, § 7. C.L. § 1021. CSA: C. 69, § 27. CRS 53: § 66-13-7. C.R.S. 1963: § 66-13-7.

25-4-108. Work by diseased persons forbidden. It is unlawful for any employer to permit any person who works in food preparation and is affected with any contagious or infectious disease that is spread by food to work, or for any person so affected to work, in any capacity in which there is a likelihood that the employee would contaminate food or food-contact surfaces with pathogenic organisms or transmit disease to other persons.

Source: L. 13: p. 512, § 8. C.L. § 1022. CSA: C. 69, § 28. CRS 53: § 66-13-8. C.R.S. 1963: § 66-13-8. L. 2009: Entire section amended, (SB 09-179), ch. 112, p. 467, § 1, effective April 9.

25-4-109. Enforcement. (1) It is the duty of the department of public health and environment to enforce this part 1, and, for that purpose, the department has full power at all times to enter every such building, room, basement, enclosure, or premises occupied or used or suspected of being occupied or used for the production, preparation, or manufacture for sale, or the storage, sale, distribution, or transportation of such food, to inspect the premises and all utensils, fixtures, furniture, and machinery used pursuant to the provisions of this subsection (1). Any refusal to permit such inspection shall be deemed a violation of this part 1. If upon inspection any such food producing or distributing establishment, conveyance, or employer, employee, clerk, driver, or other person is found to be violating any of the provisions of this part 1, or if the production, preparation, manufacture, packing, storage, sale, distribution, or transportation of such food is being conducted in a manner detrimental to the health of the employees and operatives or to the character or quality of the food therein produced, prepared, manufactured, packed, stored, sold, distributed, or conveyed, the department of public health and environment shall issue a written order to the person, firm, or corporation responsible for the violation or condition to abate such condition or violation or to make such changes or improvements as may be necessary to abate them within a reasonable time. Notice of such order may be served by delivering a copy thereof to said person, firm, or corporation or by sending a copy thereof by registered mail, and the receipt thereof through the post office shall be prima facie evidence that notice of said order has been received.

(2) Such person, firm, or corporation has the right to appear in person or by attorney before the department of public health and environment, or the person appointed by it for such purpose, within the time limited in the order and shall be given an opportunity to be heard and to show why such order or instructions should not be obeyed. Such hearing shall be under such rules and regulations as may be prescribed by the department. If after such hearing it appears that the provisions or requirements of this part 1 have not been violated, said order shall be rescinded. If it appears that the requirements or provisions of this part 1 are being violated and that the person, firm, or corporation notified is responsible therefor, said previous order shall be confirmed or amended, as the facts shall warrant, and shall thereupon be final, but such additional time as is necessary may be granted within which to comply with said final order. If such person, firm, or corporation is not present or represented when such final order is made, notice thereof shall be given as provided in subsection (1) of this section. Upon failure of the parties to comply with the first order of the department within the time prescribed when no hearing is demanded or upon failure to comply with the final order within the time specified, the department of public health and environment shall certify the facts to the district attorney of the county in which such violation occurred, and such district attorney shall proceed against the parties for the fines and penalties provided by this part 1 and also for the abatement of the nuisance. The proceedings prescribed in this section for the abatement of nuisance as defined in section 25-4-106 shall not in any manner relieve the violator from prosecution in the first instance for any such violation or from the penalties for such violation prescribed by section 25-4-111.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-110. Prosecutions - disposition of fines. All fines collected under the provisions of this part 1 shall be paid to the county treasurer of the county in which the prosecution is brought, and it is the duty of the district attorneys in the respective counties to prosecute all persons violating or refusing to obey the provisions of this part 1.

Source: L. 13: p. 514, § 10. C.L. § 1024. CSA: C. 69, § 30. CRS 53: § 66-13-10. C.R.S. 1963: § 66-13-10.

25-4-111. Penalty. Any person who violates any of the provisions of this part 1 or refuses to comply with any lawful order or requirement of the department of public health and environment, duly made in writing as provided in section 25-4-109, is guilty of a misdemeanor and, upon conviction thereof, shall be punished for the first offense by a fine of not more than two hundred dollars and for the second and subsequent offenses by a fine of not more than two hundred dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment. Each day of noncompliance after the expiration of the time limit for abating unsanitary conditions and completing improvements to abate such conditions, as ordered by the department of public health and environment, constitutes a separate offense.

25-4-112. Rules. The state board of health, created in section 25-1-103, may adopt rules as necessary for the implementation of this article.

Source: L. 2009: Entire section added, (SB 09-179), ch. 112, p. 467, § 2, effective April 9.

PART 2

PRENATAL EXAMINATIONS

25-4-201. Pregnant woman to take blood test. (1) Every licensed health care provider authorized to provide care to a pregnant woman in this state for conditions relating to her pregnancy during the period of gestation or at delivery shall take or cause to be taken a sample of blood of the woman at the time of the first professional visit or during the first trimester for testing pursuant to this section. The blood specimen obtained shall be submitted to an approved laboratory for a standard serological test for syphilis and HIV. Every other person permitted by law to attend pregnant women in this state but not permitted by law to take blood samples shall cause a sample of blood of each pregnant woman to be taken by a licensed health care provider authorized to take blood samples and shall have the sample submitted to an approved laboratory for a standard serological test for syphilis and HIV. A pregnant woman may decline to be tested as specified in this subsection (1), in which case the licensed health care provider shall document that fact in her medical record.

(2) If a pregnant woman entering a hospital for delivery has not been tested for HIV during her pregnancy, the hospital shall notify the woman that she will be tested for HIV unless she objects and declines the test. If the woman declines to be tested, the hospital shall document that fact in the pregnant woman's medical record.

Source: L. 39: p. 413, § 1. CSA: C. 78, § 170(1). CRS 53: § 66-11-1. C.R.S. 1963: § 66-11-1. L. 2009: Entire section amended, (SB 09-179), ch. 112, p. 467, § 3, effective April 9.

25-4-202. Tests approved by department. (Repealed)

Source: L. 39: p. 413, § 2. CSA: C. 78, § 170(2). CRS 53: § 66-11-2. C.R.S. 1963: § 66-11-2. L. 94: Entire section amended, p. 2760, § 425, effective July 1. L. 2009: Entire section repealed, (SB 09-179), ch. 112, p. 468, § 4, effective April 9.

25-4-203. Birth certificate - blood test. In reporting every birth and stillbirth, physicians and others required to make such reports shall state on the certificate whether a blood test for syphilis and HIV has been made upon a specimen of blood taken from the woman who bore the child for which a birth or stillbirth certificate is filed and the approximate date when the specimen was taken. In no event shall the birth certificate state the result of the test.

Cross references. For a certificate of birth, see § 25-2-112.

25-4-204. Penalty. Any licensed physician and surgeon or other person engaged in attendance upon a pregnant woman during the period of gestation or at delivery or any representative of a laboratory who violates the provisions of this part 2 is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than three hundred dollars. Every licensed physician and surgeon or other person engaged in attendance upon a pregnant woman during the period of gestation or at delivery who requests such specimen in accordance with the provisions of section 25-4-201 and whose request is refused is not guilty of a misdemeanor.

PART 3

BLINDNESS IN NEWLY BORN

25-4-301. Inflammation of eyes. (1) Any inflammation, swelling, or unusual redness in either one or both eyes of any infant, either apart from or together with any unnatural discharge from the eyes of such infant, independent of the nature of the infection, if any, occurring at any time within two weeks after the birth of such infant shall be known as “inflammation of the eyes of the newly born” (ophthalmia neonatorum).

(2) It is the duty of any physician, nurse, or other person who assists or is in charge at the birth of an infant or is charged with the care of the infant after birth to treat the eyes of the infant with a prophylaxis in accordance with current standard of care. Such treatment shall be given as soon as practicable after the birth of the infant and always within one hour. If any redness, swelling, inflammation, or gathering of pus appears in the eyes of such infant, or upon the lids or about the eyes, within two weeks after birth, any person charged with care of the infant shall report the same to some competent practicing physician or advanced practice nurse within six hours after its discovery.

(3) Nothing in this section requires medical treatment for the minor child of any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of his or her church or religious denomination, are against medical treatment for disease.

PART 4**SEXUALLY TRANSMITTED INFECTIONS****25-4-401. Sexually transmitted infections - definitions. (1) As used in this part 4:**

(a) "Department" means the department of public health and environment created in section 25-1-102.

(b) "Health officer" means the executive director of the department, the chief medical officer appointed pursuant to section 25-1-105, or a county or district public health director.

(c) "Sexually transmitted infection" means syphilis, gonorrhea, and any other type of sexually transmitted infection designated by the state board by rule as contagious, upon making a finding that the particular sexually transmitted infection is contagious; except that cases of AIDS, HIV-related illness, and HIV infections shall be governed solely by the requirements of part 14 of this article.

(d) "State board" means the state board of health created in section 25-1-103.

(2) Sexually transmitted infections are declared to be contagious, sexually transmitted, and dangerous to the public health.

(3) It is unlawful for any person who has knowledge or reasonable grounds to suspect that he or she is infected with a sexually transmitted infection to willfully expose to or infect another person with the sexually transmitted infection or to knowingly perform an act that exposes or infects another person to or with a sexually transmitted infection.

Source: L. 19: p. 247, § 1. C.L. § 1075. CSA: C. 78, § 163. L. 47: p. 519, § 1. CRS 53: § 66-9-1. C.R.S. 1963: § 66-9-1. L. 91: (1) amended, p. 945, § 3, effective May 6. L. 2009: Entire section amended, (SB 09-179), ch. 112, p. 468, § 6, effective April 9.

25-4-402. Sexually transmitted infections reported - physician's immunity.

(1) Any physician, intern, or other person who makes a diagnosis in, prescribes for, or

treats a sexually transmitted infection and any superintendent or manager of a state, county, or city hospital, dispensary, or charitable or penal institution in which there is a sexually transmitted infection shall make a report of such infection to the health authorities in accordance with the provisions of section 25-1-122 (1).

(2) (Deleted by amendment, L. 91, p. 945, § 4, effective May 6, 1991.)

(3) Reports of sexually transmitted infection shall be made in accordance with the requirements set forth in section 25-1-122 (1).

(4) Any physician, upon consultation by a minor as a patient and with the consent of the minor patient, may make a diagnostic examination for sexually transmitted infection and may prescribe for and treat the minor patient for sexually transmitted infection without the consent of or notification to the parent or guardian of the minor patient or to any other person having custody of or parental responsibilities with respect to the minor patient. In any such case, the physician shall not be civilly or criminally liable for making the diagnostic examination or rendering the treatment, but the immunity from liability shall not apply to any negligent acts or omissions of the physician.

Applied in *Denver Publishing Co. v. Dreyfus*, 184 Colo. 288, 520 P.2d 104 (1974).

25-4-403. Medicine sold only on prescription. (Repealed)

Source: L. 19: p. 248, § 4. C.L. § 1078. L. 25: p. 421, § 2. CSA: C. 78, § 166. L. 47: p. 519, § 2. CRS 53: § 66-9-3. C.R.S. 1963: § 66-9-3. L. 2008: (1)(a) and (2) amended, p. 131, § 12, effective January 1, 2009. L. 2009: Entire section repealed, (SB 09-179), ch. 112, p. 474, § 18, effective April 9.

25-4-404. Examination of suspected cases. (1) Health officers or their authorized assistants or deputies within their respective jurisdictions are directed, when in their judgment it is necessary to protect the public health, to:

(a) Require a person reasonably suspected of having a sexually transmitted infection to be examined and to detain the person until the results of the examination are known;

(b) Require the examiner to give a written report of the examination to the confining health officer;

(c) Require persons with sexually transmitted infections to report for treatment to a qualified physician and continue treatment until cured; and

(d) Isolate persons with sexually transmitted infections.

(2) The examination and treatment of any person with a sexually transmitted infection shall be conducted by a qualified physician of the person's own choice, but, if the person is unable to retain a private physician, he or she shall submit to examination and treatment provided at public expense.

(3) It is the duty of all health officers to investigate sources of sexually transmitted infection, to cooperate with the proper officials whose duty it is to enforce laws directed against prostitution, and otherwise to use every proper means for the repression of prostitution.

25-4-405. Examination of persons confined. (1) All persons who are confined, detained, or imprisoned in any state, county, or city hospital or institution for persons with mental illness, any home for dependent children, any reformatory or prison, or any private or charitable institution where any person may be confined, detained, or imprisoned by order of court in this state shall be examined for and, if infected, treated for sexually transmitted infections by the health authorities having jurisdiction. The managing authorities of any such institutions are directed to make available to the health authorities such portion of their respective institutions as may be necessary for a clinic or hospital, wherein all persons who may be confined or detained or imprisoned in any such institution and who are infected with sexually transmitted infections may be treated in a manner as prescribed by the appropriate health officer.

25-4-406. Rules - provision of services. (1) The department, through the state board, shall adopt rules it deems necessary to carry out the provisions of this part 4, including rules providing for the control and treatment of persons isolated under section 25-4-405 and other rules not in conflict with this part 4 that the department deems advisable concerning the control of sexually transmitted infection and the care, treatment, and isolation of persons with sexually transmitted infections. The rules shall be binding upon all public health agencies, health officers, and other persons affected by this part 4 and shall have the force and effect of law.

(2) Notwithstanding any other provision of this part 4 to the contrary, programs and services that provide for the investigation, identification, testing, preventive care, or treatment of sexually transmitted infections shall be available to a person regardless of his or her race, religion, gender, sexual orientation, ethnicity, national origin, or immigration status.

Law reviews. For article, “2006 Immigration Legislation in Colorado”, see 35 Colo. Law. 79 (October 2006).

25-4-407. Penalty. (1) Except as provided in subsection (2) of this section, any person, firm, or corporation that violates a provision of this part 4, other than section 25-4-408, or any lawful rule adopted by the state board pursuant to the authority granted in this part 4, or fails or refuses to obey any lawful order issued by any health officer pursuant

to the authority granted in this part 4, is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than three hundred dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment.

(2) If the person who commits a violation of this part 4 or a lawful rule of the state board or who fails or refuses to obey a lawful order of a health officer is a licensed or certified health care professional, the health officer may bring an action in the district court of the judicial district in which the violation or failure or refusal occurs to seek a civil penalty of not more than three hundred dollars per violation, failure, or refusal. A person subject to the penalties specified in this subsection (2) shall not be subject to the penalties described in subsection (1) of this section.

25-4-408. Distribution of information. The department shall prepare, for free distribution among the residents of the state, printed information and instructions concerning the dangers of sexually transmitted infections, their prevention, and the necessity for treatment. It is the duty of every physician who, during the course of an examination, discovers the existence of a sexually transmitted infection or who treats a person for a sexually transmitted infection to inform the person about the measures for preventing the spread of the infection and the necessity for treatment until cured, when appropriate.

PART 5

TUBERCULOSIS

Editor's note: This part 5 was numbered as article 12 of chapter 66, C.R.S. 1963. The substantive provisions of this part 5 were repealed and reenacted in 1967, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 5 prior to 1967, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

25-4-500.3. Definitions. As used in this part 5, unless the context otherwise requires:

(1) "Active tuberculosis" means a diagnosis of tuberculosis demonstrated by clinical, bacteriologic, or diagnostic imaging evidence, or a combination thereof. A person who has been diagnosed as having active tuberculosis and has not completed a course of antituberculosis treatment is still considered to have active tuberculosis and may be infectious.

(2) "Board of health" means the state board of health created in section 25-1-103.

(3) "Contact" means a person who has shared the same air space with a person who has active tuberculosis.

(4) "Contagious" means having a disease that may be transmitted from one living person to another through direct or indirect contact.

(5) "Department" means the department of public health and environment.

(6) "Health officer" means the executive director of the department, the state chief medical officer, and county or district public health directors.

(7) “Infectious” means contagious.

(8) “Isolation” means separation of a person infected, or suspected to be infected, with tuberculosis from other persons to prevent the spread of tuberculosis.

(9) “Latent tuberculosis infection” means that tuberculosis organisms are present in a person’s body, but the person does not have tuberculosis or symptoms, nor is the person infectious. Such a person usually has a positive reaction to the tuberculin skin test.

(10) “Local health officer” means the chief medical health officer of a county, district, or municipal public health agency or the health officer for a public health nursing service.

(11) “Multidrug-resistant tuberculosis” means tuberculosis caused by tuberculosis organisms that are resistant to at least the drugs isoniazid and rifampin.

(12) “Screening” means measures used to identify persons who have active tuberculosis or latent tuberculosis infection.

(13) “State chief medical officer” means the chief medical officer of the department, as described in section 25-1-105, or the executive director of the department.

(14) “Suspected case of active tuberculosis”, “suspected case of tuberculosis”, “suspected tuberculosis”, or “suspected tuberculosis case” means a diagnosis of tuberculosis is being considered for a person, whether or not antituberculosis therapy has been started.

(15) “Tubercle bacilli” means tuberculosis organisms.

(16) “Tuberculosis” means a potentially fatal contagious disease caused by the bacterial microorganisms of the mycobacterium tuberculosis complex that can affect almost any part of the body but most commonly affects the lungs.

Source: L. 2008: Entire part amended, p. 313, § 1, effective April 7; (13) amended, p. 1906, § 99, effective August 5. L. 2009: (6) amended, (SB 09-179), ch. 112, p. 472, § 13, effective April 9. L. 2010: (10) amended, (HB 10-1422), ch. 419, p. 2093, § 92, effective August 11.

25-4-501. Tuberculosis declared to be an infectious and communicable disease. It is hereby declared that tuberculosis is an infectious and communicable disease, that it endangers the population of this state, and that the treatment and control of such disease is a state and local responsibility. It is further declared that the emergence of multidrug-resistant tuberculosis requires that this threat be addressed with a coherent and consistent strategy in order to protect the public health. To the end that tuberculosis may be brought better under control and multidrug-resistant tuberculosis prevented, it is further declared that the department and local public health agencies shall, within available resources, cooperatively promote control and treatment of persons suffering from tuberculosis.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-502. Tuberculosis to be reported. (1) Every attending physician and other persons either treating or having knowledge of active or suspected tuberculosis in this state shall make a report to the department in accordance with section 25-1-122 (1) on every person known by said physician or other person to have active or suspected tuberculosis.

(2) Any health care facility or other similar private or public institution in this state shall make a report to the department in accordance with section 25-1-122 (1) on every person having active or suspected tuberculosis who comes into its care or observation.

(3) All clinical laboratories rendering diagnostic service shall report to the department in accordance with section 25-1-122 (1), within twenty-four hours after diagnosis, the full name and other available data relating to the person whose sputa or other specimens submitted for examination reveal the presence of tubercle bacilli.

Editor's note: This section was deleted by amendment in 2008. (See L. 2008, p. 316.)

25-4-506. Investigation and examination of suspected or known tuberculosis cases.
(1) The state chief medical officer and all local health officers are directed to use every available means to investigate immediately and ascertain the existence of all reported or suspected cases of active tuberculosis within the health officer's jurisdiction, to determine the sources of such infections, and to identify and evaluate the contacts of such cases and offer treatment as appropriate. In carrying out such investigations, such health officer is invested with full powers of inspection and examination of all persons known to be infected with active tuberculosis and is directed to make or cause to be made such examinations as are deemed necessary of persons who, on reasonable grounds, are suspected of having active tuberculosis in an infectious form.

(2) Whenever a health officer determines on reasonable grounds that an examination of any person is necessary for the preservation and protection of the public health, the health officer shall issue a written order directing medical examination, setting forth the name of the person to be examined, the time and place of the examination, and such other terms and conditions as the health officer may deem necessary. A copy of such order shall be served upon the person. Such an examination may be made by a licensed physician or advanced practice nurse of the person's own choice under such terms and conditions as the health officer shall specify.

(3) Any person who depends exclusively on prayer for healing in accordance with the teachings of any well-recognized religious sect, denomination, or organization, and claims exemptions on such grounds, shall nevertheless be subject to examination, and the provisions of this part 5 regarding compulsory reporting of communicable diseases and isolations shall apply where there is probable cause to suspect that such person has active tuberculosis. Such person shall not be required to submit to any medical treatment or to go to or be

confined in a hospital or other medical institution if the person can safely be isolated in the person's own home or other suitable place of the person's choice.

(4) A health officer may conduct screening programs of populations that are at increased risk of developing tuberculosis or having latent tuberculosis infection and offer treatment as appropriate. Such screening programs may be implemented by a local health officer with the approval of the state chief medical officer.

Source: L. 67: R&RE, p. 724, § 1. C.R.S. 1963: § 66-12-6. L. 2002: (1) amended, p. 1313, § 2, effective August 7. L. 2004: (1)(a) amended, p. 1201, § 66, effective August 4. L. 2008: Entire part amended, p. 316, § 1, effective April 7; (2) amended, p. 132, § 14, effective January 1, 2009.

Editor's note: Amendments to subsection (2) by House Bill 08-1061 and House Bill 08-1199 were harmonized, effective January 1, 2009.

25-4-507. Isolation order - enforcement - court review. (1) (a) Whenever a health officer determines that isolation of a person in a particular tuberculosis case is necessary for the preservation and protection of the public health, the health officer shall make an isolation order in writing.

(b) When a health officer is determining whether to issue an isolation order for a person, the health officer shall consider, but is not limited to, the following factors:

(I) Whether the person has active tuberculosis;

(II) If the person is violating the rules promulgated by the board of health or the orders issued by the appropriate health officer to comply with rules or orders; and

(III) Whether the person presents a substantial risk of exposing other persons to an imminent danger of infection.

(c) All isolation orders shall set forth the name of the person to be isolated and the initial period, not to exceed six months, during which the order shall remain effective, the place of isolation, and such other terms and conditions as may be immediately necessary to protect the public health. The isolation order shall advise the person being detained that he or she has the right to request release from detention by contacting a person designated in the order and that the detention shall not continue for more than five business days after the request for release, unless the detention is authorized by court order. The health officer shall serve a copy of the isolation order upon the person. The person shall be reexamined at the time the initial order expires to ascertain whether or not the tuberculous condition continues to be infectious. When it has been medically determined that the person no longer has active tuberculosis, the person shall be relieved from all further liability or duty imposed by this part 5, and the health officer shall rescind the order.

(d) A health officer may detain a person who is the subject of an isolation order issued pursuant to this subsection (1) without a prior court order. The health officer may detain the person in a hospital or other appropriate place for examination or treatment.

(2) In a case of a person with multidrug-resistant tuberculosis, the health officer may issue an isolation order to such person if it is determined that the person has ceased taking prescribed medications against medical advice. Such order may be issued even if the person is no longer contagious so long as the person has not completed an entire course of therapy.

(3) (a) If a person detained pursuant to an isolation order requests to be released, the detaining authority shall release the person not later than five business days after the person requests the release, absent a court order authorizing detention. Upon receipt of a request for release, the detaining authority shall apply for a court order authorizing continued detention of the person. The detaining authority shall make the application within seventy-two hours after the person requests release or, if the seventy-two-hour period ends on a Saturday, Sunday, or legal holiday, by the end of the first business day following the Saturday, Sunday, or legal holiday. The application shall include a request for an expedited hearing.

(b) In any court proceeding to enforce an isolation order, the health officer shall prove the particular circumstances constituting the necessity for the detention by clear and

convincing evidence. Any person who is subject to an isolation order has the right to be represented by counsel and, upon request, counsel shall be provided to the person.

(c) The request for release or filing of an application for a court order to continue an isolation order shall not stay the isolation order.

(d) In reviewing the application to continue the isolation order, the court shall not conduct a de novo review. The court shall consider the existing administrative record and any supplemental evidence the court deems relevant.

(e) Upon completion of the hearing, the court shall issue an order continuing, modifying, or dismissing the isolation order.

(f) A hearing conducted pursuant to this section shall be closed and confidential, and any transcripts relating to the hearing shall be confidential.

Source: L. 67: R&RE, p. 725, § 1. C.R.S. 1963: § 66-12-7. L. 2002: (3) added, p. 1314, § 3, effective August 7. L. 2008: Entire part amended, p. 317, § 1, effective April 7. L. 2009: (1)(c) amended and (1)(d) and (3) added, (SB 09-179), ch. 112, pp. 472, 473, §§ 14, 15, effective April 9.

25-4-508. Inspection of records. Authorized department personnel may inspect and have access to all medical records of all medical practitioners, hospitals, institutions, and clinics, both public and private, where persons with known or suspected tuberculosis are treated and shall provide consultation services regarding the control of tuberculosis and the care of persons having tuberculosis to health care providers or any other persons having responsibility for the care of persons with tuberculosis. Authorized department personnel shall also have access to laboratory records of persons tested for tuberculosis.

Source: L. 67: R&RE, p. 725, § 1. C.R.S. 1963: § 66-12-8. L. 91: Entire section amended, p. 947, § 6, effective May 6. L. 94: Entire section amended, p. 2763, § 437, effective July 1. L. 2008: Entire part amended, p. 318, § 1, effective April 7.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-509. Violations - penalty. (1) Any person who, after service upon him or her of an order of a health officer directing his or her isolation or examination as provided in sections 25-4-506 and 25-4-507, violates or fails to comply with the order is guilty of a misdemeanor and, upon conviction thereof, in addition to any and all other penalties that may be imposed by law upon such convictions, the court may make an appropriate order providing for examination, isolation, or treatment.

(2) Any person, firm, or corporation that fails to make the reports required by this part 5 or knowingly makes any false report is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than five hundred dollars.

(3) Upon the receipt of information that any examination, isolation, or treatment order made and served as provided in this part 5 has been violated, the health officer shall advise the district attorney of the judicial district in which such violation occurred of the pertinent facts relating to the violation.

Source: L. 67: R&RE, p. 725, § 1. C.R.S. 1963: § 66-12-9. L. 2008: Entire part amended, p. 318, § 1, effective April 7.

25-4-510. Jurisdiction. District courts shall have original jurisdiction under this part 5.

Source: L. 67: R&RE, p. 726, § 1. C.R.S. 1963: § 66-12-10. L. 2008: Entire part amended, p. 318, § 1, effective April 7.

Editor's note: This section was not amended in 2008, although it was contained in a 2008 act that amended this entire part 5.

25-4-511. Duties of board of health and department - confidentiality of records - rules. (1) The board of health is authorized to adopt such rules as are deemed necessary, appropriate, and consistent with good medical practice in the state of Colorado for the treatment and control of persons with tuberculosis.

(2) Subject to available appropriations, the department may contract with local public health agencies to provide assistance with tuberculosis treatment and control. The department shall retain the authority to, when necessary:

(a) Direct any program of investigation and examination of suspected tuberculosis cases, including persons who have had contact with a person who has suspected or confirmed active tuberculosis, and the administration of antituberculosis chemotherapy or the treatment of a latent tuberculosis infection on an outpatient basis where appropriate;

(b) Perform such other duties and have such other powers with relation to the provisions, objects, and purposes of this part 5 as the board of health shall prescribe.

(3) Except as otherwise provided by law, all records kept by the department and by local public health agencies and all records retained in a county coroner's office in accordance with section 30-10-606 (4) (c), C.R.S., as a result of the investigation of tuberculosis shall be kept strictly confidential and shall only be shared to the extent necessary for the investigation, treatment, control, and prevention of tuberculosis; except that every effort shall be made to limit disclosure of personal identifying information to the minimal amount necessary to accomplish the public health purpose.

ANNOTATION

Law reviews. For article, "2006 Immigration Legislation in Colorado", see 35 Colo. Law. 79 (October 2006).

25-4-513. Funding. The department shall provide funding to local public health agencies for tuberculosis treatment and control and shall consider the number of active, suspected, and latent tuberculosis cases undergoing therapy in each agency's jurisdiction when determining funding levels.

Source: L. 73: p. 696, § 2. C.R.S. 1963: § 66-12-13. L. 2008: Entire part amended, p. 320, § 1, effective April 7.

PART 6

RABIES CONTROL

25-4-601. Definitions. As used in this part 6, unless the context otherwise requires:

(1) "County board of health" means the body acting as the county or district board of health under the provisions of section 25-1-508.

(2) "Health department" means the department of public health and environment or any county or district public health agency organized and maintained under the provisions of part 5 of article 1 of this title.

(3) "Health officer" means the person appointed as the public health director of a district, county, city, or town under the provisions of section 25-1-509.

(4) "Inoculation against rabies" means the administration of the antirabies vaccine as approved by the department of public health and environment or the county or district department of health.

(5) "Owner" means any person who has a right of property in a dog, cat, other pet animal, or other mammal, or who keeps or harbors a dog, cat, other pet animal, or other mammal, or who has it in his care or acts as its custodian.

Source: L. 63: p. 545, § 1. CRS 53: § 66-25-1. C.R.S. 1963: § 66-23-1. L. 91: (2) and (5) amended, p. 947, § 7, effective May 6. L. 94: (4) amended, p. 2764, § 439, effective July 1. L. 2008: (1), (2), and (3) amended, p. 2053, § 7, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (4), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-602. Notice to health department or officer if animal affected or suspected of being affected by rabies. Whenever a dog, cat, other pet animal, or other mammal is affected by rabies or suspected of being affected by rabies or has been bitten by an animal known or suspected to be affected by rabies, the owner of the dog, cat, other pet animal, or other mammal, or any person having knowledge thereof, shall forthwith notify the health department or health officer in the county, city, or town in which such animal is located, stating precisely where such animal may be found.

Source: L. 63: p. 546, § 1. CRS 53: § 66-25-2. C.R.S. 1963: § 66-23-2. L. 91: Entire section amended, p. 947, § 8, effective May 6.

25-4-603. Report of person bitten by animal to health department or health officer. Every physician after his first professional attendance upon a person bitten by a dog, cat, other pet animal, or other mammal, or any person having knowledge thereof, shall report to the health department or health officer in accordance with the provisions of section 25-1-122 (1).

Source: L. 63: p. 546, § 1. CRS 53: § 66-25-3. C.R.S. 1963: § 66-23-3. L. 91: Entire section amended, p. 947, § 9, effective May 6.

25-4-604. Animal attacking or biting person to be confined - examination. The health department or health officer shall serve notice upon the owner of a dog, cat, other pet animal, or other mammal which has attacked or bitten a person to confine the animal at the expense of the owner upon his premises or at a pound or other place designated in the notice for a period designated by the department of public health and environment. The health department, health officer, or his representative shall be permitted by the owner of such dog, cat, other pet animal, or other mammal to examine the animal at any time within the period of confinement to determine whether such animal shows symptoms of rabies. No person shall obstruct or interfere with the authorized person in making such examination.

Source: L. 63: p. 546, § 1. CRS 53: § 66-25-4. C.R.S. 1963: § 66-23-4. L. 91: Entire section amended, p. 948, § 10, effective May 6. L. 94: Entire section amended, p. 2764, § 440, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-605. Animals bitten by animals known or suspected of having rabies to be confined. The health department or health officer shall serve notice in writing upon the owner of a dog, cat, other pet animal, or other mammal known to have been bitten by an animal known or suspected of having rabies requiring the owner to immediately treat and confine such animal by procedures outlined by the department of public health and environment.

Source: L. 63: p. 546, § 1. CRS 53: § 66-25-5. C.R.S. 1963: § 66-23-5. L. 91: Entire section amended, p. 948, § 11, effective May 6. L. 94: Entire section amended, p. 2765, § 441, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-606. Animals to be confined to prevent spread of rabies. Whenever the board of health of a health department or the county board of health has reason to believe or has been notified by the department of public health and environment that there is imminent danger that rabies may spread within that county or district, such board shall serve public notice by publication in a newspaper of general circulation in such county or district covered by such department requiring the owners of dogs, cats, other pet animals, or other mammals specified to confine such dogs, cats, pet animals, or mammals for such period as may be necessary to prevent the spread of rabies in such county or district.

Source: L. 63: p. 546, § 1. CRS 53: § 66-25-6. C.R.S. 1963: § 66-23-6. L. 91: Entire section amended, p. 948, § 12, effective May 6. L. 94: Entire section amended, p. 2765, § 442, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-607. Order of board of health requiring inoculation of animals - veterinarian waiver of order. (1) (a) When it is deemed advisable in the interest of public health and safety, the board of health of an organized health department or a county board of health may order that all dogs, cats, other pet animals, or other mammals in the county or district be vaccinated against rabies, such vaccination to be performed by a licensed veterinarian.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (1), a board of health of an organized health department or a county board of health shall not order the inoculation of dogs, cats, or ferrets against rabies any more frequently than is recommended in the "Compendium of Animal Rabies Control" as promulgated by the national association of state public health veterinarians.

(2) A veterinarian, with the written consent of an animal's owner, may issue a written waiver pursuant to the rules of the health department, exempting an animal from a rabies vaccination order if the veterinarian, in his or her professional opinion, determines that the rabies inoculation is contraindicated due to the animal's medical condition.

(3) (a) The executive director of the health department shall enact rules allowing for the exemption of an animal from a rabies vaccination due to the medical condition of the animal.

(b) The owner of an animal seeking an exemption from a rabies vaccination for his or her animal must provide the veterinarian with written consent for the exemption.

(c) A veterinarian supplying a waiver exempting an animal from a rabies vaccination, county, district, and municipal health departments, their assistants and employees, the health department, health officers, and anyone enforcing this part 6 shall not be liable for any subsequent accident, disease, injury, or quarantine that may occur as a result of an animal exempted from a rabies vaccination pursuant to the rules of the health department.

(4) A waiver executed pursuant to this section shall be accepted and recognized by any local or regional authority issuing licenses for the ownership of animals.

Source: L. 63: p. 547, § 1. CRS 53: § 66-25-7. C.R.S. 1963: § 66-23-7. L. 91: Entire section amended, p. 948, § 13, effective May 6. L. 99: Entire section amended, p. 275, § 2, effective July 1. L. 2008: Entire section amended, p. 1629, § 1, effective May 29. L. 2010: (3)(c) amended, (HB 10-1422), ch. 419, p. 2093, § 93, effective August 11.

25-4-608. Notice of order requiring inoculation of animals. The order of a board of health of a health department or a county board of health requiring inoculation of all dogs, cats, other pet animals, or other mammals shall not become effective until twenty-four hours after notice of adoption of the order requiring inoculation of all dogs, cats, other pet animals, or other mammals has been published in a newspaper of general circulation in the county or district.

Source: L. 63: p. 547, § 1. CRS 53: § 66-25-8. C.R.S. 1963: § 66-23-8. L. 91: Entire section amended, p. 949, § 14, effective May 6.

25-4-609. Effect of order requiring inoculation of animals. Sections 25-4-610 and 25-4-611 shall be in force and effect only in those counties, districts, or portions of counties or districts where an order requiring inoculation of all dogs, cats, other pet animals, or other mammals is in effect.

Source: L. 63: p. 547, § 1. CRS 53: § 66-25-9. C.R.S. 1963: § 66-23-9. L. 91: Entire section amended, p. 949, § 15, effective May 6.

25-4-610. Uninoculated animals not to run at large - impounding and disposition of animals. It is unlawful for any owner of any dog, cat, other pet animal, or other mammal which has not been inoculated as required by the order of the county board of health or board of health of a health department to allow it to run at large. The health department or health officer may capture and impound any such dog, cat, other pet animal, or other mammal found running at large and dispose of such animal in accordance with local program policy. Such power to impound and dispose shall extend to any and all animals unclaimed and found or suspected to be affected by rabies, whether wild or domestic. The division of parks and wildlife shall cooperate with and aid the health department or health officer in the enforcement of this section as it affects animals found or suspected to be affected by rabies when such animals are in its care, jurisdiction, or control.

Source: L. 63: p. 547, § 1. CRS 53: § 66-25-10. C.R.S. 1963: § 66-23-10. L. 91: Entire section amended, p. 949, § 16, effective May 6.

25-4-611. Report to state department. Each health department or health officer shall furnish information to the department of public health and environment concerning all cases of rabies and the prevalence of rabies within the county at any time such information is requested by the department of public health and environment.

Source: L. 63: p. 548, § 1. CRS 53: § 66-25-11. C.R.S. 1963: § 66-23-11. L. 94: Entire section amended, p. 2765, § 443, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-612. Enforcement of part 6. The health officer or health department shall enforce the provisions of this part 6, and the sheriff and his deputies and the police officers in each incorporated municipality and the division of parks and wildlife shall be aides and are instructed to cooperate with the health department or health officer in carrying out the provisions of this part 6.

Source: L. 63: p. 548, § 1. CRS 53: § 66-25-12. C.R.S. 1963: § 66-23-12.

25-4-613. Liability for accident or subsequent disease from inoculation. The health departments, their assistants and employees, the department of public health and environment, health officers, or anyone enforcing the provisions of this part 6 shall not be held responsible for any accident or subsequent disease that may occur in connection with the administration of this part 6.

Source: L. 63: p. 548, § 1. CRS 53: § 66-25-13. C.R.S. 1963: § 66-23-13. L. 94: Entire section amended, p. 2765, § 444, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-614. Penalties. Any person who refuses to comply with or who violates any of the provisions of this part 6 is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars or by imprisonment in the county jail for not more than thirty days for each offense.

Source: L. 63: p. 548, § 1. CRS 53: § 66-25-14. C.R.S. 1963: § 66-23-14.

25-4-615. Further municipal restrictions not prohibited. (1) Nothing in this part 6 shall be construed to limit the power of any municipality within this state to prohibit dogs from running at large, whether or not they have been inoculated as provided in this part 6; and nothing in this part 6 shall be construed to limit the power of any municipality to regulate and control and to enforce other and additional measures for the restriction and control of rabies.

(2) Notwithstanding subsection (1) of this section, a municipality shall not require a dog, cat, or ferret to be inoculated against rabies any more frequently than is recommended in the "Compendium of Animal Rabies Control" as promulgated by the national association of state public health veterinarians, and a veterinarian may issue a written waiver exempting an animal from a rabies vaccination order as provided in section 25-4-607.

Source: L. 63: p. 548, § 1. CRS 53: § 66-25-15. C.R.S. 1963: § 66-23-15. L. 99: Entire section amended, p. 275, § 3, effective July 1. L. 2008: (2) amended, p. 1630, § 2, effective May 29.

PART 7

PET ANIMAL AND PSITTACINE BIRD FACILITIES

Editor's note: This part 7 was numbered as article 19 of chapter 66, C.R.S. 1963. The substantive provisions of this part 7 were repealed and reenacted in 1983, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 7 prior to 1983, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

25-4-701. Definitions. As used in this part 7, unless the context otherwise requires:

- (1) "Board" means the state board of health.
- (2) "Department" means the department of public health and environment.
- (3) "Pet animal facility" means any place or premises used in whole or in part for the keeping of pet animals for the purpose of adoption, breeding, boarding, grooming, handling, selling, sheltering, trading, or transferring such animals.
- (4) "Psittacine birds" includes all birds of the order psittaciformes.

Source: **L. 83:** Entire part R&RE, p. 1059, § 1, effective March 1. **L. 94:** Entire section R&RE, p. 1296, § 1, effective July 1; (2) amended, p. 2619, § 31, effective July 1.

Editor's note: (1) This section is similar to former § 25-4-701 as it existed prior to 1983.

(2) Amendments to this section by Senate Bill 94-023 and House Bill 94-1029 were harmonized.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-702. Board to establish rules - department to administer. (1) The board may establish rules that are necessary to carry out the provisions of this part 7. Such rules shall set forth procedures to be followed by pet animal facilities in the event of an outbreak of disease or quarantine. Such rules may include provisions pertaining to the breeding and sale of psittacine birds that are necessary to prevent or minimize the danger of transmission of psittacosis to handlers, the general public, and other pet birds.

(2) This part 7 shall be administered by the department; except that county, district, and municipal public health agencies and animal control personnel may be authorized by the department to assist it in performing its powers and duties pursuant to this part 7.

(2) Section 25-4-715 provided for the repeal of this section effective July 1, 1994. (See L. 91, p. 688.)

25-4-709. Quarantine. If at any time it appears to the department that any pet animal is, or was during its lifetime, infected with a disease dangerous to the public health, it may place an embargo on said pet animal and may trace, or cause to be traced, the whereabouts of said animal and determine the identity and whereabouts of any other animals which may have been exposed to such disease. If the department determines that the interest of the public health requires, it may: Cause any pet animal facility to be quarantined for such time as the department determines to be necessary to protect the public health; prohibit the sale or importation into this state of such pet animals from such places or areas where such danger exists; and require the euthanasia and the proper disposal of infected animals.

(2) Section 25-4-715 provided for the repeal of this section effective July 1, 1994. (See L. 91, p. 688.)

25-4-712. Unlawful acts. (1) It is unlawful for any person:

- (a) To make a material misstatement or provide false information to the department during an official disease investigation;
- (b) To violate a provision of this part 7 or a rule promulgated pursuant to this part 7;
- (c) To aid or abet another in a violation of this part 7 or a rule promulgated pursuant to this part 7;
- (d) To refuse to permit entry or inspection in accordance with section 25-4-710.
- (e) to (k) (Deleted by amendment, L. 94, p. 1298, § 5, effective July 1, 1994.)

25-4-715. Repeal of sections - review of functions. (Repealed)

Source: L. 88: Entire section added, p. 930, § 14, effective April 28. L. 91: Entire section amended, p. 688, § 54, effective April 20. L. 94: Entire section amended, p. 1299, § 7, effective July 1. L. 97: Entire section repealed. p. 1023, § 43, effective August 6.

PART 8

PHENYLKETONURIA

25-4-801. Legislative declaration. The general assembly declares that, as a matter of public policy of this state and in the interest of public health, every newborn infant should be tested for phenylketonuria and other metabolic defects in order to prevent mental retardation resulting therefrom and that the people of this state should be extensively informed as to the nature and effects of such defects.

Source: L. 65: p. 721, § 1. C.R.S. 1963: § 66-27-1.

25-4-802. Tests for metabolic defects. (1) It is the duty of either the chief medical staff officer or other person in charge of each institution caring for newborn infants or, if a

newborn infant is not born in an institution or is discharged therefrom prior to the time prescribed for the taking of the specimen designated in this section, the person responsible for the signing of the birth certificate of such child to cause to be obtained from every such infant a specimen of the type designated by the state board of health, which specimen shall be forwarded to the department of public health and environment or other laboratory approved by it for testing for phenylketonuria and testing for such other metabolic defects which may be prescribed from time to time by the state board of health to be conducted with respect to such specimen.

(2) The state board of health has the duty to prescribe from time to time effective tests and examinations designed to detect phenylketonuria and such other metabolic disorders or defects likely to cause mental retardation as accepted medical practice indicates.

(3) The performance of such tests and the reporting of results shall be done at such times and places and in such manner as may be prescribed by the department of public health and environment.

(4) It is the duty of the department of public health and environment to contact as soon as possible all cases suspected of having any such disorders or defects and to do any additional testing required to confirm or disprove the suspected disorder or defect.

Source: L. 65: p. 721, § 2. C.R.S. 1963: § 66-27-2. L. 94: (1), (3), and (4) amended, p. 2765, § 446, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1), (3), and (4), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-803. Rules and regulations. (1) The state board of health shall promulgate rules and regulations concerning the obtaining of samples or specimens from newborn infants required for the tests prescribed by the state board of health for the handling and delivery of the same and for the testing and examination thereof to detect phenylketonuria or other metabolic disorders found likely to cause mental retardation.

(2) The department of public health and environment shall furnish all physicians, public health nurses, hospitals, maternity homes, county departments of social services, and the state department of human services available medical information concerning the nature and effects of phenylketonuria and other metabolic disorders and defects found likely to cause mental retardation.

Source: L. 65: p. 722, § 3. C.R.S. 1963: § 66-27-3. L. 94: (2) amended, p. 2766, § 447, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-804. Exceptions. Nothing in the provisions of this part 8 shall be construed to require the testing or medical treatment for the minor child of any person who is a member of a well-recognized church or religious denomination and whose religious convictions in accordance with the tenets or principles of his church or religious denomination are against medical treatment for disease or physical defects.

Source: L. 65: p. 722, § 4. C.R.S. 1963: § 66-27-4.

PART 9

SCHOOL ENTRY IMMUNIZATION

Editor's note: This part 9 was numbered as article 40 of chapter 66, C.R.S. 1963. The substantive provisions of this part 9 were repealed and reenacted in 1978, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 9 prior to 1978, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and

supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

25-4-901. Definitions. As used in this part 9, unless the context otherwise requires:

(1) "Certificate of immunization" means one of the following forms of documentation that include the dates and types of immunizations administered to a student:

(a) A paper document that includes information transferred from the records of a licensed physician, registered nurse, or public health official; or

(b) An electronic file or a hard copy of an electronic file provided to the school directly from the immunization tracking system, established pursuant to section 25-4-2403.

(1.5) "Child" means any student less than eighteen years of age.

(2) (a) "School" means, except as otherwise provided in paragraph (b) of this subsection (2), a public, private, or parochial nursery school, day care center, child care facility, family child care home, foster care home, head start program, kindergarten, elementary or secondary school through grade twelve, or college or university.

(b) "School" does not include:

(I) A public services short-term child care facility as defined in section 26-6-102 (6.7), C.R.S.;

(I.5) A guest child care facility as defined in section 26-6-102 (5), C.R.S., or a ski school as defined in section 26-6-103.5 (6), C.R.S.; or

(II) College or university courses of study that are offered off-campus, or are offered to nontraditional adult students, as defined by the governing board of the institution, or are offered at colleges or universities that do not have residence hall facilities.

(3) "Student" means any person enrolled in a Colorado school as defined in subsection (2) of this section.

Source: **L. 78:** Entire part, R&RE, p. 427, § 1, effective April 4. **L. 91:** Entire section amended, p. 931, § 1, effective April 16. **L. 92:** Entire section amended, p. 1273, § 1, effective April 9. **L. 96:** (2) amended, p. 266, § 20, effective July 1. **L. 98:** (1) amended and (1.5) added, p. 19, § 1, effective August 5. **L. 2007:** (1)(b) amended, p. 664, § 7, effective April 26; (2) amended, p. 867, § 5, effective May 14.

Editor's note: This section is similar to former § 25-4-901 as it existed prior to 1978.

25-4-902. Immunization prior to attending school - standardized immunization information. (1) Except as provided in section 25-4-903, no child shall attend any school in the state of Colorado on or after the dates specified in section 25-4-906 (4) unless he or she has presented the following to the appropriate school official:

(a) An up-to-date certificate of immunization from a licensed physician, a licensed advanced practice nurse, or authorized representative of the department of public health and environment or county, district, or municipal public health agency stating that the child has received immunization against communicable diseases as specified by the state board of health, based on recommendations of the advisory committee on immunization practices of the United States department of health and human services or the American academy of pediatrics; or

(b) A written authorization signed by one parent or guardian or an authorization signed by the emancipated child requesting that local health officials administer the immunizations.

(c) (Deleted by amendment, L. 97, p. 408, § 1, effective July 1, 1997.)

(2) If the student's certificate of immunization is not up-to-date according to the requirements of the state board of health, the parent or guardian or the emancipated student or the student eighteen years of age or older shall submit to the school, within fourteen days after receiving direct personal notification that the certificate is not up-to-date, documentation that the next required immunization has been given and a written plan for completion of all required immunizations. The scheduling of immunizations in the written plan shall follow medically recommended minimum intervals approved by the state board of health.

If the student begins but does not continue or complete the written plan, he or she shall be suspended or expelled pursuant to this part 9.

(3) Notwithstanding the provisions of subsection (1) of this section, a school shall enroll a student who is in out-of-home placement within five school days after receiving the student's education information and records as required in section 22-32-138, C.R.S., regardless of whether the school has received the items specified in subsection (1) of this section. Upon enrolling the student, the school shall notify the student's legal guardian that, unless the school receives the student's certificate of immunization or a written authorization for administration of immunizations within fourteen days after the student enrolls, the school shall suspend the student until such time as the school receives the certificate of immunization or the authorization.

(4) On or before March 1, 2011, the department of public health and environment shall develop and provide to the department of education a standardized document regarding childhood immunizations. The department of education shall post the standardized immunization document on its web site on or before January 15, 2011, and each year thereafter. The standardized document shall be updated annually and shall include, but need not be limited to:

(a) A list of the immunizations required for enrollment in a school and the age at which the immunization is required; and

(b) A list of immunizations currently recommended for children by the center for disease control advisory committee on immunization practices and the recommended age at which each immunization should be given.

(5) The document created pursuant to subsection (4) of this section shall comply with the provisions of section 25-4-903 (4) regarding allowable exemptions from required immunizations.

Source: **L. 78:** Entire part R&RE, p. 427, § 1, effective April 4. **L. 94:** Entire section amended, p. 2766, § 448, effective July 1. **L. 95:** Entire section amended, p. 916, § 14, effective May 25. **L. 97:** Entire section amended, p. 408, § 1, effective July 1. **L. 2008:** (3) added, p. 472, § 4, effective April 17; (1)(a) amended, p. 132, § 15, effective January 1, 2009. **L. 2010:** (1)(a) amended, (HB 10-1422), ch. 419, p. 2094, § 96, effective August 11; (4) and (5) added, (SB 10-056), ch. 50, p. 192, § 5, effective August 11.

Editor's note: This section is similar to former § 25-4-902 as it existed prior to 1978.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 2008 act enacting subsection (3), see section 1 of chapter 147, Session Laws of Colorado 2008.

25-4-902.5. Immunization prior to attending a college or university - tuberculosis screening process development. (1) Except as provided in section 25-4-903, no student shall attend any college or university in the state of Colorado on or after the dates specified in section 25-4-906 (4) unless such student can present to the appropriate official of the school a certificate of immunization from a licensed physician, a licensed advanced practice nurse, or authorized representative of the department of public health and environment or county, district, or municipal public health agency stating that the student has received immunization against communicable diseases as specified by the state board of health or a written authorization signed by one parent or guardian or the emancipated student or the student eighteen years of age or older requesting that local health officials administer the immunizations or a plan signed by one parent or guardian or the emancipated student or the student eighteen years of age or older for receipt by the student of the required inoculation or the first or the next required of a series of inoculations within thirty days.

(2) (Deleted by amendment, L. 94, p. 695, §2, effective April 19, 1994.)

(3) (a) Each college and university in Colorado may work to create a tuberculosis screening process with the goal of making the process as uniform as possible for all colleges and universities in the state. The department of public health and environment may attend and participate in any meetings held by the universities and colleges regarding the screening

process. The screening process may include a tuberculosis risk questionnaire, a tuberculosis education policy, a clinical review process for each completed questionnaire, and follow-up testing procedures for students who are determined to be at risk for tuberculosis. On or before January 1, 2009, the colleges and universities that work to create a tuberculosis screening process pursuant to this subsection (3) shall report to the health and human services committees of the senate and the house of representatives, or their successor committees, regarding any legislative recommendations necessary regarding a tuberculosis screening process.

(b) This subsection (3) shall not apply to a university or college that provides course work solely online.

25-4-903. Exemptions from immunization.

(1) (Deleted by amendment, L. 97, p. 409, § 2, effective July 1, 1997.)

(2) It is the responsibility of the parent or legal guardian to have his or her child immunized unless the child is exempted pursuant to this section. A student shall be exempted from receiving the required immunizations in the following manner:

(a) By submitting to the student's school certification from a licensed physician or advanced practice nurse that the physical condition of the student is such that one or more specified immunizations would endanger his or her life or health or is medically contraindicated due to other medical conditions; or

(b) By submitting to the student's school a statement of exemption signed by one parent or guardian or the emancipated student or student eighteen years of age or older that the parent, guardian, or student is an adherent to a religious belief whose teachings are opposed to immunizations or that the parent or guardian or the emancipated student or student eighteen years of age or older has a personal belief that is opposed to immunizations.

(3) The state board of health may provide, by regulation, for further exemptions to immunization based upon sound medical practice.

(4) All information distributed to parents by school districts regarding immunization shall inform them of their rights under subsection (2) of this section.

Source: **L. 78:** Entire part R&RE, p. 428, § 1, effective April 4. **L. 91:** (1) and (2) amended, p. 932, § 3, effective April 16. **L. 93:** (1) amended, p. 380, § 3, effective April 12. **L. 97:** Entire section amended, p. 409, § 2, effective July 1. **L. 2008:** (2)(a) amended, p. 132, § 17, effective January 1, 2009.

Editor's note: This section is similar to former § 25-4-903 as it existed prior to 1978.

25-4-904. Rules and regulations - immunization rules - rule-making authority of state board of health. (1) The state board of health shall establish rules and regulations for administering this part 9. Such rules and regulations shall establish which immunizations shall be required and the manner and frequency of their administration and shall conform to recognized standard medical practices. Such rules and regulations may also require the reporting of statistical information and names of noncompliers by the schools. The department of public health and environment shall administer and enforce the immunization requirements.

(2) All rule-making authority granted to the state board of health under the provisions of this article is granted on the condition that the general assembly reserves the power to delete or rescind any rule of the board. All rules promulgated pursuant to this subsection (2) shall be subject to sections 24-4-103 (8) (c) and (8) (d) and 24-4-108, C.R.S.

Source: L. 78: Entire part R&RE, p. 428, § 1, effective April 4. L. 80: (2) amended, p. 788, § 23, effective June 5. L. 94: (1) amended, p. 2767, § 450, effective July 1.

Editor's note: This section is similar to former § 25-4-905 as it existed prior to 1978.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-905. Immunization of indigent children. (1) The county, district, or municipal public health agency, a public health or school nurse under the supervision of a licensed physician, or the department of public health and environment in the absence of a county, district, or municipal public health agency or public health nurse shall provide, at public expense to the extent that funds are available, immunizations required by this part 9 to each child whose parents or guardians cannot afford to have the child immunized or, if emancipated, who cannot himself or herself afford immunization and who has not been exempted. The department of public health and environment shall provide all vaccines necessary to comply with this section as far as funds will permit. Nothing in this section shall preclude the department of public health and environment from distributing vaccines to physicians, advanced practice nurses, or others as required by law or the rules of the department. No indigent child shall be excluded, suspended, or expelled from school unless the immunizations have been available and readily accessible to the child at public expense.

(2) Notwithstanding any other provision of this part 9 to the contrary, programs and services that provide immunizations to children for communicable diseases shall be available to a child regardless of his or her race, religion, gender, ethnicity, national origin, or immigration status.

ANNOTATION

Law reviews. For article, "2006 Immigration Legislation in Colorado", see 35 Colo. Law. 79 (October 2006).

25-4-906. Certificate of immunization - forms. (1) The department of public health and environment shall provide official certificates of immunization to the schools, private physicians, and county, district, and municipal public health agencies. Upon the commencement of the gathering of epidemiological information pursuant to section 25-4-2403 to implement the immunization tracking system, such form shall include a notice that informs a parent or legal guardian that he or she has the option to exclude his or her infant's, child's, or student's immunization information from the immunization tracking system created in section 25-4-2403. Any immunization record provided by a licensed physician, registered nurse, or public health official may be accepted by the school official as certification of immunization if the information is transferred to the official certificate of immunization and verified by the school official.

(2) Each school shall maintain on file an official certificate of immunization for every student enrolled. The certificate shall be returned to the parent or guardian or the emancipated student or student eighteen years of age or older when a student withdraws, transfers, is promoted, or otherwise leaves the school, or the school shall transfer the certificate with the student's school record to the new school. Upon a college or university student's request, the official certificate of immunization shall be forwarded as specified by the student.

(3) The department of public health and environment may examine, audit, and verify the records of immunizations maintained by each school.

(4) All students enrolled in any school in Colorado on and after August 15, 1979, shall furnish the required certificate of immunization or shall be suspended or expelled from school. Students enrolling in school in Colorado for the first time on and after July 1, 1978, shall provide a certificate of immunization or shall be excluded from school except as provided in section 25-4-903.

Editor's note: This section is similar to former § 25-4-907 as it existed prior to 1978.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1) and (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-907. Noncompliance. (1) A school official of each school shall suspend or expel from school, pursuant to the provisions of section 22-33-105, C.R.S., or the provisions established by the school official of a college or university or private school, any student not otherwise exempted under this part 9 who fails to comply with the provisions of this part 9. No student shall be suspended or expelled for failure to comply with the provisions of this part 9 unless there has been a direct personal notification by the appropriate school authority to the student's parent or guardian or to the emancipated student or the student eighteen years of age or older of the noncompliance with this part 9 and of such person's rights under sections 25-4-902, 25-4-902.5, and 25-4-903.

(2) In the event of suspension or expulsion of a student, school officials shall notify the state department of public health and environment or the county, district, and municipal public health agency. An agent of said department shall then contact the parent or guardian or the emancipated student or student eighteen years of age or older in an effort to secure compliance with this part 9 in order that the student may be reenrolled in school.

(3) Any student expelled for failure to comply with the provisions of this part 9 shall not be included in calculating the dropout rate for the school from which such student was expelled or the school district in which such student was enrolled prior to being expelled. Such student shall be included in the annual report of the number of expelled students prepared pursuant to section 22-33-105, C.R.S.

Source: **L. 78:** Entire part R&RE, p. 429, § 1, effective April 4. **L. 91:** Entire section amended, p. 933, § 5, effective April 16. **L. 94:** (2) amended, p. 2768, § 453, effective July 1. **L. 97:** Entire section amended, p. 410, § 3, effective July 1. **L. 2010:** (2) amended, (HB 10-1422), ch. 419, p. 2095, § 100, effective August 11.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-908. When exemption from immunization not recognized. If at any time there is, in the opinion of the state department of public health and environment or the county,

district, or municipal public health agency, danger of an epidemic from any of the communicable diseases for which an immunization is required pursuant to the rules and regulations promulgated pursuant to section 25-4-904, no exemption or exception from immunization against such disease shall be recognized. Quarantine by the state department of public health and environment or the county, district, or municipal public health agency is hereby authorized as a legal alternative to immunization.

Source: **L. 78:** Entire part R&RE, p. 429, § 1, effective April 4. **L. 94:** Entire section amended, p. 2768, § 454, effective July 1. **L. 2010:** Entire section amended, (HB 10-1422), ch. 419, p. 2095, § 101, effective August 11.

Editor's note: This section is similar to former § 25-4-904 as it existed prior to 1978.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-909. Vaccine-related injury or death - limitations on liability. (1) The general assembly finds, determines, and declares that immunization of the population of this state is vital to the health of Colorado citizens and has demonstrated such finding by requiring such immunization pursuant to the provisions of sections 25-4-901 to 25-4-908.

(2) No person who administers a vaccine which is required under the provisions of this part 9 to an infant or child whose age is greater than twenty days shall be held liable for injuries sustained pursuant to such vaccine if:

- (a) The vaccine was administered using generally accepted clinical methods;
- (b) The vaccine was administered according to the schedule of immunization as published by the communicable disease control administration of the federal government; and

(c) There were no clinical symptoms nor clinical history present under which prudent health care professionals would not have administered such vaccine.

(3) An action shall not be maintained for a vaccine-related injury or death until action for compensation for such alleged injury has been exhausted under the terms of the "National Childhood Vaccine Injury Act of 1986", 42 U.S.C. secs. 300aa-10 to 300aa-33, as such law is from time to time amended.

(4) If the injury or death which is sustained does not fall within the parameters of the vaccine injury table as defined in 42 U.S.C. sec. 300aa-14, as enacted on November 14, 1986, a rebuttable presumption is established that the injury sustained or the death was not due to the administration of vaccine. Such presumption shall be overcome by a preponderance of the evidence.

ANNOTATION

Law reviews. For article, "1988 Update on Colorado Tort Reform Legislation — Part I", see 17 Colo. Law. 1790 (1988).

PART 10

NEWBORN SCREENING AND GENETIC COUNSELING AND EDUCATION ACT

25-4-1001. Short title. This part 10 shall be known and may be cited as the "Newborn Screening and Genetic Counseling and Education Act".

Source: **L. 81:** Entire part added, p. 1300, § 1, effective July 1.

25-4-1002. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) State policy regarding newborn screening and genetic counseling and education should be made with full public knowledge, in light of expert opinion, and should be constantly reviewed to consider changing medical knowledge and ensure full public protection;

(b) Participation of persons in genetic counseling programs in this state should be wholly voluntary and that all information obtained from persons involved in such programs or in newborn screening programs in the state should be held strictly confidential.

Source: L. 81: Entire part added, p. 1300, § 1, effective July 1.

25-4-1003. Powers and duties of executive director - newborn screening programs - genetic counseling and education programs - rules. (1) The executive director of the department of public health and environment shall have the authority to:

(a) Establish and administer state programs for newborn screening and genetic counseling and education;

(b) Promulgate rules, regulations, and standards for the provision of newborn screening programs and genetic counseling and education programs;

(c) Designate such personnel as are necessary to carry out the provisions of this part 10, disburse and collect such funds as are available to the administration of this part 10, and fix reasonable fees to be charged for services pursuant to this part 10;

(d) Gather and disseminate information to further the public's understanding of newborn screening and genetic counseling and education programs;

(e) Establish systems for recording information obtained in newborn screening and genetic counseling and education programs.

(2) The executive director of the department of public health and environment shall comply with the following provisions:

(a) Newborn screening shall be provided in the most efficient and cost-effective manner possible and newborn screening and diagnostic services should be carried out under adequate standards of supervision and quality control;

(b) No program for genetic counseling shall require mandatory participation, restriction of childbearing, or be a prerequisite to eligibility for, or receipt of, any other service or assistance from, or to participation in, any other program;

(c) Genetic counseling services shall be available to persons in need, such counseling shall be nondirective, and such counseling shall emphasize informing the client and not require restriction of childbearing;

(d) The extremely personal decision to bear children shall remain the free choice and responsibility of the individual, and such free choice and responsibility shall not be restricted by any of the genetic services of the state;

(e) All information gathered by the department of public health and environment, or by other agencies, entities, and individuals conducting programs and projects on newborn screening and genetic counseling and education, other than statistical information and information which the individual allows to be released through his informed consent, shall be confidential. Public and private access to individual patient data shall be limited to data compiled without the individual's name.

(f) Information on the operation of all programs on newborn screening and genetic counseling and education within the state, except for confidential information obtained from participants in such programs, shall be open and freely available to the public;

(g) All participants in programs on genetic counseling and education shall be informed of the nature of possible risks involved in participation in such a program or project, and shall be informed of the nature and cost of available therapies or maintenance programs for those affected by hereditary disorders, and shall be informed of the possible benefits and risks of such therapies and programs;

(h) Nothing in this section shall be construed to require any hospital or other health facility or any physician or other health professional to provide genetic counseling beyond the usual and customary and accepted practice nor shall any hospital or other health facility be held liable for not providing such genetic counseling.

Source: **L. 81:** Entire part added, p. 1300, § 1, effective July 1. **L. 94:** IP(1), IP(2), and (2)(e) amended, p. 2768, § 455, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portions to subsections (1) and (2) and subsection (2)(e), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1004. Newborn screening.

(1) (a) Repealed.

(b) On or after April 1, 1989, all infants born in the state of Colorado shall be tested for the following conditions: Phenylketonuria, hypothyroidism, abnormal hemoglobins, galactosemia, cystic fibrosis, biotinidase deficiency, and such other conditions as the board of health may determine meet the criteria set forth in paragraph (c) of this subsection (1). Appropriate specimens for such testing shall be forwarded by the hospital in which the child is born to the laboratory operated or designated by the department of public health and environment for such purposes. The physician, nurse, midwife, or other health professional attending a birth outside a hospital shall be responsible for the collection and forwarding of such specimens. The results of the testing shall be forwarded directly to the physician or other primary health care provider for the provision of such information to the parent or parents of the child. The results of any testing or follow-up testing pursuant to section 25-4-1004.5 may be sent to the immunization tracking system authorized by section 25-4-2403 and accessed by the physician or other primary health care provider. The state board of health may discontinue testing for any condition listed in this paragraph (b) if, upon consideration of criteria set forth in paragraph (c) of this subsection (1), the board finds that the public health is better served by not testing infants for that condition.

(c) The board of health shall use the following criteria to determine whether or not to test infants for conditions which are not specifically enumerated in this subsection (1):

(I) The condition for which the test is designed presents a significant danger to the health of the infant or his family and is amenable to treatment;

(II) The incidence of the condition is sufficiently high to warrant screening;

(III) The test meets commonly accepted clinical standards of reliability, as demonstrated through research or use in another state or jurisdiction; and

(IV) The cost-benefit consequences of screening are acceptable within the context of the total newborn screening program.

(2) The executive director of the department of public health and environment shall assess a fee which is sufficient to cover the costs of such testing and to accomplish the other purposes of this part 10. Hospitals shall assess a reasonable fee to be charged the parent or parents of the infant to cover the costs of handling the specimens, the reimbursement of laboratory costs, and the costs of providing other services necessary to implement the purposes of this part 10.

Source: **L. 81:** Entire part added, p. 1302, § 1, effective July 1. **L. 83:** (2) amended, p. 1070, § 1, effective May 20. **L. 87:** (1) amended, p. 1128, § 1, effective July 1. **L. 88:** (1) amended, p. 1009, § 1, effective July 1. **L. 91:** (1) amended, p. 949, § 17, effective May 6. **L. 94:** (1)(b) and (2) amended, p. 2769, § 456, effective July 1. **L. 96:** (1)(b) amended, p. 1107, § 1, effective July 1. **L. 2007:** (1)(b) amended, p. 654, § 2, effective April 26.

Editor's note: Subsection (1)(a)(II) provided for the repeal of subsection (1)(a), effective April 1, 1989. (See L. 88, p. 1009.)

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1)(b) and (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1004.5. Follow-up testing and treatment - second screening - legislative declaration - fee - rules. (1) The general assembly finds that:

(a) Newborn screening authorized by section 25-4-1004 is provided for every newborn in the state;

(b) Newborn testing is designed to identify metabolic disorders that cause mental retardation and other health problems unless they are diagnosed and treated early in life;

(c) In order to ensure that children with metabolic disorders are able to lead as normal a life as possible and to minimize long-term health care costs for such children, it is necessary to provide centralized follow-up testing and treatment services;

(d) For over twenty-five years the follow-up testing and treatment services were provided by a federal grant that was discontinued June 30, 1993. Since that time, follow-up testing and treatment services have been limited. If alternative sources of funding are not provided, those services will be eliminated.

(e) A nominal increase of the fee on newborn screening to cover the costs of providing follow-up and referral services would allow for those services to be continued;

(f) Over the past ten years, many children with serious health conditions have received timely diagnosis and treatment as a result of the newborn screening required by this part 10. Such screening has averted the possibility of life-long institutionalization of some children and substantial related health care costs. The general assembly further finds, however, that many infants who are screened early in life may exhibit false or inaccurate results on certain newborn screening tests. The general assembly therefore finds and declares that subsequent newborn screening will provide more accurate and reliable test results for the timely and effective diagnosis and treatment of certain health conditions in newborn infants and the best interests of children in Colorado will be served by a new screening program that routinely tests all newborns twice.

(2) (a) Repealed.

(b) On and after July 1, 1994, the executive director of the department of public health and environment shall increase the newborn screening fee as provided in section 25-4-1004 (2) so that the fee is sufficient to include the costs of providing follow-up and referral services to families with a newborn whose test results under a newborn screening indicate a metabolic disorder. Follow-up services include comprehensive diagnostic testing. The increase shall not exceed five dollars; except that it may be adjusted annually to reflect any change in the Denver-Boulder consumer price index. Any fees collected shall be subject to the provisions of section 25-4-1006.

(3) (a) On and after July 1, 1996, all infants born in the state of Colorado who receive newborn screening pursuant to section 25-4-1004 (1) shall have a second specimen taken to screen for the following conditions:

(I) Phenylketonuria;

(II) Hypothyroidism;

(III) Galactosemia;

(IV) Cystic fibrosis; and

(V) Such other conditions as the state board of health may determine meet the criteria set forth in section 25-4-1004 (1) (c) and require a second screening for accurate test results.

(b) The executive director of the department of public health and environment is authorized to promulgate rules, regulations, and standards for the implementation of the second specimen testing specified in this subsection (3), including but not limited to the following:

(I) Identification of those conditions for which a second specimen shall be required;

(II) The age of the infant at which the second screening may be administered;

(III) The method by which the parent or parents of a newborn shall be advised of the necessity for a second specimen test;

(IV) The procedure to be followed in administering the second specimen test;

(V) Any exceptions to the necessity for a second specimen test and the procedures to be followed in such cases; and

(VI) The standards of supervision and quality control that shall apply to second specimen testing.

(c) On and after July 1, 1996, the executive director of the department of public health and environment may adjust the newborn screening fee set forth in section 25-4-1004 (2) so that the fee is sufficient to cover the costs associated with the second screening described in this subsection (3). Any increase shall be in addition to the fee described in subsection (2) of this section and shall not initially exceed five dollars and seventy-five cents but may

be adjusted annually to reflect any actual cost increase associated with the administration of the second screening. Any fees collected pursuant to this paragraph (c) shall be subject to the provisions of section 25-4-1006.

(4) The provisions of section 25-4-1003 (2) shall apply to second newborn screenings.

Source: **L. 94:** Entire section added, p. 833, § 1, effective April 28. **L. 96:** (1)(f), (3), and (4) added, p. 1108, §§ 2, 3, effective July 1.

Editor's note: Subsection (2)(a)(II) provided for the repeal of subsection (2)(a), effective July 1, 1994. (See L. 94, p. 833.)

25-4-1004.7. Newborn hearing screening - legislative declaration - advisory committee - report - rules - repeal. (1) (a) The general assembly finds, determines, and declares:

(I) That hearing loss occurs in newborn infants more frequently than any other health condition for which newborn infant screening is required;

(II) That eighty percent of the language ability of a child is established by the time the child is eighteen months of age and that hearing is vitally important to the healthy development of such language skills;

(III) That early detection of hearing loss in a child and early intervention and treatment has been demonstrated to be highly effective in facilitating a child's healthy development in a manner consistent with the child's age and cognitive ability;

(IV) That children with hearing loss who do not receive such early intervention and treatment frequently require special educational services and that such services are publicly funded for the vast majority of children with hearing needs in the state;

(V) That appropriate testing and identification of newborn infants with hearing loss will facilitate early intervention and treatment and may therefore serve the public purposes of promoting the healthy development of children and reducing public expenditure; and

(VI) That consumers should be entitled to know whether the hospital at which they choose to deliver their infant provides newborn hearing screening.

(b) For these reasons the general assembly hereby determines that it would be beneficial and in the best interests of the development of the children of the state of Colorado that newborn infants' hearing be screened.

(2) (a) (I) There is hereby established an advisory committee on hearing in newborn infants for the purpose of collecting the informational data specified in paragraph (b) of subsection (3) of this section, and for the purpose of providing recommendations to hospitals, other health care institutions, the department of public health and environment, and the public concerning, but not necessarily limited to, the following:

(A) Appropriate methodologies to be implemented for hearing screening of newborn infants, which methodologies shall be objective and physiologically based and which shall not include a requirement that the initial newborn hearing screening be performed by an audiologist;

(B) The number of births sufficient to qualify a hospital or health institution to arrange otherwise for hearing screenings; and

(C) Guidelines for reporting and the means to assure that identified children receive referral for appropriate follow-up services.

(II) The advisory committee on hearing in newborn infants shall consist of at least seven members who shall be appointed by the executive director of the department of public health and environment. Members appointed to the committee shall have training, experience, or interest in the area of hearing conditions in children.

(III) The members of the advisory committee on hearing in newborn infants shall serve without compensation.

(IV) Repealed.

(b) This subsection (2) is repealed, effective July 1, 2013. Prior to such repeal, the advisory committee on hearing in newborn infants shall be reviewed as provided for in section 2-3-1203, C.R.S.

(3) (a) It is the intent of the general assembly that newborn hearing screening be conducted on no fewer than ninety-five percent of the infants born in hospitals, using procedures recommended by the advisory committee on hearing in newborn infants, created in subsection (2) of this section. Toward that end, every licensed or certified hospital shall educate the parents of infants born in such hospitals of the importance of screening the hearing of newborn infants and follow-up care. Education shall not be considered a substitute for the hearing screening described in this section. Every licensed or certified hospital shall report annually to the advisory committee concerning the following:

- (I) The number of infants born in the hospital;
- (II) The number of infants screened;
- (III) The number of infants who passed the screening, if administered; and
- (IV) The number of infants who did not pass the screening, if administered.

(b) The advisory committee on hearing in newborn infants shall determine which hospitals or other health care institutions in the state of Colorado are administering hearing screening to newborn infants on a voluntary basis and the number of infants screened.

(I) to (IV) Repealed.

(c) Repealed.

(4) (a) If the number of infants screened falls below eighty-five percent, the board of health shall promulgate rules requiring hearing screening of newborn infants pursuant to section 24-4-103, C.R.S., of the "State Administrative Procedure Act".

(b) Such rules, if promulgated, shall address those hospitals with a low volume of births, as determined by the state board of health based upon recommendations by the advisory committee on hearing in newborn infants, which may arrange otherwise for newborn infant hearing screening.

(5) A physician, nurse, midwife, or other health professional attending a birth outside a hospital or institution shall provide information, as established by the department, to parents regarding places where the parents may have their infants' hearing screened and the importance of such screening.

(6) The department shall encourage the cooperation of county, district, and municipal public health agencies, health care clinics, school districts, and any other appropriate resources to promote the screening of newborn infants' hearing for those infants born outside a hospital or institution.

Source: **L. 97:** Entire section added, p. 1118, § 1, effective July 1. **L. 2005:** (2)(a)(I), (2)(b), (3)(a), IP(3)(b), and (4)(a) amended and (2)(a)(IV), (3)(b)(I) to (3)(b)(IV), and (3)(c) repealed, p. 252, §§ 3, 4, 5, effective July 1. **L. 2008:** (2)(b) amended, p. 1906, § 100, effective August 5. **L. 2010:** (6) amended, (HB 10-1422), ch. 419, p. 2096, § 102, effective August 11.

25-4-1005. Exceptions. Nothing in the provisions of this part 10 shall be construed to require the testing or medical treatment for the minor child of any person or of any person who is a member of a well-recognized church or religious denomination and whose religious convictions in accordance with the tenets or principles of his church or religious denomination are against medical treatment for disease or physical defects or has a personal objection to the administration of such tests or treatment.

Source: **L. 81:** Entire part added, p. 1302, § 1, effective July 1.

25-4-1006. Cash funds. (1) All moneys received from fees collected pursuant to this part 10 shall be transmitted to the state treasurer who shall credit the same to the newborn screening and genetic counseling cash funds, which funds are hereby created. Such moneys shall be utilized for expenditures authorized or contemplated by and not inconsistent with the provisions of this part 10 relating to newborn screening, follow-up care, and genetic counseling and education programs and functions. All moneys credited to the newborn screening and genetic counseling cash funds shall be used as provided in this part 10 and shall not be deposited in or transferred to the general fund of this state or any other fund.

(2) Notwithstanding any provision of this section to the contrary, for the fiscal year beginning July 1, 1988, the state treasurer shall transfer to the general fund out of any unappropriated moneys in the newborn screening and genetic counseling cash funds the sum of five hundred thousand dollars.

PART 11

KENNELS

25-4-1101 to 25-4-1111. (Repealed)

Source: **L. 94:** Entire part repealed, p. 1313, § 17, effective July 1.

Editor's note: (1) This part 11 was added in 1983. For amendments to this part 11 prior to its repeal in 1994, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Prior to the enactment of this part 11 in 1983, substantive provisions concerning pet shops and boarding kennels were found in article 57 of title 12.

PART 12

STREPTOCOCCUS CONTROL

25-4-1201. Powers and duties of executive director. (1) The executive director of the department of public health and environment shall have the authority to:

- (a) Establish and administer a culture-testing program to test for streptococcus;
- (b) Designate such personnel as are necessary to carry out the provisions of this part 12, disburse and collect such funds as are available for the administration of this part 12, and fix reasonable fees to be charged for services pursuant to this part 12.

Source: **L. 84:** Entire part added, p. 766, § 1, effective April 5. **L. 94:** IP(1) amended, p. 2769, § 458, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portion to subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1202. Streptococcus cash fund. (1) The executive director of the department of public health and environment shall establish the fees to be collected for any streptococcus culture test performed by the department.

(2) (a) All moneys collected pursuant to this part 12 shall be transmitted to the state treasurer, who shall credit the same to the streptococcus cash fund, which fund is hereby created. All moneys credited to the streptococcus cash fund shall be subject to appropriation by the general assembly to be used as provided in this section and shall not be deposited in or transferred to the general fund of this state or to any other fund.

(b) Notwithstanding any provision of paragraph (a) of this subsection (2) to the contrary, on April 20, 2009, the state treasurer shall transfer the balance of moneys in the streptococcus cash fund to the general fund.

(3) (a) The executive director of the department of public health and environment shall propose, as part of the annual budget request of the department of public health and environment, an adjustment in the amount of the fee for the streptococcus culture test which the department is authorized by law to collect. The budget request and the adjusted fees for the streptococcus culture test shall reflect direct and indirect costs.

(b) Based upon the appropriation made by the general assembly, the executive director of the department of public health and environment shall adjust the streptococcus fee so that the revenue generated from said fee approximates the department's direct and indirect costs. Such fee shall remain in effect for the fiscal year for which the budget request applies.

(c) Beginning July 1, 1984, and each July 1 thereafter, whenever moneys appropriated to the department of public health and environment for its activities pursuant to this part 12 for the prior fiscal year are unexpended, said moneys shall be made a part of the appropriation to the department for the next fiscal year, and such amount shall not be raised from fees collected by such department. If a supplemental appropriation is made to the department for such activities, the streptococcus fee of the department, when adjusted for the fiscal year next following the year in which the supplemental appropriation was made, shall be adjusted by an additional amount which is sufficient to compensate for such supplemental appropriation. Moneys to be appropriated annually to the department in the general appropriation bill for the purposes of this part 12 shall be designated as cash funds and shall not exceed the amount anticipated to be raised from such fee collected by the department.

PART 13

RETAIL FOOD STORE SANITATION ACT

25-4-1301. Legislative declaration. The general assembly hereby declares that the sanitary protection of bulk foods and the sanitary maintenance of equipment used to display and dispense bulk foods are matters of statewide concern and are affected with a public interest and that the provisions of this part 13 are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

Source: **L. 85:** Entire part added, p. 883, § 1, effective July 1.

25-4-1302. Definitions. As used in this part 13, unless the context otherwise requires:

(1) "Bulk foods" means unpackaged or unwrapped foods, either processed or unprocessed, in aggregate containers from which quantities desired by the consumer are withdrawn. "Bulk foods" does not include fresh fruits, fresh vegetables, nuts in the shell, salad bars, bulk pet foods, potentially hazardous foods, and bulk nonfood items.

(2) "Department" means the department of public health and environment.

(3) "Display area" means a location, including physical facilities and equipment, where bulk foods are offered for customer self-service.

(4) "Potentially hazardous foods" includes any food that consists in whole or in part of milk or milk products, eggs, meat, poultry, fish, shellfish, edible crustacea, or other food products or ingredients, including synthetic ingredients, in a form capable of supporting rapid and progressive growth of infectious or toxigenic microorganisms. This term does not include refrigerated, clean, whole, uncracked, odor-free shell eggs.

(5) "Product module" means a food-contact container (multiuse or single-service) designed for customer self-service of bulk foods by either direct or indirect means.

(6) "Servicing area" means a designated location equipped for cleaning, sanitizing, drying, or refilling product modules or for preparing bulk foods.

Source: **L. 85:** Entire part added, p. 883, § 1, effective July 1. **L. 89:** (4) amended, p. 1154, § 1, effective April 21. **L. 94:** (2) amended, p. 2770, § 460, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1303. Labeling - product modules - take-home containers. (1) Product modules shall be labeled with either:

(a) The manufacturer's or processor's bulk food container labeling plainly in view; or
(b) A counter card, a counter sign, or any other appropriate device bearing prominently and conspicuously the common name of the product, a list of ingredients in their proper order of predominance, and a declaration of artificial color or flavor and chemical preservatives if contained in the product.

(2) Any unpackaged bulk food need not comply with the labeling requirements of this section if the unpackaged bulk food is manufactured on the premises of a store or manufactured by the same store at a different location and if the manufactured bulk food is offered for retail sale on the store's premises and if there are no state requirements.

(3) Labels or marking pens shall be available to customers to identify their take-home containers with the common name of the product unless the product is readily identifiable on sight.

Source: L. 85: Entire part added, p. 884, § 1, effective July 1.

25-4-1304. Bulk food protection. (1) Bulk foods and product modules shall be protected from contamination during display, customer self-service, refilling, and storage.

(2) Containers of bulk pet foods and bulk nonfood items shall be separated from product modules by a barrier or open space.

(3) Bulk foods returned to stores by customers shall not be offered for resale.

(4) Only containers provided by stores in their display areas shall be filled with bulk foods; except that any customer may fill or refill his own container with vended or dispensed water; however, the risk that the customer's own container is unsafe, unpure, contaminated, or in a nonsterile condition when it is filled or refilled by the customer, shall be borne solely by the customer, and, except for warranties, no liability shall attach thereto to the manufacturer, seller, or dispenser of such container.

Source: L. 85: Entire part added, p. 884, § 1, effective July 1. L. 89: (4) amended, p. 1154, § 2, effective April 21.

25-4-1305. Bulk food display. (1) Bulk foods shall be dispensed only from product modules which are protected by close-fitting, individual covers. If any product module is to be opened by customers, the cover shall be self-closing and shall remain closed when not in use.

(2) Customer access to bulk foods in product modules shall be limited and controlled to avoid the introduction of contaminants. All product modules shall have an access height of thirty inches or more above the floor and a depth of eighteen inches or less.

(3) Potentially hazardous foods shall not be made available for customer self-service.

Source: L. 85: Entire part added, p. 884, § 1, effective July 1.

25-4-1306. Dispensing utensils. (1) Manual handling of bulk foods by customers during dispensing shall be discouraged. Mechanical dispensing devices shall be used, including gravity dispensers, pumps, extruders, and augers. Manual dispensing utensils shall also be used, including tongs, scoops, ladles, and spatulas.

(2) If the dispensing devices and utensils listed in subsection (1) of this section do not discourage manual customer handling of bulk foods, such bulk foods must be wrapped or sacked prior to display.

(3) Manual dispensing utensils shall be protected against becoming contaminated and serving as vehicles for introducing contamination into bulk foods. A tether of easily cleanable material shall be attached to such a utensil and shall be of such length that the

utensil cannot contact the floor. A sleeve or protective housing attached or adjacent to the display unit shall be available for storing a utensil when not in use.

(4) Ladles and spatulas shall be stored in bulk foods with handles extending to the outside of product modules. Handles shall not prevent lids from being self-closing.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1307. Materials. Product modules and utensils shall be constructed of safe materials and shall be corrosion resistant, nonabsorbent, smooth, easily cleanable, and durable under conditions of normal use. Wood shall not be used as a food-contact surface.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1308. Food-contact surfaces. Product modules, lids, dispensing units, and utensils shall be designed and fabricated to meet the requirements for food-contact surfaces, as provided in section 25-4-1307.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1309. Non-food-contact surfaces. Surfaces of product module display units, tethers, and display equipment which are not intended for food contact but which are exposed to splash, food debris, or other soiling shall be designed and fabricated to be smooth, cleanable, durable under conditions of normal use, and free of unnecessary ledges, projections, and crevices. The materials for non-food-contact surfaces shall be nonabsorbent or made nonabsorbent by being finished and sealed with a cleanable coating.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1310. Accessibility. Individual product modules shall be designed to be easily removable from a display unit for servicing unless the product modules are so designed and fabricated that they can be effectively cleaned and sanitized when necessary through a manual in-place cleaning procedure that will not contaminate or otherwise adversely affect bulk foods or equipment in any adjoining display areas.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1311. Equipment sanitization. (1) Tongs, scoops, ladles, spatulas, and other appropriate utensils and tethers used by customers shall be cleaned and sanitized at least daily or at more frequent intervals based on the type of bulk food and the amount of food particle accumulation or soiling.

(2) When soiled, product modules, lids, and other equipment shall be cleaned and sanitized prior to restocking or at intervals of a schedule based on the type of bulk food and the amount of food particle accumulation.

(3) Food-contact surfaces shall be cleaned and sanitized immediately if contamination is observed or suspected.

(4) Facilities and equipment shall be available, either in a servicing area or in place, to provide for the proper cleaning and sanitizing of all food-contact surfaces, including product modules, lids, and dispensing utensils.

(5) Take-home containers, including but not limited to bags, cups, and lids, which are provided in a display area for customer use shall be stored and dispensed in a sanitary manner.

Source: L. 85: Entire part added, p. 885, § 1, effective July 1.

25-4-1312. Violation - penalty. Any retail food store owner violating any of the provisions of this part 13 is guilty of a misdemeanor and, upon conviction thereof, shall be

punished by a fine of not more than five hundred dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment. It is the duty of the district attorneys of the several districts of this state to prosecute for violations of this part 13 as for other crimes and misdemeanors.

Source: L. 85: Entire part added, p. 886, § 1, effective July 1.

25-4-1313. Rules and regulations. The department has the power to promulgate rules and regulations for the implementation of this part 13.

Source: L. 85: Entire part added, p. 886, § 1, effective July 1.

25-4-1314. Limitation. The provisions of this part 13 shall be expressly limited to retail food store outlets.

Source: L. 85: Entire part added, p. 886, § 1, effective July 1.

PART 14

HIV INFECTION AND ACQUIRED IMMUNE DEFICIENCY SYNDROME

Cross references: For prostitution with knowledge of being infected with AIDS, see § 18-7-201.7; for patronizing a prostitute with knowledge of being infected with AIDS, see § 18-7-205.7.

Law reviews: For article, "Medical and Legal Aspects of AIDS", see 15 Colo. Law. 812 (1986); for article, "AIDS: Malpractice and Transmission Liability", see 58 U. Colo. L. Rev. 63 (1986-87); for article, "The Legal Risks of AIDS: Moving Beyond Discrimination", see 18 Colo. Law. 605 (1989); for comment, "Liability Without Fault and the AIDS Plague Compel a New Approach to Cases of Transfusion - Transmitted Disease", see 61 U. Colo. L. Rev. 81 (1990); for article, "Employees, Privacy Rights and AIDS", see 19 Colo. Law. 1839 (1990).

25-4-1401. Legislative declaration. The general assembly hereby declares that infection with human immunodeficiency virus, the virus which causes acquired immune deficiency syndrome (AIDS), referred to in this part 14 as "HIV", is an infectious and communicable disease that endangers the population of this state. The general assembly further declares that reporting of HIV infection to public health officials is essential to enable a better understanding of the disease, the scope of exposure, the impact on the community, and the means of control; that efforts to control the disease should include public education, counseling, and voluntary testing; that restrictive enforcement measures should be used only when necessary to protect the public health; and that having AIDS or the HIV infection, being presumed to have the HIV infection, or seeking testing for the presence of such infection should not serve as the basis for discriminatory actions or the prevention of access to services. The general assembly further declares that the purpose of this part 14 is to protect the public health and prevent the spread of said disease.

Source: L. 87: Entire part added, p. 1130, § 1, effective June 8. **L. 90:** Entire section amended, p. 1309, § 1, effective May 24.

ANNOTATION

Applicability of part. Nothing in the statutory scheme of this part 14 demonstrates intent

on the part of the general assembly to give this part 14 retroactive effect so that it applied prior

to June 8, 1987, the effective date of the act. *Belle Bonfils Memorial Blood Center v. District Court*, 763 P.2d 1003 (Colo. 1988).

Statute does not apply to discovery in negligence action by patient infected with the AIDS virus after a blood transfusion where lawsuit

was filed in February of 1987 and the first request for discovery of information was in April of 1987. *Belle Bonfils Memorial Blood Center v. District Court*, 763 P.2d 1003 (Colo. 1988).

25-4-1402. Reports of HIV infection. (1) Every attending physician in this state shall make a report to the state department of public health and environment or local department of health, in a form and within a time period designated by the state department of public health and environment, on every individual known by said physician to have a diagnosis of AIDS, HIV-related illness, or HIV infection, including death from HIV infection.

(2) All other persons treating a case of HIV infection in hospitals, clinics, sanitariums, penal institutions, and other private or public institutions shall make a report to the state department of public health and environment or local department of health, in a form and within a time period designated by the state department of public health and environment, on every individual having a diagnosis of AIDS, HIV-related illness, or HIV infection, including death from HIV infection.

(3) Repealed.

(4) The reports required to be made under the provisions of subsections (1) and (2) of this section shall contain the name, date of birth, sex, and address of the individual reported on and the name and address of the physician or other person making the report.

(5) Good faith reporting or disclosure pursuant to this section or section 25-4-1403 shall not constitute libel or slander or a violation of the right of privacy or privileged communication.

(6) Any person who in good faith complies completely with this part 14 shall be immune from civil and criminal liability for any action taken in compliance with the provisions of this part 14. Compliance by a physician with the reporting requirements of this part 14 and with any regulations promulgated by the state department of public health and environment relating thereto shall fulfill any duty of such physician to a third party.

Source: **L. 87:** Entire part added, p. 1130, § 1, effective June 8. **L. 90:** (1) and (2) amended and (3) repealed, pp. 1309, 1314, §§ 2, 10, effective May 24. **L. 94:** (1), (2), and (6) amended, p. 2770, § 461, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1), (2), and (6), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Because having AIDS or seeking testing for the presence of such infection should not serve as a basis for discriminatory actions, information concerning the plaintiff's health and possible HIV infection was not of legitimate public concern. Publication of such information

by the plaintiff's employer was sufficient to support a claim for invasion of privacy. *Borquez v. Robert C. Ozer, P.C.*, 923 P.2d 166 (Colo. App. 1995), *aff'd in part and rev'd in part* on other grounds, 940 P.2d 371 (Colo. 1997).

25-4-1402.5. Exemption from reporting. (Repealed)

Source: **L. 91:** Entire section added, p. 995, § 1, effective April 20. **L. 94:** (4) repealed, p. 696, § 3, effective April 19; (1) amended, p. 2771, § 462, effective July 1. **L. 2009:** Entire section repealed, (SB 09-179), ch. 112, p. 474, § 18, effective April 9.

25-4-1403. Reports of positive HIV tests. All laboratories or persons performing laboratory tests for HIV shall report to the state department of public health and environment or appropriate local department of health, in a form and within a time period

designated by the state department of public health and environment, the name, date of birth, sex, and address of any individual whose specimen submitted for examination tests positive for HIV as defined by the state board of health. Such report shall include the test results and the name and address of the attending physician and any other person or agency referring such positive specimen for testing.

Source: L. 87: Entire part added, p. 1131, § 1, effective June 8. L. 90: Entire section amended, p. 1310, § 3, effective May 24. L. 94: Entire section amended, p. 2771, § 463, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1404. Use of reports. (1) The public health reports required to be submitted by sections 25-4-1402 and 25-4-1403 and records resulting from compliance with section 25-4-1405 (1) and held by the state department of public health and environment, any county, district, and municipal public health agency, or any health care provider or facility, third-party payor, physician, clinic, laboratory, blood bank, or other agency shall be strictly confidential information. Such information shall not be released, shared with any agency or institution, or made public, upon subpoena, search warrant, discovery proceedings, or otherwise, except under any of the following circumstances:

(a) Release may be made of such information for statistical purposes in a manner such that no individual person can be identified.

(b) Release may be made of such information to the extent necessary to enforce the provisions of this part 14 and related rules and regulations concerning the treatment, control, and investigation of HIV infection by public health officials.

(c) Release may be made of such information to medical personnel in a medical emergency to the extent necessary to protect the health or life of the named party.

(d) An officer or employee of the county, district, or municipal public health agency or state department of public health and environment may make a report of child abuse to agencies responsible for receiving or investigating reports of child abuse or neglect in accordance with the applicable provisions of the "Child Protection Act of 1987" set forth in part 3 of article 3 of title 19, C.R.S. However, in the event a report is made, only the following information shall be included in the report:

(I) The name, address, and sex of the child;

(II) The name and address of the person responsible for the child;

(III) The name and address of the person who is alleged to be responsible for the suspected abuse or neglect, if known; and

(IV) The general nature of the child's injury.

(e) The state department of public health and environment and any county, district, or municipal public health agency, upon being contacted by a district attorney pursuant to section 18-3-415.5, C.R.S., shall provide the information specified in said section.

(f) An officer or employee of the state department of public health and environment or of a county, district, or municipal public health agency, pursuant to section 18-3-415.5, C.R.S., shall provide, for purposes of a sentencing hearing, oral and documentary evidence limited to whether a person who has been bound over for trial for any sexual offense, as described in section 18-3-415.5, C.R.S., was provided notice that he or she had tested positive for the human immunodeficiency virus (HIV) that causes acquired immune deficiency syndrome or had discussion concerning his or her HIV infection, and the date of such notice or discussion.

(2) No officer or employee of the state department of public health and environment or of a county, district, or municipal public health agency shall be examined in any judicial, executive, legislative, or other proceeding as to the existence or content of any individual's report retained by such department pursuant to this part 14 or as to the existence of the contents of reports received pursuant to sections 25-4-1402 and 25-4-1403 or the results of investigations in section 25-4-1405. This provision shall not apply to administrative or

judicial proceedings pursuant to section 25-4-1406 or 25-4-1407 or section 18-3-415.5, C.R.S.

(3) Information regarding AIDS and HIV infection in medical records held by a facility that provides ongoing health care is considered medical information, not public health reports, and is protected from unauthorized disclosure as provided in section 18-4-412, C.R.S.

Source: **L. 87:** Entire part added, p. 1131, § 1, effective June 8. **L. 90:** (1) amended and (3) added, p. 1310, § 4, effective May 24. **L. 93:** (1)(d) added, p. 1610, § 4, effective June 6. **L. 94:** IP(1), IP(1)(d), and (2) amended, p. 2772, § 464, effective July 1. **L. 99:** (1)(e) and (1)(f) added and (2) amended, pp. 1002, 1003, §§ 7, 8, effective May 29. **L. 2010:** IP(1), IP(1)(d), (1)(e), (1)(f), and (2) amended, (HB 10-1422), ch. 419, p. 2096, § 103, effective August 11.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portions to subsections (1) and (1)(d) and subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 1999 act amending this section, see section 1 of chapter 254, Session Laws of Colorado 1999.

ANNOTATION

Because reports and records concerning persons who are diagnosed with AIDS, HIV-related illness, or HIV infection are strictly confidential under this section and may be released only under specified circumstances, information concerning the plaintiff's health and possible HIV infection was not of legitimate

public concern. Publication of such information by the plaintiff's employer was sufficient to support a claim for invasion of privacy. *Borquez v. Robert C. Ozer, P.C.*, 923 P.2d 166 (Colo. App. 1995), *aff'd in part and rev'd in part* on other grounds, 940 P.2d 371 (Colo. 1997).

25-4-1405. Disease control by the state department of public health and environment and county, district, and municipal public health agencies. (1) It is the duty of the executive director or the chief medical officer of the state department of public health and environment and county, district, and municipal public health directors to investigate sources of HIV infection and to use every proper means to prevent the spread of the disease.

(2) It is the duty of the executive director or the chief medical officer of the state department of public health and environment and county, district, and municipal public health directors, as part of disease control efforts, to provide public information, risk-reduction education, confidential voluntary testing and counseling, educational materials for use in schools, and professional education to health care providers.

(3) The state department of public health and environment shall develop and implement programs under which the state department and county, district, and municipal public health agencies may perform the following tasks:

(a) Prepare and disseminate to health care providers circulars of information and presentations describing the epidemiology, testing, diagnosis, treatment, medical, counseling, and other aspects of HIV infection;

(b) Provide consultation to agencies and organizations regarding appropriate policies for testing, education, confidentiality, and infection control;

(c) Conduct health information programs to inform the general public of the medical and psychosocial aspects of HIV infection, including updated information on how infection is transmitted and can be prevented. The department shall prepare for free distribution among the residents of the state printed information and instructions concerning the dangers from HIV infection, its prevention, and the necessity for testing.

(d) Prepare and update an educational program on HIV infection in the workplace for use by employers;

(e) Develop and implement HIV education risk-reduction programs for specific populations at higher risk for infection; and

(f) Develop and update a medically correct AIDS prevention curriculum for use at the discretion of secondary and middle schools.

(4) School districts are urged to provide every secondary school student, with parental consent, education on HIV infection and AIDS and its prevention.

(5) It is the duty of every physician who, during the course of an examination, discovers the existence of HIV infection or who treats a patient for HIV infection to inform the patient of the interpretation of laboratory results and counsel the patient on measures for preventing the infection of others, prophylaxis and treatment of opportunistic infections, treatment to prevent progression of HIV infection, and the necessity of regular medical evaluation.

(6) Any county, district, or municipal public health agency, state institution or facility, medical practitioner, or public or private hospital or clinic may examine and provide treatment for HIV infection for any minor if such physician or facility is qualified to provide such examination and treatment. The consent of the parent or guardian of such minor shall not be a prerequisite to such examination and treatment. The physician in charge or other appropriate authority of the facility or the licensed physician concerned shall prescribe an appropriate course of treatment for such minor. The fact of consultation, examination, and treatment of such a minor under the provisions of this section shall be absolutely confidential and shall not be divulged by the facility or physician to any person other than the minor except for purposes of a report required under sections 25-4-1402 and 25-4-1403 and subsection (8) of this section and a report containing the name and medical information of the minor made to the appropriate authorities if required by the "Child Protection Act of 1987", part 3 of article 3 of title 19, C.R.S. If the minor is less than sixteen years of age or not emancipated, the minor's parents or legal guardian may be informed by the facility or physician of the consultation, examination, and treatment. The physician or other health care provider shall counsel the minor on the importance of bringing his parents or guardian into the minor's confidence about the consultation, examination, or treatment.

(7) (a) When investigating HIV infection, the state department of public health and environment and county, district, and municipal public health agencies, within their respective jurisdictions, may inspect and have access to medical and laboratory records relevant to the investigation of HIV infection.

(b) Repealed.

(7.5) (a) When a public safety worker, emergency medical service provider, or staff member of a detention facility has been exposed to blood or other bodily fluid which there is a reason to believe may be infectious with HIV, the state department of public health and environment and county, district, and municipal public health agencies within their respective jurisdictions shall assist in evaluation and treatment of any involved persons by:

(I) Accessing information on the incident and any persons involved to determine whether a potential exposure to HIV occurred;

(II) Examining and testing such involved persons to determine HIV infection when the fact of an exposure has been established by the state department of public health and environment or a county, district, or municipal public health agency;

(III) Communicating relevant information and laboratory test results on the involved persons to such persons' attending physicians or directly to the involved persons if the confidentiality of such information and test results is acknowledged by the recipients and adequately protected, as determined by the state department of public health and environment or a county, district, or municipal public health agency; and

(IV) Providing counseling to the involved persons on the potential health risks and treatment resulting from exposure.

(b) The employer of an exposed person shall ensure that relevant information and laboratory test results on the involved person are kept confidential. Such information and laboratory results are considered medical information and protected from unauthorized disclosure.

(c) For purposes of this subsection (7.5), "public safety worker" includes, but is not limited to, law enforcement officers, peace officers, and firefighters.

(8) (a) No health care provider or other person, and no hospital, clinic, laboratory, or other private or public institution, shall test, or shall cause by any means to have tested, any specimen of any patient for HIV infection without the knowledge and consent of the patient; except that knowledge and consent need not be given:

(I) Where a health care provider or a custodial employee of the department of corrections or the department of human services is exposed to blood or other bodily fluids that may be infectious with HIV;

(II) When a patient's medical condition is such that knowledge and consent cannot be obtained;

(III) When the testing is done as part of seroprevalence surveys if all personal identifiers are removed from the specimens prior to the laboratory testing;

(IV) When the patient to be tested is sentenced to and in the custody of the department of corrections or is committed to the Colorado mental health institute at Pueblo and confined to the forensic ward or the minimum or maximum security ward of such institute;

(V) When a person is bound over for trial of a sexual offense as set forth in section 18-3-415 or 18-3-415.5, C.R.S., or subject to testing under section 18-7-201.5 or 18-7-205.5, C.R.S., and is tested by a health care provider or facility other than one that exclusively provides HIV testing and counseling;

(VI) When a pregnant woman is informed of the need for an HIV test and given the opportunity to decline the test as specified in section 25-4-201.

(b) Any patient tested for HIV infection pursuant to this subsection (8) without his knowledge and consent shall be given notice promptly, personally, and confidentially that a test sample was taken and that the results of such test may be obtained upon his request.

ANNOTATION

Law reviews. For article, "Consent to Treatment and Access to Minors' Medical Records", see 17 Colo. Law. 1323 (1988).

Plaintiff's claim for invasion of privacy arising out of unauthorized blood testing for HIV not precluded by subsection (8)(b). By its grant of immunity in certain circumstances, the general assembly has recognized that civil ac-

tions may occur. Further, by granting such immunity in the absence of providing a specific civil remedy, the general assembly has not evinced any intent to preclude a person from bringing a civil action. In the absence of such, the common law provides the mechanism for enforcing the violation. *Doe v. High-Tech Inst., Inc.*, 972 P.2d 1060 (Colo. App. 1998).

25-4-1405.5. Extraordinary circumstances - procedures. (1) The general assembly hereby finds, determines, and declares that the continued risk to the public health of the citizens of this state resulting from the presence and transmission of HIV infection warrants the implementation of controlled extraordinary measures to further the containment of HIV.

(2) (a) (I) The provision of confidential counseling and testing services for HIV is the preferred screening service for detection of HIV infection. However, the department shall, consistent with generally accepted practices for the protection of the public health and safety, conduct an anonymous counseling and testing program for persons considered to be at high risk for infection with HIV. Such program shall be conducted at selected HIV testing sites. The department may operate sites or contract through local boards of health to conduct such testing in conjunction with counseling and testing sites, subject to maintaining standards for performance set by the state board of health.

(II) The state board of health shall adopt rules specifying the performance standards for anonymous and confidential counseling and testing sites. Standards shall include, but are not limited to, performance standards for notifying and counseling HIV-infected persons and for partner notification.

(b) (I) The disclosure of an individual's name, address, phone number, or birth date shall not be required under the program as a condition of being tested to determine whether such person is infected with HIV. Any provision of this part 14 that requires or can be construed to require a person seeking to be tested for HIV to disclose such information shall not apply to persons seeking to be tested at said test sites.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), the age and sex of a person seeking to be tested at the said test sites may be required. A person may provide personal identifying information after counseling, if the person volunteers to do so.

(c) to (e) (Deleted by amendment, L. 93, p. 539, § 1, effective July 1, 1993.)

(3) and (4) (Deleted by amendment, L. 93, p. 539, § 1, effective July 1, 1993.)

Source: L. 90: Entire section added, p. 1313, § 9, effective May 24. L. 93: Entire section amended, p. 539, § 1, effective July 1.

25-4-1406. Public health procedures for persons with HIV infection. (1) Orders directed to individuals with HIV infection or restrictive measures on individuals with HIV infection, as described in this part 14, shall be used as the last resort when other measures to protect the public health have failed, including all reasonable efforts, which shall be documented, to obtain the voluntary cooperation of the individual who may be subject to such an order. The orders and measures shall be applied serially with the least intrusive measures used first. The burden of proof shall be on the state department of public health and environment or the county, district, or municipal public health agency to show that specified grounds exist for the issuance of the orders or restrictive measures and that the terms and conditions imposed are no more restrictive than necessary to protect the public health.

(2) When the executive director of the state department of public health and environment or the director of the county, district, or municipal public health agency, within his or her respective jurisdiction, knows or has reason to believe, because of medical or epidemiological information, that a person has HIV infection and is a danger to the public health, he or she may issue an order to:

(a) Require a person to be examined and tested to determine whether he has HIV infection;

(b) Require a person with HIV infection to report to a qualified physician or health worker for counseling on the disease and for information on how to avoid infecting others;

(c) Direct a person with HIV infection to cease and desist from specified conduct which endangers the health of others, but only if the executive director or local director has determined that clear and convincing evidence exists to believe that such person has been ordered to report for counseling or has received counseling by a qualified physician or health worker and continues to demonstrate behavior which endangers the health of others.

(3) If a person violates a cease-and-desist order issued pursuant to paragraph (c) of subsection (2) of this section and it is shown that the person is a danger to others, the executive director of the state department of public health and environment or the director of the county, district, or municipal public health agency may enforce the cease-and-desist order by imposing such restrictions upon the person as are necessary to prevent the specific conduct which endangers the health of others. Restrictions may include required partici-

pation in evaluative, therapeutic, and counseling programs. Any restriction shall be in writing, setting forth the name of the person to be restricted and the initial period of time, not to exceed three months, during which the order shall remain effective, the terms of the restrictions, and such other conditions as may be necessary to protect the public health. Restrictions shall be imposed in the least restrictive manner necessary to protect the public health. The executive director or the director issuing an order pursuant to this subsection (3) shall review petitions for reconsideration from the person affected by the order. Restriction orders issued by directors of county, district, or municipal public health agencies shall be submitted for review and approval of the executive director of the state department of public health and environment.

(4) (a) Upon the issuance of any order by the state department of public health and environment or the county, district, or municipal public health agency pursuant to subsection (2) or (3) of this section, such department or agency shall give notice promptly, personally, and confidentially to the person who is the subject of the order stating the grounds and provisions of the order and notifying the person who is the subject of the order that he or she has a right to refuse to comply with such order and a right to be present at a judicial hearing in the district court to review the order and that he or she may have an attorney appear on his or her behalf in said hearing. If the person who is the subject of the order refuses to comply with such order and refuses to cooperate voluntarily with the executive director of the state department of public health and environment or the director of the county, district, or municipal public health agency, the executive director or county, district, or municipal director may petition the district court for an order of compliance with such order. The executive director or county, district, or municipal director shall request the district attorney to file such petition in the district court, but, if the district attorney refuses to act, the executive director or county, district, or municipal director may file such petition and be represented by the attorney general. If an order of compliance is requested, the court shall hear the matter within ten days after the request. Notice of the place, date, and time of the court hearing shall be made by personal service or, if the person is not available, shall be mailed to the person who is the subject of the order by prepaid certified mail, return receipt requested, at his or her last-known address. Proof of mailing by the state department of public health and environment or the county, district, or municipal public health agency shall be sufficient notice under this section. The burden of proof shall be on the state department of public health and environment or the county, district, or municipal public health agency to show by clear and convincing evidence that the specified grounds exist for the issuance of the order and for the need for compliance and that the terms and conditions imposed therein are no more restrictive than necessary to protect the public health. Upon conclusion of the hearing, the court shall issue appropriate orders affirming, modifying, or dismissing the order.

(b) If the executive director or the director of a county, district, or municipal public health agency does not petition the district court for an order of compliance within thirty days after the person who is the subject of the order refuses to comply, such person may petition the court for dismissal of the order. If the district court dismisses the order, the fact that such order was issued shall be expunged from the records of the state department of public health and environment or the county, district, or municipal public health agency.

(5) Any hearing conducted pursuant to this section shall be closed and confidential, and any transcripts or records relating thereto shall also be confidential.

Source: **L. 87:** Entire part added, p. 1133, § 1, effective June 8. **L. 90:** (2)(c) and (3) amended, p. 1312, § 7, effective May 24. **L. 94:** (1), IP(2), (3), and (4) amended, p. 2772, § 466, effective July 1. **L. 2010:** (1), IP(2), (3), and (4) amended, (HB 10-1422), ch. 419, p. 2098, § 105, effective August 11.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), the introductory portion to subsection (2), and subsections (3) and (4), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1407. Emergency public health procedures. (1) When the procedures of section 25-4-1406 have been exhausted or cannot be satisfied as a result of threatened

criminal behavior and the executive director of the state department of public health and environment or the director of a county, district, or municipal public health agency, within his or her respective jurisdiction, knows or has reason to believe, because of medical information, that a person has HIV infection and that such person presents an imminent danger to the public health, the executive director or the director of a county, district, or municipal public health agency may bring an action in district court, pursuant to rule 65 of the Colorado rules of civil procedure, to enjoin such person from engaging in or continuing to engage in specific conduct which endangers the public health. The executive director or county, district, or municipal director shall request the district attorney to file such action in the district court, but, if the district attorney refuses to act, the executive director or county or district director may file such action and be represented by the attorney general.

(2) Under the circumstances outlined in subsection (1) of this section, in addition to the injunction order, the district court may issue other appropriate court orders including, but not limited to, an order to take such person into custody, for a period not to exceed seventy-two hours, and place him in a facility designated or approved by the executive director. A custody order issued for the purpose of counseling and testing to determine whether such person has HIV infection shall provide for the immediate release from custody and from the facility of any person who tests negative and may provide for counseling or other appropriate measures to be imposed on any person who tests positive. The person who is the subject of the order shall be given notice of the order promptly, personally, and confidentially stating the grounds and provisions of the order and notifying such person that he has a right to refuse to comply with such order and a right to be present at a hearing to review the order and that he may have an attorney appear on his behalf in said hearing. If such person contests testing or treatment, no invasive medical procedures shall be carried out prior to a hearing being held pursuant to subsection (3) of this section.

(3) Any order issued by the district court pursuant to subsection (2) of this section shall be subject to review in a court hearing. Notice of the place, date, and time of the court hearing shall be given promptly, personally, and confidentially to the person who is the subject of the court order. Such hearing shall be conducted by the court no later than forty-eight hours after the issuance of the order. Such person has a right to be present at the hearing and may have an attorney appear on his behalf in said hearing. Upon conclusion of the hearing, the court shall issue appropriate orders affirming, modifying, or dismissing the order.

(4) The burden of proof shall be on the state or the county, district, or municipal public health agency to show by clear and convincing evidence that grounds exist for the issuance of any court order pursuant to subsection (1) or (2) of this section.

(5) Any hearing conducted by the district court pursuant to subsection (1) or (2) of this section shall be closed and confidential, and any transcripts or records relating thereto shall also be confidential.

(6) Any order entered by the district court pursuant to subsection (1) or (2) of this section shall impose terms and conditions no more restrictive than necessary to protect the public health.

ANNOTATION

Law reviews. For article, “2006 Immigration Legislation in Colorado”, see 35 Colo. Law. 79 (October 2006).

25-4-1409. Penalties. (1) Any attending physician or other health care provider required to make a report pursuant to section 25-4-1402 or any laboratory or person required to make a report pursuant to section 25-4-1403 who fails to make such a report commits a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of not more than three hundred dollars.

(2) Any physician or other health care provider, any officer or employee of the state department of public health and environment or a county, district, or municipal public health agency, or any person, firm, or corporation that violates section 25-4-1404 by releasing or making public confidential public health reports or by otherwise breaching the confidentiality requirements of said section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than five hundred dollars nor more than five thousand dollars, or by imprisonment in the county jail for not less than six months nor more than twenty-four months, or by both such fine and imprisonment.

Source: L. 87: Entire part added, p. 1136, § 1, effective June 8. L. 90: Entire section amended, p. 1312, § 8, effective May 24. L. 94: (2) amended, p. 2774, § 468, effective July 1. L. 2010: (2) amended, (HB 10-1422), ch. 419, p. 2100, § 107, effective August 11.

25-4-1411. AIDS drug assistance program - legislative declaration - no entitlement created. (1) (a) The general assembly recognizes that medical science is making strides in treating persons who have AIDS or HIV. The general assembly recognizes that new pharmaceutical products have been developed that delay the debilitating effects of AIDS and HIV, thereby allowing HIV-infected persons to maintain a higher quality of life and remain productive. The general assembly also recognizes that many persons with AIDS may eventually have their medical bills paid through some form of government assistance. The general assembly finds that the state will recognize a savings in medical assistance if persons with HIV can remain working longer.

(b) Therefore, the general assembly declares that the purpose of this section is to implement the drug treatment component of the federal “Ryan White C.A.R.E. Act of 1990”, as amended, by creating the AIDS drug assistance program to provide certain pharmaceutical products to qualifying low-income persons who have AIDS or HIV.

(c) Nothing in this section shall be construed to establish any entitlement to services from the department of public health and environment.

(2) Subject to available appropriations, the department of public health and environment is authorized to implement and administer an AIDS drug assistance program, referred to in this section as the “state program”, to provide pharmaceutical products to treat HIV

disease or prevent the serious deterioration of health arising from HIV disease in eligible individuals. The general assembly may annually appropriate moneys from the general fund to purchase pharmaceutical products for persons participating in the state program. The state program shall also be funded with federal funds available under the federal "Ryan White C.A.R.E. Act of 1990", as amended, and moneys appropriated for the implementation and administration of the state program from the AIDS and HIV prevention fund as authorized by section 25-4-1415 (1).

(3) To be eligible to participate in the state program, an individual shall:

(a) Have a medical diagnosis of HIV disease;

(b) (Deleted by amendment, L. 2001, p. 332, § 1, effective July 1, 2001.)

(c) Have a prescription from an authorized provider for a pharmaceutical product or combination of pharmaceutical products that are included on the drug formulary for the state program;

(d) Meet income eligibility requirements as determined by the department of public health and environment in consultation with the subcommittee of the advisory group on AIDS policy established in subsection (4) of this section.

(3.5) Notwithstanding any other provision of this part 14 to the contrary, if a person meets the eligibility requirements set forth in subsection (3) of this section, he or she shall be eligible for programs and services that provide for the investigation, identification, testing, preventive care, or treatment of HIV infection or AIDS regardless of his or her race, religion, gender, ethnicity, national origin, or immigration status.

(4) A subcommittee of an advisory group convened by the governor to make recommendations for AIDS policy in the state shall serve in an advisory role to the department of public health and environment in implementing the state program and shall advise and recommend to the department of public health and environment what pharmaceutical products should be listed on the drug formulary for the state program.

(5) If at any time the department of public health and environment, in consultation with the subcommittee of the advisory group on AIDS policy established in subsection (4) of this section, determines that the AIDS drug assistance program is reaching the program's fiscal limitations, the department, in consultation with the subcommittee, shall implement a policy of giving preference to applicants of lower income, who otherwise meet the eligibility requirements in subsection (3) of this section, for enrollment into the program.

(6) (a) Except as otherwise provided in section 24-75-1104.5 (5), C.R.S., beginning in the 2004-05 fiscal year, and for each fiscal year thereafter so long as the state receives moneys pursuant to the master settlement agreement, the general assembly shall appropriate to the department of public health and environment for the state program the amount of moneys to be received by the state program pursuant to section 24-75-1104.5 (1) (j), C.R.S. The general assembly shall appropriate the amount specified in this subsection (6) from moneys credited to the tobacco litigation settlement cash fund created in section 24-22-115, C.R.S.

(b) The department of public health and environment and the advisory group shall determine how the moneys appropriated for the state program pursuant to this subsection (6) are to be used.

ANNOTATION

Law reviews. For article, “2006 Immigration Legislation in Colorado”, see 35 Colo. Law. 79 (October 2006).

25-4-1412. Definitions. As used in this section and sections 25-4-1413 to 25-4-1415, unless the context otherwise requires:

(1) “Program” means the Colorado HIV and AIDS prevention grant program created in section 25-4-1413.

(2) “State board” means the state board of health created in section 25-1-103.

Source: L. 2006: Entire section added, p. 1755, § 1, effective June 6.

25-4-1413. Program. (1) There is hereby created in the department the Colorado HIV and AIDS prevention grant program to address local community needs in the areas of medically accurate HIV and AIDS prevention and education through a competitive grant process. The department shall administer the program.

(2) Grant applicants shall be nonprofit organizations that are governed by a board of directors, have the benefit of tax-exempt status pursuant to section 501 (c) (3) of the federal “Internal Revenue Code of 1986” or are county, district, or municipal public health agencies.

(3) (a) Preference shall be given to grant applicants that have as one of their primary purposes HIV and AIDS prevention and education.

(b) Grants may be given to organizations that conduct HIV prevention in conjunction with other co-morbidities secondary to HIV infections.

(4) Grant applications shall include, but need not be limited to:

(a) A statement of the local HIV and AIDS prevention or education issue to be addressed, a description of the constituency that shall be served or targeted, and how the constituency will benefit;

(b) A description of the goals and objectives of the grant applicant in submitting an application under the program; and

(c) A description of the activities planned to accomplish the goals and objectives of the grant applicant and of the outcome measures that will be used by the grant applicant.

(5) Grants shall only be given for medically accurate HIV and AIDS prevention and education programs that are based in behavioral and social science theory and research and shall not be used to contribute to existing scholarships, directly to endowments, fund-raising events, annual fund drives, or debt reduction.

Source: L. 2006: Entire section added, p. 1755, § 1, effective June 6. **L. 2007:** (2) amended, p. 2041, § 67, effective June 1. **L. 2010:** (2) amended, (HB 10-1422), ch. 419, p. 2100, § 108, effective August 11.

25-4-1414. Grant program - conflict of interest. (1) (a) The program shall fund medically accurate HIV and AIDS prevention and education programs through a competitive grant process that shall be overseen by the HIV and AIDS prevention grant program advisory committee, which is hereby created and referred to in this section as the “advisory committee”. The advisory committee shall consist of seven members appointed by the executive director of the department as follows:

(I) (Deleted by amendment, L. 2009, (SB 09-179), ch. 112, p. 474, § 17, effective April 9, 2009.)

(II) One member who is recommended by the department’s minority health advisory commission;

(III) Four members who are recommended by a statewide collaborative group that assists the department in the department’s comprehensive plan for HIV and AIDS prevention;

(IV) One member who has expertise in HIV and AIDS prevention and education; and
(V) One member who represents a clinic that receives moneys under part 3 of the federal "Ryan White C.A.R.E. Act of 1990", as amended.

(b) The composition of the advisory committee shall reflect, to the extent practical, Colorado's ethnic, racial, and geographic diversity.

(c) The grants administered pursuant to section 25-4-1413 shall only be subject to the restrictions provided for in this section and section 25-4-1413 and shall not be subject to the same restrictions as grants provided with federal moneys for HIV and AIDS prevention. The state board, upon recommendations of the advisory committee, shall adopt rules that specify, but need not be limited to, the following:

- (I) The procedures and timelines by which an entity may apply for program grants;
- (II) Grant application contents, in addition to those specified in section 25-4-1413 (3);
- (III) Criteria for selecting the entities that shall receive grants and determining the amount and duration of the grants;
- (IV) Reporting requirements for entities that receive grants pursuant to this section; and
- (V) The qualifications of an adequate proposal.

(2) The advisory committee shall review the applications received pursuant to this section and submit to the state board and the executive director of the department recommended grant recipients, recommended grant amounts, and the duration of each recommended grant. In making recommendations for grants, the advisory committee shall consider the distribution of federal funds in the areas of HIV and AIDS prevention, education, and treatment. Within thirty days after receiving the advisory committee's recommendations, the executive director shall submit his or her recommendations to the state board. The state board shall have the final authority to approve the grants administered under this section and section 25-4-1413. If the state board disapproves a recommendation for a grant recipient, the advisory committee may submit a replacement recommendation within thirty days after disapproval. In making grant recommendations, the advisory committee shall follow the purpose of the program as outlined in section 25-4-1413. The state board shall award grants to the entities selected by the advisory committee, specifying the amount and duration of each grant award. In reviewing and approving grant applications, the advisory committee and the state board shall ensure that grants are distributed statewide and address the needs of both urban and rural residents of Colorado.

(3) If a member of the advisory committee has an immediate personal, private, or financial interest in any matter pending before the advisory committee, the member shall disclose the fact and shall not vote upon the matter.

Source: L. 2006: Entire section added, p. 1756, § 1, effective June 6. L. 2009: (1)(a)(I), (1)(a)(III), and (1)(a)(V) amended, (SB 09-179), ch. 112, p. 474, § 17, effective April 9.

25-4-1415. Cash fund - administration - limitation. (1) There is hereby created in the state treasury the AIDS and HIV prevention fund, referred to in this section as the "fund", that shall consist of moneys that may be appropriated to the fund by the general assembly. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of the program; except that, for the 2009-10 and 2010-11 fiscal years, the general assembly may appropriate moneys from the fund to the department of public health and environment for the implementation and administration of the AIDS drug assistance program described in section 25-4-1411 (2). Any moneys in the fund not expended for the purpose of the program may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(2) Pursuant to section 24-75-1104.5 (1) (m), C.R.S., and except as otherwise provided in section 24-75-1104.5 (5), C.R.S., beginning in the 2006-07 fiscal year and in each fiscal year thereafter so long as the state receives moneys pursuant to the master settlement agreement, the state treasurer shall annually transfer to the fund two percent, not to exceed two million dollars in any fiscal year, of the total amount of the moneys received by the state pursuant to the master settlement agreement, not including attorney fees and costs, during the preceding fiscal year. The state treasurer shall transfer the amount specified in this subsection (2) from moneys credited to the tobacco litigation settlement cash fund created in section 24-22-115, C.R.S.

(3) The department may receive up to five percent of the moneys annually appropriated by the general assembly to the department from the fund created in subsection (1) of this section for the actual costs incurred in administering the program.

(4) For the 2009-10 fiscal year, the state treasurer shall transfer from the fund:

(a) To the Colorado health service corps fund created in section 25-20.5-706 the amount of one hundred twenty thousand dollars; and

(b) To the visa waiver program fund created in section 25-20.5-605 the amount of sixty-seven thousand two hundred ninety-four dollars for appropriation by the general assembly to the primary care office in the prevention services division of the department.

L. 2009: (1) and (2) amended, (SB 09-269), ch. 333, p. 1767, § 6, effective June 1; (4) added, (HB 09-1111), ch. 396, p. 2142, § 7, effective June 2. L. 2010: (1) amended, (HB 10-1323), ch. 35, p. 131, § 6, effective March 22; (4)(a) amended, (HB 10-1138), ch. 142, p. 484, § 8, effective July 1.

PART 15

BREAST CANCER SCREENING

Cross references: For provisions relating to mandatory insurance coverage for mammography screening, see § 10-16-104 (4).

25-4-1501. Legislative declaration. The general assembly hereby finds and declares that the incidence of breast cancer in women of this state is a significant health problem that can and should be reduced through early detection and treatment. Accordingly, it is the intention of the general assembly in enacting this part 15 to provide breast cancer screening where it is not otherwise readily available for reasons of cost or distance to suitable medical facilities.

Source: L. 88: Entire part added, p. 1013, § 1, effective April 7.

25-4-1502. Definitions. As used in this part 15, unless the context otherwise requires:

(1) (Deleted by amendment, L. 95, p. 487, § 2, effective July 1, 1995.)

(2) “Board” means the state board of health.

(3) “Department” means the department of public health and environment.

(3.5) “Diagnostic screening” means the use of procedures including physical examinations, radiologic imaging, surgical techniques, and any new technologies approved by the board for detecting whether abnormalities of the breast are malignant or benign.

(4) “Fund” means the breast cancer screening fund established in section 25-4-1503.

(5) “Screening” means the conduct of physical examinations, visual inspections, or other medical tests exclusively for the purpose of ascertaining the existence of any physiological abnormality which might be indicative of the presence of disease. “Screening” includes diagnostic screening services.

Source: L. 88: Entire part added, p. 1013, § 1, effective April 7. L. 94: (3) amended, p. 2775, § 469, effective July 1. L. 95: (1) and (5) amended and (3.5) added, p. 487, § 2, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1503. Fund created. (1) There is hereby established in the state treasury a fund to be known as the breast cancer screening fund, which shall be subject to annual appropriation to the department for the purposes of this part 15. The fund shall be credited with such appropriations as the general assembly may make from the general fund for the purposes of this part 15, as well as any moneys received by the department pursuant to section 25-4-1505 (2) and (4). In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of this fund shall be credited to the general fund.

(2) All moneys credited to the breast cancer screening fund which are not expended during the fiscal year shall be retained in the fund for its future use and shall not be credited or transferred to the general fund or any other fund.

Source: L. 88: Entire part added, p. 1014, § 1, effective April 7. L. 92: Entire section amended, p. 1296, § 1, effective May 29.

25-4-1504. Allocation of fund. (1) All moneys in the fund shall be used by the department for the following purposes:

(a) The creation and development of a breast cancer screening program, undertaken by private contract for services or operated by the department, that will improve the availability of breast cancer screening and which may include the purchase, maintenance, and staffing of a truck, a van, or any other vehicle suitably equipped to perform breast cancer screening;

(a.5) To provide such further breast cancer diagnostic screening services, as may be indicated;

(b) The creation and operation of a referral service for the benefit of women for whom further examination or treatment is indicated by the breast cancer screening.

Source: L. 88: Entire part added, p. 1014, § 1, effective April 7. L. 94: (1)(a) amended, p. 2775, § 470, effective July 1. L. 95: (1)(a) amended and (1)(a.5) added, p. 488, § 3, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1)(a), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1505. Powers and duties of department and advisory board. (1) The executive director of the department shall appoint an advisory board which shall recommend guidelines for the services of the program and such rules and regulations as may be necessary to effect the purposes of this part 15. Members of the advisory board shall be persons interested in health care and the promotion of breast cancer screening drawn from both the private and public sectors. The board of health shall have the authority to approve recommendations of the advisory board and the authority to promulgate rules and regulations recommended by the advisory board.

(2) The department is authorized to accept any grant or award of funds from the federal government or private sources for the furtherance of the purposes of this part 15. Any moneys thus received shall be credited to the fund. Any expenses incurred in the solicitation of donations to the fund shall be paid from the fund.

(3) Any program of breast cancer screening conducted pursuant to this part 15 shall be conducted so as to make such screening available to persons who are at or below two hundred fifty percent of the federal poverty line and who are at least forty years of age but less than sixty-five years of age.

(4) The department may adopt a schedule of fees to be charged for breast cancer screening. The schedule of fees shall be determined so as to make such screening available to the largest possible number of women. The department shall, where practical, collect any available insurance proceeds or other reimbursement payable on behalf of any recipient of

a breast cancer screening under this part 15 and may adjust the schedule of fees to reflect insurance contributions. All fees collected shall be credited to the fund.

PART 16

FOOD PROTECTION ACT

Editor's note: This part 16 was added in 1991. This part 16 was repealed and reenacted in 1998, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 16 prior to 1998, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

25-4-1601. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that it is in the public interest for the department of public health and environment to establish minimum standards and rules for retail food establishments in Colorado and to provide authority for the uniform statewide administration, implementation, interpretation, and enforcement of such minimum standards and rules. Such standards and rules are established to:

- (a) Ensure the safety of food prepared, sold, or served in retail food establishments;
- (b) Maximize public health protection;
- (c) Identify hazards and potential sources of contamination and take measures to prevent, reduce, or eliminate the physical, chemical, or biological agents in food prepared, sold, or served in retail food establishments; and
- (d) Improve the sanitary condition of all retail food establishments, reduce food-borne illness outbreaks, and control the spread of food-borne disease from retail food establishments.

(2) This part 16 is deemed an exercise of the police powers of the state for the protection of the health and social welfare of the people of the state of Colorado.

Source: **L. 98:** Entire part R&RE, p. 1244, § 1, effective July 1. **L. 2009:** IP(1) amended, (SB 09-223), ch. 255, p. 1151, § 1, effective May 15.

Editor's note: This section is similar to former § 25-4-1601 as it existed prior to 1998.

25-4-1602. Definitions. As used in this part 16, unless the context otherwise requires:

- (1) "Automated food merchandising enterprise" means the collective activity of the supplying or preparing of food or drink for automated food merchandising machines.
- (2) "Certificate of license" means a grant to operate a retail food establishment without a fee, under the conditions set forth in section 25-4-1607 (9).

(2.5) “County or district public health agency” means a county or district health department or a county or municipal board of health.

(3) “Department” means the department of public health and environment, and its authorized employees.

(4) “Food” means any raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption.

(5) “Fund” means the food protection cash fund created in section 25-4-1608.

(6) “HACCP plan” means a written document setting forth the formal procedures for following hazard analysis critical control point principles.

(6.5) “Imminent health hazard” means a significant threat or danger to health that is considered to exist when there is evidence sufficient to show that a product, practice, circumstance, or event creates a situation that requires immediate correction or cessation of operation to prevent injury or illness based on the number of potential injuries or illnesses and the nature, severity, and duration of the anticipated injury or illness.

(7) “Inspection” means an inspection of a retail food establishment conducted by the department or a county or district board of health to ensure compliance by such establishment with rules promulgated by the department pursuant to this part 16.

(8) “License” means a grant to a licensee to operate a retail food establishment.

(9) “Licensee” means a person that is licensed or who holds a certificate of license pursuant to this part 16 and is responsible for the lawful operation of a retail food establishment.

(10) (Deleted by amendment, L. 2009, (SB 09-223), ch. 255, p. 1151, § 2, effective May 15, 2009.)

(11) “Modified atmosphere packaging” means the reduction of the amount of oxygen in a package by mechanically evacuating the oxygen, displacing the oxygen with another gas or combination of gases, or otherwise controlling the oxygen content to a level below that normally found in the surrounding atmosphere, which is twenty-one percent oxygen.

(12) “Nonpotentially hazardous” means any food or beverage that, when stored under normal conditions without refrigeration, will not support the rapid and progressive growth of microorganisms that cause food infections or food intoxications.

(13) “Person” means a natural person, partnership, association, company, corporation, or organization or a manager, agent, servant, officer, or employee of any of such entities.

(14) “Retail food establishment” means a retail operation that stores, prepares, or packages food for human consumption or serves or otherwise provides food for human consumption to consumers directly or indirectly through a delivery service, whether such food is consumed on or off the premises or whether there is a charge for such food. “Retail food establishment” does not mean:

(a) Any private home;

(b) Private boarding houses;

(c) Hospital and health facility patient feeding operations licensed by the department;

(d) Child care centers and other child care facilities licensed by the department of human services;

(e) Hunting camps and other outdoor recreation locations where food is prepared in the field rather than at a fixed base of operation;

(f) Food or beverage wholesale manufacturing, processing, or packaging plants, or portions thereof, that are subject to regulatory controls under state or federal laws or regulations;

(g) Motor vehicles used only for the transport of food;

(h) Establishments preparing and serving only hot coffee, hot tea, instant hot beverages, and nonpotentially hazardous doughnuts or pastries obtained from sources complying with all laws related to food and food labeling;

(i) Establishments that handle only nonpotentially hazardous prepackaged food and operations serving only commercially prepared, prepackaged foods requiring no preparation other than the heating of food within its original container or package;

(j) Farmers markets and roadside markets that offer only uncut fresh fruit and vegetables for sale;

(k) Automated food merchandising enterprises that supply only prepackaged nonpotentially hazardous food or drink or food or drink in bottles, cans, or cartons only, and operations that dispense only chewing gum or salted nuts in their natural protective covering;

(l) The donation, preparation, sale, or service of food by a nonprofit or charitable organization in conjunction with an event or celebration if such donation, preparation, sale, or service of food:

(I) Does not exceed the duration of the event or celebration or a maximum of fifty-two days within a calendar year; and

(II) Takes place in the county in which such nonprofit or charitable organization resides or is principally located.

(m) A home, commercial, private, or public kitchen in which a person produces food products sold directly to consumers pursuant to the “Colorado Cottage Foods Act”, section 25-4-1614.

(15) “Safe food” means food that does not contain any poisonous, deleterious, or disease-causing substance or microorganisms that may render such food injurious to human health.

(16) “Special event” means an organized event or celebration at which retail food establishments prepare, serve, or otherwise provide food for human consumption.

(17) “Uniform statewide administration, implementation, interpretation, and enforcement” means the application of the rules adopted by the state board of health and the policy guidance of the department by state and county or district public health agencies responsible for implementation of the rules and policies. The uniform application shall not preclude county or district public health agencies from implementing administrative efficiencies or practices if the practices do not conflict with the state board of health rules or department policies.

25-4-1603. Licensing, certification, and food protection agency. The department is hereby designated the state licensing, certification, and food protection agency for the purpose of protecting the public health and ensuring a safe food supply in this state. In addition to such designation, the department is hereby authorized to regulate and control retail food establishments, promulgate rules governing the operation of such establishments, and uniformly enforce and administer this part 16.

Source: L. 98: Entire part R&RE, p. 1247, § 1, effective July 1. L. 2009: Entire section amended, (SB 09-223), ch. 255, p. 1152, § 3, effective May 15.

Editor’s note: This section is similar to former § 25-4-1603 as it existed prior to 1998.

25-4-1604. Powers and duties of department - rules. (1) The department shall have the following powers and duties:

(a) To grant or refuse licenses and certificates of license pursuant to section 25-4-1606, or to suspend or revoke licenses and certificates of license pursuant to section 25-4-1609;

(b) (I) To promulgate rules for adoption by the state board of health pursuant to article 4 of title 24, C.R.S., for the uniform statewide administration, implementation, interpretation, and enforcement of this part 16 and, as necessary, to ensure a safe food supply in retail

food establishments. Such rules may include provisions for the initial and periodic medical examination by the department or other competent medical authority of all employees of retail food establishments and shall include provisions specifying and regulating the places and conditions under which food shall be prepared for consumption, a uniform code of sanitary rules, and such other rules as the department deems necessary. Such rules may be modified and changed from time to time.

(II) For purposes of this paragraph (b), a uniform code of sanitary rules means rules for the preparation, sale, and serving of food, including but not be limited to general overall retail food establishment and equipment design and construction; sanitary maintenance of equipment, utensils, and facilities for food preparation, service, and storage; wholesomeness of food and drink; source and protection of food and water; disposal of liquid and solid wastes; and other rules for the effective administration and enforcement of this part 16.

(c) To hear and determine all complaints against licensees or grantees of certificates of license and to administer oaths and issue subpoenas to require the presence of any person necessary to the determination of any such hearing;

(d) To uniformly enforce this part 16 and the rules promulgated pursuant to this section;

(e) To enter retail food establishments during business hours and at other times during which activity is evident to conduct inspections and other interventions related to food safety and the protection of public health;

(f) To develop and enforce uniform statewide standards of program conduct and performance to be followed and adhered to by employees of the department and county or district boards of health;

(g) To provide technical assistance, equipment and product review, training and standardization, program evaluation, and other services necessary to assure the uniform statewide administration, implementation, interpretation, and enforcement of this part 16 and rules promulgated under this part 16;

(h) To review and approve HACCP plans submitted for evaluation to verify and ensure that food handling risks are reduced to prevent food-borne illness outbreaks;

(i) To delegate to any county or district board of health the powers and duties described in paragraphs (a), (c), (d), (e), and (h) of this subsection (1) at the request of such county or district board of health.

(2) Subsection (1) of this section shall not apply to the city and county of Denver, which, by ordinance, may provide for the licensure of retail food establishments.

Source: L. 98: Entire part R&RE, p. 1247, § 1, effective July 1. L. 2009: (1)(b)(I), (1)(d), (1)(f), (1)(g), and (1)(i) amended and (2) added, (SB 09-223), ch. 255, p. 1152, § 4, effective May 15.

Editor's note: This section is similar to former § 25-4-1604 as it existed prior to 1998.

25-4-1605. Submission of plans for approval - required. (1) An owner or operator of a retail food establishment shall submit plans and specifications to the department or a county or district board of health in the jurisdiction in which a retail food establishment is to be constructed or extensively remodeled before such construction or extensive remodeling is begun or any existing structure is converted for use as a retail food establishment. Such plans and specifications shall be submitted for review and approval, in such form as the department requires or approves, to ensure that the retail food establishment layout, equipment, and food handling procedures are conducive to providing a safe food product. Each plan and specification submission shall be accompanied by the fees set forth in section 25-4-1607. The department and a county or district board of health shall treat the plans and specifications as confidential trade secret information. The plans and specifications shall indicate the proposed layout, arrangement, mechanical plants, construction materials of work areas, and the location, type, and model of proposed fixed equipment and facilities.

(2) The construction, extensive remodeling, or conversion of any retail food establishment shall be in accordance with the plans and specifications submitted to and approved by the department or a county or district board of health. The department or a county or district

board of health shall conduct preopening inspections of retail food establishments to assure compliance with the approved plans, as circumstances require.

(3) An owner or operator of a retail food establishment shall submit an HACCP plan to the department or a county or district board of health for review and approval before beginning a modified atmosphere packaging process or other food preparation method that does not meet rules promulgated by the department. HACCP plans shall be submitted in such form as the department requires or approves. The submission shall ensure that food handling risks are reduced to prevent food-borne illness and outbreaks. The department and any county or district board of health shall treat HACCP plans as confidential trade secret information.

(4) The department or a county or district board of health shall respond to any plans and specifications submitted pursuant to subsection (1) of this section and to any HACCP plan submitted pursuant to subsection (3) of this section within fourteen working days after receipt. If a submitted HACCP plan or other plan or specification is deemed inadequate, the department or a county or district board of health shall respond in writing to the submitter of the plans or specifications with a statement describing how such deficiencies may be corrected.

Source: L. 98: Entire part R&RE, p. 1248, § 1, effective July 1. L. 2009: Entire section amended, (SB 09-223), ch. 255, p. 1153, § 5, effective May 15.

Editor's note: This section is similar to former § 25-4-1606 as it existed prior to 1998.

25-4-1606. Licensure - exception. (1) An application for a license or a certificate of license shall be filed with the department or a county or district board of health before any person may operate a retail food establishment in this state. The application shall be on a form supplied by the department and shall include such information as the department may require.

(2) Before granting any license or certificate of license, the department or a county or district board of health may visit and inspect the retail food establishment or property on which the applicant conducts or proposes to conduct business to assess whether the establishment can operate in accordance with the rules promulgated by the department to provide a safe food product. If an applicant complies with the requirements of this subsection (2) and the rules promulgated pursuant to this part 16, the department or a county or district board of health shall approve the application for a license or certificate of license.

(2.5) If a critical violation is documented during an inspection, and the retail food establishment is unable to correct the violation while the inspector is on site, follow-up activities shall be conducted. If the retail food establishment is able to correct the critical violation during the inspection, the critical violation and the resolution demonstrating compliance shall be documented on the inspection report form, with no follow-up inspection required. If more than one follow-up inspection is needed to correct the same critical violation at any type of retail food establishment, the department or a county or district board of health may pursue the civil penalty process outlined in section 25-4-1611 for correction and to recover any associated costs.

(3) Every license and certificate of license granted pursuant to this section shall specify the date granted, the period of coverage, the name of the licensee, and the name and address of the licensed establishment. All licenses shall be conspicuously displayed at all times in the licensed establishment.

(4) Licenses and certificates of license shall be valid for one calendar year or such portion thereof as remains after the granting of a license or certificate. When a license or certificate is valid for only a portion of a calendar year, there shall be no reduction of the fees required by section 25-4-1607. All licenses and certificates of license shall expire December 31 of the year in which they were granted and renewal applications shall be filed with the department during December of each year. Once a license or certificate of license has been granted, the department or a county or district board of health shall not refuse to renew such license or certificate unless the licensee has engaged in an unlawful act set forth in section 25-4-1610 or is in violation of any rules promulgated pursuant to this part 16.

(5) Subsections (1) and (2) of this section shall not apply in the city and county of Denver, which, by ordinance, may provide for the licensure of retail food establishments.

Source: L. 98: Entire part R&RE, p. 1249, § 1, effective July 1. L. 2009: (1), (2), and (4) amended and (2.5) added, (SB 09-223), ch. 255, p. 1154, § 6, effective May 15.

25-4-1607. Fees - repeal. (1) Each retail food establishment in this state shall be assessed an annual license fee in accordance with the following provisions:

(a) A retail food establishment preparing or serving food in individual portions for immediate on- or off-premises consumption shall be assessed an annual fee based on the following schedule:

Seating Capacity	Fee
0 to 100	\$255
101 to 200	285
Over 200	310

(b) A retail food establishment offering food for retail sale to consumers for off-premises consumption shall be assessed an annual fee based on the following schedule:

Square Footage	Fee
Less than 3,500	\$115
3,501 to 15,000	180
15,001 to 25,000	200
25,001 to 45,000	235
45,001 to 65,000	290
65,001 to 85,000	415
over 85,000	500

(c) A retail food establishment offering food for retail sale to consumers for off-premises consumption and preparing or serving food in individual portions for immediate consumption either on- or off-premises shall be assessed an annual fee based on the following schedule:

Square Footage	Fee
Less than 3,500	\$207
3,501 to 15,000	338
15,001 to 25,000	360
25,001 to 45,000	395
45,001 to 65,000	450
65,001 to 85,000	575
over 85,000	690

(c.5) (I) A retail food establishment offering food at a temporary living quarter for workers associated with oil and gas shall be assessed an initial licensing fee based on the following schedule:

Seating Capacity	Initial License Fee
0-50	\$ 750
Over 50	1,250

(II) Any future annual license fee or a change in location within the calendar year of the same retail food establishment offering food at a temporary living quarter for workers associated with oil and gas shall be assessed a renewal fee based on the following schedule:

Seating Capacity	Renewal License Fee
0-50	\$ 275
Over 50	500

(d) A retail food establishment shall be subject to only one of the fees established in this subsection (1).

(e) (I) Retail food establishment license fees shall be established pursuant to this subsection (1); except that the city and county of Denver may establish such fees by ordinance.

(II) Notwithstanding subparagraph (I) of this paragraph (e), the fees established in this subsection (1) or by ordinance of the city and county of Denver shall be the only annual license fees charged by the state or any county, district, local, or regional inspection authority and shall cover all inspections of a retail food establishment pursuant to this subsection (1) throughout an annual license period.

(2) At the time a plan is submitted for review, an application fee of one hundred dollars shall be paid to the department or a county or district board of health. The fee for plan review and preopening inspection of a new or remodeled retail food establishment shall be the actual cost of such review, which shall not exceed five hundred eighty dollars. Such costs shall be payable at the time the plan is approved and an inspection is completed to determine compliance.

(3) At the time an equipment review is submitted, an application fee of one hundred dollars shall be paid to the department. The fee for equipment review by the department to determine compliance with applicable standards shall be the actual cost of such review, which shall not exceed five hundred dollars. Such costs shall be payable when the review is completed.

(4) The fee for an HACCP plan review of a specific written process shall be the actual cost of such review, which shall not exceed one hundred dollars. The review of an HACCP plan for a process already conducted at a facility shall be the actual cost of such review, which shall not exceed four hundred dollars. Costs shall be paid at the time the plan is approved and an inspection is completed.

(5) The fee for services requested by any person seeking department or county or district board of health review of a potential retail food establishment site shall be seventy-five dollars or the actual cost of such review, whichever is greater. Seventy-five dollars of such fee shall be billed at the time the review is requested, and the remainder shall be payable when services are completed.

(6) The fee for food protection services provided to special events shall not exceed the actual cost of such services and shall be paid by the organizer of such special event when services are completed.

(7) The fee for any requested service not specifically set forth in this section shall not exceed the actual cost of such service.

(8) The actual cost of a service shall be established by the department or a county or district board of health, whichever provided the service.

(9) (a) A certificate of license may be issued to and in the name and address of any:

(I) Parochial, public, or private school;

(II) Penal institution;

(III) Charitable organization and benevolent, nonprofit retail food establishment conducted for the purpose of assisting elderly, incapacitated, or disadvantaged persons; and

(IV) Nonprofit or charitable organization that donates, prepares, sells, or serves food in conjunction with an event or celebration if such donation, preparation, sale, or service of food:

(A) Does not exceed the duration of the event or celebration or a maximum of fifty-two days within a calendar year; and

(B) Takes place in the county in which such nonprofit or charitable organization resides or is principally located.

(b) No institution or organization listed in paragraph (a) of this subsection (9) shall pay any fee imposed on a retail food establishment pursuant to this section.

(10) County or district boards of health created in part 5 of article 1 of this title shall collect fees under this section if the county or district boards of health are authorized by the department to enforce this part 16 and any rules promulgated pursuant to this part 16.

(11) (Deleted by amendment, L. 2009, (SB 09-223), ch. 255, p. 1155, § 7, effective May 15, 2009.)

(12) Notwithstanding the amount specified for any fee in this section, the state board of health by rule or as otherwise provided by law may reduce the amount of one or more of

the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the state board of health by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

Source: **L. 98:** (12) added, p. 1334, § 46, effective June 1; entire part R&RE, p. 1250, § 1, effective July 1. **L. 2003:** (1)(a), (1)(b), and (1)(c) amended, p. 2050, § 1, effective July 1. **L. 2009:** (1)(a), (1)(b), (1)(c), (1)(e)(II), (2) to (5), (8), (10), and (11) amended and (1)(c.5) added, (SB 09-223), ch. 255, p. 1155, § 7, effective May 15.

Editor's note: (1) This section is similar to former § 25-4-1607 as it existed prior to 1998.

(2) Subsection (12) was enacted as subsection (3) in SB 98-194 and was renumbered in the 1998 Colorado Revised Statutes for ease of location in the section as repealed and reenacted by SB 98-189.

25-4-1608. Food protection cash fund - creation. (1) Fees collected by the department pursuant to section 25-4-1607 shall be transmitted to the state treasurer who shall credit the same to the food protection cash fund, which fund is hereby created in the state treasury. The general assembly shall appropriate the moneys in the fund to the department for the payment of salaries and expenses necessary for the administration of this part 16.

(2) Forty-three dollars of each fee collected by the department and a county or district board of health pursuant to section 25-4-1607 (1) (a), (1) (b), (1) (c), and (1) (c.5) shall be transmitted to the state treasurer, who shall credit such fee to the food protection cash fund created in subsection (1) of this section. This portion of the fee shall be used by the department to conduct the duties and responsibilities set forth in section 25-4-1604 (1) (a), (1) (b), (1) (c), (1) (f), (1) (g), and (1) (i). The remainder of such fee shall be retained by the county or district board of health for deposit in the appropriate county or district public health agency fund in accordance with section 25-1-511 or, if the fee is collected by the department, it shall be deposited pursuant to subsection (1) of this section, and used to pay a portion of the cost of conducting a retail food establishment protection program.

(3) Any interest derived from the deposit and investment of moneys in the food protection cash fund shall be credited to such fund. Any unexpended or unencumbered moneys remaining in such fund at the end of a fiscal year shall remain in the fund and shall not revert or be transferred to the general fund or any other fund of the state.

Source: **L. 98:** Entire part R&RE, p. 1244, § 1, effective July 1. **L. 2003:** (2) amended, p. 2051, § 2, effective July 1. **L. 2008:** (2) amended, p. 2053, § 8, effective July 1. **L. 2009:** (2) amended, (SB 09-223), ch. 255, p. 1157, § 8, effective May 15.

Editor's note: This section is similar to former § 25-4-1605 as it existed prior to 1998.

25-4-1609. Disciplinary actions - closure - revocation - suspension - review. (1) The department or a county or district board of health may, on its own motion or complaint and after an investigation and hearing at which the licensee is afforded an opportunity to be heard, suspend or revoke a license or certificate of license for any violation of this part 16, any rule adopted pursuant to this part 16, or any of the terms, conditions, or provisions of such license or certificate of license. A written notice of suspension or revocation, as well as any required notice of hearing, shall be sent by certified mail to the licensee at the address contained in the license or certificate of license.

(2) Except in cases of closure due to an imminent health hazard, proceedings for the revocation or suspension of a license or certificate of license may not be commenced until after the imposition of the penalties prescribed by section 25-4-1611. The maximum period of suspension is six months. When a license or certificate of license is suspended or revoked, no part of the fees paid for a license may be returned to the licensee.

(3) Any suspension or revocation of a license or certificate of license may be reviewed by any court of general jurisdiction having jurisdiction over the retail food establishment for

which the application for license or certificate of license was made. If such court determines that such suspension or revocation was without good cause, it shall order the department to reinstate such license or certificate of license.

Source: **L. 98:** Entire part R&RE, p. 1253, § 1, effective July 1. **L. 2009:** (1) amended, (SB 09-223), ch. 255, p. 1157, § 9, effective May 15. **L. 2012:** (2) amended, (HB 12-1097), ch. 78, p. 259, § 2, effective April 6.

25-4-1609.5. Grievance process. (1) If a licensee believes that a county or district public health agency is taking regulatory action outside the scope of its authority, the licensee may file a written complaint with the department within thirty days after the licensee's knowledge of the regulatory action.

(2) Within forty-five days after receipt of a written complaint pursuant to subsection (1) of this section, the department shall convene a dispute resolution panel that consists of one person from the department, one person from the retail food industry, and one person from a county or district public health agency who is not within the jurisdiction of the licensee requesting resolution. The dispute resolution panel shall allow the licensee and the county or district public health agency to provide information related to the grievance. The dispute resolution panel shall make findings concerning the grievance and shall recommend to the county or district public health agency a resolution to the dispute. The county or district public health agency shall implement the recommendations within thirty days after receipt of the findings and recommendations from the dispute resolution panel. If the parties to the grievance resolve the complaint prior to review by the dispute resolution panel, the parties shall notify the department in writing and the grievance shall be dismissed.

(3) If the county or district public health agency fails to implement the recommendations of the dispute resolution panel within thirty days after receipt of the recommendations, the county or district public health agency shall provide the licensee with the opportunity to request an administrative hearing in accordance with section 24-4-105, C.R.S.

Source: **L. 2009:** Entire section added, (SB 09-223), ch. 255, p. 1157, § 10, effective May 15.

25-4-1610. Unlawful acts. (1) It is unlawful for:

(a) Any person to begin the construction or extensive remodeling of a retail food establishment unless such person has received department or county or district board of health approval of plans and specifications for such construction or remodeling pursuant to section 25-4-1605;

(b) Any person to operate a retail food establishment without a valid license or certificate of license from the department or a county or district board of health having jurisdiction over such establishment;

(c) Any person to violate this part 16 and any rules promulgated pursuant to this part 16;

(d) Any person or retail food establishment to refuse to permit entry to such establishment in accordance with sections 25-4-1604 (1) (e) and 25-4-1606 (2);

(e) Any retail food establishment to sell or serve food prepared in a private home to any person;

(f) Any person to fail to pay a civil penalty assessed by the department or a county or district board of health.

Source: **L. 98:** Entire part R&RE, p. 1254, § 1, effective July 1. **L. 2009:** (1)(a), (1)(b), and (1)(f) amended, (SB 09-223), ch. 255, p. 1158, § 11, effective May 15.

25-4-1611. Violation - penalties. (1) If the department or a county or district board of health finds that a licensee or other person operating a retail food establishment was provided with written notification of a violation of section 25-4-1610 (1) (a), (1) (b), (1) (d), (1) (e), or (1) (f) and was given a reasonable time to comply but remained in noncompli-

ance, such person shall be subject to a civil penalty of not less than two hundred fifty dollars and not more than one thousand dollars, assessed by the department or a county or district board of health.

(2) (a) Upon a finding by the department or a county or district board of health that a retail food establishment is in violation of this part 16 or the rules promulgated pursuant to this part 16, and that the violation is sufficient to permit the department or a county or district board of health to establish a date and time for correction, the department or county or district board of health shall, in writing, advise the licensee or other person operating the establishment of the violation, provide the person with a reasonable time to comply, and conduct a follow-up inspection. If, at the time of the follow-up inspection, the establishment is found to be in violation of the same provisions, the department or a county or district board of health shall issue the person a written notification of noncompliance, provide the person with a reasonable time to comply, and conduct a second follow-up inspection.

(b) (I) If, at a second follow-up inspection, a retail food establishment is found to be in compliance with the same provisions as were cited in the written notification issued pursuant to paragraph (a) of this subsection (2), the department or a county or district board of health shall advise the licensee or other person operating the establishment that noncompliance with such provisions at the next regular inspection shall result in the issuance of a second written notification of noncompliance.

(II) If, at a second follow-up inspection, a retail food establishment is found to be in violation of the same provisions as were cited in the written notification of noncompliance issued pursuant to paragraph (a) of this subsection (2), the department or a county or district board of health shall issue a second written notification of noncompliance, advising the licensee or other person operating the establishment of the violation and potential civil penalties that may be assessed if the noncompliance continues. The department or a county or district board of health shall conduct a third follow-up inspection.

(c) (I) If, at a third follow-up inspection, a retail food establishment is found to be in compliance with the same provisions as were cited in the second written notification of noncompliance issued pursuant to paragraph (b) of this subsection (2), the department or a county or district board of health may assess a civil penalty of not less than two hundred fifty dollars nor more than five hundred dollars and shall advise the person operating the establishment in writing that future noncompliance with the cited provisions in the second notification of noncompliance shall result in the issuance of a third written notification of noncompliance and subject the establishment to an additional civil penalty of not less than two hundred fifty dollars nor more than five hundred dollars.

(II) If, at a third follow-up inspection, a retail food establishment is found to be in violation of the same provisions as were cited in the second written notification of noncompliance issued pursuant to paragraph (b) of this subsection (2), the department or a county or district board of health may assess a civil penalty of not less than five hundred dollars nor more than one thousand dollars. When compliance with the provisions cited in the second written notification of noncompliance is obtained, the department or a county or district board of health shall notify the licensee or other person operating the establishment in writing that noncompliance with the cited provisions in the second notification of noncompliance at the next regular inspection will result in the issuance of a third written notification of noncompliance and may result in an additional civil penalty of not less than five hundred dollars nor more than one thousand dollars.

(3) A maximum of three civil penalties may be assessed against a licensee or other person operating a retail food establishment in any twelve-month period. Whenever a third civil penalty is assessed in a twelve-month period, the department or a county or district board of health may initiate proceedings to suspend or revoke the license of the licensee pursuant to section 25-4-1609.

(4) Neither the department nor a county or district board of health shall assess a civil penalty pursuant to this section if a disciplinary action is pending against the same licensee under section 25-4-1609.

(5) (a) All penalties collected by the department pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the food protection cash fund created in section 25-4-1608.

(b) Penalties collected by a county or district board of health shall be deposited in the appropriate county or district public health agency fund in accordance with section 25-4-1608, and shall be used to pay expenses related to the inspection of retail food establishments.

(6) To obtain compliance with this part 16, the department or a county or district board of health may allow the owner of a retail food establishment to use any assessed penalty fee to pay for employee training or the cost of needed improvements to the establishment.

(7) In addition to the remedies provided in this part 16 and other remedies provided by law, the department or a county or district board of health is authorized to apply to the county or district court of the county or district where a retail food establishment is located for a temporary or permanent injunction, and such court shall have jurisdiction to issue an injunction restraining any person from violating section 25-4-1610.

Source: **L. 98:** Entire part R&RE, p. 1254, § 1, effective July 1. **L. 2009:** Entire section amended, (SB 09-223), ch. 255, p. 1158, § 12, effective May 15. **L. 2012:** (3) amended, (HB 12-1097), ch. 78, p. 260, § 3, effective April 6.

Editor's note: This section is similar to former § 25-4-1608 as it existed prior to 1998.

25-4-1612. Judicial review. Any person adversely affected or aggrieved by a department decision to refuse to grant a license or certificate of license may seek judicial review in the district court having jurisdiction over the retail food establishment for which the application for license or certificate of license was made. Any other final order or determination by the department or a county or district board of health pursuant to this part 16 shall be subject to judicial review in accordance with article 4 of title 24, C.R.S.

Source: **L. 98:** Entire part R&RE, p. 1256, § 1, effective July 1. **L. 2009:** Entire section amended, (SB 09-223), ch. 255, p. 1160, § 13, effective May 15.

Editor's note: This section is similar to former § 25-4-1609 as it existed prior to 1998.

25-4-1613. General fund moneys - repeal. (1) For the fiscal years 2009-10 and 2010-11, no general fund moneys shall be used as matching funds to the increase in fees pursuant to sections 25-4-1607 and 25-4-1608. For the fiscal year 2011-12, the department shall request moneys from the general fund.

(2) This section is repealed, effective July 1, 2013.

Source: **L. 2009:** Entire section added, (SB 09-223), ch. 255, p. 1160, § 14, effective May 15.

25-4-1614. Home kitchens - exemption - food inspection - short title - definitions. (1) This section shall be known and may be cited as the "Colorado Cottage Foods Act".

(2) (a) A producer may use his or her home kitchen or a commercial, private, or public kitchen to produce foods for sale only if the producer sells the foods directly to ultimate consumers.

(b) A producer is permitted under this section to sell only a limited range of foods that are nonpotentially hazardous and that do not require refrigeration. These foods are limited to spices, teas, dehydrated produce, nuts, seeds, honey, jams, jellies, preserves, fruit butter, and baked goods, including candies.

(c) A producer must be certified in safe food handling and processing by a third-party certifying entity, comparable to and including the United States department of agriculture or the Colorado state university cooperative extension service, and must maintain a status of good standing in accordance with the certifying entity's practices and procedures, including attending any classes required for certification.

(d) The foods produced under this section must be sold only:

(I) Directly to ultimate consumers and not to grocery stores or restaurants; and

(II) On the producer's premises, at the producer's roadside stand, or at a farmers' market, community-supported agriculture organization, or similar venue where the product is sold directly to consumers.

(e) This section applies only to producers who earn net revenues of five thousand dollars or less per calendar year from the sale of each eligible food product produced in the producer's home kitchen or a commercial, private, or public kitchen.

(3) (a) A food product sold under this section must have an affixed label that includes at least:

(I) Identification of the product;

(II) The producer's name, the address at which the food was prepared, and the producer's current telephone number and electronic mail address;

(III) The date on which the food was produced;

(IV) A complete list of ingredients; and

(V) The following disclaimer: "This product was produced in a home kitchen that is not subject to state licensure or inspection and that may also process common food allergens such as tree nuts, peanuts, eggs, soy, wheat, milk, fish, and crustacean shellfish. This product is not intended for resale."

(b) A food product sold under this section and not labeled in accordance with paragraph (a) of this subsection (3) is misbranded and is subject to food sampling and inspection pursuant to subsection (4) of this section.

(4) A food product produced pursuant to this section is subject to food sampling and inspection by the department or a county, district, or regional health agency pursuant to section 25-5-406 if it is determined that the food product is misbranded pursuant to subsection (3) of this section or if a consumer complaint has been received or if the product is suspected in an injury or food-borne illness outbreak.

(5) A person who purchases a product made by a producer shall not resell the product.

(6) A person who sells foods pursuant to this act is encouraged to maintain home bakery liability insurance or other adequate liability insurance.

(7) Sections 25-4-1604 to 25-4-1613 do not apply to this section.

(8) The department or a county, district, or regional health agency may create a voluntary electronic registry of producers if it determines that a registry would be of value to producers and consumers.

(9) As used in this section:

(a) "Home" means a primary residence occupied by the producer producing the food under this section.

(b) "Nonpotentially hazardous" has the meaning set forth in section 25-4-1602 (12) and does not include low-acid or acidified foods.

(c) "Producer" means a natural person who is a resident of Colorado and who prepares nonpotentially hazardous foods in a home kitchen or similar venue for sale directly to consumers pursuant to this section.

PART 17

INFANT IMMUNIZATION ACT

25-4-1701. Short title. This part 17 shall be known and may be cited as the "Infant Immunization Act".

Source: L. 92: Entire part added, p. 1307, § 1, effective July 1.

25-4-1702. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that vaccine preventable diseases represent a serious public health threat to the people of this state. It has been well documented that vaccines are an effective way to save lives and prevent debilitating disease. Vaccines are among the most cost-

effective components of preventive medical care because for every dollar spent on immunization, ten dollars are saved in later medical expenses.

(2) The general assembly further finds, determines, and declares that the rate of routine immunization among preschool children appears to be falling steadily. Therefore, it is the purpose of this part 17 to fully immunize all infants, subject to available appropriations, at a level that is age-appropriate as determined by the board of health.

(3) The general assembly further finds, determines, and declares that the inability of some parents to personally take their children to health care professionals for the purpose of immunization contributes to the significant number of children who have not been immunized on a timely basis in accordance with this part 17. Therefore, it is the further purpose of this part 17 to provide an alternative method by which such children may be immunized without circumventing parental authority and control.

Source: **L. 92:** Entire part added, p. 1307, § 1, effective July 1. **L. 96:** (3) added, p. 583, § 1, effective July 1.

25-4-1703. Definitions. As used in this part 17, unless the context otherwise requires:

- (1) "Board of health" means the state board of health.
- (2) "Department" means the state department of public health and environment.
- (3) "Infant" means any child up to twenty-four months of age or any child eligible for vaccination and enrolled under the "Colorado Medical Assistance Act", articles 4, 5, and 6 of title 25.5, C.R.S.
- (3.5) "Minor" means any child under eighteen years of age.
- (4) "Practitioner" means a duly licensed physician or other person who is permitted and otherwise qualified to administer vaccines under the laws of this state.
- (5) "Vaccine" means such vaccines as are determined by the board of health to be necessary to conform to recognized standard medical practices. Such term includes, but is not limited to, the following vaccines:
 - (a) Diphtheria-tetanus-pertussis (DTP);
 - (b) Polio: Oral polio vaccine (OPV) or inactivated polio vaccine (IPV);
 - (c) Measles-mumps-rubella (MMR);
 - (d) Haemophilus influenzae type B conjugate vaccines (HIB).

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1704. Infant immunization program - delegation of authority to immunize minor. (1) There is hereby created in the department an infant immunization program which is established to immunize infants against vaccine preventable disease. Such program shall be implemented on and after January 1, 1993.

(2) Every parent, legal guardian, or person vested with legal custody or decision-making responsibility for the medical care of a minor, or person otherwise responsible for the care of an infant residing in this state, shall be responsible for having such infant vaccinated in compliance with the schedule of immunization established by the board of health; except that, failure to vaccinate a child in accordance with this subsection (2) shall not constitute sufficient grounds for any insurance company to deny a claim submitted on behalf of a child who develops a vaccine preventable disease.

(2.5) (a) Subject to the provisions of this subsection (2.5), a parent, legal guardian, person vested with legal custody of a minor or decision-making responsibility for the medical care of a minor, or such other adult person responsible for the care of a minor in this state, other than any employee of a licensed child care center in which the minor is enrolled, may delegate, verbally or in writing, that person's authority to consent to the

immunization of a minor to a stepparent, an adult relative of first or second degree of kinship, or an adult child care provider who has care and control of the minor. Any immunization administered pursuant to a delegation of authority under this subsection (2.5) shall be administered only at a health care clinic, hospital, office of a private practitioner, or county public health clinic.

(b) If a parent, legal guardian, person vested with legal custody of a minor or decision-making responsibility for the medical care of a minor, or other adult person responsible for the care of a minor in this state verbally delegates his or her authority to consent to the immunization of a minor under this subsection (2.5), the person to whom such authority is thereby delegated shall confirm the verbal delegation in writing and shall verbally relay any relevant health history to the administering practitioner. The practitioner administering the vaccination shall include the written confirmation in the minor's medical record. If a parent, legal guardian, person vested with legal custody of a minor or decision-making responsibility for the medical care of a minor, or other adult person responsible for the care of a minor in this state delegates his or her authority to consent to the immunization of a minor under this subsection (2.5) in writing, such writing shall include the relevant health history, and the practitioner administering the vaccination shall include a copy of the written delegation of authority in the minor's medical record.

(c) A person who consents to the immunization of a minor pursuant to a delegation of authority under this subsection (2.5) shall provide the practitioner with sufficient and accurate health information about the minor for whom the consent is given and, if necessary, sufficient and accurate health information about the minor's family to enable the practitioner to assess adequately the risks and benefits inherent in the proposed immunization and to determine whether the immunization is advisable.

(d) A person may not consent to the immunization of a minor pursuant to this subsection (2.5) if:

(I) The person has actual knowledge that the parent, legal guardian, person vested with legal custody of a minor or decision-making responsibility for the medical care of a minor, or other adult person responsible for the care of a minor in this state has expressly refused to give consent to the immunization; or

(II) The parent, legal guardian, person vested with legal custody of a minor or decision-making responsibility for the medical care of a minor, or other adult person responsible for the care of a minor in this state has told the person that the person may not consent to the immunization of the minor or, in the case of a written authorization, has withdrawn the authorization in writing.

(3) In addition to the immunization obligations set forth in section 25-4-905, relating to the immunization of indigent children, and except as provided in subsection (4) of this section, the department shall provide at public expense, subject to available appropriations, systematic immunizations to those infants that are not exempt from such immunization pursuant to paragraph (a) or (b) of subsection (4) of this section. The manner and frequency of vaccine administration shall conform to recognized standards of medical practice which are necessary for the protection of public health.

(4) An infant shall be exempted from receiving the required immunizations:

(a) Upon submitting certification from a licensed physician or advanced practice nurse that the physical condition of the infant is such that one or more specified immunizations would endanger the infant's life or health; or

(b) Upon submitting a statement signed by one parent or guardian that such parent or guardian adheres to a religious belief whose teachings are opposed to immunizations, or that such parent or guardian has a personal belief that is opposed to immunization.

25-4-1705. Department of public health and environment - powers and duties - rules. (1) The department shall negotiate for the purchase of and shall purchase vaccines to achieve the purposes of this part 17.

(2) The department shall secure and maintain such facilities as may be necessary for the safe and adequate preservation and storage of such vaccines.

(3) The department shall distribute such vaccines, in accordance with rules promulgated by the board of health, without purchase, shipping, handling, or other charges to practitioners who agree not to impose a charge for such vaccine on the infant recipient, the child's parent or guardian, third-party payor, or any other person; except that a practitioner may charge a reasonable administrative fee in connection with the administration of a vaccine. The board of health shall determine the amount of such administrative fee that a practitioner may charge.

(4) The department shall collect epidemiological information and shall establish a system for recording such information pursuant to rules and regulations adopted by the board of health.

(5) The board of health, in consultation with the medical services board in the state department of health care policy and financing, and such other persons, agencies, or organizations that the board of health deems advisable, shall formulate, adopt, and promulgate rules governing the implementation and operation of the infant immunization program. Such rules shall address the following:

- (a) The purchase, storage, and distribution of the vaccines by the department;
- (b) Requirements that providers, hospitals, and health care clinics must meet before entering into a contract with the department, making such provider, hospital, or clinic an agent of the department for the purposes of the infant immunization program;
- (c) Which vaccines shall be required to be administered;
- (d) The route and frequency of the vaccine's administration;
- (e) (Deleted by amendment, L. 2007, p. 655, § 3, effective April 26, 2007.)
- (f) The issuance of immunization records to parents or guardians;
- (g) The assessment of the vaccination status of infants;
- (h) The dissemination of information about the operation of the infant immunization program, including the requirement that such information be distributed by hospitals to parents of newborns.

(6) The department is authorized to accept any gifts or grants or awards of funds from the federal government or private sources for the implementation and operation of the infant immunization program.

(7) The department is authorized to enter into contracts which are necessary for the implementation and operation of the infant immunization program.

(8) County, district, or municipal public health agencies and the department shall use the birth certificate of any infant to enroll such infant in an immunization tracking system established in section 25-4-2403. Such use of the infant's birth certificate shall be considered an official duty of county, district, and municipal public health agencies and the department.

(9) (a) (Deleted by amendment, L. 2003, p. 2198, § 1, effective August 6, 2003.)

(b) The department or any person who contracts with the department pursuant to subsection (7) of this section shall not establish a universal purchase system for the procurement of vaccines for privately insured persons under federal government contracts.

(10) Physicians, licensed health care practitioners, clinics, schools, licensed child care providers, hospitals, managed care organizations or health insurers in which a student, as defined in section 25-4-901 (3), or an infant is enrolled as a member or insured, persons that have contracted with the department pursuant to subsection (7) of this section, and public health officials may release any immunization records in their possession, whether or not such records are in the immunization tracking system established in section 25-4-2403, to the persons or entities specified in section 25-4-2403 (1) to provide an accurate and complete immunization record for the child in order to verify compliance with state immunization law.

25-4-1706. Infant immunization program - eligibility. Any infant shall be eligible for participation in the infant immunization program; except that, for fiscal year 1992-93, only infants born on or after January 1, 1993, shall be eligible for participation in the infant immunization tracking program.

Source: **L. 92:** Entire part added, p. 1311, § 1, effective July 1.

25-4-1707. Moneys targeted for medical assistance for infants - reimbursement. The state department of health care policy and financing shall reimburse the department of public health and environment for the costs of vaccinating infants under the infant immunization program who are medicaid eligible pursuant to the “Colorado Medical Assistance Act”, articles 4, 5, and 6 of title 25.5, C.R.S. Such moneys received from the state department of health care policy and financing shall be credited to the immunization fund.

25-4-1708. Fund created. (1) There is hereby established in the state treasury a fund to be known as the immunization fund, which fund shall be subject to annual appropriation to the department of public health and environment by the general assembly for the purposes of purchasing vaccines, assisting users of the immunization tracking system established in section 25-4-2403 to connect to the system, utilizing the reminder and recall process of the immunization tracking system, and implementing, developing, and operating immunization programs. The fund shall be credited with such appropriations as the general assembly may make from the general fund for immunization programs, any gifts, grants, or awards received pursuant to sections 25-4-1705 (6) and 25-4-2403, and moneys received from the state department of health care policy and financing as reimbursement pursuant to section 25-4-1707. All income from the investment of moneys in the fund shall be credited to the fund.

(2) If federal funds are not received to implement and operate the immunization programs created in this part 17 and part 24 of this article, no additional general fund moneys shall be appropriated for such purposes.

(3) All moneys credited to the immunization fund that are not expended during the fiscal year shall be retained in the fund for its future use and shall not be credited or transferred to the general fund or any other fund.

(4) (Deleted by amendment, L. 2007, p. 658, § 5, effective April 26, 2007.)

Source: **L. 92:** Entire part added, p. 1311, § 1, effective July 1. **L. 94:** (1) amended, p. 2776, § 476, effective July 1. **L. 2003:** (4) added, p. 1543, § 3, effective May 1. **L. 2005:** (1) amended, p. 1239, § 1, effective June 3. **L. 2007:** Entire section amended, p. 658, § 5, effective April 26.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-4-1709. Limitations on liability. (1) No person who administers a vaccine required under the provisions of this part 17 shall be held liable for injuries sustained pursuant to such vaccine if:

(a) The vaccine was administered according to the schedule of immunization established by the board of health;

(b) There were no medical contraindications for administering such vaccine; and

(c) The vaccine was administered using generally accepted clinical methods.

(2) An action shall not be maintained for a vaccine-related injury or death until action for compensation for such alleged injury has been exhausted under the terms of the federal "National Childhood Vaccine Injury Act of 1986", 42 U.S.C. secs. 300aa-10 to 300aa-33, as such law is from time to time amended, provided the federal "National Childhood Vaccine Injury Act of 1986" applies to the particular vaccine administered.

(3) If the injury or death which is sustained does not fall within the parameters of the vaccine injury table as defined in 42 U.S.C. sec. 300aa-14, as enacted on November 14, 1986, a rebuttable presumption is established that the injury sustained or the death was not due to the administration of the vaccine. Such presumption shall be overcome by a preponderance of the evidence.

(4) Where a claim against a hospital, clinic, or provider arises from injuries resulting from the handling, storage, or distribution of vaccines required by this part 17, such hospital, clinic, or provider shall not be liable unless such injuries are the result of the negligent failure of an employee of such hospital, clinic, or provider to conform to recognized standards of practice which are necessary for the protection of public health.

(5) A practitioner licensed to practice medicine pursuant to article 36 of title 12, C.R.S., or nursing pursuant to article 38 of title 12, C.R.S., or the health care clinic, hospital, office of a private practitioner, or county public health clinic at which the immunization was administered that relies on the health history and other information given by a person who has been delegated the authority to consent to the immunization of a minor pursuant to section 25-4-1704 (2.5) is not liable for damages related to an immunization resulting from factual errors in the health history or information given to the practitioner or the health care clinic, hospital, office of a private practitioner, or county public health clinic at which the immunization was administered by the person when such practitioner or health care clinic, hospital, office of a private practitioner, or county public health clinic reasonably relies upon the health history information given and exercises reasonable and prudent care in administering the immunization.

PART 18

SHELLFISH DEALER CERTIFICATION ACT

25-4-1801. Short title. This part 18 shall be known and may be cited as the “Shellfish Dealer Certification Act”.

Source: L. 97: Entire part added, p. 81, § 1, effective July 1.

25-4-1802. Legislative declaration. The general assembly finds, determines, and declares that the certification of shellfish dealers and the regulation of premises or places wherein shellfish are handled, stored, and processed for distribution in accordance with the guidelines of the national shellfish sanitation program administered by the United States food and drug administration is necessary to protect the public health; will benefit consumers by ensuring that the sale and distribution of shellfish is from safe sources; will assist retailers by ensuring that shellfish have not been adulterated during processing, shipping, or handling; and will contribute to the economic health of the state by assuring that Colorado certified dealers are permitted to ship their product in interstate commerce.

Source: L. 97: Entire part added, p. 81, § 1, effective July 1.

25-4-1803. Definitions. As used in this part 18, unless the context otherwise requires:

(1) “Certification” means the issuance of a numbered certificate to a person for a particular activity or group of activities that indicates:

- (a) Permission from the department to conduct the activity; and
- (b) Compliance with the requirements of the department.

(2) “Certification number” means the unique identification number issued by the department to each dealer for each location.

(3) “Dealer” means a person to whom certification is issued for the activities of shell stock shipper, shucker-packer, repacker, reshipper, depuration processor, or wet storage.

(4) “Department” means the Colorado department of public health and environment and its authorized agents and employees.

(5) “Depuration processor” or “DP” means a person who receives shell stock from approved or restricted growing areas and submits such shell stock to an approved, controlled purification process.

(6) “FDA” means the United States food and drug administration.

(7) “Person” means any individual, receiver, trustee, guardian, personal representative, fiduciary, or representative of any kind, and any partnership, association, corporation, or other entity. “Person” also includes the federal or state government and any other public or private entity.

(8) “Repacker” or “RP” means any person, other than the original certified shucker-packer, who repackages shucked shellfish into other containers.

(9) “Reshipper” or “RS” means a person who purchases shucked shellfish or shell stock from other certified shippers and sells the product without repacking or relabeling to other certified shippers, wholesalers, or retailers.

(10) “Shellfish” means all species of:

(a) Oysters, clams, or mussels, whether:

(I) Shucked or in the shell;

(II) Fresh or frozen; and

(III) Whole or in part; and

(b) Scallops in any form, except when the final product form is the adductor muscle only.

(11) “Shell stock” means live shellfish in the shell.

(12) “Shell stock shipper” or “SS” means a person who grows, harvests, buys, or repacks and sells shell stock. A shell stock shipper is not authorized to shuck shellfish nor to repack shucked shellfish, but may ship shucked shellfish.

(13) “Shucker-packer” or “SP” means a person who shucks and packs shellfish. A shucker-packer may act as a shell stock shipper or reshipper or may repack shellfish originating from other certified dealers.

(14) “Wet storage” means the temporary storage of shell stock from growing areas in the approved classification or in the open status of the conditionally approved classification in containers or floats in natural bodies of water or in tanks containing natural or synthetic seawater.

Source: L. 97: Entire part added, p. 81, § 1, effective July 1.

25-4-1804. Department designated as certifying and inspecting agency. For the purpose of regulating and controlling shellfish dealers, establishing sanitary conditions therein, and the enforcement and administration of this part 18, the department is hereby authorized as the state certifying and inspection agency pursuant to applicable federal law and rules.

Source: L. 97: Entire part added, p. 83, § 1, effective July 1.

25-4-1805. Powers and duties of department - rules. (1) The department is hereby authorized to enforce this part 18 and to adopt and enforce reasonable rules and standards to implement this part 18. Such rules and standards shall be consistent with, and no more stringent than, standards adopted pursuant to the national shellfish sanitation program and may include, but shall not be limited to:

(a) Rules governing applications for initial certification and for annual renewal of certifications;

(b) Requirements for comprehensive on-site inspections of the premises and facilities of applicants for certification;

(c) Standards concerning the form and manner of submission of records required for certification and record keeping pursuant to this part 18;

(d) Establishment of fees required for certification and renewal of certification; and

(e) Grounds for denial, suspension, or revocation of a certificate.

(2) This part 18 shall be administered by the department; except that county, district, and municipal public health agencies may be authorized by the department to assist it in performing its powers and duties pursuant to this part 18.

(3) The department is authorized to conduct hearings in accordance with article 4 of title 24, C.R.S., and to use administrative law judges to conduct such hearings when the use of administrative law judges would result in a net saving of costs to the department.

(4) The department is authorized to enter into cooperative agreements with and to accept grants from any agency or political subdivision of this state or any other state, or with any agency of the United States government, subject to limitations set forth elsewhere in law and the state constitution, to carry out the provisions of this part 18.

(5) (a) When the department determines that a dealer’s activity constitutes a major public health threat, the department shall:

(I) Suspend or withdraw certification; and

(II) Immediately notify the FDA and the authorities in known states that receive the dealer’s shellfish.

(b) The department shall prohibit any dealer whose certification has been suspended or withdrawn from shipping in interstate or intrastate commerce.

(c) When the department recertifies any dealer, the department shall notify the FDA and the authorities in known states that receive the shellfish.

Source: L. 97: Entire part added, p. 83, § 1, effective July 1. **L. 2010:** (2) amended, (HB 10-1422), ch. 419, p. 2101, § 112, effective August 11.

25-4-1806. Shellfish dealers - certificate required - application - fees. (1) Any person desiring to do business as a shellfish dealer in Colorado shall apply for and obtain

a valid shellfish dealer certification issued by the department pursuant to this part 18 and any rules adopted pursuant thereto. Any such application shall be accompanied by the appropriate fee, if any, set by the department.

(2) Each shellfish dealer certification shall expire on June 30 in the year following the year of issuance.

(3) Each certificated shellfish dealer shall report to the department, in the form and manner required by the department, any change in the information provided in the dealer's application or in such reports previously submitted, within thirty days of such change.

(4) Certifications issued pursuant to this part 18 are not transferable.

(5) An application for renewal of a shellfish dealer certification shall be in the form and manner prescribed by the department.

(6) The department shall issue only one certification number to any dealer for any location. A dealer may maintain more than one certification if each business is operated as a separate entity and is not found at the same location.

(7) The certification number issued to any dealer by the department shall be unique. Each certification number shall consist of a one- to five-digit Arabic number preceded by the two-letter state postal abbreviation ("CO") and followed by a two-letter abbreviation for the type of activity or activities the dealer is qualified to perform in accordance with the following terms as defined in section 25-4-1802:

- (a) Shell stock shipper (SS);
- (b) Shucker-packer (SP);
- (c) Repacker (RP);
- (d) Reshipper (RS);
- (e) Depuration processor (DP); or
- (f) Wet storage (WS).

(8) All fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the wholesale food manufacturing and storage protection cash fund created in section 25-5-426.

Source: L. 97: Entire part added, p. 84, § 1, effective July 1. **L. 2003:** (8) amended, p. 1462, § 2, effective May 1.

25-4-1807. Record-keeping requirements. (1) Each certificated shellfish dealer shall keep and maintain records in the form and manner designated by the department.

(2) Records maintained pursuant to subsection (1) of this section shall be retained at the dealer's address of record for at least one year or for such different period as the department may specify by rule.

Source: L. 97: Entire part added, p. 85, § 1, effective July 1.

25-4-1808. Unlawful acts. (1) Unless otherwise authorized by law, it is unlawful and a violation of this part 18 for any person to:

(a) Perform any of the acts for which certification as a shellfish dealer is required without possessing a valid certification;

(b) Hold oneself out as being so qualified to perform any of the acts for which certification pursuant to this part 18 is required without possessing a valid certification;

(c) Solicit, advertise, or offer to perform any of the acts for which certification under this part 18 is required without possessing a valid certification to perform such acts;

(d) Refuse or fail to comply with the provisions of this part 18;

(e) Refuse or fail to comply with any rules adopted by the department pursuant to this part 18 or to any lawful order issued by the department;

(f) Refuse to comply with a cease-and-desist order issued pursuant to section 25-4-1810;

(g) Willfully make a material misstatement in the application for a certification or in the application for renewal thereof or to the department during an official investigation;

(h) Impersonate any federal, state, county, city and county, or municipal official or inspector;

(i) Aid or abet another in any violation of this part 18 or of any rule adopted pursuant thereto;

(j) Refuse to permit entry or inspection in accordance with section 25-4-1809;

(k) Allow a certification issued pursuant to this part 18 to be used by an uncertificated person; or

(l) Make any misrepresentation or false promise, through advertisements, employees, agents, or otherwise, in connection with the business operations certificated pursuant to this part 18 or for which an application for a certification is pending.

Source: L. 97: Entire part added, p. 85, § 1, effective July 1.

25-4-1809. Inspections - investigations - access - subpoena. (1) The department, upon its own motion or upon the complaint of any person, may make any and all investigations necessary to ensure compliance with this part 18.

(2) The department shall have the right of access, at any reasonable time, during regular working hours and at other times during which activity is evident, to any premises for the purpose of any examination or inspection necessary to enforce any of the provisions of this part 18 or the rules or standards adopted thereunder.

(3) Complaints of record made to the department and the results of the department's investigations may, in the discretion of the department, be closed to public inspection, except to the person in interest, as defined in section 24-72-202 (4), C.R.S., or as provided by court order, during the investigatory period and until dismissed or until notice of hearing and charges are served on the person in interest.

(4) (a) The department shall have full authority to administer oaths and take statements, to issue subpoenas requiring the attendance of witnesses and the production of books, memoranda, papers, and other documents, articles, or instruments, and to compel the disclosure by such witnesses of all facts known to them relative to the matters under investigation.

(b) Upon failure or refusal of any witness to obey any subpoena, the department may petition the district court, and, upon a proper showing, the court may enter an order compelling the witness to appear and testify or produce documentary evidence. Failure to obey such an order of the court shall be punishable as a contempt of court.

Source: L. 97: Entire part added, p. 86, § 1, effective July 1.

25-4-1810. Enforcement. (1) The department or its designee shall enforce the provisions of this part 18.

(2) (a) If the department has reasonable cause to believe a violation of any provision of this part 18 or any rule adopted pursuant to this part 18 has occurred and immediate enforcement is deemed necessary, it may issue a cease-and-desist order, which shall require a person to cease violating any provision of this part 18 or any rule promulgated pursuant to this part 18.

(b) A cease-and-desist order shall set forth the provisions alleged to have been violated, the facts constituting the violation, and the requirement that all violating actions immediately cease.

(c) (I) At any time after service of the order to cease and desist, the person for whom such order was served may request, at such person's discretion, a prompt hearing to determine whether or not such violation has occurred.

(II) A hearing held pursuant to this paragraph (c) shall be conducted in conformance with the provisions of article 4 of title 24, C.R.S., and shall be determined promptly.

(3) If the department possesses sufficient evidence to indicate that a person has engaged in any act or practice constituting a violation of this part 18 or of any rule adopted under this part 18, the department may apply to any court of competent jurisdiction to temporarily or permanently restrain or enjoin the act or practice in question and to enforce compliance

with this part 18 or any rule or order under this part 18. In any such action, the department shall not be required to plead or prove irreparable injury or the inadequacy of the remedy at law. The court shall not require the department to post a bond.

Source: L. 97: Entire part added, p. 87, § 1, effective July 1.

25-4-1811. Disciplinary actions - denial of certification. (1) The department, pursuant to the provisions of article 4 of title 24, C.R.S., may issue letters of admonition or may deny, suspend, refuse to renew, restrict, or revoke any certification authorized under this part 18 if the applicant or certificated person has:

- (a) Refused or failed to comply with any provision of this part 18, any rule adopted under this part 18, or any lawful order of the department;
- (b) Had an equivalent certification denied, revoked, or suspended by any authority;
- (c) Refused to provide the department with reasonable, complete, and accurate information when requested by the department; or
- (d) Falsified any information requested by the department.

(2) In any proceeding held under this section, the department may accept as prima facie evidence of grounds for disciplinary action any disciplinary action taken against a dealer in another jurisdiction if the violation which prompted the disciplinary action in that jurisdiction would be grounds for disciplinary action under this section.

Source: L. 97: Entire part added, p. 87, § 1, effective July 1.

25-4-1812. Civil penalties. (1) Any person who violates any provision of this part 18 or any rule adopted pursuant to this part 18 is subject to a civil penalty, as determined by the department. The maximum penalty shall not exceed fifty dollars per violation.

(2) No civil penalty may be imposed unless the person charged is given notice and opportunity for a hearing pursuant to article 4 of title 24, C.R.S.

(3) If the department is unable to collect such civil penalty or if any person fails to pay all or a set portion of the civil penalty as determined by the department, the department may bring suit to recover such amount plus costs and attorney fees by action in any court of competent jurisdiction.

(4) Before imposing any civil penalty, the department may consider the effect of such penalty on the ability of the person charged to stay in business.

(5) All penalties collected pursuant to this section by the department shall be transmitted to the state treasurer who shall credit the same to the food protection cash fund created in section 25-4-1605.

Source: L. 97: Entire part added, p. 88, § 1, effective July 1.

25-4-1813. Criminal penalties. Any person who violates any of the provisions of section 25-4-1808 commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501 (1), C.R.S.

Source: L. 97: Entire part added, p. 88, § 1, effective July 1. **L. 2002:** Entire section amended, p. 1537, § 267, effective October 1.

PART 19

GULF WAR SYNDROME REGISTRY

25-4-1901. Short title. This part 19 shall be known and may be cited as the “Gulf War Syndrome Registry Act”.

Source: L. 98: Entire part added, p. 711, § 2, effective May 18.

25-4-1902. Definitions. As used in this part 19, unless the context otherwise requires:

(1) "Birth defect" means any physical or mental abnormality or condition, including any susceptibility to any illness or condition other than normal childhood illnesses or conditions.

(2) "Department" means the department of public health and environment.

(3) "Family member" means a spouse or a child of a veteran who served in the gulf war.

(4) "Gulf war syndrome" means the wide range of physical and mental conditions, problems, and illnesses, including birth defects, experienced by veterans and family members that are connected with a veteran's service in the armed forces of the United States during the gulf war.

(5) "Registry" means the gulf war syndrome registry created in section 25-4-1903.

(6) "Veteran" means a person who is a resident of this state, who served on and after August 2, 1990, but prior to December 31, 1991, during the gulf war in the southwest Asia theater of operations, which includes Iraq, Kuwait, Saudi Arabia, the neutral zone between Iraq and Saudi Arabia, Bahrain, Qatar, the United Arab Emirates, Oman, the Gulf of Aden, the Gulf of Oman, the Persian Gulf, the Arabian Sea, the Red Sea, and the airspace above these locations.

Source: L. 98: Entire part added, p. 712, § 2, effective May 18.

25-4-1903. Gulf war syndrome registry - creation - reporting. (1) There is hereby created a statewide gulf war syndrome registry that shall be established and maintained by the department. The registry shall contain the names of veterans and family members of veterans who have been affected by gulf war syndrome as reported by physicians, health care professionals, hospitals, or medical facilities as provided in subsection (2) of this section or as reported by veterans on forms prescribed by the department. The registry shall also contain the names of children with cancer or birth defects who have at least one parent that is a veteran of the gulf war, and who submit information to the registry as provided in subsection (4) of this section.

(2) A physician or other qualified health care professional who has primary responsibility for treating a veteran or a family member of a veteran and who believes the veteran may have been exposed to certain causative agents while serving in the armed forces of the United States during the gulf war shall submit a report to the department on a form provided by the department. If there is no physician or other qualified health care professional having primary responsibility for treating the veteran or the veteran's family member, the hospital or other medical facility treating the veteran or family member shall submit the report to the department. No report shall be submitted pursuant to this subsection (2) unless consent of the veteran or, if the report involves a family member of the veteran, of the affected family member has been obtained. If the report involves a person who is under the age of eighteen years, consent shall be obtained from a parent or legal guardian of the child.

(3) The form provided by the department to veterans and to physicians or other qualified health care professionals, hospitals, or other medical facilities shall request the following information:

(a) Symptoms of the veteran or family member of the veteran that may be related to exposure to causative agents during the gulf war;

(b) Diagnoses of the veteran or family member of the veteran;

(c) Methods of treatment prescribed;

(d) Outcome or results of any treatment prescribed.

(4) The department shall contact the families of any child born after August 2, 1990, who is on the state cancer registry or who has been reported to the department as having birth defects to determine whether either of the two biological parents of such child is a veteran of the gulf war. If either parent did serve, the department shall inform the family of

the child about the registry. If the family consents, the child's name and any symptoms, diagnoses, methods of treatment, and treatment outcomes shall be listed in the registry.

Source: L. 98: Entire part added, p. 712, § 2, effective May 18.

25-4-1904. Gulf war syndrome advisory committee - creation. (1) There is hereby created a gulf war syndrome advisory committee to advise the department on the implementation of the gulf war syndrome registry and to analyze the data collected from the registry. The advisory committee shall consist of eleven members. One of the members shall be the state epidemiologist for the department of public health and environment. The remaining ten members shall be appointed by the governor for terms of three years; except that, of the members first appointed, five shall be appointed for three years and five shall be appointed for two years. Whenever a vacancy exists, the governor shall appoint a member for the remaining portion of the unexpired term. Of the members appointed by the governor, one member shall be a toxicologist, one member shall be a licensed physician who specializes in neurology, one member shall be a licensed physician who specializes in obstetrics and gynecology, one member shall be a licensed physician who specializes in pediatrics, one member shall be a licensed physician who specializes in oncology, one member shall be a member of the Colorado board of veterans affairs, three members shall be veterans, at least two of whom shall be veterans of the gulf war, and one member shall be a member of the public.

(2) The advisory committee shall elect a chairperson and shall meet as often as necessary. Members of the advisory committee shall serve without compensation.

(3) The advisory committee shall have the following powers and duties:

(a) To advise the department on the implementation of the registry;

(b) To assist and advise the department on the kinds of information that should be requested for and compiled in the registry;

(c) To analyze the data collected from the registry and make findings based on the information collected from the registry pursuant to section 25-4-1905;

(d) To monitor studies or other actions that other states and the federal government are taking to address the problems and impacts of the gulf war on veterans and their family members;

(e) To make recommendations about legislation or public health efforts needed to address gulf war syndrome.

Source: L. 98: Entire part added, p. 713, § 2, effective May 18. L. 2000: (3)(c) amended, p. 463, § 9, effective August 2.

25-4-1905. Confidentiality of information collected. (1) The advisory committee shall compile, analyze, and evaluate the information and data submitted to the registry.

(2) All information obtained from or concerning a veteran or an individual on the registry shall be confidential; except that release may be made of such information for statistical purposes in a manner such that no individual person can be identified.

(3) A physician or other qualified health care professional, a hospital, or medical facility that complies with the provisions of this part 19 shall not be held civilly or criminally liable for providing information required by this part 19.

Source: L. 98: Entire part added, p. 714, § 2, effective May 18. L. 2000: (1) amended, p. 462, § 5, effective August 2.

25-4-1906. Gulf war syndrome registry fund. The department is authorized to accept and expend grants, donations, and gifts-in-kind from private and public sources for the purposes of maintaining and publicizing the registry created in this part 19; except that the registry shall not be implemented until sufficient grants, donations, and gifts are obtained to support its implementation. Once sufficient funds are obtained to implement the registry, the department shall contract with a private entity to perform any of its duties concerning

the registry. Any grants, donations, and gifts shall be credited to the gulf war syndrome registry fund, which fund is hereby created in the state treasury. The moneys in said fund shall be subject to annual appropriation by the general assembly for the purpose of implementing the gulf war syndrome registry. All interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any moneys not appropriated shall remain in the fund and shall not be transferred or revert to the general fund of the state at the end of any fiscal year.

PART 20

HEPATITIS C EDUCATION AND SCREENING PROGRAM

25-4-2001. Short title. This part 20 shall be known and may be cited as the “Hepatitis C Program Act”.

Source: L. 99: Entire part added, p. 1067, § 1, effective July 1.

25-4-2002. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that:

(a) Hepatitis C is a silent killer, being largely asymptomatic until irreversible liver damage may have occurred;

(b) Hepatitis C has been characterized by the world health organization as a disease of primary concern to humanity;

(c) Currently, approximately four million five hundred thousand Americans are infected with hepatitis C, and there are approximately thirty thousand new infections occurring each year in the United States;

(d) The center for disease control estimates that approximately twelve thousand individuals die each year due to the consequences of hepatitis C, and this number continues to grow each year;

(e) Hepatitis C is considered such a public health threat that the United States department of health and human services has launched a comprehensive plan to address it, beginning with the identification and notification of the hundreds of thousands of persons inadvertently exposed to hepatitis C through blood transfusion; and

(f) In the absence of a vaccine for hepatitis C, emphasis must be placed on other means of disease awareness and prevention, including but not limited to education of police officers, firefighters, health care professionals, and the general public. This approach may be the only means of halting the spread of this devastating disease.

(2) The general assembly further declares that the purpose of this part 20 is to create and develop a program that will:

(a) Heighten awareness and enhance knowledge and understanding of hepatitis C by disseminating educational materials and information about services and strategies for detection and treatment to patients and the general public;

(b) Promote public awareness and knowledge about the risk factors, the value of early detection, and the options available for the treatment of hepatitis C;

(c) Utilize any available technical assistance from and any educational and training resources and services that have been developed by organizations with appropriate expertise and knowledge of hepatitis C;

(d) Design a model screening process to provide guidelines for health care professionals to use to prevent further transmission of the hepatitis C virus and prevent onset of chronic liver disease caused by hepatitis C by detecting and treating chronic hepatitis C virus infection;

(e) Evaluate existing hepatitis C support services in the community and assess the need for improving the quality and accessibility of these services; and

(f) Provide easy access to clear, complete, and accurate hepatitis C and patient referral services information.

(3) The general assembly further finds, determines, and declares that it is the intent of the general assembly to provide funding for the hepatitis C program created in this part 20 for the fiscal year beginning July 1, 1999, and to review the effectiveness of and the necessity for the hepatitis C program in determining the reasonableness and the amount of future funding, if any.

Source: L. 99: Entire part added, p. 1067, § 1, effective July 1.

25-4-2003. Definitions. As used in this part 20, unless the context otherwise requires:

- (1) "CDC" means the centers for disease control and prevention.
- (2) "Department" means the department of public health and environment.
- (3) "Health care professional" means any person licensed in this state or any other state to practice medicine, chiropractic, nursing, physical therapy, podiatry, dentistry, pharmacy, optometry, or other healing arts. The term includes any professional corporation or other professional entity comprised of such health care providers as permitted by the laws of this state, as well as certified substance abuse counselors.
- (4) "Hepatitis C" means a liver disease caused by the hepatitis C virus and is also known as non-A-non-B hepatitis.
- (5) "Outreach service" means services including, but not limited to, provision of educational materials and information on screening and provision of counseling services.
- (6) "Program" means the hepatitis C program created in this part 20.
- (7) "Screening" means administration of an examination or test exclusively for the purpose of ascertaining the existence of any physiological abnormality that might be indicative of the presence of disease.

Source: L. 99: Entire part added, p. 1069, § 1, effective July 1.

25-4-2004. Powers and duties of executive director - hepatitis C program. (1) The executive director of the department shall design and implement a hepatitis C program to:

(a) Coordinate with local public health officials, health care professionals, public institutions, and community organizations to identify high risk populations, including those associated with currently understood means of transmission, to assist in implementing a model screening process, and to provide information on referral services or to otherwise assist in obtaining treatment for those with hepatitis C infection;

(b) Educate and provide outreach services related to hepatitis C to the general public. At a minimum, public education on these issues shall be designed to:

(I) Provide basic information about the prevalence, transmission, risks, care, and treatment of hepatitis C;

(II) Provide information about co-infection with hepatitis C and the implications of co-infection for other similarly transmitted diseases;

(III) Provide information on screening services available in the community;

(IV) Coordinate with national public education efforts related to the identification and notification of recipients of blood from hepatitis C virus positive donors;

(V) Stimulate interest among and coordinate with community-based organizations to sponsor community forums and to undertake other appropriate community outreach activities; and

(VI) Employ public communication strategies, including the print media, radio, television, video, internet, and any other appropriate form of communication.

(2) The program described in subsection (1) of this section shall be implemented within available appropriations. If available appropriations are inadequate to fund the entire program described in subsection (1) of this section, the program shall be implemented in stages, commencing with the coordination with local public health officials, health care professionals, public institutions and community organizations, as described in paragraph (a) of subsection (1) of this section, and followed by the education of the general public, as described in paragraph (b) of subsection (1) of this section.

(3) The department is authorized to enter into contracts that are necessary for the implementation and operation of the program.

(4) After implementation of subsection (1) of this section, if funding is available, the executive director of the department shall have the authority to implement a system to:

(a) Collect and analyze reports of cases of hepatitis C, without regard to the distinction between chronic and acute;

(b) Investigate all reported cases of hepatitis C and maintain records of possible sources of transmission;

(c) Prepare a statistical report on the numbers and types of reported hepatitis C cases; and

(d) Report cases to the CDC to the extent permitted by the CDC.

(5) Repealed.

Source: L. 99: Entire part added, p. 1069, § 1, effective July 1. L. 2002: (5) repealed, p. 883, § 24, effective August 7.

PART 21

BODY ARTISTS

25-4-2101. Powers and duties of department - rules. In addition to any other powers and duties, the department of public health and environment shall promulgate rules governing the safe and sanitary practice of body art, the safe and sanitary physical environment where body art is performed, and the safe and sanitary conditions of equipment utilized in body art procedures. Nothing in this section shall be construed to prohibit a city, county, or district board of health established pursuant to part 5 of article 1 of this title, or a county or district public health agency established pursuant to part 5 of article 1 of this title, from adopting or enforcing ordinances, resolutions, or rules that impose standards for body art that are at least as stringent as the standards imposed by the rules adopted by the department of public health and environment.

Source: L. 2000: Entire part added, p. 765, § 2, effective May 23. L. 2008: Entire section amended, p. 2053, § 9, effective July 1.

25-4-2102. Penalties for violations. Upon a finding by the department of public health and environment or a local board of health that a body art facility is in violation of any rule adopted pursuant to section 25-4-2101, the department or local board of health may assess a penalty not to exceed two hundred fifty dollars for each day of a violation. Each day of a violation shall be considered a separate offense. The department or local board of health shall consider the degree of danger to the public caused by the violation, the duration of the violation, and whether such facility has committed any similar violations.

Source: L. 2000: Entire part added, p. 766, § 2, effective May 23.

25-4-2103. Parental consent for minors. No body artist shall perform a body art procedure upon a minor unless the body artist has received express consent from the minor's parent or guardian. Failure to obtain such permission before performing body art procedures on a minor shall constitute a petty offense punishable by a fine of two hundred fifty dollars.

Source: L. 2000: Entire part added, p. 766, § 2, effective May 23.

PART 22

HEALTH DISPARITIES GRANT PROGRAM

Cross references: For the legislative declaration contained in the 2005 act adding this part 22, see section 1 of chapter 241, Session Laws of Colorado 2005.

25-4-2201. Legislative declaration. (1) The general assembly hereby finds that:

(a) Although Colorado as a whole is a healthy state, African Americans, Hispanics, and Native Americans, who represent over twenty-five percent of the population, are disproportionately impacted by disease, injury, disability, and death;

(b) Compared to the state average:

(I) African Americans have a twenty-five percent higher death rate from heart disease, a twenty-eight percent higher death rate from stroke, a thirty percent higher death rate from breast cancer, a fifty percent higher death rate from colon cancer, and nearly twice the death rate from diabetes;

(II) Hispanics have approximately twice the incidence of cervical cancer, a fifty percent higher death rate from cervical cancer, and approximately twice the death rate from diabetes;

(III) Hispanics are fourteen and one-half percent less likely to be screened for cervical cancer and both African Americans and Hispanics are, respectively, twenty-eight percent and thirty-nine percent less likely to be screened for colon cancer.

(2) Therefore, the general assembly hereby declares that it is in the best interests of the state to establish a health disparities grant program to provide prevention, early detection, and treatment of cancer and cardiovascular and pulmonary diseases to minority populations.

Source: L. 2005: Entire part added, p. 941, § 29, effective June 2.

25-4-2202. Definitions. As used in this part 22, unless the context otherwise requires:

(1) "Commission" means the minority health advisory commission created in section 25-4-2206.

(2) "Council" means the interagency health disparities leadership council created in section 25-4-2207.

(3) "Department" means the department of public health and environment.

(4) "Office" means the office of health disparities created in section 25-4-2204.

(5) "State board" means the state board of health created in section 25-1-103.

Source: L. 2005: Entire part added, p. 941, § 29, effective June 2. **L. 2007:** Entire section amended, p. 904, § 2, effective May 15.

25-4-2203. Health disparities grant program - rules. (1) There is hereby created in the department the health disparities grant program, referred to in this section as the "grant program", to provide financial support for statewide initiatives that address prevention, early detection, and treatment of cancer and cardiovascular and pulmonary diseases in underrepresented populations. The office shall administer the grant program. The state board shall award grants to selected entities from moneys transferred to the health disparities grant program fund created in section 24-22-117 (2) (f), C.R.S.

(2) The state board shall adopt rules that specify, but are not necessarily limited to, the following:

(a) The procedures and timelines by which an entity may apply for program grants;

(b) Grant application contents, including but not limited to how the program meets at least one of the program criteria specified in section 25-20.5-302 (1);

(c) Criteria for selecting the entities that shall receive grants and determining the amount and duration of the grants;

(d) Reporting requirements for entities that receive grants pursuant to this section;

(e) Criteria for the office and the state board to determine the effectiveness of the programs that receive grants pursuant to this section.

(3) The commission shall review the applications received pursuant to this section and make recommendations to the state board regarding the entities that may receive grants and the amounts of the grants. Within thirty days after receiving the commission's recommendations, the state board shall award grants to the selected entities, specifying the amount and duration of each award. A grant awarded pursuant to this section shall not exceed three years without renewal.

Source: **L. 2005:** Entire part added, p. 942, § 29, effective June 2. **L. 2006:** (1) amended, p. 1747, § 2, effective June 6. **L. 2007:** (1), (2)(e), and (3) amended, p. 908, § 4, effective May 15.

25-4-2204. Office of health disparities - creation. (1) There is hereby created in the department of public health and environment the office of health disparities. The executive director of the department, subject to the provisions of section 13 of article XII of the state constitution, shall appoint the director of the office, who shall be the head of the office.

(2) The office and the director of the office shall exercise their powers and perform their duties and functions specified in this part 22 under the department as if the same were transferred to the department by a **type 2** transfer, as such transfer is defined in the “Administrative Organization Act of 1968”, article 1 of title 24, C.R.S.

Source: **L. 2007:** Entire section added, p. 905, § 3, effective May 15.

25-4-2205. Powers and duties of office of health disparities. (1) The purpose of the office is to serve in a coordinating, educating, and capacity-building role for state and local public health programs and community-based organizations. The office shall be dedicated to eliminating racial, ethnic, and rural health disparities in Colorado by fostering systems change and capacity-building through collaboration with multiple sectors impacting minority health and with input from a variety of multicultural professionals.

(2) The office shall have the following powers, duties, and functions:

(a) Administering and coordinating the health disparities grant program created in section 25-4-2203;

(b) Coordinating with and providing advice to the department;

(c) Publishing data reports documenting health disparities;

(d) Providing education to the public on racial and ethnic health disparities and cultural competence;

(e) Improving interpretation and translation services within public health systems;

(f) Building capacity within communities to offer or expand public health programs to better meet the needs of a diverse population;

(g) Conducting state-level strategic planning on minority health improvement;

(h) Providing technical assistance to the department in carrying out its programs and to county, district, and municipal public health agencies, community-based organizations, and communities in the state;

(i) Promoting workforce diversity within public health systems;

(j) Coordinating and staffing the minority health advisory commission created in section 25-4-2206;

(k) Coordinating and supporting an interagency health disparities leadership council created in section 25-4-2207.

(3) The office shall report to the executive director of the department or to the chief medical officer of the department, at the discretion of the executive director.

Source: **L. 2007:** Entire section added, p. 905, § 3, effective May 15. **L. 2010:** (2)(h) amended, (HB 10-1422), ch. 419, p. 2101, § 113, effective August 11.

25-4-2206. Minority health advisory commission - creation - repeal. (1) There is hereby created in the office the minority health advisory commission. The purpose of the commission is to: Provide a formal mechanism for community members to raise awareness of minority health needs, issues, and resources and to give input on health programming at the level of the executive director of the department; help the department determine culturally innovative data collection strategies; and strengthen collaboration between the department and minority communities to ensure that programs and services meet minority health needs.

(2) (a) The commission shall consist of the following thirteen members, who shall be appointed as follows:

(I) One member of the house of representatives, who shall be appointed by the speaker of the house of representatives;

(II) One member of the senate, who shall be appointed by the president of the senate;

(III) Ten members who represent, to the extent practical, Colorado's ethnic, racial, and geographic diversity, appointed by the executive director of the department. At a minimum, there shall be one member who represents African Americans and Blacks in Colorado, one member who represents Asian Americans and Pacific Islanders in Colorado, one member who represents native American Indians in Colorado, and one member who represents Latinos and Hispanics in Colorado.

(IV) The executive director of the department shall serve as an ex officio member of the commission.

(b) The members of the commission shall serve at the pleasure of the appointing authority. The members of the commission shall serve without compensation, but shall be reimbursed by the department for their actual and necessary expenses incurred in the performance of their duties pursuant to this part 22.

(c) The members of the commission shall elect a chair and vice-chair from among its membership.

(3) The commission shall have the following powers and duties:

(a) Providing a formal mechanism for the public to give input to the department at the level of the executive director of the department;

(b) Advising the executive director of the department and the department on determining culturally innovative data collection strategies;

(c) Strengthening collaboration between the department and minority communities;

(d) Making recommendations to the office and the department on the health disparities grant program created in section 25-4-2203, regarding financial support for local and statewide initiatives that address prevention, early detection, needs assessment, and treatment of cancer, cardiovascular disease, including diabetes, and pulmonary disease in minority populations.

(4) The office shall provide staff to the commission.

(5) This section is repealed, effective July 1, 2017. Prior to the repeal of this section, the commission shall be reviewed as provided for in section 2-3-1203 (3), C.R.S.

Source: L. 2007: Entire section added, p. 906, § 3, effective May 15.

25-4-2207. Interagency health disparities leadership council - creation. (1) There is hereby created in the department within the office the interagency health disparities leadership council. The purpose of the council is to provide leadership, education, and resources to comprehensively eliminate health disparities in Colorado through collaboration, consultation, research, and inclusion.

(2) The council shall consist of the following members:

(a) The executive director or designee of state agencies that impact health disparities, including but not limited to the departments of corrections, education, health care policy and finance, higher education, human services, personnel, and public health and environment and representation from other state agencies as may be requested by the executive director of the department;

(b) Additional members appointed by the executive director that represent other interests and may include but are not limited to representatives from:

(I) The Colorado civil rights commission;

(II) The United States department of health and human services, region VIII office;

(III) One or more member organizations representing local public health agencies;

(IV) An agency representing rural health;

(V) An agency representing community health clinics;

(VI) An agency representing hospitals;

(VII) One or more nonprofit agencies;

(VIII) One or more universities or colleges;

(IX) One or more communities impacted by health disparities;

(c) Up to five additional members appointed by the council from nonprofit agencies or from communities impacted by health disparities.

(3) The members of the council shall serve without compensation.

(4) The members of the council shall elect a chair and vice-chair from among its membership.

PART 23

COLORADO IMMUNIZATION FUND

25-4-2301. Colorado immunization fund - supplemental tobacco litigation settlement moneys account - creation. There are hereby created in the state treasury the Colorado immunization fund and an account within the fund to be known as the supplemental tobacco litigation settlement moneys account. The principal of the portion of the fund that is not the account shall consist of general fund appropriations made by the general assembly to the fund and gifts, grants, or awards received by the department of public health and environment from the federal government or private sources for the fund. The principal of the account shall consist of tobacco litigation settlement moneys transferred by the state treasurer to the account in accordance with section 24-75-1104.5 (1.5) (a) (VII), C.R.S. All interest and income earned on the deposit and investment of moneys in the portion of the fund that is not the account shall be credited to that portion of the fund, and all interest and income earned on the deposit and investment of moneys in the account before July 1, 2011, shall be credited to the account and remain therein until transferred as required by this section. Except as otherwise provided in this section, and subject to annual appropriation by the general assembly to the department, the department shall expend the principal of the fund and the account only for the purpose of immunization and immunization strategies; except that, at the end of the 2007-08 fiscal year and at the end of any fiscal year thereafter, any unexpended and unencumbered moneys in the portion of the fund that is not the account shall remain in that portion of the fund and may be used by the department through the state immunization program to support infant, child, and adolescent vaccination and, at the end of the 2011-12 fiscal year and at the end of each fiscal year thereafter, any unexpended and unencumbered moneys in the account shall be transferred to the general fund, in accordance with section 24-75-1104.5 (1.5) (b), C.R.S.

PART 24

IMMUNIZATION REGISTRY ACT

25-4-2401. Short title. This part 24 shall be known and may be cited as the “Immunization Registry Act”.

Source: L. 2007: Entire part added, p. 659, § 6, effective April 26.

25-4-2402. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) Immunization is one of the most important ways to protect individuals and communities against serious infectious diseases and their consequences, and widespread immunization has virtually eliminated many serious diseases that were once responsible for millions of infections and thousands of deaths each year.

(b) Although immunization rates of infants, children, adolescents, and adults in Colorado have improved over the last several years, there is a need to continue to improve the rates so that fewer individuals are put at risk from vaccine-preventable diseases.

(c) Timely vaccination of children, adolescents, and adults not only protects them against common, sometimes serious, and potentially fatal diseases, but also serves the community as one of the most successful and cost-effective public health tools available for the prevention and spread of these infections, and the vaccines are safe and highly protective, particularly when administered according to recommended schedules.

(d) More than twenty percent of preschool-aged children in Colorado are not fully vaccinated and are at increased risk of contracting and spreading vaccine-preventable diseases.

(e) It is unnecessary for children, adolescents, and adults to be subjected to suffering or death from diseases that are immunization preventable.

(f) In 2005, hospital charges for the care of children with vaccine-preventable diseases exceeded twenty-five million dollars. Additionally, tens of millions of dollars were spent on the costs of the outpatient care of affected children, in addition to the costs of the loss of productivity and absences from work for caregivers due to the absences of children from school.

(g) Over the past three decades, the recommended vaccination schedules for children and adults have become increasingly more complex as vaccines have been combined, new vaccines have been added, and the delivery system has incorporated more manufacturers, distributors, and providers. Additionally, local and national vaccine shortages and distribution errors have resulted in compromised vaccination initiatives.

(h) For Colorado to be consistent with the healthy people 2010 initiative and reach the goal of immunizing ninety percent of all children in the state in a timely and expeditious manner, the Colorado immunization information system must be funded and sustained. The Colorado immunization information system may also provide a secure method for authorized individuals and entities to access information collected by public agencies.

(2) Therefore, the general assembly supports the expansion of the Colorado immunization registry and supports increased access to immunizations for persons in Colorado.

Source: L. 2007: Entire part added, p. 659, § 6, effective April 26.

25-4-2403. Department of public health and environment - powers and duties - immunization tracking system. (1) In order to expand the immunization registry and increase access to immunizations, the department of public health and environment may address:

(a) Mechanisms for maximizing federal funds to purchase, distribute, and deliver vaccines for individuals in Colorado, including, but not limited to, participation in a state purchasing and distribution cooperative and the mechanisms for statewide purchase, distribution, and prioritization to include, but not be limited to, the seasonal influenza vaccine;

(b) Methods to reduce the administrative burden of providing immunizations to individuals in Colorado by reviewing current immunization activities and strategies and epidemiological data related to vaccine-preventable diseases and identifying opportunities to implement best practices for immunizations throughout Colorado using innovative strategies that are population-specific, culturally sensitive, and inclusive; address safety issues; and enhance current services;

(c) Options for Colorado to more effectively purchase, distribute, and deliver vaccines to underinsured and uninsured individuals;

(d) The pursuit of private and public partnerships for funding for the immunization registry infrastructure;

(e) Options for the most effective and cost-effective use of funds that may be available to the department of public health and environment to address vaccine delivery in the state; and

(f) Methods for implementing the findings addressed in paragraphs (a) to (d) of this subsection (1).

(2) To enable the gathering of epidemiological information and investigation and control of communicable diseases, the department of public health and environment may establish a comprehensive immunization tracking system with immunization information gathered by state and local health officials from the following sources:

- (a) Practitioners;
- (b) Clinics;
- (c) Schools;
- (d) Parents, legal guardians, or persons authorized to consent to immunization pursuant to section 25-4-1704;
- (e) Individuals;
- (f) Managed care organizations or health insurance plans in which an individual is enrolled as a member or insured, if such managed care organization or health insurer reimburses or otherwise financially provides coverage for immunizations;
- (g) Hospitals;
- (h) The department of health care policy and financing with respect to individuals who are eligible for coverage under the "Colorado Medical Assistance Act", articles 4, 5, and 6 of title 25.5, C.R.S.; and
- (i) Persons and entities that have contracted with the state pursuant to paragraph (d) of subsection (9) of this section.

(3) Records in the immunization tracking system shall be strictly confidential and shall not be released, shared with any agency or institution, or made public upon subpoena, search warrant, discovery proceedings, or otherwise, except under the following circumstances:

- (a) Medical and epidemiological information may be released in a manner such that no individual person can be identified.
- (b) Immunization records and epidemiological information may be released to the extent necessary for the treatment, control, investigation, and prevention of vaccine-preventable diseases; except that every effort shall be made to limit disclosure of personal identifying information to the minimum amount necessary to accomplish the public health purpose.

(c) Immunization records and epidemiological information may be released to the individual who is the subject of the record, to a parent of a minor individual, to a guardian or person authorized to consent to immunization under section 25-4-1704, to the physician, clinic, hospital, or licensed health care practitioner treating the person who is the subject of an immunization record, to a school in which such person is enrolled, or any entity or person described in paragraph (f), (h), or (i) of subsection (2) of this section.

(4) An officer, employee, or agent of the department of public health and environment or a county, district, or municipal public health agency shall not be examined in any judicial, executive, legislative, or other proceeding as to the existence or content of any individual's report obtained by such department without consent of the individual or the individual's parent or guardian. However, this subsection (4) shall not apply to individuals who are under isolation, quarantine, or other restrictive action taken pursuant to section 25-1.5-102 (1) (c).

(5) (a) An officer, employee, or agent of the department of public health and environment or any other person who violates this section by releasing or making public confidential immunization records or epidemiological information in the immunization tracking system or by otherwise breaching the confidentiality requirements of this section or releasing such information without authorization commits a class 1 misdemeanor and, upon conviction thereof, shall be punished as provided in section 18-1.3-501 (1), C.R.S. The unauthorized release of each record shall constitute a separate offense.

(b) A natural person who, in exchange for money or any other thing of value, violates this section by wrongfully releasing or making public confidential immunization records or epidemiological information in the immunization tracking system or by otherwise breaching the confidentiality requirements of this section or releasing such information without authorization commits a class 1 misdemeanor and, upon conviction thereof, shall be punished as provided in section 18-1.3-501 (1), C.R.S.

(c) A business entity who, in exchange for money or any other thing of value, violates this section by wrongfully releasing or making public confidential immunization records or epidemiological information in the immunization tracking system or by otherwise breaching the confidentiality requirements of this section or releasing such information without authorization shall be assessed a civil penalty of ten thousand dollars per sale of information per subject of such information.

(6) (a) The department of public health and environment or the department's contractor may directly contact the individual who is the subject of immunization records or the individual's parent or legal guardian for the purpose of notifying the individual, parent, or legal guardian if immunizations are due or overdue as indicated by the advisory committee on immunization practices of the United States department of health and human services or the American academy of pediatrics. The department or the department's contractor shall contact the individual, parent, or legal guardian if it is necessary to control an outbreak of or prevent the spread of a vaccine-preventable disease pursuant to section 25-1.5-102 (1) (a) or 25-4-908.

(b) A notice given to an individual or a parent or legal guardian of an individual under eighteen years of age pursuant to this subsection (6) shall also inform the individual, parent, or legal guardian of the option to refuse an immunization on the grounds of medical, religious, or personal belief considerations pursuant to section 25-4-903.

(7) An individual or a parent or legal guardian who consents to the immunization of an infant, child, or student pursuant to part 9 or 17 of this article or this part 24 may exclude immunization information from the immunization tracking system. The individual, parent, or legal guardian may remove such immunization information from the immunization tracking system at any time. The department of public health and environment shall ensure that the process to exclude immunization information from the system is readily available and not burdensome. The physician, licensed health care practitioner, clinic, hospital, or county, district, or municipal public health agency shall inform the individual, parent, or legal guardian of the option to exclude such information from such system and the potential benefits of inclusion in such system. In addition, the physician, licensed health care practitioner, clinic, hospital, or county, district, or municipal public health agency shall inform such parent or legal guardian of a minor individual of the option to refuse an immunization on the grounds of medical, religious, or personal belief considerations pursuant to section 25-4-903. Neither refusing an immunization on the grounds of medical, religious, or personal belief considerations pursuant to section 25-4-903 nor opting to exclude immunization notification information from the immunization tracking system shall, by itself, constitute child abuse or neglect by a parent or legal guardian.

(8) A person licensed to practice medicine pursuant to article 36 of title 12, C.R.S.; a person licensed to practice nursing pursuant to article 38 of title 12, C.R.S.; any other licensed health care practitioner as defined in section 25-4-1703; providers of county nursing services; staff members of health care clinics, hospitals, and offices of private practitioners; county, district, and municipal public health agencies; and all persons and entities listed in subsection (2) of this section are authorized to report to the immunization tracking system and to use the reminder and recall process established by the immunization tracking system.

(9) The department of public health and environment may:

(a) Issue immunization records to individuals, parents, or guardians authorized to consent to immunizations;

(b) Assess the vaccination status of individuals;

(c) Accept any gifts or grants or awards of funds from the federal government or private sources for the implementation and operation of the immunization tracking system, which shall be credited to the immunization fund created in section 25-4-1708; and

(d) Enter into contracts that are necessary for the implementation and operation of the immunization tracking system. A person who enters into a contract pursuant to this paragraph (d) shall only use the information gathered from the immunization tracking system in accordance with this part 24 and shall be subject to all applicable state and federal laws regarding the confidentiality of information.

(10) County, district, and municipal public health agencies and the department of public health and environment shall use the birth certificate of any person to enroll the person in an immunization tracking system. The use of the birth certificate shall be considered an official duty of local health departments and the department of public health and environment.

(11) Physicians, licensed health care practitioners, clinics, schools, licensed child care providers, hospitals, managed care organizations or health insurance plans in which an individual is enrolled as a member or insured, persons that have contracted with the department of public health and environment pursuant to paragraph (d) of subsection (9) of this section, and public health officials may release any immunization records in their possession, whether or not such records are in the immunization tracking system, to the persons or entities specified in subsection (2) of this section to provide treatment for such individual or to provide an accurate and complete immunization record for the individual.

(12) The department of public health and environment shall disseminate information about the immunization tracking system, including providing notification pursuant to subsection (7) of this section to birthing hospitals. The hospitals shall provide the notices to the parents of newborns.

PART 25

CERVICAL CANCER IMMUNIZATION ACT

25-4-2501. Short title. This part 25 shall be known and may be cited as the “Cervical Cancer Immunization Act”.

Source: L. 2007: Entire part added, p. 1346, § 1, effective May 29.

25-4-2502. Definitions. As used in this part 25, unless the context otherwise requires:

- (1) “Board of health” means the state board of health.
- (2) “Cervical cancer vaccine” or “cervical cancer immunization” means the series of vaccines to prevent cervical cancer as determined by the board of health to be necessary to conform to recognized standard medical practices.
- (3) “Department” means the department of public health and environment.
- (4) “FQHC” means a provider designated as a federally qualified health center pursuant to the provisions of 42 U.S.C. sec. 1396d (1) (2) (B).
- (5) “Local public health agency” means a county or district public health agency established pursuant to section 25-1-506.
- (6) “Program” means the cervical cancer immunization program, created in section 25-4-2503.

Source: L. 2007: Entire part added, p. 1346, § 1, effective May 29. **L. 2008:** (5) amended, p. 2054, § 10, effective July 1.

25-4-2503. Cervical cancer immunization program - rules. (1) There is hereby created in the department the cervical cancer immunization program. The department is directed to investigate manners in which the cervical cancer vaccine may be administered in an economical fashion. The state board is authorized to promulgate rules to assist the department in making the vaccine available.

(2) FQHCs are encouraged to enter into agreements with local public health agencies to administer vaccinations to underinsured female minors through a federally recognized vaccination program for children. If a local public health agency enters into an agreement, the agency shall administer vaccinations, including but not limited to cervical cancer

vaccinations, pursuant to the agreement with the FQHC. The department shall pay to a local public health agency the agency's administrative cost for administering a cervical cancer vaccination to an underinsured female entering the sixth grade.

Source: L. 2007: Entire part added, p. 1347, § 1, effective May 29.

25-4-2504. Public awareness campaign - fund. (1) Subject to the moneys being available in the fund created in subsection (2) of this section, on and after January 1, 2008, the department shall conduct a public awareness campaign on cervical cancer immunization and the benefits, disadvantages, and possible side effects of receiving cervical cancer immunization.

(2) There is hereby created in the state treasury the cervical cancer immunization awareness campaign fund, referred to in this section as the "fund". The fund shall consist of any gifts, grants, or donations received by the department pursuant to paragraph (a) of subsection (3) of this section and any moneys appropriated to the fund by the general assembly. Moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of this section. Interest and income derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or any other fund.

(3) (a) The department is authorized to seek and accept gifts, grants, or donations from private or public sources for the purposes of this section.

(b) If, on or before January 1, 2008, the department has received eight hundred thousand dollars or more in gifts, grants, or donations pursuant to paragraph (a) of this subsection (3), there is transferred from the Colorado immunization fund established pursuant to section 25-4-2301 to the fund on January 15, 2008, the sum of one hundred thousand dollars and on or after July 1, 2008, the sum of one hundred thousand dollars.

Editor's note: This part 1 was numbered as article 10 of chapter 66, C.R.S. 1963. For amendments to this part 1 prior to its repeal in 1983, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 2

ENRICHMENT OF FLOUR AND BREAD

25-5-201. Legislative declaration. The purpose of this part 2 is to protect so far as may be possible the health and well-being of the people of this state by providing for the enrichment of certain kinds of flour and bread in order to increase their content of certain essential vitamins and minerals. There will continue to be widespread deficiencies in the diets of our people unless such nutrients are contained in flour, bread, and rolls as provided in this part 2.

Source: L. 49: p. 429, § 1. **CSA:** C. 69, § 125. **CRS 53:** § 66-15-1. **C.R.S. 1963:** § 66-15-1.

25-5-202. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Department" means the department of public health and environment of the state of Colorado.

(2) "Flour" includes and is limited to the foods commonly known in the milling and baking industries as:

(a) White flour, also known as wheat flour or plain flour;

(b) Bromated flour;

(c) Self-rising flour, also known as self-rising white flour or self-rising wheat flour; and

(d) Phosphated flour, also known as phosphated white flour or phosphated wheat flour, which includes whole wheat flour but excludes special flours not used for bread, roll, bun, or biscuit baking, such as specialty cake, pancake, and pastry flours.

(3) "Person" means an individual, a corporation, a partnership, an association, a joint-stock company, a trust, or any group of persons, whether incorporated or not, engaged in the commercial manufacture or sale of flour, white bread, or rolls.

(4) "Rolls" includes plain white rolls and buns of the semibread dough type, namely: Soft rolls, such as hamburger rolls, hot dog rolls, and parker house rolls; and hard rolls, such as Vienna rolls and kaiser rolls. It does not include yeast-raised sweet rolls or sweet buns made with fillings or coatings, such as cinnamon rolls or buns and butterfly rolls.

(5) "White bread" means any bread made with flour, as defined in paragraph (a) of subsection (2) of this section, whether baked in a pan or on a hearth or screen, which is commonly known or usually represented and sold as white bread, including Vienna bread, French bread, and Italian bread.

Source: L. 49: p. 429, § 2. CSA: C. 69, § 126. CRS 53: § 66-15-2. C.R.S. 1963: § 66-15-2. L. 94: (1) amended, p. 2777, § 477, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-203. Content of flour. (1) It is unlawful for any person to manufacture, mix, compound, sell, or offer for sale flour for human consumption in this state unless the following vitamins and minerals are contained in each pound of such flour: Not less than two milligrams and not more than two and five-tenths milligrams of thiamine; not less than one and two-tenths milligrams and not more than one and five-tenths milligrams of riboflavin; not less than sixteen milligrams and not more than twenty milligrams of niacin or niacin amide; not less than thirteen milligrams and not more than sixteen and five-tenths milligrams of iron (Fe), except in the case of self-rising flour which in addition to the above ingredients shall contain not less than five hundred milligrams and not more than one thousand five hundred milligrams of calcium (Ca).

(2) The terms of this section shall not apply to flour sold to distributors, bakers, or other processors if the purchaser furnishes to the seller a certificate, in such form as the department by regulation shall prescribe, certifying that such flour will be:

(a) Resold to a distributor, baker, or other processor;

(b) Used in the manufacture, mixing, or compounding of flour, white bread, or rolls enriched to meet the requirements of this part 2;

(c) Used in the manufacture of products other than flour, white bread, or rolls.

(2.5) Notwithstanding any provision of this section to the contrary, the department shall promulgate rules and regulations which shall establish standards for the production, manufacture, distribution, and sale of flour, white flour, wheat flour, and plain flour. Such rules shall include the requirement that all such flour sold be clearly and distinctly labeled "Flour", "White Flour", "Wheat Flour", or "Plain Flour". All such flour shall be produced, manufactured, distributed, and sold in accordance with such rules and standards; except that the department shall allow the distribution and sale in this state of such flour produced and manufactured in another state if such flour has been produced and manufactured under rules and standards similar to those of the department.

(3) It is unlawful for any purchaser to use or resell the flour so purchased in any manner other than as prescribed in this section.

Source: L. 49: p. 430, § 3. CSA: C. 69, § 127. CRS 53: § 66-15-3. C.R.S. 1963: § 66-15-3. L. 77: (2.5) added, p. 1287, § 1, effective July 1.

25-5-204. Content of white bread or rolls. It is unlawful for any person to manufacture, bake, sell, or offer for sale any white bread or rolls for human consumption in this state unless the following vitamins and minerals are contained in each pound of such bread or

rolls: Not less than one and one-tenth milligrams and not more than one and eight-tenths milligrams of thiamine; not less than seven-tenths milligrams and not more than one and six-tenths milligrams of riboflavin; not less than ten milligrams and not more than fifteen milligrams of niacin or niacin amide; and not less than eight milligrams and not more than twelve and five-tenths milligrams of iron (Fe).

Source: L. 49: p. 430, § 4. CSA: C. 69, § 125. CRS 53: § 66-15-4. C.R.S. 1963: § 66-15-4.

25-5-205. Enforcement of part 2. (1) The department is charged with the duty of enforcing the provisions of this part 2, and it is authorized to make, amend, or rescind rules, regulations, and orders for the efficient enforcement of this part 2.

(2) Whenever the vitamin and mineral requirements set forth in sections 25-5-203 and 25-5-204 are no longer in conformity with the legally established standards governing the interstate shipment of enriched flour and enriched white bread or enriched rolls, the department, in order to maintain uniformity between intrastate and interstate vitamin and mineral requirements for the foods within the provisions of this part 2, is authorized to modify or revise such requirements to conform with amended standards governing interstate shipments.

(3) (a) In the event of findings by the department that there is an existing or imminent shortage of any ingredient required by sections 25-5-203 and 25-5-204 and that because of such shortage the sale and distribution of flour or white bread or rolls may be impeded by the enforcement of this part 2, the department shall issue an order, to be effective immediately upon issuance, permitting the omission of such ingredient from flour or white bread or rolls and, if it is found necessary or appropriate, excepting such foods from labeling requirements until further order of the department. Any such findings may be made without hearing on the basis of factual information supplied to or obtained by the department. Furthermore, the department, on its own motion, may hold a public hearing and, upon receiving the sworn statements of ten or more persons subject to this part 2 that they believe such a shortage exists or is imminent, within twenty days thereafter, shall hold a public hearing with respect thereto at which any interested person may present evidence; and it shall make findings based upon the evidence presented. The department shall publish notice of any such hearing at least ten days prior thereto.

(b) Whenever the department has reason to believe that such shortage no longer exists, it shall hold a public hearing, after at least ten days' notice has been given, at which any interested person may present evidence, and it shall make findings based upon the evidence so presented. If its findings are that such shortage no longer exists, it shall issue an order, to become effective not less than thirty days after publication thereof, revoking such previous order; but undisposed floor stocks of flour on hand at the effective date of such revocation order or flour manufactured prior to such effective date for sale in this state may thereafter be lawfully sold or disposed of.

(4) All orders, rules, and regulations adopted by the department pursuant to this part 2 shall be published in the manner prescribed in subsection (5) of this section and, within the limits specified by this part 2, shall become effective upon such date as the department shall fix.

(5) Whenever under this part 2 publication of any notice, order, rule, or regulation is required, such publication shall be made at least once in at least one daily newspaper of general circulation printed and published in this state.

(6) For the purpose of this part 2, the department, or such officers or employees under its supervision as it may designate, is authorized to take samples for analysis; and to conduct examinations and investigations; and to enter, at reasonable times, any factory, mill, bakery, warehouse, shop, or establishment where flour, white bread, or rolls are manufactured, processed, packed, sold, or held, or any vehicle being used for the transportation thereof; and to inspect any such place or vehicle and any flour, white bread, or rolls therein and all pertinent equipment, materials, containers, and labeling.

25-5-206. Penalty. Any person who violates any of the provisions of this part 2 or the orders, rules, or regulations promulgated by the department under authority thereof is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine for each offense of not more than one hundred dollars or by imprisonment in the county jail for not more than thirty days.

Source: L. 49: p. 432, § 6. CSA: C. 69, § 130. CRS 53: § 66-15-6. C.R.S. 1963: § 66-15-6.

PART 3

MATTRESSES AND BEDDING

25-5-301. Short title. This part 3 shall be known and may be cited as the “Bedding Act”.

Source: L. 41: p. 718, § 18. CSA: C. 78, § 206. CRS 53: § 66-17-17. C.R.S. 1963: § 66-17-17.

25-5-302. Definitions. As used in this part 3, unless the context otherwise requires:

(1) “Bedding” means any quilted pad, packing pad, mattress pad, hammock pad, mattress, comforter, bunk quilt, sleeping bag, box spring, studio couch, pillow, or cushion, any bag or container made of leather, cloth, or any other material, or any other device that is stuffed or filled in whole or in part with any concealed material in addition to the structural units and filling material used therein and its container, all of which can be used by any human being for sleeping or reclining purposes.

(2) “New material” means any material which has not been formerly used in the manufacture of another article or used for any other purpose.

(3) “Person” means any individual, corporation, partnership, or association.

(4) “Previously used material” means any material which has been used in the manufacture of another article or previously used for any other purpose.

(5) “Secondhand” means any article of bedding which has been previously used but not remade before it is offered for resale.

(6) “Sell” and “sold”, in the corresponding tense, include: Sell, offer to sell, or deliver or consign in sale, or possess with intent to sell, deliver or consign in sale, including bedding stored in warehouses for ultimate purpose of sale.

Source: L. 41: p. 713, § 1. CSA: C. 78, § 190. CRS 53: § 66-17-1. C.R.S. 1963: § 66-17-1. L. 90: (1) amended, p. 1315, § 1, effective July 1.

25-5-303. Restrictions. No person shall sell or distribute any bedding or bedding materials which are not clean or which may be deemed injurious to the public’s health.

Source: L. 41: p. 714, § 2. CSA: C. 78, § 191. CRS 53: § 66-17-2. C.R.S. 1963: § 66-17-2. L. 90: Entire section R&RE, p. 1315, § 2, effective July 1.

ANNOTATION

Applied in *Ramos v. Lamm*, 485 F. Supp. 122 (D. Colo. 1979).

25-5-304. Sale of bedding exposed to contagion. (Repealed)

Source: L. 41: p. 714, § 3. CSA: C. 78, § 192. CRS 53: § 66-17-3. C.R.S. 1963: § 66-17-3. L. 90: Entire section repealed, p. 1317, § 8, effective July 1.

25-5-305. Disinfection. (1) No person engaged in manufacturing, remaking, or renovating bedding for sale or distribution shall use any previously used material which since last used has not been disinfected by a method approved by the department of public health and environment.

(2) No person shall knowingly sell any bedding containing animal material, including but not limited to hair, feathers, down, or wool, which has not been disinfected by a method approved by the department of health prior to being incorporated into such bedding.

(3) Repealed.

Source: L. 41: p. 714, § 4. CSA: C. 78, § 193. CRS 53: § 66-17-4. C.R.S. 1963: § 66-17-4. L. 90: (1) and (2) amended and (3) repealed, pp. 1315, 1317, §§ 3, 8, effective July 1. L. 94: (1) amended, p. 2777, § 478, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-306. Receiving bedding to be remade. (Repealed)

Source: L. 41: p. 715, § 5. CSA: C. 78, § 194. CRS 53: § 66-17-5. C.R.S. 1963: § 66-17-5. L. 90: Entire section repealed, p. 1317, § 8, effective July 1.

25-5-307. Tagging. (1) No person shall sell bedding or materials therefor to which is not securely sewn by at least one edge a cloth or clothbacked tag at least two inches by three inches in size.

(2) Upon said tag shall be legibly stamped or printed in English in letters at least one-eighth of an inch high:

(a) If the materials used in the manufacture of the article of bedding to which the label is to be attached are entirely new, the label shall be as follows: "The materials used in the manufacture of this mattress (or other article of bedding) are entirely new."

(b) If the materials used in the manufacture of the article to which the label is to be attached are partially or wholly previously used materials, the label shall be as follows: "The materials used in the manufacture of this mattress (or other article of bedding) are previously used materials and have been disinfected."

(c) If the article to which the label is to be attached is secondhand, the label shall be as follows: "This mattress (or other article of bedding) is secondhand."

(3) In addition to the requirements of subsections (1) and (2) of this section, every label shall bear the name and address of the manufacturer or vendor of the article of bedding to which it is attached and the name of the material used to fill such article of bedding.

(4) Nothing likely to mislead shall appear on said tag. The tag shall contain all statements required by this section, and it shall be sewn to the outside covering of every article of bedding sold, manufactured, or remade.

(5) The tagging requirement of this section shall not apply to any individual selling his own personal articles of bedding to another individual.

25-5-314. Enforcement. The department of public health and environment shall enforce this part 3 upon complaint or upon request by a consumer. The department of public health and environment, as often as necessary, may inspect any place where bedding is made, remade, renovated, or sold or where material is disinfected under this part 3. If the department has reason to believe that any article of bedding is not tagged as required by this part 3, the department has the authority to open the same and examine the materials therein to determine if said filling is as stated on said tag; except that, in opening such bedding, the department shall use reasonable means not to damage the same or destroy the value thereof. The department also has the power to examine any purchase records necessary to determine definitely the kind of material used in said bedding, and the department has the power to seize and hold for evidence any article or material therein possessed or offered for sale contrary to this part 3. The department of public health and environment may thereafter commence an action against any violator pursuant to section 25-5-316.

Source: L. 41: p. 717, § 13. **CSA:** C. 78, § 202. **CRS 53:** § 66-17-13. **C.R.S. 1963:** § 66-17-13. **L. 90:** Entire section amended, p. 1317, § 6, effective July 1. **L. 94:** Entire section amended, p. 2777, § 480, effective July 1.

25-5-316. Penalty for violation. Any person who violates any provision of this part 3 shall be subject to a civil penalty of not more than one thousand dollars. Such penalty shall

be determined and collected by the district court for the judicial district in which such violation occurs upon an action instituted by the department of public health and environment. In determining the amount of any such penalty, the court shall take into account the seriousness of the violation, whether the violation was willful or due to a mistake, the economic impact of the penalty upon the violator, and any other relevant factors. All penalties collected pursuant to this section shall be transmitted to the state treasurer and credited to the general fund. The court may also order that the violator pay any court costs of such action, and the court may order that the violator pay restitution to any person damaged by such violation. Any person damaged by a violation of this part 3 may maintain a civil suit for damages against any violator responsible for such damages.

PART 4

PURE FOOD AND DRUG LAW

Cross references: For authority of the governor in regard to food control, see article 30 of title 35; for destruction of food products, see article 31 of title 35.

25-5-401. Short title. This part 4 shall be known and may be cited as the “Colorado Food and Drug Act”.

Source: L. 57: p. 424, § 1. CRS 53: § 66-22-1. C.R.S. 1963: § 66-20-1.

ANNOTATION

Public policy declared. This part 4 and article 60 of title 35 declare the public policy of Colorado with respect to the protection of the public against the manufacture and sale of food and foodstuffs, including livestock feeds, containing deleterious elements or ingredients which cannot be known or determined by the public. *White v. Rose*, 241 F.2d 94 (10th Cir. 1957).

Duty imposed on livestock feed manufacturers. This part 4 imposes a broad and far-

reaching duty upon manufacturers of livestock feeds for the benefit of those who use the product and who are the real sufferers if the statute is violated. *White v. Rose*, 241 F.2d 94 (10th Cir. 1957).

Negligence per se. To recover under a theory of negligence per se, plaintiff was required to prove that violation of the “Colorado Food and Drug Act” caused her injuries. *Palmer v. A.H. Robins Co., Inc.*, 684 P.2d 187 (Colo. 1984).

25-5-402. Definitions. As used in this part 4, unless the context otherwise requires:

(1) “Advertisement” means all representations disseminated in any manner or by any

means, other than by labeling, for the purpose of inducing, or which are likely to induce, directly or indirectly, the purchase of food, drugs, devices, or cosmetics.

(2) "Color" includes black, white, and intermediate grays.

(3) (a) "Color additive" means a material which:

(I) Is a dye, pigment, or other substance made by a process of synthesis or similar artifice or extracted, isolated, or otherwise derived, with or without intermediate or final change of identity, from a vegetable, animal, mineral, or other source; and

(II) When added or applied to a food, drug, or cosmetic or to the human body or any part thereof, is capable (alone or through reaction with other substance) of imparting color thereto; except that such term does not include any material which is exempted under the federal act.

(b) Nothing in this subsection (3) shall be construed to apply to any pesticide chemical, soil or plant nutrient, or other agricultural chemical solely because of its effect in aiding, retarding, or otherwise affecting, directly or indirectly, the growth or other natural physiological process or produce of the soil and thereby affecting its color, whether before or after harvest.

(4) "Consumer commodity", except as otherwise specifically provided in this subsection (4), means any food, drug, cosmetic, or device. Such term does not include:

(a) Any tobacco or tobacco product;

(b) Any commodity subject to packaging or labeling requirements imposed under article 9 of title 35, C.R.S., being known as the "Pesticide Act", or imposed by the secretary of agriculture under the "Federal Insecticide, Fungicide, and Rodenticide Act", as amended (7 U.S.C. secs. 135-135k), or under the federal "Animal Virus, Serum, Toxin, Antitoxin Act" (21 U.S.C. secs. 151-158);

(c) Any drug subject to the provisions of section 25-5-415 (1) (m) or of 21 U.S.C. sec. 353 (b) (1) or 356;

(d) Any beverage subject to or complying with packaging or labeling requirements imposed under the "Federal Alcohol Administration Act" (27 U.S.C. secs. 201-211); or

(e) Any commodity subject to the provisions of article 27 of title 35, C.R.S., concerning seeds.

(5) "Contaminated with filth" applies to any food, drug, cosmetic, or device not securely protected from dust, dirt, and, as far as may be necessary by all reasonable means, from all foreign or injurious contaminations.

(6) "Cosmetic" means articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body or any part thereof for cleansing, beautifying, promoting attractiveness, or altering the appearance or articles intended for use as a component of any such articles; except that such term does not include soap.

(7) "Department" means the department of public health and environment.

(8) "Device", except when used in subsection (23) of this section and in sections 25-5-403 (1) (j), 25-5-411 (1) (g), 25-5-415 (1) (d), and 25-5-417 (1) (d), means instruments, apparatus, and contrivances, including their components, parts, and accessories, intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals or to affect the structure or any function of the body of man or other animals.

(9) "Drug" means:

(a) Articles recognized in the official United States pharmacopoeia, official homeopathic pharmacopoeia of the United States, official national formulary, or any supplement to any of them;

(b) Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals;

(c) Articles, other than food, intended to affect the structure or any function of the body of man or other animals;

(d) Articles intended for use as a component of any article specified in paragraph (a), (b), or (c) of this subsection (9) but does not include devices or their components, parts, or accessories.

(10) "Federal act" means the "Federal Food, Drug, and Cosmetic Act" (21 U.S.C. sec. 301 et seq., 52 Stat. 1040 et seq.).

(11) "Food" means articles used for food or drink for man or other animals, chewing gum, and articles used for components of any such article.

(12) "Food additive" means any substance, the intended use of which results or may be reasonably expected to result, directly or indirectly, in its becoming a component or otherwise affecting the characteristics of any food (including any substance intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food and including any source of radiation intended for any such use) if such substance is not generally recognized among experts qualified by scientific training and experience to evaluate its safety as having been adequately shown through scientific procedures (or, in the case of a substance used in a food prior to January 1, 1958, through either scientific procedures or experience based on common use in food) to be safe under the conditions of its intended use. The term does not include:

- (a) A pesticide chemical in or on a raw agricultural commodity;
- (b) A pesticide chemical to the extent that it is intended for use or is used in the production, storage, or transportation of any raw agricultural commodity;
- (c) A color additive; or
- (d) Any substance used in accordance with a sanction or approval granted prior to the enactment of the amendment to the federal act known as the "Food Additives Amendment of 1958", the "Poultry Products Inspection Act" (21 U.S.C. secs. 451-470), or the "Meat Inspection Act of March 4, 1907", as amended and extended (21 U.S.C. secs. 71-91).

(13) "Immediate container" does not include package liners.

(14) "Label" means a display of written, printed, or graphic matter upon the immediate container of any article; and by or under the authority of this part 4 a requirement that any word, statement, or other information appear on the label shall not be considered to be complied with unless such word, statement, or other information also appears on the outside container or wrapper, if any, of the retail package of such article or is easily legible through the outside container or wrapper.

(15) "Labeling" means all labels and other written, printed, or graphic matter upon an article or any of its containers or wrappers, or accompanying such article.

(16) "Official compendium" means the official United States pharmacopoeia, official homeopathic pharmacopoeia of the United States, official national formulary, or any supplement to any of them.

(17) "Package" means any container or wrapping in which any consumer commodity is enclosed for use in the delivery or display of that consumer commodity to retail purchasers. The term does not include:

(a) Shipping containers or wrappings used solely for the transportation of any consumer commodity in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors thereof; or

(b) Shipping containers or outer wrappings used by retailers to ship or deliver any commodity to retail customers if such containers or wrappers bear no printed matter pertaining to any particular commodity.

(18) "Person" includes an individual, partnership, corporation, and association.

(19) "Pesticide chemical" means any substance which alone, in chemical combination, or in formulation with one or more other substances is a pesticide within the meaning of section 35-9-102 (21), C.R.S., and which is used in the production, storage, or transportation of raw agricultural commodities.

(20) "Principal display panel" means that part of a label that is most likely to be displayed, presented, shown, or examined under normal and customary conditions of display for retail sale.

(21) "Raw agricultural commodity" means any food in its raw or natural state, including all fruits that are washed, colored, or otherwise treated in their unpeeled natural form prior to marketing.

(22) "Safe", as used in subsection (12) of this section, has reference to the health of man or animal.

(23) If an article is alleged to be misbranded because the labeling is misleading or if an advertisement is alleged to be false because it is misleading, then, in determining whether the labeling or advertisement is misleading, there shall be taken into account all represen-

tations made or suggested by statement, work, design, device, sound, or any combination thereof, and also the extent to which the labeling or advertisement fails to reveal facts material in the light of such representations or material with respect to consequences which may result from the use of the article to which the labeling or advertisement relates under the conditions of use prescribed in the labeling or advertisement thereof or under such conditions of use as are customary or usual.

(24) The representation of a drug, in its labeling or advertisement, as an antiseptic shall be considered to be a representation that it is a germicide, except in the case of a drug purporting to be, or represented as being, an antiseptic for inhibitory use which involves prolonged contact with the body.

(25) The provisions of this part 4 regarding the selling of food, drugs, devices, or cosmetics shall be considered to include the manufacture, production, processing, packing, exposure, offer, possession, and holding of any such article for sale; and the sale, dispensing, and giving of any such article; and the supplying or applying of any such articles in the conduct of any food, drug, or cosmetic establishment.

25-5-403. Offenses. (1) The following acts and the causing thereof within this state are prohibited:

(a) The manufacture, sale, or delivery or the holding or offering for sale of any food, drug, device, or cosmetic that is adulterated or misbranded;

(b) The adulteration or misbranding of any food, drug, device, or cosmetic;

(c) The receipt in commerce of any food, drug, device, or cosmetic that is adulterated or misbranded and the delivery or proffered delivery thereof for pay or otherwise;

(d) The sale, delivery for sale, holding for sale, or offering for sale of any article in violation of section 25-5-412;

(e) The dissemination of any false or misleading advertisement;

(f) The refusal to permit entry, inspection, or the taking of a sample, as authorized by section 25-5-421;

(g) The giving of a false guaranty or undertaking except by a person who relied on a guaranty or undertaking to the same effect signed by and containing the name and address of the person residing in the United States from whom he received in good faith the food, drug, device, or cosmetic;

(h) The removal or disposal of a detained or embargoed article in violation of section 25-5-406;

(i) The alteration, mutilation, destruction, obliteration, or removal of the whole or any part of the labeling of or the doing of any other act with respect to a food, drug, device, or cosmetic which results in such article being adulterated or misbranded, if such act is done while such article is being stored or held for sale;

(j) Forging, counterfeiting, simulating, falsely representing, or without proper authority using any mark, stamp, tag, label, or other identification device required by this part 4 or by regulations promulgated under the provisions of this part 4;

(k) The distribution or causing to be distributed in commerce of any consumer commodity if such commodity is contained in a package or if there is affixed to that commodity a label which does not conform to the provisions of this part 4 and of regulations promulgated pursuant to this part 4; except that this prohibition shall not apply to persons engaged in business as wholesale or retail distributors of consumer commodities except to the extent that such persons:

(I) Are engaged in the packaging or labeling of such commodities; or

(II) Prescribe or specify by any means the manner in which such commodities are packaged or labeled;

(1) The using by any person to his own advantage or the revealing, other than to the executive director of the department or his authorized representative or to the courts, when relevant in any judicial proceeding under this part 4, of any information acquired under authority of this part 4 concerning any method or process which as a trade secret is entitled to protection.

(2) It is prohibited for any person to sell, give, or in any way furnish to another person who is under the age of twenty-one years any confectionery which contains alcohol in excess of one-half of one percent by volume.

(3) The provisions of this section shall not apply to a medical marijuana center or a medical-marijuana-infused products manufacturer licensed pursuant to article 43.3 of title 12, C.R.S., that manufactures or sells a food product that contains medical marijuana so long as the food product is labeled as containing medical marijuana and the label specifies that the product is manufactured without any regulatory oversight for health, safety, or efficacy, and that there may be health risks associated with the consumption or use of the product.

Source: L. 57: p. 426, § 3. CRS 53: § 66-22-3. C.R.S. 1963: § 66-20-3. L. 70: p. 199, § 2. L. 89: (2) added, p. 708, § 3, effective July 1. L. 2010: (3) added, (HB 10-1284), ch. 355, p. 1684, § 3, effective July 1.

ANNOTATION

Common-law offense. The selling of unwholesome provisions to be used for human consumption was an indictable offense at common law. *Ferch v. People*, 101 Colo. 471, 74 P.2d 712 (1937).

Duty to warn where product may produce allergic reaction. Where a cosmetic contains an ingredient to which a substantial number of the population are allergic, and the ingredient is one whose danger is not generally known or which the consumer would reasonably not expect to find in the product, the seller is required to give warning against it, if he has knowledge, or by the application of reasonably developed human skill and foresight should have knowledge, of

the presence of the ingredient and the danger. *Howard v. Avon Prods., Inc.*, 155 Colo. 444, 395 P.2d 1007 (1964).

The duty to warn need not be predicated upon actual knowledge only, but there must be reasonable foreseeability of the danger from the product to sensitive users. *Howard v. Avon Prods., Inc.*, 155 Colo. 444, 395 P.2d 1007 (1964).

Misbranding prohibition. The "Colorado Food and Drug Act" prohibition against misbranding applied to an intrauterine device distributed by prescription through a physician to the lay public. *Palmer v. A.H. Robins Co. Inc.*, 684 P.2d 187 (Colo. 1984).

25-5-404. Injunction. In addition to the remedies provided in this part 4, the department is authorized to apply to the district court of the district wherein the defendant resides or has his place of business for, and such court shall have jurisdiction upon hearing and for cause shown to grant, a temporary or permanent injunction restraining any person from violating any provision of section 25-5-403, irrespective of whether or not there exists an adequate remedy at law.

Source: L. 57: p. 427, § 4. CRS 53: § 66-22-4. C.R.S. 1963: § 66-20-4.

25-5-405. Penalties. (1) Any person who violates any of the provisions of section 25-5-403 (1) is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment; but, if the violation is committed after a conviction of such person under this section has become final, such person shall be subject to a fine of not more than two thousand dollars, or to imprisonment for not more than one year, or to both such fine and imprisonment for each succeeding offense. Each violation shall be considered a separate offense.

(2) No person shall be subject to the penalties of subsection (1) of this section for having violated section 25-5-403 (1) (a) or (1) (c) if he establishes a valid guaranty or undertaking signed by and containing the name and address of the person residing in the

United States from whom he received in good faith the article to the effect that such article is not adulterated or misbranded within the meaning of this part 4, designating this part 4.

(3) No publisher, radio-broadcast licensee, television licensee, or agency or medium for the dissemination of an advertisement, except the manufacturer, packer, distributor, or seller of the article to which a false advertisement relates, shall be liable under this section by reason of the dissemination by him of such false advertisement unless he refuses, on the request of the department, to furnish the department the name and post-office address of the manufacturer, packer, distributor, seller, or advertising agency residing in the United States who caused him to disseminate such advertisement.

(4) Any person who violates section 25-5-403 (2) is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than seven hundred fifty dollars.

Source: L. 57: p. 427, § 5. CRS 53: § 66-22-5. C.R.S. 1963: § 66-20-5. L. 70: p. 213, § 17. L. 89: (4) amended, p. 709, § 4, effective July 1.

25-5-406. Tagging articles misbranded or adulterated. (1) Whenever a duly authorized agent of the department finds or has probable cause to believe that any food, drug, device, or cosmetic is adulterated or misbranded within the meaning of this part 4, he shall affix to such article a tag or other appropriate marking giving notice that such article is, or is suspected of being, adulterated or misbranded and has been detained or embargoed and warning all persons not to remove or dispose of such article by sale or otherwise until provision for removal or disposal is given by the department or such agent or the court. No person shall remove or dispose of such embargoed article by sale or otherwise without the permission of the department or its agent or, after summary proceedings have been instituted, without permission from the court. If the embargo is removed by the department or by the court, neither the department nor the state shall be held liable for damages because of such embargo in the event that the court finds that there was probable cause for the embargo.

(2) When an article detained or embargoed under subsection (1) of this section has been found by such agent to be adulterated or misbranded, he shall petition the judge of the district court in whose jurisdiction the article is detained or embargoed for an order for condemnation of such article. When such agent finds that an article so detained or embargoed is not adulterated or misbranded, he shall remove the tag or other marking.

(3) If the court finds that a detained or embargoed article is adulterated or misbranded, such article shall, after entry of the decree, be destroyed at the expense of the claimant thereof, under the supervision of such agent, and all court costs and fees and storage and other proper expense shall be taxed against the claimant of such article or his agent; except that, when the adulteration or misbranding can be corrected by proper labeling or processing of the article, the court, after entry of the decree and after such costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that such article shall be so labeled or processed, has been executed, may by order direct that such article be delivered to the claimant thereof for such labeling or processing under the supervision of an agent of the department. The expense of such supervision shall be paid by the claimant. Such bond shall be returned to the claimant of the article on representation to the court by the department that the article is no longer in violation of this part 4 and that the expenses of such supervision have been paid.

(4) Whenever the department or any of its authorized agents find in any room, building, vehicle of transportation, or other structure any meat, seafood, poultry, vegetable, fruit, or other perishable articles which are unsound or contain any filthy, decomposed, or putrid substance or which may be poisonous or deleterious to health or otherwise unsafe, the same being hereby declared to be a nuisance, the department or its authorized agent shall forthwith condemn or destroy the same or in any other manner render the same unsalable as human food.

Source: L. 57: p. 428, § 6. CRS 53: § 66-22-6. C.R.S. 1963: § 66-20-6. L. 64: p. 273, § 179.

25-5-407. Duties of district attorney. It is the duty of each district attorney to whom the department reports any violation of this part 4 to cause appropriate proceedings to be instituted in the proper courts without delay and to be prosecuted in the manner required by law.

Source: L. 57: p. 429, § 7. CRS 53: § 66-22-7. C.R.S. 1963: § 66-20-7.

25-5-408. Discretion as to warning. Nothing in this part 4 shall be construed as requiring the department to report, for the institution of proceedings under this part 4, minor violations of this part 4 whenever the department believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

Source: L. 57: p. 429, § 8. CRS 53: § 66-22-8. C.R.S. 1963: § 66-20-8.

25-5-409. Regulations. (1) Definitions and standards of identity, quality, and fill of container for any food adopted under authority of the federal act are the definitions and standards of identity, quality, and fill of container in this state. However, when, in its judgment, such action will promote honesty and fair dealing in the interest of consumers, the department may promulgate additional regulations establishing definitions and standards of identity, quality, and fill of container for foods which are not subject to any federal regulations. Any definition or standard of identity, quality, or fill of container promulgated under this subsection (1) which is in addition to federal definitions and standards shall constitute a regulation of the department, and it shall be subject to the requirements of section 25-5-420 concerning the procedures for promulgating such regulations. The department may promulgate amendments to any federal or state regulations which set definitions and standards of identity, quality, and fill of container for foods in the same manner as is provided for their adoption.

(2) Temporary permits granted under the federal act for interstate shipment of experimental packs of food varying from the requirements of federal definitions and standards of identity are automatically effective in this state under the conditions provided in such permits. The department may issue additional permits if they are necessary to the completion or conclusiveness of an otherwise adequate investigation and if the interests of consumers are safeguarded. Such permits are subject to the terms and conditions the department may prescribe by regulation.

Source: L. 57: p. 429, § 9. CRS 53: § 66-22-9. C.R.S. 1963: § 66-20-9. L. 70: p. 199, § 3.

Cross references: For rule-making and licensing procedures, see article 4 of title 24.

25-5-410. Definitions of “adulterated”. (1) A food is deemed to be adulterated:

(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but, in case the substance is not an added substance, such food shall not be considered adulterated under this paragraph (a) if the quantity of such substance in such food does not ordinarily render it injurious to health;

(b) (I) If it bears or contains any added poisonous or added deleterious substance which is unsafe within the meaning of section 25-5-413; except that a pesticide chemical in or on a raw agricultural commodity, a food additive, or a color additive shall not be deemed a poisonous or deleterious substance within the meaning of this paragraph (b);

(II) If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of section 25-5-413 (1); but, if a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or tolerance prescribed under section 25-5-413 (2) and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food, notwithstanding the provisions of section 25-5-413 (1) and this subparagraph (II), shall not be

deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of such residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity; or

(III) If it is, or it bears or contains any food additive which is, unsafe within the meaning of section 25-5-413 (1);

(c) If it consists in whole or in part of a diseased, contaminated, filthy, putrid, or decomposed substance or if it is otherwise unfit for food;

(d) If it is produced, prepared, packed, or held under unsanitary conditions whereby it may be contaminated with filth or rendered diseased, unwholesome, or injurious to health;

(e) If it is, in whole or in part, the product of a diseased animal or an animal which has died otherwise than by slaughter or which has been fed upon the uncooked offal from a slaughterhouse;

(f) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;

(g) If it has been intentionally subjected to radiation unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to section 25-5-413 or 21 U.S.C. sec. 348;

(h) (I) If any valuable constituent has been in whole or in part omitted or abstracted therefrom;

(II) If any substance has been substituted wholly or in part therefor;

(III) If damage or inferiority has been concealed in any manner;

(IV) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is;

(i) If it is confectionery and:

(I) Has partially or completely imbedded therein any nonnutritive object; but this subparagraph (I) shall not apply in the case of any nonnutritive object if, in the judgment of the department as provided by regulations, such object is of practical functional value to the confectionery product and does not render the product injurious or hazardous to health;

(II) Bears or contains any alcohol other than alcohol not in excess of six and twenty-five hundredths percent by volume or five percent by weight; or

(III) Bears or contains any nonnutritive substance; but this subparagraph (III) shall not apply to a safe nonnutritive substance which is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storage of such confectionery if the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of this part 4; and, furthermore, the department, for the purpose of avoiding or resolving uncertainty as to the application of this subparagraph (III), may issue regulations allowing or prohibiting the use of particular nonnutritive substances;

(j) If it is, or it bears or contains a color additive which is, unsafe within the meaning of section 25-5-413 (1) or the federal act;

(k) If it is chopped or ground beef or hamburger and it contains any meat other than the voluntary striated muscle of beef, or the total fat content, derived solely from beef, is in excess of thirty percent, or it contains any substance other than those which the department has by regulation declared to be permitted optional ingredients;

(l) If it is fresh meat or a fresh meat product, or fresh poultry, parts thereof, or fresh poultry products, and contains any antiseptic or chemical preservative;

(m) If it is meat or a meat product and contains any artificial coloring or if it is contained in an artificially colored casing or wrapper; except that the department may by regulation establish the conditions of the use of artificial color in casings and wrappers;

(n) If it is pork sausage or pork breakfast sausage and the total fat content is in excess of fifty percent.

Source: L. 57: p. 430, § 10. CRS 53: § 66-22-10. L. 61: p. 171, § 2. C.R.S. 1963: § 66-20-10. L. 70: pp. 200, 201, §§ 4, 5. L. 89: (1)(i)(II) amended, p. 709, § 5, effective July 1.

25-5-411. Definitions of “misbranding”. (1) A food shall be deemed to be misbranded:

- (a) If its labeling is false or misleading in any particular;
- (b) If its labeling or packaging fails to conform to the requirements of section 25-5-419;
- (c) If it is offered for sale under the name of another food;
- (d) If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word “imitation” and, immediately thereafter, the name of the food imitated;

- (e) If its container is so made, formed, or filled as to be misleading;
- (f) If in package form, unless it bears a label containing:
 - (I) The name and place of business of the manufacturer, packer, or distributor; and
 - (II) An accurate statement of the net quantity of the contents in terms of weight, measure, or numerical count, which statement shall be separately and accurately stated in a uniform location upon the principal display panel of the label; but, as to such terms of quantity, reasonable variations shall be permitted, and exemptions as to small packages shall be established by regulation prescribed by the department;

- (g) If any word, statement, or other information required by or under authority of this part 4 to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

- (h) If it purports to be or is represented as a food for which a definition and standard of identity is prescribed by regulations as provided by section 25-5-409, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard and, insofar as may be required by such regulations, the common names of optional ingredients (other than spices, flavoring, and coloring) present in such food;

- (i) If it purports to be or is represented as:

- (I) A food for which a standard of quality has been prescribed by regulations as provided by section 25-5-409 and its quality falls below such standard, unless its label bears, in such manner and form as regulations specify, a statement that it falls below such standard; or

- (II) A food for which a standard of fill of container is prescribed by regulations as provided by section 25-5-409 and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard;

- (j) If it is not subject to the provisions of paragraph (h) of this section, unless it bears labeling clearly giving the common or usual name of the food, if any, and, if it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings, other than those sold as such, may be designated as spices, flavorings, and colorings without naming each; but, to the extent that compliance with the requirements as to such multiple names is impractical or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the department. The requirements of this paragraph (j) shall not apply to food products which are packaged at the direction of purchasers at retail at the time of sale whose ingredients are disclosed to the purchasers by other means in accordance with regulations promulgated by the department.

- (k) If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the department determines to be and by regulations prescribes as necessary in order to fully inform purchasers as to its value for such uses;

- (l) If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; but, to the extent that compliance with the requirements of this paragraph (l) is impracticable, exemptions shall be established by regulations promulgated by the department. The provisions of this paragraph (l) and paragraphs (h) and (j) of this subsection (1) with respect to artificial coloring do not apply to butter, cheese, or ice cream. The provisions of this paragraph (l) with respect to chemical

preservatives do not apply to a pesticide chemical when used in or on a raw agricultural commodity which is the produce of the soil.

(m) If it is a product intended as an ingredient of another food and, when used according to the directions of the purveyor, will result in the final food product being adulterated or misbranded;

(n) If it is meat imported from without the boundaries of the United States or if it is a meat product containing such meat, unless it bears labeling stating the fact that it is imported meat or that it contains imported meat. Any person who sells or offers for sale in this state any meat imported from without the boundaries of the United States, or any meat product containing such imported meat, without labeling such meat or meat product stating that it is imported, or contains imported meat, is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than one hundred dollars nor more than one thousand dollars, or by imprisonment in the county jail for not less than thirty days nor more than ninety days, or by both such fine and imprisonment.

(o) If it is a raw agricultural commodity which is the produce of the soil, bearing or containing a pesticide chemical applied after harvest, unless the shipping container of such commodity bears labeling which declares the presence of such chemical in or on such commodity and the common or usual name and the function of such chemical; except that no such declaration shall be required while such commodity, having been removed from the shipping container, is being held or displayed for sale at retail out of such container in accordance with the custom of the trade;

(p) If it is a color additive, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive as may be contained in regulations issued pursuant to the provisions of the federal act.

(2) Foods which, in accordance with the practice of the trade, are to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed shall be exempt from any labeling requirements under this section if such food is not adulterated or misbranded under any provision of this part 4 upon removal from such processing, labeling, or repacking establishment. Regulations adopted under authority of the federal act (21 U.S.C. sec. 345) relating to such exemptions are automatically effective in this state. The department may promulgate additional regulations or amendments to existing regulations concerning such exemptions, but the department may not promulgate any regulation which has the effect of allowing any food which is subject to federal labeling requirements to be exempt from labeling requirements under the law of this state.

Source: L. 57: p. 431, § 11. CRS 53: § 66-22-11. L. 61: p. 416, § 1. L. 63: p. 539, § 1. C.R.S. 1963: § 66-20-11. L. 70: p. 201, § 6.

25-5-412. Issuance of permits. (1) Whenever the department finds after investigation that the distribution in this state of any class of food may, by reason of contamination with microorganisms during manufacture, processing, or packing thereof in any locality, be injurious to health and that such injurious nature cannot be adequately determined after such articles have entered commerce, it, then and in such case only, shall promulgate regulations providing for the issuance to manufacturers, processors, or packers of such class of food in such locality of permits to which shall be attached such conditions governing the manufacture, processing, or packing of such class of food for such temporary period of time as may be necessary to protect the public health; and, after the effective date of such regulations and during such temporary period, no person shall introduce or deliver for introduction into commerce any such food manufactured, processed, or packed by any such manufacturer, processor, or packer, unless such manufacturer, processor, or packer holds a permit issued by the department as provided by such regulations.

(2) The department is authorized to suspend immediately upon notice any permit issued under authority of this section if it is found that any of the conditions of the permit have been violated. The holder of a permit so suspended shall be privileged to apply at any time for the reinstatement of such permit, and the department shall, immediately after prompt hearing and inspection of the establishment, reinstate such permit if it is found that adequate

measures have been taken to comply with and maintain the conditions of the permit as originally issued or as amended.

(3) Any officer or employee duly designated by the department shall have access to any factory or establishment, the operator of which holds such a permit from the department, for the purpose of ascertaining whether or not the conditions of the permit are being complied with, and denial of access for such inspection shall be grounds for suspension of the permit until such access is freely given by the operator.

Source: L. 57: p. 433, § 12. CRS 53: § 66-22-12. C.R.S. 1963: § 66-20-12.

25-5-413. Limit of adulteration - rule or regulation. (1) Any added poisonous or deleterious substance, food additive, pesticide chemical in or on a raw agricultural commodity, or color additive, with respect to any particular use or intended use, shall be deemed unsafe for the purpose of application of section 25-5-410 (1) (b) with respect to any food, section 25-5-414 (1) (a) to (1) (f) with respect to any drug or device, or section 25-5-416 (1) (a) with respect to any cosmetic, unless there is in effect a regulation pursuant to section 25-5-419 or subsection (2) of this section limiting the quantity of such substance and the use or intended use of such substance is within the limits prescribed by such regulation. While such a regulation relating to such substance is in effect, a food, drug, or cosmetic, by reason of bearing or containing such substance in accordance with the regulations, shall not be considered adulterated within the meaning of section 25-5-410 (1) (b), 25-5-414 (1) (a) to (1) (f), or 25-5-416 (1) (a).

(2) The department, whenever public health or other considerations so require, is authorized to adopt, amend, or repeal regulations upon its own motion or upon the petition of any interested party, whether or not in accordance with regulations promulgated under the federal act. Such regulations may prescribe tolerances for any added poisonous or deleterious substances, food additives, pesticide chemicals in or on raw agricultural commodities, or color additives, including but not limited to zero tolerances. The department may prescribe exemptions from tolerances in the case of pesticide chemicals in or on raw agricultural commodities. The department may also promulgate regulations prescribing the conditions under which a food additive or a color additive may be safely used and exemptions if such food additive or color additive is to be used solely for investigational or experimental purposes. It shall be incumbent upon any petitioner to establish that a necessity exists for such regulation and that its effect will not be detrimental to the public health. If the data furnished by the petitioner are not sufficient to allow the department to determine whether such regulation should be promulgated, the department may require additional data to be submitted, and failure to comply with the request shall be sufficient grounds for denial of the request. In adopting, amending, or repealing regulations under this section, the department shall consider, among other relevant factors, the following, which the petitioner, if any, shall furnish:

(a) The name and all pertinent information concerning such substance, including, where available, its chemical identity and composition; a statement of the conditions of the proposed use, including directions, recommendations, suggestions, and specimens of proposed labeling; all relevant data bearing on the physical or other technical effects; and the quantity required to produce such effect;

(b) The probable composition of any substance formed in or on a food, drug, or cosmetic resulting from the use of such substance;

(c) The probable consumption of such substance in the diet of man and animals taking into account any chemically or pharmacologically related substance in such diet;

(d) Safety factors which, in the opinion of experts qualified by scientific training and experience to evaluate the safety of such substances for the uses for which they are proposed to be used, are generally recognized as appropriate for the use of animal experimentation data;

(e) The availability of any needed practicable methods of analysis for determining the identity and quantity of:

(I) Such substance in or on an article;

- (II) Any substance formed in or on such article because of the use of such substance; and
- (III) The pure substance and all intermediates and impurities;
- (f) Facts supporting a contention that the proposed use of such substance will serve a useful purpose.

Source: L. 57: p. 433, § 13. CRS 53: § 66-22-13. C.R.S. 1963: § 66-20-13. L. 70: p. 203, § 7.

- 25-5-414. Adulterations.** (1) A drug or device shall be deemed to be adulterated:
- (a) If it consists in whole or in part of any filthy, putrid, or decomposed substance;
 - (b) If it has been produced, prepared, packed, or held under unsanitary conditions under which it may have been contaminated with filth or rendered injurious to health;
 - (c) If it is a drug and the methods used in, or the facilities or controls used for, its manufacture, processing, packing, or holding do not conform to or are not operated or administered in conformity with current good manufacturing practice to assure that such drug meets the requirements of this part 4 as to safety and that such drug has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess;
 - (d) If it is a drug and its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;
 - (e) If it is a drug and it bears or contains, for purposes of coloring only, a color additive which is unsafe within the meaning of the federal act or section 25-5-413 (1);
 - (f) If it is a color additive, the intended use of which in or on drugs is for purposes of coloring only, and is unsafe within the meaning of the federal act or section 25-5-413 (1);
 - (g) If it purports to be or is represented as a drug, the name of which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standard set forth in such compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in such compendium or, in case of the absence or inadequacy of such tests or methods of assay, those prescribed under authority of the federal act. No drug defined in an official compendium shall be deemed to be adulterated under this paragraph (g) because it differs from the standard of strength, quality, or purity therefor set forth in such compendium if its difference in strength, quality, or purity from such standard is plainly stated on its label. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States, it shall be subject to the requirements of the United States pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the homeopathic pharmacopoeia of the United States and not to those of the United States pharmacopoeia.
 - (h) If it is not subject to the provisions of paragraph (g) of this subsection (1) and its strength differs from, or its purity or quality falls below, that which it purports or is represented to possess;
 - (i) If it is a drug and any substance has been mixed or packed therewith so as to reduce its quality or strength or substituted wholly or in part therefor.

- 25-5-415. Misbranding.** (1) A drug or device shall be deemed to be misbranded:
- (a) If its labeling is false or misleading in any particular;
 - (b) If its labeling or packaging fails to conform with the requirements of section 25-5-419;
 - (c) If in package form, unless it bears a label containing:
 - (I) The name and place of business of the manufacturer, packer, or distributor; and
 - (II) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count, which statement shall be separately and accurately stated in a uniform

location upon the principal display panel of the label, except as exempted by section 25-5-402 (4) (c); but, as to such terms of quantity, reasonable variations shall be permitted, and exemptions as to small packages shall be established, by regulation prescribed by the department or issued under the federal act;

(d) If any word, statement, or other information required by or under authority of this part 4 to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;

(e) (I) If it is a drug, unless:

(A) Its label bears, to the exclusion of any other nonproprietary name (except the applicable systematic chemical name or the chemical formula), the established name, as defined in subparagraph (II) of this paragraph (e), of the drug, if such there be; and, in case it is fabricated from two or more ingredients, the established name and quantity of each active ingredient, including the kind and quantity or proportion of any bromides, ether, chloroform, acetanilid, acetophenetidin, amidopyrine, antipyrine, atropine, hyoscyne, hyoscyamine, arsenic, digitalis, digitalis glucosides, mercury, ouabain, strophanthin, strychnine, thyroid, or any derivative or preparation of any such substances contained therein; except that the requirement for stating the quantity of the active ingredients, other than the quantity of those specifically named in this sub-subparagraph (A), shall apply only to prescription drugs; and

(B) For any prescription drug, the established name of such drug or ingredient, as the case may be, on such label (and on any labeling on which a name for such drug or ingredient is used) is printed prominently and in type at least half as large as that used thereon for any proprietary name or designation for such drug or ingredient. To the extent that compliance with the requirements of this sub-subparagraph (B) and sub-subparagraph (A) of this subparagraph (I) as to fabricated drugs is impracticable, exemptions shall be established by regulations promulgated by the department or under the federal act.

(II) As used in this paragraph (e), the term "established name", with respect to a drug or ingredient thereof, means:

(A) The applicable official name designated pursuant to the federal act; or

(B) If there is no such name and such drug or such ingredient is an article recognized in an official compendium, then the official title thereof in such compendium; or

(C) If neither sub-subparagraph (A) nor sub-subparagraph (B) of this subparagraph (II) applies, then the common or usual name, if any, of such drug or of such ingredient;

(D) Where sub-subparagraph (B) of this subparagraph (II) applies to an article recognized in the United States pharmacopoeia and in the homeopathic pharmacopoeia under different official titles, the official title used in the United States pharmacopoeia shall apply unless it is labeled and offered for sale as a homeopathic drug, in which case the official title used in the homeopathic pharmacopoeia shall apply.

(f) Unless its labeling bears adequate directions for use and such adequate warnings against use in those pathological conditions or by children where its use may be dangerous to health or against unsafe dosage or methods or duration of administration or application, in such manner and form as are necessary for the protection of users; but, where any requirement as to such adequate directions for use, as applied to any drug or device, is not necessary for the protection of the public health, the department shall promulgate regulations exempting such drug or device from such requirement, and articles exempted under regulations issued under the federal act shall also be exempt;

(g) If it purports to be a drug, the name of which is recognized in an official compendium, unless it is packaged and labeled as prescribed therein; but the method of packing may be modified with the consent of the department or if consent is obtained under the federal act. Whenever a drug is recognized in both the United States pharmacopoeia and the homeopathic pharmacopoeia of the United States, it shall be subject to the requirements of the United States pharmacopoeia with respect to packaging and labeling unless it is labeled and offered for sale as a homeopathic drug, in which case it shall be subject to the provisions of the homeopathic pharmacopoeia of the United States and not to those of the United States pharmacopoeia. In the event of inconsistency between the requirements of

this paragraph (g) and those of paragraph (e) of this subsection (1) as to the name by which the drug or its ingredients are designated, the requirements of paragraph (e) of this subsection (1) shall prevail.

(h) If it is found by the department or under the federal act to be a drug liable to deterioration, unless it is packaged in such form and manner and its label bears a statement of such precautions as the regulations issued by the department or under the federal act require as necessary for the protection of public health. No such regulation shall be established for any drug recognized in an official compendium until the department has informed the appropriate body charged with the revision of such compendium of the need for such packaging or labeling requirements and such body has failed within a reasonable time to prescribe such requirements.

(i) (I) If it is a drug and its container is so made, formed, or filled as to be misleading; or

(II) If it is an imitation of another drug; or

(III) If it is offered for sale under the name of another drug;

(j) If it is dangerous to health when used in the dosage or with the frequency or duration prescribed, recommended, or suggested in the labeling thereof;

(k) If its labeling represents it to have any effect in albuminuria, appendicitis, arteriosclerosis, arthritis, baldness, blood poison, bone disease, Bright's disease, cancer, carbuncles, cholecystitis, diabetes, diphtheria, dropsy, erysipelas, gallstones, heart and vascular diseases, high blood pressure, mastoiditis, measles, meningitis, mumps, nephritis, otitis media, paralysis, pneumonia, poliomyelitis (infantile paralysis), prostate gland disorders, pyelitis, rheumatism, scarlet fever, sexual impotence, sexually transmitted infection, sinus infection, smallpox, tuberculosis, tumors, typhoid, or uremia, and shall also be deemed to be false; except that no labeling in violation of paragraphs (a) and (b) of this subsection (1) shall be deemed to be false under this paragraph (k) if it is disseminated only to members of the medical, dental, chiropractic, or veterinary professions or is disseminated only for the purpose of public health education by persons not commercially interested, directly or indirectly, in the sale of such drugs or devices; but, if the department determines that an advance in medical science has made any type of self-medication safe as to any of the diseases named in this paragraph (k), the department shall by regulation authorize the labeling of drugs having curative or therapeutic effect for such disease, subject to such conditions and restrictions as the department may deem necessary in the interests of public health; except that this paragraph (k) shall not be construed as indicating that self-medication for any disease is safe or efficacious;

(l) If it is for use by man and contains any quantity of the narcotic or hypnotic substance alpha eucaine, barbituric acid, betaeucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marijuana, morphine, opium, paraldehyde, peyote, or sulphonmethane, or any chemical derivative of such substance, which derivative, after investigation, has been found to be and designated as habit-forming by rules issued by the department or pursuant to the federal act, unless its label bears the name and quantity or proportion of the substance or derivative and in juxtaposition therewith the statement "Warning - May be habit-forming";

(m) If it is, or purports to be, or is represented as a drug composed wholly or partly of insulin, unless:

(I) It is from a batch with respect to which a certificate or release has been issued pursuant to the federal act; and

(II) Such certificate or release is in effect with respect to such drug;

(n) If it is, or purports to be, or is represented as a drug composed wholly or partly of any kind of penicillin, streptomycin, chlortetracycline, chloramphenicol, bacitracin, or any other antibiotic drug, or any derivative thereof, unless:

(I) It is from a batch with respect to which a certificate or release has been issued pursuant to the federal act; and

(II) Such certificate or release is in effect with respect to such drug; but this subparagraph (II) shall not apply to any drug or class of drugs exempted by regulations promulgated under the federal act. For the purpose of this paragraph (n), "antibiotic drug" means any drug intended for use by man containing any quantity of any chemical substance which is

produced by microorganisms and which has the capacity to inhibit or destroy microorganisms in dilute solution (including the chemically synthesized equivalent of any such substance).

(o) If it is a color additive, the intended use of which in or on drugs is for the purpose of coloring only, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed under the provisions of section 25-5-413 (2) or of the federal act;

(p) In the case of any prescription drug distributed or offered for sale in this state, unless the manufacturer, packer, or distributor thereof includes, in all advertisements and other descriptive printed matter issued or caused to be issued by the manufacturer, packer, or distributor with respect to that drug, a true statement of:

(I) The established name, as defined in paragraph (e) (II) of this subsection (1), printed prominently and in type at least half as large as that used for any trade or brand name thereof;

(II) The formula showing quantitatively each ingredient of such drug to the extent required for labels under the federal act; and

(III) Such other information in brief summary relating to side effects, contraindications, and effectiveness as shall be required in regulations issued under the federal act;

(q) If a trademark, trade name, or other identifying mark, imprint, or device of another or any likeness of the foregoing has been placed thereon or upon its container with intent to defraud.

(2) A drug sold on a prescription given by a member of the medical, dental, or veterinary profession (except a drug sold in the course of the conduct of a business of selling drugs pursuant to diagnosis by mail) shall be exempt from the requirements of this section if such member of the medical, dental, or veterinary profession is authorized by law to administer such drug or if such drug bears a label containing the name and place of business of the seller, the serial number and date of such prescription, the name of such member of the medical, dental, or veterinary profession, and, if stated in the prescription, the name of the patient, the directions for use, and any cautionary statements contained in such prescription.

(3) Drugs and devices which, in accordance with the practice of the trade, are to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed or packed shall be exempt from any labeling or packaging requirements of this part 4 if such drugs and devices are being delivered, manufactured, processed, labeled, repacked, or otherwise held in compliance with regulations issued by the department or under the federal act.

ANNOTATION

Subsection (1)(f) exemption from statutory misbranding prohibition not applicable to intrauterine device where the labeling representations concerning the device clearly related to the safety and effectiveness of the product and not to directions for its use. Therefore, the statutory

exemption was not applicable to exclude the plaintiff's claim of negligence per se from the misbranding prohibition of § 25-5-403 (1)(a). *Palmer v. A.H. Robins Co., Inc.*, 684 P.2d 187 (Colo. 1984).

25-5-416. Adulteration of cosmetics. (1) A cosmetic shall be deemed to be adulterated:

(a) If it bears or contains any poisonous or deleterious substance which may render it injurious to users under the conditions of use prescribed in the labeling or advertisement thereof or under such conditions of use as are customary or usual. This provision shall not apply to coal-tar hair dye, the label of which bears the following legend conspicuously

displayed thereon: "Caution - This product contains ingredients which may cause skin irritations on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness." The label shall also bear adequate directions for such preliminary testing. For the purposes of this paragraph (a) and paragraph (e) of this subsection (1), "hair dye" does not include eyelash dyes or eyebrow dyes.

- (b) If it consists in whole or in part of any filthy, putrid, or decomposed substance;
- (c) If it is produced, prepared, packed, or held under unsanitary conditions under which it may become contaminated with filth or rendered injurious to health;
- (d) If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health;
- (e) If it is not a hair dye and it is, or it bears or contains, a color additive which is unsafe within the meaning of the federal act or section 25-5-413 (1).

Source: L. 57: p. 437, § 16. CRS 53: § 66-22-16. C.R.S. 1963: § 66-20-16. L. 70: p. 208, § 11.

25-5-417. Misbranding of cosmetics. (1) A cosmetic shall be deemed to be misbranded:

- (a) If its labeling is false or misleading in any particular;
- (b) If its labeling or packaging fails to conform with the requirements of section 25-5-419;
- (c) If in package form, unless it bears a label containing the name and place of business of the manufacturer, packer, or distributor and an accurate statement of the quantity of the contents in terms of weight, measure, or numerical count, which statement shall be separately and accurately stated in a uniform location upon the principal display panel of the label; but, as to such terms of quantity required, reasonable variations shall be permitted and exemptions as to small packages shall be established by regulation prescribed by the department or under the federal act;
- (d) If any word, statement, or other information required by or under authority of this part 4 to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use;
- (e) If its container is so made, formed, or filled as to be misleading;
- (f) If it is a color additive, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to such color additive prescribed in regulations under the provisions of the federal act. This paragraph (f) shall not apply to packages of color additives which, with respect to their use for cosmetics, are marketed and intended for use only in or on hair dyes as defined in section 25-5-416 (1) (a).

(2) A cosmetic which is, in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at an establishment other than the establishment where it was originally processed or packed is exempted from the affirmative labeling requirements of this part 4 while it is in transit in commerce from one establishment to the other if such transit is made in good faith for such completion purposes only; but such cosmetic is otherwise subject to all applicable provisions of this part 4.

Source: L. 57: p. 438, § 17. CRS 53: § 66-22-17. C.R.S. 1963: § 66-20-17. L. 70: p. 208, § 12.

25-5-418. Advertisements. (1) An advertisement of a food, drug, device, or cosmetic is deemed to be false if it is false or misleading in any particular.

(2) For the purpose of this part 4, the advertisement of a drug or device representing it to have any effect in albuminuria, appendicitis, arteriosclerosis, arthritis, baldness, blood poison, bone disease, Bright's disease, cancer, carbuncles, cholecystitis, diabetes, diphtheria, dropsy, erysipelas, gallstones, heart and vascular diseases, high blood pressure, mas-

toiditis, measles, meningitis, mumps, nephritis, otitis media, paralysis, pneumonia, poliomyelitis (infantile paralysis), prostate gland disorders, pyelitis, rheumatism, scarlet fever, sexual impotence, sexually transmitted infections, sinus infection, smallpox, tuberculosis, tumors, typhoid, or uremia shall also be deemed to be false; except that no advertisement not in violation of subsection (1) of this section shall be deemed to be false under this subsection (2) if it is disseminated only to members of the medical, dental, chiropractic, or veterinary professions, or appears only in the scientific periodicals of these professions, or is disseminated only for the purpose of public health education by persons not commercially interested, directly or indirectly, in the sale of such drugs or devices; but, if the department determines that an advance in medical science has made any type of self-medication safe as to any of the diseases named in this subsection (2), the department shall by regulation authorize the advertisement of drugs having curative or therapeutic effect for such disease, subject to such conditions and restrictions as the department may deem necessary in the interests of public health; except that this subsection (2) shall not be construed as indicating that self-medication for any diseases is safe or efficacious.

Source: L. 57: p. 439, § 18. CRS 53: § 66-22-18. C.R.S. 1963: § 66-20-18. L. 2009: (2) amended, (SB 09-179), ch. 112, p. 476, § 24, effective April 9.

25-5-419. Packaging and labeling of consumer commodities. (1) All labels of consumer commodities, as defined in section 25-5-402 (4), shall conform with the requirements for the declaration of net quantity of contents of the federal "Fair Packaging and Labeling Act" (15 U.S.C. sec. 1453) and the regulations promulgated pursuant thereto; but consumer commodities exempted from such requirements of the federal "Fair Packaging and Labeling Act" (15 U.S.C. secs. 1451-1461) shall also be exempt from this subsection (1).

(2) The label of any package of a consumer commodity which bears a representation as to the number of servings of such commodity contained in such package shall bear a statement of the net quantity (in terms of weight, measure, or numerical count) of each such serving.

(3) No person shall distribute or cause to be distributed in commerce any packaged consumer commodity if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by subsection (1) of this section, but nothing in this subsection (3) shall prohibit supplemental statements, at other places on the package, describing in nondeceptive terms the net quantity of contents; but such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the commodity contained in the package.

(4) (a) Whenever the department determines that regulations containing prohibitions or requirements other than those prescribed by subsection (1) of this section are necessary to prevent the deception of consumers or to facilitate value comparisons as to any consumer commodity, the department shall promulgate with respect to that commodity regulations effective to:

(I) Establish and define standards for the characterization of the size of a package enclosing any consumer commodity, which may be used to supplement the label statement of net quantity of contents of packages containing such consumer commodity, but this subparagraph (I) shall not be construed as authorizing any limitation on the size, shape, weight, dimensions, or number of packages which may be used to enclose any consumer commodity;

(II) Regulate the placement upon any package containing any consumer commodity, or upon any label affixed to such consumer commodity, of any printed matter stating or representing by implication that such consumer commodity is offered for retail sale at a price lower than the ordinary and customary retail sale price or that a retail sale price advantage is accorded to purchasers thereof by reason of the size of that package or the quantity of its contents;

(III) Require that the label on each package of a consumer commodity bear the common or usual name of such consumer commodity, if any, and, in case such consumer

commodity consists of two or more ingredients, the common or usual name of each such ingredient listed in order of decreasing predominance, and, with respect to any confectionery containing alcohol in excess of one-half of one percent by volume, but within the limits prescribed by section 25-5-410 (1) (i) (II), a statement that the content of alcohol does not exceed six and twenty-five hundredths percent by volume or five percent by weight, and that the product is unlawful for any person under twenty-one years of age, but nothing in this subparagraph (III) shall be deemed to require that any trade secret be divulged; or

(IV) Prevent the nonfunctional slack-fill of packages containing consumer commodities.

(b) For the purposes of subparagraph (IV) of paragraph (a) of this subsection (4), a package shall be deemed to be nonfunctionally slack-filled if it is filled to substantially less than its capacity for reasons other than protection of the contents of such package or the requirements of machines used for enclosing the contents in such package; except that the department may adopt any regulations promulgated pursuant to the federal "Fair Packaging and Labeling Act" (15 U.S.C. secs. 1451-1461) which shall have the force and effect of law in this state.

Source: L. 70: p. 212, § 16. C.R.S. 1963: § 66-20-25. L. 89: (4)(a)(III) amended, p. 709, § 6, effective July 1.

25-5-420. Enforcement. (1) The authority to promulgate regulations for the efficient enforcement of this part 4 is vested in the department. The department is authorized to make the regulations promulgated under this part 4 conform, insofar as practicable, with those promulgated under the federal act, the federal "Fair Packaging and Labeling Act" (15 U.S.C. secs. 1451-1461), and the federal "Meat Inspection Act of March 4, 1907", as amended (21 U.S.C. secs. 71-91). All regulations promulgated under this part 4 shall be promulgated in accordance with the provisions of article 4 of title 24, C.R.S.

(2) Hearings authorized or required by this part 4 or by article 4 of title 24, C.R.S., shall be conducted by the department or such officer, agent, or employee as the department may designate for the purpose.

(3) All pesticide chemical regulations and their amendments adopted under authority of the federal act are the pesticide chemical regulations in this state. However, the department may adopt regulations which prescribe tolerances for pesticides in finished foods in this state which are no less stringent than regulations promulgated under the federal act.

(4) All food additive regulations and their amendments adopted under authority of the federal act are the food additive regulations in this state. However, the department may adopt regulations which prescribe conditions under which a food additive may be used in this state which are no less stringent than regulations promulgated under the federal act.

(5) All color additive regulations and their amendments adopted under authority of the federal act are the color additive regulations in this state. However, the department may adopt regulations which prescribe conditions under which a color additive may be used in this state which are no less stringent than regulations promulgated under the federal act.

(6) All special dietary use regulations and their amendments adopted under authority of the federal act are the special dietary use regulations in this state. However, the department may, if it finds it necessary to inform purchasers of the value of a food for special dietary use, prescribe special dietary use regulations which are no less stringent than regulations promulgated under the federal act.

(7) All regulations and their amendments adopted under the federal "Fair Packaging and Labeling Act" shall be the regulations in this state. However, the department may, if it finds it necessary in the interest of consumers, prescribe packaging and labeling regulations for consumer commodities which are no less stringent than regulations promulgated under such "Fair Packaging and Labeling Act", but no such regulations shall be promulgated which are contrary to the labeling requirements for the net quantity of contents required pursuant to the "Fair Packaging and Labeling Act" (15 U.S.C. sec. 1453) and the regulations promulgated thereunder.

(8) All regulations establishing standards of identity and composition for meat and meat food products and their amendments adopted under the federal "Meat Inspection Act

of March 4, 1907", as amended (21 U.S.C. secs. 71-91), are the established standards of identity and composition for meat and meat food products in this state. However, the department may, if it finds it necessary in the interest of consumers, adopt additional regulations establishing standards of identity and composition for meat and meat food products which are no less stringent than regulations promulgated under the federal "Meat Inspection Act".

(9) (a) A federal regulation automatically adopted pursuant to this part 4 takes effect in this state on the date it becomes effective as a federal regulation. The department shall publish all other proposed regulations thirty days prior to hearing thereon. A person who may be adversely affected by a regulation may file with the department, in writing, objections and a request for a hearing. The timely filing of substantial objections to a federal regulation automatically adopted stays the effect of the regulation in this state.

(b) If no substantial objections are received and no hearing is requested within thirty days after publication of a proposed regulation, it shall take effect on a date set by the department. The effective date shall be at least sixty days after the time for filing objections has expired.

(c) If substantial objections are made to a federal regulation within thirty days after it is automatically adopted or to a proposed regulation within thirty days after it is published, the department, after notice, shall conduct a public hearing to receive evidence on the issues raised by the objections. Any interested person or his representative may be heard. The department shall act upon objections by order and shall mail the order to objectors by certified mail as soon after the hearing as practicable. The order shall be based on substantial evidence in the record of the hearing. If the order concerns a federal regulation, it may reinstate, rescind, or modify such regulation. If the order concerns a proposed regulation, it may withdraw it or set an effective date for the regulation as published or as modified by the order. The effective date shall be at least sixty days after publication of the order.

Source: L. 57: p. 439, § 19. CRS 53: § 66-22-19. C.R.S. 1963: § 66-20-19. L. 70: pp. 209, 210, §§ 13, 14.

25-5-421. Inspections. (1) (a) For purposes of enforcement of this part 4, the authorized agents of the department, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized to enter, at reasonable times, any factory, warehouse, or establishment in which food, drugs, devices, or cosmetics are manufactured, processed, packed, or held for introduction into commerce, or are held after such introduction, or to enter any vehicle being used to transport or hold such food, drugs, devices, or cosmetics in commerce; and to inspect, at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling therein and to obtain samples necessary to the enforcement of this part 4.

(b) (I) In the case of any factory, warehouse, establishment, or consulting laboratory in which prescription drugs are manufactured, processed, packed, or held, the inspection shall extend to all things therein (including records, files, papers, processes, controls, and facilities) bearing on whether prescription drugs which are adulterated or misbranded within the meaning of this part 4 or which may not be manufactured, introduced into commerce, or sold or offered for sale by reason of any provision of this part 4 have been or are being manufactured, processed, packed, transported, or held in any such place or otherwise bearing on violation of this part 4.

(II) No inspection authorized for prescription drugs by subparagraph (I) of this paragraph (b) shall extend to financial data, sales data other than shipment data, pricing data, personnel data (other than data as to qualifications of technical and professional personnel performing functions subject to this article), and research data (other than data, relating to new drugs and antibiotic drugs, subject to reporting and inspection under regulations lawfully issued pursuant to 21 U.S.C. sec. 355 (i) or (j) and data, relating to other drugs, which in the case of a new drug would be subject to reporting or inspection under

regulations issued pursuant to 21 U.S.C. sec. 355 (j)). Each such inspection shall be commenced and completed with reasonable promptness.

(III) The provisions of subparagraph (I) of this paragraph (b) shall not apply to pharmacies which maintain establishments in conformance with the laws of this state regulating the practice of pharmacy and medicine and which are regularly engaged in dispensing prescription drugs upon prescriptions of practitioners licensed to administer such drugs to patients under the care of such practitioners in the course of their professional practice and which do not, either through a subsidiary or otherwise, manufacture, prepare, propagate, compound, or process drugs for sale other than in the regular course of their business of dispensing or selling drugs at retail; to practitioners licensed by law to prescribe or administer drugs and who manufacture, prepare, propagate, compound, or process drugs solely for use in the course of their professional practice; to persons who manufacture, prepare, propagate, compound, or process drugs solely for use in research, teaching, or chemical analysis and not for sale; nor to such other classes of persons as the department may by regulation exempt from the application of this section upon a finding that inspection as applied to such classes of persons in accordance with this section is not necessary for the protection of the public health.

(c) The authorized agents of the department, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized to have access to and to copy all records of carriers in commerce showing the movement in commerce of any food, drug, device, or cosmetic, or the holding thereof during or after such movement, and the quantity, shipper, and consignee thereof; but evidence obtained under this paragraph (c) shall not be used in a criminal prosecution of the person from whom obtained, and carriers shall not be subject to the other provisions of this part 4 by reason of their receipt, carriage, holding, or delivery of food, drugs, devices, or cosmetics in the usual course of business as carriers.

(2) Upon completion of any such inspection of a factory, warehouse, consulting laboratory, or other establishment, and prior to leaving the premises, the authorized agent making the inspection shall give to the owner, operator, or agent in charge a report in writing setting forth any conditions or practices observed by him which, in his judgment, indicate that any food, drug, device, or cosmetic in such establishment consists in whole or in part of any filthy, putrid, or decomposed substance or has been prepared, packed, or held under unsanitary conditions under which it may become contaminated with filth or rendered injurious to health. A copy of such report shall be sent promptly to the department.

(3) If the authorized agent making any such inspection of a factory, warehouse, or other establishment has obtained any sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises, he shall give to the owner, operator, or agent in charge a receipt describing the samples obtained.

(4) Whenever, in the course of any such inspection of a factory or other establishment where food is manufactured, processed, or packed, the officer or employee making the inspection obtains a sample of any such food, and an analysis is made of such sample for the purpose of ascertaining whether such food consists in whole or in part of any filthy, putrid, or decomposed substance, or is otherwise unfit for food, a copy of the results of such analysis shall be furnished promptly to the owner, operator, or agent in charge.

25-5-422. Reports and information. (1) The department may cause to be published from time to time reports summarizing all judgments, decrees, and court orders which have been rendered under this part 4, including the nature of the charge and the disposition thereof.

(2) The department may also cause to be disseminated such information regarding food, drugs, devices, and cosmetics as the department deems necessary in the interest of public health and the protection of the consumer against fraud. Nothing in this section shall be construed to prohibit the department from collecting, reporting, and illustrating the results of the investigations of the department.

Source: L. 57: p. 440, § 21. CRS 53: § 66-22-21. C.R.S. 1963: § 66-20-21.

25-5-423. Cooperation with federal agencies. The department is authorized to confer and cooperate with the federal food and drug administration in the enforcement of the federal act and the United States department of agriculture in the enforcement of the federal “Meat Inspection Act of 1907”, as amended, as they may apply to foods, drugs, devices, and cosmetics received in this state from other states, territories, or foreign countries.

25-5-425. Application of part 4. The powers in this part 4 vested in the department are declared to be cumulative and in addition to and not in exclusion nor derogation nor limitation of the powers vested by law in the department, or in any other department of this state, or in any board or commission established by law, or in any law enforcement authority of this state.

Source: L. 57: p. 441, § 24. CRS 53: § 66-22-24. C.R.S. 1963: § 66-20-24.

25-5-426. Wholesale food manufacturing and storage - definitions - legislative declaration - fees - cash fund - repeal. (1) The general assembly hereby finds, determines, and declares that the registration of wholesale food manufacturers and the regulation of premises or places wherein manufactured foods are produced, manufactured, packed, processed, prepared, treated, packaged, transported, or held for distribution in accordance with the “Colorado Food and Drug Act”, the “Shellfish Dealer Certification Act”, and the sanitary regulations administered by the department pursuant to part 1 of article 4 of this title and any rules promulgated thereunder:

- (a) Is necessary to protect the public health;
- (b) Will benefit consumers by ensuring that the sale and distribution of manufactured food is from safe sources;
- (c) Will assist retailers by ensuring that manufactured foods have not been adulterated during manufacturing, packing, processing, preparing, treating, packaging, transporting, and storage; and

(d) Will contribute to the economic health of the state by assuring that Colorado wholesale food manufacturers are permitted to ship their product in interstate commerce.

(2) As used in this section:

(a) “Dietary ingredient” means one or any combination of a vitamin, mineral, herb or other botanical, amino acid, and a substance such as an enzyme, organ tissue, glandular, or metabolite.

(b) “Dietary supplement” means a product taken by mouth that contains a dietary ingredient or a new dietary ingredient intended to supplement the diet.

(b.2) “Grain” means a small hard fruit or seed produced by a cereal grass and the seeds of such plants as a whole.

(b.3) “Grain storage facility” means any establishment, structure, or structures under one management at one general physical location that holds grain without further manufacturing or processing after harvest.

(b.5) “Large wholesale food manufacturer or storage facility” means a wholesale food manufacturer or storage facility with gross annual sales of more than one hundred fifty thousand dollars.

(b.7) “Manufacturing or processing” means making food from one or more ingredients, or synthesizing, preparing, treating, modifying, or manipulating food, including food crops or ingredients. Examples include, but are not limited to: cutting, peeling, trimming,

washing, waxing, eviscerating, rendering, cooking, baking, freezing, cooling, pasteurizing, homogenizing, mixing, formulating, bottling, milling, grinding, extracting juices, distilling, labeling, or packaging.

(c) "Medium wholesale food manufacturer or storage facility" means a wholesale food manufacturer or storage facility with gross annual sales of between fifty thousand one dollars and one hundred fifty thousand dollars.

(d) "New dietary ingredient" means a dietary ingredient that was not sold in the United States as a dietary supplement before October 15, 1994.

(d.5) "Nonprofit facility" means a charitable entity that provides food to the public, including, but not limited to, food banks and nonprofit food facilities. To qualify as a nonprofit facility, the entity shall be exempt from paying federal income tax under the federal internal revenue code.

(e) "Small wholesale food manufacturer or storage facility" means a wholesale food manufacturer or storage facility with gross annual sales of fifty thousand dollars or less.

(f) "Wholesale food manufacturer" and "storage facility" mean a facility that manufactures, produces, packs, processes, treats, packages, transports, or holds human food, including dietary supplements. These terms include, without limitation, any repacker, reshipper, shell stock shipper, and shucker-packer, as defined in section 25-4-1803 (8), (9), (12), and (13), respectively.

(3) The department has the following powers and duties:

(a) To grant or refuse to grant registration pursuant to subsection (4) of this section and to grant or refuse to grant the annual renewal of a registration;

(b) To deny, suspend, or revoke a registration;

(c) To issue a certificate of free sale; and

(d) To review any records of a wholesale food manufacturer or storage facility necessary to verify compliance with the provisions of this section.

(4) (a) Beginning July 1, 2003, and on or before July 1 of each year thereafter, the owner of any wholesale food manufacturing or storage facility shall register such facility with the department. The registration of each wholesale food manufacturing or storage facility shall be accompanied by an annual registration fee as set forth in paragraph (b) of this subsection (4); except that an owner whose gross income is less than fifteen thousand dollars per year, a nonprofit facility, and a grain storage facility shall register but shall not be required to pay the fee. Such registration shall be valid for one year or for the portion of the fiscal year that remains if a registration is granted after July 1 of any fiscal year. If a registration is valid for only a portion of a fiscal year, there shall be no reduction of any fee required by this section. Each registration shall expire on June 30 of the state fiscal year in which the registration is granted.

(b) Subject to paragraph (a) of this subsection (4):

(I) Upon registration of a small wholesale food manufacturer or storage facility, the department shall collect a fee of one hundred eighty-five dollars.

(II) Upon registration of a medium wholesale food manufacturer or storage facility, the department shall collect a fee of three hundred seven dollars.

(III) Upon registration of a large wholesale food manufacturer or storage facility, the department shall collect a fee of three hundred ninety dollars.

(IV) The department shall collect a fee of one hundred twenty-eight dollars for the issuance of a certificate of free sale.

(V) (Deleted by amendment, L. 2008, p. 1000, § 1, effective July 1, 2008.)

(5) Fees collected by the department pursuant to subsection (4) of this section shall be transmitted to the state treasurer, who shall credit such fees to the wholesale food manufacturing and storage protection cash fund, which is hereby created in the state treasury. The general assembly shall annually appropriate the moneys in such fund to the department for the payment of expenses necessary for the administration of this section. Any unexpended and unencumbered moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall not revert to the general fund or any other fund.

(6) This section is repealed, effective July 1, 2017.

Source: **L. 2003:** Entire section added, p. 1460, § 1, effective May 1. **L. 2004:** (2), (4)(a), and (4)(b) amended and (6) added, p. 628, § 1, effective April 23. **L. 2007:** (6) amended, p. 1576, § 1, effective May 31. **L. 2008:** (4)(b) amended, p. 1000, § 1, effective July 1.

PART 5

HAZARDOUS SUBSTANCES

Editor's note: This part 5 was numbered as article 21 of chapter 66, C.R.S. 1963. The substantive provisions of this part 5 were repealed and reenacted in 1973, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 5 prior to 1973, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

Law reviews: For article, "Local Government and the Environment: Part II, CERCLA", see 17 Colo. Law. 1997 (1988); for article, "Local Government and the Environment: Part II, RCRA", see 17 Colo. Law. 2159 (1988).

25-5-501. Short title. This part 5 shall be known and may be cited as the "Colorado Hazardous Substances Act of 1973".

Source: **L. 73:** R&RE, p. 697, § 1. **C.R.S. 1963:** § 66-21-1.

25-5-502. Definitions. As used in this part 5, unless the context otherwise requires:

(1) "Banned hazardous substance" means:

(a) (I) Any toy, or other article intended for use by children, which is a hazardous substance, or which bears or contains a hazardous substance in such manner as to be susceptible of access by a child to whom such toy or other article is entrusted.

(II) The department shall exempt by regulation articles, such as chemical sets, which by reason of their functional purpose require the inclusion of the hazardous substance involved or necessarily present an electrical, mechanical, or thermal hazard, and which bear labeling giving adequate directions and warnings for safe use and are intended for use by children who have attained sufficient maturity, and may reasonably be expected, to read and heed such directions and warnings. Proceedings for the issuance, amendment, or repeal of exemption regulations shall be governed by the provisions of section 25-5-508.

(b) Any hazardous substance intended, or packaged in a form suitable, for use in the household which the department by regulation classifies as a banned hazardous substance on the basis of a finding that, notwithstanding such cautionary labeling as is or may be required under this article for that substance, the degree or nature of the hazard involved in the presence or use of such substance in households is such that the objective of the protection of the public health and safety can be adequately served only by keeping such substance, when so intended or packaged, out of the channels of commerce.

(2) "Combustible" means any substance which has a flash point above eighty degrees Fahrenheit to and including one hundred and fifty degrees, as determined by the Tagliabue open cup tester. This definition shall not apply to the flammability or combustibility of solids and of the contents of self-pressurized containers which shall be determined by methods generally applicable to such materials or containers and established by regulations issued by the department.

(3) "Commerce" means any and all commerce within the state of Colorado, and subject to the jurisdiction thereof, and includes the operation of any business or service establishment.

(4) "Corrosive substance" means any substance which, in contact with living tissue, will cause destruction of tissue by chemical action but shall not refer to action on inanimate surfaces.

(5) "Department" means the department of public health and environment.

(6) "Electrical hazard" means an article, the design or manufacture of which, in normal use or when subjected to reasonably foreseeable damage or abuse, may cause personal injury or illness by electric shock.

(7) "Executive director" means the executive director of the department of public health and environment.

(8) "Extremely flammable substance" is a substance which has a flash point at or below twenty degrees Fahrenheit as determined by the Tagliabue open cup tester. This definition shall not apply to the flammability or combustibility of solids and of the contents of self-pressurized containers which shall be determined by methods generally applicable to such materials or containers and established by regulations issued by the department.

(9) "Flammable substance" is a substance which has a flash point above twenty degrees Fahrenheit to and including eighty degrees Fahrenheit as determined by the Tagliabue open cup tester. This definition shall not apply to the flammability or combustibility of solids and of the contents of self-pressurized containers which shall be determined by the methods generally applicable to such materials or containers and established by regulation issued by the department.

(10) (a) "Hazardous substance" means any substance or mixture of substances which:

(I) Is toxic;

(II) Is corrosive;

(III) Is an irritant;

(IV) Is a strong sensitizer;

(V) Is flammable or combustible; or

(VI) Generates pressure through decomposition, heat, or other means, if such substance or mixture of substances may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children.

(b) "Hazardous substance" also means:

(I) Any substances which the department by regulation finds, pursuant to the provisions of section 25-5-508, meet the requirements of paragraph (a) of this subsection (10);

(II) Any radioactive substance, if, with respect to such substance as used in a particular class of article or as packaged, the department determines by regulation that the substance is sufficiently hazardous to require labeling in accordance with this article in order to protect the public health;

(III) Any toy or other article intended for use by children which the department by regulation determines, in accordance with section 25-5-508, presents an electrical, mechanical, or thermal hazard.

(c) The term "hazardous substance" shall not apply to an economic poison subject to regulation by the federal government; to a substance regulated by the "Pesticide Act"; to food, drugs, and cosmetics subject to regulation by the federal government or the "Colorado Food and Drug Act"; or to anhydrous ammonia as an agricultural fertilizer as regulated by article 13 of title 35, C.R.S. "Hazardous substance" shall not include a substance intended for use as fuels when stored in containers and used in the heating, cooking, or refrigeration system of a house or any source material, special nuclear material, or by-product material as defined in the federal "Atomic Energy Act of 1954", as amended, and regulations issued pursuant thereto by the atomic energy commission.

(11) (a) "Highly toxic" means any substance which falls within any of the following categories:

(I) Produces death within fourteen days in one-half or more than one-half of a group of ten or more laboratory white rats each weighing between two hundred and three hundred grams, at a single dose of fifty milligrams or less per kilogram of body weight, when orally administered; or

(II) Produces death within fourteen days in one-half or more than one-half of a group of ten or more laboratory white rats each weighing between two hundred and three hundred grams when inhaled continuously for a period of one hour or less at an atmospheric concentration of two hundred parts per million by volume or less of gas or vapor or two milligrams per liter by volume or less of mist or dust, provided such concentration is likely to be encountered by man when the substance is used in any reasonably foreseeable manner; or

(III) Produces death within fourteen days in one-half or more than one-half of a group of ten or more rabbits tested in a dosage of two hundred milligrams or less per kilogram of

body weight when administered by continuous contact with the bare skin for twenty-four hours or less.

(b) If the department finds that available data on human experience with any substance indicate results different from those obtained on animals in the above-named dosages or concentrations, the human data shall take precedence.

(12) "Irritant" means any substance not corrosive within the meaning of subsection (4) of this section which on immediate, prolonged, or repeated contact with normal living tissue will induce a local inflammatory reaction.

(13) "Label" means a display of written, printed, or graphic matter upon the immediate container (not including package liners) of any substance or, in the case of an article which is unpackaged or is not packaged in an immediate container intended or suitable for delivery to the ultimate consumer, a display of such matter directly upon the article involved or upon a tag or other suitable material affixed thereto. A requirement made by or under authority of this part 5 that any word, statement, or other information appear on the label shall not be considered to be complied with unless such word, statement, or other information also appears on the outside container or wrapper, if any there be, unless it is easily legible through the outside container or wrapper and on all accompanying literature where there are directions for use, written or otherwise.

(14) "Mechanical hazard" means an article, the design or manufacture of which, in normal use or when subjected to reasonably foreseeable damage or abuse, presents an unreasonable risk of personal injury or illness from fracture, fragmentation, or disassembly of the article; from propulsion of the article or any part or accessory thereof; from points or other protrusions, surfaces, edges, openings, or closures of the article; from moving parts of the article; from lack or insufficiency of controls to reduce or stop the motion of the article; as a result of self-adhering characteristics of the article; because the article, or any part or accessory thereof, may be aspirated or ingested; because of the instability of the article; or because of any other aspect of the article's design or manufacture.

(15) "Misbranded hazardous substance" means a hazardous substance (including a toy, or other article intended for use by children, which is a hazardous substance, or which bears or contains a hazardous substance in such manner as to be susceptible of access by a child to whom such toy or other article is entrusted) intended, or packaged in a form suitable, for use in the household or by children, which substance, except as otherwise provided by or pursuant to section 25-5-508, fails to bear a label:

(a) Which states conspicuously:

(I) The name and place of business of the manufacturer, packer, distributor, or seller;

(II) The common or usual name or the chemical name (if there be no common or usual name) of the hazardous substance or of each component which contributes substantially to its hazard, unless the department by regulation permits or requires the use of a recognized generic name;

(III) The signal word "DANGER" on substances which are extremely flammable, corrosive, or highly toxic;

(IV) The signal word "WARNING" or "CAUTION" on all other hazardous substances;

(V) An affirmative statement of the principal hazard or hazards, such as "Flammable", "Combustible", "Vapor Harmful", "Causes Burns", "Absorbed Through Skin", or similar wording descriptive of the hazard;

(VI) Precautionary measures describing the action to be followed or avoided, except when modified by regulation of the department pursuant to section 25-5-508;

(VII) Instruction, when necessary or appropriate, for first-aid treatment;

(VIII) The word "poison" for any hazardous substance which is highly toxic;

(IX) Instructions for handling and storage of packages which require special care in handling or storage; and

(X) The statement "Keep out of the reach of children" or its practical equivalent or, if the article is intended for use by children and is not a banned hazardous substance, adequate directions for the protection of children from the hazard.

(b) On which any statement required under paragraph (a) of this subsection (15) is located prominently and is in the English language in conspicuous and legible type in contrast by typography, layout, or color with other printed matter on the label.

(16) "Person" means an individual, partnership, corporation, or association or its legal representative or agent.

(17) "Radioactive substance" means a substance which emits ionizing radiation.

(18) "Strong sensitizer" means a substance which will cause, on normal living tissue, through an allergic or photodynamic process, a hypersensitivity which becomes evident on reapplication of the same substance and which is designated as such by the department. Before designating any substance as a strong sensitizer, the department, upon consideration of frequency of occurrence and severity of the reaction, shall find that the substance has significant potential for causing hypersensitivity.

(19) "Thermal hazard" means an article, the design, or manufacture of which, in normal use or when subjected to reasonably foreseeable damage or abuse, presents an unreasonable risk of personal injury or illness because of heat, as from heated parts, substances, or surfaces.

(20) "Toxic" shall apply to any substance (other than a radioactive substance) which has the capacity to produce personal injury or illness to man through ingestion, inhalation, or absorption through any body surface.

Source: L. 73: R&RE, p. 697, § 1. C.R.S. 1963: § 66-21-2. L. 94: (5) and (7) amended, p. 2778, § 484, effective July 1.

Cross references: (1) For the "Pesticide Act", see "Pesticide Chemicals Act", July 22, 1954, ch. 559, 68 Stat. 511; for the "Colorado Food and Drug Act", see part 4 of this article; for the federal "Atomic Energy Act of 1954", see Act Aug. 30, 1954, ch. 1073, 68 Stat. 919.

(2) For the legislative declaration contained in the 1994 act amending subsections (5) and (7), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-503. Prohibited acts. (1) The following acts and the causing thereof are hereby prohibited:

(a) The introduction or delivery for introduction into commerce of any misbranded hazardous substance or banned hazardous substance;

(b) The alteration, mutilation, destruction, obliteration, or removal of the whole or any part of the label of, or the doing of any other act with respect to, a hazardous substance if such act is done while the substance is in commerce, or while the substance is held for sale (whether or not the first sale) after shipment in commerce, and results in the hazardous substance being a misbranded hazardous substance or a banned hazardous substance;

(c) The receipt in commerce of any misbranded hazardous substance or banned hazardous substance and the delivery or proffered delivery thereof for pay or otherwise;

(d) The giving of a guarantee or undertaking referred to in section 25-5-504 (2), which guarantee or undertaking is false, except by a person who relied upon a guarantee or undertaking to the same effect signed by, and containing the name and address of, the person residing in the United States from whom he received in good faith the hazardous substance;

(e) The failure to permit entry, inspection, or sampling as authorized by section 25-5-509 or to permit access to and copying of any record as authorized by section 25-5-510;

(f) The removing or disposing of a detained or embargoed article by sale or otherwise without permission of an authorized agent or court;

(g) The introduction or delivery for introduction into commerce or the receipt in commerce and subsequent delivery or proffered delivery, for pay or otherwise, of a hazardous substance in a reused food, drug, or cosmetic container or in a container which, though not a reused container, is identifiable as a food, drug, or cosmetic container by its labeling or by other identification. The reuse of a food, drug, or cosmetic container as a container for a hazardous substance shall be deemed to be an act which results in the hazardous substance being a misbranded hazardous substance. As used in this paragraph

(g), the terms “food”, “drug”, and “cosmetic” shall have the same meanings as in the “Colorado Food and Drug Act”.

(h) The use by any person to his own advantage or the revealing, other than to the executive director or officers or employees of the department or to the courts when relevant in any judicial proceeding under this part 5, of any information acquired under authority of section 25-5-509 concerning any method or process which as a trade secret is entitled to protection.

Source: L. 73: R&RE, p. 701, § 1. C.R.S. 1963: § 66-21-3.

Cross references: For the “Colorado Food and Drug Act”, see part 4 of this article.

25-5-504. Penalties. (1) Any person who violates any of the provisions of section 25-5-503 is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than five hundred dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment; but, for offenses committed with intent to defraud or mislead, or for second and subsequent offenses, the penalty shall be imprisonment for not more than one year, or a fine of not more than three thousand dollars, or both such imprisonment and fine. Each violation shall be considered a separate offense.

(2) No person shall be subject to the penalties of this section for having violated section 25-5-503 (1) (c) if the receipt, delivery, or proffered delivery of the hazardous substance was made in good faith, unless he refuses to furnish on request of an officer or employee duly designated by the executive director, the name and address of the person from whom he purchased or received such hazardous substance and copies of all documents, if any there be, pertaining to the delivery of the hazardous substance to him; or for having violated section 25-5-503 (1) (a) if he establishes a guarantee or undertaking signed by, and containing the name and address of, the person residing in the United States from whom he received in good faith the hazardous substance to the effect that the hazardous substance is not a misbranded hazardous substance or a banned hazardous substance within the meaning of those terms in this part 5.

Source: L. 73: R&RE, p. 702, § 1. C.R.S. 1963: § 66-21-4.

25-5-505. Injunction proceedings. In addition to the remedies provided in this part 5, the executive director is authorized to apply to the district court for a temporary or permanent injunction restraining any person from violating any provision of section 25-5-503, irrespective of whether or not there exists an adequate remedy at law.

Source: L. 73: R&RE, p. 703, § 1. C.R.S. 1963: § 66-21-5.

25-5-506. Embargo and seizure. (1) Whenever a duly authorized agent of the department finds or has probable cause to believe that any hazardous substance is misbranded or is a banned hazardous substance within the meaning of this part 5, he shall affix to such article a tag or other appropriate marking, giving notice that such article is, or is suspected of being, misbranded or is a banned hazardous substance and has been detained or embargoed and warning all persons not to remove or dispose of such article by sale or otherwise until permission for removal or disposal is given by such agent or the district court.

(2) When an article detained or embargoed under subsection (1) of this section has been found by such agent to be misbranded or a banned hazardous substance, he shall petition the district court in whose jurisdiction the article is detained or embargoed for an order for condemnation of such article. When such agent has found that an article so detained or embargoed is not misbranded or is not a banned hazardous substance, he shall remove the tag or other marking.

(3) If the court finds that a detained or embargoed article is misbranded or is a banned hazardous substance, such article shall, after entry of the decree, be destroyed at the expense of the claimant thereof, under supervision of the agent, and all court costs and fees and storage and other proper expenses shall be taxed against the claimant of such article or his agent; except that, when the misbranding can be corrected by proper labeling of the article, the court, after entry of the decree and after such costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that such article shall be so labeled, has been executed, may by order direct that such article be delivered to the claimant thereof for such labeling under the supervision of an agent of the department. The expense of such supervision shall be paid by the claimant. The article shall be returned to the claimant on the representation to the court by the executive director that the article is no longer in violation of this part 5 and that the expenses of such supervision have been paid.

Source: L. 73: R&RE, p. 703, § 1. C.R.S. 1963: § 66-21-6.

25-5-507. Duties of district attorney. (1) It is the duty of each district attorney to whom the executive director reports any violation of this part 5 to cause appropriate proceedings to be instituted in the proper courts without delay and to be prosecuted in the manner required by law.

(2) Before any violation of this part 5 is reported to any such district attorney for the institution of a criminal proceeding, the person against whom such proceeding is contemplated shall be given appropriate notice and an opportunity to present his views before the executive director or his designated agent, either orally or in writing, or by attorney, with regard to such contemplated proceeding.

Source: L. 73: R&RE, p. 703, § 1. C.R.S. 1963: § 66-21-7.

25-5-508. Regulations. (1) All regulations adopted now or hereafter under the "Federal Hazardous Substances Act", as amended, shall be the hazardous substances regulations in this state. However, the department is authorized to promulgate regulations for the efficient enforcement of this part 5, which regulations shall be no less stringent than the regulations established pursuant to the "Federal Hazardous Substances Act", as amended; except that regulation relating to the precautionary labeling or exemptions thereto shall not differ from the requirements of the "Federal Hazardous Substances Act", as amended, and the regulations promulgated pursuant thereto.

(2) (a) Whenever in the judgment of the executive director such action will promote the objectives of this part 5 by avoiding or resolving uncertainty as to its application, the executive director may by regulation declare to be a hazardous substance, for the purposes of this part 5, any substance or mixture of substances which he finds meets the definition in section 25-5-502 (10).

(b) If the executive director finds that the hazard of an article subject to this part 5 is such that labeling adequate to protect the public health and safety cannot be devised or the article presents an imminent danger to the public health and safety, the executive director may declare such article to be a banned hazardous substance and require its removal from commerce.

(c) (I) A determination by the executive director that a toy or other article intended for use by children presents an electrical, mechanical, or thermal hazard shall be made by regulation in accordance with article 4 of title 24, C.R.S.

(II) If, before or during a proceeding pursuant to subparagraph (I) of this paragraph (c), the executive director finds that, because of an electrical, mechanical, or thermal hazard, distribution of the toy or other article involved presents an imminent hazard to the public health and he gives notice of such finding, such toy or other article shall be deemed to be a banned hazardous substance for purposes of this part 5 until the proceeding has been completed. If not yet initiated when such notice is given, such proceeding shall be initiated as soon as possible.

(d) In the case of any toy, substance, or other article intended for use by children which is determined by the executive director to present an electrical, mechanical, or thermal hazard, any person who will be adversely affected by such a determination may, at any time prior to the sixtieth day after the regulation making such determination is issued by the executive director, ask for judicial review as provided in section 24-4-106, C.R.S.

(3) All regulations promulgated under this part 5 shall be promulgated in accordance with the provisions of article 4 of title 24, C.R.S.

(4) Hearings authorized or required by this article shall be conducted according to the provisions of article 4 of title 24, C.R.S.

(5) A federal regulation automatically adopted pursuant to this part 5 takes effect in this state on the date it becomes effective as a federal regulation. The department shall publish all other proposed regulations thirty days prior to hearing thereon. A person who may be adversely affected by a regulation may file with the department, in writing, objections and a request for a hearing. The timely filing of substantial objections to a federal regulation automatically adopted stays the effect of the regulation in this state.

(6) If no substantial objections are received and no hearing is requested within thirty days after publication of a proposed regulation, it shall take effect on a date set by the department. The effective date shall be at least sixty days after the time for filing objections has expired.

(7) If substantial objections are made to a federal regulation within thirty days after it is automatically adopted or to a proposed regulation within thirty days after it is published, the department, after notice, shall conduct a public hearing to receive evidence on the issues raised by the objections. Any interested person or his representative may be heard. The department shall act upon objections by order and shall mail the order to objectors by certified mail as soon after the hearing as practicable. The order shall be based on substantial evidence in the record of the hearing. If the order concerns a federal regulation, it may reinstate, rescind, or modify such regulation. If the order concerns a proposed regulation, it may withdraw it or set an effective date for the regulation as published or as modified by the order. The effective date shall be at least sixty days after publication of the order.

25-5-509. Examinations - investigations. (1) For the purposes of enforcement of this part 5, officers or employees duly designated by the executive director, upon presenting appropriate credentials to the owner, operator, or agent in charge, are authorized to enter, at reasonable times, any factory, warehouse, or establishment in which hazardous substances are manufactured, processed, packed, or held for introduction into commerce or are held after such introduction or to enter any vehicle being used to transport or hold such hazardous substances in commerce; to inspect, at reasonable times, and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, and labeling therein; and to obtain samples of such materials, or packages thereof, and of such labeling.

(2) If the officer or employee obtains any sample prior to leaving the premises, he shall pay or offer to pay the owner, operator, or agent in charge for such sample and give a receipt describing the sample obtained. If analysis is made of such sample, a copy of the results of such analysis shall be furnished promptly to the owner, operator, or agent in charge.

Source: L. 73: R&RE, p. 705, § 1. C.R.S. 1963: § 66-21-9.

25-5-510. Records of shipment. For the purpose of enforcing the provisions of this part 5, carriers engaged in commerce and persons receiving hazardous substances in commerce or holding such hazardous substances so received shall, upon the request of an officer or employee duly designated by the executive director, permit such officer or

employee, at reasonable times, to have access to and to copy all records showing the movement in commerce of any such hazardous substances, or the holding thereof during or after such movement, and the quantity, shipper, and consignee thereof; and it is unlawful for any such carrier or person to fail to permit such access to and copying of any record so requested when such request is accompanied by a statement in writing specifying the nature or kind of such hazardous substance to which such request relates. Evidence obtained under this section shall not be used in a criminal prosecution of the person from whom obtained; and carriers shall not be subject to the other provisions of this part 5 by reason of their receipt, carriage, holding, or delivery of hazardous substances in the usual course of business as carriers.

Source: L. 73: R&RE, p. 705, § 1. C.R.S. 1963: § 66-21-10.

25-5-511. Publicity. (1) The executive director may cause to be published from time to time reports summarizing any judgments, decrees, or court orders which have been rendered under this part 5, including the nature of the charge and the disposition thereof.

(2) The executive director may also cause to be disseminated information regarding hazardous substances in situations involving, in the opinion of the executive director, imminent danger to health. Nothing in this section shall be construed to prohibit the executive director from collecting, reporting, and illustrating the results of the investigations of the department.

Source: L. 73: R&RE, p. 705, § 1. C.R.S. 1963: § 66-21-11.

25-5-512. Exception - discretion as to reporting. (1) Nothing in this part 5 shall be construed as:

(a) Applicable to any person or corporation if the safety of his or its product or service is already regulated by any agency of the state of Colorado;

(b) Requiring the executive director to report minor violations of this part 5 for the institution of proceedings under this part 5 whenever the executive director believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

PART 6

SALE OF EYEGLASSES AND SUNGLASSES

25-5-601 to 25-5-604. (Repealed)

Source: L. 90: Entire part repealed, p. 1319, § 2, effective July 1.

Editor's note: This part 6 was numbered as article 33 of chapter 66, C.R.S. 1963. For amendments to this part 6 prior to its repeal in 1990, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 7

PASSENGER TRAMWAY SAFETY

25-5-701. Legislative declaration. In order to assist in safeguarding life, health, property, and the welfare of this state, it is the policy of the state of Colorado to establish a board empowered to prevent unnecessary mechanical hazards in the operation of passenger tramways and to assure that reasonable design and construction are used for, that

accepted safety devices and sufficient personnel are provided for, and that periodic inspections and adjustments are made which are deemed essential to the safe operation of, passenger tramways.

Source: L. 65: p. 709, § 1. C.R.S. 1963: § 66-25-1. L. 76: Entire section amended, p. 660, § 1, effective May 27. L. 77: Entire section amended, p. 1288, § 2, effective July 1. L. 83: Entire section amended, p. 1071, § 1, effective May 25. L. 93: Entire section amended, p. 1533, § 3, effective July 1.

ANNOTATION

Law reviews. For article, “Ski Injury Liability”, see 43 U. Colo. L. Rev. 307 (1972). For article, “Changes in Colorado Ski Law”, see 13 Colo. Law. 407 (1984). For article, “The Development of the Standard of Care in Colorado Ski Cases”, see 15 Colo. Law. 373 (1986).

Neither this act nor the Ski Safety Act of 1979 (article 44 of title 33, C.R.S.) preempts or supersedes the common law standard of

care applicable to ski lift operators, to use the highest degree of care commensurate with the practical operation of the lift, regardless of the season. The general assembly did not intend for the regulations adopted by the board to preclude common law negligence actions against ski lift operators or the duty to exercise the highest degree of care. *Bayer v. Crested Butte Mountain Resort*, 960 P.2d 70 (Colo. 1998).

25-5-702. Definitions. As used in this part 7, unless the context otherwise requires:

(1) “Area operator” means a person who owns, manages, or directs the operation and maintenance of a passenger tramway. “Area operator” may apply to the state or any political subdivision or instrumentality thereof.

(1.5) “Board” means the passenger tramway safety board created by section 25-5-703.

(1.7) “Commercial recreational area” means an entity using passenger tramways to provide recreational opportunities to the public for a fee.

(2) “Industry” means the activities of all those persons in this state who own, manage, or direct the operation of passenger tramways.

(3) “License” means the formal, legal, written permission of the board to operate a passenger tramway.

(4) “Passenger tramway” means a device used to transport passengers uphill on skis, or in cars on tracks, or suspended in the air by the use of steel cables, chains, or belts, or by ropes, and usually supported by trestles or towers with one or more spans. “Passenger tramway” includes, but is not limited to, the following devices:

(a) Fixed-grip lifts. “Fixed-grip lift” means an aerial lift on which carriers remain attached to a haul rope. The tramway system may be either continuously or intermittently circulating, and may be either monocable or bicable.

(b) Detachable-grip lifts. “Detachable-grip lift” means an aerial lift on which carriers alternately attach to and detach from a moving haul rope. The tramway system may be monocable or bicable.

(c) Funiculars. “Funicular” means a device in which a passenger car running on steel or wooden tracks is attached to and propelled by a steel cable, and any similar devices.

(d) Chair lifts. “Chair lift” means a type of transportation on which passengers are carried on chairs suspended in the air and attached to a moving cable, chain, or link belt supported by trestles or towers with one or more spans, and any similar devices.

(e) Surface lifts. “Surface lift” means a J-bar, T-bar, or platter pull and any similar types of devices or means of transportation which pull skiers riding on skis by means of an attachment to a main overhead cable supported by trestles or towers with one or more spans.

(f) Rope tows. “Rope tow” means a type of transportation which pulls the skier riding on skis as the skier grasps the rope manually, and any similar devices.

(g) Portable aerial tramway devices. “Portable aerial tramway device” means any device designed for temporary use and operation, without permanent foundations, in changing or variable locations, with a capacity of less than five persons, which transports equipment or personnel, and is not used or intended to be used by the general public.

(h) Portable tramway devices. "Portable tramway device" means any device designed to be used and operated as a rope tow or surface lift without permanent foundations and intended for temporary use in changing or variable locations, when used within the boundary of a recognized ski area.

(i) Private residence tramways. "Private residence tramway" means a device installed at a private residence or installed in multiple dwellings as a means of access to a private residence in such multiple dwelling buildings, so long as the tramway is so installed that it is not accessible to the general public or to other occupants of the building.

(j) Reversible aerial tramways. "Reversible aerial tramway" means a device on which passengers are transported in cable-supported carriers and are not in contact with the ground or snow surface, and in which the carriers reciprocate between terminals.

(k) Conveyors. "Conveyor" means a type of transportation by which skiers, or passengers on recreational devices, are transported uphill on top of a flexible, moving element such as a belt or a series of rollers.

(4.5) "Program administrator" means the person who manages the board's offices on a day-to-day basis and works with the supervisory tramway engineer and the board in implementing the policies, decisions, and orders of the board.

(5) "Qualified tramway design engineer" or "qualified tramway construction engineer" means an engineer licensed by the state board of licensure for architects, professional engineers, and professional land surveyors pursuant to part 1 of article 25 of title 12, C.R.S., to practice professional engineering in this state.

(6) "Staff" means the program administrator, the supervisory tramway engineer, and their clerical staff.

(7) "Supervisory tramway engineer" means the tramway engineer who works with the program administrator and the board in implementing the policies, decisions, and orders of the board.

25-5-703. Passenger tramway safety board - composition - termination. (1) There is hereby created a passenger tramway safety board of six appointive members and one member designated by the United States forest service. The appointive members shall be appointed by the governor from persons representing the following interests: Two members to represent the industry or area operators; two members to represent the public at large; one member who is a licensed professional engineer not employed by a ski area or related industry; and one member familiar with or experienced in the tramway industry who may represent the passenger tramway manufacturing or design industry or an area operator. No person shall be so appointed or designated except those who, by reason of knowledge or experience, shall be deemed to be qualified. Such knowledge or experience shall be either from active and relevant involvement in the design, manufacture, or operation of passenger tramways or as a result of extensive and relevant involvement in related activities. The governor, in making such appointments, shall consider recommendations made to him or her by the membership of the particular interest from which the appointments are to be made.

(2) Each of the appointed members shall be appointed for a term of four years and until a successor is appointed and qualified and no board member shall serve more than two consecutive four-year terms. A former board member may be reappointed to the board after having vacated the board for one four-year term. Vacancies on the board, for either an unexpired term or for a new term, shall be filled through prompt appointment by the governor. The member of the board designated by the United States forest service shall serve for such period as such federal agency shall determine and shall serve without compensation or reimbursement of expenses.

(3) The governor may remove any member of the board for misconduct, incompetence, or neglect of duty.

(4) Board members appointed by the governor shall have been residents of this state for at least three years.

(5) No member of the board who has any form of conflict of interest or the potential thereof shall participate in consideration of the deliberations on matters to which such conflict may relate; such conflicts may include, but are not limited to, a member of the board having acted in any consulting relationship or being directly or indirectly involved in the operation of the tramway in question.

(6) A majority of the board shall constitute a quorum. When necessary, the board may conduct business telephonically during a public meeting for purposes of obtaining a quorum, facilitating the participation of members in remote locations, or both.

(7) The provisions of section 24-34-104, C.R.S., concerning the termination schedule for regulatory bodies of the state unless extended as provided in that section, are applicable to the passenger tramway safety board created by this section.

ANNOTATION

Law reviews. For article, “Ski Injury Liability”, see 43 U. Colo. L. Rev. 307 (1972).

25-5-703.5. Board subject to termination - repeal of article. (Repealed)

Source: L. 76: Entire section added, p. 627, § 39, effective July 1. L. 91: Entire section amended, p. 688, § 56, effective April 20. L. 93: Entire section repealed, p. 1536, § 6, effective July 1.

25-5-704. Powers and duties of board. (1) The board has the following powers and duties in addition to those otherwise described by this part 7:

(a) To promulgate, amend, and repeal such rules as may be necessary and proper to carry out the provisions of this article. In adopting such rules, the board may use as general guidelines the standards contained in the “American National Standard for Passenger Ropeways - Aerial Tramways and Aerial Lifts, Surface Lifts, Tows, and Conveyors - Safety Requirements”, as adopted by the American national standards institute, incorporated, as amended from time to time. Such rules shall not be discriminatory in their application to area operators and procedures of the board with respect thereto shall be as provided in section 24-4-103, C.R.S., with respect to rule-making.

(b) To investigate matters relating to the exercise and performance of the powers and duties of the board;

(c) To receive complaints concerning violations of this part 7;

(d) To conduct meetings, hold hearings, and take evidence in all matters relating to the exercise and performance of the powers and duties of the board, subpoena witnesses, administer oaths, and compel the testimony of witnesses and the production of books, papers, and records relevant to the subject inquiry. The program administrator may issue subpoenas on behalf of the board at the board’s direction. If any person refuses to obey any subpoena so issued, the board may petition the district court, setting forth the facts, and thereupon the court in a proper case shall issue its subpoena. The board may appoint an administrative law judge pursuant to part 10 of article 30 of title 24, C.R.S., to take evidence and to make findings and report them to the board. The board may elect to hear the matter itself with the assistance of an administrative law judge, who shall rule on the evidence and otherwise conduct the hearing in accordance with the “State Administrative Procedure Act”, article 4 of title 24, C.R.S.

- (e) To discipline area operators in accordance with this part 7;
- (f) To approve and renew licenses in accordance with this part 7;
- (g) To elect officers;
- (h) To establish standing or temporary technical and safety committees composed of persons with expertise in tramway-related fields to review, as the board deems necessary, the design, construction, maintenance, and operation of passenger tramways and to make recommendations to the board concerning their findings. Committees established pursuant to this paragraph (h) shall meet as deemed necessary by the board or the supervisory tramway engineer.
- (i) To collect fees, established pursuant to section 24-34-105, C.R.S., for any application for a new construction or major modification, for any application for licensing, and for inspection and accident investigations;
- (j) To cause the prosecution and enjoinder of all persons violating such provisions and to incur the necessary expenses thereof;
- (k) To delegate duties to the program administrator;
- (l) To keep records of its proceedings and of all applications.

Source: L. 65: p. 711, § 1. C.R.S. 1963: § 66-25-4. L. 77: Entire section amended, p. 1289, § 4, effective July 1. L. 79: Entire section amended, p. 912, § 15, effective July 1. L. 93: Entire section amended, p. 1536, § 7, effective July 1. L. 2001: (1)(a) and (1)(i) amended, p. 119, § 5, effective July 1.

25-5-705. Responsibilities of area operators. The primary responsibility for design, construction, maintenance, operation, and inspection rests with the area operators of passenger tramway devices.

Source: L. 65: p. 711, § 1. C.R.S. 1963: § 66-25-5. L. 76: Entire section amended, p. 661, § 4, effective May 27. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1538, § 8, effective July 1.

25-5-706. Disciplinary action - administrative sanctions - grounds. (1) Disciplinary action of the board pursuant to this section shall be taken in accordance with the "State Administrative Procedure Act", article 4 of title 24, C.R.S.

(2) Disciplinary action of the board may be imposed as an alternative to or in conjunction with the issuance of orders or the pursuit of other remedies provided by section 25-5-707 or 25-5-716, and may consist of any of the following:

(a) Denial, suspension, revocation, or refusal to renew the license of any passenger tramway. The board may summarily suspend a license pursuant to the authority granted by this part 7 or article 4 of title 24, C.R.S.

(b) (I) When a complaint or investigation discloses an instance of misconduct that, in the opinion of the board, does not warrant formal action by the board but that should not be dismissed as being without merit, issuance and sending of a letter of admonition, by certified mail, to the area operator.

(II) When a letter of admonition is sent by the board, by certified mail, to an area operator such area operator shall be advised that he or she has the right to request in writing, within twenty days after receipt of the letter, that formal disciplinary proceedings be initiated to adjudicate the propriety of the conduct upon which the letter of admonition is based.

(III) If the request for adjudication is timely made, the letter of admonition shall be deemed vacated and the matter shall be processed by means of formal disciplinary proceedings.

(c) Assessment of a fine, not to exceed ten thousand dollars per act or omission or, in the case of acts or omissions found to be willful, fifty thousand dollars per act or omission, against any area operator;

(d) Imposition of reasonable conditions upon the continued licensing of a passenger tramway or upon the suspension of further disciplinary action against an area operator.

- (3) The board may take disciplinary action for any of the following acts or omissions:
- (a) Any violation of the provisions of this part 7 or of any rule or regulation of the board promulgated pursuant to section 25-5-704 when the act or omission upon which the violation is based was known to, or reasonably should have been known to, the area operator;
 - (b) Violation of any order of the board issued pursuant to provisions of this part 7;
 - (c) Failure to report any incident or accident to the board as required by any provision of this part 7 or any rule or regulation of the board promulgated pursuant to section 25-5-704 when the incident or accident was known to, or reasonably should have been known to, the area operator;
 - (d) Willful or wanton misconduct in the operation or maintenance of a passenger tramway;
 - (e) Operation of a passenger tramway while a condition exists in the design, construction, operation, or maintenance of the passenger tramway which endangers the public health, safety, or welfare, which condition was known, or reasonably should have been known, by the area operator;
 - (f) Operation of a passenger tramway by an operator whose license has been suspended;
 - (g) Failure to comply with an order issued under section 25-5-707 or 25-5-716.

Source: L. 65: p. 711, § 1. C.R.S. 1963: § 66-25-6. L. 86: Entire section amended, p. 974, § 1, effective April 3. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1538, § 8, effective July 1. L. 2004: (2)(b) amended, p. 1863, § 123, effective August 4. L. 2006: (3)(f) and (3)(g) added, p. 96, § 64, effective August 7.

25-5-707. Orders - enforcement. (1) If, after investigation, the board finds that a violation of any of its rules or regulations exists or that there is a condition in passenger tramway design, construction, operation, or maintenance endangering the safety of the public, it shall forthwith issue its written order setting forth its findings and the corrective action to be taken and fixing a reasonable time for compliance therewith. Such order shall be served upon the area operator involved in accordance with the Colorado rules of civil procedure or the "State Administrative Procedure Act", article 4 of title 24, C.R.S., and shall become final unless the area operator applies to the board for a hearing in the manner provided in section 24-4-105, C.R.S.

(2) If any area operator fails to comply with a lawful order of the board issued under this section within the time fixed thereby, the board may take further action as permitted by sections 25-5-706 and 25-5-716 and may commence an action seeking injunctive relief in the district court of the judicial district in which the relevant passenger tramway is located.

(3) Any person who violates an order issued pursuant to this section shall be subject to a civil penalty of not more than five thousand dollars for each day during which such violation occurs.

(4) Any area operator who operates a passenger tramway which has not been licensed by the board or the license of which has been suspended, or who fails to comply with an order issued under this section or section 25-5-716, commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S. Fines collected pursuant to this section shall be deposited in the general fund of the state.

Source: L. 65: p. 711, § 1. C.R.S. 1963: § 66-25-7. L. 86: (3) and (4) amended, p. 974, § 2, effective April 3. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1539, § 8, effective July 1. L. 2002: (4) amended, p. 1537, § 268, effective October 1.

Cross references: For the legislative declaration contained in the 2002 act amending this section, see section 1 of chapter 318, Session Laws of Colorado 2002.

25-5-708. Disciplinary proceedings. (1) The board may investigate all matters which present grounds for disciplinary action as specified in this part 7.

(2) Disciplinary hearings shall be conducted by the board or by an administrative law judge in accordance with section 25-5-704 (1) (d).

(3) Any person aggrieved by a final action or order of the board may appeal such action to the Colorado court of appeals in accordance with section 24-4-106 (11), C.R.S.

Source: L. 65: p. 712, § 1. C.R.S. 1963: § 66-25-8. L. 67: p. 200, § 1. L. 76: (1) amended and (2) added, p. 662, § 6, effective May 27. L. 77: (1) amended, p. 1290, § 6, effective July 1. L. 79: Entire section R&RE, p. 1661, § 120, effective July 19. L. 83: (2) repealed, p. 1073, § 6, effective May 25. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1540, § 8, effective July 1.

25-5-709. Passenger tramway licensing required. (1) The state, through the board, shall license all passenger tramways, unless specifically exempted by law, establish reasonable standards of design and operational practices, and cause to be made such inspections as may be necessary in carrying out the provisions of this section.

(2) A passenger tramway shall not be operated in this state unless it has been licensed by the board. No new passenger tramway shall be initially licensed in this state unless its design and construction have been certified to this state as complying with the rules and regulations of the board promulgated pursuant to section 25-5-704. Such certification shall be made by a qualified tramway design engineer or a qualified tramway construction engineer, whichever the case requires.

(3) The board shall have no jurisdiction over the construction of a new private residence tramway or over any modifications to an existing private residence tramway when such tramway is not used, or intended to be used, by the general public.

(4) The board shall have no jurisdiction over a portable aerial tramway device.

(5) The board shall have no jurisdiction over a portable tramway device when such tramway device is not used, or intended to be used, by the general public.

ANNOTATION

Law reviews. For note, "Exculpatory Clauses and Public Policy: A Judicial Dilemma", see 53 U. Colo. L. Rev. 793 (1982).

25-5-711. Application for licensing. Each year, every area operator of a passenger tramway shall apply to the board, in such form as the board shall designate, for licensing

of the passenger tramways which such area operator owns or manages or the operation of which such area operator directs. The application shall contain such information as the board may reasonably require in order for it to determine whether the passenger tramway sought to be licensed by such area operator complies with the intent of this part 7 as specified in section 25-5-701 and the rules and regulations promulgated by the board pursuant to section 25-5-704.

Source: L. 65: p. 713, § 1. C.R.S. 1963: § 66-25-11. L. 77: Entire section amended, p. 637, § 5, effective July 1; entire section amended, p. 1291, § 9, effective July 1. L. 86: Entire section amended, p. 975, § 4, effective April 3. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1540, § 8, effective July 1.

25-5-712. Licensing of passenger tramways. (1) The board shall issue to the applying area operator without delay licensing certificates for each passenger tramway owned, managed, or the operation of which is directed by such area operator when the board is satisfied:

(a) That the facts stated in the application are sufficient to enable the board to fulfill its duties under this part 7; and

(b) That each such passenger tramway sought to be licensed has been inspected by an inspector designated by the board according to procedures established by the board and that such inspection disclosed no unreasonable safety hazard and no violations of the provisions of this part 7 or the rules and regulations of the board promulgated pursuant to section 25-5-704.

(2) In order to satisfy itself that the conditions described in subsection (1) of this section have been fulfilled, the board may cause to be made such inspections described in section 25-5-715 as it may reasonably deem necessary.

(3) Repealed.

(4) Licenses shall expire on dates established by the board.

(5) Each area operator shall cause the licensing certificate, or a copy thereof, for each passenger tramway thus licensed to be displayed prominently at the place where passengers are loaded thereon.

L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1541, § 8, effective July 1. L. 2001: (3) repealed, p. 120, § 7, effective July 1.

25-5-713. Licensing and certification fees. The application for new construction or major modification and the application for licensing shall be accompanied by a fee established pursuant to section 24-34-105, C.R.S.

Source: L. 65: p. 714, § 1. C.R.S. 1963: § 66-25-13. L. 77: Entire section amended, p. 1291, § 11, effective July 1. L. 86: Entire section amended, p. 976, § 6, effective April 6. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1541, § 8, effective July 1. L. 2001: Entire section amended, p. 120, § 8, effective July 1.

25-5-714. Disposition of fees and fines. (1) All fees collected by the board under the provisions of this part 7 shall be transmitted to the state treasurer, who shall credit the same pursuant to section 24-34-105, C.R.S., and the general assembly shall make annual appropriations pursuant to said section for expenditures of the board incurred in the performance of its duties under this part 7, which expenditures shall be made from such appropriations upon vouchers and warrants drawn pursuant to law.

(2) Fines collected pursuant to section 25-5-707 shall be deposited in the general fund of the state.

Source: L. 65: p. 714, § 1. C.R.S. 1963: § 66-25-14. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1541, § 8, effective July 1. L. 2006: Entire section amended, p. 96, § 65, effective August 7.

25-5-715. Inspections and investigations - costs - reports. (1) The board may cause to be made such inspection of the design, construction, operation, and maintenance of passenger tramways as the board may reasonably require.

(2) Such inspections shall include, at a minimum, two inspections per year or per two thousand hours of operation, whichever occurs first, of each passenger tramway, one of which inspections shall be during the high use season and shall be unannounced, and shall be carried out under contract by independent contractors selected by the board or by the supervisory tramway engineer. Additional inspections may be required by the board if the area operator does not, in the opinion of the board, make reasonable efforts to correct any deficiencies identified in any prior inspection or if the board otherwise deems such additional inspections necessary. The board shall provide in its rules and regulations that no facility shall be shut down for the purposes of a regular inspection during normal operating hours unless sufficient daylight is not available for the inspection.

(3) The board may employ independent contractors to make such inspections for reasonable fees plus expenses. The expenses incurred by the board in connection with the conduct of inspections provided for in this part 7 shall be paid in the first instance by the board, but each area operator of the passenger tramway which was the subject of such inspection shall, upon notification by the board of the amount due, reimburse the board for any charges made by such personnel for such services and for the actual expenses of each inspection.

(4) The board may cause an investigation to be made in response to an accident or incident involving a passenger tramway, as the board may reasonably require. The board may employ independent contractors to make such investigations for reasonable fees plus expenses. The expenses incurred by the board in connection with the conduct of investigations provided for in this part 7 shall be paid in the first instance by the board, and thereafter one or more area operators may be billed for work performed pursuant to subsection (3) of this section.

(5) If, as the result of an inspection, it is found that a violation of the board's rules and regulations exists, or a condition in passenger tramway design, construction, operation, or maintenance exists, endangering the safety of the public, an immediate report shall be made to the board for appropriate investigation and order.

Source: L. 65: p. 714, § 1. C.R.S. 1963: § 66-25-15. L. 86: Entire section amended, p. 976, § 7, effective April 3. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1542, § 8, effective July 1.

25-5-716. Emergency shutdown. When facts are presented tending to show that an unreasonable hazard exists in the continued operation of a passenger tramway, after such verification of said facts as is practical under the circumstances and consistent with the public safety, the board, any member thereof, or the supervisory tramway engineer may, by an emergency order, require the area operator of said tramway forthwith to cease using the same for the transportation of passengers. Such emergency order shall be in writing and signed by a member of the board or the supervisory tramway engineer, and notice thereof may be served by the supervisory tramway engineer, any member of the board, or as provided by the Colorado rules of civil procedure or the "State Administrative Procedure Act", article 4 of title 24, C.R.S. Such service shall be made upon the area operator or the area operator's agent immediately in control of said tramway. Such emergency shutdown shall be effective for a period not to exceed seventy-two hours from the time of service. The board shall conduct an investigation into the facts of the case and shall take such action under this part 7 as may be appropriate.

25-5-717. Provisions in lieu of others. The provisions for regulation, registration, and licensing of passenger tramways and the area operators thereof under this part 7 shall be in

lieu of all other regulations or registration or licensing requirements, and passenger tramways shall not be construed to be common carriers within the meaning of the laws of this state.

Source: L. 65: p. 715, § 1. C.R.S. 1963: § 66-25-17. L. 77: Entire section amended, p. 1292, § 13, effective July 1. L. 85: Entire section amended, p. 411, § 23, effective July 1. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1543, § 8, effective July 1.

ANNOTATION

Even though a ski lift operator is not a common carrier, the attendant circumstances of operating a ski lift demand that the ski lift operator be held to the highest degree of care

commensurate with the practical operation of the lift. *Bayer v. Crested Butte Mountain Resort*, 960 P.2d 70 (Colo. 1998).

25-5-718. Governmental immunity - limitations on liability. The board, any member of the board, any person on the staff of the board, any technical advisor appointed by the board, any member of an advisory committee appointed by the board, and any independent contractor hired to perform or acting as a state tramway inspector on behalf of the board with whom the board contracts for assistance shall be provided all protections of governmental immunity provided to public employees by article 10 of title 24, C.R.S., including but not limited to the payment of judgments and settlements, the provision of legal defense, and the payment of costs incurred in court actions. These protections shall be provided to the board, board members, staff, technical advisors, committee members, and independent contractors hired to perform or acting as a state tramway inspector on behalf of the board only with regard to actions brought because of acts or omissions committed by such persons in the course of official board duties.

Source: L. 65: p. 715, § 1. C.R.S. 1963: § 66-25-18. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1543, § 8, effective July 1.

ANNOTATION

Law reviews. For article, "Ski Injury Liability", see 43 U. Colo. L. Rev. 307 (1972).

25-5-719. Independent contractors - no general immunity. The provisions of section 25-5-718 shall be construed as a specific exception to the general exclusion of independent contractors hired to perform or acting as a state tramway inspector on behalf of the board from the protections of governmental immunity provided in article 10 of title 24, C.R.S.

Source: L. 86: Entire section added, p. 977, § 8, effective April 3. L. 93: Sections 25-5-705 to 25-5-719 R&RE, p. 1543, § 8, effective July 1.

25-5-720. Confidentiality of reports and other materials. (1) Reports of investigations conducted by an area operator or by a private contractor on an area operator's behalf and filed with the board or the board's staff shall be presumed to be privileged information exempt from public inspection under section 24-72-204 (3) (a) (IV), C.R.S., except as may be ordered by a court of competent jurisdiction.

(2) Except as otherwise provided in subsection (1) of this section, all information in the possession of the board's staff and all final reports to the board shall be open to public inspection in accordance with part 2 of article 72 of title 24, C.R.S.

Source: L. 93: Entire section added, p. 1544, § 9, effective July 1.

25-5-721. Repeal of part. (1) This part 7 is repealed, effective July 1, 2019.

(2) Prior to such repeal, the passenger tramway safety board shall be reviewed as provided for in section 24-34-104, C.R.S.

Source: **L. 93:** Entire section added, p. 1544, § 9, effective July 1. **L. 2001:** (1) amended, p. 120, § 9, effective July 1. **L. 2008:** (1) amended, p. 369, § 1, effective July 1.

PART 8

SWIMMING AREAS

25-5-801. Definitions. As used in this part 8, unless the context otherwise requires:

(1) "Natural swimming area" means a designated portion of a natural or impounded body of water in which the designated portion is devoted to swimming, recreative bathing, or wading and for which an individual is charged a fee for the use of such area for such purposes. Appurtenances used in connection with the natural swimming area shall also be included.

(2) "Swimming area" means a designated body of water of such volume and depth that one or more persons can swim in it and which is used for the purpose of swimming, recreative bathing, or wading and includes natural swimming areas and swimming pools.

(3) "Swimming pool" means a body of water, other than a natural swimming area, maintained exclusively for swimming, recreative bathing, or wading and includes appurtenances used in connection with the swimming pool.

Source: **L. 63:** p. 541, § 1. **C.R.S. 1963:** § 66-22-1.

ANNOTATION

Public bath comes within the definition of "swimming area". People ex rel. Dunbar v. Giordano, 173 Colo. 567, 481 P.2d 415 (1971).

25-5-802. Submission of plans and specifications. Prior to the construction, extension, enlarging, remodeling, or modification of a swimming area, the plans and specifications for the work to be done shall be submitted for review and recommendation to the department of public health and environment by the owner of the swimming area. The department of public health and environment may direct that such plans and specifications be submitted to the municipality or other political subdivision in which the swimming area is or may be located rather than to the department of public health and environment. This section does not prohibit any municipality from requiring that the plans also be submitted to the proper authority of the municipality.

Source: **L. 63:** p. 541, § 2. **C.R.S. 1963:** § 66-22-2. **L. 94:** Entire section amended, p. 2778, § 485, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-803. Sanitation of swimming areas. (1) A swimming area shall be kept clean and free of all accumulations of trash, garbage, filth, and debris. Concentrations of any other matter in the water shall not be injurious to health.

(2) All swimming areas shall provide separate toilet facilities for both males and females, and swimming pools shall also provide separate shower and locker room facilities; except that swimming pools used in connection with hotels, motels, apartment houses, and private clubs shall not be required to furnish separate shower, toilet, and locker room

facilities. All such facilities shall be kept clean and free from dirt, refuse, soiled toweling, or other noxious material.

(3) A swimming pool shall have an apparatus for the continuous removal from the water of suspended, floating, and settleable substances. Equipment for the disinfection of water shall be provided that shall be capable of either maintaining a minimum concentration of not less than twenty-five hundredths part per million of free chlorine residual or maintaining the minimum standards for drinking water in effect on January 1, 1969, as specified by the public health service of the United States department of health, education, and welfare. The water shall be kept clear enough to permit the bottom of the pool to be visible from the surface.

ANNOTATION

Applied in *People ex rel. Dunbar v. Gior-dano*, 173 Colo. 567, 481 P.2d 415 (1971).

25-5-804. Safety standards for swimming areas. (1) All natural swimming areas shall have a sanded beach the slope of which shall not be steeper than one foot of fall to ten feet of horizontal distance and shall be posted with warning signs, buoys, or other markers located not more than one hundred feet apart and visible to a person of ordinary visual acuity at a distance of not less than one hundred feet to mark water over three feet in depth and to mark the exterior limits of the designated swimming area. There shall also be provided not less than one life ring fifteen inches in diameter with seventy-five feet of three-sixteenths inch manila line attached which shall be hung in a conspicuous place on the beach where it shall be kept readily available for use. Each natural swimming area shall also have not less than one square-sterned boat with oars and oarlocks which shall be used only for lifesaving purposes. All other floating craft shall be excluded from the swimming areas except for enforcement craft when necessary to provide adequate supervision. When night swimming is permitted in the natural swimming area, the beach shall be fully illuminated.

(2) The diving tower or springboard, when provided, shall be rigidly constructed and securely anchored.

(3) Swimming pools shall be equipped with not less than one lightweight reaching pole of not less than twelve feet in length and not less than one life ring fifteen inches in diameter with seventy-five feet of three-sixteenths inch manila line attached, both of which shall be kept in a conspicuous place readily available to persons in the pool. When night swimming is permitted, the pool, adjacent area, and all appurtenances shall be fully illuminated.

Source: L. 63: p. 542, § 4. C.R.S. 1963: § 66-22-4.

25-5-805. Connection with potable water. All potable water supply sources connected to the swimming pool or pool appurtenances shall be protected against contamination by means of an air gap or equivalent device, and such device shall be placed between the source of the potable water supply and the pool or pool appurtenance.

Source: L. 63: p. 543, § 5. C.R.S. 1963: § 66-22-5.

25-5-806. Inspection. All swimming areas shall be open to inspection at any time they are in use and at any other reasonable time by agents of the department of public health and environment.

Source: L. 63: p. 543, § 6. C.R.S. 1963: § 66-22-6. L. 94: Entire section amended, p. 2779, § 486, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-807. Injunctive relief. The operation of a swimming area in violation of any provision of this part 8 may be restrained by the executive director of the department of public health and environment; by any city, county, city and county, or district health officer; or by any of their authorized agents in an action brought in a court of competent jurisdiction pursuant to the Colorado rules of civil procedure.

Source: L. 63: p. 543, § 7. C.R.S. 1963: § 66-22-7. L. 94: Entire section amended, p. 2779, § 487, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-808. Municipalities may regulate. Any city, town, or city and county may by ordinance regulate swimming areas. Any such ordinance may include standards which are the same or more restrictive than the standards set forth in this part 8 but shall not supersede the state law except insofar as they are more restrictive than the state standards.

Source: L. 63: p. 543, § 8. C.R.S. 1963: § 66-22-8. L. 69: p. 471, § 1.

25-5-809. Applicability of part 8. This part 8 shall not apply to any swimming pool constructed in connection with or appurtenant to a single-family dwelling, condominium, or apartment house, which pool is used solely by the persons living within such dwelling, condominium, or apartment house and the guests of such persons.

Source: L. 63: p. 543, § 9. C.R.S. 1963: § 66-22-9.

25-5-810. Rules and regulations. The department of public health and environment may adopt any rules and regulations necessary for the proper administration and enforcement of this part 8.

Source: L. 63: p. 543, § 10. C.R.S. 1963: § 66-22-10. L. 94: Entire section amended, p. 2779, § 488, effective July 1.

ANNOTATION

Applied in *People ex rel. Dunbar v. Gior-dano*, 173 Colo. 567, 481 P.2d 415 (1971).

PART 9

DANGEROUS DRUGS - THERAPEUTIC USE

25-5-901 to 25-5-907. (Repealed)

Source: L. 95: Entire part repealed, p. 203, § 19, effective April 13.

Editor's note: This part 9 was added in 1979. For amendments to this part 9 prior to its repeal in 1995, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 10

ARTIFICIAL TANNING DEVICES

25-5-1001. Short title. This part 10 shall be known and may be cited as the “Artificial Tanning Device Operation Act”.

Source: L. 92: Entire part added, p. 1284, § 1, effective July 1.

25-5-1002. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that injuries may result from improperly supervised use of artificial tanning devices which expose the human body to ultraviolet radiation. Artificial tanning devices may emit more than ten times the amount of ultraviolet radiation than normal exposure to the sun. Injuries from intense exposure may result in cases of premature aging, adverse reactions to medication, skin burns, eye burns, retinal damage, formation of cataracts, precancers, and the promotion of several types of skin cancers including, but not limited to, melanoma.

(2) The general assembly further finds, determines, and declares that artificial tanning device users may be unaware of and lack access to information that they may experience a heightened photosensitivity to artificial tanning as a result of the use of medications such as birth control pills, antibiotics, high blood pressure medications, diuretics, antihistamines, and oral diabetes medications; commonly available cosmetics; and certain citrus products such as limes.

(3) The general assembly further finds, determines, and declares that establishments which provide users with access to artificial tanning devices may fail to establish basic sanitary precautions against the transmission of communicable skin disorders, may fail to protect the user from either direct contact with bulbs or from shards of glass if a bulb explodes, and may fail to provide users with appropriate health or physical safety information.

Source: L. 92: Entire part added, p. 1284, § 1, effective July 1.

25-5-1003. Definitions. As used in this part 10, unless the context otherwise requires:

(1) “Artificial tanning device” means any equipment that emits ultraviolet radiation with wavelengths in the air between two hundred and four hundred nanometers and that is used for the tanning of human skin, including, but not limited to, sunlamps, tanning beds, and tanning booths. “Artificial tanning device” does not include phototherapy devices.

(2) “Board” means the state board of health.

(3) “Department” means the department of public health and environment.

(4) “Fund” means the artificial tanning device education fund created in section 25-5-1004.

(5) “Phototherapy device” means a piece of equipment that emits ultraviolet radiation and that is used by or under the supervision of a licensed health care professional in the treatment of disease.

(6) “Tanning facility” means any location, premises, place, area, structure, or business, whether permanent or mobile, which provides persons access to artificial tanning devices.

(7) “Ultraviolet radiation” means electromagnetic radiation with wavelengths in the air between two hundred and four hundred nanometers.

Source: L. 92: Entire part added, p. 1285, § 1, effective July 1. **L. 94:** (3) amended, p. 2779, § 489, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5-1004. Registration required - fee - artificial tanning device education fund - creation. (1) Commencing January 1, 1993, and on each January 1 thereafter, the owner of any artificial tanning facility which makes artificial tanning devices available for public use shall register said facility with the department.

(2) (a) The registration of each artificial tanning facility as required in subsection (1) of this section shall be accompanied by an annual registration fee for each artificial tanning facility in the amount of one hundred twenty dollars for each calendar year. The annual registration fee shall be prorated on a monthly basis for any initial registration received after January 1 of any year.

(b) Notwithstanding the amount specified for the fee in paragraph (a) of this subsection (2), the board by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the board by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

(3) All fees shall be collected by the department and transmitted to the state treasurer, who shall credit the same to the artificial tanning device education fund, which fund is hereby created. The fund shall be comprised of the annual registration fees. In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of moneys in the fund shall be credited to the general fund. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund. The moneys in the fund shall be annually appropriated by the general assembly to the department for the direct and indirect costs of the administration and implementation of the provisions of this part 10.

Source: L. 92: Entire part added, p. 1285, § 1, effective July 1. L. 98: (2) amended, p. 1334, § 47, effective June 1.

25-5-1005. Exemptions. (1) The following devices are exempt from the requirements of this part 10:

(a) Artificial tanning devices which are used exclusively for personal, noncommercial purposes by the owner, members of the owner's family, or persons authorized by the owner to use the device;

(b) Phototherapy devices used by or under the supervision of a licensed physician or other licensed health care professional within the scope of such person's practice for the purposes of treating diseases; and

(c) Artificial tanning devices which are in transit or storage and are not made available for use during such transit or storage.

(2) Nothing in this section shall be construed to mean that the department endorses any type of artificial tanning device, any location of such devices, any business which provides artificial tanning devices for use by the public, or the use of any such devices.

Source: L. 92: Entire part added, p. 1286, § 1, effective July 1.

25-5-1006. Rule-making authority - board. (1) The standards established by the United States food and drug administration shall be the minimum standards for exposure to radiation through an artificial tanning device in this state; except that the board may establish rules adopting standards for exposure to radiation through artificial tanning devices which are no less stringent than the federal standards.

(2) (a) The board may, by rule, adopt any further standards or regulations necessary to protect the public from unsafe artificial tanning devices or other unsafe equipment, and from unsafe operational methods, and any such other rules and regulations as are necessary for the implementation of this part 10.

(b) The board shall formulate, adopt, and promulgate rules and regulations concerning on-site inspections of tanning facilities, and the department shall conduct such on-site inspections in accordance with the rules and regulations promulgated under this paragraph (b).

Source: L. 92: Entire part added, p. 1286, § 1, effective July 1.

25-5-1007. Owner responsibilities. (1) The owner of each registered artificial tanning device shall provide to the department such information concerning the safe and proper operation of the owner's artificial tanning device as is required by this part 10.

(2) The owner shall post a sign on the premises where the artificial tanning device is located which notifies operators and potential users of the safety and health risks associated with the use of such devices. The board shall establish standards concerning the information to be contained in said notice and the size and location of posting the notice on the premises. Said notice shall be of a size and in a location on the premises which allows it to be easily read by users before being exposed to the artificial tanning device.

(3) The owner shall provide each user with a written handout as specified by the board containing, at a minimum, the following information:

(a) The risks of potential negative health effects as a result of improperly supervised exposure to ultraviolet radiation and the general health and sanitation risks associated with the use of such devices;

(b) The risks of potential negative health effects as a result of exposure to ultraviolet radiation while in poor health or on certain medications; and

(c) Specific safety and operation information on the artificial tanning device which is to be used.

(4) The owner shall provide to users the safety equipment required by the board.

(5) The owner shall provide and maintain such general sanitation and cleaning of equipment as required by the board.

(6) The owner shall inform the department of any accident or adverse reaction to the use of an artificial tanning device and provide such detailed information as required by the department. A written report in the format required by the department shall be submitted within fifteen days after discovery of the event. Any records, reports, or information obtained from a person pursuant to the provisions of this subsection (6) shall be closed and confidential.

(7) No owner, employee, or operator of any artificial tanning device or tanning facility shall advertise or promote that the use of any artificial tanning device is safe or without risk to the user or that registration with the department constitutes approval or endorsement of either the use of the device or the use of artificial tanning in general.

Source: L. 92: Entire part added, p. 1287, § 1, effective July 1.

Editor's note: In 1995, the provisions of subsection (3) were renumbered on revision to conform to statutory format.

25-5-1008. Complaints - investigation. The department shall have the authority to investigate complaints regarding any injury, accident, or the unsafe operation of an artificial tanning device.

Source: L. 92: Entire part added, p. 1288, § 1, effective July 1.

25-5-1009. Penalties. (1) Upon a finding by the board that an owner or lessee of a tanning facility is in violation of any of the provisions of this part 10, or the standards, rules, or regulations adopted by the board pursuant to this part 10, the board may assess a penalty of up to two hundred dollars for each day of violation, and each day of violation shall be considered a separate offense. Actions may be brought by the attorney general in the district court of the district within which the tanning device is located. In determining the amount of the penalty, the board shall consider the degree of danger to the public caused by the violation, the duration of the violation, and whether the owner or lessee has committed any similar violations. Any penalty fees collected by the board shall be remitted to the state treasurer, who shall credit the same to the tanning device education fund, created in section 25-5-1004.

(2) An owner or lessee subject to a penalty assessment pursuant to this section may appeal the penalty to the board by requesting a hearing before the board. Such a request shall be filed within thirty days after the penalty assessment is issued. A hearing before the board shall be conducted in accordance with article 4 of title 24, C.R.S.

Source: L. 92: Entire part added, p. 1288, § 1, effective July 1.

25-5-1010. Enforcement. (1) (a) Whenever the department has reasonable cause to believe a violation of this part 10 or any rule made pursuant to this part 10 has occurred and immediate enforcement is deemed necessary, the department may issue a cease-and-desist order, which may require any person to cease violating any provision of this part 10 or any rule made pursuant to this part 10. Such cease-and-desist order shall set forth the provisions alleged to have been violated, the facts alleged to have constituted the violation, and the requirement that all actions be ceased forthwith.

(b) In the event that any person fails to comply with a cease-and-desist order within twenty-four hours, the department may apply to the district court of the district within which the tanning device is located for a temporary or permanent injunction restraining any person from violating any provision of this part 10 regardless of whether there is an adequate remedy at law.

(c) No stay of a cease-and-desist order shall be issued before a hearing thereon involving both parties.

(2) Whenever it appears to the department, upon evidence satisfactory to the department, that any person has engaged in or is about to engage in any act or practice constituting a violation of any provision of this part 10 or of any rule or of any order promulgated under this part 10, the department may apply to the district court of the district within which the tanning device is located to temporarily or permanently restrain or enjoin the act or practice in question and to enforce compliance with this part 10 or any rule or order promulgated under this part 10. In any such action, the department shall not be required to plead or prove irreparable injury or the inadequacy of the remedy at law. Under no circumstances shall the court require the department to post a bond.

(3) It is a violation of this part 10 for:

(a) Any person to knowingly operate a tanning facility without having registered said facility with the department in accordance with the provisions of this part 10;

(b) Any person to offer for use to the public any artificial tanning device which is not registered with the department as required by the provisions of this part 10;

(c) Any person to violate any provision of this part 10 or any provision of any standards, rules, or regulations adopted by the board;

(d) Any person to refuse to permit entry for the purpose of inspection of a tanning facility during normal business hours.

Source: L. 92: Entire part added, p. 1289, § 1, effective July 1.

25-5-1011. Assumption of risk inapplicable. In any civil action for damages for an injury sustained as the result of the use of an artificial tanning device, it shall be presumed that the defense of assumption of risk as set forth in section 13-21-111.7, C.R.S., shall not apply if the owner has failed to provide the injured party with the written handout or the safety equipment as required by section 25-5-1007, or if the owner has failed to provide a safe artificial tanning device.

Source: L. 92: Entire part added, p. 1290, § 1, effective July 1.

PART 11

PREVENTION, INTERVENTION, AND REDUCTION OF LEAD EXPOSURE

25-5-1101. Legislative declaration. (1) (a) The general assembly hereby declares that this part 11 is enacted for the purpose of reducing exposure of children to lead hazards

and reducing the prevalence of elevated blood lead levels in children under seven years of age. The general assembly finds and determines that:

(I) Exposure of children to lead represents a significant environmental health problem in the state that is preventable;

(II) The existence of elevated blood lead levels in children is of great concern to the citizens of Colorado because lead poisoning in children may necessitate large expenditures of public funds for health care and special education, which expenditures could be avoided if exposure of children to lead is reduced;

(III) A comprehensive lead hazard reduction program is needed to prevent elevated blood lead levels in children and, if implemented, such program could prevent hundreds of Colorado's children, many of whom currently go undiagnosed or untreated, from being exposed to lead at levels believed to be harmful.

(b) Therefore, it is the intent of the general assembly to establish and fund a statewide lead hazard prevention, intervention, and reduction program within the department of public health and environment for the purposes of:

(I) Compiling information concerning the prevalence, causes, and geographic occurrence of elevated levels of lead in children's blood;

(II) Identifying areas of the state where children's lead exposures are significant;

(III) Analyzing lead information and, where indicated, designing and implementing a program of medical monitoring and follow-up and environmental intervention that will reduce the incidence of excessive exposure of children to lead in residences and child-occupied facilities in Colorado; and

(IV) Providing comprehensive educational materials that are targeted to health care providers, child care providers, schools, parents of young children, the real estate industry, and owners of rental properties.

Source: L. 97: Entire part added, p. 1083, § 1, effective July 1.

25-5-1102. Definitions. As used in this part 11, unless the context otherwise requires:

(1) "Child-occupied facility" has the same meaning as that set forth in section 25-7-1102 (2).

(2) "Department" means the department of public health and environment.

(3) "Lead-based paint" has the same meaning as that set forth in section 25-7-1102 (5).

Source: L. 97: Entire part added, p. 1084, § 1, effective July 1.

25-5-1103. Lead hazard reduction program. There is hereby created the lead hazard reduction program in the department of public health and environment to perform prevention, intervention, and general hazard reduction activities needed to reduce exposure of children to lead-based paint hazards. As part of the program, the department shall coordinate actions between the department and the departments of education, human services, health care policy and financing, and local affairs to produce a comprehensive plan and program to prevent elevated blood lead levels in children and to control exposure to lead-based paint hazards in residences and child-occupied facilities in Colorado. The provisions of this part 11 apply only to lead-based paint hazards.

Source: L. 97: Entire part added, p. 1084, § 1, effective July 1.

25-5-1104. Comprehensive plan. (1) On or before July 1, 1998, the department shall establish a comprehensive plan to prevent elevated blood lead levels in children and to control exposure of children to lead-based paint hazards in residences and child-occupied facilities. The plan shall include:

(a) Development of standards by the state board of health concerning the method and frequency of screening of young children for elevated blood lead levels. The state board of health shall consult with recognized medical, public health, and environmental professionals and appropriate professional organizations in the development of such standards.

- (b) Development of a comprehensive education program regarding lead contamination that makes appropriate educational materials available to health care providers, child care providers, schools, owners and tenants of residential dwellings built prior to 1978, and parents of young children;
- (c) Case management and environmental follow-up services by state or local health agencies to ensure that all cases of elevated blood lead levels in children receive service appropriate for the severity of the lead exposure;
- (d) Recommendations concerning further legislative actions to address lead exposure, including, but not limited to, requiring third-party insurers or payers, including medicaid, to provide coverage for screening, treatment, environmental investigations, and environmental intervention;
- (e) Proposed regulations governing the requirement, timing, and conduct of environmental investigations and interventions; and
- (f) A detailed fiscal analysis of the lead hazard reduction program.

25-5-1105. Report. (Repealed)

Source: L. 97: Entire part added, p. 1085, § 1, effective July 1. L. 2008: Entire section repealed, p. 1907, § 101, effective August 5.

- 25-5-1106. Acceptance of gifts, grants, and donations - lead hazard reduction cash fund.** (1) The department is authorized to accept gifts, grants, and donations for the purpose of implementing this part 11 and part 11 of article 7 of this title.
- (2) There is hereby established in the state treasury the lead hazard reduction cash fund, referred to in this part 11 as the “fund”. The fund shall consist of any fees, gifts, grants, and donations received from any person or entity. Any interest derived from the deposit and investment of moneys in the fund shall remain in the fund and may not be credited or transferred to the general fund or any other fund.
- (3) The general assembly shall make appropriations from the fund to the department for the implementation of this part 11 of article 7 of this title.

ARTICLE 5.5

Dairy Products, Imitation Dairy Products,
and Frozen Desserts

Editor’s note: Prior to the enactment of this article in 1985, substantive provisions concerning dairy products and imitation dairy products were found in article 24 of title 35 and substantive provisions concerning frozen desserts were found in article 34 of title 35.

PART 1		25-5.5-107.	Testing and sampling of dairy products - unlawful acts - licensing - dairy protection cash fund - created.
DAIRY PRODUCTS		25-5.5-108.	Condensed milk and cream.
25-5.5-101.	Definitions.	25-5.5-109.	Brands and marks - defacement.
25-5.5-102.	Butter defined - standards.	25-5.5-110.	Milk, cream, and cheese - standards.
25-5.5-103.	Powers and duties.	25-5.5-111.	Treated milk to be labeled.
25-5.5-104.	Unsanitary dairy products.	25-5.5-112.	Weight ticket to be furnished.
25-5.5-105.	Unsanitary utensils, equipment, and premises - prohibited.	25-5.5-113.	Sample taken upon arrival.
25-5.5-106.	Containers of dairy products - prompt delivery - removal of products.		

25-5.5-114. Interference with officer - pen-
alty.

PART 3

25-5.5-115. Analyses prima facie evidence.

FROZEN DESSERTS

25-5.5-116. Penalty.

25-5.5-117. Raw milk.

25-5.5-301. Short title.

25-5.5-302. Definitions.

25-5.5-303. Ice cream - standards.

25-5.5-304. French ice cream and custards -
standards.

PART 2

IMITATION DAIRY PRODUCTS

25-5.5-305. Ice milk - standards.

25-5.5-305.5. Low-fat frozen dairy dessert -
standards.

25-5.5-201. Short title.

25-5.5-202. Purpose.

25-5.5-203. Definitions.

25-5.5-204. Imitation dairy products - label-
ing.

25-5.5-205. Enforcement and power - rules.

25-5.5-206. Enforcement by injunction.

25-5.5-207. Subpoena of defendant.

25-5.5-208. Seizure of products.

25-5.5-209. Penalty.

25-5.5-306. Sherbet - standards.

25-5.5-307. Water ice - standards.

25-5.5-308. Adulterated and misbranded -
when.25-5.5-309. Administration and enforce-
ment.

25-5.5-310. Regulations.

25-5.5-311. Products detained or embar-
goed - when.

25-5.5-312. Violations - penalty.

PART 1

DAIRY PRODUCTS

25-5.5-101. Definitions. As used in this part 1, unless the context otherwise requires:

(1) "Cheese" means the fresh or matured product obtained by the draining, after coagulation, of milk, cream, skimmed or partly skimmed milk, or a combination of some or all of these products, including any cheese that conforms to the provisions of the definitions and standards of identity for cheese and cheese products, a regulation of the food and drug administration, 21 CFR 133.3.

(2) "Cream" means the liquid milk product which is high in fat and separated from milk and which may have been adjusted by adding milk, concentrated milk, dry whole milk, or nonfat dry milk and which contains not less than eighteen percent milk fat.

(3) "Dairy farm" means the place or premises on which one or more lactating hooved animals are kept and from which a part or all of the milk produced thereon is delivered, sold, or offered for sale to a dairy plant for manufacturing purposes.

(4) (a) "Dairy plant" means any place, premises, or establishment where milk or dairy products are received or handled for processing or manufacturing and where they are prepared for distribution.

(b) For the purposes of this subsection (4), "dairy plant", when used in connection with the requirements therefor or the licensing thereof, means any establishment that manufactures dairy products; except that any "dairy plant" that is located in an establishment licensed pursuant to part 16 of article 4 of this title is exempt from the licensing requirements of this article if such establishment sells or serves dairy products exclusively and directly to the final consumer of the product.

(5) "Dairy products" means food products manufactured from milk or cream or from any combination of milk and cream with other food ingredients intended for human consumption, including, but not limited to, butter, natural or processed cheese, dry whole milk, nonfat dry milk, dry buttermilk, dry whey, evaporated whole milk or skim milk, condensed whole milk, condensed skim milk, or ice cream or other frozen desserts specified in part 3 of this article. "Dairy products" does not include milk or milk products as defined in the grade A pasteurized milk ordinance, 1978 recommendations of the United States public health service, food and drug administration, superintendent of documents number HE 20.4002:M59-3.

(6) "Department" means the department of public health and environment or its authorized representative.

(7) “Goat milk” means the lacteal secretion, practically free from colostrum, which is obtained by the complete milking of healthy goats.

(8) “HTST method” means the high temperature short-time method of pasteurization.

(9) “Manufacturing milk” means milk produced for processing and manufacturing into dairy products for human consumption but not subject to grade A or comparable requirements.

(10) “Milk” means the lacteal secretion, practically free from colostrum, which is obtained by the complete milking of healthy cows, excluding that milk obtained less than eight days before and less than four days after calving or for such longer period as may be necessary to render the milk practically colostrum free, and which contains not less than eight and one-quarter percent nonfat milk solids and not less than three percent milk fat; except that, in those instances where the normal secretion of the cows is less than three percent milk fat, this product shall be accepted as milk for manufacturing purposes.

(11) “Milk sampler” means a person licensed by the department who is qualified and trained to sample or test milk or cream for the purpose of payment and includes a bulk milk hauler that collects milk from dairy farms.

(12) “Official methods” means official methods of analysis of the association of official analytical chemists, 13th edition, 1980, a publication of the association of official analytical chemists, as amended, supplemented, or republished.

(13) “Pasteurization” means the process of heating every particle of milk or milk product in properly designed and operated equipment to one of the temperatures provided in the following table and held continuously at or above that temperature for at least the corresponding specified time.

Temperature	Time
*145 degrees F (63 degrees C)	30 minutes
*161 degrees F (72 degrees C)	15 seconds
191 degrees F (89 degrees C)	1 second
194 degrees F (90 degrees C)	0.5 second
201 degrees F (94 degrees C)	0.1 second
204 degrees F (96 degrees C)	0.05 second
212 degrees F (100 degrees C)	0.01 second

*If the fat content of the milk product is ten percent or more or if it contains added sweeteners, the specified temperature shall be increased by five degrees Fahrenheit (three degrees Celsius).

(14) “Pasteurized” means treated pursuant to the pasteurization process specified in subsection (13) of this section.

(15) “Person” means any individual, firm, association, corporation, or partnership doing business in this state, in whole or in part, and any officer, agent, servant, and employee thereof.

(16) “Producer” means the person who exercises control over the production of the milk delivered to a processing plant or receiving station and who receives payment for this product.

(17) To “sanitize” means to treat a clean surface with any effective method or substance acceptable to the department for the destruction of pathogens and other organisms as far as is practical without adversely affecting the equipment, the milk or milk product, or the health of consumers.

(18) “Standard methods” means the standard methods for the examination of dairy products, 13th edition, 1972, a publication of the American public health association, as amended, supplemented, or republished.

(19) “Test” means the process of determining the milkfat content of milk and milk products for the purpose of buying or selling milk or milk products. All tests shall be conducted and samples shall be collected in accordance with the standard methods specified in subsection (18) of this section or any other method approved by the department.

(20) “Transfer or receiving station” means any place, premises, or establishment where milk or milk products are transferred directly from one milk tank truck to another or where raw milk is received, collected, handled, stored, or cooled and prepared for further transporting. The term “transfer or receiving station” shall not include a dairy farm.

Source: **L. 85:** Entire article added, p. 887, § 1, effective April 5. **L. 90:** (4)(b) amended, p. 1319, § 1, effective July 1. **L. 94:** (6) amended, p. 2779, § 490, effective July 1. **L. 2009:** (3) and (4)(b) amended and (20) added, (HB 09-1320), ch. 350, p. 1830, § 1, effective June 30.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (6), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5.5-102. Butter defined - standards. (1) (a) Butter is a food product which is made exclusively from milk, from cream, or from both milk and cream, with or without common salt and with or without additional coloring matter, and which contains not less than eighty percent by weight of milk fat, with all tolerances having been allowed for.

(b) Cream for butter-making shall be pasteurized at a temperature of not less than one hundred sixty-five degrees Fahrenheit and held continuously in a vat at such temperature for not less than thirty minutes or pasteurized by the HTST method at a minimum temperature of not less than one hundred eighty-five degrees Fahrenheit for not less than fifteen seconds or pasteurized by any other equivalent temperature and holding time which will assure adequate pasteurization.

(c) Whipped butter is butter that has been stirred or whipped to incorporate air or inert gas until its volume has been increased up to a range of fifty percent to one hundred percent.

(2) The standards for butter are as follows: The proteolytic count of not more than one hundred per gram, the yeast and mold count of not more than twenty per gram, and the coliform count of not more than ten per gram.

Source: **L. 85:** Entire article added, p. 889, § 1, effective April 5. **L. 2002:** (1)(c) amended, p. 18, § 2, effective August 7.

25-5.5-103. Powers and duties. (1) The department shall cause to be enforced the provisions of this part 1 and all other state laws and regulations regarding the production, manufacture, and sale of dairy products. The department shall inspect or cause to be inspected any milk, butter, or cheese or any other dairy product which it suspects or has reason to believe is unsanitary, adulterated, or counterfeit and shall inspect or cause to be inspected any cow, building, dairy farm, dairy plant, vehicle, or premises used for the production, manufacture, sale, or transportation of any dairy product when it suspects or has reason to believe that such product is unsanitary, adulterated, or counterfeit. Unsanitary or adulterated dairy products shall be subject to condemnation by the department and, when condemned, must be so treated that it cannot be manufactured or renovated for human food.

(2) For the purpose of enforcing this part 1, the department shall have free access to any barn or stable where any cow is kept or milked or to any factory, building, dairy farm, dairy plant, premises, or place in which it has reason to believe that any dairy product or counterfeit dairy product is manufactured, handled, prepared, sold, or offered for sale and may enforce such measures as may be necessary to secure perfect cleanliness in and around the same, and of any utensil used therein, and to prevent the sale of any unsanitary, adulterated, or counterfeit dairy product.

(3) For the purpose of enforcing this part 1, the department may open any package or receptacle of any kind which contains, or which is supposed to contain, any dairy product or counterfeit dairy product and examine or analyze the contents thereof. Any such article or sample thereof may be seized or taken for the purpose of having it analyzed; but, if the person from whom it is taken so requests at the time of taking, the officer shall then, and

in the presence of that person, securely seal two samples of such article, one of which shall be for analysis under the direction of the department and the other for delivery to the person from whom the sample or article was obtained.

Source: L. 85: Entire article added, p. 890, § 1, effective April 5.

25-5.5-104. Unsanitary dairy products. (1) The following types of dairy products are declared to be unsanitary: Milk drawn within eight days before or four days after calving; milk drawn from cows that are kept in barns or stables which are not reasonably well-lighted and well-ventilated or that are kept in barns or stables that are filthy from an accumulation of animal feces and excreta or from any other cause; milk which is drawn from cows which are themselves filthy or in an unhealthy condition; milk kept or transported in dirty, rusty, or open seamed cans, tanks, or other containers; cream produced from any such milk, or milk, cream, butter, or any other dairy product that is stale or putrid, or milk, cream, butter, or any other dairy product which has been exposed to foul or noxious air or gases in barns occupied by animals or drawn or kept exposed in dirty, foul, or unclean places or under unclean conditions or where transmissible human disease exists; cream containing less than sixteen percent butterfat; cream produced by the use of a cream separator, which separator has not been thoroughly washed, cleansed, and sanitized after previous use in the separation of cream from milk; cream produced by the use of a separator placed or stationed in any unclean or filthy room or place or in any building containing a stable wherein cattle or other animals are kept, unless said cream separator is so separated and shielded by partition from the stable portion of such building as to be free from all foul or noxious air or gases which issue or may issue from such place or stable; cream which when delivered at the point of shipment is more than three days old during the months of May to October inclusive or more than four days old during the months of November to April inclusive; milk or cream to which has been added, in any quantity, any foreign substance or coloring matter, chemical or preservative, or butter or butterfat, whether for the purpose of increasing the quantity of milk or for preserving the condition of sweetness thereof or for any purpose whatever.

(2) Nothing in this part 1 shall be construed to prohibit the sale of homogenized cream made from butter and milk, if such product is labeled or stamped as imitation cream according to the requirements of the department, or the sale of standardized milk which otherwise meets with the requirements of this part 1.

(3) No person shall sell or offer for sale, or furnish or deliver or have in his possession or under his control with intent to sell or offer for sale, or furnish or deliver to any other person as food for man or to any creamery, cheese factory, milk-condensing factory, or milk or cream dealer any unsanitary milk, cream, or butter or any adulterated dairy product.

(4) No person shall manufacture for sale any article of food for man from any unsanitary milk or from any unsanitary cream.

Source: L. 85: Entire article added, p. 890, § 1, effective April 5.

25-5.5-105. Unsanitary utensils, equipment, and premises - prohibited. It is unlawful for any person using such premises, equipment, or utensils, or causing them to be used, to maintain them in an unsanitary condition.

Source: L. 85: Entire article added, p. 891, § 1, effective April 5.

25-5.5-106. Containers of dairy products - prompt delivery - removal of products. Any person who receives in cans, tanks, or other containers any milk, cream, or other dairy products intended as food for man which has been transported by any private or common carrier, when such cans, tanks, or containers are to be returned, shall cause the said cans, tanks, or other containers to be thoroughly washed, cleansed, and sanitized before return shipment. It is unlawful for any common or private carrier to neglect or fail to remove or ship from any transportation facility, on the day of its arrival there for shipment, any milk,

cream, or other dairy products left at such facility for transportation unless a refrigerated facility is provided for holding such products. It is unlawful for any person, firm, or corporation using cans, tanks, or other containers in which milk or cream is shipped to allow the same to remain at a transportation facility longer than one day from the date of their arrival unless such product is maintained in a refrigerated facility at a temperature not exceeding forty-five degrees Fahrenheit.

Source: L. 85: Entire article added, p. 891, § 1, effective April 5.

25-5.5-107. Testing and sampling of dairy products - unlawful acts - licensing - dairy protection cash fund - created. (1) It is unlawful for any person engaged in buying, selling, testing, or handling, or engaged in determining the value of, milk, cream, or any other dairy product by the use of an approved test to give, by himself or his agent, any false reading of the test, or to manipulate the test in any way so as to give a higher or lower percent of butterfat than the milk, cream, or other dairy product actually contains, or to cause any inaccuracy in reading the percent of butterfat by securing from any quantity of the milk, cream, or other dairy product to be tested an inaccurate sample for the test. It is unlawful for any person to use any test tube, bottle, pipette, or instrument in connection with such test which is not perfectly clean; and any such unclean glassware is declared to be inaccurate.

(2) It is unlawful for any person to sample or test milk, cream, or any other dairy product to determine the value of such product when bought and sold or to instruct another person for such purpose without first having a license granted by the department, which license shall be conspicuously displayed in the person's place of business. Licenses shall be granted to those persons who have completed a course in milk and cream testing in any recognized college or dairy school or to those persons who have passed a satisfactory examination under the direction of the department. Payment of a yearly fee of fifty dollars is required, and the license shall be issued for a period of one year from the July 1 next preceding the actual date of issue; however, the license shall be subject to cancellation by the department at any time if it finds that the person holding the license is incompetent or guilty of violating this part 1.

(3) Every person engaged in receiving, buying, selling, or otherwise handling milk or cream for sale, shipment, manufacture, or distribution, except public transportation companies, is required to hold a license to be known as a dairy plant license for the operation of each receiving station, skimming station, concentrating station, milk plant condensary, creamery, cheese factory, ice-cream factory, or other dairy plant being so operated.

(4) (a) (I) A temporary permit to operate the following dairy plants may be issued by the department upon application and upon the payment of a yearly license fee in the amount specified in subparagraph (II) of this paragraph (a) for each condensary, cheese factory, ice-cream factory, or other place of business where dairy products are manufactured or put in containers for sale or distribution.

(II) Except for a transfer or receiving station, which shall be charged the fee set forth in sub-subparagraph (A) of this subparagraph (II), the fee for a license issued under this subsection (4) shall be determined and paid according to the annual average daily amount of milk received for manufacturing by the dairy plant, as follows:

Annual average daily amount of milk received	Fee
(A) Under 1,000 pounds	\$ 300
(B) 1,000 to 19,999 pounds	\$ 600
(C) 20,000 to 449,999 pounds	\$1,000
(D) 450,000 or more pounds	\$1,600

(b) A temporary permit is valid until an inspection has been made by an agent of the department; whereupon, if the applicant has complied with the requirements of the dairy laws, the department shall issue a license for a period of one year from the July 1 next preceding the actual date of issue.

(5) The department has the power to issue necessary regulations for the government of licensed dairy plants and licensed milk samplers covering such points as disposal of sewage, location with regard to living rooms and other possible sources of contamination, and other points not specifically mentioned in the dairy laws.

(6) These regulations shall have the force and effect of law, and the department has the power to cancel a license for a period not exceeding ninety days when it finds that the holder thereof has violated the law or regulations. Suit may be brought against the state to establish the reasonableness of a regulation, and, if the decision affirms the reasonableness of the regulation, it shall be enforced.

(7) All moneys collected by the department for the license fees provided for in this section shall be transmitted to the state treasurer, who shall credit the same to the dairy protection cash fund, referred to in this subsection (7) as the "fund", which is hereby created in the state treasury. The general assembly shall annually appropriate the moneys in the fund to the department for the payment of expenses necessary to administer this section. Any unexpended and unencumbered moneys remaining in the fund at the end of any fiscal year shall not revert to the general fund or any other fund.

Source: L. 85: Entire article added, p. 892, § 1, effective April 5. **L. 2009:** (2), (4)(a), and (7) amended, (HB 09-1320), ch. 350, p. 1831, § 2, effective June 30.

25-5.5-108. Condensed milk and cream. (1) No person shall manufacture for sale within this state or offer or expose for sale or have in his possession with intent to sell or exchange any sweetened condensed milk, unless the same contains not less than twenty-eight percent by weight of milk solids and not less than seven and five-tenths percent butterfat, or any unsweetened condensed milk, unless the same contains not less than seven and five-tenths percent butterfat. Nothing in this part 1 shall be construed to prohibit the handling, manufacture, or sale of bulk condensed or evaporated skim milk when properly tagged and labeled in accordance with rulings of the department.

(2) No person shall manufacture for sale within this state or offer or expose for sale, have in his possession with intent to sell, or sell or exchange for evaporated or condensed cream any substance except the product obtained by the evaporation of a portion of water from cream containing not less than eighteen percent by weight of butterfat. Nothing in this part 1 shall apply to goods manufactured within this state for sale and shipment outside of the state.

Source: L. 85: Entire article added, p. 893, § 1, effective April 5.

25-5.5-109. Brands and marks - defacement. (1) Any person engaged in the transportation or manufacture of any dairy product or ice cream or in bottling milk and cream for sale and use may adopt a brand or mark of ownership to be stamped or marked on any can, bottle, or other receptacle used in the handling and transportation of any of said products and may file in the office of the secretary of state a description of the brand or mark so used by them and the use to be made of any such can, bottle, or other receptacle. The brand or mark so selected and adopted may consist of a name, design, or mark or some particular color of paint or enamel used upon the can, bottle, or other receptacle or any part thereof.

(2) It is unlawful for any person to adopt or use any brand or mark which has already been designed, appropriated, or obtained under the provisions of this section. It is unlawful for any person, other than the rightful owner thereof, to use any can, bottle, or other receptacle marked or branded for any purpose or for the transportation or handling of any other article or dairy product than the one designed or provided for by such brand or mark. It is unlawful for any person, other than the rightful owner thereof, to deface or remove any such brand or mark put upon any such can, bottle, or other receptacle.

(3) To prevent the use of said cans, bottles, or other receptacles for any purpose other than those provided for in this part 1 and to insure the wholesomeness and high quality of

the dairy products and the sanitary conditions of the receptacles in which the same are transported, it is the duty of the department to enforce the provisions of this section.

Source: L. 85: Entire article added, p. 893, § 1, effective April 5.

25-5.5-110. Milk, cream, and cheese - standards. (1) Whole milk sold or offered for retail sale shall contain not less than three and one-fourth percent butterfat. Cream for the same use shall contain not less than eighteen percent butterfat.

(2) Full cream cheese shall contain not less than fifty percent butterfat in comparison with the total solids. Cheese containing less than the said amount of fat shall be branded "skim" cheese or "part skim" cheese, as the case may be.

Source: L. 85: Entire article added, p. 893, § 1, effective April 5.

25-5.5-111. Treated milk to be labeled. It is unlawful for any milk or cream to be sold or offered for sale which has been homogenized, viscolized, emulsified, or treated in any manner which will give it the appearance of containing more butterfat than it actually contains, unless it is so labeled as such.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-112. Weight ticket to be furnished. An itemized daily weight ticket covering every shipment of milk or cream shall be furnished with each settlement to the producer or his agent.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-113. Sample taken upon arrival. At any plant where a bacterial test is used as a basis of price-fixing, the sample for such test shall be taken at the dairy farm or immediately upon arrival of the milk at the receiving plant.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-114. Interference with officer - penalty. Any person who refuses to allow the inspections provided for in this part 1 or in any way hinders or obstructs the proper officers from performing their duties under this part 1 is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars or by imprisonment in the county jail for not more than thirty days.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-115. Analyses prima facie evidence. Reports of analyses and tests signed by the department shall be accepted in all courts and places as prima facie evidence of the properties, constituency, or condition of the article analyzed.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-116. Penalty. Any person or any agent or servant thereof who violates any of the provisions of this part 1, if the punishment for the violation is not elsewhere prescribed in this part 1, is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than ten dollars nor more than two hundred dollars and by imprisonment in the county jail for not more than sixty days for each such offense.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-117. Raw milk. (1) The acquisition of raw milk from cows or goats by a consumer for use or consumption by the consumer shall not constitute the sale of raw milk and shall not be prohibited if all of the following conditions are met:

(a) The owner of a cow, goat, cow shares, or goat shares shall receive raw milk directly from the farm or dairy where the cow, goat, or dairy herd is located and the farm or dairy is registered pursuant to subsection (2) of this section. A person who is the owner of a cow share or goat share in a cow, goat, or dairy herd may receive raw milk on behalf of another owner of the same cow, goat, or dairy herd. A person who is not an owner of a cow share or goat share in the same cow, goat, or dairy herd shall not receive raw milk on behalf of the owner of a cow share or goat share.

(b) The milk is obtained pursuant to a cow share or a goat share. A cow share or a goat share is an undivided interest in a cow, goat, or herd of cows or goats, created by a written contractual relationship between a consumer and a farmer that includes a legal bill of sale to the consumer for an interest in the cow, goat, or dairy herd and a boarding contract under which the consumer boards the cow, goat, or dairy herd in which the consumer has an interest with the farmer for care and milking, and under which the consumer is entitled to receive a share of milk from the cow, goat, or dairy herd.

(c) A prominent warning statement that the milk is not pasteurized is delivered to the consumer with the milk or is displayed on a label affixed to the milk container; and

(d) Information describing the standards used by the farm or dairy with respect to herd health, and in the production of milk from the herd, is provided to the consumer by the farmer together with results of tests performed on the cows or goats that produced the milk, tests performed on the milk, and an explanation of the tests and test results.

(2) Registration of a farm or dairy as required by paragraph (a) of subsection (1) of this section shall be accomplished by delivering to the Colorado department of public health and environment a written statement containing:

(a) The name of the farmer, farm, or dairy;

(b) A valid, current address of the farmer, farm, or dairy; and

(c) A statement that raw milk is being produced at the farm or dairy.

(3) Retail sales of raw, unpasteurized milk shall not be allowed. Resale of raw milk obtained from a cow share or goat share is strictly prohibited. Raw milk that is not intended for pasteurization shall not be sold to, or offered for sale at, farmers' markets, educational institutions, health care facilities, nursing homes, governmental organizations, or any food establishment.

(4) No person who, as a consumer, obtains raw milk in accordance with this section shall be entitled to sell or redistribute the milk.

(5) No producer of raw milk shall publish any statement that implies approval or endorsement by the Colorado department of public health and environment.

Source: L. 2005: Entire section added, p. 365, § 1, effective April 22.

PART 2

IMITATION DAIRY PRODUCTS

25-5.5-201. Short title. This part 2 shall be known and may be cited as the "Colorado Imitation Dairy Products Act".

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-202. Purpose. (1) The purpose of this part 2 is to prevent fraud in sales and to protect the public health by informing the public of the ingredients making up imitation dairy products.

(2) Even though imitation dairy products are manufactured and sold on the basis of reduced costs to the consumer and certain nutritional advantages of some or all of the ingredients, they should be sampled and inspected on the same basis as the product imitated for sanitary quality and composition.

Source: L. 85: Entire article added, p. 894, § 1, effective April 5.

25-5.5-203. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Department" means the department of public health and environment or its authorized representative.

(2) (a) "Imitation dairy product" means any milk, cream, skimmed milk, or any combination thereof, whether or not condensed, evaporated, concentrated, frozen, powdered, dried, or desiccated, or any food product made or manufactured therefrom to which is added, or which is blended or compounded with, any fat or oil other than milk fat so that the resulting product is in imitation or semblance of any dairy product, including but not limited to milk, cream, sour cream, butter cream, skimmed milk, ice cream, whipped or whipping cream, flavored milk or skim milk drink, dried or powdered milk, cheese, cream cheese, cottage cheese, creamed cottage cheese, ice-cream mix, sherbet or other frozen desserts, condensed milk, evaporated milk, or concentrated milk. "Imitation dairy product" also means any food product that does not contain milk or dairy products but which is made in imitation or semblance of any milk or dairy product defined in part 1 of this article and, on the basis of its appearance, flavor, and texture, closely resembles such product.

(b) "Imitation dairy product" does not mean or include:

(I) Any distinctive proprietary food compound not readily mistaken for a dairy product, if such product is customarily used on the order or prescription of a physician, is prepared or designed for medicinal or special dietary use, and is prominently so labeled;

(II) Any dairy product which is flavored with chocolate or cocoa, or the vitamin content of which has been increased, or which is both so flavored and which contains such increased vitamin content, if the fats or oils other than milk fat contained in such product do not exceed the amount of cacao fat naturally present in the chocolate or cocoa used and the food oil, in no event in excess of one-hundredth of one percent of the weight of the finished product, is used as a carrier of such vitamins; or

(III) Oleomargarine.

(3) "Person" includes an individual, firm, partnership, association, trust, estate, and corporation, any other business unit, device, arrangement, or organization, and any officer, agent, servant, and employee thereof.

Source: L. 85: Entire article added, p. 895, § 1, effective April 5. L. 94: (1) amended, p. 2780, § 491, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5.5-204. Imitation dairy products - labeling. (1) It is unlawful for a person to manufacture, sell, or exchange, to offer for sale or exchange, or to transport or possess any imitation dairy product unless the imitation dairy product is properly labeled, branded, or otherwise marked for identification. The department is authorized to evaluate and rule upon compliance with this requirement.

(2) Ingredients shall be listed by the common or usual name in the order of descending predominance. The declaration shall be presented on any appropriate information panel in adequate type size without obscuring design or vignettes and without crowding. The entire ingredient statement shall appear on a single panel of the label.

Source: L. 85: Entire article added, p. 895, § 1, effective April 5.

25-5.5-205. Enforcement and power - rules. (1) The department is authorized to administer and supervise the enforcement of this part 2. To this end, the department shall:

(a) Provide for and have complete power to make such periodic inspections and investigations as may be deemed necessary to disclose violations of this part 2;

(b) Receive and provide for the investigation of complaints of violations of this part 2;

(c) To carry out the terms and provisions of this part 2, have the power to promulgate rules and regulations for the enforcement of this part 2, not inconsistent with or violative of the terms and provisions thereof, and to publish the same.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

Cross references: For rule-making procedures, see article 4 of title 24.

25-5.5-206. Enforcement by injunction. The provisions of this part 2 may be enforced by injunction in any court having jurisdiction to grant injunctive relief at the suit and upon the petition of the department or any other person, and it shall not be requisite in such action for an injunction that the plaintiff plead, prove, or show pecuniary loss, damage, or injury or personal damage or injury.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

25-5.5-207. Subpoena of defendant. Any defendant, in an action brought under the provisions of section 25-5.5-205, may be required to testify under a subpoena duly issued or in pursuance of the Colorado rules of civil procedure; and the books and records of any such defendant may be brought into court and introduced into evidence; but no information so obtained may be used against the defendant as the basis for a misdemeanor prosecution under the provisions of this part 2.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

Cross references: For the procedure concerning subpoenas, see C.R.C.P. 45.

25-5.5-208. Seizure of products. Imitation dairy products illegally held or otherwise involved in a violation of this part 2 shall be subject to seizure and disposition in accordance with an appropriate order of court.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

25-5.5-209. Penalty. Any person who violates any of the provisions of this part 2 or who directs or knowingly permits such violation or aids or assists therein is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

PART 3

FROZEN DESSERTS

25-5.5-301. Short title. This part 3 shall be known and may be cited as the “Colorado Frozen Desserts Act”.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5.

25-5.5-302. Definitions. As used in this part 3, unless the context otherwise requires:

- (1) “Confectionery” means candy, cakes, cookies, and glazed fruit.
- (2) “Department” means the department of public health and environment or its authorized representative.

(3) "Mix" means the pasteurized unfrozen combination of all ingredients of a frozen dairy dessert with or without fruits, fruit juices, chocolate, cocoa, confectionery, nut meats, flavor, or harmless color.

Source: L. 85: Entire article added, p. 896, § 1, effective April 5. L. 94: (2) amended, p. 2780, § 492, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-5.5-303. Ice cream - standards. (1) Ice cream is a food which is prepared by freezing or partially freezing, while stirring, a pasteurized mix composed of one or more of the optional dairy ingredients specified in subsection (2) of this section, which is sweetened with one or more of the optional sweetening ingredients specified in subsection (3) of this section, and which is flavored with one or more of the optional flavoring ingredients specified in subsection (4) of this section. One or more of the optional egg ingredients specified in subsection (5) of this section, one or more of the optional stabilizing ingredients specified in subsection (6) of this section, and one or more of the optional pH adjusting and protein stabilizing ingredients specified in subsection (7) of this section may be used, subject to the conditions set forth in subsections (5), (6), and (7) of this section. Harmless coloring may be added. The mix may be seasoned with salt and may be homogenized. Water may be added. The kind and quantity of optional dairy ingredients used and the content of milk fat and total milk solids shall be such that the weights of milk fat and total milk solids are not less than ten percent and twenty percent respectively of the weight of the finished ice cream; but, when one or more of the optional flavoring ingredients specified in paragraphs (d) to (k) of subsection (4) of this section are used, then the weights of milk fat and total milk solids shall not be less than ten percent and twenty percent respectively, except for such reduction in milk fat and in total milk solids as is due to the addition of one or more of the optional ingredients specified in paragraphs (d) to (k) of subsection (4) of this section, but in no case shall it contain less than eight percent of milk fat nor less than eighteen percent of total milk solids. Ice cream shall contain not less than one and six-tenths pounds of total food solids per gallon and shall weigh not less than four and one-half pounds per gallon.

(2) The optional dairy ingredients referred to in subsection (1) of this section are cream, dried cream, butter, butter oil, concentrated milk fat, milk, concentrated milk, evaporated milk, sweetened condensed milk, superheated condensed milk, dried milk, skim milk, concentrated (evaporated or condensed) skim milk, superheated condensed skim milk, sweetened condensed skim milk, sweetened condensed partly skimmed milk, nonfat dry milk solids, liquid or condensed or dried sweet cream buttermilk, or dried whey solids or any of such products from which all or a portion of the lactose has been removed by crystallization or the lactose has been converted to simple sugars by hydrolysis if such products are approved as suitable optional dairy ingredients by the department. Citric acid, ascorbic acid, lecithin, tocopherols, or other harmless optional ingredients, which are approved by the department for the purpose of preventing fat oxidation in any of such optional dairy ingredients, may be added in amounts not to exceed five-thousandths of one percent of the weight of the butterfat present in such dairy ingredients.

(3) The optional sweetening ingredients referred to in subsection (1) of this section are sugar (sucrose), sugar syrup, dextrose, invert sugar (paste or syrup), lactose, corn sugar, dried or liquid corn syrup, glucose syrup, maple syrup, maple sugar, honey, brown sugar, maltose syrup, malt syrup, dried malt syrup, dried maltose syrup, malt extracts in liquid or dried form, refiners' syrup, and molasses other than blackstrap.

(4) The optional flavoring ingredients referred to in subsection (1) of this section are:

(a) Harmless natural food flavoring, including, but not limited to, ground spice, ground vanilla beans, and infusion of coffee or tea;

(b) Harmless artificial food flavoring;

(c) Fruit juice, which may be fresh, frozen, canned, concentrated, or dried and which may be sweetened and thickened with one or more of the optional stabilizing ingredients specified in subsection (6) of this section;

(d) Chocolate;

(e) Cocoa;

(f) Fruit, including cocoanut, which may be fresh, frozen, canned, concentrated, shredded, pureed, comminuted, or dried and which may be sweetened, thickened with stabilizer, and acidulated with citric, tartaric, malic, lactic, or ascorbic acid;

(g) Nut meats;

(h) Confectionery;

(i) Malted milk;

(j) Properly prepared and cooked cereal;

(k) Any distilled alcoholic beverage, including a liqueur, or any wine or any mixture of two or more thereof.

(5) The optional egg ingredients referred to in subsection (1) of this section are liquid eggs, frozen eggs, dried eggs, egg yolks, frozen yolks, and dried yolks; but the total weight of egg yolk solids in any of such ingredients used singly or used in any combination of two or more of such ingredients shall be less than the minimum prescribed in section 25-5.5-304 for French ice cream.

(6) The optional stabilizing ingredients specified in subsection (1) of this section are gelatin, algin, sodium carboxymethylcellulose, extract of Irish moss, psyllium seed husk, agar-agar, gum acacia, gum karaya, locust bean gum, gum tragacanth, oat gum, guar seed gum, calcium sulfate, monoglycerides or diglycerides or both of fat forming fatty acids except lauric acid, or other harmless stabilizers or emulsifiers (surface active agents) approved by the department; but the total weight of the active material contained in the solids of any of such ingredients used singly or used in any combination of two or more of such ingredients shall not be more than one-half of one percent of the weight of the finished ice cream.

(7) (a) The following optional harmless ingredients or combinations thereof may be added to control viscosity, adjust protein stability, and adjust the pH of the combined mix ingredients:

(I) Neutralizers which are approved by the department;

(II) Sodium citrate;

(III) Sodium phosphates.

(b) The total of ingredients included in subparagraph (I) of paragraph (a) of this subsection (7) shall not exceed one-tenth of one percent by weight of the finished mix; nor shall the weight of ingredients included in subparagraphs (II) and (III) of paragraph (a) of this subsection (7) exceed two-tenths of one percent by weight of the finished mix.

(8) It is further provided that the percentage of developed lactic acid in the mix prior to the addition of the optional ingredients listed in subsections (6) and (7) of this section shall not exceed three-thousandths of one percent by weight for each one percent of milk-solids-non-fat present in the mix.

Source: L. 85: Entire article added, p. 897, § 1, effective April 5.

25-5.5-304. French ice cream and custards - standards. French ice cream, frozen custard, and French custard ice cream shall conform to the definition and standard of identity prescribed for ice cream by section 25-5.5-303 if one or more of the optional egg ingredients permitted by section 25-5.5-303 are used in such quantity that the total weight of egg yolk solids therein is not less than one and four-tenths percent of the weight of the finished French ice cream, except when any of the optional flavoring ingredients specified in section 25-5.5-303 (4) (d) to (4) (k) is used, in which case the weight of egg yolk solids shall not be less than one and twelve-hundredths percent of the weight of the finished French ice cream.

Source: L. 85: Entire article added, p. 899, § 1, effective April 5.

25-5.5-305. Ice milk - standards. Ice milk shall conform in all respects to the definition and standard of identity for ice cream prescribed in section 25-5.5-303; except that it shall contain not less than two percent nor more than seven percent of milk fat, not less than eleven percent of total milk solids, and not less than one and three-tenths pounds of food solids per gallon. When ice milk is packaged in containers of greater than one-half gallon capacity, it shall not contain color or any of the optional flavoring ingredients specified in section 25-5.5-303 (4).

Source: L. 85: Entire article added, p. 899, § 1, effective April 5.

25-5.5-305.5. Low-fat frozen dairy dessert - standards. Low-fat frozen dairy dessert shall conform in all respects to the definition and standard of identity for ice cream prescribed in section 25-5.5-303; except that it shall contain not less than one and five-tenths percent nor more than one and nine-tenths percent of milk fat and not less than twelve percent total milk-solids-non-fat and except that it shall contain not less than one and three-tenths pounds of food solids per gallon.

Source: L. 86: Entire section added, p. 979, § 1, effective April 5.

25-5.5-306. Sherbet - standards. Sherbet is the food prepared by freezing or partially freezing, while stirring, a pasteurized mix composed of one or a combination of the optional dairy ingredients specified in section 25-5.5-303 (2), one or more of the optional sweetening ingredients specified in section 25-5.5-303 (3), fruit, fruit juice, or flavoring as provided in this section. It may contain one or more of the optional stabilizing ingredients specified in section 25-5.5-303 (6) or pectin if the weight of such stabilizer is not more than one-half of one percent of the weight of the finished sherbet. The kind and quantity of optional dairy ingredients used is such that the total milk solids content is not more than five percent by weight of the finished sherbet and the milk fat content is not more than two percent nor less than one percent by weight of the finished sherbet. It shall contain fruit or fruit juice, as described in section 25-5.5-303 (4) (c) and (4) (f), and may contain natural food flavoring. It may contain citric, tartaric, malic, lactic, or ascorbic acid. The acidity of the finished sherbet shall be not less than thirty-five hundredths of one percent of acid as determined by titrating with standard alkali and expressed as lactic acid. It may contain the optional egg ingredients specified in section 25-5.5-303 (5) in amounts not to exceed one-half of one percent of the weight of the finished sherbet. Harmless coloring may be added. The mix may be seasoned with salt and may be homogenized. It shall weigh not less than six pounds per gallon.

Source: L. 85: Entire article added, p. 899, § 1, effective April 5.

25-5.5-307. Water ice - standards. Water ice conforms in all respects to the definition and standard of identity for sherbet prescribed in section 25-5.5-306; except that the mix need not be pasteurized and, since it does not contain any of the optional dairy ingredients, it does not meet the provision respecting total milk solids and butterfat.

Source: L. 85: Entire article added, p. 900, § 1, effective April 5.

25-5.5-308. Adulterated and misbranded - when. Any food product which is made in semblance of or in imitation of any food for which a definition and standard of identity is established in sections 25-5.5-303 to 25-5.5-307 or any food which purports to be or is represented as a food for which a definition and standard of identity is established in said sections shall be deemed to be adulterated and misbranded if such food does not conform to such standard, notwithstanding the employment of any fanciful name or the use of the word "imitation" to designate the product.

Source: L. 85: Entire article added, p. 900, § 1, effective April 5.

25-5.5-309. Administration and enforcement. The department is authorized to administer and supervise the enforcement of this part 3; to provide for such periodic inspections and investigations as may be deemed necessary to disclose violations; to collect samples of optional ingredients, mixes, and finished products for analysis; to receive and provide for the investigation of complaints; and to provide for the institution and prosecution of civil actions. The provisions of this part 3 and the rules and regulations issued in connection therewith may be enforced by injunction in any court having jurisdiction to grant injunctive relief, and adulterated or misbranded articles illegally held or otherwise involved in a violation of this part 3 or of said rules and regulations shall be subject to seizure and disposition in accordance with an order of court.

Source: L. 85: Entire article added, p. 900, § 1, effective April 5.

25-5.5-310. Regulations. Whenever, in the judgment of the department, such action will promote honesty and fair dealing in the interest of consumers, the department shall promulgate regulations fixing and establishing, for any class of frozen desserts, a reasonable definition and standard of identity. The department may, for the purpose of promoting honesty and fair dealing in the interest of consumers, designate harmless optional ingredients which may be used in a mix as permitted by this part 3 but which may not have been specifically identified in this part 3 by any chemical or trade name.

Source: L. 85: Entire article added, p. 900, § 1, effective April 5.

25-5.5-311. Products detained or embargoed - when. Whenever any duly authorized agent of the department finds or has probable cause to believe that any frozen dessert specified in this part 3 is adulterated or misbranded within the meaning of this part 3, he shall affix to such product container a tag or other appropriate marking, giving notice that such frozen dessert is or is suspected of being adulterated or misbranded and that it is being detained or embargoed and warning all persons not to remove or dispose of such product by sale or otherwise until provision for removal or disposal is given by the department. No person shall remove or dispose of such embargoed product by sale or otherwise without permission of the department or its agent or, after summary proceedings have been instituted, without permission from the court having jurisdiction. If the embargo is removed by the department or by the court, neither the department nor the state shall be held liable for damages because of such embargo in the event that the court finds that there was probable cause for the embargo.

Source: L. 85: Entire article added, p. 900, § 1, effective April 5.

25-5.5-312. Violations - penalty. Any person, firm, or corporation that willfully violates any of the provisions of this part 3 and any officer, agent, or employee thereof who directs or knowingly permits such violation or who aids or assists therein is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than one thousand dollars, or by imprisonment in the county jail for not more than ninety days, or by both such fine and imprisonment.

Family Planning

PART 1

FAMILY PLANNING

- 25-6-101. Legislative declaration.
- 25-6-102. Policy, authority, and prohibitions against restrictions.
- 25-6-103. Department of public health and environment - powers and duties.

- 25-6-202. strued.
Services to be offered by the county.
- 25-6-203. Extent of services.
- 25-6-204. Counties may charge for services.
- 25-6-205. Services may be refused.
- 25-6-206. Interviews conducted in language recipient understands.
- 25-6-207. County employee exemption.

PART 2

FAMILY PLANNING AND BIRTH CONTROL

- 25-6-201. This part 2 to be liberally con-

PART 3

BREAST-FEEDING

- 25-6-301. Legislative declaration.
- 25-6-302. Breast-feeding.

PART 1

FAMILY PLANNING

25-6-101. Legislative declaration. (1) Continuing population growth either causes or aggravates many social, economic, and environmental problems, both in this state and in the nation.

(2) Contraceptive procedures, supplies, and information are not available as a practical matter to many persons in this state.

(3) It is desirable that inhibitions and restrictions be eliminated so that all persons desiring contraceptive procedures, supplies, and information shall have ready and practicable access thereto.

(4) Section 25-6-102 sets forth the policy and authority of this state, its political subdivisions, and all agencies and institutions thereof, including prohibitions against restrictions with respect to contraceptive procedures, supplies, and information.

Source: L. 71: p. 638, § 1. C.R.S. 1963: § 66-32-1.

25-6-102. Policy, authority, and prohibitions against restrictions. (1) All medically acceptable contraceptive procedures, supplies, and information shall be readily and practicably available to each person desirous of the same regardless of sex, sexual orientation, race, color, creed, religion, disability, age, income, number of children, marital status, citizenship, national origin, ancestry, or motive.

(2) Medical evaluation and advice is encouraged for all persons seeking any contraceptive procedures, supplies, and information.

(3) No hospital, clinic, medical center, institution, or pharmacy shall subject any person to any standard or requirement as a prerequisite for any contraceptive procedures, supplies, or information, including sterilization, other than referral to a physician.

(4) No hospital, clinic, medical center, or pharmacy licensed in this state, nor any agency or institution of this state, nor any unit of local government shall have any policy which interferes with either the physician-patient relationship or any physician or patient desiring to use any medically acceptable contraceptive procedures, supplies, or information.

(5) Contraceptive procedures, including medical procedures for permanent sterilization, when performed by a physician on a requesting and consenting patient, are consistent with public policy.

(6) Notwithstanding any other provision of this part 1, no unmarried person under eighteen years of age may consent to permanent sterilization procedures without the consent of parent or guardian.

(7) Nothing in this part 1 shall inhibit a physician from refusing to furnish any contraceptive procedures, supplies, or information for medical reasons.

(8) Dissemination of medically acceptable contraceptive information by duly authorized persons at schools, in state, district, and county health and welfare departments or public health agencies, in medical facilities at institutions of higher education, and at other agencies and instrumentalities of this state is consistent with public policy.

(9) No private institution or physician, nor any agent or employee of such institution or physician, shall be prohibited from refusing to provide contraceptive procedures, supplies, and information when such refusal is based upon religious or conscientious objection, and no such institution, employee, agent, or physician shall be held liable for such refusal.

(10) To the extent family planning funds are available, each agency and institution of this state and each of its political subdivisions shall provide contraceptive procedures, supplies, and information, including permanent sterilization procedures, to indigent persons free of charge and to other persons at cost.

Source: L. 71: p. 638, § 1. C.R.S. 1963: § 66-32-2. L. 2008: (1) amended, p. 1603, § 30, effective May 29. L. 2010: (8) amended, (HB 10-1422), ch. 419, p. 2102, § 115, effective August 11.

Cross references: For the legislative declaration contained in the 2008 act amending subsection (1), see section 1 of chapter 341, Session Laws of Colorado 2008.

ANNOTATION

Law reviews. For article, "Consent to Treatment and Access to Minors' Medical Records", see 17 Colo. Law. 1323 (1988).

25-6-103. Department of public health and environment - powers and duties. The department of public health and environment is authorized to receive and disburse such funds as may become available to it for family planning programs to any organization, public or private, engaged in providing contraceptive procedures, supplies, and information. Any family planning program administered by the department of public health and environment shall be developed in consultation and coordination with other family planning agencies in this state, including but not limited to the department of human services.

Source: L. 71: p. 639, § 1. C.R.S. 1963: § 66-32-3. L. 94: Entire section amended, p. 2780, § 493, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

PART 2

FAMILY PLANNING AND BIRTH CONTROL

25-6-201. This part 2 to be liberally construed. This part 2 shall be liberally construed to protect the rights of all individuals to pursue their religious beliefs, to follow the dictates of their own consciences, to prevent the imposition upon any individual of practices offensive to the individual's moral standards, to respect the right of every individual to self-determination in the procreation of children, and to insure a complete freedom of choice in pursuance of constitutional rights.

Source: L. 65: p. 464, § 1. C.R.S. 1963: § 36-20-7.

25-6-202. Services to be offered by the county. The governing body of each county and each city and county or any county or district public health agency thereof or any welfare department thereof may provide and pay for, and each county and each city and county or any public health agency or county or district public health agency thereof or any welfare department thereof may offer, family planning and birth control services to every parent who is a public assistance recipient and to any other parent or married person who might have interest in, and benefit from, such services; except that no county or city and county or public health agency thereof is required by this section to seek out such persons.

Source: L. 65: p. 463, § 1. C.R.S. 1963: § 36-20-1. L. 2010: Entire section amended, (HB 10-1422), ch. 419, p. 2103, § 116, effective August 11.

25-6-203. Extent of services. Family planning and birth control services shall include: Interview with trained personnel; distribution of literature; referral to a licensed physician or advanced practice nurse for consultation, examination, tests, medical treatment, and prescription; and, to the extent so prescribed, the distribution of rhythm charts, drugs, medical preparations, contraceptive devices, and similar products.

Source: L. 65: p. 463, § 1. C.R.S. 1963: § 36-20-2. L. 2008: Entire section amended, p. 133, § 20, effective January 1, 2009.

25-6-204. Counties may charge for services. The governmental unit making provision for and offering such services may charge those persons to whom family planning and birth control services are rendered a fee sufficient to reimburse the county or city and county all or any portion of the costs of the services rendered.

Source: L. 65: p. 464, § 1. C.R.S. 1963: § 36-20-3.

25-6-205. Services may be refused. The refusal of any person to accept family planning and birth control services shall in no way affect the right of such person to receive public assistance or to avail himself of any other public benefit, and every person to whom such services are offered shall be so advised initially both orally and in writing. County and city and county employees engaged in the administration of this part 2 shall recognize that the right to make decisions concerning family planning and birth control is a fundamental personal right of the individual, and nothing in this part 2 shall in any way abridge such individual right, nor shall any individual be required to state his reason for refusing the offer of family planning and birth control services.

Source: L. 65: p. 464, § 1. C.R.S. 1963: § 36-20-4.

25-6-206. Interviews conducted in language recipient understands. In all cases where the recipient does not speak or read the English language, the services shall not be given unless the interviews are conducted and all literature is written in a language which the recipient understands.

Source: L. 65: p. 464, § 1. C.R.S. 1963: § 36-20-5.

25-6-207. County employee exemption. Any county employee or city and county employee may refuse to accept the duty of offering family planning and birth control services to the extent that such duty is contrary to his personal religious beliefs, and such refusal shall not be grounds for any disciplinary action, for dismissal, for any interdepartmental transfer, for any other discrimination in his employment, for suspension from employment with the county or city and county, or for any loss in pay or other benefits.

Source: L. 65: p. 464, § 1. C.R.S. 1963: § 36-20-6.

PART 3

BREAST-FEEDING

25-6-301. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The American academy of pediatrics recommends breast-feeding exclusively for the first six months of an infant's life but continuing with other forms of nutrition for at least the first twelve months of an infant's life and as long thereafter as is mutually desired.

(b) The American academy of pediatrics has continuously endorsed breast-feeding as the optimal form of nutrition for infants and as a foundation for good feeding practices. Extensive research indicates that there are diverse and compelling advantages to breast-feeding for infants, mothers, families, and society.

(c) Epidemiologic research shows that breast-feeding of infants provides benefits to their general health, growth, and development and results in significant decreases in risk for numerous acute and chronic diseases.

(d) Research in developed countries provides strong evidence that breast-feeding decreases the incidence and severity of diarrhea, lower respiratory infection, otitis media, and urinary tract infection.

(e) Research studies have also shown that human milk and breast-feeding have possible protective effects against the development of a number of chronic diseases, including allergic diseases and some chronic digestive diseases. In addition, human milk and breast-feeding may prevent obesity.

(f) In addition, breast-feeding has been related to the possible enhancement of cognitive development.

(g) Breast-feeding has been shown to have numerous health benefits for mothers, including an earlier return to prepregnant weight, delayed resumption of ovulation with increased child spacing, improved bone remineralization postpartum with reduction in hip fractures in the postmenopausal period, and reduced risk of ovarian cancer and premenopausal breast cancer, as well as increased levels of oxytocin, resulting in less postpartum bleeding and more rapid uterine involution.

(h) In addition to individual health benefits, breast-feeding results in substantial benefits to society, including reduced health care costs, reduced environmental damage, reduced governmental spending on the women, infants, and children supplementary feeding programs, and reduced employee absenteeism for care attributable to infant illness.

(i) Breast-feeding is a basic and important act of nurturing that should be encouraged in the interests of maternal and infant health.

(2) The general assembly further declares that the purpose of this part 3 is for the state of Colorado to become involved in the national movement to recognize the medical importance of breast-feeding, within the scope of complete pediatric care, and to encourage removal of societal boundaries placed on breast-feeding in public.

Source: L. 2004: Entire part added, p. 596, § 1, effective April 23.

25-6-302. Breast-feeding. A mother may breast-feed in any place she has a right to be.

25-6.5-102. Requirements for environmen-
tal rules - publication.

PART 2

POLLUTION CONTROL EQUIPMENT
CERTIFICATION

- 25-6.5-201. Definitions.
25-6.5-202. Certification of pollution con-
trol equipment.
25-6.5-203. Pollution control equipment
certification fund - creation -
purpose.

PART 1

PROVISIONS FOR RULES AND REGULATIONS CONCERNING
ENVIRONMENTAL CONTROL

25-6.5-101. Legislative declaration. (1) The general assembly hereby finds and determines that the protection of the natural environment of this state is important to the public health and welfare of the citizens of Colorado.

(2) The general assembly further finds and determines that the environmental laws of this state relating to air quality control in article 7 of this title, water quality control in article 8 of this title, hazardous waste in article 15 of this title, and solid waste in article 20 of title 30, C.R.S., may be highly technical, complex, and subject to varying interpretation.

(3) The general assembly, therefore, declares that the provisions of this article are enacted to enhance public notice and awareness of rules, regulations, and interpretations of the environmental laws of this state and to ensure public confidence in the fairness of the enforcement of any agency requirements.

Source: L. 94: Entire article added, p. 1363, § 1, effective July 1.

25-6.5-102. Requirements for environmental rules - publication. (1) All agency policies and guidance, including any amendments or revisions thereto, relating to the implementation, administration, and enforcement of article 7, 8, 11, or 15 of this title, article 20.5 of title 8, C.R.S., or article 20 of title 30, C.R.S., except for policies relating to personnel or other internal administrative matters not directly related to enforceable requirements under such articles, shall be reduced to writing and published. Three copies shall be filed with the state librarian for the state publications depository and distribution center. Copies of each such policy or guidance issued under article 7, 8, 11, or 15 of this title, article 20.5 of title 8, C.R.S., or article 20 of title 30, C.R.S., shall be made available to the public upon request. Interpretive rules issued under article 15 of this title shall also be made available to the public upon request. Each affected agency shall maintain and make available to the public a current index of all such policies, guidance, and interpretive rules in effect. Copies of any policy, guidance, interpretive rule, or index shall be provided to the public at cost.

(2) No policy or guidance referred to in subsection (1) of this section shall have the force and effect of a rule unless it has been promulgated by the relevant commission pursuant to the provisions of the "State Administrative Procedure Act", article 4 of title 24, C.R.S., and applicable provisions of article 7, 8, 11, or 15 of this title, article 20.5 of title 8, C.R.S., or article 20 of title 30, C.R.S., pertaining to rule-making procedures or authorizing the promulgation of rules, and made available to the public in accordance with section 24-4-103, C.R.S.

(3) (a) Any policy or guidance, including any amendments or revisions thereto, may be brought to the attention of the relevant division director and thereafter may be brought to the relevant commission for review. The review shall determine whether such policy or guidance is within the statutory authority of the relevant agency, is consistent with applicable statutes and any applicable regulations, including the provisions of subsection (1) of this section, and is appropriate for the relevant commission to undertake rule-making

with respect to the subject matter of the policy or guidance and shall consider other questions within the scope of the relevant commission's authority related to such policy or guidance.

(b) Following such review, the commission shall take action or, if appropriate, refer the matter to the relevant division director to take action within a specified period of time in accordance with its determination.

(4) Any obligation to submit payment of any monetary penalty arising from an enforcement action that concerns a matter under review by the relevant commission shall be stayed until the relevant commission completes its review.

(5) The commission review regarding the policy or guidance shall not constitute an adjudication of any facts of a specific enforcement action.

(6) Failure to request a review under this section shall not be considered in any permit appeal or enforcement action.

(7) As used in this section:

(a) "Relevant commission" means the commission or agency responsible for the promulgation of rules for the environmental program under which the guidance or policy is issued.

(b) "Relevant division director" means the director of the division within the department of public health and environment, responsible for the subject matter of the guidance or policy at issue.

Source: L. 94: Entire article added, p. 1364, § 1, effective July 1. L. 96: (1) and (2) amended, p. 1471, § 20, effective June 1.

PART 2

POLLUTION CONTROL EQUIPMENT CERTIFICATION

25-6.5-201. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Division" means the division of administration of the department of public health and environment.

(2) "Pollution control equipment" means any personal property, including, but not limited to, equipment, machinery, devices, systems, buildings, or structures, that is installed, constructed, or used in or as a part of a facility that creates a product in a manner that generates less pollution by the utilization of an alternative manufacturing or generating technology. "Pollution control equipment" includes, but is not limited to, gas or wind turbines and associated compressors or equipment or solar, thermal, or photovoltaic equipment.

Source: L. 2000: Entire part added, p. 1466, § 2, effective August 2.

25-6.5-202. Certification of pollution control equipment. (1) Within twelve months after the date of acquisition of an ownership or lease interest, a person owning or leasing property may file a request for certification of such property as pollution control equipment with the division on forms prescribed by the division.

(2) At any time after the filing of a request for certification pursuant to subsection (1) of this section and prior to a determination, the division may schedule a conference with the applicant to obtain further information relevant to the determination of eligibility for certification as pollution control equipment.

(3) Within six months after the filing of a request pursuant to subsection (1) of this section, the division shall determine the eligibility of such property as pollution control equipment and shall certify its determination to the applicant and the executive director of the department of revenue. The division may certify as pollution control equipment all of the property for which a request has been filed pursuant to subsection (1) of this section, specified portions of the property, or none of the property. In making its determination, the division shall consider any available and pertinent information.

(4) If the division denies a request for certification in whole or in part, the applicant may file with the division a written objection to the determination within thirty days after receipt of written notice of the determination. If a written objection is filed, the division shall grant the applicant a hearing in accordance with section 24-4-105, C.R.S., within thirty days after receipt of the written objection and shall make a final determination based on the hearing.

(5) If the final determination of the division denies the request for certification in whole or in part, the final determination shall be subject to judicial review in accordance with the provisions of section 24-4-106, C.R.S.

(6) The division may assess against an applicant a fee sufficient to cover the actual and direct cost incurred by the division in making a determination pursuant to this section, including, but not limited to, the actual and direct cost of any hearing or appeal related to the denial of certification if the denial is upheld. Any fee assessed by the division pursuant to this subsection (6) shall be credited to the pollution control equipment certification fund created in section 25-6.5-203.

Source: L. 2000: Entire part added, p. 1467, § 2, effective August 2.

25-6.5-203. Pollution control equipment certification fund - creation - purpose.

(1) There is hereby established in the state treasury the pollution control equipment certification fund, which shall consist of all moneys collected by the division pursuant to section 25-6.5-202. All interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any unexpended or unencumbered moneys in the fund at the end of any fiscal year shall remain in the fund and shall not be transferred to the general fund.

(2) The moneys in the pollution control equipment certification fund shall be subject to annual appropriation by the general assembly to the department of public health and environment to defray the costs incurred by the division in performing its obligations pursuant to section 25-6.5-202.

Source: L. 2000: Entire part added, p. 1467, § 2, effective August 2.

ARTICLE 6.6

Environmental Management System Permit Program

25-6.6-101.	Short title.		ment - rules.
25-6.6-102.	Legislative declaration.	25-6.6-105.	Enforcement - self-audit -
25-6.6-103.	Definitions.		review.
25-6.6-104.	Powers and duties of depart-	25-6.6-106.	Repeal of article.

25-6.6-101. Short title. This article shall be known and may be cited as the “Environmental Management System Permit Program”.

Source: L. 2004: Entire article added, p. 475, § 1, effective April 19.

25-6.6-102. Legislative declaration. (1) The general assembly finds that while Colorado’s existing environmental laws play an important role in protecting the environment, environmental protection could be further enhanced by authorizing innovative advances in environmental regulatory methods and approaches. The general assembly finds that Colorado should promote and develop environmental regulatory approaches that:

(a) Encourage facility owners and operators to assess the environmental impact of their operations;

(b) Encourage innovation by and measure success through facility owners and operators setting measurable goals;

(c) Provide facility owners and operators with flexibility to implement the most

effective pollution prevention, source reduction, or other pollution reduction strategies for their particular facilities, while complying with verifiable and enforceable pollution limits;

(d) Encourage superior environmental performance, continuous improvement toward sustainable levels of resource usage, and minimal levels of pollution discharges, emissions, and releases;

(e) Recognize facility owners and operators that are considered environmental leaders and that reduce pollution to levels below what is required by applicable law, through participation in the environmental management system permit program;

(f) Consolidate environmental requirements into one permit, while respecting local agency jurisdiction and encouraging local agencies to participate, and allow facility owners and operators to make environmental decisions based upon all environmental considerations;

(g) Reduce the time and money spent by agencies and facility owners and operators on paperwork and other administrative tasks that do not benefit the environment, including streamlining permit, record-keeping, and reporting requirements;

(h) Increase public participation and encourage stakeholder consensus in the development of innovative environmental regulatory approaches and methods for monitoring the environmental performance of projects pursuant to this title;

(i) Encourage groups of facilities and communities to work together to reduce pollution to levels below what is required by applicable law;

(j) Provide reasonable assistance to facilitate meaningful stakeholder participation; and

(k) Increase understanding and transparency of environmental laws and promote communication among agencies, regulated entities, and the public.

Source: L. 2004: Entire article added, p. 475, § 1, effective April 19.

25-6.6-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Department” means the state department of public health and environment.

(2) “Environmental permit” means a permit issued pursuant to article 20.5 of title 8, C.R.S., articles 7, 8, 11, and 15 of this title or article 20 of title 30, C.R.S., or rules promulgated under such provisions, and may also include permits issued pursuant to local government authority, with the consent of such local government authority.

(3) “Environmental requirement” means a requirement in a law administered by the department, a rule adopted by a statutorily designed state board or commission, a permit or order issued by the department, or an agreement entered into with the department.

Source: L. 2004: Entire article added, p. 476, § 1, effective April 19.

25-6.6-104. Powers and duties of department - rules. (1) The department is authorized to implement a voluntary environmental management system permit program, which shall be a pilot program until May 15, 2007, that allows a limited number of participants as determined by the department to obtain an environmental management system permit. The environmental management system permit shall allow participants to meet existing environmental standards of a law, rule, order, or permit related to the control or abatement of pollution through the use of alternative methods and procedures while ensuring compliance with an established ambient air or water standard. Nothing in this section shall be construed to authorize a participant to exceed an established ambient air or water standard.

(2) Notwithstanding the provisions of section 25-1-102, the executive director of the department has the sole authority to promulgate and amend rules, to the extent that such rules and amendments to the rules are consistent with federal law, in order to specify the procedures and other necessary requirements for issuing, implementing, revoking, and enforcing an environmental management system permit and to establish alternative methods or procedures for meeting environmental standards. The procedures outlined in the rules shall include the opportunity for public notice and comment.

(3) The department shall include, but not be limited to, the following elements in the environmental management system permit:

- (a) The elements of an environmental management system;
- (b) A requirement and criteria for audits of the environmental management system;
- (c) A requirement and criteria for environmental compliance audits;
- (d) A requirement and criteria for reporting a summary of the results of the environmental compliance audits;
- (e) Environmental performance standards and limits;
- (f) A requirement that program participants commit to measurable environmental benefits and continual environmental improvement;
- (g) Monitoring, reporting, and record-keeping requirements;
- (h) The ability for an analysis and consideration of all environmental impacts in developing environmental requirements;
- (i) A requirement for community involvement and a communications plan; and
- (j) Procedures that reduce otherwise required permit modification procedural requirements.

(4) (a) An entity may apply to participate in the voluntary environmental management system permit program if the entity meets the requirements for any of the following tiers:

(I) **Platinum tier.** The department shall establish the criteria for the platinum tier by rule, which criteria shall be more stringent than the gold tier criteria and shall include that the entity has assisted the department in developing proposals for streamlining environmental requirements and easing the regulatory burden on businesses of environmental compliance.

(II) **Gold tier.** The criteria are as follows:

(A) The entity has no serious violations of applicable local, state, or federal environmental requirements or environmental permits for a period of three years prior to the date of submission of the application for participation in the program;

(B) The entity has no convictions or out-of-court settlements of formal charges of a criminal violation of an environmental requirement or environmental permit within a five-year period prior to the date of submission of the application for participation in the program; and

(C) The entity has not entered into a settlement agreement and no compliance or consent order has been issued for a serious violation of an environmental requirement or environmental permit for three years prior to the date of submission of the application for participation in the program.

(III) **Silver tier.** The criteria are as follows:

(A) The entity has no serious violations of applicable local, state, or federal environmental requirements or environmental permits for a period of one year prior to the date of submission of the application for participation in the program;

(B) The entity has no convictions or out-of-court settlements of formal charges of a criminal violation of an environmental requirement or environmental permit within a two-year period prior to the date of submission of the application for participation in the program;

(C) The entity has not entered into a settlement agreement and no compliance or consent order has been issued for serious violations of an environmental requirement or environmental permit for a one-year period prior to the date of submission of the application for participation in the program; and

(D) No permit shall be issued to silver tier applicants pursuant to this article until the applicant achieves compliance with gold or platinum tier requirements.

(b) Any facility that will be subject to the program and that is part of a corporation, partnership, sole proprietorship, municipality, county, city and county, special district, or state or federal agency or department that has other Colorado facilities shall not be eligible for the program unless all of such facilities located in Colorado are in compliance with applicable local, state, and federal environmental requirements and environmental permits. The department shall determine the applicability of this paragraph (b) on a case-by-case basis.

(5) The department shall develop and make available to the public information on any alternative monitoring, record keeping, reporting, method, or condition that the environmental management system permit prescribes and any other incentive provided to the applicant within the environmental management system permit.

(6) An entity subject to an environmental management system permit shall be subject to the same fee provisions as other existing permits, unless the department reduces the fee as an operational flexibility incentive. The department is authorized to exercise such flexibility.

(7) The department shall establish performance measures, including public notice and comment, to assess the pilot program's performance after public notice and comment.

Source: L. 2004: Entire article added, p. 477, § 1, effective April 19. **L. 2007:** (4) amended, p. 1584, § 4, effective May 31.

25-6.6-105. Enforcement - self-audit - review. (1) The department is authorized to enter and inspect any property, premises, or place, and all facilities, on- or off-site, that is or are covered by an environmental management permit or where relevant documents may be located, for the purpose of investigating any actual, suspected, or potential source of pollution or ascertaining compliance or noncompliance with any requirement of this article, any rule promulgated pursuant to this article, or any permit issued pursuant to this article. The department may, at reasonable times, have access to and copy any record, inspect any monitoring equipment or method, or sample any emissions or wastes, including mixtures of waste with environmental media or other materials required pursuant to this article; except that, if the permit holder denies or does not consent to such entry or inspection, the department has the authority to seek a warrant from a court of competent jurisdiction in the county in which the property, premises, or place is located prior to inspection. The court shall issue such a warrant upon a proper showing of the need for such entry and inspection. Any trade secrets and proprietary information obtained in the course of the inspection or investigation shall be kept confidential unless the permit holder consents to the release of the information; except that information required to be made available to the department pursuant to any other law shall not be confidential. The department shall provide a permit holder with a duplicate of any analytical report or observation of a pollutant made by the department. If samples are taken, the permittee shall be entitled to a receipt for such samples. Upon request of the permit holder, the department shall provide the permit holder with a sufficient sample so that the permit holder may perform its own test.

(2) In addition to the rights of entry and inspection by the department pursuant to subsection (1) of this section, the terms and conditions of the environmental management system permit shall be enforced in any manner provided by law for the enforcement of permits issued pursuant to department rules. Appeals of initial determinations shall be made to the executive director or a designated hearing officer in accordance with the "State Administrative Procedure Act", article 4 of title 24, C.R.S.

(3) This section shall not be interpreted to exclude a participant in the environmental management system permit program that performs an audit as required by the program from exercising or applying any rights or privileges granted in section 13-25-126.5, C.R.S., and sections 25-1-114.5 and 25-1-114.6.

(4) The department, in consultation with interested parties, including applicable environmental boards and commissions, shall review the pilot permit program to assess its effectiveness in improving, enhancing, and protecting the environment of the state, garnering resource efficiencies, and decreasing administrative burdens. The department shall report the results of the review to the general assembly and the governor on or before January 1, 2007. The report shall include recommendations concerning whether the pilot project should be allowed to continue, and, if so, the recommended form and structure of the program.

ARTICLE 6.7

Environmental Leadership Act

25-6.7-101 to 25-6.7-110. (Repealed)

Editor’s note: (1) This article was added in 1998. For amendments to this article prior to its repeal in 2003, consult the 2003 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

(2) Section 25-6.7-110 (2) provided for the repeal of this article, effective December 31, 2003. (See L. 98, p. 877.)

ARTICLE 7

Air Quality Control

Editor’s note: This article was numbered as article 31 of chapter 66, C.R.S. 1963. The substantive provisions of this article were repealed and reenacted in 1979, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this article prior to 1979, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

PART 1			
AIR QUALITY CONTROL PROGRAM			
25-7-101.	Short title.	25-7-109.	Commission to promulgate emission control regulations.
25-7-102.	Legislative declaration.	25-7-109.1.	Emergency rule-making.
25-7-103.	Definitions.	25-7-109.2.	Small business stationary source technical and environmental compliance assistance program - repeal.
25-7-104.	Air quality control commission created.	25-7-109.3.	Colorado hazardous air pollutant control and reduction program - rules.
25-7-105.	Duties of commission - rules.	25-7-109.4.	Air quality science advisory board - created - repeal. (Repealed)
25-7-105.1.	Federal enforceability.	25-7-109.6.	Accidental release prevention program.
25-7-106.	Commission - additional authority.	25-7-110.	Commission - procedures to be followed in setting standards and regulations.
25-7-106.1.	Commission - duties - visibility standard - report. (Repealed)	25-7-110.5.	Required analysis of proposed air quality rules.
25-7-106.3.	Commission - duties - wood-burning stoves - episodic no-burn days - rules.	25-7-110.8.	Additional requirements for commission to act under section 25-7-110.5.
25-7-106.5.	Commission - duties - alternative fuels - street-cleaning - time-shifting - reports. (Repealed)	25-7-111.	Administration of air quality control programs - directive - prescribed fire - review.
25-7-106.7.	Regulations - studies - AIR program area.	25-7-112.	Air pollution emergencies endangering public health anywhere in this state.
25-7-106.8.	Colorado clean vehicle fleet program.	25-7-113.	Air pollution emergencies endangering public welfare anywhere in this state.
25-7-106.9.	Alternative fuels financial incentive program. (Repealed)		
25-7-107.	Commission - area classification.		
25-7-108.	Commission to promulgate ambient air quality standards.		

25-7-114.	Permit program - definitions.		and technical evaluation - repeal. (Repealed)
25-7-114.1.	Air pollutant emission notices (APEN).	25-7-137.	Requirements for legislative approval of Grand Canyon visibility transport commission or successor body advisory recommendations, reports, and interpretations.
25-7-114.2.	Construction permits.		
25-7-114.3.	Operating permits required for emission of pollutants.		
25-7-114.4.	Permit applications - contents - rules.		
25-7-114.5.	Application review - public participation.	25-7-138.	Housed commercial swine feeding operations - waste impoundments - odor emissions - fund created.
25-7-114.6.	Emission notice - fees.		
25-7-114.7.	Emission fees - fund.	25-7-139.	Methyl tertiary butyl ether - prohibition - phase-out - civil penalty.
25-7-114.8.	Permit fee credits. (Repealed)		
25-7-115.	Enforcement.		
25-7-116.	Air quality hearings board. (Repealed)		
25-7-117.	State implementation plan - revisions of limited applicability.		PART 2
25-7-118.	Delayed compliance orders.		PREVENTION OF SIGNIFICANT DETERIORATION PROGRAM
25-7-119.	Hearings.		
25-7-120.	Judicial review.	25-7-201.	Prevention of significant deterioration program.
25-7-121.	Injunctions.	25-7-202.	Definitions. (Repealed)
25-7-122.	Civil penalties.	25-7-203.	State implementation plan - contents.
25-7-122.1.	Criminal penalties.		
25-7-122.5.	Enforcement of chlorofluorocarbon regulations.	25-7-204.	Exclusions.
25-7-122.6.	Administrative and judicial stays.	25-7-205.	Innovative technology - waivers.
25-7-123.	Open burning - penalties.	25-7-206.	Procedure - permits.
25-7-123.1.	Statute of limitations - penalty assessment - criteria.	25-7-207.	Exemptions. (Repealed)
25-7-124.	Relationship with federal government, regional agencies, and other states.	25-7-208.	Area designations.
25-7-125.	Organization within department of public health and environment.	25-7-209.	Colorado designated pristine areas for sulfur dioxide.
25-7-126.	Application of article.	25-7-210.	Applicability.
25-7-127.	Continuance of existing rules and orders.	25-7-211.	Visibility impairment attribution studies.
25-7-128.	Local government - authority - penalty.	25-7-212.	Actions of federal government affecting visibility - evaluation report.
25-7-129.	Disposition of fines and penalties.	25-7-213.	Visibility and air quality related values policy task force. (Repealed)
25-7-130.	Motor vehicle emission control studies.	25-7-214.	Visibility impairment subcommittee. (Repealed)
25-7-131.	Training programs - emission controls.		PART 3
25-7-132.	Emission data - public availability.		ATTAINMENT PROGRAM
25-7-133.	Legislative review and approval of state implementation plans and rules - legislative declaration.	25-7-301.	Attainment program.
25-7-133.5.	Approval or rescission of specific revisions to state implementation plan (SIP) after 1996.	25-7-302.	State implementation plan - contents.
25-7-134.	Study of air quality control programs. (Repealed)	25-7-303.	Exemptions. (Repealed)
25-7-135.	Ozone protection fund created.	25-7-304.	Emission reduction offsets.
25-7-136.	Air pollution data collection	25-7-305.	Alternative emission reduction.
			PART 4
			CONTROL OF POLLUTION CAUSED BY WOOD SMOKE
		25-7-401.	Legislative declaration.
		25-7-402.	Definitions.

- 25-7-403. Commission - rule-making for wood-burning stoves.
- 25-7-404. Wood stove testing program established.
- 25-7-405. Certification required for sale.
- 25-7-405.5. Resale of used noncertified wood-burning devices - prohibited.
- 25-7-406. Fireplace design program.
- 25-7-407. Commission - rule-making for fireplaces.
- 25-7-407.5. Certification required for sale. (Repealed)
- 25-7-408. Required compliance in building codes.
- 25-7-409. Voluntary no-burn days.
- 25-7-410. Applicability.
- 25-7-411. Legislative declaration.
- 25-7-412. Definitions.
- 25-7-413. Methods for reducing wood smoke in program area.

PART 5

ASBESTOS CONTROL

- 25-7-501. Legislative declaration.
- 25-7-502. Definitions.
- 25-7-503. Powers and duties of commission - rules - delegation of authority to division.
- 25-7-504. Asbestos abatement project requirements - certification required for schools - certificate to perform asbestos abatement - certified trained persons.
- 25-7-505. Certificate to perform asbestos abatement - application - approval by division - suspension or revocation of certificate.
- 25-7-505.5. Testing for certification under part 5.
- 25-7-506. Certificate of trained supervisors - application - approval by division - rules - responsibilities of trained supervisors - renewal of certificate.
- 25-7-506.5. Certification of air monitoring specialist - rules.
- 25-7-507. Certification required under federal law for asbestos projects in schools and public and commercial buildings.
- 25-7-507.5. Renewal of certificates - rules - recertification.
- 25-7-508. Grounds for disciplinary action - letters of admonition - denial of certification - suspension, revocation, or refusal to renew - requirement for cor-

- rective education - administrative fines.
- 25-7-509. Prohibition against local certification regarding asbestos abatement.
- 25-7-510. Fees.
- 25-7-511. Enforcement.
- 25-7-511.5. Injunctive proceedings.
- 25-7-511.6. Refresher training - authorization.
- 25-7-512. Repeal of part.

PART 6

DIESEL INSPECTION PROGRAM

- 25-7-601 to 25-7-610. (Repealed)

PART 7

TRAVEL REDUCTION TASK FORCE

- 25-7-701 to 25-7-706. (Repealed)

PART 8

TRAVEL REDUCTION PROGRAM

- 25-7-801 to 25-7-806. (Repealed)

PART 9

CLEAN AIR TRANSIT OPTIONS

- 25-7-901. Legislative declaration.
- 25-7-902. Definitions.
- 25-7-903. Clean air transit options for state employees.

PART 10

AIR QUALITY RELATED VALUES - CLASS I FEDERAL AREAS

- 25-7-1001. Legislative declaration.
- 25-7-1002. Air quality related values program.
- 25-7-1003. Definitions.
- 25-7-1004. Administration of program by division.
- 25-7-1005. Verification of federal land manager's assertion of air quality related value impairment.
- 25-7-1006. Source attribution and control strategy development.
- 25-7-1007. Commission to consider control strategies in rule-making proceeding.
- 25-7-1008. Voluntary agreements.

PART 11

LEAD-BASED PAINT ABATEMENT

- 25-7-1101. Legislative declaration.
- 25-7-1102. Definitions.
- 25-7-1103. Powers and duties of air quality control commission - rules.
- 25-7-1104. Duties of air pollution control division - certification of trained individuals.
- 25-7-1105. Fees.
- 25-7-1106. Enforcement.
- 25-7-1107. Applicability of article - child-occupied facilities and target housing.

PART 12

VOLUNTARY EMISSION LIMITATIONS

- 25-7-1201. Legislative declaration.
- 25-7-1202. Definitions.
- 25-7-1203. Voluntary agreements.
- 25-7-1204. Regulatory assurances.
- 25-7-1205. Exceptions.

- 25-7-1206. Coal-fired power plants.
- 25-7-1207. Allowances.
- 25-7-1208. Economic or cost-effectiveness analyses not required.

PART 13

THE SOUTHERN UTE INDIAN TRIBE/STATE OF COLORADO ENVIRONMENTAL COMMISSION

- 25-7-1301. Legislative declaration.
- 25-7-1302. Definitions.
- 25-7-1303. Southern Ute Indian tribe/state of Colorado environmental commission created.
- 25-7-1304. Commission - powers and duties - rules.
- 25-7-1305. Administration of reservation air program.
- 25-7-1306. Agencies of state to cooperate.
- 25-7-1307. Funding for staff and program costs.
- 25-7-1308. Administrative and judicial review of commission actions.
- 25-7-1309. Repeal of part.

PART 1

AIR QUALITY CONTROL PROGRAM

For comment, “Pre-Enforcement Judicial Review: CF & I Steel Corp.

v. Colorado Air Pollution Control Commission”, see 58 Den. L.J. 693 (1981). For article, “Pollution or Resources Out-of-place: Reclaiming Municipal Wastewater for Agricultural Use”, see 53 U. Colo. L. Rev. 559 (1982). **Applied** in CF&I Steel Corp. v. Colo. Air Pollution Control Comm’n, 199 Colo. 270, 610 P.2d 85 (1980).

25-7-102. Legislative declaration. In order to foster the health, welfare, convenience, and comfort of the inhabitants of the state of Colorado and to facilitate the enjoyment and use of the scenic and natural resources of the state, it is declared to be the policy of this state to achieve the maximum practical degree of air purity in every portion of the state, to attain and maintain the national ambient air quality standards, and to prevent the significant

deterioration of air quality in those portions of the state where the air quality is better than the national ambient air quality standards. To that end, it is the purpose of this article to require the use of all available practical methods which are technologically feasible and economically reasonable so as to reduce, prevent, and control air pollution throughout the state of Colorado; to require the development of an air quality control program in which the benefits of the air pollution control measures utilized bear a reasonable relationship to the economic, environmental, and energy impacts and other costs of such measures; and to maintain a cooperative program between the state and local units of government. It is further declared that the prevention, abatement, and control of air pollution in each portion of the state are matters of statewide concern and are affected with a public interest and that the provisions of this article are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state. The general assembly further recognizes that a current and accurate inventory of actual emissions of air pollutants from all sources is essential for the proper identification and designation of attainment and nonattainment areas, the determination of the most cost-effective regulatory strategy to reduce pollution, the targeting of regulatory efforts to achieve the greatest health and environmental benefits, and the achievement of a federally approved clean air program. In order to achieve the most accurate inventory of air pollution sources possible, this article specifically provides incentives to achieve the most accurate and complete inventory possible and to provide for the most accurate enforcement program achievable based upon that inventory.

ANNOTATION

Law reviews. For article, "Liabilities of Non-operating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

A. Fry Roofing Co. v. State, 179 Colo. 223, 499 P.2d 1176 (1972).

Control of air pollution is a legitimate subject of legislation under the police power. Lloyd

25-7-103. Definitions. As used in this article, unless the context otherwise requires:

(1) "Administrator" means the administrator of the federal environmental protection agency.

(1.3) "Adverse environmental effect", as a term used in the context of regulating hazardous air pollutants, means any significant and widespread adverse effect, which may reasonably be anticipated, to wildlife, aquatic life, or other natural resources, including adverse impacts on populations of endangered or threatened species or significant degradation of environmental quality over broad areas.

(1.5) "Air pollutant" means any fume, smoke, particulate matter, vapor, or gas or any combination thereof which is emitted into or otherwise enters the atmosphere, including, but not limited to, any physical, chemical, biological, radioactive (including source material, special nuclear material, and by-product material) substance or matter, but "air pollutant" does not include water vapor or steam condensate or any other emission exempted by the commission consistent with the federal act. Such term includes any precursors to the formation of any air pollutant, to the extent the administrator of the United States environmental protection agency or the commission has identified such precursor or precursors for the particular purpose for which the term "air pollutant" is used.

(2) "Air pollution control authority" means the division, or any person or agency given authority by the division, or a local governmental unit duly authorized with respect to air pollution control.

(3) "Air pollution source" means any source whatsoever at, from, or by reason of which there is emitted or discharged into the atmosphere any air pollutant.

(4) "Allowable emissions" means the emission rate calculated for a stationary source using the maximum rated capacity of the source (unless the source is subject to enforceable

permit conditions which limit the operating rate or hours of operation, or both) and the most stringent of the following:

(a) The applicable standards promulgated pursuant to the federal act for new source performance or hazardous air pollutants;

(b) The applicable Colorado emission control regulation; or

(c) The emission rate specified as a permit condition.

(5) "Ambient air" means that portion of the atmosphere, external to the sources, to which the general public has access.

(5.5) "Appliance" means any device which contains and uses as a refrigerant a class I or class II ozone depleting compound as defined by the administrator and which is used for household or commercial purposes, including any air conditioner, refrigerator, chiller, or freezer.

(5.7) "Approved motor vehicle refrigerant recycling equipment" means any equipment models certified by the administrator, or any independent standards testing organization approved by such administrator, to meet the standards established by the administrator which are applicable to equipment for the extraction of refrigerants from motor vehicle air conditioners. Equipment for such purpose purchased prior to the promulgation of regulations pursuant to section 25-7-105 (11) (c) shall be considered certified if it is substantially identical to equipment which is certified by the administrator.

(6) Repealed.

(6.5) "CFC" means any of the chlorofluorocarbon chemicals CFC-11, CFC-12, CFC-112, CFC-113, CFC-114, CFC-115, or CFC-502.

(6.7) "Colorado generally available control technology" or "Colorado GACT" means standards imposed pursuant to section 25-7-109.3 (3) utilizing principles of sound engineering judgment in applying the criteria set forth in section 112 (d) of the federal act respecting the creation of standards or requirements utilizing generally available control technologies or management practices by area sources for the reduction of emissions of hazardous air pollutants considering a cost-benefit analysis, economics, the cost and availability of control technology, and the location, nature, and size of the source involved, and the actual or potential impacts on the public health, welfare, and the environment.

(6.8) "Colorado maximum achievable control technology" or "Colorado MACT" means standards imposed pursuant to section 25-7-109.3 (3) utilizing principles of sound engineering judgment in applying the criteria set forth in section 112 (d) of the federal act respecting the creation of standards or requirements which provide for the maximum degree of emissions reduction that has been demonstrated to be achievable for the control of hazardous air pollutants, considering a cost-benefit analysis, economics, the cost and availability of control technology, and the location, nature, and size of the source involved, and the actual or potential impacts on the public health, welfare, and the environment.

(7) "Commission" means the air quality control commission created by section 25-7-104.

(8) "Construction" means fabrication, erection, installation, or modification of an air pollution source.

(9) "Division" means the division of administration of the department of public health and environment.

(9.5) "Effects on public welfare" means all language referring to effects on public welfare, which includes, but is not limited to, effects on soils, water, crops, vegetation, manmade materials, animals, wildlife, weather, visibility, climate, damage to and deterioration of property, and hazards to transportation, as well as effects on economic values and on personal comfort and well-being, whether caused by transformation, conversion, or combination with other air pollutants.

(10) "Emission" means the discharge or release into the atmosphere of one or more air pollutants.

(11) "Emission control regulation" means and includes any standard promulgated by regulation which is applicable to all air pollution sources within a specified area and which prohibits or establishes permissible limits for specific types of emissions in such area, and also any regulation which by its terms is applicable to a specified type of facility, process, or activity for the purpose of controlling the extent, degree, or nature of pollution emitted

from such type of facility, process, or activity, any regulation adopted for the purpose of preventing or minimizing emission of any air pollutant in potentially dangerous quantities, and also any regulation that adopts any design, equipment, work practice, or operational standard. Emission control regulations shall not include standards which describe maximum ambient air concentrations of specifically identified pollutants or which describe varying degrees of pollution of ambient air. Emission control regulations pertaining to hazardous air pollutants, as defined in subsection (13) of this section, shall be consistent with the emission standards promulgated under section 112 of the federal act or section 25-7-109.3 in reducing or preventing emissions of hazardous air pollutants, and may include application of measures, processes, methods, systems, or techniques, including, but not limited to, measures which:

- (a) Reduce the volume of, or eliminate emissions of, such pollutants through process changes, substitution of materials, or other modifications;
- (b) Enclose systems or processes to eliminate emissions;
- (c) Collect, capture, or treat such pollutants when released from a process, stack, storage, or fugitive emissions point;
- (d) Are design, equipment, or work practice standards (including requirements for operator training or certification); or
- (e) Are a combination of the provisions of paragraphs (a) to (d) of this subsection (11).

(11.5) "Emission data" means, with reference to any source of emission of any substance into the air:

(a) Information necessary to determine the identity, amount, frequency, concentration, or other characteristics (to the extent related to air quality) of any emission which has been, or will be, emitted by the source (or of any pollutant resulting from any emission by the source), or any combination thereof;

(b) Information necessary to determine the identity, amount, frequency, concentration, or other characteristics (to the extent related to air quality) of the emission which, under an applicable standard or limitation, the source was authorized to emit (including, to the extent necessary for such purposes, a description of the manner or rate of operation of the source), or any combination thereof;

(c) A general description of the location or nature, or both, of the source to the extent necessary to identify the source and to distinguish it from other sources (including, to the extent necessary for such purposes, a description of the device, installation, or operation constituting the source).

(12) "Federal act" means the federal "Clean Air Act", 42 U.S.C. sec. 7401 et seq. (1970), as the same is in effect on November 15, 1990.

(12.1) "Generally available control technology" or "GACT" means standards promulgated pursuant to section 112 of the federal act which provide for the use of generally available control technologies or management practices for the control of hazardous air pollutants for area sources, as defined in section 112 of the federal act, including equivalent emission limitations by permit pursuant to section 112 (j) of the federal act.

(13) "Hazardous air pollutant" means an air pollutant which presents through inhalation or other routes of exposure, a threat of adverse human health effects (including, but not limited to, substances which are known to be, or may reasonably be anticipated to be carcinogenic, mutagenic, teratogenic, neurotoxic, which cause reproductive dysfunction, or which are acutely or chronically toxic) or adverse environmental effects whether through ambient concentrations, bioaccumulation, deposition, or otherwise and which has been listed pursuant to section 112 of the federal act or section 25-7-109.3.

(14) "Indirect air pollution source" means any facility, building, structure, or installation, or any combination thereof, excluding dwellings, which can reasonably be expected to cause or induce substantial mobile source activity which results in emissions of air pollutants which might reasonably be expected to interfere with the attainment and maintenance of national ambient air standards.

(15) "Issue" or "issuance" means the mailing of any order, permit, determination, or notice, other than notice by publication, by certified mail to the last address furnished to the agency by the person subject thereto or personal service on such person, and the date of

issuance of such order, permit, determination, or notice shall be the date of such mailing or service or such later date as is stated in the order, permit, determination, or notice.

(16) "Local air pollution law" means any law, ordinance, resolution, code, rule, or regulation adopted by the governing body of any city, town, county, or city and county, pertaining to the prevention, control, and abatement of air pollution.

(16.5) "Maximum achievable control technology" or "MACT" means emission standards promulgated under section 112 of the federal act requiring the maximum degree of emissions reduction that has been demonstrated to be achievable for the control of hazardous air pollutants, including equivalent emission limitations by permit pursuant to section 112 (j) of the federal act.

(17) "Malfunction" means any sudden and unavoidable failure of air pollution control equipment or process equipment or unintended failure of a process to operate in a normal or usual manner. Failures that are primarily caused by poor maintenance, careless operation, or any other preventable upset condition or preventable equipment breakdown shall not be considered malfunctions.

(18) "Motor vehicle" means any self-propelled vehicle which is designed primarily for travel on the public highways and which is generally and commonly used to transport persons and property over the public highways.

(18.3) "Motor vehicle air conditioner" means any air conditioner designed for installation in a motor vehicle which uses as a refrigerant any class I or class II ozone depleting compound as defined by the administrator.

(18.4) "Owner or operator" means any person who owns, leases, operates, controls, or supervises a stationary source.

(18.5) "Ozone depleting compound" means any substance on the list of class I and class II ozone depleting compounds as defined by the administrator and as referenced in section 602 of the "Federal Clean Air Act of 1990".

(19) "Person" means any individual, public or private corporation, partnership, association, firm, trust, estate, the United States or the state or any department, institution, or agency thereof, any municipal corporation, county, city and county, or other political subdivision of the state, or any other legal entity whatsoever which is recognized by law as the subject of rights and duties.

(19.5) "Refrigeration system" includes refrigerators, freezers, cold storage warehouse refrigeration systems, and air conditioners, any of which hold more than one hundred pounds of refrigerant or more than one hundred pounds total if more than one refrigeration unit or system exists at the same location.

(20) "Shutdown" means the cessation of operation of any air pollution source for any purpose.

(21) "Start-up" means the setting in operation of any air pollution source for any purpose.

(22) "State implementation plan" means the plan required by and described in section 110(a) of the federal act.

(23) "Stationary source" means any building, structure, facility, or installation which emits or may emit any air pollutant.

L. 92: (1), (11), (12), (13), and (19) amended and (1.3), (1.5), (6.7), (6.8), (9.5), (11.5), (12.1), (16.5), and (18.4) added, p. 1166, § 5, effective July 1; (1) amended and (1.5), (5.5), (5.7), (18.3), and (18.5) added, p. 1291, § 1, effective July 1. L. 94: (9) amended, p. 2780, § 494, effective July 1. L. 2006: IP added, p. 1504, § 46, effective June 1.

Editor's note: (1) Amendments to subsection (1.5) by Senate Bill 92-105 and House Bill 92-1178 were harmonized.

(2) Subsection (18.4) was enacted as subsection (18.3) by Senate Bill 92-105, Session Laws of Colorado 1992, chapter 179, section 5, but has been renumbered on revision for ease of location.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (9), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Regulation of fugitive dust emission. Regulations adopted to accomplish the regulation of fugitive dust emission must be sufficiently definitive and specific that everyone involved will be able to determine what it is that he may or may not do. Such regulations must be uniformly

applicable to all persons creating the same type of emission while engaged in the same function for the same purposes. *CF&I Steel Corp. v. Colo. Air Pollution Control Comm'n*, 44 Colo. App. 111, 640 P.2d 238 (1981).

25-7-104. Air quality control commission created. (1) There is hereby created in the department of public health and environment the air quality control commission, which shall consist of nine citizens of this state who shall be appointed by the governor with the consent of the senate.

(2) Appointments to the commission shall be made so as to include persons with appropriate scientific, technical, industrial, labor, agricultural, and legal training or with experience on the commission; although no specific number of its members shall be required to be so trained or experienced, three members shall have appropriate private sector, technical, or industrial employment experience. No more than five commissioners shall be members of one political party.

(3) Terms of members shall be for three years, and said terms shall commence on February 1 of the year of appointment. Any vacancy occurring during the term of office of any member shall be filled by appointment by the governor of a qualified person for the unexpired portion of the regular term.

(4) The governor may remove any member of the commission for malfeasance in office, failure to regularly attend meetings, or any cause that renders such a member incapable or unfit to discharge the duties of his office, and any such removal, when made, shall not be subject to review. If any member of the commission is absent from two consecutive meetings, the chairman of the commission shall determine whether the cause of such absences was reasonable. If he determines that the cause of the absences was unreasonable, he shall so notify the governor, who shall appoint a qualified person for the unexpired portion of the regular term.

(5) Each member of the commission not otherwise in full-time employment of the state shall receive a per diem of forty dollars for each day actually and necessarily spent in the discharge of official duties, but not to exceed twelve hundred eighty-four dollars in any one year; and all members shall receive traveling and other necessary expenses actually incurred in the performance of official duties.

(6) Each year the commission shall select from its own membership a chairman, vice-chairman, and secretary. The secretary of the commission shall keep a record of its proceedings. The commission shall hold regular public monthly meetings and may hold special meetings on the call of the chairman or vice-chairman at such other times as deemed necessary. Written notice of the time and place of all meetings shall be mailed by the secretary at least five days in advance of any such meetings to each member.

(7) All members shall have a vote. Two-thirds of the commission shall constitute a quorum, and the concurrence of a majority of the commission in any matter within its powers and duties shall be required for any determination made by the commission.

(8) The commission shall have at least a majority of members who represent the public interest and do not derive a significant portion of their income from persons subject to permits or enforcement orders under this article or under the federal act. The members of the commission shall disclose any potential conflicts of interest to the governor and the committee of reference of the general assembly prior to confirmation and shall disclose any potential conflicts of interest which arise during their terms of membership to the governor and to the other commission members in a public meeting of the commission.

(9) (Deleted by amendment, L. 92, p. 1169, § 6, effective July 1, 1992.)

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Air pollution control commission is “agency” within the meaning of §§ 24-4-102 (3) and 24-4-107 and is subject to the provisions of the state administrative procedure act. *CF&I Steel Corp. v. Colo. Air Pollution Control Comm’n*, 199 Colo. 270, 610 P.2d 85 (1980).

Potential conflict of interest under subsection (8) was not undisclosed and, if an actual conflict existed, it was immaterial to the outcome of the commission’s rule-making. *Sohocki v. Air Quality Control Comm’n*, 12 P.3d 274 (Colo. App. 1999).

Remedy for nondisclosure of conflict of interest is not specified in this section. Therefore,

the court of appeals adopts a balancing test, depending on whether the official with the alleged conflict cast the deciding vote. If so, the agency’s action is invalid. If not, the court must examine three factors: (1) Whether the official disclosed the interest, or whether the other officials were fully aware of it; (2) the extent of the official’s participation in the proceeding; and (3) the magnitude of the official’s alleged interest. *Sohocki v. Air Quality Control Comm’n*, 12 P.3d 274 (Colo. App. 1999).

25-7-105. Duties of commission - rules. (1) Except as provided in sections 25-7-130 and 25-7-131, the commission shall promulgate such rules and regulations as are consistent with the legislative declaration set forth in section 25-7-102 and necessary for the proper implementation and administration of this article, including but not limited to:

(a) (I) A comprehensive state implementation plan which will assure attainment and maintenance of national ambient air quality standards and which will prevent significant deterioration of air quality, all in conformity with the provisions of this article. The comprehensive plan shall meet all requirements of the federal act and shall be revised whenever necessary or appropriate.

(II) The comprehensive state implementation plan of the commission shall, wherever feasible, include local or regional air pollution plans and programs adopted or enforceable by municipal or county governments. Before making any changes to those portions of the state implementation plan which include such air pollution plans and programs or to such plans and programs which are suggested for inclusion in the state implementation plan, the commission shall give thirty days’ notice of the proposed changes to the affected municipal or county government to allow a reasonable opportunity to prepare comments on the proposed changes. The commission shall consider such comments in its action on the state implementation plan and shall document in the record of the hearing its reasons for any changes to such plans and programs. Any such plans and programs which are approved by the commission and formally submitted as a part of the state implementation plan shall be deemed a part of the comprehensive program of the commission and shall be enforced as such.

(III) The revisions to the Denver element of the PM-10 state implementation plan adopted by the commission on February 16, 1995, which contain a sixty tons-per-day PM-10 mobile source emissions budget which expires January 1, 1998, and reverts to a forty-four tons-per-day budget, are amended to provide that such forty-four tons-per-day reversion shall not be a part of the state implementation plan and shall only apply as a regulation adopted exclusively under reserved state authority pursuant to the provisions of section 25-7-105.1. The sixty tons-per-day emissions budget shall, unless modified by the commission through rule-making, apply for federal transportation conformity and is included in the state implementation plan only as required by the federal act. Any entity with authority to adopt a transportation plan required under section 43-1-1103, C.R.S., shall consider any mobile source emissions budgets in effect under this article in the development of transportation improvement programs for federal purposes.

(IV) Notwithstanding the provisions of section 25-7-133, the expiration of the state implementation plan for ozone maintenance and related rules of the air quality control commission, and the amendments to commission regulations number 3 and 7, which state implementation plan and rules, and amendments to regulations number 3 and 7, were adopted or amended by the commission on March 21, 1996, and which are therefore scheduled for expiration May 15, 1997, is postponed until December 31, 2005, and the provisions of section 24-4-108, C.R.S., shall apply.

(b) Emission control regulations in conformity with section 25-7-109;

(c) A prevention of significant deterioration program in conformity with part 2 of this article and federal requirements; except that definitions used in the program shall not differ from any definitions pertaining to the prevention of significant deterioration program which appear in section 169 of the federal act or in federal regulations promulgated thereunder, and an attainment program in conformity with part 3 of this article;

(d) A satisfactory process of consultation with general purpose local governments and any federal land manager having authority over federal land to which the state implementation plan applies, effective with respect to measures adopted after August 7, 1978, pertaining to transportation controls, air quality maintenance plan requirements, preconstruction review of stationary sources of air pollution, or any measure referred to in the prevention of significant deterioration program established pursuant to part 2 of this article or the attainment program established pursuant to part 3 of this article, or granting delayed compliance orders pursuant to section 25-7-118.

(2) The commission shall provide forms of application and shall receive all such applications for review of the classification of any attainment, nonattainment, or unclassifiable area within the state made pursuant to section 25-7-106 (1) or 25-7-107 (2), all applications for designation or redesignation made pursuant to section 25-7-208, and all applications for any revision of general application of the state implementation plan and shall set such applications for hearing and determination by the commission in accordance with the provisions of section 25-7-119.

(3) The commission shall employ a technical secretary and shall delegate to such secretary such duties and responsibilities as it may deem necessary; except that no authority shall be delegated to such secretary to adopt, promulgate, amend, or repeal standards or regulations, or to make determinations, or to issue or countermand orders of the commission. Such secretary shall have appropriate practical, educational, and administrative experience related to air pollution control and shall be employed pursuant to the state personnel system laws.

(4) (a) The commission and the state board of health shall hold a joint public hearing during the month of October of each year in order to hear public comment on air pollution problems within the state, alleged sources of air pollution within the state, and the availability of practical remedies therefor; and at such hearing the technical secretary shall answer reasonable questions from the public concerning administration and enforcement of the various provisions of this article, as well as rules and regulations promulgated under the authority of this article.

(b) On or before September 30, 1993, the commission shall publish and revise from time to time thereafter, as is necessary, a regulatory agenda which includes its schedule for future rule-making and its schedule for implementing section 25-7-109.3 and other air quality programs.

(5) Prior to the hearing required under subsection (4) of this section, the commission shall prepare and make available to the public a report, which shall contain the following specific information:

(a) A description of the pollution problem in each of the polluted areas of the state, described separately for each such area;

(b) To the extent possible, the identification of the sources of air pollution in each separate area of the state, such as motor vehicles, industrial sources, and power-generating facilities;

(c) A list of all alleged violations of emission control regulations showing the status of control procedures in effect with respect to each such alleged violation; and

(d) Stationary industrial sources permitting information as follows:

- (I) The total number of permits issued;
 - (II) The total number of hours billed for permitting;
 - (III) The average number of hours billed per permit; and
 - (IV) The number of general permits issued.
- (6) and (7) Repealed.
- (8) (Deleted by amendment, L. 92, p. 1170, § 7, effective July 1, 1992.)
- (9) The commission shall adopt exhaust emissions standards for motor vehicles purchased for state use and shall assist the executive director of the department of personnel in determining those vehicles which meet or exceed such standards.
- (10) The commission shall promulgate such rules and regulations as are necessary to implement the provisions of part 5 of this article concerning asbestos control.
- (11) The commission shall promulgate rules concerning CFC and ozone-depleting compounds as follows:
- (a) Regulations requiring the recycling or reuse of any refrigerant containing CFC which is removed from the refrigeration system of a retail store, cold storage warehouse, or commercial or industrial building by any person who installs, services, repairs, or disposes of such system as a result of service to or disposal of such system;
 - (b) Regulations prohibiting the intentional venting or disposal of any refrigerant containing CFC by the owner or operator of a retail store, cold storage warehouse, or commercial or industrial building and requiring the recycling or reuse of such refrigerant;
 - (c) Regulations requiring the use of approved motor vehicle refrigerant recycling equipment during the repair or servicing of a motor vehicle air conditioner, requiring that such repair or servicing be done by a person certified in accordance with federal regulations, and including requirements for reclamation of refrigerants during the disposal of a vehicle;
 - (d) Repealed.
 - (e) Regulations which establish requirements for recycling;
 - (f) Regulations which conform with the requirements of section 608 of the "Federal Clean Air Act of 1990" to establish standards and requirements regarding the use and disposal of class I and class II ozone depleting compounds during the service, repair, or disposal of appliances and industrial process refrigeration. If federal training and certification requirements are adopted under section 609 of the "Federal Clean Air Act of 1990" as of January 1, 1993, no state training and certification requirements shall be adopted. If the federal regulations are not adopted, then such state regulations shall contain training and certification requirements substantially similar to those required under section 609 of the "Federal Clean Air Act of 1990". Such regulations shall also include provisions for the imposition and collection of a certification fee sufficient to implement the training, certification, and enforcement requirements of this paragraph (f).
 - (g) Repealed.
 - (h) Rules that are necessary for the imposition and collection of a fee for registering as stationary sources refrigeration systems and other appliances that contain a minimum of one hundred pounds or use a drive system of one hundred horsepower or more and use ozone-depleting compounds. The fee set by the commission shall reflect the direct and indirect costs of registering refrigeration systems and appliances; however, such fee shall not exceed seventy-five dollars per unit and shall not exceed a maximum of three hundred dollars per facility.
- (12) The commission shall promulgate such rules and regulations as are necessary to implement the provisions of the emission notice and construction permit programs and the minimum elements of a permit program provided in Title V of the federal act.
- (13) (a) The commission shall promulgate rules and regulations requiring motor vehicles which have manufacturer-installed diagnostic systems for emission controls to have such diagnostic systems inspected and maintained consistent with section 202 of the federal act as part of the periodic inspection of vehicle emission control systems required pursuant to this article.
- (b) This subsection (13) shall take effect July 1, 1994.
- (14) The commission shall repeal the clean vehicle fleet program mandated by section 246 of the federal act and shall replace such program if required by federal law. Nothing in

this subsection (14) shall be deemed to impair the availability of the income tax credit established pursuant to section 39-22-516, C.R.S.

(15) The commission shall promulgate rules and regulations as are necessary to provide an emission reduction incentive permit fee credit program which provides for a permit fee reduction in the year following the year in which a permittee achieves an early reduction in emissions of hazardous air pollutants, consistent with the provisions of section 112 of the federal act and section 25-7-114.3.

(16) The commission shall give priority to and take expeditious action upon consideration of the following:

(a) A request by a unit of local government to investigate and resolve air quality problems associated with a source;

(b) A request by a unit of local government for inclusion of a locally developed air pollution control measure in a state implementation plan;

(c) A request by a unit of local government that the commission consider local concerns respecting environmental and economic effects in the context of a proceeding where the state is targeting a source for imposition of additional air pollution controls.

(17) (a) Not later than December 31, 2002, and no less frequently than every five years thereafter, the commission shall conduct rule-making hearings to approve an update to the emission inventories from state and federal public land management agency activities on public lands resulting in emissions of any criteria pollutant, including surrogates or precursors for that pollutant, that affect any mandatory class I federal areas in Colorado by reducing visibility in such areas. At a minimum, such inventories shall report on emissions from the sources set forth in paragraph (d) of this subsection (17).

(b) The commission shall ensure that the division prepares inventories for all state land management agencies with jurisdiction over state lands, including, without limitation, the state land board, the department of agriculture, and the department of natural resources, to provide an inventory of emissions from land management activities that are sources of pollutant emissions that may affect any mandatory class I federal area in Colorado by reducing visibility in such areas; except that the commission shall exempt from the inventory requirement any sources or categories of sources that it determines to be of minor significance.

(c) The commission shall use the emission inventories provided under this subsection (17) to develop control strategies for reducing emissions within the state as a component of the visibility long-term strategies for inclusion in the state implementation plan and for inclusion in any environmental impact statement or environmental assessment required to be performed under the federal "National Environmental Policy Act of 1969", 42 U.S.C. secs. 4321 to 4347.

(d) The rule-making hearing held to approve the inventories provided under this subsection (17) shall require public participation and shall require the reporting of both current emissions and projected future emissions, over at least a five-year period, from the following sources on public land that affect any mandatory class I federal areas in Colorado:

(I) Stationary source emissions, based on existing air pollution emission notices filed with the division;

(II) Mobile sources utilizing state lands, excluding state and federal highways;

(III) Paved and unpaved roads;

(IV) Fires on public lands from all sources;

(V) Biogenic sources, including emissions from flora and fauna.

(e) Each inventory provided under this subsection (17) shall state the basis and methodology used to accumulate the data and shall be based upon data that are:

(I) Developed no later than three years prior to the submittal; and

(II) No more than five years old.

(18) Upon petition by any person or on its own motion, for good cause shown, the commission may determine that the emission inventory of any criteria pollutant, including a surrogate or precursor for that pollutant, for a region of the state is inadequate for purposes of commission rule-making or adjudications in connection with development of the state implementation plan, selection of pollution control strategies, attribution of emissions to sources or categories of sources, or findings of adverse impacts. If, after conducting a public

hearing in accordance with the rule-making provisions of the "State Administrative Procedure Act", article 4 of title 24, C.R.S., the commission finds that the emission inventory should be revised to take into consideration existing credible studies or scientific data in order to reasonably attribute emissions to source categories, it shall direct that such revision be performed prior to a final rule-making or adjudication.

(19) The commission may coordinate with the United States secretary of the interior and the United States secretary of agriculture to develop air quality management plans consistent with this article for federal lands pursuant to 16 U.S.C. sec. 530, 16 U.S.C. sec. 1604, and 43 U.S.C. sec. 1712.

25-7-105.1. Federal enforceability. (1) To the extent that any provision of this article or any standard or regulation promulgated pursuant thereto is not required by Part C (prevention of significant deterioration), Part D (nonattainment), or Title V (minimum elements of a permit program) of the federal act, or is not required by section 111 of the federal act, or is not required for sources to participate in the early reduction program of section 112 of the federal act, or is not required for sources to be excluded as a major source under this article, or is otherwise more stringent than other requirements of the federal act, such provision, standard, or regulation is hereby declared to be adopted under powers reserved to the state of Colorado pursuant to section 116 of the federal act. Any such provision, standard, or regulation adopted exclusively under state authority shall not constitute part of the state implementation plan.

(2) Whenever the division or commission grants relief to an owner or operator of a new or modified stationary source from that part of a state standard or regulation which is not required by Part C (prevention of significant deterioration), Part D (nonattainment), or Title V (minimum elements of a permit program) of the federal act, or is not required by section 111 of the federal act, or is not required for sources to participate in the early reduction program of section 112 of the federal act, or is not required for sources to be excluded as a major source under this article, or which is otherwise more stringent than other requirements of the federal act and is not included as part of the state implementation plan, such relief shall be governed exclusively by the laws of this state and the regulations of the commission.

(3) To the extent any term or condition contained in any permit issued pursuant to this article is not required by Part C (prevention of significant deterioration), Part D (nonattainment), or Title V (minimum elements of a permit program) of the federal act, or is not required by section 111 of the federal act, or is not required for sources to participate in the early reduction program of section 112 of the federal act, or is not required for sources to

be excluded as a major source under this article, or is otherwise more stringent than other requirements of the federal act, such term or condition shall be subject to enforcement exclusively under the laws of this state and the regulations of the commission.

Source: L. 92: Entire section added, p. 1172, § 8, effective July 1.

25-7-106. Commission - additional authority. (1) Except as provided in sections 25-7-130 and 25-7-131, the commission shall have maximum flexibility in developing an effective air quality control program and may promulgate such combination of regulations as may be necessary or desirable to carry out that program; except that such program and regulations shall be consistent with the legislative declaration set forth in section 25-7-102. Such regulations may include, but shall not be limited to:

(a) Classification and, as appropriate, reclassification of the state into attainment, nonattainment, and unclassifiable areas, and division of the state into such control regions or areas as may be necessary or desirable for effective administration of this article;

(b) Classification and definition of different degrees or types of air pollution;

(c) Emission control regulations that are applicable to the entire state, that are applicable only within specified areas or zones of the state, or that are applicable only when a specified class of pollution is present;

(d) Development of a high altitude performance adjustment program for motor vehicles to the extent authorized by section 215 of the federal act;

(e) Development of a control or prohibition respecting the use of a fuel or fuel additives in a motor vehicle or motor vehicle engine to the extent authorized by section 211(c) of the federal act if, based on sound scientific data, the commission finds that a measurable reduction in ambient concentrations of criteria pollutants or other pollutants shall occur.

(2) The commission may hold public hearings, issue notice of hearings, issue subpoenas requiring the attendance of witnesses and the production of evidence, administer oaths, and take such testimony as it deems necessary, all in conformity with article 4 of title 24, C.R.S., and with sections 25-7-110 and 25-7-119.

(3) The commission may adopt such rules and regulations in conformity with article 4 of title 24, C.R.S., governing procedures before the commission as may be necessary to assure that hearings before the commission will be fair and impartial.

(4) (a) In the event the commission, after hearing, finds and determines that a particular style or model of automobile air pollution control device is not sufficiently effective to justify the continued connection and operation of such device, the commission shall so notify the department of revenue; thereafter, all devices of such particular style or model shall be exempt from the provisions of section 42-4-314, C.R.S.

(b) Repealed.

(4.1) Repealed.

(5) The commission may exercise all incidental powers necessary to carry out the purposes of this article.

(6) The commission may require the owner or operator, or both, of any air pollution source to:

(a) Establish and maintain reports as prescribed by the commission;

(b) Install, use, and maintain monitoring equipment or methods as prescribed by the commission;

(c) Record, monitor, and sample emissions in accordance with such methods, at such locations, at such intervals, and in such manner as the commission shall prescribe;

(d) Provide such other information as the commission may require.

(7) (a) The commission is specifically authorized and directed to develop a program to apply and enforce every relevant provision of the state implementation plan and every relevant emission control strategy to minimize emissions, including the impacts of actions by significant users of prescribed fire, including federal, state, and local government, and private land managers that are significant users of prescribed fire. The program developed by the commission under this subsection (7) shall include, but not be limited to, the imposition of any fees necessary to administer the program, including the recovery of costs

by the state for the evaluation of planning documents pursuant to subsection (8) of this section, and the imposition of penalties pursuant to section 25-7-122.

(b) The general assembly hereby finds, determines, and declares that the Grand Canyon visibility transport commission's recommendations for improving western vistas report identified the emissions from fire, both wildfire and prescribed fires, as likely to have the single greatest impact on visibility at class I areas through the year 2040. The emissions from fire, both wildfire and prescribed fire, are an important episodic contributor to visibility impairing aerosols. The Grand Canyon visibility transport commission report identified that significant amounts of visibility impairment result from activities on federal lands, from mobile sources, and from Mexico.

(c) The general assembly further finds, determines, and declares that emissions from grassland and forest fires have substantial episodic impacts on ambient air quality throughout the state and are a major source of visibility impairment over which this state has jurisdiction but has not yet developed a comprehensive program to reduce such impairment.

(d) The general assembly further finds, determines, and declares that the standard in its statement of legislative purpose in section 25-7-102 of the "Colorado Air Pollution Prevention and Control Act" requiring the use of all practical methods that are technologically feasible and economically reasonable so as to reduce, prevent, and control air pollution is an appropriate standard to apply in relation to air pollution emissions resulting from the use of prescribed fire in grassland and forest management.

(e) This subsection (7) and subsection (8) of this section are adopted pursuant to section 118 of the federal act and shall be construed to exercise the full extent of the state's authority as granted by the provisions of said federal act. The federal government, as the only landowner of its size in the state and the only landowner in the state other than the state government itself that routinely prepares plans involving the management of grassland and forest lands using prescribed fire, is appropriately subject to the requirements of this section pertaining to review and approval of planning documents.

(f) Persons owning or managing large parcels of land who significantly use prescribed fire as a grassland or forest management tool shall prepare plans addressing the use and role of prescribed fire and the air quality impacts resulting therefrom, and such plans are appropriately subject to the review requirements of this section. The state, by reviewing these types of plans, can achieve significant progress towards cooperatively reducing emissions from those lands that impact visibility in Colorado.

(g) As used in this subsection (7) and in subsection (8) of this section, the term "significant user of prescribed fire" means a federal, state, or local agency or significant management unit thereof or person that collectively manages or owns more than ten thousand acres of grasslands or forest lands within the state of Colorado and that uses prescribed fire. The adoption of a fire management plan by a local or county unit of government pursuant to section 30-11-124, C.R.S., does not constitute management for purposes of this section unless the county or local unit of government owns or manages more than ten thousand acres and is a significant user of prescribed fire. "Prescribed fire" means fire that is intentionally used for grassland or forest management, regardless of whether the fire is caused by natural or human sources. Prescribed fire does not include open burning in the course of agricultural operations and does not include open burning for the purpose of maintaining water conveyance structures, unless the commission acts pursuant to section 25-7-123. The commission shall by rule exempt from the program developed pursuant to this subsection (7) those sources that have an insignificant impact on visibility and air quality.

(8) (a) The commission, in exercising the powers conferred by subsection (7) of this section and this subsection (8), shall require all significant users of prescribed fire, including federal agencies for activities directly conducted by or on behalf of federal agencies on federal lands, to minimize emissions using all available, practicable methods that are technologically feasible and economically reasonable in order to minimize the impact or reduce the potential for such impact on both the attainment and maintenance of national ambient air quality standards and the achievement of federal and state visibility goals.

(b) (1) In order to ensure compliance with the requirements of paragraph (a) of this subsection (8), significant users of prescribed fire shall submit planning documents to the

commission. The commission shall then conduct a public hearing to review each planning document submitted relevant to achieving the goal of minimizing emissions and impacts as set forth in paragraph (a) of this subsection (8). Only one hearing shall be held for each planning document. The commission shall hold a hearing and complete its review of the planning documents submitted by any significant user of prescribed fire within forty-five days of their receipt by the commission, unless otherwise agreed to by the significant user of prescribed fire.

(II) As used in this paragraph (b), "planning documents" means documents that summarize the use of prescribed fire as a grassland or forest management tool and the associated discharge or release of air pollution and that demonstrate how compliance with the state standard expressed in section 25-7-102 shall be achieved. "Planning documents" shall include land management plans or a summary of the equivalent information that explains and supports the land management criteria evaluated and the decision to use prescribed fire as the fuel treatment method. Planning documents shall include a discussion of the alternatives considered and a discussion of how prescribed fire, if selected, minimizes the risk of wildfire.

(III) The commission shall have discretion to adopt rules governing the resubmission of planning documents to prevent such plans from becoming outdated.

(c) Following a public hearing, the commission shall comment and make recommendations to the significant user of prescribed fire regarding any changes to elements of the plan relating to the discharge or release of air pollutants that the commission finds necessary to comply with the state standard expressed in section 25-7-102.

25-7-106.1. Commission - duties - visibility standard - report. (Repealed)

Source: **L. 89:** Entire section added, p. 1156, § 4, effective May 26. **L. 90:** (2) amended, p. 1847, § 42, effective May 31. **L. 96:** Entire section repealed, p. 1258, § 152, effective August 7.

Cross references: For the legislative declaration contained in the 1996 act repealing this section, see section 1 of chapter 237, Session Laws of Colorado 1996.

25-7-106.3. Commission - duties - wood-burning stoves - episodic no-burn days - rules. (1) The commission shall promulgate, no later than March 1, 1990, such combination of regulations as it may find to be cost-effective and consistent with the legislative declaration set forth in section 25-7-102 in order to establish limitations on the use of wood-burning stoves and fireplaces during those periods of time declared by the Colorado department of health to be a high pollution day. The department may declare a high pollution day based on experienced or anticipated excessive levels of carbon monoxide or particulates when air pollution standards are exceeded for particulates, carbon monoxide, or visibility. The limitations on the use of wood-burning stoves and fireplaces imposed pursuant to this section may include no-burn days, and such no-burn days shall be specific to the separate airsheds within the Denver-Boulder metropolitan area. Such limitations shall be applicable only in those portions of the counties of Adams, Arapahoe, Boulder, Denver, Douglas, and Jefferson which are located in the AIR program area, as such area is defined in section 42-4-304 (20), C.R.S. Such regulations shall exclude areas above seven thousand feet unless the commission determines that particulates from wood burning in such areas are contributing to the brown cloud. Such regulations shall not apply to any person who utilizes

wood-burning stoves or fireplaces as the primary source of heat in such person's place of residence. Such regulations shall permit exemptions for wood-burning stoves that meet Phase III emissions standards. For the purposes of this section, "Phase III" means wood stove standards adopted by the commission which are more strict than existing wood stove standards. The regulations promulgated pursuant to this subsection (1) shall not be effective until July 1, 1990.

(2) No regulation promulgated by the commission pursuant to subsection (1) of this section shall apply within any municipality which has in effect on January 1, 1990, an ordinance mandating restricted use of wood-burning stoves and fireplaces during those periods of time declared by the Colorado department of health to be high pollution days.

Source: **L. 89:** Entire section added, p. 1157, § 4, effective May 26. **L. 93:** (1) amended, p. 1922, § 2, effective July 1. **L. 94:** (1) amended, p. 2560, § 63, effective January 1, 1995.

25-7-106.5. Commission - duties - alternative fuels - street-cleaning - time-shifting - reports. (Repealed)

Source: **L. 89:** Entire section added, p. 1158, § 4, effective May 26. **L. 96:** Entire section repealed, p. 1258, § 152, effective August 7.

Cross references: For the legislative declaration contained in the 1996 act repealing this section, see section 1 of chapter 237, Session Laws of Colorado 1996.

25-7-106.7. Regulations - studies - AIR program area. The authority of the commission to promulgate regulations pursuant to section 25-7-106.3 is limited to the program area, as defined in section 42-4-304 (20), C.R.S., and such regulations shall not apply outside the program area.

Source: **L. 89:** Entire section added, p. 1158, § 4, effective May 26. **L. 93:** Entire section amended, p. 1923, § 3, effective July 1. **L. 94:** Entire section amended, p. 2560, § 64, effective January 1, 1995. **L. 2001:** Entire section amended, p. 1275, § 37, effective June 5.

25-7-106.8. Colorado clean vehicle fleet program. (1) As used in this section, unless the context otherwise requires:

(a) "Alternative fuel" means compressed natural gas, propane, ethanol, or any mixture of ethanol containing eighty-five percent or more ethanol by volume with gasoline or other fuels, electricity, or any other fuels, which fuels may include, but are not limited to, clean diesel and reformulated gasoline so long as these other fuels make comparable reductions in carbon monoxide emissions and brown cloud pollutants as determined by the air quality control commission. "Alternative fuel" does not include any fuel product, as defined in section 25-7-139 (3), that contains or is treated with methyl tertiary butyl ether (MTBE).

(b) to (f) Repealed.

(2) to (7) Repealed.

25-7-106.9. Alternative fuels financial incentive program. (Repealed)

Source: **L. 89:** Entire section added, p. 1163, § 1, effective May 26. **L. 92:** Entire section amended, pp. 1175, 1315, §§ 9, 1, effective July 1. **L. 94:** (1)(a) and (1)(e)(I) amended, p. 2781, § 497, effective July 1; (1)(e)(II) amended, p. 2561, § 66, effective January 1, 1995.

Editor's note: Subsection (2) provided for the repeal of this section, effective July 1, 1997. (See L. 92, p. 1315.)

25-7-107. Commission - area classification. (1) The commission shall, within one hundred eighty days after June 20, 1979, and thereafter from time to time, if evidence indicates a need, review the current classification of any attainment, nonattainment, or unclassifiable area within the state and shall revise the classification of any such area or part thereof which is calculated by air quality modeling or shown by monitored data or other reliable methods to be invalid.

(2) The commission shall, upon application by the owner or operator of any existing or proposed stationary source, review the designation of any attainment, nonattainment, or unclassifiable area within the state and shall revise the designation of any such area or part thereof which is calculated by air quality modeling or shown by monitored data or other reliable methods to be invalid.

(2.5) Whenever monitoring data for any pollutant for which an area is designated nonattainment demonstrate that the national ambient air quality standard for that pollutant has been attained in accordance with the criteria required under the federal act, the division and commission shall take expeditious action to redesignate the area as attainment for that pollutant.

(3) In making any determination regarding the attainment, nonattainment, or unclassifiable designation of any area within the state with regard to particulate matter, the commission shall consider and, if consistent with the requirements of Part D of the federal act, discount the effects of particulate matter not of a size or substance to adversely affect public health or welfare.

(4) All revisions of designations shall be submitted to the administrator of the United States environmental protection agency.

Source: **L. 79:** Entire article R&RE, p. 1024, § 1, effective June 20. **L. 92:** (2.5) added, p. 1177, § 10, effective July 1.

25-7-108. Commission to promulgate ambient air quality standards. (1) In addition to the other powers and duties enumerated in this article, the commission shall have the power to adopt, promulgate, amend, and modify such standards for the quality of ambient air as may be appropriate or necessary to carry out the purposes of this article, including, but not limited to:

(a) Standards which describe the maximum concentrations of specifically described pollutants that can be tolerated, consistent with the protection of the good health of the public at large; such standards may differ for different parts of the state as may be necessitated by variations in altitude, topography, climate, or meteorology;

(b) Standards which describe the air quality goals that are to be achieved by control programs within specified periods of time; such standards may be either statewide or restricted to specified control areas; and

(c) Standards which describe varying degrees of pollution of ambient air.

(2) Ambient air standards shall include such requirements for test methods and procedures as will assure that the samples of ambient air tested are representative of the ambient air.

(3) Notwithstanding any provision of this article to the contrary, no provision of this article shall preclude the commission from adopting ambient air quality standards which are more stringent than the national ambient air quality standards.

(4) Ambient standards may only be implemented and enforced through permit terms and conditions or regulations promulgated to meet requirements for state implementation plans.

Source: L. 79: Entire article R&RE, p. 1024, § 1, effective June 20. L. 92: (4) added, p. 1177, § 11, effective July 1.

ANNOTATION

Precise standards impractical to administer. Precise standards in the area of air pollution enactments are impractical, if not impossible, to administer. *Lloyd A. Fry Roofing Co. v. State*, 179 Colo. 223, 499 P.2d 1176 (1972).

Broad standards sufficient. Broad standards such as "necessary" have been found sufficient as standards, although incapable of precise definition. *Lloyd A. Fry Roofing Co. v. State*, 179 Colo. 223, 499 P.2d 1176 (1972).

25-7-109. Commission to promulgate emission control regulations. (1) (a) Except as provided in sections 25-7-130 and 25-7-131, as promptly as possible, the commission shall adopt, promulgate, and from time to time modify or repeal emission control regulations which require the use of effective practical air pollution controls:

(I) For each significant source or category of significant sources of air pollutants;

(II) For each type of facility, process, or activity which produces or might produce significant emissions of air pollutants.

(b) The requirements and prohibitions contained in such regulations shall be set forth with as much specificity and clarity as is practical. Upon adoption of an emission control regulation under subparagraph (II) of paragraph (a) of this subsection (1) for the control of a specific facility, process, or activity, such regulation shall apply to the exclusion of other emission control regulations adopted pursuant to subparagraph (I) of paragraph (a) of this subsection (1); prior to such adoption, the general regulations adopted pursuant to subparagraph (I) of paragraph (a) of this subsection (1) shall be applicable to such facility, process, or activity. In the formulation of each emission control regulation, the commission shall take into consideration the following:

(I) The state policy regarding air pollution, as set forth in section 25-7-102;

(II) Federal recommendations and requirements;

(III) The degree to which altitude, topography, climate, or meteorology in certain portions of the state require that emission control regulations be more or less stringent than in other portions of the state;

(IV) The degree to which any particular type of emission is subject to treatment, and the availability, technical feasibility, and economic reasonableness of control techniques;

(V) The extent to which the emission to be controlled is significant;

(VI) The continuous, intermittent, or seasonal nature of the emission to be controlled;

(VII) The economic, environmental, and energy costs of compliance with such emission control regulation;

(VIII) Whether an emission control regulation should be applied throughout the entire state or only within specified areas or zones of the state, and whether it should be applied only when a specified class or type of pollution is concerned.

(2) Such emission control regulations may include, but shall not be limited to, regulations pertaining to:

(a) Visible pollutants;

(b) Particulates;

(c) Sulfur oxides, sulfuric acids, hydrogen sulfide, nitrogen oxides, carbon oxides, hydrocarbons, fluorides, and any other chemical substance;

(d) Odors, except for livestock feeding operations that are not housed commercial swine feeding operations as defined in section 25-8-501.1 (2) (b);

(e) Open burning activity;

(f) Organic solvents;

(g) Photochemical substances;

(h) Hazardous air pollutants.

(3) Emission control regulations adopted pursuant to this section shall include, but shall not be limited to, regulations pertaining to the following facilities, processes, and activities:

- (a) Incinerator and incinerator design;
- (b) Storage and transfer of petroleum products and any other volatile organic compounds;
- (c) Activities which frequently result in particulate matter becoming airborne, such as construction and demolition operations;
- (d) Specifications, prohibitions, and requirements pertaining to fuels and fuel additives, such as tetraethyl lead;
- (e) Wigwam waste burners, pulp mills, alfalfa dehydrators, asphalt plants, and any other industrial or commercial activity which tends to emit air pollutants as a by-product;
- (f) Industrial process equipment;
- (g) Industrial spraying operations;
- (h) Airplanes;
- (i) Diesel-powered machines, vehicles, engines, and equipment;
- (j) Storage and transfer of volatile compounds and hazardous or toxic gases or other hazardous substances which may become airborne.

(4) The commission shall promulgate appropriate regulations pertaining to hazardous air pollutants.

(5) The commission shall promulgate appropriate regulations setting conditions and time limitations for periods of start-up, shutdown, or malfunction or other conditions which justify temporary relief from controls. Operations of any air pollution source during periods of start-up, shutdown, and malfunction shall not constitute representative conditions for the purpose of a performance or compliance test.

(6) The commission shall establish test methods and procedures for determining compliance with emission control regulations promulgated under this section and, in so doing, shall, to the maximum degree consistent with the purposes of this article, consider the test methods and procedures established by the United States environmental protection agency and shall adopt such test methods and procedures as shall minimize the possibility of inconsistency or duplication of effort.

(7) All regulations promulgated pursuant to this section shall conform with the provisions of part 5 of this article concerning asbestos control.

(8) (a) Notwithstanding any other provision of this section, the commission shall not regulate emissions from agricultural, horticultural, or floricultural production such as farming, seasonal crop drying, animal feeding operations that are not housed commercial swine feeding operations as defined in section 25-8-501.1 (2) (b), and pesticide application; except that the commission shall regulate such emissions if they are "major stationary sources", as that term is defined in 42 U.S.C. sec. 7602 (j), or are required by Part C (prevention of significant deterioration), Part D (nonattainment), or Title V (minimum elements of a permit program), or are participating in the early reduction program of section 112 of the federal act, or is not required by section 111 of the federal act, or is not required for sources to be excluded as a major source under this article.

(b) Nothing in paragraph (a) of this subsection (8), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(9) (a) The commission shall adopt a procedure consistent with the federal environmental protection agency requirements for determining when there has been a net significant emissions increase which results in a major modification that subjects a source to the permitting requirements of the prevention of significant deterioration program or the nonattainment area new source review. The commission's procedure shall also prohibit sources from circumventing the new source review requirements in a manner consistent with the federal environmental protection agency guidance. Such procedure shall be the same for both the prevention of significant deterioration program and the nonattainment area new source review program and shall not apply to hazardous air pollutants. Such net emissions increase procedure shall be as described in paragraph (b) of this subsection (9),

unless and until the federal environmental protection agency requires otherwise or unless after January 1, 1998, the commission:

(I) Undertakes a collaborative process with the affected industries to determine the cost and emission impacts associated with any proposed changes in this procedure;

(II) Reviews at least three years of emissions increases and decreases under the procedures described in paragraph (b) of this subsection (9);

(III) Delivers reports on the matters required in subparagraphs (I) and (II) of this paragraph (a) to the general assembly for its review;

(IV) Determines through rule-making that an applicability procedure for major modifications more stringent than that described in paragraph (b) of this subsection (9) is equitable when considering minor, area, and mobile source controls; and

(V) Determines through rule-making that such more stringent applicability procedure is necessary to attain and to maintain the national ambient air quality standards.

(b) The procedure for determining when there has been a net significant emissions increase shall be consistent with requirements of the federal environmental protection agency and:

(I) Such requirements shall apply only if there is, in the first instance, a significant emissions increase from an individual proposed project or modification. If the individual proposed project or modification will not result in a significant emissions increase, it shall be exempt from the prevention of significant deterioration program and the nonattainment area new source review requirements.

(II) If a project or modification is not exempt under subparagraph (I) of this paragraph (b), each pollutant for which the project results in a significant emissions increase shall be subject to the prevention of significant deterioration program or the nonattainment area new source review requirements only if the sum of all source-wide, non-de minimis, contemporaneous, and creditable emissions increases and decreases of that pollutant or that regulated precursor exceed applicable significance levels. Each specific regulated precursor shall be considered independently in determining applicable significance levels.

(III) In determining the non-de minimis net emissions increase during the contemporaneous period, the commission's procedures shall be consistent with the federal environmental protection agency's review procedure for determining net emissions increases and decreases. Non-de minimis increases shall exclude all increases which would be exempt under commission rules from a requirement to obtain a construction permit under section 25-7-114.2.

Source: **L. 79:** Entire article R&RE, p. 1025, § 1, effective June 20. **L. 87:** (7) added, p. 1151, § 3, effective July 1. **L. 92:** (2)(h) amended and (8) added, p. 1177, § 12, effective July 1. **L. 94:** (9) added, p. 1418, § 1, effective May 25. **Initiated 98:** (2)(d) and (8) amended, effective upon proclamation of the Governor, December 30, 1998. **L. 2005:** (8) amended, p. 348, § 4, effective August 8.

Editor's note: (1) Subsections (2)(d) and (8) were amended by an initiated measure that was adopted by the people at the general election held November 3, 1998. The measure amending subsections (2)(d) and (8) was effective upon proclamation of the Governor, December 30, 1998.

(2) The vote count on the measure at the general election held November 3, 1998, was as follows:

FOR:	790,852
AGAINST:	438,873

ANNOTATION

Law reviews. For comment, "Pre-Enforcement Judicial Review: CF&I Steel Corp. v. Colo. Air Pollution Control Commission", see 58 Den. L.J. 693 (1981).

Factors to be considered in promulgation. Commission-promulgated regulations may and sometimes must be formulated with regard to the various factors which either constitute, pro-

duce, or dispel air pollution: e.g., classifying different types and degrees of air pollution; promulgating regulations applicable to either a part or the whole of the state; describing maximum concentrations of contaminants that can be tolerated depending on variations in altitude, topography, climate, or meteorology; taking into consideration the degree to which any particular

type of emission is subject to treatment; and considering the continuous, intermittent, or seasonal nature of the emission to be controlled. *Lloyd A. Fry Roofing Co. v. State*, 179 Colo. 223, 499 P.2d 1176 (1972).

Where an electrical generating unit has the same industrial grouping as two other units located on contiguous property and all three units are operated by the same entity, there was no error in concluding that the unit is not a separate source. Therefore, increased emissions

from the unit should be considered in conjunction with reduced emissions from the other two units, and the source-wide emission increases did not exceed the applicable significance levels. *Citizens for Clean Air & Water v. Colo. Dept. of Pub. Health & Env't*, 181 P.3d 393 (Colo. App. 2008).

Applied in *CF&I Steel Corp. v. Colo. Air Pollution Control Comm'n*, 199 Colo. 270, 610 P.2d 85 (1980).

25-7-109.1. Emergency rule-making. In addition to all other powers of the commission, the commission, pursuant to section 24-4-103 (6), C.R.S., shall have the authority to conduct emergency rule-making for the purpose of adopting an interim emission control regulation to apply for a specified period of time in place of an existing emission control regulation or to create an emission control regulation whenever federal regulations have been adopted and become effective pursuant to section 111 of the federal act and which add to the list of categories of stationary sources, or add new or more restrictive standards of performance for new sources, or whenever federal regulations are adopted and effective pursuant to section 112 of the federal act and which modify or adopt MACT or GACT for new or existing sources, and such regulations are required to be implemented by the states. Interim emission control regulations adopted pursuant to this section shall not be effective for a period greater than twelve months from the date of adoption.

Source: L. 92: Entire section added, p. 1178, § 13, effective July 1.

25-7-109.2. Small business stationary source technical and environmental compliance assistance program - repeal. (1) The commission shall promulgate such rules, regulations, and procedures as are necessary to establish and administer the Colorado small business stationary source technical and environmental compliance assistance program consistent with the requirements of the federal act.

(2) There is hereby created a compliance advisory panel which shall:

(a) Render advisory opinions concerning the effectiveness of the small business stationary source technical and environmental compliance assistance program, difficulties encountered, degree of enforcement, and severity of penalties;

(b) Make periodic reports to the governor and the administrator of the United States environmental protection agency;

(c) Review information for small business stationary sources to assure such information is understandable by the layperson; and

(d) Oversee the small business stationary source technical and environmental compliance assistance program, which shall serve as the secretariat for the development and dissemination of such reports and advisory opinions.

(3) The panel shall consist of:

(a) Two members who are not owners or representatives of owners of small business stationary sources, appointed by the governor to represent the general public;

(b) Two members who are owners or who represent owners of small business stationary sources, one appointed by the speaker of the house of representatives and one appointed by the minority leader of the house of representatives;

(c) Two members who are owners or who represent owners of small business stationary sources, one appointed by the president of the senate and one appointed by the minority leader of the senate; and

(d) One member appointed by the executive director of the department of public health and environment to represent such department.

(4) The terms of those members of the panel initially appointed by the governor, the speaker of the house of representatives, and the minority leader of the house of representatives shall expire on January 31, 1994. The terms of those members initially appointed by

the president of the senate, the minority leader of the senate, and the executive director of the department of public health and environment shall expire on January 31, 1995. Thereafter, members of the panel shall serve for terms of two years, such terms to commence on February 1 of the year of appointment. Vacancies occurring during the term of office of any member of the panel shall be filled for the unexpired portion of the regular term in the same manner as for the original appointment.

(5) In furtherance of the small business stationary source technical and environmental compliance assistance program established as provided in subsection (1) of this section, the department of public health and environment shall serve as ombudsman for small business stationary sources. The department shall carry out the ombudsman duties using personnel outside of the air pollution control division.

(6) The general assembly finds, determines, and declares that this section is enacted for purposes of compliance with the provisions of section 507 of the federal act, 42 U.S.C. sec. 7661f. Subsections (2), (3), and (4) of this section and this subsection (6) are repealed, effective July 1, 2015. Prior to said repeal, the compliance advisory panel shall be reviewed by a legislative committee of reference, designated pursuant to section 2-3-1201, C.R.S., to conduct the review pursuant to section 24-34-104, C.R.S.

25-7-109.3. Colorado hazardous air pollutant control and reduction program - rules. (1) The commission shall promulgate appropriate regulations pertaining to hazardous air pollutants as defined in section 25-7-103 (13) which are consistent with this section and the requirements of and emission standards promulgated pursuant to section 112 of the federal act, including any standard required to be imposed under section 112(r) of the federal act. The commission shall monitor the progress and results of the risk studies performed under section 112 of the federal act to show that Colorado's hazardous air pollutant control and reduction program is consistent with the national strategy.

(2) The commission may only promulgate regulations pertaining to hazardous air pollutants as defined in section 25-7-103 (13) in accordance with this section. In order to minimize additional regulatory and compliance costs to the state's economy, any program created by the commission pursuant to this section shall contain a provision which exempts those sources or categories of sources which it determines to be of minor significance from the requirements of the program. Consistent with the provisions of section 25-7-105.1, the commission shall authorize synthetic minor sources of hazardous air pollutants by the issuance of construction permits or prohibitory rules or other regulations. Such permits, rules, or regulations shall only be as stringent as necessary to establish synthetic minor status. The commission shall expeditiously implement this subsection (2) to assure that all sources may be able to timely qualify as a synthetic minor source, thereby avoiding the costs of the operating permit program.

(3) (a) (I) As soon as adequate scientific, technological, and hazardous air pollutant emissions information is available, the commission may promulgate regulations for the control of hazardous air pollutants utilizing Colorado GACT or Colorado MACT technology-based emission reduction requirements, as defined in section 25-7-103 (6.7) and (6.8).

(II) The division may establish schedules of compliance of up to five years leading to final compliance for any such regulation, which shall be enforced through regulations or conditions in construction permits issued pursuant to section 25-7-114.2 or 25-7-114.5. In

determining any schedule of compliance, the division shall consider the current availability of technology, costs of compliance, and the consequence of delay to the public health or environment or economy.

(III) The division shall issue its determination of Colorado GACT or Colorado MACT and the compliance schedule in writing.

(IV) Within thirty calendar days after receipt of a determination by the division requiring installation of Colorado GACT or Colorado MACT and the compliance schedule, pursuant to this subsection (3), a source may appeal such a determination or compliance schedule by filing with the commission a written petition requesting a hearing to review the determination on a de novo basis.

(V) Such hearing shall allow the parties to present evidence and argument on all issues and to conduct cross-examination required for full disclosure of the facts and shall otherwise be conducted in accordance with section 25-7-119.

(b) This section shall only apply to sources emitting a hazardous air pollutant identified in the list established or amended pursuant to subsection (5) of this section which:

(I) Are not included in categories or subcategories of sources listed or proposed to be listed by the environmental protection agency under section 112 of the federal act and thus will not be required to comply with GACT or MACT under the federal act, as defined in section 25-7-103 (12.1) and (16.5); or

(II) Are included in categories or subcategories of sources listed or proposed to be listed under section 112 of the federal act and which have:

(A) Levels of emissions of hazardous air pollutants listed under section 112 (b) of the federal act which are below thresholds established under the federal act and thus will not be required to comply with GACT and MACT under the federal act and as defined in section 25-7-103 (12.1) and (16.5); except that this section shall not apply to a source included in a category or subcategory for which a lesser quantity emission rate has been proposed or adopted under section 112 of the federal act; or

(B) Hazardous air pollutant emissions above a threshold level of the substance listed under subparagraph (II) of paragraph (a) and paragraph (b) of subsection (5) of this section.

(b.1) The commission and the air quality science advisory board may recognize similarities among regulated sources or apply, when appropriate, previous control requirements established by the commission in making a determination about the need for such regulation under this subsection (3). The commission and the science advisory board shall also consider fundamentally different factors between sources in making these determinations.

(c) The commission shall designate by regulation those classes of minor or insignificant sources of emissions of hazardous air pollutants which are exempt from the requirements of this section because their emissions of hazardous air pollutants will result in an inconsequential risk to public health.

(d) (I) A source subject to the requirements of this section may be exempt from installation of Colorado MACT or Colorado GACT or any Colorado health-based requirement if the division makes a determination that an alternative level of control, including no emission controls, will result in an inconsequential risk to public health.

(II) The division shall issue its determination of a source's request for exemption under this paragraph (d) in writing within sixty days of receipt of a complete application for an exemption and shall publish notice of its determination by at least one publication in a newspaper of general distribution in the area of the source requesting the exemption.

(III) Within thirty calendar days after receipt of a determination by the division of a request for exemption by a source under this paragraph (d), the source or any person may appeal such determination by filing with the commission a written petition requesting a hearing to review the exemption request on a de novo basis. Such request shall be referred to the air quality science advisory board for an advisory opinion which shall be considered by the commission.

(IV) Such hearing shall allow the parties to present evidence and argument on all issues and to conduct cross-examination required for full disclosure of the facts and shall otherwise be conducted in accordance with section 25-7-119.

(e) Any source as defined in section 112(i) of the federal act, and regulations promulgated thereunder, that participates in the early reduction program pursuant to section 112(i) of the federal act, or this article, shall be exempt from the requirements of this section for the same period of time exemptions from federal requirements or requirements under this article are allowed under the early reduction program.

(f) This section shall not apply to sources subject to national emission standards for hazardous air pollutants (NESHAP) established by the administrator pursuant to the federal act, but only for those emissions for which a NESHAP is established.

(g) This section shall not impose requirements on sources included in categories or subcategories of sources which are listed in section 112(n) of the federal act which are inconsistent with the timing of studies or assessments conducted under or definitions set forth in section 112(n) of the federal act.

(4) (a) (I) On or after the risk-based studies required under sections 112(k)(3), 112(o), and 112(f) of the federal act are completed and received by the commission, the commission may adopt regulations pertaining to those sources identified as emitting hazardous air pollutants regulated under this section which may include additional emission reduction requirements to address any residual risk of health effects with respect to actual persons living in the vicinity of sources after installation of technology-based controls. Imposition of such requirements may be made upon a determination by the commission that operation of sources without health-based controls does not or will not represent an inconsequential threat to public health. Regulations as finally adopted pursuant to this subsection (4) may apply on a source-specific basis.

(II) However, if in 1996 the commission determines that the studies referred to in subparagraph (I) of this paragraph (a) and national strategy will not be timely or completed, then the commission shall direct the science advisory board to evaluate or complete similar studies and issue an advisory report to the commission and the commission may then act pursuant to this subsection (4).

(b) In issuing the advisory report, the air quality science advisory board shall take into consideration any studies or reports on health-based assessments which are scientifically sound, including any developed under section 112(k)(3), 112(o), and 112(f) of the federal act.

(c) Subject to paragraph (a) of this subsection (4), for existing sources not subject to regulation under section 25-7-114.3, or not subject to regulation as a modified source, the commission may promulgate health-based regulations on a source-by-source basis, with the exceptions specified in paragraph (d) of this subsection (4).

(d) The commission and the air quality science advisory board may recognize similarities among regulated sources or apply, when appropriate, previous control requirements established by the commission pursuant to paragraph (a) of this subsection (4) in making a determination about the need for such regulation under this subsection (4). The commission and the air quality science advisory board shall also consider fundamentally different factors between sources in making these determinations.

(e) The commission may establish schedules of compliance leading to final compliance for any regulation promulgated pursuant to this subsection (4).

(f) A hearing conducted by the commission under this subsection (4) shall be conducted in accordance with section 25-7-110 or 25-7-119 or article 4 of title 24, C.R.S., as applicable.

(g) In reaching a determination under this subsection (4), the commission shall give consideration to the technical availability of methods of compliance, the costs of compliance, and the consequences of delay. The commission shall also consider cost-benefit analysis and risk-benefit analysis pursuant to section 24-4-103 (4.5), C.R.S.

(h) **Temporary exceptional authority.** (I) (A) This subparagraph (I) shall apply until such time as the commission is authorized to act pursuant to paragraph (a) of this subsection (4). If the executive director of the department of public health and environment finds that a source in a category or subcategory of sources listed or proposed to be listed under section 112 of the federal act for which MACT or GACT is not scheduled for proposal until after 1997 and presents an unacceptable threat of actual health effects, then the executive director may direct the commission to evaluate and, as necessary, study such

actual health effects. The commission may request the air quality science advisory board to evaluate and, as necessary, study whether the impacts of waiting to regulate the emissions of hazardous air pollutants from this source present an unacceptable threat of actual health effects. If, after considering an advisory opinion issued by the board and other available information, the commission finds by a preponderance of the evidence that waiting until the source would be required to install GACT or MACT under section 112 of the federal act will cause an unacceptable incremental threat of actual health effects to persons living in the vicinity of such source, the commission may promulgate regulations for the control of hazardous air pollutants for the source. The control regulations may include the least restrictive control that will adequately protect the public, including but not limited to: Chemical substitution, pollution prevention, work process modifications, additional control technologies, or Colorado MACT or GACT. In promulgating Colorado GACT or MACT for the source, the commission shall consider and be as consistent as possible with GACT or MACT under section 112 of the federal act, minimization of duplicative capital expenditures and minimization of substantial reconstruction time. The commission shall provide a schedule of compliance leading to final compliance which considers matters identified in paragraphs (b), (c), (e), (f), and (g) of this subsection (4).

(B) Any source which is required to install Colorado MACT or GACT under regulations promulgated pursuant to sub-paragraph (A) of this subparagraph (I) only and which subsequently is required to install federal MACT or GACT that is significantly different than Colorado MACT or GACT and imposes a significant capital cost on the source, then the general assembly shall study and consider whether an operating permit fee credit or a state tax credit for the capital costs, or a percentage of the costs, is appropriate.

(II) Until such time as the commission is authorized to act pursuant to paragraph (a) of this subsection (4) and upon the recommendation of the executive director of the department of public health and environment, the governor may find, as expressed in an executive order, that after an existing source has installed Colorado or federal MACT or GACT, or Colorado MACT or GACT has been proposed for a new source or a modification of an existing source, the source presents an unacceptable threat of actual health effects. The governor may then direct the commission to evaluate and, as necessary, conduct studies on actual health effects. The commission shall then direct the air quality science advisory board to render an advisory opinion on such information and on whether, after technology-based controls have been installed, emissions of hazardous air pollutants from this source will cause actual health effects to persons in the vicinity of such source. If the commission, after reviewing the advisory opinion, determines by a preponderance of the evidence that emissions of hazardous air pollutants by the source will cause an unacceptable threat of actual health effects to persons living in the vicinity of such source, the commission may then promulgate additional technology-based control regulations, pollution prevention, or health-based measures to protect the public health. The commission shall provide a schedule of compliance leading to final compliance which considers matters identified in paragraphs (b), (c), (e), (f), and (g) of this subsection (4).

(III) This paragraph (h) shall remain effective only until such time as the commission acts pursuant to its authority under paragraph (a) of this subsection (4).

(5) (a) The substances listed in or pursuant to section 112(b) of the federal act, and the following substances, are declared to be hazardous air pollutants and are subject to regulation by the commission under this section:

	Chemical Abstract Service Number	Chemical
(I)	50-18-0	Cyclophosphamide
(II)	50-32-8	Benzo(a)pyrene
(III)	52-24-4	Tris(aziridiny)-phosphine sulfide
(IV)	52-24-4	Thio-tepa
(V)	53-70-3	Dibenz[a,h]anthracene
(VI)	55-98-1	1,4-butanediol dimethanesulphonate

(VII)	56-53-1	Dirthylstulresterol
(VIII)	56-55-3	Benz[a]anthracene
(IX)	70-25-7	N-methyl-n-nitro-n-nitrosoguanidine
(X)	78-98-8	Methylglyoxol
(XI)	115-28-6	Chlorendic acid
(XII)	117-10-2	Chrysazin
(XIII)	122-60-1	Phenyl glycidyl ether
(XIV)	132-27-4	2-biphenylol sodium salt
(XV)	154-93-8	Bischloroethyl nitrosourea
(XVI)	298-81-7	8-methoxypsoralen
(XVII)	299-75-2	Treosulphan
(XVIII)	305-03-3	Clorambucil
(XIX)	370-67-2	Azactidine
(XX)	366-70-1	Procarbazine hydrochloride
(XXI)	446-86-6	Azathioprine
(XXII)	484-20-8	5-methoxypsoralen
(XXIII)	494-03-1	Chlornaphazine
(XXIV)	590-96-5	Methanol, (methyl-onn-azoxy)
(XXV)	607-57-8	2-nitrofluorene
(XXVI)	615-53-2	N-nitroso-n-methylurethane
(XXVII)	817-09-4	Trichlormethine
(XXVIII)	1188-47-2	Nitrilotriacetic acid, copper(2+) salt (1:1)
(XXIX)	1188-48-3	Nitrilotriacetic acid, magnesium salt (1:1)
(XXX)	1309-64-4	Antimony oxide
(XXXI)	1317-98-2	Valentinite
(XXXII)	1402-68-2	Aflatoxins
(XXXIII)	2399-81-7	Nitrilotriacetic acid, beryllium salt (1:1)
(XXXIV)	2399-83-9	Nitrilotriacetic acid, barium salt (1:1)
(XXXV)	2399-85-1	Nitrilotriacetic acid, tripotassium salt
(XXXVI)	2399-86-2	Nitrilotriacetic acid, dipotassium salt
(XXXVII)	2399-87-3	Nitrilotriacetic acid, beryllium potassium salt (1:1)
(XXXVIII)	2399-88-4	Nitrilotriacetic acid, potassium magnesium salt (1:1:1)
(XXXIX)	2399-89-5	Nitrilotriacetic acid, potassium strontium salt (1:1:1)
(XL)	2399-94-2	Nitrilotriacetic acid, calcium salt (1:1)
(XLI)	2455-08-5	Nitrilotriacetic acid, calcium potassium salt (1:1:1)
(XLII)	2475-45-8	Disperse blue 1
(XLIII)	2646-17-5	C1 solvent orange2
(XLIV)	3130-95-8	Nitrilotriacetic acid, scandium (3+) salt (1:1)
(XLV)	3438-06-0	Nitrilotriacetic acid, neodymium (3+) salt (1:1)
(XLVI)	5064-31-3	Nitrilotriacetic acid, trisodium salt
(XLVII)	5522-43-0	1-nitropyrene

(XLVIII)	5798-43-6	Nitrilotriacetic acid, disodium salt, compound with oxo (dihydrogen nit)
(XLIX)	7496-02-8	6-nitrochrysene
(L)	10042-84-9	Nitrilotriacetic acid, sodium salt (unspecified)
(LI)	10043-92-2	Radon decay products
(LII)	10413-71-5	Nitrilotriacetic acid, erbium(3+) salt (3:1)
(LIII)	12412-52-1	Senarmontite
(LIV)	12510-42-8	Erionite
(LV)	13010-47-4	1-(2-chloroethyl)-3- cyclohexyl-1-nitrosoarea
(LVI)	13909-09-6	1,(2-chloroethyl)-3-(4 methyl-cyclohexyl)-1 nitrosoarea
(LVII)	14695-88-6	Nitrilotriacetic acid, compound with iron chloride, as /fecl3/
(LVIII)	14807-96-6	Talc (containing asbestos fibers)
(LIX)	14981-08-9	Nitrilotriacetic acid, calcium salt
(LX)	15414-25-2	Nitrilotriacetic acid, yttrium (3+) salt (1:1)
(LXI)	15467-20-6	Nitrilotriacetic acid, disodium salt
(LXII)	15663-27-1	Cisplatin
(LXIII)	15844-52-7	Nitrilotriacetic acid, copper (2+) complex
(LXIV)	15934-02-8	Nitrilotriacetic acid, monoammonium salt
(LXV)	16448-54-7	Nitrilotriacetic acid, iron (3+) complex
(LXVI)	16568-02-8	Gyromitrin
(LXVII)	18105-03-8	Nitrilotriacetic acid, mercury (2+) salt (2:3)

(LXIX)	18540-29-9	Chromium compounds, hexavalent
(LXX)	18662-53-8	Nitrilotriacetic acid, trisodium salt monohydrate
(LXXI)	18946-94-6	Nitrilotriacetic acid, neodymium (3+) salt (1:1)
(LXXII)	18983-72-7	Nitrilotriacetic acid, beryllium potassium salt (1:1)
(LXXIII)	18994-66-6	Nitrilotriacetic acid, monosodium salt
(LXXIV)	19010-73-2	Nitrilotriacetic acid, aluminium (3+) complex
(LXXV)	19456-58-7	Nitrilotriacetic acid, indium (3+) complex
(LXXVI)	22965-60-2	Nitrilotriacetic acid, nickel (3+) complex
(LXXVII)	23214-92-8	Adrianmycin

(LXXVIII)	23255-03-0	Nitrilotriacetic acid, disodium salt, monohydrate
(LXXIX)	23319-51-9	Nitrilotriacetic acid, cobalt (3+) complex
(LXXX)	23555-96-6	Nitrilotriacetic acid, potassium strontium salt (2:4:1)
(LXXXI)	23555-98-8	Nitrilotriacetic acid, calcium potassium salt (2:1:4)
(LXXXII)	25817-24-7	Nitrilotriacetic acid, potassium salt
(LXXXIII)	28444-53-3	Nitrilotriacetic acid, monopotassium salt
(LXXXIV)	28027-38-0	Nitrilotriacetic acid, holmium salt
(LXXXV)	29027-90-5	Nitrilotriacetic acid, cerium salt
(LXXXVI)	29507-58-2	Nitrilotriacetic acid, zinc (3+) complex sodium salt
(LXXXVII)	32685-17-9	Nitrilotriacetic acid, triammonium salt
(LXXXVIII)	34831-02-2	Nitrilotriacetic acid, copper (2+) hydrogen complex
(LXXXIX)	34831-03-3	Nitrilotriacetic acid, nickel (2+) hydrogen complex
(XC)	36711-58-7	Nitrilotriacetic acid, manganese salt
(XCI)	42397-64-8	1,6-dinitropyrene
(XCII)	42397-65-9	1,8-dinitropyrene
(XCIII)	46242-44-8	Nitrilotriacetic acid, antimony (3+) complex
(XCIV)	50618-02-7	Nitrilotriacetic acid, tricadium (2+) complex
(XCV)	53108-47-7	Nitrilotriacetic acid, copper (2+) complex sodium salt
(XCVI)	53108-50-2	Nitrilotriacetic acid, cobalt (3+) hydrogen complex
(XCVII)	53818-84-1	Nitrilotriacetic acid, tin (2+) salt
(XCVIII)	54749-90-5	Chlorozotocin
(XCIX)	57835-92-4	4-nitropyrene
(C)	59865-13-3	Cyclosporin A
(CI)	60034-45-9	Nitrilotriacetic acid, calcium sodium salt (1:1:1)
(CII)	60153-49-3	3-(n-nitrosomethylamino) propionitrile
(CIII)	61017-62-7	Nitrilotriacetic acid, iron (2+) complex sodium salt (1:1:1)
(CIV)	62450-06-0	trp-p-1
(CV)	62450-07-1	trp-p-2

(CVI)	64091-91-4	Ketone, 3-pyridyl3-(n-methyl-n-nitrosoamino) propyl
(CVII)	67730-10-3	2-aminodipyrido[1,2-a3,2-d]imidazole
(CVIII)	66730-11-4	2-amino-6-methyldipyrido[1,2-a3,2-d]imidazole
(CIX)	68006-83-7	2-amino-3-methyl-9h-pyrido[2,3-b]indole
(CX)	69679-89-6	Nitrilotriacetic acid, calcium salt (2:3)
(CXI)	71484-80-5	Nitrilotriacetic acid, copper (2+) complex ammonium salt
(CXII)	72629-49-3	Nitrilotriacetic acid, dilithium salt
(CXIII)	73772-91-5	Nitrilotriacetic acid, magnesium salt
(CXIV)	76180-96-6	2-amino-3-methylimidazo[4,5-f]quinoline
(CXV)	79217-60-0	Cyclosporine
(CXVI)	79849-02-8	Nitrilotriacetic acid, lead (2+) salt (1:1)
(CXVII)	79915-08-5	Nitrilotriacetic acid, lead (2+) potassium salt (1:1:1)
(CXVIII)	79915-09-6	Nitrilotriacetic acid, lead (2+) salt (2:3)
(CXIX)	80508-23-2	N-nitrososornicotine
(CXX)	86892-89-9	Nitrilotriacetic acid, disodium ammonium salt
(CXXI)	92474-39-0	Nitrilotriacetic acid, trisilver salt
(CXXII)	92988-11-9	Nitrilotriacetic acid, strontium sodium salt
(CXXIII)	108171-26-2	Chlorinated paraffins (c12, 60% chlorine)
(CXXIV)	309-00-2	Aldrin
(CXXV)	60-57-1	Dieldrin
(CXXVI)	55-18-5	N-nitrosodiethylamine
(CXXVII)	319-84-6	L-hexachlorocyclohexane
(CXXVIII)	608-73-1	Hexachlorocyclohexane-tech
(CXXIX)	7644-41-0	1,4 dichloro-2-butene
(CXXX)	924-16-3	N-nitroso-d-n-butyl-amine

(b) The commission may promulgate a regulation which amends by adding to, or deleting from, the list of hazardous air pollutants subject to regulation under this section within the state which are not listed as hazardous air pollutants under the federal act. In amending the list of hazardous air pollutants in paragraph (a) of this subsection (5), the commission shall utilize the same standards and criteria which section 112 of the federal act requires the administrator to utilize in amending the list of hazardous air pollutants under the federal act. The commission shall refer any such proposed amendment to the air quality science advisory board for an advisory opinion prior to conducting a proceeding under this paragraph (b).

(c) The commission shall by regulation establish de minimis emission levels for each

hazardous air pollutant beneath which levels emissions are considered to be of minor significance.

(d) The rule-making authorized under paragraphs (b) and (c) of this subsection (5) shall include a hearing to allow the parties to present evidence and argument on all issues and to conduct cross-examination required for full disclosure of the facts and shall otherwise be conducted in accordance with section 25-7-119.

(e) Proceedings of the commission to amend the list of hazardous air pollutants under paragraph (b) of this subsection (5) shall be conducted on a substance-by-substance basis and there shall not be a consolidation of proceedings wherein more than five substances are considered for listing as a hazardous air pollutant in one proceeding.

ANNOTATION

Law reviews. For article, “Colorado’s New Clean Air Program”, see 22 Colo. Law. 541 (1993).

25-7-109.4. Air quality science advisory board - created - repeal. (Repealed)

Source: **L. 92:** Entire section added, p. 1191, § 13, effective July 1. **L. 98:** (10)(a) amended, p. 169, § 1, effective April 6.

Editor’s note: Subsection (10)(a) provided for the repeal of this section, effective July 1, 2008. (See L. 98, p. 169.)

25-7-109.6. Accidental release prevention program. (1) The commission may promulgate such rules, regulations, and procedures as are necessary to establish and implement an accidental release prevention program consistent with and no sooner than the requirements of section 112 (r) of the federal act, including release prevention, detection, and correction requirements which may include monitoring, record-keeping, reporting, training, vapor recovery, secondary containment, and other design, equipment, work practice, and operational requirements.

(2) For purposes of this section:

(a) “Accidental release” means an unanticipated emission of a regulated substance or other extremely hazardous substance, defined pursuant to the federal act, into the ambient air from a stationary source;

(b) “Regulated substance” means those substances listed by the administrator pursuant to section 112 (r) (3) of the federal act;

(c) “Stationary source” means any buildings, structures, equipment, installations, or substance emitting stationary activities:

(I) Which belong to the same industrial group;

(II) Which are located on one or more contiguous properties;

(III) Which are under the control of the same person (or persons under common control); and

(IV) From which an accidental release may occur.

(d) “Threshold quantity” shall have the same meaning as defined in section 112 (r) of the federal act.

(3) As appropriate, rules, regulations, and procedures promulgated pursuant to this section shall:

(a) Consider the use, operation, repair, replacement, and maintenance of equipment to monitor, detect, inspect, and control such releases, including training of persons in the use and maintenance of such equipment and the conduct of periodic inspections;

(b) Include procedures and measures for emergency response after an accidental release of a regulated substance in order to protect human health and the environment;

(c) Cover storage, as well as operations;

(d) As appropriate, recognize differences in size, operations, processes, classes, and categories of sources and the voluntary actions of such sources to prevent accidental releases and respond to such releases;

(e) Require the owner or operator of stationary sources at which a threshold quantity of a regulated substance is present to prepare and implement a risk management plan to detect and prevent or minimize accidental releases of such substances from the stationary source, and to provide a prompt emergency response to any such releases in order to protect human health and the environment. Such plan shall provide for compliance with the requirements of this subsection (3) and shall also include each of the following:

(I) A hazard assessment, to be updated periodically and registered with the division, the United States environmental protection agency, and other appropriate local agencies, to assess the potential effects of an accidental release of any regulated substance;

(II) A program for preventing accidental releases of regulated substances, including safety precautions and maintenance, monitoring, and employee training measures to be used at the sources; and

(III) A response program providing for specific actions to be taken in response to an accidental release of a regulated substance so as to protect human health and the environment, including procedures for informing the public and local agencies responsible for responding to accidental releases, emergency health care, and employee training measures.

(f) Coordinate notification, reporting, and response requirements between federal, state, and local agencies to avoid duplicate notification and reporting requirements and to integrate emergency response plans.

(4) In addition to any other action taken, when the division determines that there may be an imminent and substantial endangerment to the human health or welfare or the environment because of an actual or threatened accidental release of a regulated substance, the division may take action pursuant to sections 25-7-112 and 25-7-113.

(5) The implementation and effectiveness of this section shall be contingent on the receipt of funding from the federal government in sufficient amount to totally fund the division's costs in implementing this section; except that the small business stationary source technical and environmental compliance assistance program shall be funded as provided in section 25-7-114.7.

Source: L. 92: Entire section added, p. 1195, § 13, effective July 1.

25-7-110. Commission - procedures to be followed in setting standards and regulations. (1) Prior to adopting, promulgating, amending, or modifying any ambient air quality standard authorized in section 25-7-108, or any emission control regulation authorized in section 25-7-109, or any other regulatory plans or programs authorized by sections 25-7-105 (1) (c) or 25-7-106, the commission shall conduct a public hearing thereon as provided in section 24-4-103, C.R.S. Notice of any such hearing shall conform to the requirements of section 24-4-103, C.R.S., but such notice shall be given at least sixty days prior to the hearing, and shall include each proposed regulation, and shall be mailed to all persons who have filed with the commission a written request to receive such notices.

(2) Any person desiring to propose a regulation differing from the regulation proposed by the commission or to propose a revision of limited applicability, pursuant to section 25-7-117, to the commission's proposal shall file such other proposal with the commission not less than twenty days prior to the hearing, and, when on file, such proposal shall be open for public inspection.

(3) Witnesses at the hearing shall be subject to cross-examination by or on behalf of the commission and by or on behalf of persons who have proposed regulations pursuant to subsection (2) of this section.

(4) Rules and regulations promulgated pursuant to this article shall not take effect until after they have been published in accordance with section 24-4-103, C.R.S., or on such later date as is stated in such rules and regulations.

ANNOTATION

Law reviews. For comment, "Environmental Law — Requirement of Notice in Visual Opacity Readings — Air Pollution Variance Bd. v.

Western Alfalfa Corp., 94 S. Ct. 2114 (1974)", see 51 Den. L.J. 603 (1974).

25-7-110.5. Required analysis of proposed air quality rules. (1) In addition to the requirements of section 25-7-110.8, whenever the commission proposes a rule, the technical secretary of the commission shall provide to the public upon request at cost, at the time the notice for public rule-making is published, a proposed rule-making packet containing:

- (a) A memorandum of notice, as required by subsection (3) of this section;
- (b) The actual language of the proposed rule;
- (c) A statement describing the fiscal and economic impact of the proposed rule, as required by subsection (4) of this section;
- (d) A statement describing the potential justification for terms differing from federal requirements, as required by subsection (5) of this section;
- (e) On or before July 1, 1997, a statement describing the risk analysis, if required by the general assembly under subsection (6) of this section;
- (f) The range of regulatory alternatives, including the no-action alternative, to be considered in adopting the proposed rule; and
- (g) Any other concise background material that would assist the interested and affected public in understanding the impact of the proposed rule.

(1.5) As used in this section, "rule" includes an amendment to an existing rule.

(2) The requirements of subsections (1) (c) to (1) (f), (3) (g), and (4) of this section shall not apply to any rule-making packet for any commission rule, and the requirements of subsections (3) (g) and (4) of this section shall not apply to any commission rule, which adopts by reference applicable federal rules or which rule is adopted to implement prescriptive state statutory requirements, where the commission is allowed no significant policy-making options, or which rule will have no regulatory impact on any person, facility, or activity.

(3) Whenever the commission proposes a rule, the technical secretary of the commission, in cooperation with the proponent of the rule, shall provide a memorandum of notice containing:

- (a) An explanation of the proposed rule;
- (b) A disclosure of materials contained in the proposed rule;
- (c) A preliminary plan for meetings with the commission staff on the proposed rule;
- (d) An explanation of the problem sought to be remedied by the proposed rule;
- (e) An analysis of how the proposed rule solves the problem delineated in paragraph (d) of this subsection (3);
- (f) An explanation of the process that was used to develop the proposed rule;
- (g) An initial analysis of the economic effects of the proposed rule pursuant to subsection (4) of this section;
- (h) An explanation of the substantive differences with federal requirements and the requirements of Utah, Arizona, and New Mexico, where relevant;
- (i) An explanation of how the proposed rule may be implemented;
- (j) Whether there will be any time constraints on the regulated community and state agencies as a result of implementation or a delay in implementation of the proposed rule;

(k) A contact person or persons who may provide additional information on the proposed rule to interested persons; and

(l) A no-action analysis.

(4) (a) Before any permanent rule is proposed pursuant to this section, an initial economic impact analysis shall be conducted in compliance with this subsection (4) of the proposed rule or alternative proposed rules. Such economic impact analysis shall be in writing, developed by the proponent, or the division in cooperation with the proponent and made available to the public at the time any request for hearing on a proposed rule is heard by the commission. A final economic impact analysis shall be in writing and delivered to the technical secretary and to all parties of record five working days prior to the prehearing conference or, if no prehearing conference is scheduled, at least ten working days before the date of the rule-making hearing. The proponent of an alternative proposal will provide, in cooperation with the division, a final economic impact analysis five working days prior to the prehearing conference. The economic impact analyses shall be based upon reasonably available data. Except where data is not reasonably available, or as otherwise provided in this section, the failure to provide an economic impact analysis of any noticed proposed rule or any alternative proposed rule will preclude such proposed rule or alternative proposed rule from being considered by the commission. Nothing in this section shall be construed to restrict the commission's authority to consider alternative proposals and alternative economic impact analyses that have not been submitted prior to the prehearing conference for good cause shown and so long as parties have adequate time to review them.

(b) Before any emergency rule is adopted, any person may request that a regulatory analysis, as defined in section 24-4-103 (4.5), C.R.S., be prepared and made available to the public five working days prior to the hearing, unless there is an imminent and serious hazard to health, welfare, or the environment.

(c) The proponent and the division shall select one or more of the following economic impact analyses. The commission may ask affected industry to submit information with regard to the cost of compliance with the proposed rule, and, if it is not provided, it shall not be considered reasonably available. The economic impact analysis required by this subsection (4) shall be based upon reasonably available data and shall consist of one or more of the following:

(I) Cost-effectiveness analyses for air pollution control that identify:

(A) The cumulative cost including but not limited to the total capital, operation, and maintenance costs of any proposed controls for affected business entity or industry to comply with the provisions of the proposal;

(B) Any direct costs to be incurred by the general public to comply with the provisions of the proposal;

(C) Air pollution reductions caused by the proposal;

(D) The cost per unit of air pollution reductions caused by the proposal; and

(E) The cost for the division to implement the provisions of the proposal; or

(II) Industry studies that examine the direct costs of the proposal on directly affected entities that may be either in the form of a business analysis (The regulatory impacts on the general business climate or subsets thereof) or an industry analysis (the regulatory impacts on specific industries), including:

(A) The characteristics and current economic conditions of the impacted business or industry sector; and

(B) The projected impacts on the growth of the affected industry sectors with and without implementation of the proposal; and

(C) How the proposal may effect or alter the growth of the affected industry sector; and

(D) The direct cost of the proposal on the affected industry sector; or

(III) An economic impact analysis that:

(A) Identifies the industrial and business sectors that will be impacted by the proposal; and

(B) Quantifies the direct cost to the primary affected business or industrial sector; and

(C) Incorporates an estimate of the economic impact of the proposal on the supporting business and industrial sectors associated with the primary affected business or industry sectors.

(d) Repealed.

(e) The economic impact analysis required by this subsection (4) shall not consist of an analysis of any nonmarket costs or external costs asserted to occur notwithstanding compliance by a source with applicable environmental regulations.

(5) (a) Whenever the commission proposes any rule that exceeds the requirements of the federal act or differs from the federal act or rules thereunder, the commission shall make available in writing a copy of any such proposed rule and a detailed, footnoted explanation of the differences between the rule and the federal requirements.

(b) The written explanation required pursuant to paragraph (a) of this subsection (5) shall contain an explanation of the following information:

(I) Any federal requirements that are applicable to this situation with a commentary on those requirements;

(II) Whether the applicable federal requirements are performance-based or technology-based and whether there is any flexibility in those requirements, and if not, why not;

(III) Whether the applicable federal requirements specifically address the issues that are of concern to Colorado and whether data or information that would reasonably reflect Colorado's concern and situation was considered in the federal process that established the federal requirements;

(IV) Whether the proposed requirement will improve the ability of the regulated community to comply in a more cost-effective way by clarifying confusing or potentially conflicting requirements (within or cross-media), increasing certainty, or preventing or reducing the need for costly retrofit to meet more stringent requirements later;

(V) Whether there is a timing issue which might justify changing the time frame for implementation of federal requirements;

(VI) Whether the proposed requirement will assist in establishing and maintaining a reasonable margin for accommodation of uncertainty and future growth;

(VII) Whether the proposed requirement establishes or maintains reasonable equity in the requirements for various sources;

(VIII) Whether others would face increased costs if a more stringent rule is not enacted;

(IX) Whether the proposed requirement includes procedural, reporting, or monitoring requirements that are different from applicable federal requirements and, if so, why and what the "compelling reason" is for different procedural, reporting, or monitoring requirements;

(X) Whether demonstrated technology is available to comply with the proposed requirement;

(XI) Whether the proposed requirement will contribute to the prevention of pollution or address a potential problem and represent a more cost-effective environmental gain; and

(XII) Whether an alternative rule, including a no-action alternative, would address the required standard.

(6) Repealed.

Source: **L. 95:** Entire section added, p. 1335, § 2, effective July 1. **L. 96:** IP(1), IP(3), (4)(d), and (5)(a) amended and (1.5) added, p. 1285, § 2, effective June 1. **L. 97:** (4)(d) amended, p. 526, § 8, effective July 1. **L. 2001:** (4)(d) amended, p. 640, § 1, effective May 30. **L. 2003:** (4)(d) amended, p. 843, § 1, effective April 7. **L. 2009:** (4)(d) repealed, (HB 09-1332), ch. 318, p. 1707, § 1, effective June 1.

Editor's note: Subsection (6)(e) provided for the repeal of subsection (6), effective July 1, 1997. (See L. 95, p. 1335.)

25-7-110.8. Additional requirements for commission to act under section 25-7-110.5. (1) In issuing any final rule intended to reduce air pollution, except for any rule that adopts by reference applicable federal rules, if the commission has no discretion under state law not to adopt the rules or to adopt any alternative rule, the commission shall make a determination that:

(a) Any rule promulgated under section 25-7-110.5 is based on reasonably available, validated, reviewed, and sound scientific methodologies and that all validated, reviewed,

and sound scientific methodologies and information made available by interested parties has been considered. Such review may include internal organizational review and not peer review.

(b) Evidence in the record supports the finding that the rule shall result in a demonstrable reduction in air pollution to be addressed by the rule unless such rule is administrative in nature;

(c) On and after July 1, 1997, and in conformance with guidance from the general assembly to incorporate the recommendations of the task force established in section 25-7-110.5 (6), evidence in the record supports the finding that the rule shall bring about reductions in risks to human health or the environment or provide other benefits that will justify the cost to government, the regulated community, and to the public to implement and comply with the rule;

(d) The commission shall choose an alternative that is the most cost-effective under the analysis required by section 25-7-110.5 (4), provides the regulated community flexibility, and which achieves the necessary reduction in air pollution. The commission may reject the most cost-effective alternative and shall provide findings of fact detailing why the most cost-effective alternative is unacceptable.

(e) The selection of the regulatory alternative by the commission will maximize the air quality benefits of regulation pursuant to this article in the most cost-effective manner. For purposes of the required analyses under this section, prior to the completion of the rule-making required pursuant to section 25-7-110.5, no benefit (except for air pollution reductions) can be attributed to regulating a facility already operating in compliance with a permit issued pursuant to applicable law.

(1.5) As used in this section, "rule" includes an amendment to an existing rule.

(2) In the event that the commission and division fail to reasonably comply with requirements of section 25-7-110.5 or this section, the rule shall be void and unenforceable. Judicial review of agency action under this section or section 25-7-110.5 may only be obtained by parties to the rule-making hearing and can only be brought regarding deficiencies or issues alleging a failure to comply with the requirements in section 25-7-110.5 or this section raised during or before the hearing to afford the commission, its staff, or interested parties an opportunity to address the deficiencies or issues raised.

Source: L. 95: Entire section added, p. 1335, § 2, effective July 1. **L. 96:** IP(1) amended and (1.5) added, p. 1285, § 3, effective June 1.

25-7-111. Administration of air quality control programs - directive - prescribed fire - review. (1) The division shall administer and enforce the air quality control programs adopted by the commission. In furtherance of such responsibility of the division, the executive director of the department of public health and environment shall establish within the division a separate air quality control agency, the head of which shall be a licensed professional engineer or shall have a graduate degree in engineering or other specialty dealing with the problems of air quality control. Such person shall also have appropriate practical and administrative experience related to air quality control. Such person shall not be the technical secretary employed pursuant to section 25-7-105 (3). Any potential conflict of interest of such person shall be adequately disclosed prior to appointment and as may from time to time arise. All policies and procedures followed in the administration and enforcement of the air quality control programs that have been adopted by the commission shall be subject to supervision by the state board of health.

(2) In addition to authority specified elsewhere in this article, the division has the power to:

(a) Conduct or cause to be conducted studies and research with respect to air pollution and the control, abatement, or prevention thereof, as requested by the commission;

(b) Collect data, by means of field studies and air monitoring conducted by the division or by individual stationary sources or individual indirect air pollution sources, and determine the nature and quality of existing ambient air throughout the state;

(c) Enter and inspect any property, premises, or place for the purpose of investigating any actual, suspected, or potential source of air pollution or ascertaining compliance or

noncompliance with any requirement of this article or any order or permit, or term or condition thereof, issued or promulgated pursuant to this article; and the division may, at reasonable times, have access to and copy any record, inspect any monitoring equipment or method, or sample any emissions required pursuant to section 25-7-106 (6) or part 5 of this article; except that, if such entry or inspection is denied or not consented to and no emergency exists, the division is empowered to and shall obtain from the district or county court for the district or county in which such property, premises, or place is located a warrant to enter and inspect any such property, premises, or place prior to entry and inspection. The district and county courts of this state are empowered to issue such warrants upon a proper showing of the need for such entry and inspection. Any information relating to secret processes or methods of manufacture or production obtained in the course of the inspection or investigation shall be kept confidential; except that emission data shall not be withheld from the division as confidential. A duplicate of any analytical report or observation of an air pollutant by the division shall be furnished promptly to the person who is suspected of causing such air pollution.

(d) Furnish technical advice and services relating to air pollution problems and control techniques;

(e) Inform the appropriate governmental agency of the results of atmospheric tests conducted in its jurisdiction and notify the affected city, town, county, or city and county whenever tests establish that the ambient air or source of emission of smoke or air pollution fails to meet the standards established under this article;

(f) Designate one or more persons or agencies in any area of the state as an air pollution control authority as agent of the division to exercise and perform such powers and duties of the division as may be specified in such designation;

(g) Furnish such personnel to the commission as the commission may reasonably require to carry out its duties and responsibilities under this article;

(h) Certify, or otherwise designate, to any other agency or department of this state or of any other state or of the federal government that any facility, land, building, machinery, or equipment, or any part thereof, has been constructed, erected, installed, or acquired in conformity with the requirements of this state or of this article for control of air pollution or in conformity with the requirements for control of air pollution of any other state or the federal government;

(i) Require any source to furnish information which the division may reasonably require relating to emissions of the source or to any investigation authorized by this article. If such request for information is refused, the division is empowered to and may obtain from the district or county court for the district or county in which the source is located a subpoena to compel production of such information.

(3) Repealed.

(4) The division shall assure that any information obtained by the division which is entitled to protection as a trade secret under federal or Colorado law is kept confidential and protected against disclosure, except as required by the federal act.

(5) Repealed.

Editor's note: Subsection (5)(d) provided for the repeal of subsection (5), effective July 1, 2011. (See L. 2009, p. 2278.)

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 1996 act repealing subsection (3), see section 1 of chapter 237, Session Laws of Colorado 1996.

ANNOTATION

Law reviews. For comment, "Environmental Law — Requirement of Notice in Visual Opacity Readings — Air Pollution Variance Bd. v. Western Alfalfa Corp., 94 S. Ct. 2114 (1974)", see 51 Den. L.J. 603 (1974). For article, "State and Federal Legislative Response to the Asbestos Threat", see 17 Colo. Law. 1973 (1988).

Inspection held not unreasonable search. Where, under the former Colorado air pollution control act, a Colorado department of health

inspector entered respondent's plant yard to make a test of the plumes of smoke being emitted from respondent's plant chimneys, without a warrant or respondent's knowledge, such inspection did not amount to an unreasonable search, since the inspector had sighted what anyone in the city who was near the plant could see, plumes of smoke. Air Pollution Variance Bd. v. W. Alfalfa Corp., 416 U.S. 861, 94 S. Ct. 2114, 40 L.Ed.2d 607 (1974).

25-7-112. Air pollution emergencies endangering public health anywhere in this state. (1) Whenever the division determines, after an investigation initiated either independently by the division or upon the request of an affected member of the public living or working in the vicinity of a suspected discharge, that any person is either engaging in any activity involving a significant risk of air pollution or is discharging or causing to be discharged into the atmosphere, directly or indirectly, any air pollutants and such activity or discharge constitutes a clear, present, and immediate danger to the environment or to the health of the public, or that any such activity or discharge of air pollutants, if permitted to continue unabated, will result in a condition of clear, present, and immediate danger to the health of the public, the division shall:

(a) Issue a written cease-and-desist order to said person requiring immediate discontinuance of such activity or the discharge of such pollutant into the atmosphere, and, upon receipt of such order, such person shall immediately discontinue such activity or discharge; or

(b) Apply to any district court of this state for the district in which the said activity or discharge is occurring for a temporary restraining order, temporary injunction, or permanent injunction as provided for in the Colorado rules of civil procedure. Any such action in a district court shall be given precedence over all other matters pending in such district court. The institution of such injunction proceedings by the division shall confer upon said district court exclusive jurisdiction to determine finally the subject matter of the proceeding; or

(c) Both issue such a cease-and-desist order and apply for any such restraining order or injunction.

(1.5) (a) If, upon the request of a member of the public as described in subsection (1) of this section, the division chooses to investigate a suspected discharge, the division shall report the result of its investigation to the person who made the request and shall make such result public no later than sixty days after the completion of the investigation. If the person who made the request is dissatisfied with the result of the investigation, or if no investigation was made, such person may complain to the commission by petition.

(b) Upon receipt of a petition filed under paragraph (a) of this subsection (1.5), the commission shall promptly give notice of receipt of the petition to the owner or operator of the source of the alleged discharge, and, after considering the petition, the response, if any, of such owner or operator, and the response of the division, the commission shall respond to the petition within forty-five days after receipt by:

(I) Ordering the division to proceed with a new or further investigation under this section or section 25-7-113; or

(II) Denying the petition and stating the reasons for denial, which may include, but are not limited to, the lack of a substantial factual basis, the allegation of facts substantially similar to those at issue in a previous or currently pending investigation, or a finding that the petition was interposed for purposes of harassment or delay; or

(III) Providing an opportunity to submit additional factual information in support of, or in response to, the petition. The commission may require any new information to be submitted in writing, or it may convene an informal hearing as soon as is practicable.

(c) A hearing held pursuant to subparagraph (III) of paragraph (b) of this subsection (1.5) shall be subject to the following procedural requirements:

(I) The hearing shall be conducted as an informal hearing, and, in particular, no sworn testimony shall be taken except as the commission deems necessary to clarify the factual basis of the petition;

(II) Parties may represent themselves or be represented by agents who need not be attorneys;

(III) Notice of such hearing shall be given at least twenty days prior to the hearing;

(IV) The purpose of the hearing shall be to enable the commission to decide whether to order an investigation as provided in subparagraph (I) of paragraph (b) of this subsection (1.5); and

(V) To preserve the commission's role as an appellate body, the hearing shall not be used as a forum for determining the merits of the petition.

(2) (a) Whenever the division determines, after investigation, that the condition of the ambient air in any portion of this state constitutes a clear, present, and immediate danger to the environment or to the health of the public, or that any activity or discharge of air pollutants, if permitted to continue unabated, will result in a condition of clear, present, and immediate danger to the health of the public, and that the procedures available to the division under subsection (1) of this section will not adequately protect the public, it shall immediately notify the governor of its determination of either of such conditions, and it shall request the governor to declare a state of air pollution emergency in such portion of this state.

(b) Upon such notification and request by the division, the governor is empowered to declare a state of air pollution emergency in such portion of the state and to take any and all actions necessary to protect the health of the public in such portion of the state, including, but not limited to:

(I) Ordering a halt or curtailment of the movement of all motor vehicles except emergency vehicles; and

(II) Ordering a halt or curtailment of all operations, activities, processes, or conditions which he reasonably believes to be contributing to such emergency.

(c) From time to time, whenever appropriate, the governor, in cooperation with his department heads, shall develop or modify such plans as will be necessary or appropriate to control and abate the air pollution conditions most likely to require the exercise of the powers granted in paragraph (b) of this subsection (2).

see 51 Den. L.J. 603 (1974). For article, "Liabilities of Nonoperating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

25-7-113. Air pollution emergencies endangering public welfare anywhere in this state. (1) Whenever the division determines, after investigation, that any person is either engaging in any activity involving a significant risk of air pollution or is discharging or causing to be discharged into the atmosphere, directly or indirectly, any air pollutants and such activity or discharge does not constitute a clear, present, and immediate danger to the health of the public, but is of such a nature as to cause extreme discomfort or that it is an immediate danger to the welfare of the public because such pollutants make habitation of residences or the conduct of businesses subjected to the pollutants extremely unhealthy or disruptive, the division shall:

(a) Issue a written cease-and-desist order to said person requiring immediate discontinuance of such activity or the discharge of such pollutant into the atmosphere, and, upon

receipt of such order, such person shall immediately discontinue such activity or discharge; or

(b) Apply to any district court of this state for the district in which the said activity or discharge is occurring for a temporary restraining order, temporary injunction, or permanent injunction as provided for in the Colorado rules of civil procedure. Any such action in a district court shall be given precedence over all other matters pending in such district court. The institution of such injunction proceedings by the division shall confer upon said district court exclusive jurisdiction to determine finally the subject matter of the proceeding; or

(c) Both issue such a cease-and-desist order and apply for any such restraining order or injunction.

ANNOTATION

Law reviews. For article, "Liabilities of Non-operating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

Applied in *CF&I Steel Corp. v. Colo. Air Pollution Control Comm'n*, 199 Colo. 270, 610 P.2d 85 (1980).

25-7-114. Permit program - definitions. As used in sections 25-7-114 to 25-7-114.7, unless the context otherwise requires:

(1) "Affected source" means a source that includes one or more fossil-fuel fired combustion devices subject to emission reduction requirements or limitations under subchapter IV of the federal act or this article.

(2) "Construction permit" means the same as an "emission permit" as required under this section as it existed prior to July 1, 1992, and is the permit required under section 25-7-114.2 after July 1, 1992.

(3) "Major source" means any stationary source (or group of stationary sources which have the same two-digit standard industrial code, are located on one or more contiguous or adjacent properties, and are under common control) that:

(a) Subject to the provisions of section 112 (n) (4) of the federal act, emits or has the potential to emit considering enforceable controls, in the aggregate, ten tons per year or more of any hazardous air pollutant or twenty-five tons per year or more of any combination of hazardous air pollutants, or such lesser quantity of hazardous air pollutants as may be established pursuant to the federal act; or

(b) Directly emits, or has the potential to emit, one hundred tons per year or more of any air pollutant; or

(c) Meets any of the definitions of major source set forth in Part D of subchapter I of the federal act.

(4) "Potential to emit" means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitations on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is enforceable and federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

(5) "Schedule of compliance" means a schedule of required measures, including an enforceable sequence of actions or operations, leading to compliance with an applicable implementation plan, emission standard, emission limitation, emission prohibition, or emission control regulation.

(6) "Synthetic minor source" means, for purposes of this article, any source which would otherwise meet the definition of major source for any pollutants but for the existence of enforceable emission limitations contained in the permit or regulation applicable to that source.

Editor's note: Amendments to subsection (5)(b) by Senate Bill 87-145, House Bill 87-1239, and House Bill 87-1372 were harmonized.

25-7-114.1. Air pollutant emission notices (APEN). (1) No person shall permit emission of air pollutants from, or construction or alteration of, any facility, process, or activity except residential structures from which air pollutants are, or are to be, emitted unless and until an air pollutant emission notice has been filed with the division with respect to such emission. An air pollutant emission notice shall be valid for a period of five years.

(2) All sources existing on or before December 31, 1992, shall file an updated air pollutant emission notice with the division on or before December 31, 1992. In addition, a revised emission notice shall be filed whenever a significant change in emissions, in processes, or in the facility is anticipated or has occurred. The revised air pollutant emission notice shall be valid for five years or until the underlying permit expires. The commission shall exempt those sources or categories of sources which it determines to be of minor significance from the requirement that an air pollutant emission notice be filed.

(3) The commission shall promulgate a list of air pollutants which are required to be reported in an air pollutant emission notice. Prior to the commission's promulgation of such a list of air pollutants to be reported in an air pollutant emission notice, sources shall report any emissions of the following which are in excess of de minimis quantities:

(a) Volatile organic compounds or precursors of air quality problems in Colorado as determined by the commission by regulation;

(b) Any pollutant regulated under section 25-7-109.3 or under section 112(b) of the federal act;

(c) Any pollutant for which a national primary ambient air quality standard has been promulgated under section 109 of the federal act;

(d) All extremely hazardous substances listed pursuant to section 302(a)(2) of the federal "Superfund Amendments and Reauthorization Act of 1986", 42 U.S.C. sec. 11002 (a)(2).

(4) Each such notice shall specify the location at which the proposed emission will occur, the name and address of the person operating or owning such facility, process, or activity, the nature of such facility, process, or activity, and an estimate of the quantity and composition of the expected emission. The division shall make available at all air pollution control authority offices appropriate forms on which the information required by this section shall be furnished.

(5) (Deleted by amendment, L. 2001, p. 640, § 2, effective May 30, 2001.)

(6) (a) The fee for filing an air pollutant emission notice or amendment thereto under this section shall be one hundred fifty-two dollars and ninety cents. The moneys collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the stationary sources control fund created in section 25-7-114.7 (2) (b) (I).

(b) Notwithstanding the amount specified for the fee in paragraph (a) of this subsection (6), the commission by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the commission by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

effective June 6. **L. 98:** (6) amended, p. 1334, § 48, effective June 1. **L. 2001:** (2), (5), and (6)(a) amended, p. 640, § 2, effective May 30. **L. 2008:** (6)(a) amended, p. 882, § 2, effective May 20.

ANNOTATION

Law reviews. For article, "Colorado's New Clean Air Program", see 22 Colo. Law. 541 (1993).

25-7-114.2. Construction permits. No person shall construct or substantially alter any building, facility, structure, or installation, except single-family residential structures, or install any machine, equipment, or other device, or commence the conduct of any such activity, or commence performance of any combinations thereof, or commence operations of any of the same which will or do constitute a new stationary source or a new indirect air pollution source without first obtaining or having a valid construction permit therefor from the division or commission, as the case may be; except that no construction permit shall be required for new indirect air pollution sources until regulations regarding construction permits for such sources have been promulgated by the commission, but in no event shall regulations governing indirect air pollution sources be more stringent than those required for compliance with the federal act and final rules and regulations adopted pursuant thereto. Any emission permit validly issued prior to July 1, 1992, pursuant to section 25-7-114, as said section existed prior to July 1, 1992, and in effect on or after July 1, 1992, shall be deemed to be a valid construction permit issued pursuant to this section. The commission shall designate by regulation those classes of minor or insignificant sources of air pollution which are exempt from the requirement for a permit because of their negligible impact on air quality.

Source: **L. 92:** Entire section added, p. 1202, § 18, effective July 1.

ANNOTATION

Law reviews. For article, "Colorado's New Clean Air Program", see 22 Colo. Law. 541 (1993).

25-7-114.3. Operating permits required for emission of pollutants. (1) No person shall operate any of the following sources without first obtaining a renewable operating permit from the division for such source in a manner consistent with the requirements of this article and the federal act:

- (a) Any affected source;
 - (b) Any major source;
 - (c) Any source required to comply with standards of performance for new stationary sources under section 111 of the federal act, unless otherwise exempted from permitting requirements pursuant to federal rules adopted in accordance with section 502 of the federal act;
 - (d) Any source subject to emission standards or regulations for hazardous air pollutants under section 112 of the federal act, unless otherwise exempted from federal permitting requirements pursuant to federal rules adopted in accordance with section 502 of the federal act;
 - (e) Any source required to have a permit pursuant to part 2 (prevention of significant deterioration program) or part 3 (attainment program) of this article, or Part C (prevention of significant deterioration of air quality) or Part D (plan requirements for nonattainment area) of subchapter I of the federal act;
 - (f) Any other source designated under federal law as requiring an operating permit.
- (2) For those sources located in the state and participating in the federal early reductions program as specified in section 112 (i) (5) of the federal act, or the United States

environmental protection agency's 33/50 program, or the state early reductions program as set forth in subsection (3) of this section, or any of such programs, the commission and division shall establish a system to credit emission permit fees to be established pursuant to sections 25-7-114.6 and 25-7-114.7 and to be assessed against such sources at a ratio of at least two-for-one for every ton of emissions reduced pursuant to the federal early reductions program, the United States environmental protection agency's 33/50 program, or the state early reductions program. A participating source shall be offered a one-time permit fee credit of two tons for each corresponding ton of its reduced emissions that are verified by the division. The permit fee credit shall be available in the year following the year in which the early reduction in emissions is achieved.

(3) The commission shall adopt the federal early reductions program specified in section 112 (i) (5) of the federal act and promulgate a state early reductions program which shall include the following elements:

(a) The state early reductions program shall be consistent with the federal early reductions program; and

(b) A six-year extension of compliance for existing sources with emission standards promulgated pursuant to section 112 (d) of the federal act if the source has achieved an emission reduction of ninety percent or more of hazardous air pollutants (ninety-five percent or more for hazardous air pollutants which are particulates); and

(c) If a source is granted a compliance extension, an alternative limitation to be established by permit to ensure continued achievement of the emission reduction; and

(d) Sources subject to and in compliance with an enforceable commitment under the federal and state early reductions programs shall be considered in compliance with all state regulations and requirements for hazardous air pollutants for the period of such commitment.

(4) For affected sources under Title V of the federal act:

(a) Operating permits and requirements for permit applications, compliance plans, and monitoring and reporting requirements shall be consistent with the provisions of Title IV as well as Title V of the federal act;

(b) In order to ensure reliability of electric power, nothing in the requirements pertaining to renewable operating permits required by this article shall be construed as requiring termination of operations of an electric utility steam generating unit for failure to have an approved permit or compliance plan;

(c) Nothing in this article shall be construed as affecting SO₂ allowances given to sources affected under Title IV of the federal act.

Source: L. 92: Entire section added, p. 1203, § 18, effective July 1. **L. 2010:** (1)(c) and (1)(d) amended, (HB 10-1042), ch. 209, p. 909, § 2, effective September 1.

25-7-114.4. Permit applications - contents - rules. (1) The commission shall promulgate such regulations as may be necessary and proper for the orderly and effective administration of construction permits and renewable operating permits. Such regulations shall be in conformity with the provisions of this article and with federal requirements, shall be in furtherance of the policy contained in section 25-7-102, and shall implement, where applicable, permit and permit application contents, procedures, requirements, and restrictions with respect to the following:

(a) Identification and address of the owner and operator of the source or facility from which the emission or emissions are to be permitted;

(b) Location, quantity, and quality characteristics of the permitted emissions;

(c) Inspection, monitoring, record-keeping, and reporting requirements consistent with standard procedures, methods, and requirements established by the division;

(d) Deadlines for submitting permit applications and compliance plans, which, for applications for renewable operating permits, shall be no later than twelve months after the source becomes subject to an approved permit program. Deadlines for submitting permit applications for renewal of renewable operating permits shall be consistent with the requirements for filing such applications promulgated under the federal act but in no event earlier than required under the federal act.

(e) Contents of compliance plans to be submitted with renewable operating permit applications, which shall include schedules of compliance and progress reports at least every six months;

(f) Annual certifications of facility compliance with permit requirements, with prompt reporting of deviations from permit requirements;

(g) Submission of pertinent plans and specifications for the facility or source from which the emission is to be permitted;

(h) Restrictions on transfers of the permit;

(i) Procedures to be followed in the event of expansion or modification of the source or facility from which the emission occurs, or change in the quality, quantity, or frequency of the emission;

(j) Duration of the permit and renewal procedures. The duration of construction permits shall be until the renewable operating permit is issued. The duration of renewable operating permits is five years.

(k) Procedures to terminate, modify, or revoke and reissue permits for cause; procedures to revise permits, prior to renewal or termination, to incorporate applicable standards and regulations adopted after the issuance of such permit as expeditiously as practicable, but not later than eighteen months after promulgation of the applicable requirement, or to incorporate otherwise applicable standards and regulations in the permit; except that no such revision shall be required if the effective date of the standards or regulation occurs after the permit term expires, such revision shall be treated as a permit renewal, and the defense established under subsection (3) of this section shall apply until the permit amendment is complete;

(l) Procedures for incorporating emission limitations and other requirements from an applicable implementation plan, and other applicable requirements, into new or renewed permits;

(m) Procedures for notifying other contiguous states whose air quality may be affected by the emissions or that are within fifty miles of the source and for submitting comments and recommendations regarding the proposed permit;

(n) Procedures for modifying or amending permits, and procedures for authorizing any change within a permitted facility without requiring a permit revision, so long as any such change is not a modification under any provision of subchapter I of the federal act, and any such change does not exceed the emissions allowable under the permit, and advance notice is given to the division and the administrator. Such advance notice shall be no earlier than that required under regulations promulgated pursuant to the federal act. Failure of the division to respond by the day following the last day of such advance notice period allows the source to proceed with any such change.

(o) Procedures to make available to the public any permit application, compliance plan, permit, and monitoring or compliance report, subject to the provisions of section 25-7-119 (4). If an applicant is required to submit information entitled to protection from disclosure, the applicant may submit such information separately.

(p) Procedures for issuing general permits after notice and an opportunity for hearing, covering numerous similar sources;

(q) Procedures for issuing single permits for a facility with multiple sources; and

(r) Requirements for permit applications, including a standard application form and criteria for determining in a timely fashion the completeness of applications.

(2) The division shall examine applications for and may issue, suspend, revoke, modify, deny, and otherwise administer all permits required under this article. Such administration shall be in accordance with the provisions of this article and regulations promulgated by the commission.

(3) (a) Compliance with all renewable operating permit terms and conditions shall be deemed compliance with section 25-7-114.3 and shall be deemed compliance with other applicable provisions of this article if:

(I) The permit includes the applicable requirements of such provisions; or

(II) The division or commission, in acting on the permit application, makes a determination that such other provisions are not applicable, and the permit includes the

determination or a concise summary thereof. Such other provisions as are not applicable in each permit shall be identified upon the request of the permittee.

(b) Nothing in paragraph (a) of this subsection (3) shall alter or affect:

(I) The provisions of section 25-7-112 or 25-7-113 or section 303 of the federal act;

(II) The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance.

(4) For any permitted sand and gravel operation or crushed stone quarry or oil and gas well operation, if a breakdown of equipment or changes in market conditions require any additional crusher or screen or skid-mounted compressor or glycol dehydrator to be brought onto a site, the air pollutant emission notice filed under section 25-7-114.1 shall also serve as an application for a permit under the provisions of this section to continue operations at such a site with alternative or additional equipment until such permit is issued stating emission limitations.

Source: L. 92: Entire section added, p. 1205, § 18, effective July 1. L. 95: (4) added, p. 1342, § 3, effective July 1.

25-7-114.5. Application review - public participation. (1) Prior to submitting an application for a permit, the applicant may request and, if so requested, the division shall grant a planning meeting with the applicant. At such meeting, the division shall advise the applicant of the applicable permit requirements, including the information, plans, specifications, and data required to be furnished with the permit application.

(2) The division shall evaluate permit applications to determine, for construction permits, whether operation of the proposed new source at the date of start-up and for operating permits, whether the permitted emissions, will comply with all applicable emission control regulations, regulations for the control of hazardous pollutants, and requirements of part 2 or 3 of this article.

(3) The division shall also determine whether applications are for a new source activity that may have an impact upon areas which, as of the projected new source start-up date, are in compliance with national ambient air quality standards as of the date of the permit application, or for new source activity that may have an impact upon areas which, as of the projected new source start-up date, are not in compliance with national ambient air quality standards as of the date of the permit application.

(4) The division shall prepare its preliminary analysis regarding compliance, as set forth in subsection (2) of this section, and regarding the impact on attainment or nonattainment areas, as set forth in subsection (3) of this section, as expeditiously as possible. For construction permits not subject to part 2 of this article, such preliminary analysis shall be completed no later than sixty calendar days after receipt of a completed permit application. Applicants must be advised within sixty calendar days after receipt of any application, or supplement thereto, if and in what respects the subject application is incomplete. Upon failure of the division to so notify the applicant within sixty calendar days of its filing, the application shall be deemed complete. Applications for construction permits subject to part 2 of this article shall be approved or disapproved within twelve months of receipt of a complete application. Applications for renewable operating permits shall be approved or disapproved within eighteen months after the receipt of the completed permit application; except that those applications submitted within the first year after the effective date of the operating permit program shall be subject to a phased schedule for acting on such permit applications established by the division. The phased schedule shall assure that at least one-third of such permits will be acted on by the division annually over a three-year period. The commission may establish a phased schedule for acting on applications for which a deferral has been granted pursuant to the federal act. A timely and complete permit application operates as a defense to enforcement action for operating without a permit for the period of time during which the division or the commission is reviewing the application and until such time as the division or the commission makes a final determination on the permit application; except that this defense to an enforcement action shall not be available to an applicant which files a fraudulent application.

(5) For those types of projects or activities for which a construction permit application has been filed, defined, or designated by the commission as warranting public comment with respect thereto, the division shall, within fifteen calendar days after it has prepared its preliminary analysis, give public notice of the proposed project or activity by at least one publication in a newspaper of general distribution in the area in which the proposed project or activity, or a part thereof, is to be located or by such other method that is reasonably designed to ensure effective general public notice. The division shall also during such period of time maintain in the office of the county clerk and recorder of the county in which the proposed project or activity, or a part thereof, is located a copy of its preliminary analysis and a copy of the application with all accompanying data for public inspection. The division shall receive and consider public comment thereon for a period of thirty calendar days thereafter.

(6) (a) For any construction permit application subject to the requirements of a new or modified major source in a nonattainment area, or for prevention of significant deterioration as provided in part 2 of this article, or for any application for a renewable operating permit, within fifteen calendar days after the issuance of its preliminary analysis, the division shall:

(I) Forward to the applicant written notice of the applicant's right to a formal hearing before the commission with respect to the application; and

(II) Give public notice of the proposed source or modification and the division's preliminary analysis thereof by at least one publication in a newspaper of general distribution in the area of the proposed source or modification, or by such other method that is reasonably designed to ensure effective general public notice. Such notice shall advise of the opportunity for a public hearing for interested persons to appear and submit written or oral comments to the commission on the air quality impacts of the source or modification, the alternatives to the source or modification, the control technology required, if applicable, and other appropriate considerations. Any such notice shall be printed prominently in at least ten-point bold-faced type. The division shall receive and consider any comments submitted.

(b) If within thirty calendar days of publication of such public notice the applicant or an interested person submits a written request for a public hearing to the division, the division shall transmit such request to the commission along with the application, the division's preliminary analysis, and any written comments received by the division, within five calendar days of the end of such thirty-day period. The commission shall, within sixty calendar days after receipt of the application, comments, and analysis, unless such greater time is agreed to by the applicant and the division, hold a public hearing to elicit and record the comment of any interested person regarding the sufficiency of the preliminary analysis and whether the permit application should be approved or denied. At least thirty calendar days prior to such public hearing, notice thereof shall be mailed by the commission to the applicant, printed in a newspaper of general distribution in the area of the proposed source or modification, and submitted for public review with the county clerk and recorder of the county wherein the project or activity is proposed.

(7) (a) Within thirty calendar days following the completion of the division's preliminary analysis for applications for construction permits not subject to part 2 of this article, or within thirty calendar days following the period for public comment provided for in subsection (5) of this section, or for applications for construction permits subject to part 2 of this article and for renewable operating permits, if a hearing is held, within the appropriate time period established pursuant to this article, the division or the commission, as the case may be, shall grant or deny the permit application. Any permit required pursuant to this article shall be granted by the division or the commission, as the case may be, if it finds that:

(I) The source or activity will meet all applicable emission control regulations and regulations for the control of hazardous air pollutants;

(II) The source or activity will meet the requirements of part 2 or 3 of this article, if applicable;

(III) For construction permits, the source or activity will meet any applicable ambient air quality standards and all applicable regulations;

(III.5) For renewable operating permits, the source or activity will meet all applicable regulations; and

(IV) For renewable operating permits, the United States environmental protection agency has not made a timely objection to issuance of such permit pursuant to the federal act.

(b) Failure of the division or commission, as the case may be, to grant or deny the permit application or permit renewal application within the time prescribed shall be treated as a final permit action for purposes of obtaining judicial review in the district court in which the source is located, to require that action be taken on such application by the commission or division, as appropriate, without additional delay.

(c) If an applicant has submitted a timely and complete application for a renewable operating permit required by this article, including renewals, but final action has not been taken on such application, and, if required to have a construction permit, such construction permit is in place and valid, the source's failure to have a renewable operating permit shall not be a violation of this article, unless the delay in final action was due to the failure of the applicant to timely submit information required or requested by the division to process the application.

(8) If the division denies a permit or imposes conditions upon the issuance of a permit which are contested by the applicant or if the division revokes a permit pursuant to subsection (12) of this section, the applicant may request a hearing before the commission. The hearing shall be held in accordance with sections 25-7-119 and 24-4-105, C.R.S. The commission may, after review of the evidence presented at the hearing, affirm, reverse, or modify the decision of the division but shall, in any event, assure that all the requirements of subsections (6) and (7) of this section are met.

(9) Renewable operating permits shall summarize existing operating restrictions pursuant to section 25-7-114.4 (3).

(10) A permit amendment will not be required to authorize a change in practice which is otherwise permitted pursuant to this article, the state implementation plan, or the federal act merely because an existing permit does not address the practice. Changes in industrial practices and procedures that are not inconsistent with the terms of a renewable operating permit can be made without seeking any change to the terms of said permit.

(11) An order of the division or commission shall be final upon issuance. Any participant in the public comment process and any other person who could obtain judicial review under applicable law shall have standing for purposes of seeking review of any final order of the commission or division regarding applications, renewals, or revisions of any permits. The public participation requirements of subsections (5) and (6) of this section shall apply to all renewable operating permit applications, revisions, and renewals.

(12) (a) A permitted entity shall notify the division within fifteen days after the commencement of any activity for which a construction permit has been issued. Within one hundred eighty days after commencement of operation for which a construction permit has been issued, the source shall demonstrate to the division compliance with the terms and conditions of the construction permit or the division may, pursuant to rules that are adopted by the commission based upon the results of the study conducted under section 25-7-114.7 (2) (a) (V), inspect the project or activity to determine whether or not the terms and conditions of the construction permit have been properly satisfied. At the end of one hundred eighty days after the commencement of operation, the division must:

- (I) Revoke the construction permit; or
- (II) Continue the construction permit, if applicable; or
- (III) Notify the owner or operator that the source has demonstrated compliance with the construction permit.

(b) For those sources subject to the renewable operating permit program, a renewable operating permit will be issued within the appropriate time periods if all requirements for a renewable operating permit are met by the source. The construction permit requirements shall remain in effect until the renewable operating permit is issued.

(12.5) (a) (I) Except for sources involved in agricultural, horticultural, or floricultural production such as farming, seasonal crop drying, animal feeding, or pesticide application, upon determination by the division that the criteria set forth in paragraph (b) of this

subsection (12.5) applies to a source that is not required to obtain a renewable operating permit, the division may reopen such construction permit for the purpose of imposing any or all of the following additional terms and conditions:

- (A) Enhanced record-keeping requirements;
- (B) Enhanced emissions and ambient monitoring requirements;
- (C) Operating and maintenance requirements; and
- (D) Emission control requirements pursuant to section 25-7-109.3.

(II) Any such condition which is contested by the permittee may be reviewed by the commission in accordance with the provisions of subsection (7) of this section.

(b) With the exception of those sources involved in agricultural, horticultural, or floricultural production such as farming, seasonal crop drying, animal feeding, and pesticide application, a source's construction permit may be reopened for cause for the purposes of paragraph (a) of this subsection (12.5) only upon a determination by the division that the location of the source is significant in terms of its proximity to residential or business areas, and one or more of the following criteria apply to the permitted source:

(I) The control equipment utilized by the source requires an unusually high degree of maintenance or operational sensitivity when compared to control equipment in general; or

(II) The design characteristics of the source require an unusually high degree of maintenance or operational sensitivity when compared to the design characteristics of all sources in general; or

(III) The application of the control equipment utilized is unique or untested; or

(IV) The operational variability of the source may impact the effectiveness of the controls; or

(V) The emissions from the source will threaten public health, as determined pursuant to section 25-7-109.3.

(c) Nothing in paragraph (a) or (b) of this subsection (12.5), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(13) The commission shall, wherever practicable, promulgate regulations for renewable operating permit application requirements that combine requirements for construction permits with renewable operating permits to avoid duplicative efforts by the source and the division.

(14) (Deleted by amendment, L. 2010, (HB 10-1042), ch. 209, p. 909, § 3, effective September 1, 2010.)

(15) Repealed.

(16) (a) If the division experiences a backlog in processing air quality permit applications caused by an occasional need that is seasonal, irregular, or fluctuating in nature, and the department determines or reasonably expects that, as a result, permits would not be issued within statutory time frames, the division shall make available to sources that are not subject to permitting under part C of the federal act the option to have the air quality modeling that is submitted with the applicant's air permit application reviewed for acceptance as demonstrating compliance by a contract consultant selected by the division in lieu of the review being conducted by division staff.

(b) The division shall select and contract with nongovernmental air quality modeling engineers to perform air quality modeling reviews of applicants who choose contract consultant review of their air quality permit modeling. The division is not subject to the requirements of the "Procurement Code", articles 101 to 112 of title 24, C.R.S., in selecting and contracting with the consultants. The division shall review and exclude from consideration as a contract air quality modeling consultant any contractors with a conflict of interest regarding air quality permit applications. Applicants that choose consultant review of their air quality modeling are responsible for both the consultant's costs associated with the air modeling review as well as the division's costs associated with the review and determination of the air permit application, to be paid to the division. The division shall transfer the money to the state treasurer, who shall credit it to the stationary sources control fund created in section 25-7-114.7 (2) (b) (I).

(c) The division shall use the results of the modeling conducted pursuant to paragraph (b) of this subsection (16) for purposes of the division's permit application analysis.

25-7-114.6. Emission notice - fees. (1) The commission shall designate by regulations those classes of minor or insignificant sources of air pollution which are exempt from the requirement for an emission notice or the payment of an emission notice filing fee because of their negligible impact upon air quality.

(2) An air pollution emission notice shall be deemed to run with the land. The moneys collected pursuant to this section and sections 25-7-403 and 25-7-510 shall be remitted to the state treasurer, who shall credit the same to the stationary sources control fund created in section 25-7-114.7 and subject to the provisions of said section.

(3) The general assembly shall direct the commission to adjust any fees imposed by this section so that the revenues approximate the annual appropriations to the division to carry out its duties under this subsection (3) with respect to stationary sources.

Source: L. 92: Entire section added, p. 1214, § 18, effective July 1. **L. 93:** (1) amended, p. 941, § 2, effective May 28. **L. 94:** (2) amended, p. 1640, § 60, effective May 31.

25-7-114.7. Emission fees - fund. (1) As used in this section, unless the context otherwise requires:

- (a) Indirect and direct costs include, but are not limited to:
 - (I) Reviewing and acting upon any application for such a permit;
 - (II) Implementing and enforcing the terms and conditions of any such permit (not including court costs or other legal costs associated with any enforcement action);
 - (III) Emissions and ambient monitoring;
 - (IV) Preparing generally applicable regulations or guidance;
 - (V) Modeling, analyses, and demonstrations;
 - (VI) Preparing inventories and tracking emissions; and
 - (VII) Establishing and administering a small business stationary source technical and environmental compliance program, pursuant to section 25-7-109.2.

- (b) (I) "Regulated pollutant" means:
 - (A) A volatile organic compound;
 - (B) Each pollutant regulated under section 25-7-109 or section 111 of the federal act;
 - (C) Each pollutant regulated under section 112 (b) of the federal act;
 - (D) Each pollutant for which a national primary ambient air quality standard has been promulgated, except for carbon monoxide;

(II) The term "regulated pollutant", for the purpose of assessing fees, shall not include fugitive dust or any fraction thereof.

(2) (a) (I) The commission shall designate by rule those classes of sources of air pollution that are exempt from the requirement to pay an annual emission fee. Every owner or operator of an air pollution source not otherwise exempt in accordance with such commission rules shall pay an annual fee as follows:

(A) For fiscal years 2008-09 and thereafter, twenty-two dollars and ninety cents per ton of regulated pollutant reported in the most recent air pollution emission notice on file with the division;

(A.5) A late payment fee. Such fee shall be assessed at the rate of one percent per month for accounts more than sixty days past due; except that no late payment fee may be assessed during a period in which an account is under administrative review by the division in order to respond to a reasonable request by the owner or operator of a source for allocation of the fees among multiple sources or to resolve a good faith claim by the owner or operator of a source that there has been an error in calculation of the amount of fees due. At the end of the administrative review, the division shall inform the owner or operator of the source in writing of any findings.

(B) For fiscal years 2008-09 and thereafter, in addition to the annual fee set forth in sub-subparagraph (A) of this subparagraph (I), for hazardous air pollutants, including ozone-depleting compounds, an annual fee of one hundred fifty-two dollars and ninety cents per ton;

(C) Every local air pollution control authority that adopts any air pollution resolution or ordinance that is more stringent than corresponding state provisions shall pay for the state's enforcement costs;

(II) In no event shall an owner or operator of a major source pay more than a fee based upon total annual emissions of four thousand tons of each regulated pollutant per source.

(III) Every owner or operator subject to the requirements of paying fees set forth in subparagraph (I) of this paragraph (a) shall also pay a processing fee for the costs of processing any application other than an air pollution emission notice under this article. Every significant user of prescribed fire, including federal facilities, submitting a planning document to the commission pursuant to section 25-7-106 (8) (b) shall pay a fee for costs of evaluating such documents. The division shall assess a fee for work it performs, up to a maximum of thirty hours at a rate of seventy-six dollars and forty-five cents per hour. If the division requires more than thirty hours to process the application or evaluate the prescribed fire-related planning documents, the fee paid by the applicant shall not exceed three thousand dollars unless the division has informed the source that the respective billings may exceed three thousand dollars and has provided the source with an estimate of what the actual charges may be prior to commencing the work.

(IV) and (V) Repealed.

(VI) Notwithstanding subparagraph (III) of this paragraph (a), the division shall not assess a fee for work performed to negotiate a voluntary agreement under part 12 of this article above a maximum of one hundred hours at a rate of fifty-nine dollars and ninety-eight cents per hour unless the owner or operator proposing the voluntary agreement consents to a greater fee in writing.

(b) (I) The moneys collected pursuant to this section shall be remitted to the state treasurer, who shall credit the same to the stationary sources control fund, which fund is hereby created. From such fund, the general assembly shall appropriate to the department of public health and environment, at least annually, such moneys as may be necessary to cover the division's direct and indirect costs required to develop and administer the programs established pursuant to parts 1 to 4 and 10 of this article for the control of air pollution from stationary sources. Any permit fee moneys not appropriated by the general assembly and any appropriated funds not spent by the division shall remain in the stationary sources control fund and shall not revert to the general fund of the state at the end of any fiscal year. Any such moneys shall be separately accounted for. All interest earned on moneys in the stationary sources control fund shall remain in the fund and shall not revert to the general fund or to any other fund.

(II) Of the portion of fee revenue attributable to the increases enacted during the first regular session of the sixty-third general assembly, the department shall allocate one hundred fifty thousand dollars per year for the purpose of modernizing and maintaining the computer system used for the administration of the stationary source program so as to make the overall system more efficient, and seventy thousand dollars for the purpose of enhancing county and district public health agency participation in air quality control activities. The department may reallocate moneys between these two purposes as reasonably necessary so long as the total amount devoted to such purposes remains at two hundred twenty thousand dollars annually.

(c) The general assembly by bill may annually adjust the fees established in this section and in section 25-7-114.1 as necessary to cover the reasonable costs, both direct and indirect, of the stationary source program and to assure that adequate personnel and funding will be available to administer the permit program.

(d) No permit will be issued if the administrator objects to its issuance in a timely manner under this title.

(e) Repealed.

(f) Notwithstanding the amount specified for any fee in this subsection (2), the commission by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the commission by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

25-7-114.8. Permit fee credits. (Repealed)

Source: **L. 92:** Entire section added, p. 1217, § 18, effective July 1. **L. 2003:** Entire section repealed, p. 843, § 2, effective April 7.

25-7-115. Enforcement. (1) (a) The division shall enforce compliance with the emission control regulations of the commission, the requirements of the state implementation plan, and the provisions of parts 1 to 4 and part 11 of this article, including terms and conditions of any permit required pursuant to this article.

(b) The division shall enforce the provisions of part 5 of this article pursuant to sections 25-7-112, 25-7-113, and 25-7-511.

(2) If a written and verified complaint is filed with the division alleging that, or if the division itself has cause to believe that, any person is violating or failing to comply with any regulation of the commission issued pursuant to parts 1 to 4 of this article, order issued pursuant to section 25-7-118, requirement of the state implementation plan, provision of parts 1 to 4 of this article, including any term or condition of a permit required pursuant to

this article, the division shall cause a prompt investigation to be made; and, if the division investigation determines that any such violation or failure to comply exists, the division shall act expeditiously and within the period prescribed by law in formally notifying the owner or operator of such air pollution source after the discovery of the alleged violation or noncompliance. Such notice shall specify the provision alleged to have been violated or not complied with and the facts alleged to constitute the violation or noncompliance.

(3) (a) Within thirty calendar days after notice has been given, the division shall confer with the owner or operator of the source to determine whether a violation or noncompliance did or did not occur and, if such violation or noncompliance occurred, whether a noncompliance penalty must be assessed under subsection (5) of this section. The division shall provide an opportunity to the owner or operator at such conference, and may provide further opportunity thereafter, to submit data, views, and arguments concerning the alleged violation or noncompliance or the assessment of any noncompliance penalty.

(b) If, after any such conference, a violation or noncompliance is determined to have occurred, the division shall issue an order requiring the owner or operator or any other responsible person to comply, unless the owner or operator demonstrates that such violation occurred during a period of start-up, shutdown, or malfunction, and timely notice was given to the division of such condition. Such order may include termination, modification, or revocation and reissuance of the subject permit and the assessment of civil penalties in accordance with section 25-7-122. Such order may also require the calculation of a noncompliance penalty under subsection (5) of this section. Unless enforcement of its order has been stayed as provided in paragraph (b) of subsection (4) of this section, the division may seek enforcement, pursuant to section 25-7-121 or 25-7-122, of the applicable regulation of the commission, order issued pursuant to section 25-7-121 or 25-7-122 of the applicable regulation of the commission, order issued pursuant to section 25-7-118, requirement of the state implementation plan, provision of this article, or terms or conditions of a permit required pursuant to this article in the district court for the district where the affected air pollution source is located. The court shall issue an appropriate order, which may include a schedule for compliance by the owner or operator of the source.

(c) The order for compliance shall set forth with specificity the final determination of the division regarding the nature and extent of the violation or noncompliance by the named persons and facilities and shall also include, by reference, a summary of the proceedings at the conference held after the notice of violation and an evaluation of the evidence considered by the division in reaching its final determinations. Any order issued under this subsection (3) which is not reviewed by the commission in accordance with the provisions of subsection (4) of this section shall become final agency action.

(4) (a) (I) Within twenty calendar days after receipt of an order issued pursuant to subsection (3) of this section, the recipient thereof may file with the commission a written petition requesting a hearing to determine all or any of the following:

(A) Whether the alleged violation or noncompliance exists or did exist;

(B) Whether a revision of the state implementation plan or revision of a regulation or standard which is not part of the state implementation plan should be implemented with respect to such violation or noncompliance;

(C) Whether the owner or operator is subject to civil or noncompliance penalties under subsection (5) of this section.

(II) Such hearing shall allow the parties to present evidence and argument on all issues and to conduct cross-examination required for full disclosure of the facts and shall otherwise be conducted in accordance with section 25-7-119.

(b) Except with respect to actions taken pursuant to section 25-7-112 or 25-7-113, upon the filing of such petition, the order and the provisions of the state implementation plan which relate to the alleged violation or noncompliance shall be stayed pending determination of the petition by the commission. Any stay pursuant to this paragraph (b) shall be effective only as to the specific source covered by the order and such petition.

(5) (a) (I) Any order issued pursuant to subsection (3) of this section which pertains to an alleged violation described in section 120(a)(2)(A) of the federal act shall also require each person who is subject to such order, within forty-five calendar days after the issuance of such order, to calculate the penalty owed in accordance with paragraph (b) of this

subsection (5) and submit the calculation, together with a payment schedule and all information necessary for an independent verification thereof, to the division. If the order has been stayed pursuant to subsection (4) of this section, the penalty calculation shall be submitted by the owner or operator to the division within forty-five calendar days after issuance of a final determination of the commission that:

(A) A violation or noncompliance occurred;

(B) If a revision to the state implementation plan has been requested, all or part of such request should be denied; except that, if only part of such request is denied, the penalty calculation shall not be submitted for any aspect of the violation or noncompliance which is excused by reason of approval of a requested revision of the state implementation plan;

(C) The violation is one described in section 120(a)(2)(A) of the federal act; and

(D) If an exemption pursuant to subsection (7) of this section has been claimed, the owner or operator is not entitled thereto.

(II) The division shall review the penalty calculation and schedule submitted pursuant to subparagraph (I) of this paragraph (a) and shall issue an order assessing the noncompliance penalty and providing a payment schedule therefor.

(b) (I) The amount of the penalty which shall be assessed under this subsection (5) shall be equal to:

(A) The amount, determined in accordance with section 120 of the federal act and rules and regulations promulgated under said act by the United States environmental protection agency, which shall be no less than the sum of the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period of not longer than ten years, operation and maintenance costs foregone as a result of noncompliance, and any additional value which a delay in compliance beyond July 1, 1979, may have for the owner or operator of such stationary source; less

(B) The amount of any expenditure made by the owner or operator of such stationary source during any such quarter for the purpose of bringing the source into, and maintaining compliance with, such requirement to the extent that such expenditure has not been taken into account in the calculation of the penalty under sub-subparagraph (A) of this subparagraph (I).

(II) To the extent that any expenditure under sub-subparagraph (B) of subparagraph (I) of this paragraph (b) made during any quarter is not subtracted for such quarter from the costs under sub-subparagraph (A) of subparagraph (I) of this paragraph (b), such expenditure may be subtracted for any subsequent quarter from such costs; except that in no event shall the amount paid be less than the quarterly payment minus the amount attributed to the actual cost of construction.

(c) Any penalty assessed pursuant to subsections (5) to (11) of this section shall be paid in equal quarterly installments (except as provided in sub-subparagraph (B) of subparagraph (I) of paragraph (b) of this subsection (5)) for the period which begins either August 7, 1979, if notice pursuant to subsection (2) of this section is issued on or before such date or which begins on the date of issuance of notice pursuant to subsection (2) of this section if such notice is issued after August 7, 1979, and which period ends on the date on which such stationary source is estimated to come into compliance.

(d) Any person who fails to pay the amount of any penalty with respect to any stationary source under this subsection (5) on a timely basis shall be required to pay, in addition, a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be in an amount equal to twenty percent of the aggregate amount of such person's penalties and nonpayment penalties with respect to such stationary source which are unpaid as of the beginning of such quarter.

(6) Within twenty calendar days after issuance of an order under subparagraph (II) of paragraph (a) of subsection (5) of this section, the owner or operator may file with the commission a written petition requesting a hearing to review such order. Within sixty calendar days after the filing of such petition, the commission shall hold a hearing and issue a decision thereon.

(7) (a) The owner or operator of any stationary source shall be exempt from the duty to pay a noncompliance penalty pursuant to this section if after notice the owner or operator

demonstrates at a hearing that the failure of such stationary source to comply is due solely to:

(I) The conversion by such stationary source from the burning of petroleum products or natural gas, or both, as the primary energy source to the burning of coal pursuant to an order under section 119 of the federal act;

(II) In the case of a coal-burning source granted an extension under section 119 of the federal act, a prohibition from using petroleum products or natural gas, or both, by reason of an order under the provisions of section 2 (a) and (b) of the federal "Energy Supply and Environmental Coordination Act of 1974" or under any legislation which amends or supersedes those provisions;

(III) The use of innovative technology sanctioned by an enforcement order under section 113 (d) (4) of the federal act;

(IV) An inability to comply with such requirements for which the stationary source has received an order pursuant to section 25-7-118, which inability results from reasons entirely beyond the control of the owner or operator of such stationary source or of any entity controlling, controlled by, or under common control with the owner or operator of such stationary source; or

(V) The conditions by reason of which a temporary emergency suspension is authorized under section 110 (f) or (g) of the federal act;

(b) The division may, after notice and opportunity for a public hearing, exempt any stationary source from the duty to pay a noncompliance penalty pursuant to this section with respect to a particular instance of noncompliance if it finds that such instance of noncompliance is inconsequential in nature and duration. Any instance of noncompliance occurring during a period of start-up, shutdown, or malfunction shall be deemed to be inconsequential. If a public hearing is requested by an interested person, the request shall be transmitted to the commission within twenty calendar days of its receipt by the division. The commission shall, within sixty calendar days of its receipt of the request, hold a public hearing with respect thereto and within thirty calendar days of such hearing issue its decision.

(c) An exemption under this subsection (7) shall cease to be effective if the stationary source fails to comply with the interim emission control requirements or schedules of compliance, including increments of progress, under any such extension, order, or suspension.

(8) If the owner or operator of a stationary source who receives an order pursuant to subsection (5) of this section fails to submit a calculation of the penalty, a schedule for payment, and the information necessary for an independent verification thereof, the division may enter into a contract with a person who has no financial interest in the ownership or operation of the stationary source or in any person controlling, controlled by, or under common control with such stationary source to assist in determining the penalty assessment or payment schedule with respect to such stationary source. The cost of such contract may be added to the penalty to be assessed against the owner or operator of such stationary source.

(9) (a) The division or the commission may adjust the amount of the penalty assessment or the payment schedule proposed by the owner or operator if the administrator of the United States environmental protection agency determines that the penalty or schedule does not meet the requirements of the federal act.

(b) Upon making a determination that a stationary source which is subject to a penalty assessment pursuant to this section is in compliance, the division shall review the actual expenditures made by the owner or operator of such stationary source for the purpose of attaining and maintaining compliance and, within one hundred eighty days after such stationary source comes into compliance, shall either provide reimbursement with interest at appropriate prevailing rates for any overpayment by such person or assess and collect any additional payment with interest at prevailing rates for any underpayment by such person.

(10) Any orders, payments, sanctions, or other requirements under this section shall be in addition to any other orders, payments, sanctions, or other requirements of this article.

(11) The division or the commission may request the district attorney for the district in which the alleged violation or noncompliance, or any part thereof, occurred or may request

the attorney general to bring, and if so requested it is his duty to bring, a suit for recovery of any penalty or nonpayment penalty, with interest, imposed pursuant to subsection (5) of this section if the penalty is not paid when due.

L. 87: (1) and (2) amended, p. 1152, § 6, effective July 1. L. 92: (1)(a), (2), (3)(b), (3)(c), and (4)(a) amended, p. 1217, § 19, effective July 1. L. 97: (1)(a) amended, p. 1090, § 3, effective July 1.

ANNOTATION

Notice of each inspection is required, regardless of when it occurs, even where the alleged violator is already the subject of a cease-and-desist order. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 191 Colo. 463, 553 P.2d 800 (1976).

When notice should be given. A party who is subject to an inspection that may result in a cease-and-desist order is entitled to notice that an inspection has been conducted within a reasonably short period of time following the inspection. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 191 Colo. 463, 553 P.2d 800 (1976).

Due process contemplates that notice should be given of a visual opacity reading by the department of health within a reasonably short period of time following the completion of inspection of air pollution. *Air Pollution Variance*

Bd. v. W. Alfalfa Corp., 191 Colo. 455, 553 P.2d 811 (1976).

Because surprise may play a crucial role in the course of some inspections, prior or contemporary notice of the inspection is not required. Basic fairness is achieved in this context by delivering actual notice to a plant manager or officer or agent thereof within a short period of time following the inspection. *Air Pollution Variance Bd. v. W. Alfalfa Corp.*, 191 Colo. 455, 553 P.2d 811 (1976).

Investigation of a notice of violation is not a precondition to issuance of a construction permit, because this section addresses enforcement of air quality laws and does not create a separate permitting requirement. *Citizens for Clean Air & Water v. Colo. Dept. of Pub. Health & Env't*, 181 P.3d 393 (Colo. App. 2008).

25-7-116. Air quality hearings board. (Repealed)

Source: Entire article R&RE, L.79, p. 1039, § 1, effective June 20. L. 84: Entire section repealed, p. 768, § 1, effective July 1.

25-7-117. State implementation plan - revisions of limited applicability. (1) The commission, upon application by the owner or operator of a stationary or mobile source or as provided in section 25-7-110 (2), may revise the state implementation plan or any regulation or standard that is not part of the state implementation plan pursuant to this section if it determines that:

(a) Control techniques are not available, compliance with applicable emission control regulations would cause an unreasonable economic burden, compliance with applicable emission control regulations through new or improved technology is economically and technologically beneficial, or compliance with applicable emission control regulations would result in an arbitrary and unreasonable taking of property;

(b) The adoption of such revision would be consistent with, and aid in, implementing the legislative policy set forth in section 25-7-102; and

(c) In any event, adoption of such revision would be consistent with the requirements of section 110 of the federal act.

(2) Any revision of the state implementation plan or of a regulation or standard which is not part of the state implementation plan pursuant to the provisions of subsection (1) of this section may be adopted for such period of time as shall be specified by the commission.

Source: L. 79: Entire article R&RE, p. 1040, § 1, effective June 20. L. 84: IP(1) and (2) amended, p. 772, § 8, effective July 1. L. 98: IP(1) and (1)(a) amended, p. 1014, § 1, effective August 5.

25-7-118. Delayed compliance orders. (1) The division may, after notice and an opportunity for a public hearing, issue an order for any stationary source which specifies a date for final compliance with any requirement of the state implementation plan not later than the date for attainment of any national ambient air quality standard specified in such plan and in no event longer than one year after the date the order was issued, if the requirements of this section are met. If a public hearing is requested by an interested person, the request shall, within twenty days of its receipt, be transmitted to the commission. The commission shall, within sixty days of its receipt of the request, hold a public hearing with respect thereto and, within thirty days of such hearing, issue its decision and order.

(2) An order pursuant to this section may be issued if the order:

(a) Is issued after notice to the public containing the content of the proposed order and after an opportunity for a public hearing thereon;

(b) Contains a schedule and timetable for compliance which requires final compliance as expeditiously as practical, but in no event later than July 1, 1979, or three years after the date for final compliance with such requirement that is specified in the state implementation plan, whichever is later;

(c) In the case of a major stationary source, notifies the source that it will be required to pay a penalty under section 25-7-115 in the event such stationary source fails to achieve final compliance by July 1, 1979, or by such later date as is specified in the order in accordance with section 25-7-115;

(d) Requires emission monitoring and reporting by the stationary source;

(e) Requires the stationary source to use the best practical system of emission reduction for the period during which such order is in effect and requires the stationary source to comply with such interim requirements as the division or commission determines are reasonable and practical.

(3) If any stationary source not in compliance with any requirement of the state implementation plan gives notice to the division or commission that such stationary source intends to comply by means of replacement of the facility, a complete change in its production process, or a termination of its operations, the division or commission may issue an order under this section permitting the stationary source to operate until July 1, 1979, without any interim schedule of compliance. As a condition of the issuance of any such order, the owner or operator of such stationary source shall post a bond or other surety in an amount equal to the cost of actual compliance by such facility and any economic value which may accrue to the owner or operator of such stationary source by reason of the failure to comply. If the owner or operator of a stationary source for which the bond or other surety required by this subsection (3) has been posted fails to replace the facility, change the production process, or terminate the operations as specified in the order by the required date, the owner or operator shall immediately forfeit on the bond or other surety, and the commission shall have no discretion to modify the order under this subsection (3) or to compromise the bond or other surety.

(4) Any order pursuant to this section shall be terminated if the commission determines, after notice and a hearing, that the inability of the stationary source to comply no longer exists. If the owner or operator of the stationary source to which the order is issued demonstrates that prompt termination of such order would result in undue hardship, the termination shall become effective at the earliest practicable date on which such undue hardship would not result but in no event later than the date required under this section.

(5) (a) If, on the basis of any information available to it, the division has reason to believe that a stationary source to which an order has been issued pursuant to this section is in violation of any requirement of such order or of any provision of this section, it shall notify the commission and the owner or operator of the alleged violation and may revoke such order or may commence an appropriate enforcement action pursuant to this article, or both.

(b) The owner or operator shall respond as provided in section 25-7-115, and, within sixty days after receipt of such notice, the division shall issue a determination thereon. If the division determines that the stationary source is in violation of any requirement of such order or of any provision of this section, it shall revoke such order and enforce compliance

with the requirement with respect to which such order was granted or shall order payment of a penalty as provided in section 25-7-115, or both.

(6) During the period of the order issued under this section and when the owner or operator is in compliance with the terms of such order, no other enforcement action pursuant to this article shall be taken against such owner or operator based upon noncompliance during the period the order is in effect with the requirement for the stationary source covered by such order.

(7) Nothing in this section, and no delayed compliance order granted pursuant to this section, shall be construed to prevent or limit the application of the emergency provisions of section 25-7-112 or 25-7-113. No order issued under this subsection (7) shall prevent the state from assessing penalties nor otherwise affect or limit the state's authority to enforce under other provisions of this article.

ANNOTATION

Law reviews. For article, "The Limits of the Law: Functional Failures of the Air Pollution Variance Board", see 44 U. Colo. L. Rev. 513 (1974). For article, "Liabilities of Nonoperating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

Applied in *CF&I Steel Corp. v. Colo. Air Pollution Control Comm'n*, 199 Colo. 270, 610 P.2d 85 (1980).

25-7-119. Hearings. (1) Not less than fifteen calendar days after a hearing has been requested as provided in this article, the commission shall grant such request and set a time and place therefor not more than ninety calendar days following receipt of such request, unless a shorter period is otherwise specifically provided for in this article. Notice of such hearing shall be printed in a newspaper of general circulation in the area in which the proposed project or activity is located at least thirty days prior to the date of said hearing.

(2) The division shall appear as a party in any hearing before the commission and shall have the same rights to judicial review as any other party.

(2.5) The division or the federal environmental protection agency, or both, may appear as parties pursuant to subsection (5) of this section in any hearing before the commission. The federal environmental protection agency is encouraged to participate in the hearing process early and often so that its interpretations are heard. If the federal environmental protection agency does not comply with the provisions of this subsection (2.5), the commission may not receive evidence from such agency in any hearing related to stationary sources conducted pursuant to this section, and any subsequent opinions by such agency shall carry no weight before the commission or in any judicial proceeding.

(3) All testimony taken at any such hearing before the commission shall be under oath or affirmation. A full and complete record of all proceedings and testimony presented shall be taken and filed. The stenographer shall furnish, upon payment and receipt of any fees allowed therefor, a certified transcript of the whole or any part of the record to any party in such hearing requesting the same.

(4) Any information relating to secret processes or methods of manufacture or production which may be required, ascertained, or discovered shall not be publicly disclosed in public hearings or otherwise and shall be kept confidential by any member, officer, or employee of the commission or the division. Any person seeking to invoke the protection of this subsection (4) in any hearing shall bear the burden of proving its applicability. Except as provided in the federal act, information claimed to be related to secret processes or methods of manufacture or production but which constitutes emission data may not be withheld as confidential; except that such information may be submitted under a claim of confidentiality, and the division shall not disclose any such information to the public unless required under the federal act.

(5) At any hearing, any person who is affected by the proceeding and whose interests are not already adequately represented shall have the opportunity to be a party thereto upon prior application to and approval by the commission in its sole discretion, as deemed reasonable and proper by said commission, and such person shall have the right to be heard and to cross-examine any witness.

(6) After due consideration of the written and oral statements, the testimony, and the arguments presented at any such hearing, the commission shall make its findings and order, based upon evidence in the record, or make such determination of the matter as it shall deem appropriate, consistent with the provisions of this article and any rule, regulation, or determination promulgated by the commission pursuant thereto. Unless a time period is otherwise specifically provided for in this article, such finding and order or determination shall be made within thirty calendar days after the completion of such hearing.

(7) In all proceedings before the commission with respect to any alleged violation of any provision of this article, regulation of the commission, order or permit or terms or conditions thereof, or requirement of the state implementation plan, the burden of proof shall be upon the division.

(8) The applicant for a permit or delayed compliance order, or any modification thereof, and the petitioner for any amendment to the state implementation plan shall bear the burden of proof with respect to the justification therefor and the information, data, and analysis supportive thereof or required with respect to such application or petition.

(9) Repealed.

(10) Every hearing granted by the commission shall be conducted by the commission, and every hearing shall comply with the provisions of this article and the provisions of article 4 of title 24, C.R.S.

ANNOTATION

Law reviews. For article, "The Limits of the Law: Functional Failures of the Air Pollution Variance Board", see 44 U. Colo. L. Rev. 513 (1974). For article, "Liabilities of Nonoperating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

The board or commission possesses unfettered and sole discretion as to granting intervention. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 179 Colo. 223, 499 P.2d 1176 (1972).

Results of visual opacity inspection are admissible. For purposes of a hearing before the air pollution variance board, the results of visual opacity inspection are wholly relevant and admissible. Air Pollution Variance Bd. v. W. Alfalfa Corp., 191 Colo. 455, 553 P.2d 811 (1976).

Visual opacity tests for air pollution meet minimal due process standards and are not so arbitrary or capricious as to foreclose the finding of a violation based upon such tests alone. Air

Pollution Variance Bd. v. W. Alfalfa Corp., 191 Colo. 455, 553 P.2d 811 (1976).

Questions as to such tests rest in discretion of trier of fact. Any question as to the method of conducting a visual opacity inspection, the qualification of the inspector, or the reliability of the testing procedure rests in the sound discretion of the trier of fact. Air Pollution Variance Bd. v. W. Alfalfa Corp., 191 Colo. 455, 553 P.2d 811 (1976).

Former subsection (9) did not require review by commission when variance is denied; rather, this section provides that, upon granting of a variance, the commission must review the variance order to determine whether the variance granted interferes with the attainment of the objectives of the air pollution control act. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 179 Colo. 223, 499 P.2d 1176 (1972).

Applied in CF&I Steel Corp. v. Colo. Air Pollution Control Comm'n, 199 Colo. 270, 610 P.2d 85 (1980).

25-7-120. Judicial review. (1) Any final order or determination by the division or the commission shall be subject to judicial review in accordance with the provisions of this article and the provisions of article 4 of title 24, C.R.S.

(2) Any party may move the court to remand the case to the division or the commission

in the interests of justice for the purpose of adducing additional specified and material evidence and findings thereon; but such party shall show reasonable grounds for the failure to adduce such evidence previously before the division or the commission.

(3) Any proceeding for judicial review of any final order or determination of the division or the commission shall be filed in the district court for the district in which is located the air pollution source affected.

Source: **L. 79:** Entire article R&RE, p. 1044, § 1, effective June 20. **L. 84:** Entire section amended, p. 775, § 11, effective July 1.

ANNOTATION

Law reviews. For article, "The Limits of the Law: Functional Failures of the Air Pollution Variance Board", see 44 U. Colo. L. Rev. 513 (1974). For comment, "Environmental Law — Requirement of Notice in Visual Opacity Readings — Air Pollution Variance Bd. v. Western Alfalfa Corp., 94 S. Ct. 2114 (1974)", see 51 Den. L.J. 603 (1974).

Legislative intent. In prescribing a single local forum for judicial review, the general assembly intended to provide a unified, expedient, and economical means for resolving issues under the air pollution control act. Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

In enacting subsection (3), the general assembly sought to provide a single forum for judicial review of "any" final orders or determinations of the commission, since the legislative judgment was that a single, "local" forum would best ensure proper participation by all those parties which had been joined in the administrative proceeding. Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

Venue in another forum is improper. Where forum for judicial review is properly determined

under subsection (3) of this section, venue in another forum under § 24-4-106 is improper. Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

Every order need not directly affect source. The phrase in subsection (3), "in which is located the air contamination source affected", does not mean that every appealable order or determination arising out of the agency proceeding must directly "affect" the air contamination source. Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

Collateral questions are subject to venue provisions. When an agency proceeding "affects" an air contamination source, then even collateral questions decided in that proceeding will be subject to the venue provisions of subsection (3). Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

Effect of existence of separate ancillary claim. The existence of a separate claim, ancillary to an order properly reviewed under the venue provision of subsection (3), does not create an independent basis for venue in a forum other than that prescribed by subsection (3). Air Pollution Control Comm'n v. District Court, 193 Colo. 146, 563 P.2d 351 (1977).

25-7-121. Injunctions. (1) In the event any person fails to comply with a final order of the division, or the commission, that is not subject to stay pending administrative or judicial review, or in the event any person violates any emission control regulation of the commission, the requirements of the state implementation plan, or any provision of parts 1 to 4 of this article, including any term or condition contained in any permit required under this article, the division or the commission, as the case may be, may request the district attorney for the district in which the alleged violation occurs or the attorney general to bring, and if so requested it is his duty to bring, a suit for an injunction to prevent any further or continued violation.

(2) In any proceedings brought pursuant to this section to enforce an order of the division or the commission, a temporary restraining order or preliminary injunction, if sought, shall not issue if there is probable cause to believe that granting such temporary restraining order or preliminary injunction will cause serious harm to the affected person or any other person and:

(a) That the alleged violation or activity to which the order pertains will not continue or be repeated; or

(b) That granting such temporary restraining order or preliminary injunction would be without sufficient corresponding public benefit.

(3) Notwithstanding any other provision in this section, no action for injunction may be

taken where the source has obtained a renewable operating permit and conducts its operations in compliance with the permit terms, as provided in section 25-7-114.4 (3).

Source: **L. 79:** Entire article R&RE, p. 1044, § 1, effective June 20. **L. 84:** (1) and IP(2) amended, p. 775, § 12, effective July 1. **L. 92:** Entire section amended, p. 1220, § 22, effective July 1.

ANNOTATION

This section deals only with future conduct. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 179 Colo. 223, 499 P.2d 1176 (1972).

Injunctive relief cannot be granted until one violates a final cease-and-desist order, not subject to a stay pending review, which has been issued pursuant to the air pollution control act. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 179 Colo. 223, 499 P.2d 1176 (1972).

Or until notice of violation given. An injunction cannot issue until after notice is given of the alleged violation. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 179 Colo. 223, 499 P.2d 1176 (1972).

Showing of irreparable injury not necessary. The terms of this section do not dictate that a showing of irreparable injury must be made

prior to the granting of an injunction. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 191 Colo. 463, 553 P.2d 800 (1976).

A violation of the air quality standards embodies sufficient injury to the public interest to permit the injunctive remedy. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 191 Colo. 463, 553 P.2d 800 (1976).

Resolution of inconsistencies with C.R.C.P. 65(d). Where the proceeding is a special statutory proceeding under the air pollution control act, any inconsistency regarding the form and scope of an injunction between C.R.C.P. 65(d) and § 25-7-102 is resolved in favor of the statutory section. Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd., 191 Colo. 463, 553 P.2d 800 (1976).

25-7-122. Civil penalties. (1) Upon application of the division, penalties as determined under this article may be collected by the division by action instituted in the district court for the district in which is located the air pollution source affected in accordance with the following provisions:

(a) (Deleted by amendment, L. 92, p. 1220, § 23, effective July 1, 1992.)

(b) Any person who violates any requirement or prohibition of an applicable emission control regulation of the commission, the state implementation plan, a construction permit, any provision for the prevention of significant deterioration under part 2 of this article, any provision related to attainment under part 3 of this article, or any provision of section 25-7-105, 25-7-106, 25-7-106.3, 25-7-106.8, 25-7-106.9, 25-7-108, 25-7-109, 25-7-111, 25-7-112, 25-7-113, 25-7-114.2, 25-7-114.5, 25-7-118, 25-7-206, 25-7-403, 25-7-404, 25-7-405, 25-7-407, 42-4-403, 42-4-404, 42-4-405, 42-4-406, 42-4-407, 42-4-409, 42-4-410, or 42-4-414, C.R.S., shall be subject to a civil penalty of not more than fifteen thousand dollars per day for each day of such violation; except that there shall be no civil penalties assessed or collected against persons who violate emission regulations promulgated by the commission for the control of odor until a compliance order issued pursuant to section 25-7-115 and ordering compliance with the odor regulation has been violated.

(c) Any person failing to comply with the provisions of section 25-7-114.1 shall be subject to a civil penalty of not more than five hundred dollars.

(d) Any person who violates any requirement, prohibition, or order respecting an operating permit issued pursuant to section 25-7-114.3, including but not limited to failure to obtain such a permit or to operate in compliance with any term or condition thereof or to pay the permit fee required under section 25-7-114.7 (2) or commits a violation of section 25-7-109.6 shall be subject to a civil penalty of not more than fifteen thousand dollars per day for each violation.

(e) Any person who violates any provision of section 25-7-139 shall be subject to a civil penalty of not more than one thousand dollars.

(2) (a) In determining the amount of any civil penalty, the following factors shall be considered:

(I) The violator's compliance history;

(II) Good faith efforts on behalf of the violator to comply;

- (III) Payment by the violator of penalties previously assessed for the same violation;
- (IV) Duration of the violation;
- (V) Economic benefit of noncompliance to the violator;
- (VI) Impact on, or threat to, the public health or welfare or the environment as a result of the violation;
- (VII) Malfeasance; and
- (VIII) Whether legal and factual theories were advanced for purposes of delay.

(b) In addition to the factors set forth in paragraph (a) of this subsection (2), the following circumstances shall be considered as grounds for reducing or eliminating civil penalties:

- (I) The voluntary and complete disclosure by the violator of such violation in a timely fashion after discovery of the noncompliance;
- (II) Full and prompt cooperation by the violator following disclosure of the violation including, when appropriate, entering into a legally enforceable commitment to undertake compliance and remedial efforts;
- (III) The existence and scope of a regularized and comprehensive environmental compliance program or an environmental audit program;
- (IV) Substantial economic impact of a penalty on the violator;
- (V) Nonfeasance; and
- (VI) Other mitigating factors.

(c) The imposition of civil penalties may be deferred or suspended where appropriate based on consideration of the factors set forth in this subsection (2).

(3) Notwithstanding any other provision in this section, no action for civil enforcement of this article may be taken where the source has obtained a renewable operating permit and conducts its operations in compliance with the permit terms, as provided in section 25-7-114.4 (3).

Source: **L. 79:** Entire article R&RE, p. 1044, § 1, effective June 20. **L. 84:** (1)(a) and (1)(b) amended, p. 775, § 13, effective July 1. **L. 92:** Entire section amended, p. 1220, § 23, effective July 1. **L. 94:** (1)(b) amended, p. 1640, § 61, effective May 31; (1)(b) amended, p. 2561, § 67, effective January 1, 1995. **L. 2000:** (1)(e) added, p. 763, § 2, effective September 1. **L. 2003:** (1)(b) amended, p. 724, § 4, effective July 1; (1)(b) amended, p. 1026, § 7, effective August 6.

Editor's note: (1) Amendments to subsection (1)(b) by Senate Bill 94-001 and Senate Bill 94-206 were harmonized.

(2) Amendments to subsection (1)(b) by Senate Bill 03-066 and House Bill 03-1053 were harmonized.

ANNOTATION

Legislative intent to impose civil rather than criminal penalties for violation of air pollution control standards is clear from the history of the 1970 air pollution control act. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 191 Colo. 463, 553 P.2d 800 (1976).

The express language of the enforcement provisions belies any contention that the general assembly intended this section to effect criminal rather than civil penalties. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 191 Colo. 463, 553 P.2d 800 (1976).

Civil penalty cannot be imposed until one violates a final cease-and-desist order, not subject to a stay pending review, which has been

issued pursuant to the air pollution control act. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 179 Colo. 223, 499 P.2d 1176 (1972).

Nor until notice of violation given. A civil penalty cannot be imposed until after notice is given of the alleged violation. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 179 Colo. 223, 499 P.2d 1176 (1972).

No provision for jury determination. The air pollution control act contains no provision for trial by a jury or for penalty assessment by a jury. *Lloyd A. Fry Roofing Co. v. Air Pollution Variance Bd.*, 191 Colo. 463, 553 P.2d 800 (1976).

25-7-122.1. Criminal penalties. (1) General provisions. (a) Whenever the division has reason to believe that a person has knowingly, as defined in section 18-1-501 (6), C.R.S., violated any requirement or prohibition of an applicable emission control regulation of the commission, state implementation plan, permit required under this article, or any provision for the prevention of significant deterioration under part 2 of this article, any provision related to attainment under part 3 of this article, or any provision of section 25-7-105, 25-7-106, 25-7-106.3, 25-7-106.8, 25-7-106.9, 25-7-108, 25-7-109, 25-7-111, 25-7-112, 25-7-113, 25-7-114.2, 25-7-114.5, 25-7-118, 25-7-206, 25-7-403, 25-7-404, 25-7-405, 25-7-407, 42-4-403, 42-4-404, 42-4-405, 42-4-406, 42-4-407, 42-4-409, or 42-4-410, C.R.S., the division may request either the attorney general or the district attorney for the district in which the alleged violation occurs to pursue criminal penalties under this section.

(b) Except for those violations identified in paragraph (c) of this subsection (1) and subsections (2) and (3) of this section, any person who knowingly, as defined in section 18-1-501 (6), C.R.S., violates any requirement or prohibition of an applicable emission control regulation of the commission, state implementation plan, permit required under this article, or any provision for the prevention of significant deterioration under part 2 of this article, any provision related to attainment under part 3 of this article, or any provision of section 25-7-105, 25-7-106, 25-7-106.3, 25-7-106.8, 25-7-106.9, 25-7-108, 25-7-109, 25-7-109.6, 25-7-111, 25-7-112, 25-7-113, 25-7-114.2, 25-7-114.5, 25-7-118, 25-7-206, 25-7-403, 25-7-404, 25-7-405, 25-7-407, 42-4-403, 42-4-404, 42-4-405, 42-4-406, 42-4-407, 42-4-409, or 42-4-410, C.R.S., is guilty of a misdemeanor, and upon conviction thereof, may be punished by a fine of not more than twenty-five thousand dollars per day for each day of violation. Upon a second conviction for a violation of this paragraph (b) within two years, the maximum punishment shall be doubled.

(c) Except for those violations identified in paragraph (b) of this subsection (1) and subsections (2) and (3) of this section, any person who knowingly, as defined in section 18-1-501 (6), C.R.S., violates any requirement, prohibition, or order respecting an operating permit issued pursuant to section 25-7-114.3, including but not limited to failure to obtain such a permit or to operate in compliance with any term or condition thereof or to pay the permit fee required under section 25-7-114.7 (2) is guilty of a misdemeanor, and upon conviction thereof, may be punished by a fine of not more than twenty-five thousand dollars per violation per day. Upon a second conviction for a violation of this paragraph (c) within two years, the maximum punishment shall be doubled.

(2) **False statements.** Any person who knowingly, as defined in section 18-1-501 (6), C.R.S., makes any false material statement, representation, or certification in, or omits material information from, or knowingly alters or conceals any notice, application, record, report, plan, or other document required pursuant to this article to be either filed or maintained or falsifies, tampers with, or renders inaccurate any monitoring device or method required to be maintained or followed under this article is guilty of a misdemeanor, and upon conviction thereof, may be punished by a fine of not more than twelve thousand five hundred dollars for each instance of violation. Upon a second conviction for a violation of this subsection (2) within two years, the maximum punishment shall be doubled.

(3) (a) **Knowing endangerment.** Any person who knowingly, as defined in section 18-1-501 (6), C.R.S., releases into the ambient air any hazardous air pollutant listed pursuant to section 112 of the federal act, or any other hazardous air pollutant as defined by this article, and who knows at the time that such action thereby places another person in imminent danger of death or serious bodily injury is guilty of a felony, and upon conviction thereof, may be punished by a fine of not more than fifty thousand dollars per day for each day of violation, or by imprisonment for not more than four years, or by both such fine and imprisonment. Any person committing such violation which is an organization shall, upon conviction under this subsection (3), be subject to a fine of not more than one million dollars for each such violation. Upon a second conviction for a violation of this subsection (3), the maximum punishment shall be doubled. For any air pollutant for which an emissions standard has been set, or for any source for which an operating permit has been issued under this article, a release of such pollutant in accordance with that standard or permit shall not constitute a violation of this subsection (3).

(b) In determining whether a defendant who is an individual knew that the violation placed another person in imminent danger of death or serious bodily injury:

(I) The defendant is responsible only for actual awareness or actual belief possessed; and

(II) Knowledge possessed by a person other than the defendant, but not by the defendant, may not be attributed to the defendant.

(c) (I) It is an affirmative defense to a prosecution that the conduct charged was freely consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of:

(A) An occupation, a business, or a profession; or

(B) Medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent.

(II) The defendant may establish an affirmative defense under this paragraph (c) by a preponderance of the evidence.

(d) Any person who negligently, as defined in section 18-1-501 (3), C.R.S., violates any requirement or prohibition of an applicable emission control regulation of the commission, state implementation plan, permit required under this article, or any provision for the prevention of significant deterioration under part 2 of this article, is guilty of a misdemeanor and, upon conviction thereof, may be punished by a fine of not more than twelve thousand five hundred dollars per day for each day of violation.

(4) All general defenses, affirmative defenses, and bars to prosecution that may apply with respect to other criminal offenses may apply under this section and shall be determined by the courts of this state according to the principles of common law as they may be interpreted in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed in the light of reason and experience.

(5) For purposes of this section, unless the context otherwise requires:

(a) "Organization" means a legal entity, other than a government, established or organized for any purpose, and such term includes a corporation, company, association, firm, partnership, joint-stock company, foundation, institution, trust, society, union, or any other association of persons.

(b) "Person" includes, in addition to the entities referred to in section 25-7-103 (19), any responsible corporate officer.

(c) "Serious bodily injury" means bodily injury which involves a substantial risk of death, unconsciousness, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

Source: **L. 92:** Entire section added, p. 1223, § 25, effective July 1. **L. 94:** (1)(a) and (1)(b) amended, p. 2561, § 68, effective January 1, 1995. **L. 96:** (1)(a) and (1)(b) amended, p. 1472, § 21, effective June 1. **L. 2003:** (1)(a) and (1)(b) amended, p. 725, § 5, effective July 1.

25-7-122.5. Enforcement of chlorofluorocarbon regulations. (1) Whenever the division has reason to believe that any person has violated the rules and regulations promulgated pursuant to section 25-7-105 (11), the division may issue a notice of violation or a cease-and-desist order. Such notice or order shall set forth the rule or regulation alleged to have been violated, the facts constituting such violation, and any measures which the person is required to take. In addition, if the division finds that a person is in violation of any rule or regulation promulgated pursuant to section 25-7-105 (11), it may assess a fine of up to one thousand dollars for each violation.

(2) Any person who has been issued a notice of violation or a cease-and-desist order or who has been ordered to pay a fine may request a hearing before the commission to contest the notice, order, or fine. Such request shall be filed within thirty days after the notice or order has been issued or the fine has been assessed. Upon such request, a hearing shall be held before the commission within a reasonable time.

(3) After a hearing pursuant to subsection (2) of this section, any person aggrieved by the determination of the commission may seek judicial review of the commission's order

within thirty days after entry thereof in the district court for the judicial district in which the violation occurred.

(4) All fines collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the general fund.

Source: L. 89: Entire section added, p. 1158, § 4, effective May 26.

25-7-122.6. Administrative and judicial stays. (1) Except with respect to emergency orders issued pursuant to sections 25-7-112 and 25-7-113, and delayed compliance orders issued pursuant to section 25-7-118, any person to whom an order has been issued by the division or the commission, or against whom an adverse determination has been made, may petition the commission or the district court for the district in which is located the air pollution source affected, as appropriate, for a stay of the effectiveness of such order or determination.

(2) Such petitions may be filed prior to any such order or determination becoming final or during any period in which such order or determination is under judicial review.

(3) Such stay shall be granted if there is probable cause to believe:

(a) That the movant will suffer irreparable harm if the motion is denied;

(b) That there will be no irreparable harm to human health, welfare, or the environment if the motion is granted; and

(c) That the movant will succeed on the merits of its case.

(4) Such order shall be stayed pending a final determination of the petition.

Source: L. 92: Entire section added, p. 1223, § 25, effective July 1.

25-7-123. Open burning - penalties. (1) (a) The commission shall adopt a program to control open burning in each portion of the state in which such control is necessary in order to carry out the policies of this article, as set forth in section 25-7-102, and to comply with the requirements of the federal act. Such program shall include emission control regulations and the designation, after public hearing and from time to time, of such portions by legal description.

(b) Open burning in the course of agricultural operations may be regulated only where the absence of regulations would substantially impede the commission in carrying out the objectives of this article. In adopting any program applicable to agricultural operations, the commission shall take into consideration the necessity of conducting open burning. For purposes of this section, "agricultural operations" does not include grassland, forest, or habitat management activities of significant users of prescribed fire conducted on lands the primary purpose of which is nonagricultural, unless a person asserts and the commission finds that the absence of regulation would substantially impede the objectives of this article. Such activities shall be deemed "commercial purposes" within the meaning of paragraph (b) of subsection (3) of this section.

(c) No permit shall be issued by the division pursuant to paragraph (a) of subsection (2) of this section after July 1, 2002, unless such permit is consistent with the comments and recommendations of the commission concerning the planning document, as defined in section 25-7-106 (8) (b) (II), applicable to the area to be burned; except that permit conditions may be excluded from a permit if a significant user of prescribed fire demonstrates and the state finds that such conditions are inconsistent with applicable law. The division shall report all such exclusions, within thirty days after they are granted, to the governor and to the director of the legislative council. In no event shall a permit be issued unless a planning document for the area to be burned has been submitted to the commission for review, public hearing, and comment in accordance with section 25-7-106 (8). The commission shall adopt rules to provide for exceptions from the requirements of section 25-7-106 (8) when immediate issuance of a permit is necessary to protect the public health and safety.

(2) (a) Within such designated portions of the state, no person shall burn or permit to be burned on any open premises owned or controlled by such person, or on any public

street, alley, or other land adjacent to such premises any rubbish, wastepaper, wood, or other flammable material, unless a permit therefor has first been obtained from the division. In granting or denying the issuance of any such permit, the division shall base its action on the location and proximity of such burning to any building or other structure, the potential contribution of such burning to air pollution in the area, climatic conditions on the day of such burning, and compliance by the applicant for the permit with applicable fire protection and safety requirements of the local authority or area.

(b) In all or any part of any portion of the state designated pursuant to subsection (1) of this section, the prohibition contained in this subsection (2) may be suspended by the commission with respect to any particular type or category of open burning upon a finding that enforcement of the prohibition would neither significantly assist in the prevention, abatement, and control of air pollution nor significantly enhance the quality of the ambient air in such designated area.

(3) (a) Any person who violates paragraph (a) of subsection (2) of this section by burning or permitting any burning for noncommercial purposes without first having obtained a permit as required shall be subject to a civil penalty of up to five hundred dollars per day for each day during which such a violation occurs. For a second violation, the civil penalty shall be up to one thousand dollars per day for each day during which such a violation occurs. For a third or subsequent violation, the civil penalty shall be up to one thousand five hundred dollars per day for each day during which such a violation occurs.

(b) Any person who violates paragraph (a) of subsection (2) of this section by burning or permitting any burning for commercial purposes without first having obtained a permit as required shall be subject to a civil penalty of not more than ten thousand dollars per day for each day during which such a violation occurs.

Source: L. 79: Entire article R&RE, p. 1045, § 1, effective June 20. L. 92: Entire section amended, p. 1223, § 24, effective July 1. L. 99: (1)(b) amended and (1)(c) added, p. 790, § 3, effective May 24. L. 2001: (1)(b) and (1)(c) amended, p. 1185, § 3, effective July 1. L. 2010: (3)(a) amended, (HB 10-1042), ch. 209, p. 910, § 4, effective September 1.

25-7-123.1. Statute of limitations - penalty assessment - criteria. (1) (a) Any action pursuant to this section not commenced within five years of occurrence of the alleged violation is time barred.

(b) Without expanding the statute of limitations contained in paragraph (a) of this subsection (1), any action pursuant to this article, except those commenced pursuant to section 25-7-122 (1) (d) or 25-7-122.1 (1) (c), which is not commenced within eighteen months of the date upon which the division discovers the alleged violation is time barred. For purposes of this section, the division discovers the alleged violation when it learns of the alleged violation or should have learned of the alleged violation by the exercise of reasonable diligence, including by receipt of actual or constructive notice.

(c) The five-year period of limitation contained in this section does not apply where information regarding the alleged violation is knowingly or willfully concealed by the alleged violator.

(2) A penalty may be assessed for each day of violation. For purposes of determining the number of days of violation for which a penalty may be assessed under sections 25-7-122 and 25-7-122.1 (1), or an assessment may be made under section 25-7-115 (5), where the division has notified the source of the violation, and the division makes a prima facie showing that the conduct or events giving rise to the violation are likely to have continued or recurred past the date of notice, the days of violation shall be presumed to include the date of such notice and each and every day thereafter until the violator establishes that continuous compliance has been achieved, except to the extent that the violator can prove by a preponderance of the evidence that there were intervening days during which no violation occurred or that the violation was not continuing in nature.

(3) The division may request the district attorney for the district in which the alleged violation or noncompliance, or any part thereof, occurred or may request the attorney general to bring, and if so requested, it is the duty of such official to bring a suit for recovery

or any penalty or nonpayment penalty, with interest, imposed pursuant to section 25-7-122 (civil penalties) or 25-7-122.1 (criminal penalties), if the penalty is not paid when due. The division may not revoke a permit issued pursuant to parts 1 to 4 of this article or certification issued pursuant to part 5 of this article solely for failure to pay penalties when due, unless an order is first issued and all administrative and judicial remedies are pursued unsuccessfully.

Source: L. 92: Entire section added, p. 1223, § 25, effective July 1.

25-7-124. Relationship with federal government, regional agencies, and other states. (1) The commission shall serve as the state agency for all purposes of the federal act and regulations promulgated under said act; except that the department of public health and environment shall accept and supervise the administration of loans and grants from the federal government and from other sources, public or private, which are received by the state for air pollution control purposes.

(2) Repealed.

(3) The department of public health and environment may enter into agreements with any air pollution control agencies of the federal government or other states and with regional air pollution control agencies, but any such agreement involving, authorizing, or requiring compliance in this state with any ambient air quality standard or emission control regulation shall not be effective unless or until the commission has held a hearing with respect to such standard or regulation and has adopted the same in compliance with section 25-7-110.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1) and (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-7-125. Organization within department of public health and environment. The air quality control commission, together with the technical secretary under said commission, shall exercise its powers and perform its duties and functions specified in this article in the department of public health and environment as if the same were transferred to the department by a **type 1** transfer, as such transfer is defined in the “Administrative Organization Act of 1968”, article 1 of title 24, C.R.S.

ANNOTATION

Law reviews. For article, “Synthetic Fuels — Policy and Regulation”, see 51 U. Colo. L. Rev. 465 (1980).

25-7-126. Application of article. (1) The factual or legal basis for proceedings or other actions that shall result from a violation of any emission control regulation inure solely to and shall be for the benefit of the people of the state generally, and it is not intended to create by this article, in any way, new or enlarged private rights, or to enlarge existing private rights, or to diminish private rights. A determination that air pollution exists

or that any standard has been disregarded or violated, whether or not a proceeding or action may be brought by the state, shall not create by reason thereof any presumption of law or finding of fact which shall inure to or be for the benefit of any person other than the state.

(2) Other than section 25-7-112 or 25-7-113, the provisions of this article and regulations adopted under this article shall not apply to air pollution insofar as such pollution exists within the confines of a particular commercial or industrial plant, works, or shop which is the source of air pollution and shall not apply or affect the relations between employers and employees with respect to or arising out of any condition of air pollution.

(3) It is the purpose of this article to provide additional and cumulative remedies to prevent and abate air pollution. Nothing in this article shall abridge or alter rights of action or remedies existing on June 20, 1979, or after said date, nor shall any provision of this article or anything done by virtue of this article be construed as estopping individuals, cities, towns, counties, cities and counties, or duly constituted political subdivisions of the state from the exercise of their respective rights to suppress nuisances.

Source: L. 79: Entire article R&RE, p. 1046, § 1, effective June 20.

25-7-127. Continuance of existing rules and orders. (1) All rules or amendments to existing rules adopted by the commission on or after June 20, 1979, shall be subject to sections 24-4-103 (8) (c) and (8) (d) and 24-4-108, C.R.S.

(2) All actions, orders, and determinations by the division and the state board of health pursuant to article 29 of chapter 66, C.R.S. 1963, as that article existed on January 1, 1970, shall remain in full force and effect until countermanded or modified by the division.

(3) All actions, orders, and determinations of the air pollution variance board created by article 29 of chapter 66, C.R.S. 1963, as that article existed on January 1, 1970, shall remain in full force and effect unless countermanded or modified by said board prior to July 1, 1984, or until countermanded or modified by the commission created by this article.

(4) All actions, orders, and determinations of the air pollution variance board created by this article as it existed prior to June 20, 1979, shall remain in full force and effect unless countermanded or modified by said board prior to July 1, 1984, or until countermanded or modified by the commission created by this article.

(5) All actions, orders, and determinations of the air quality hearings board created by this article as this article existed prior to July 1, 1984, shall remain in full force and effect until countermanded or modified by the commission created by this article.

Source: L. 79: Entire article R&RE, p. 1047, § 1, effective June 20. **L. 80:** (1) amended, p. 788, § 25, effective June 5. **L. 84:** (3) and (4) amended and (5) added, p. 776, § 15, effective July 1.

ANNOTATION

Section held not to constitute "ex post facto" law. *Lloyd A. Fry Roofing Co. v. State*, 179 Colo. 223, 499 P.2d 1176 (1972).

25-7-128. Local government - authority - penalty. (1) Home rule cities, cities, towns, counties, and cities and counties are hereby authorized to enact local air pollution resolutions or ordinances. Every such resolution or ordinance shall provide for hearings, judicial review, and injunctions consistent with sections 25-7-118 to 25-7-121 and shall include emission control regulations which are at least the same as, or may be more restrictive than, the emission control regulations adopted pursuant to this article; except that nothing in this article shall prohibit any such local law from controlling any air pollution or air pollution source which is not subject to control under the provisions of this article and except that no permit issued under any local air pollution law with respect to any facility, activity, or process shall ever be construed to relieve any holder thereof from the duty to maintain such facility, activity, or process in compliance with the emission standards and emission control regulations adopted pursuant to this article nor to relieve the division from

its duty to enforce such emission standards and emission control regulations with respect to such facility, activity, or process. Any local air pollution standards or regulations submitted and approved as revisions to the state implementation plan shall be enforced as such by the division. In order to assure coordination of efforts to control and abate air pollution, local governmental entities are encouraged to submit their adopted plans and regulations as revisions to the state implementation plan for Colorado.

(2) All local air pollution resolutions and ordinances and orders issued pursuant thereto in existence on March 1, 1979, are validated as though adopted pursuant to the authority of subsection (1) of this section; except that, if any such local resolution, ordinance, or order fails to meet the requirements of this article, the governing body under whose authority such resolution, ordinance, or order was promulgated shall have until July 1, 1979, to amend, modify, or repeal the same so that it will meet the requirements of this article, but, if not so amended, modified, or repealed, the same shall be superseded by this article.

(3) To the extent that a local air pollution resolution adopted by a county is more restrictive than an ordinance adopted by any city or town within such county, the county resolution shall apply in lieu of the city or town ordinance to the extent of the inconsistency.

(4) Any local governmental authority enforcing air pollution control regulations which shall issue any enforcement order or grant any permit shall, at the time of such issuance or granting, transmit to the commission a copy of such order or permit.

(5) Application, operation, and enforcement of valid local air pollution laws shall be completely independent of, but may be concurrent with, the application, operation, and enforcement of this article. The appointment of an air pollution control authority by the division shall in no way affect the duties and responsibilities given the same person or agency under a local air pollution law, and the appointment of an air pollution control authority by a local governmental unit shall in no way affect the duties and responsibilities given the same person or agency by the division.

(6) In order to assure coordination of efforts to control and abate air pollution, at least semiannually the commission and each air pollution control authority created by a local air pollution law shall confer and review each other's records concerning the area subject to such local law and coordinate their respective plans and programs for such area.

(7) No local air pollution control authority shall institute any system or program that:

(a) Conflicts with, or is in any way inconsistent with, air pollution emergency plans promulgated by the governor pursuant to section 25-7-112 (2);

(b) Is more stringent than a corresponding state provision with respect to measures to preserve the stratospheric ozone layer;

(c) Is more stringent than a corresponding state provision with respect to hazardous air pollutants; except that this paragraph (c) shall not limit local zoning powers and ordinances enacted pursuant to other authorities under state law;

(d) Does not contain provisions to ensure adequate reimbursement of state compliance and administrative expenses as required by section 25-7-114.7 (2) (a) (I) (C);

(e) Is more stringent than a corresponding state provision with respect to asphalt and concrete plants and crushing equipment;

(f) Imposes less restrictive requirements on its own stationary sources than those imposed on similar nongovernmental sources.

(8) Any person who violates any emission standard or emission control regulation adopted by a local governmental entity, where such local government has not submitted its standards or regulations as revisions to the state implementation plan, shall be subject to a civil penalty of not more than three hundred dollars. Each day during which such a violation occurs shall be deemed a separate offense.

Source: L. 79: Entire article R&RE, p. 1047, § 1, effective June 20. L. 92: (7) amended, p. 1228, § 26, effective July 1; (7) amended, p. 1293, § 4, effective July 1.

Editor's note: Amendments to subsection (7) by Senate Bill 92-105 and House Bill 92-1178 were harmonized.

25-7-129. Disposition of fines and penalties. All receipts from penalties or fines collected under the provisions of sections 25-7-115, 25-7-122, and 25-7-123 shall be credited to the general fund of the state.

Source: L. 79: Entire article R&RE, p. 1049, § 1, effective June 20.

25-7-130. Motor vehicle emission control studies. (1) The department of public health and environment, motor vehicle emission control section of the air pollution control division, and the department of revenue shall develop a continuing joint program for the study of the control of motor vehicle exhaust emissions, including emissions from model year 1975 and later models. Such emission control studies shall include such investigations and evaluations of existing and available motor vehicle emission control equipment and technology and the social problems, economic impacts, effectiveness, and costs involved in the use of such technology in motor vehicle emissions inspections and maintenance programs as they may jointly recommend.

(2) (a) The department of public health and environment, motor vehicle emission control section of the air pollution control division, shall develop a pilot program for the purpose of testing a representative sample of motor vehicles with various vehicle emission control alternatives which may include emission testing and maintenance, air pollution control tune-up, and vehicle modification alternatives as determined by the commission.

(b) Based upon the results of the pilot program and emission control studies, the commission shall develop recommendations for implementing programs of emission testing or mandatory maintenance, or both; air pollution control tune-ups; and vehicle modifications, including altitude modifications and retrofit control systems, for the control of motor vehicle emissions. Such recommendations shall include information on the costs and air pollution control effectiveness of alternate control measures and legislative and regulatory measures necessary to implement an effective program. Any program recommended shall be based upon establishing statewide minimum standards and shall include more stringent standards for motor vehicles registered in air quality control basins defined by the commission.

(3) (Deleted by amendment, L. 96, p. 1259, § 156, effective August 7, 1996.)

(4) and (5) Repealed.

L. 94: (1), (2)(a), and IP(4)(a) amended, p. 2784, § 504, effective July 1. L. 96: (1) and (3) amended, p. 1259, § 156, effective August 7.

Editor's note: Although subsection (4)(c) provided for the repeal of subsection (4), effective December 31, 1993, subsection (4) was inadvertently left in and not shown as being repealed until 1996. (See L. 86, p. 1185.) Subsection (5)(b) provided for the repeal of subsection (5), effective June 30, 1986. (See L. 84, p. 1085.)

Cross references: For the legislative declaration contained in the 1994 act amending subsections (1) and (2)(a) and the introductory portion to subsection (4)(a), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 1996 act amending subsections (1) and (3), see section 1 of chapter 237, Session Laws of Colorado 1996.

25-7-131. Training programs - emission controls. (1) (a) State-employed investigators shall complete a training course and pass qualification tests as developed and approved by the commission, after conferring with the department of revenue, as related to the orientation and basic maintenance procedures on air pollution control systems installed by manufacturers. The commission may waive the requirement for completion of such a training course under such circumstances as the commission deems appropriate. Only inspectors passing said qualification tests shall perform emissions inspections. The commission may require that inspection stations have on hand any equipment necessary to complete emissions inspections as provided for in this section.

(b) Repealed.

(1.1) Repealed.

(2) The training programs provided for by this section shall be oriented toward basic motor vehicle air pollution control systems installed in motor vehicles by the manufacturers and shall be made available to motor vehicle mechanics on a voluntary basis in such air quality control areas as the commission may designate in coordination with educational facilities throughout the state in which it may certify to conduct such training.

(3) and (4) Repealed.

Source: **L. 79:** Entire article R&RE, p. 1049, § 1, effective June 20. **L. 81:** (1) amended and (1.1) added, p. 1944, 1951, §§ 6, 20, effective July 1. **L. 84:** (1)(b) and (1.1) repealed, p. 1080, § 1, effective July 1. **L. 96:** (3) and (4) repealed, p. 1243, § 107, effective August 7.

Cross references: For the legislative declaration contained in the 1996 act repealing subsections (3) and (4), see section 1 of chapter 237, Session Laws of Colorado 1996.

25-7-132. Emission data - public availability. Notwithstanding any other provisions of this article or any other law to the contrary, all emission data received or obtained by the commission or the division shall be available to the public to the extent required by the federal act.

Source: **L. 79:** Entire article R&RE, p. 1050, § 1, effective June 20. **L. 84:** Entire section amended, p. 776, § 16, effective June 20.

25-7-133. Legislative review and approval of state implementation plans and rules - legislative declaration. (1) Notwithstanding any other provision of law but subject to subsection (7) of this section, by January 15 of each year the commission shall certify in a report to the chairperson of the legislative council in summary form any additions or changes to elements of the state implementation plan adopted during the prior year that are to be submitted to the administrator for purposes of federal enforceability. Such report shall be written in plain, nontechnical language using words with common and everyday meaning that are understandable to the average reader. Copies of such report shall be available to the public and shall be made available to each member of the general assembly. The provisions of this section shall not apply to control measures and strategies that have been adopted and implemented by the enacting jurisdiction of a local unit of government if such measures and strategies do not result in mandatory direct costs upon any entity other than the enacting jurisdiction.

(2) (a) By the February 15 following submission of the certified report under subsection (1) of this section, any member of the general assembly may make a request in writing to the chairperson of the legislative council that the legislative council hold a hearing or hearings to review any addition or change to elements of the SIP contained in the report submitted pursuant to subsection (1) of this section. Upon receipt of such request, the chairperson of the legislative council shall forthwith schedule a hearing to conduct such review. Any review by the legislative council shall determine whether the addition or change to the SIP element accomplishes the results intended by enactment of the statutory provisions under which the addition or change to the SIP element was adopted. The legislative council, after allowing a public hearing preceded by adequate notice to the public and the commission, may recommend the introduction of a bill or bills based on the results of such review. If the legislative council does not recommend introduction of a bill under this subsection (2), the addition or change to the SIP element may be submitted under paragraph (b) of this subsection (2). Any bill recommended for consideration under this subsection (2) shall not be counted against the number of bills to which members of the general assembly are limited by law or joint rule of the senate and the house of representatives. If the legislative council does not recommend the introduction of a bill under this paragraph (a), and the member or members of the general assembly that requested such

review will be introducing a bill under the provisions of paragraph (c) of this subsection (2), any such member shall provide written notice to the chairperson of the legislative council within three days after the action by the legislative council not to recommend introduction of a bill. If such member or members provide such written notice, the addition or change to the SIP or any element thereof that is the subject of any such bill may not be submitted to the administrator of the federal environmental protection agency until the expiration of the addition or change to the SIP has been postponed by the general assembly acting by bill or the member or members provide written notice to the chairperson of the executive committee of the legislative council that no bill will be introduced.

(b) Unless a written request for legislative council review of an addition or change to a SIP element is submitted by the February 15 following submission of the report under subsection (1) of this section, or a notice is provided by a member or members that they are introducing a bill under paragraph (c) of this subsection (2) within three days after legislative council action not to introduce a bill under paragraph (a) of this subsection (2), all other additions or changes to a SIP element described in such report shall be submitted to the administrator for final approval and incorporation into the SIP.

(c) Until such February 15 as provided in paragraph (b) of this subsection (2), the commission may only submit an addition or change to the SIP or any element thereof, as defined in section 110 of the federal act, any rule which is a part thereof, or any revision thereto as specified in subsection (1) of this section to the administrator for conditional approval or temporary approval. If legislative council review is requested as to any addition or change to a SIP element under paragraph (a) of this subsection (2), then no such SIP, revision, rule required by the SIP or revision, or rule related to the implementation of the SIP or revision so submitted to the administrator may take effect for purposes of federal enforceability, or enforcement of any kind at the state level against any person or entity based only on the commission's general authority to adopt a SIP under section 25-7-105 (1), unless expiration of the SIP, rule required for the SIP, or addition or change to a SIP element has been postponed by the general assembly acting by bill in the same manner as provided in section 24-4-103 (8) (c) and (8) (d), C.R.S. Any member of the general assembly may introduce a bill to modify or delete all or a portion of the SIP or any rule or additions or changes to SIP elements which are a component thereof. Any bill introduced under this paragraph (c) shall not be counted against the number of bills to which members of the general assembly are limited by law or joint rule of the senate and the house of representatives. Any committee of reference of the senate or the house of representatives to which a bill introduced under this paragraph (c) is referred shall conduct as part of consideration of any such bill on the merits the review provided for under paragraph (a) of this subsection (2). If any bill is introduced under paragraph (a) of this subsection (2) or under this paragraph (c) to postpone the expiration of any addition or change to a SIP element described in a report submitted under subsection (1) of this section or paragraph (d) of this subsection (2), and any such bill does not become law, the addition or change to a SIP element addressed in such bill may be submitted to the administrator of the federal environmental protection agency for final approval and incorporation into the SIP under paragraph (b) of this subsection (2).

(d) Repealed.

(3) In order to further the goals of section 25-7-105.1 in assuring that nonfederally required rules or policies are not submitted to the administrator for inclusion in a SIP, the commission shall, effective July 1, 1995, with respect to any rule or any portion thereof not required by the federal act or which is otherwise more stringent in whole or in part than requirements of the federal act, ensure that the public notice and the general statement of such rule's basis, specific statutory authority, and purpose required by section 24-4-103, C.R.S., in connection with the commission's proposal and promulgation of such rule shall also specifically identify what portion of such rule is not required by provisions of the federal act or is otherwise more stringent than requirements of the federal act.

(4) (a) The general assembly recognizes that the commission must exercise discretion in selecting from available options in developing a cost effective SIP which attains or maintains national ambient air quality standards.

(b) On or before November 15 of each year, the commission, in coordination with designated organizations for air quality planning in local areas, shall provide the legislative council:

(I) A comprehensive listing of additions or changes to elements of the SIP that the commission and local areas will consider during the following calendar year;

(II) The projected schedule for local action and commission consideration of such measures;

(III) (Deleted by amendment, L. 2000, p. 187, § 1, effective March 22, 2000.)

(IV) The statutory deadline, if any, for submittal to the administrator of the change or addition to elements of the SIP and the corresponding federal sanctions or consequences for failure to submit the change or addition to elements of the SIP by the deadline under the federal act; and

(V) A brief description of the principal technical and policy issues and available options presented for decision in each addition or change to elements of the SIP.

(c) The commission, in coordination with designated organizations for air quality planning in local areas, shall communicate regularly with the legislative council regarding each of the SIP elements or revisions thereto scheduled for adoption and submission to the administrator of the United States environmental protection agency.

(5) The information required by paragraph (b) of subsection (4) of this section shall be submitted to the legislative council in the form and manner and accompanied by supporting materials prescribed by the legislative council.

(6) This section is exempt from the provisions of section 24-1-136 (11), C.R.S., and the periodic reporting requirement of this section shall remain in effect until changed by the general assembly acting by bill.

(7) (a) (Deleted by amendment, L. 2003, p. 1973, § 1, effective May 22, 2003.)

(b) Any revisions to the automobile inspection and readjustment program area pursuant to section 42-4-304 (20) (d), C.R.S., that delete specific regions within that portion of the AIR program area that is approved for incorporation into the state implementation plan shall be submitted to the federal environmental protection agency as expeditiously as possible and shall not be subject to further review and approval pursuant to this section; except that the commission shall submit a report pursuant to subsection (1) of this section.

(c) Repealed.

(d) (I) The commission shall request the governor to submit the plan adopted by the commission on March 12, 2004, to reduce the amount of pollutants emitted that create ozone pollution to the federal environmental protection agency for approval and incorporation into the state implementation plan. Passage of this paragraph (d) is in lieu of, and said plan shall be deemed to have satisfied, all review requirements under this section.

(II) A regulated entity that is required to comply with the amendments to regulation number 7 adopted by the air quality control commission on March 12, 2004, to reduce emissions of volatile organic compounds from atmospheric condensate storage tanks shall:

(A) Provide advance notice of the location where it intends to install an emission control unit; and

(B) Indicate whether such unit exceeds the height of the existing equipment at the facility.

(III) The regulated entity shall deliver the notice required pursuant to subparagraph (II) of this paragraph (d) to the local government designee, if any, registered with the Colorado oil and gas conservation commission for receipt of information relating to oil and gas operations within a local jurisdiction, and shall include a phone number for a contact person. If the local jurisdiction does not have a local government designee, the notice shall be provided to the municipal clerk.

(IV) The local government shall, within ten business days after receipt of the notice, notify the regulated entity whether the local government objects to the intended installation of the emission control unit. The objection shall be based on site-specific land use issues and may not be made on a blanket basis to every proposed emission control unit installation within a local jurisdiction. If the local government fails to object within ten business days after submission of the notice, the local jurisdiction is presumed to have approved the

installation of the specified emission control unit, and the regulated entity may commence such installation.

(V) If a local government designee notifies a regulated entity of its objection within ten business days after receipt of the notice of installation of an emission control unit, the regulated entity and the local jurisdiction shall endeavor to informally resolve the matter within an additional ten business days. If such attempt fails, the local jurisdiction shall have ten business days to petition the air quality control commission for an adjudicatory hearing pursuant to section 24-4-105, C.R.S., which petition shall be granted by the commission. The hearing shall be held and the matter decided by the commission or a hearing officer designated by the commission within forty-five calendar days after receipt of the petition by the commission. In ruling on the objection, the commission shall have the authority only to uphold or deny the objection.

(VI) The commission shall determine the procedures and criteria that govern its review of local government objections to the installation of emission control units at atmospheric condensate storage tank facilities, and the process provided thereby shall be the exclusive procedure for such disputes. No other local permit or land use approval shall be required for the installation of such emission control units.

Editor's note: (1) Subsection (2)(d)(II) provided for the repeal of subsection (2)(d), effective July 1, 2001. (See L. 2000, p. 187.) Subsection (7)(c)(IV) provided for the repeal of subsection (7)(c), effective December 31, 2003. (See L. 2003, p. 1973.)

(2) Amendments to subsection (7) by House Bill 03-1313 and House Bill 03-1340 were harmonized.

25-7-133.5. Approval or rescission of specific revisions to state implementation plan (SIP) after 1996. (1) Consistent with the provisions of section 25-7-105.1, to the extent senate bill 96-129 and senate bill 96-236, enacted at the second regular session of the sixtieth general assembly, approved submitting portions of air quality control commission regulation 1, section VI, to the federal environmental protection agency for inclusion in the state implementation plan, such approval is hereby rescinded. The inclusion of said regulation 1 in the Denver metropolitan nonattainment area state implementation plan for particulate matter (PM-10) is not affected by this rescission.

(2) Pursuant to section 25-7-133, the following revisions to the state implementation plan (SIP), which were adopted by the air quality control commission on the dates indicated and received by the legislative council for review, are approved for incorporation into the state implementation plan:

(a) The 1993 periodic emissions inventory update to the Denver metropolitan, Colorado Springs, Longmont, and Fort Collins carbon monoxide nonattainment area elements of the SIP, adopted by the air quality control commission on December 21, 1995;

(b) The emergency episode plan revisions as a part of the Denver PM-10 nonattainment area element of the SIP, adopted by the air quality control commission on January 18, 1996;

(c) Amendments adopted by the air quality control commission on September 19, 1996, to the Greeley carbon monoxide nonattainment area element of the SIP;

(d) Amendments adopted by the air quality control commission on October 17, 1996, to the Canon City PM-10 nonattainment area element of the SIP;

(e) Amendments adopted by the air quality control commission on October 17, 1996, to the Steamboat Springs PM-10 nonattainment area element of the SIP;

(f) Amendments adopted by the air quality control commission on March 21, 1996, and June 20, 1996, to regulation number 3, concerning air pollution emission notice deferral, insignificant activities, and fugitive emissions;

(g) Amendments adopted by the air quality control commission on June 20, 1996, to regulation number 3, concerning prevention of significant deterioration permits, total suspended particulates, and hydrogen sulfide;

(h) Amendments adopted by the air quality control commission on October 14, 1996, to regulation number 10, concerning general conformity;

(i) Amendments adopted by the air quality control commission on March 21, 1996, to regulation number 11, concerning the inspection and maintenance program;

(j) Repealed.

(k) Amendments adopted by the air quality control commission on October 24, 1996, to regulation number 5, concerning the generic banking emissions/trading rules and conforming revisions to regulation number 3, part 4, section V;

(l) Amendments adopted by the air quality control commission on December 21, 1995, to regulations number 1 and 7, and the common provisions concerning negligibly reactive volatile organic compounds and delisting of acetone;

(m) Amendments adopted by the air quality control commission on December 23, 1996, to regulation number 1, concerning opacity limitations and sulfur dioxide averaging provisions for coal-fired electric utility boilers during periods of startup, shutdown, and upset;

(n) Repealed.

(o) Amendments adopted by the air quality control commission on April 17, 1997, to the motor vehicle emissions inspection program in all carbon monoxide nonattainment areas in the state (Boulder, Colorado Springs, Denver, and Greeley) under the carbon monoxide nonattainment area element of the SIP;

(p) Amendments adopted by the air quality control commission on January 15, 1998, redesignating Colorado Springs as an attainment area for carbon monoxide and adopting a corresponding maintenance plan;

(q) Amendments adopted by the air quality control commission on December 18, 1997, to the Longmont carbon monoxide maintenance plan;

(r) Amendments adopted by the air quality control commission on April 17, 1997, concerning long-term strategy for the element of the SIP relating to visibility in class I areas;

(s) Amendments adopted by the air quality control commission on November 21, 1996, to regulations number 3, 7, and 8 and common provisions, concerning negligibly reactive volatile organic compounds and regulated hazardous air pollutants;

(t) Amendments adopted by the air quality control commission on September 17, 1998, to regulation number 1, section II. D., concerning military smokes and obscurants training exercises;

(u) Amendments adopted by the air quality control commission on October 15, 1998, to regulation number 7, concerning emissions of volatile organic compounds;

(v) Amendments adopted by the air quality control commission on October 15, 1998, to regulation number 10, concerning conformity of federally funded or approved transportation plans with air quality implementation plans;

(w) Amendments adopted by the air quality control commission on November 19, 1998, to regulation number 11, part F (III), concerning the motor vehicle emissions inspection program for the Denver-Boulder area;

(x) Amendments adopted by the air quality control commission on January 16, 1998, to regulation number 12, concerning reduction of diesel vehicle emissions;

(y) Repealed.

(z) Amendments adopted by the air quality control commission on January 16, 1998, to section 1.11.0 of the procedural rules of the air pollution control division;

(aa) Amendments adopted by the air quality control commission on September 17, 1998, concerning ambient air quality standards for suspended particulate matter; and

(bb) (I) The "Colorado Visibility and Regional Haze State Implementation Plan for the Twelve Mandatory Class I Federal Areas in Colorado", adopted by the air quality control commission on January 7, 2011.

(II) The automatic expiration of the rules contained in the plan specified in subparagraph (I) of this paragraph (bb) that were adopted on January 7, 2011, and that are therefore scheduled for expiration on May 15, 2012, is postponed, effective May 15, 2011.

(3) Revisions to the SIP that are adopted solely to conform the SIP to prior actions of the general assembly under section 25-7-133 and this section may be submitted to the federal environmental protection agency for final approval under section 25-7-133 (2) without further approval by the general assembly under section 25-7-133 or this section.

(4) If the division and the designated organization for air quality planning in the Colorado Springs area request removal of mandatory control measures that have been adequately demonstrated to be unnecessary to achieve and maintain compliance with the federal ambient air quality standards and request corresponding modifications to the mobile source emission budget, the commission shall adopt such revisions to the carbon monoxide maintenance plan for the Colorado Springs area approved pursuant to paragraph (p) of subsection (2) of this section. Notwithstanding section 25-7-133, such revisions shall be submitted to the federal environmental protection agency for incorporation into the state implementation plan as expeditiously as possible and shall not be subject to further review and approval pursuant to section 25-7-133.

(5) Revisions to the visibility component of the SIP that implement and enforce a control strategy that meets the following requirements may be submitted to the United States environmental protection agency for incorporation into the SIP as expeditiously as possible without further review and approval pursuant to section 25-7-133:

(a) On or before November 1, 2001, one or more sources have entered into a consent decree in which such sources make a judicially enforceable commitment to adopt such control strategy; and

(b) The division determines that such control strategy provides for reasonable progress:

(I) Toward the national visibility goal stated in federal rules set forth at 40 CFR part 51, subpart P, and in rules of the division set forth at 5 CCR 1001-5, as said rules provided on January 1, 2001; and

(II) In reducing any present or future impairment of an air-quality-related value.

(6) Notwithstanding the provisions of section 25-7-133, revisions to the Denver metropolitan area element of the PM-10 state implementation plan adopted by the commission on April 19, 2001, are approved for incorporation into the state implementation plan, shall be submitted to the federal environmental protection agency as expeditiously as possible, and shall not be subject to further review and approval pursuant to section 25-7-133.

25-7-135. Ozone protection fund created. (1) There is hereby created in the state treasury an ozone protection fund, which shall consist of fees collected pursuant to section 25-7-105 (11). In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of moneys in the fund shall be credited to the general fund. Any moneys not appropriated by the general assembly shall remain in the ozone protection fund and shall not be transferred or revert to the general fund of the state at the end of any fiscal year.

25-7-136. Air pollution data collection and technical evaluation - repeal. (Repealed)

Source: L. 95: Entire section added, p. 1118, § 1, effective May 31. L. 96: IP(3)(a), (3)(a)(I), (3)(b)(I)(A), (3)(b)(II), and (4) amended and (3)(a.5) and (3.5) added, pp. 800, 802, §§1, 2, effective May 23.

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 1999. (See L. 96, p. 802.)

25-7-137. Requirements for legislative approval of Grand Canyon visibility transport commission or successor body advisory recommendations, reports, and interpretations. (1) The general assembly hereby finds, determines, and declares:

(a) That the Grand Canyon visibility transport commission (GCVTC) was created pursuant to section 169B of the federal act to issue a report directed toward protecting visibility in the Grand Canyon national park;

(b) That the GCVTC's tasks assigned under the federal act have been completed, and a successor body is being proposed;

(c) That protecting visibility is important to the people of Colorado, is an interstate issue, and is highly technical, complex, and subject to varying interpretations; and

(d) That the provisions of this section are enacted to preserve Colorado sovereignty and to enhance public notice and awareness of the GCVTC or its successor bodies' advisory recommendations, reports, or interpretations, and to ensure public confidence in the fairness of the implementation of any Colorado requirements.

(2) The governor or the governor's designee is encouraged to attend and participate in the successor body to the GCVTC. A stakeholder process shall be implemented to include representatives of the general assembly. The governor shall provide an annual report of the activities of the GCVTC or its successor bodies to the general assembly until such time as the governor has forwarded to the federal environmental protection agency notification that the state shall comply with the provisions of Title 40, code of federal regulations, part 51.308, adopted in accordance with the federal act. The goal of this process is to protect the interest of Colorado over air quality issues.

(3) No final recommendation or report or other action of the GCVTC or its successor bodies may impose any new or different requirements upon the regulated community or citizens of the state of Colorado unless approved or enacted by the general assembly acting by bill.

Source: L. 97: Entire section added, p. 1625, § 1, effective August 6. L. 2000: (2) amended, p. 1552, § 29, effective August 2.

25-7-138. Housed commercial swine feeding operations - waste impoundments - odor emissions - fund created. (1) All new or expanded anaerobic process wastewater vessels and impoundments, including, but not limited to, treatment or storage lagoons, constructed or under construction for use in connection with a housed commercial swine feeding operation as defined in section 25-8-501.1 (2) (b) shall be covered, or operated with technologies or practices that are as effective as covers at minimizing odor from the operation, to capture, recover, incinerate, or otherwise manage odorous gases to minimize, to the greatest extent practicable, the emission of such gases into the atmosphere. The housed commercial swine feeding operation shall submit to the department of public health and environment information sufficient to demonstrate that the technologies and practices used are as effective as covers at minimizing odor from the operation. The housed commercial swine feeding operation shall manage odor emissions such that odor emissions from the operation shall not be detected at or beyond the property boundary after the odorous air has been diluted with seven volumes of odor-free air. The housed commercial swine feeding operation shall manage odor emissions such that odor emissions from the operation shall not be detected at any off-site receptor after the odorous air has been diluted with two volumes of odor-free air. For purposes of this section, “receptor” means any occupied dwelling used as a primary dwelling or its curtilage, a public or private school, or a place of business. As used in this section, “anaerobic” means a waste treatment method that, in whole or in part, does not utilize air or oxygen. All new aerobic impoundments shall employ technologies to ensure maintenance of aerobic conditions or otherwise to minimize the emission of odorous gases to the greatest extent practicable. As used in this section, “aerobic” means a waste treatment method that utilizes air or oxygen.

(2) All existing anaerobic process wastewater vessels and impoundments, including, but not limited to, aeration tanks and treatment or storage lagoons, owned or operated for use in connection with a housed commercial swine feeding operation as defined in section 25-8-501.1 (2) (b) shall be covered, or operated with technologies or practices that are as effective as covers at minimizing odor from the operation, to capture, recover, incinerate, or otherwise manage odorous gases to minimize, to the greatest extent practicable, the emission of such gases into the atmosphere. The housed commercial swine feeding operation shall submit to the department of public health and environment information sufficient to demonstrate that the technologies and practices used are as effective as covers at minimizing odor from the operation. The housed commercial swine feeding operation shall manage odor emissions such that odor emissions from the operation shall not be detected at or beyond the property boundary after the odorous air has been diluted with seven volumes of odor-free air. The housed commercial swine feeding operation shall manage odor emissions such that odor emissions from the operation shall not be detected at any off-site receptor after the odorous air has been diluted with two volumes of odor-free air. For purposes of this section, “receptor” means any occupied dwelling used as a primary dwelling or its curtilage, a public or private school, or a place of business. All existing aerobic impoundments shall employ technologies to ensure maintenance of aerobic conditions or otherwise to minimize the emission of odorous gases to the greatest extent practicable.

(3) The commission shall, by rules promulgated on or before March 1, 1999, require that all housed commercial swine feeding operations employ technology to minimize to the greatest extent practicable off-site odor emissions from all aspects of its operations, including odor from its swine confinement structures, manure and composting storage sites, and odor and aerosol drift from land application equipment and sites.

(4) No new land waste application site or new waste impoundment used in connection with a housed commercial swine feeding operation, shall be located less than:

(a) One mile from an occupied dwelling without the written consent of the owner of the dwelling;

(b) One mile from a public or private school without the written consent of the school’s board of trustees or board of directors; and

(c) One mile from the boundaries of any incorporated municipality without the consent of the governing body of the municipality by resolution. As used in this subsection (4), a

new land waste application site and new waste impoundment are those that were not in use as of June 1, 1998.

(5) The division shall enforce the provisions of this section. The division may delegate enforcement of the provisions of this section to any county or district public health agency. If the division delegates enforcement of this section, the division shall monitor the actions of any county or district public health agency as such actions pertain to enforcement of this section. The division shall assess a housed commercial swine feeding operation an annual fee, not to exceed seven cents per animal, based on the operation's working capacity, to offset the division's direct and indirect costs of enforcement, compliance, and regulation pursuant to this section. This fee shall be designated to fund an inspection and complaint response and enforcement program. By mutual agreement, any county or district public health agency that assists in enforcement of this section shall receive funding to conduct inspections and respond to complaints. As used in this subsection (5), "working capacity" means the number of swine the housed commercial swine feeding operation is capable of housing at any one time. In addition, any person who may be adversely affected by a housed commercial swine feeding operation may enforce these provisions directly against the operation by filing a civil action in the district court in the county in which the person resides.

(6) All moneys collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the housed commercial swine feeding operation fund, which fund is hereby created in the state treasury. The moneys in such fund shall be subject to annual appropriation by the general assembly for the purposes of this section, including the reimbursement of county or district public health agencies for assistance in the enforcement of this section. Any interest earned on moneys in the fund shall remain in the fund and shall not revert to the general fund at the end of any fiscal year.

Source: Initiated 98: Entire section added, effective upon proclamation of the Governor, December 30, 1998. **L. 2005:** (2) and (3) amended, p. 282, § 20, effective August 8. **L. 2006:** (1), (2), and (5) amended and (6) added, p. 1105, § 1, effective May 25. **L. 2010:** (5) and (6) amended, (HB 10-1422), ch. 419, p. 2103, § 118, effective August 11.

Editor's note: (1) This section was contained in an initiated measure that was adopted by the people at the general election held November 3, 1998. The measure enacting this section was effective upon proclamation of the Governor, December 30, 1998.

(2) The vote count on the measure at the general election held November 3, 1998, was as follows:

FOR:	790,852
AGAINST:	438,873

ANNOTATION

Law reviews. For article, "Colorado's Not-So-Little Pig Farms Meet the Big Bad Wolf", see 28 Colo. Law. 85 (June 1999).

25-7-139. Methyl tertiary butyl ether - prohibition - phase-out - civil penalty.

(1) The general assembly finds and declares that methyl tertiary butyl ether ("MTBE") is an oxygenate used in gasoline and other fuel products in this state and in the United States. The general assembly also finds that MTBE may leak into and contaminate groundwater supplies, and that MTBE is water soluble and therefore is difficult and costly to remove from water. MTBE is colorless, tastes and smells like turpentine, and can be tasted and detected by smell at extremely low concentrations. MTBE may be a human carcinogen and poses other potential health risks, including but not limited to memory loss, asthma, and skin irritation.

(2) The general assembly further finds and declares that water is precious and vital to this state's growing population, agricultural industry, and unique environment. Therefore it is the intent of the general assembly in enacting this section to halt further contamination and pollution of this state's groundwater supplies by MTBE.

(3) (a) (I) Except as otherwise provided in this paragraph (a), a person may not sell, offer for sale, or store any fuel product containing or treated with MTBE.

(II) The provisions of this paragraph (a) shall not apply if the presence of MTBE in a fuel product is caused solely by incidental commingling of MTBE with the fuel product during storage or transfer of the fuel product. In no event shall the provisions of this subsection (3) be construed to permit the knowing or willful addition of MTBE to any fuel product.

(b) (Deleted by amendment, L. 2005, p. 283, § 21, effective August 8, 2005.)

(c) For purposes of this section, "fuel product" means gasoline, reformulated gasoline, benzene, benzene, naphtha, benzol, and kerosene and any other volatile and inflammable liquid that is produced, compounded, and offered for sale or used for the purpose of generating power in internal combustion engines or generating heat or light or used for cleaning or for any other similar usage.

(4) Any person who violates the provisions of this section shall be subject to a civil penalty as provided in section 25-7-122 (1) (e).

Source: L. 2000: Entire section added, p. 762, § 1, effective September 1. L. 2005: (3)(a)(I) and (3)(b) amended, p. 283, § 21, effective August 8.

PART 2

PREVENTION OF SIGNIFICANT DETERIORATION PROGRAM

25-7-201. Prevention of significant deterioration program. (1) It is the policy of this state to prevent the significant deterioration of air quality in those portions of the state where the air quality is better than the national ambient air quality standards by means including, but not limited to, the following:

(a) Except as provided in section 25-7-209, in areas designated as Class I, II, or III, pursuant to this article and in accordance with the federal act, increases allowed in air pollutant concentrations over the baseline concentration from the construction of major stationary sources or from major modifications shall, in the case of particulate matter and sulfur dioxide, be the same as those increases established by section 163(b) of the federal act and shall, in the case of any other air pollutants, be the same as those increases established pursuant to section 166(a) of the federal act. For any period other than an annual period, the applicable maximum allowable increase may be exceeded during one such period per year at any one location.

(b) No concentration of an air pollutant shall exceed a national ambient air quality standard.

(c) No major stationary source or major modification shall be constructed unless the requirements of this part 2, as applicable, have been met.

Colorado Prevention of Significant Deterioration of Air Quality Program", see 12 Colo. Law. 1983 (1983).

25-7-202. Definitions. (Repealed)

Source: L. 79: Entire article R&RE, p. 1051, § 1, effective June 20. L. 81: (4)(a), (4)(b), IP(4)(c), (4)(c)(VII), (4)(d), and (5) to (7) amended and (4)(c) and (6.5) added, pp. 1306, 1308, §§ 2, 3, effective May 29. L. 84: (2) amended, p. 776, § 17, effective July 1. L. 92: Entire section repealed, p. 1233, § 41, effective July 1.

25-7-203. State implementation plan - contents. In accordance with Part C (Prevention of Significant Deterioration) of the federal act and this part 2, the commission shall incorporate in the state implementation plan emission limitations, requirements for employment of best available control technology, and such other measures as may be necessary to prevent significant deterioration of ambient air quality in each region, or portion thereof, of the state identified pursuant to section 107(d)(1)(D) or (E) of the federal act.

Source: L. 79: Entire article R&RE, p. 1053, § 1, effective June 20.

25-7-204. Exclusions. (1) The requirements of the state implementation plan for prevention of significant deterioration of ambient air quality shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that:

(a) As to the pollutant, the source or modification is subject to part 3 of this article, and the source or modification would impact no area attaining the national ambient air quality standards (either internal or external to areas designated as nonattainment under section 107 of the federal act); or

(b) (Deleted by amendment, L. 92, p. 1229, § 27, effective July 1, 1992.)

(c) Such emissions would be from a temporary activity which will not have an adverse impact on air quality in any class I area or an area where an allowable increase over the baseline concentration is known to be violated; except that such temporary activities shall be subject to requirements related to the employment of best available control technology; or

(d) Such emissions would not be significant.

(2) The following pollutant concentrations shall be excluded in determining compliance with maximum allowable increases:

(a) Concentrations attributable to the increase in emissions from sources which have converted from the use of petroleum products, natural gas, or both, by reason of an order in effect under sections (2) (a) and (b) of the federal "Energy Supply and Environmental Coordination Act of 1974" (or any superseding legislation) over the emissions from such sources before the effective date of such an order, but not more than five years after the effective date of such an order;

(b) Concentrations attributable to the increase in emissions from sources which have converted from using natural gas by reason of a natural gas curtailment plan in effect pursuant to the federal "Power Act" over the emissions from such sources before the effective date of such plan but not more than five years after the effective date of the plan; and

(c) (Deleted by amendment, L. 92, p. 1229, § 27, effective July 1, 1992.)

(d) Concentrations of particulate matter attributable to an increase in emissions from temporary activity.

Source: L. 79: Entire article R&RE, p. 1053, § 1, effective June 20. **L. 81:** (1)(c) amended and (1)(d) and (2) added, p. 1308, §§ 4, 5, effective May 29. **L. 92:** (1)(b), (2)(b), and (2)(c) amended, p. 1229, § 27, effective July 1.

Cross references: For the "Energy Supply and Environmental Coordination Act of 1974", see Pub.L. 93-319, codified at 15 U.S.C. sec. 791 et seq.

25-7-205. Innovative technology - waivers. The division or the commission may grant a waiver from the best available control technology requirements of this part 2 for proposed new or modified sources in order to encourage the use of an innovative technological system or systems of continuous emission reduction if the administrator of the United States environmental protection agency has delegated such authority and if the division or the commission determines, after notice and opportunity for public hearing, and after securing the consent of the governor of an affected state, to the extent that such consent may be lawfully required by the federal act, that such innovative technological system or systems

of continuous emission reduction have a substantial likelihood of achieving greater continuous emission reduction than the means of emission limitation which, but for such waiver, would be required, or of achieving continuous emission reduction equivalent to that which, but for such waiver, would be required, at a lower cost in terms of energy or economic or nonair quality environmental impact. If a public hearing is requested by an interested person, the request shall, within twenty days after its receipt, be transmitted to the commission. The commission shall, within sixty days after its receipt of the request, hold a public hearing with respect thereto and shall, within thirty days after such hearing, issue its decision.

Source: L. 79: Entire article R&RE, p. 1053, § 1, effective June 20. L. 84: Entire section amended, p. 777, § 18, effective July 1. L. 92: Entire section amended, p. 1229, § 28, effective July 1.

25-7-206. Procedure - permits. (1) Applications for a proposed new or modified source subject to the requirements of this part 2, or any additions to such applications, shall be processed by the division and the commission as provided in sections 25-7-114 to 25-7-114.7.

(2) The owner or operator of a proposed source or modification shall submit all information determined by the division to be reasonably necessary to perform any analysis or make any determination required under this part 2.

(3) The division shall transmit to the administrator of the United States environmental protection agency a copy of each permit application relating to a major stationary source or major modification. Thereafter, the division and the commission shall provide notice to the administrator of the United States environmental protection agency of every action related to the consideration of such permit.

25-7-207. Exemptions. (Repealed)

Source: L. 79: Entire article R&RE, p. 1054, § 1, effective June 20. L. 92: Entire section repealed, p. 1230, § 30, effective July 1.

25-7-208. Area designations. (1) Except as provided in section 25-7-209, all areas of the state shall initially be designated as provided in section 162 of the federal act.

(2) To the extent permitted by section 164 of the federal act, the commission may redesignate any area in the state as a Class I, Class II, or Class III area. The commission shall promulgate rules and regulations in conformity with article 4 of title 24, C.R.S., establishing the procedures for such redesignations; except that:

- (a) Such procedures shall be uniform for all redesignations;
- (b) Any redesignation may be adopted by the commission only after reasonable notice and public hearing;
- (c) All redesignations, except any established by an Indian governing body, shall be specifically approved by the governor, after consultation with the appropriate committees of the general assembly if it is in session or with the leadership of the general assembly if it is not in session, and by resolutions or ordinances enacted by the general purpose unit of local government representing a majority of the residents of the area to be redesignated;
- (d) Any redesignation shall constitute a revision to the state implementation plan and shall be submitted to the administrator of the United States environmental protection agency.

(3) Any redesignations or any denial of an application for redesignation made pursuant to subsection (2) of this section shall be subject to judicial review in accord with section 25-7-120.

Source: L. 79: Entire article R&RE, p. 1054, § 1, effective June 20.

25-7-209. Colorado designated pristine areas for sulfur dioxide. (1) In the following areas which were designated Colorado category I for sulfur dioxide by the commission on October 27, 1977, the increase allowed in sulfur dioxide concentrations over the baseline concentration shall be the same as the increase established by section 163(b) of the federal act for Class I areas:

- (a) National parks:
 - (I) Rocky mountain;
 - (II) Mesa Verde;
 - (III) Great sand dunes;
 - (IV) Black canyon of the Gunnison;
- (b) National monuments:
 - (I) Florissant fossil beds;
 - (II) (Deleted by amendment, L. 2009, (SB 09-292), ch. 369, p. 1971, § 87, effective August 5, 2009.)
 - (III) Colorado;
 - (IV) Dinosaur;
 - (V) (Deleted by amendment, L. 2009, (SB 09-292), ch. 369, p. 1971, § 87, effective August 5, 2009.)
- (c) Forest service wilderness areas:
 - (I) Eagles nest;
 - (II) Flattops;
 - (III) La Garita;
 - (IV) Maroon bells - Snowmass;
 - (V) Mount Zirkel;
 - (VI) Rawah;
 - (VII) Weminuche;
 - (VIII) West elk;
- (d) Forest service primitive areas:
 - (I) Uncompahgre mountain;
 - (II) Wilson mountain;
- (e) Lands administered by the federal bureau of land management in the Gunnison gorge recreation area as of October 27, 1977.

Source: L. 79: Entire article R&RE, p. 1054, § 1, effective June 20. **L. 2009:** (1)(a) and (1)(b) amended, (SB 09-292), ch. 369, p. 1971, § 87, effective August 5.

ANNOTATION

This section's designation of 18 category 1 areas for sulfur dioxide increments which matched Class I increments under federal clean air act clearly intended for variance procedure allowed in § 25-7-207 to be part of a program to

prevent significant deterioration of air quality and to extend class I protection to Colorado's previously designated category I areas. *Environ. Def. Fund v. State Dept. of Health*, 731 P.2d 773 (Colo. App. 1986).

25-7-210. Applicability. Sections 25-7-201 and 25-7-203 to 25-7-206 shall apply only to applications for proposed new major stationary sources and major modifications which are submitted on or after the date of approval by the United States environmental protection agency of the program for prevention of significant deterioration embodied in the state implementation plan.

Source: L. 79: Entire article R&RE, p. 1055, § 1, effective June 20. **L. 92:** Entire section amended, p. 1230, § 31, effective July 1.

25-7-211. Visibility impairment attribution studies. (1) Any visibility impairment reasonable attribution study pertaining to class I areas shall be subject to balanced peer

review by a panel including scientists with appropriate expertise who do not have any substantive involvement with any party, shall be site-specific with respect to any suspected source of impairment and to any impacted area, shall be conducted under the oversight of the division, including, but not limited to, determination of deadlines for such study, and shall utilize study design and data collection and analytical techniques, including, but not limited to, contemporaneous ambient air quality, visibility, and meteorological sampling that allows correlation of the data relevant to any such study. With the exception of emissions from agricultural, horticultural, or floricultural activities that are exempted under section 25-7-109 (8), relevant data shall include a reasonable assessment of the contributions of emissions from reasonably identifiable sources, including natural sources, within the state and region. Any remedy selection must include relevant economic impact data. In order to minimize delay in the process, the study shall proceed as expeditiously as sound science will allow. The cost of any such study shall not be required to be paid by the department of public health and environment.

(2) Nothing in subsection (1) of this section, as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

Source: L. 94: Entire section added, p. 1615, § 1, effective May 31; entire section amended, p. 2619, § 32, effective July 1. L. 2005: Entire section amended, p. 349, § 6, effective August 8.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-7-212. Actions of federal government affecting visibility - evaluation report.

(1) As a part of the state's ongoing development and implementation of a long-term strategy in connection with visibility and air quality related values within class I areas, the division shall evaluate the extent to which the activities of the federal government are directly adversely impacting visibility and air quality related values within a class I area and make a determination whether such entities have taken or are taking all reasonable steps necessary to remedy that impact. At any time, the division may make, and a federal land manager shall respond to, reasonable requests for information necessary for the division to perform such regulation.

(2) The joint public hearing required under section 25-7-105 (4) (a) shall report on the results of the evaluation required under subsection (1) of this section.

(3) (a) The general assembly hereby finds, determines, and declares, after reviewing the factors that contribute to regional haze and visibility impairment in Colorado, that significant contributions to regional haze and visibility impairment emanate from federal lands within the state of Colorado and from federal lands in other parts of the west. For the purpose of addressing regional haze visibility impairment in Colorado's mandatory class I federal areas, the federal land manager of each such area shall develop a plan for evaluating visibility in that area by visual observation or other appropriate monitoring technique approved by the federal environmental protection agency and shall submit such plan for approval to the division for incorporation by the commission as part of the state implementation plan. Such submittal and compliance by the federal land managers shall be done in a manner and at a time so as to meet all present or future federal requirements for the protection of visibility in any mandatory class I federal area. Such plan shall only be approved by the commission if the expense of implementing such a plan is borne by the federal government.

(b) (I) In addition to the plan submitted by each federal land manager pursuant to paragraph (a) of this subsection (3), the responsible federal land management agency shall provide an emission inventory to the commission of all federal land management activities in Colorado or other states that result in the emission of criteria pollutants, including surrogates or precursors for such pollutants, that affect any mandatory class I federal area in Colorado by reducing visibility in such an area. Such emission inventory shall be

submitted to the commission no later than December 31, 2001, and no less frequently than every five years thereafter.

(II) Each emission inventory submitted to the commission shall be subject to approval by the commission pursuant to section 25-7-105 (17). The commission shall exempt from the inventory requirement any sources or categories of sources that it determines to be of minor significance.

(III) The commission shall adopt rules to fully implement the general assembly's intention to exercise state powers to the maximum extent allowed under section 118 of the federal act in requiring each federal land management agency with any presence in the state of Colorado to develop and submit to the division an inventory of emissions from lands, wherever situated, which could have any effect on visibility within mandatory class I federal areas located in Colorado. The commission and the division shall use the information from these emission inventories:

(A) To develop control strategies for reducing emissions within the state of Colorado as a primary component of the visibility long-term strategies for inclusion in the state implementation plan;

(B) In any environmental impact statement or environmental assessment required to be performed under the federal "National Environmental Policy Act of 1969", 42 U.S.C. secs. 4321 to 4347; and

(C) To exercise all powers and processes that exist to seek reductions in emissions outside the state of Colorado that reduce visibility in Colorado mandatory class I federal areas.

(IV) The cost of preparing and submitting inventories pursuant to subparagraph (I) of this paragraph (b) shall be borne by the federal government.

25-7-213. Visibility and air quality related values policy task force. (Repealed)

Source: L. 94: Entire section added, p. 1392, § 4, effective May 25.

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 1995. (See L. 94, p. 1392.)

25-7-214. Visibility impairment subcommittee. (Repealed)

Source: L. 97: Entire section added, p. 933, § 1, effective May 21.

Editor's note: (1) Subsection (2) provided for the repeal of this section, effective January 1, 1998. (See L. 97, p. 933.)

(2) This section was enacted as § 25-7-215 but was renumbered on revision for ease of location.

PART 3

ATTAINMENT PROGRAM

25-7-301. Attainment program. (1) The commission shall develop a program providing for the attainment and maintenance of each national ambient air quality standard in each nonattainment area of the state, in conformity with and as provided in Part D (Nonattainment Program) of the federal act.

(2) Subject to the requirement of subsection (1) of this section:

(a) The attainment program shall be designed to account for and regulate all significant sources of air pollution, including stationary, mobile, and indirect sources, and shall assure that air quality benefits of the control measures utilized bear a reasonable relationship to economic, environmental, and energy impacts and other costs of such measures; and

(b) Control measures required pursuant to the attainment program shall take into consideration the respective contributions of different categories of sources to air pollution, existing control measures, and the availability and feasibility of additional control measures.

Source: L. 79: Entire article R&RE, p. 1055, § 1, effective June 20.

25-7-302. State implementation plan - contents. The attainment program embodied in the state implementation plan may, with respect to proposed new or modified major stationary sources within nonattainment areas which would cause or contribute to a violation of a national ambient air quality standard, provide an allowance for growth while providing reasonable further progress toward attainment, and new sources may be allowed that do not result, individually or in the aggregate, in emissions that exceed the allowance. Particulate matter not of a size or substance to adversely affect public health or welfare shall not be considered in determining whether any applicable growth allowance has been consumed. Modifications to an existing facility within a source may be allowed which are accompanied by emission reduction offsets within the same source sufficient to provide no net increase in emissions of an air pollutant from the source. If an applicable growth allowance has been consumed, the attainment program shall permit sources to be constructed only if emission reduction offsets providing a greater than one-for-one emission reduction are obtained from existing sources sufficient to provide reasonable further progress toward attaining the applicable national ambient air quality standards by the attainment date prescribed under Part D (Nonattainment Program) of the federal act. Any emission offsets required for sulfur dioxide, particulates, and carbon monoxide shall provide a positive net air quality benefit in the area affected by the proposed source.

Source: L. 79: Entire article R&RE, p. 1056, § 1, effective June 20.

25-7-303. Exemptions. (Repealed)

Source: L. 79: Entire article R&RE, p. 1056, § 1, effective June 20. **L. 92:** Entire section repealed, p. 1230, § 32, effective July 1.

25-7-304. Emission reduction offsets. The attainment program shall provide that emission reduction offsets which exceed those otherwise necessary to the granting of a permit under this part 3 may be preserved for sale or use in the future. Any emission reduction offset so preserved for future use and credit shall be specifically identified either in the state implementation plan or in the permit for the source as to which such offset was originally obtained. Any offsets so preserved and identified shall not in any way be condemned or taken under the provisions of articles 1 to 7 of title 38, C.R.S.

Source: L. 79: Entire article R&RE, p. 1056, § 1, effective June 20.

25-7-305. Alternative emission reduction. The attainment program shall provide that upon application of the owner or operator of a stationary source, the commission may approve as a revision to the state implementation plan a proposal to meet the applicable requirements of the state implementation plan for a given air pollutant for two or more facilities or operations within such source through a combination of different requirements which separately may be more or less stringent than the applicable requirements of the state implementation plan; except that the total emissions from such facilities or operations shall not exceed the total emissions allowed by the applicable requirements of the state implementation plan.

Source: **L. 79:** Entire article R&RE, p. 1057, § 1, effective June 20. **L. 84:** Entire section amended, p. 777, § 20, effective July 1.

PART 4

CONTROL OF POLLUTION CAUSED BY WOOD SMOKE

25-7-401. Legislative declaration. The general assembly hereby declares that it is in the interest of the state to control, reduce, and prevent air pollution caused by wood smoke. It is therefore the intent of this part 4 to significantly reduce particulate and carbon monoxide emissions caused by burning wood by developing an evaluation and certification program, in the department of public health and environment, for the sale of wood stoves in Colorado and by encouraging the air quality control commission to continue efforts to educate the public about the effects of wood smoke and the desirability of achieving reduced wood smoke emissions. The general assembly hereby finds that it is beneficial to the state to implement a program of voluntary no-burn days whenever the air quality control division determines that the anticipated level of wood smoke will or is likely to have an adverse impact on the air quality in any nonattainment area in the state.

Source: **L. 84:** Entire part added, p. 779, § 1, effective April 12. **L. 94:** Entire section amended, p. 2785, § 506, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-7-402. Definitions. As used in this part 4, unless the context otherwise requires:

(1) "Evaluate" means to review wood-burning appliances' emission levels, as determined by an independent testing laboratory, and compare the emission levels to the emission performance standards established by the commission under section 25-7-403.

(2) and (3) Repealed.

Source: **L. 84:** Entire part added, p. 779, § 1, effective April 12. **L. 87:** (2) repealed, p. 1144, § 10, effective June 16; (3) repealed, p. 1144, § 10, effective July 1.

25-7-403. Commission - rule-making for wood-burning stoves. (1) The commission shall promulgate rules and regulations to carry out the provisions of this part 4 relating to wood-burning stoves in conformity with the provisions and procedures specified in article 4 of title 24, C.R.S., and which shall become effective only as provided in said article.

(2) (a) In promulgating such rules and regulations, the commission shall:

(I) Set emission performance standards for new wood stoves;

(II) Establish criteria and procedures for testing new wood stoves for compliance with the emission performance standards;

(III) Prescribe the form and content of the emission performance label to be attached to a new wood stove meeting the emission performance standards;

(IV) Establish procedures for administering the program and for collecting fees for the certification of new wood stoves;

(V) Establish fees for certifying new wood stoves at a level such that said fees reflect the direct and indirect costs of administering the program less any general fund or federal grant moneys appropriated to cover the start-up costs of the program;

(VI) Repealed.

(VII) Establish a definition for new wood stoves; and

(VIII) Establish exemptions from the provisions of this subsection (2) of the extent that such exemptions are appropriate.

(b) The moneys collected under this subsection (2) shall be transmitted to the state treasurer, who shall credit the same to the stationary sources control fund established in

section 25-7-114.7 (2) (b). Any moneys not appropriated by the general assembly shall be retained in the stationary sources control fund and shall not revert to the general fund at the end of any fiscal year.

Source: L. 84: Entire part added, p. 780, § 1, effective April 12. L. 87: (1) and (2)(a)(V) amended, (2)(a)(VI) repealed, and (2)(a)(VII) and (2)(a)(VIII) added, pp. 1140, 1141, 1144, §§ 2, 3, 10, effective June 16. L. 92: (2)(b) amended, p. 1231, § 33, effective July 1.

25-7-404. Wood stove testing program established. (1) There is hereby established, in the department of health, an evaluation and certification program for the control of air pollution caused by wood stove emissions, which is designed to significantly reduce particulate and carbon monoxide emissions, referred to in this part 4 as the "program".

(2) The program as implemented by rules and regulations as set forth in section 25-7-403 shall be administered by the air quality control division. The said division shall establish a program that:

(a) Determines whether or not any new wood stove complies with the emission performance standards set by the commission when tested by an independent testing laboratory;

(b) If such new wood stove complies with the emission performance standards, certifies such compliance.

(3) On or after July 1, 1985, a wood stove manufacturer or dealer may request the air quality control division to evaluate the emissions performance of any new wood stove.

(4) Repealed.

Source: L. 84: Entire part added, p. 780, § 1, effective April 12. L. 2005: (4) repealed, p. 283, § 22, effective August 8.

25-7-405. Certification required for sale. (1) On or after January 1, 1987, a person shall not advertise to sell, offer to sell, or sell a new wood stove in Colorado unless:

(a) The particular model of wood stove or the particular configuration of wood stove appliance has been evaluated to determine its emission performance and has been certified by the air quality control division under the program established under this part 4; and

(b) An emission performance label is attached to the wood stove.

Source: L. 84: Entire part added, p. 781, § 1, effective April 12.

25-7-405.5. Resale of used noncertified wood-burning devices - prohibited. On and after January 1, 1993, no used wood-burning device shall be sold or installed in the program area unless such device meets the most stringent standards adopted by the commission pursuant to section 25-7-106.3 (1).

Source: L. 92: Entire section added, p. 1282, § 2, effective May 27; entire section added, p. 1324, § 3, effective May 27.

Editor's note: Amendments to this section by Senate Bill 92-137 and House Bill 92-1321 were harmonized.

25-7-406. Fireplace design program. The air pollution control division shall establish a program to study the ways that differences in the structural design of fireplaces affect emissions. The objective of this program will be to determine those structural designs of fireplaces which effectively minimize emissions. The division shall conduct performance tests of different fireplace designs to identify those designs that minimize emissions.

Source: L. 84: Entire part added, p. 781, § 1, effective April 12.

25-7-407. Commission - rule-making for fireplaces.

(1) to (7) Repealed.

(8) On and after January 1, 1993, any new or remodeled fireplace to be installed in any dwelling in an area subject to wood-burning limitations provided for in section 25-7-106.3 shall be one of the following:

(a) A gas appliance;

(b) An electric device; or

(c) A fireplace or fireplace insert that meets the most stringent emissions standards for wood stoves established by the commission, or any other clean burning device that is approved by the commission.

(9) No regulation promulgated by the commission in accordance with subsection (8) of this section shall apply to any municipality or a county in the AIR program that has in effect, on and after January 1, 1993, an ordinance or building code provision substantially equivalent to the requirement set forth in subsection (8) of this section, as determined by the commission.

(10) Repealed.

Source: **L. 84:** Entire part added, p. 781, § 1, effective April 12. **L. 87:** Entire section R&RE, p. 1141, § 4, effective June 15. **L. 92:** (8), (9), and (10) added, p. 1281, § 1, effective May 27; (8), (9), and (10) added, p. 1323, § 2, effective May 27; (6) amended, p. 1231, § 34, effective July 1. **L. 93:** (10) repealed, p. 1787, § 69, effective June 6.

Editor's note: (1) Amendments to subsection (9) by Senate Bill 92-137 and House Bill 92-1321 were harmonized.

(2) Subsection (10) provided for the repeal of subsections (1) to (7), effective January 1, 1993. (See L. 92, pp. 1281, 1323.)

25-7-407.5. Certification required for sale. (Repealed)

Source: **L. 87:** Entire section added, p. 1142, § 5, effective June 16. **L. 92:** Entire section amended, p. 1283, § 4, effective May 27; entire section amended, p. 1325, § 5, effective May 27.

Editor's note: Subsection (2) provided for the repeal of this section, effective January 1, 1993. (See L. 92, pp. 1283, 1325.)

25-7-408. Required compliance in building codes.

(1) (a) Repealed.

(b) On and after January 1, 1993, every board of county commissioners of a county in the AIR program area which has enacted a building code, and thereafter every board of county commissioners of a county in the AIR program area which enacts a building code, shall, pursuant to section 30-28-201 (2), C.R.S., adopt a building code provision requiring any person who installs or constructs any fireplace to comply with section 25-7-407 (8).

(2) (a) Repealed.

(b) On and after January 1, 1993, every governing body of a municipality in the AIR program area which has enacted a building code, and thereafter every governing body of a municipality in the AIR program area which enacts a building code, shall, pursuant to section 31-15-601 (2), C.R.S., adopt a building code provision requiring any person who installs or constructs any fireplace to comply with section 25-7-407 (8).

(3) Nothing in this article shall prevent a board of county commissioners or a governing body of a municipality from enacting a building code which requires more stringent standards for wood stoves and for fireplaces, if such standards are necessary and reflect technology suitable for commercial application within the meaning of section 25-7-407 (1).

Source: **L. 84:** Entire part added, p. 781, § 1, effective April 12. **L. 87:** Entire section amended, p. 1143, § 6, effective June 16. **L. 92:** (1) and (2) amended, p. 1282, § 3, effective May 27; (1) and (2) amended, p. 1324, § 4, effective May 27.

Editor's note: (1) Amendments to subsections (1) and (2) by Senate Bill 92-137 and House Bill 92-1321 were harmonized.

(2) Subsections (1)(a)(II) and (2)(a)(II) provided for the repeal of subsections (1)(a) and (2)(a), respectively, effective January 1, 1993. (See L. 92, pp. 1282, 1324.)

25-7-409. Voluntary no-burn days. Whenever the air quality control division determines, after investigation, that the level of wood stove emissions anticipated will contribute adversely or is likely to have an adverse impact on the air quality in any nonattainment area in the state, the commission should implement and announce a program of voluntary no-burn days.

Source: L. 84: Entire part added, p. 782, § 1, effective April 12.

25-7-410. Applicability. The provisions of this part 4 do not apply to a used wood stove and shall not apply to any fireplace constructed prior to the date established in section 25-7-407.

Source: L. 84: Entire part added, p. 782, § 1, effective April 12. L. 87: Entire section amended, p. 1143, § 7, effective June 16. L. 2005: Entire section amended, p. 772, § 49, effective June 1.

25-7-411. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that air pollution in the state of Colorado is a threat to the health and welfare of its citizens and that a major contributor to said pollution is wood smoke, which accounts for twenty-five to forty percent of the brown cloud, fifteen to thirty percent of small particulate matter, hereafter referred to as PM 10, up to ten percent of carbon monoxide, and a portion of toxic, cancer-causing chemicals.

(2) The general assembly further finds, determines, and declares that PM 10 particulates created by wood burning threaten the public health in that said particulates are so small that they lodge in persons' lungs and inhibit the body's pulmonary function. Such pollutant is particularly damaging to persons with lung disease, cardiovascular disease, and chronic upper respiratory conditions, to the very young and elderly, and to pregnant women. The brown cloud is a threat to the economic health of the state because it discourages businesses and tourists from coming to Colorado. Wood burning is one of the most easily controllable sources of air pollution. New technologies can dramatically reduce pollution caused by wood burning. In addition, the reduction of wood burning can reduce the amount of fine particulate emissions into the air.

(3) Therefore, the general assembly finds that it is necessary to implement a plan to further reduce wood smoke emissions in the AIR program area and, therefore, enacts sections 25-7-411 to 25-7-413 to encourage and promote the reduction of wood-burning devices and the use of less polluting devices by taking advantage of new technology.

Source: L. 92: Entire section added, p. 1319, § 1, effective May 27.

25-7-412. Definitions. As used in sections 25-7-411 to 25-7-413, unless the context otherwise requires:

(1) "Fireplace insert" means any wood-burning device designed to be installed in an existing fireplace which meets the Phase III standard, as such term is defined in subsection (2) of this section.

(2) "Phase III wood stove" means any wood-burning device that meets the most stringent standards adopted by the commission pursuant to section 25-7-106.3 (1) or any nonaffected wood-burning device that is approved by the commission.

(3) "Program area" means the portions of the six counties in the AIR program area, including Adams, Arapahoe, Boulder, Denver, Douglas, and Jefferson counties.

Source: L. 92: Entire section added, p. 1320, § 1, effective May 27.

25-7-413. Methods for reducing wood smoke in program area. (1) Methods for reducing wood smoke in the program area may be implemented, as follows:

(a) **Voluntary financial incentives.** The lead air quality planning agency for the Denver metropolitan area shall work with other organizations to establish a program of financial incentives to encourage and defray the costs associated with conversions to Phase III wood stoves or to gas or electric devices. The program shall include incentives to use energy efficient devices.

(b) **Educational program.** The lead air quality planning agency for the Denver metropolitan area shall work with public and private organizations to promote the following: The voluntary upgrade of conventional wood-burning stoves to Phase III stoves and the conversion of existing conventional fireplaces to fireplace inserts or to gas or electric devices;

(c) **Voluntary conversions.** (I) The commission shall establish goals for voluntary conversion of wood-burning units to cleaner burning technology to be met by December 31, 1994, and by December 31, 1997. The primary objective of the goals shall be to attain and maintain standards for particulate matter established pursuant to the federal "Clean Air Act", taking into account other strategies adopted in the state implementation plan. The goals established by the commission may not exceed the following maximum levels:

(A) The conversion or nonuse of one hundred thousand conventional wood-burning fireplaces to clean technology by December 31, 1994, and one hundred fifty thousand by December 31, 1997;

(B) The conversion or nonuse of twenty thousand conventional wood stoves to Phase III wood stoves by December 31, 1994, and thirty thousand conversions by December 31, 1997.

(II) The goals established pursuant to subparagraph (I) of this paragraph (c) may be less than the maximum levels if the commission determines that such nonuse or conversions are not necessary to attain and maintain federal particulate matter standards.

(d) **Contingency plan.** (I) In the event that goals established in paragraph (c) of this subsection (1) are not met, or the commission determines that wood-burning controls are necessary to either attain or maintain the standards for particulate matter established pursuant to the 1990 amendments to the federal "Clean Air Act", taking into account other strategies, the commission shall develop and implement a contingency plan.

(II) Prior to the development of the contingency plan, the commission shall contract with an independent contractor to conduct a random survey of the program area to determine public preferences for various wood smoke reduction strategies and shall hold a public hearing before adopting any recommendations concerning wood smoke reduction strategies, which recommendations shall be submitted to the general assembly for action.

(III) Strategies surveyed for public preference and considered by the commission for inclusion in the contingency plan shall include, but need not be limited to, the following:

(A) Charging a fee for residents of dwellings who wish to burn wood in a conventional stove or fireplace and using the fee for conversion incentives, enforcement of rules against burning wood without having paid a fee, and monitoring for compliance with rules;

(B) Conversion to clean burning devices upon the sale of a dwelling unit containing a conventional fireplace or non-Phase III wood stove;

(C) Removal of the exemption for primary heat sources on no-burn days;

(D) A permit-to-burn program with a maximum number of permits determined by the commission and issued in a random but proportional manner throughout the program area.

(2) **Verifying voluntary conversions.** To measure and verify progress in regard to the provisions of subsection (1) of this section, the commission shall do the following:

(a) The commission shall develop measures for obtaining from consumers in the program area pledges not to use any device other than a Phase III wood stove, fireplace insert, or a gas or electric fireplace; and

(b) The department of revenue shall adopt a procedure for tracking conversions of non-Phase III wood stoves and fireplaces and, if applicable, the number of non-Phase III wood stoves permanently destroyed, which procedure shall include a requirement that retailers regularly submit to the commission the number of consumer purchases of Phase III wood stoves or inserts or gas or electric fireplaces.

(3) **Wood smoke reduction fee - termination.** (a) On and after July 1, 1992, any retailer who sells a new wood stove or insert or a gas or electric fireplace or fireplace that uses a gas or electric device in the program area shall obtain from the purchaser a signed conversion form, which form shall be provided by the department of revenue, or an entity with which the department is hereby authorized to contract, affirming the purchase of such device and indicating whether the purchase is in connection with a conversion to a cleaner burning device. In addition to obtaining the signed conversion form, the retailer shall submit to the department of revenue in accordance with paragraph (b) of this subsection (3) a fee in the amount of one dollar.

(b) On and after July 1, 1992, and in accordance with paragraph (c) of this subsection (3), the retailer shall submit to the department of revenue the conversion form along with the fee described in paragraph (a) of this subsection (3). The department of revenue shall transmit the fee to the state treasurer who shall credit the same to the wood smoke reduction fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly to the department of revenue to cover the direct and indirect costs of developing a conversion form in accordance with paragraph (a) of this subsection (3), tracking conversion in accordance with paragraph (a) of this subsection (3) and paragraph (b) of subsection (2) of this section, and for the department of public health and environment to conduct a survey in connection with the implementation of a contingency plan in accordance with paragraph (d) of subsection (1) of this section; except that no moneys shall be used for conducting a survey in connection with the implementation of a contingency plan in accordance with paragraph (d) of subsection (1) of this section without specific approval by the joint budget committee. In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of this fund shall be credited to the general fund. The department of revenue, or the entity with which the department has contracted pursuant to paragraph (a) of this subsection (3), shall submit a report to the commission on the number of conversions no later than thirty days after receiving reports from retailers in accordance with paragraph (c) of this subsection (3).

(c) The retailer shall submit semi-annual reports to the department of revenue no later than on the twentieth day of the month after the close of the preceding six-month period together with the conversion forms and the remittance for all fees collected for the preceding six-month period. If no fees are submitted by the retailer, no report is necessary.

(d) Effective July 1, 1997, the wood smoke reduction fund and the wood smoke reduction fee are eliminated, and the following provisions shall apply:

(I) A retailer within the program area that sells a new wood stove or insert, or a gas or electric fireplace that uses a gas or electric device, between January 1, 1997, and June 30, 1997, shall submit a final semi-annual report to the department of revenue no later than July 20, 1997, together with:

(A) Signed conversion forms indicating whether such purchases were made in connection with a conversion to a cleaner burning device; and

(B) A remittance of the wood smoke reduction fees collected during such period.

(II) A retailer who does not have fees to remit pursuant to sub-subparagraph (B) of subparagraph (I) of this paragraph (d) need not file a final semi-annual report.

(III) Moneys held by the state treasurer in the wood smoke reduction fund on July 1, 1997, and any moneys credited to the fund on or after such date shall be transferred to the general fund.

(4) **Commission - rule-making.** The commission may promulgate rules necessary for the effectuation of this section.

(5) Repealed.

PART 5

ASBESTOS CONTROL

Editor's note: This part 5 was added in 1985 and was not amended prior to 1987. The substantive provisions of this part 5 were repealed and reenacted in 1987, resulting in the addition, relocation, and elimination of sections as well as subject matter. For the text of this part 5 prior to 1987, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

Law reviews: For article, "Recovering Asbestos Abatement Costs in Tort Actions", see 19 Colo. Law. 659 (1990).

25-7-501. Legislative declaration. (1) The general assembly hereby declares that it is in the interest of the general public to control the exposure of the general public to friable asbestos. It is the intent of the general assembly to ensure the health, safety, and welfare of the public by regulating the practice of asbestos abatement in locations to which the general public has access for the purpose of ensuring that such abatement is performed in a manner which will minimize the risk of release of asbestos. However, it is not the intent of the general assembly to regulate occupational health practices which are regulated pursuant to federal laws or to grant any authority to the department of public health and environment to enter and regulate work areas where general public access is limited. It is the intent of the general assembly that the commission may adopt regulations to permit the enforcement of the national emission standards for hazardous air pollutants as set forth in 42 U.S.C. sec. 7412.

(2) Therefore, the general assembly determines and declares that the enactment of this part 5 is a matter of statewide concern to achieve statewide uniformity in the regulation of such asbestos abatement practices and uniformity in the qualifications for and certification of persons who perform such abatement.

Source: L. 87: Entire part R&RE, p. 1145, § 1, effective July 1. L. 88: (1) amended, p. 1016, § 1, effective June 11; (1) amended, p. 1440, § 47, effective June 11. L. 94: (1) amended, p. 2786, § 508, effective July 1.

Editor's note: This section is similar to former § 25-7-501 as it existed prior to 1987.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Law reviews. For article, "State and Federal Legislative Response to the Asbestos Threat", see 17 Colo. Law. 1973 (1988).

25-7-502. Definitions. As used in this part 5, unless the context otherwise requires:

(1) (a) "Area of public access" means any building, facility, or property, or only that portion thereof, that any member of the general public can enter without limitation or restriction by the owner or lessee under normal business conditions; except that "area of public access" includes a single-family residential dwelling and any facility that charges the general public a fee for admission, such as any theater or arena. For purposes of this subsection (1), "general public" does not include employees of the entity that owns, leases, or operates such building, facility, or property, or such portion thereof, or any service personnel or vendors connected therewith.

(b) Repealed.

(c) Notwithstanding the provisions of paragraph (a) of this subsection (1), a single family residential dwelling shall not be considered an area of public access for purposes of

this part 5 if the homeowner who resides in the single family dwelling that is the homeowner's primary residence requests, on a form provided by the division, that the single family dwelling not be considered an area of public access.

(2) "Asbestos" means asbestiform varieties of chrysotile, amosite, crocidolite, anthophyllite, tremolite, and actinolite.

(3) "Asbestos abatement" means any of the following:

(a) The wrecking or removal of structural members that contain friable asbestos-containing material;

(b) The following practices intended to prevent the escape of asbestos fibers into the atmosphere:

(I) Coating, binding, or resurfacing of walls, ceilings, pipes, or other structures for the purpose of minimizing friable asbestos-containing material from becoming airborne;

(II) Enclosing friable asbestos-containing material to make it inaccessible;

(III) Removal of friable asbestos-containing material from any pipe, duct, boiler, tank, reactor, furnace, or other structural member.

(4) "Commission" means the air quality control commission created by section 25-7-104.

(5) "Division" means the division of administration in the department of public health and environment.

(6) "Friable asbestos-containing material" means any material that contains asbestos and when dry can be crumbled, pulverized, or reduced to powder by hand pressure and that contains more than one percent asbestos by weight, area, or volume. The term includes nonfriable forms of asbestos after such previously nonfriable material becomes damaged to the extent that when dry it can be crumbled, pulverized, or reduced to powder by hand pressure.

(7) "Person" means any individual, any public or private corporation, partnership, association, firm, trust, or estate, the state or any department, institution, or agency thereof, any municipal corporation, county, city and county, or other political subdivision of the state, or any other legal entity which is recognized by law as the subject of rights and duties.

(7.5) "Project manager" means a person who has satisfied the experience and academic training requirements set forth by the commission.

(8) (a) "School" means any institution that provides elementary or secondary education.

(b) and (c) Repealed.

(9) "State-owned or state-leased buildings" means structures occupied by any person which are either owned by the state or utilized by the state through leases of one year's duration or longer.

(10) "Structural member" means any beam, ceiling, floor, or wall.

(11) "Trained supervisor" means an individual certified by the division to supervise asbestos abatement pursuant to section 25-7-506.

Source: L. 87: Entire part R&RE, p. 1145, § 1, effective July 1. L. 88: (1) amended, p. 1016, § 2, effective June 11. L. 89: (8) amended, p. 1169, § 2, effective May 9. L. 94: (5), (8)(b), and (8)(c) amended, pp. 2787, 2702, §§ 509, 258, effective July 1. L. 95: (7.5) added, p. 20, § 1, effective July 1. L. 2001: (1) and (6) amended, p. 772, § 4, effective June 1. L. 2005: (8)(c) repealed, p. 283, § 23, effective August 8. L. 2006: (1)(b) and (8)(b) repealed, p. 125, § 10, effective March 27.

Editor's note: This section is similar to former § 25-7-502 as it existed prior to 1987.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (5), (8)(b), and (8)(c), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-7-503. Powers and duties of commission - rules - delegation of authority to division. (1) The commission has the following powers and duties:

(a) To promulgate rules pursuant to section 24-4-103, C.R.S., regarding the following, as are necessary to implement the provisions of this part 5 only for areas of public access:

(I) Performance standards and practices for asbestos abatement which are not more stringent than 29 CFR 1910.1001 and 1926.58;

(II) (A) Determination of a maximum allowable asbestos level, which shall be the highest level of airborne asbestos under normal conditions that allows for protection of the general public; except that, until the commission adopts by rule a level, the maximum allowable asbestos level for the protection of the general public shall be 0.01 fibers per cubic centimeter of air, measured during normal occupancy and calculated as an eight-hour time-weighted average, in accord with 29 CFR 1910.1000 (d) (1) (i).

(B) If airborne asbestos fiber levels exceed such a level, a second test of samples may be collected during normal occupancy, analyzed by transmission electron microscopy (TEM) analysis, and calculated as an eight-hour time-weighted average in accord with 29 CFR 1910.1000 (d) (1) (i), before any order of abatement is issued.

(C) Notwithstanding the provisions of sub-subparagraph (A) of this subparagraph (II), if the asbestos level in the outside ambient air which is adjacent to an asbestos project site or area of public access exceeds 0.01 fibers per cubic centimeter of air, the existing asbestos level in such air shall be the maximum allowable asbestos level.

(III) Exemptions in emergency situations from the requirements of section 25-7-505 regarding the certificate to perform asbestos abatement;

(IV) Requirements for air pollution permits. Permits shall be required for asbestos abatement projects in any building, facility, or structure, or any portion thereof, having public access; except that the requirements of this subparagraph (IV) shall not apply to asbestos abatement projects performed by an individual on a single-family residential dwelling.

(V) Fees for air pollution permits, site inspections, and any necessary monitoring for compliance with this part 5;

(VI) Fees for certification as a trained supervisor;

(VII) Fees for certification which is required under federal law to engage in the inspection of schools, the preparation of asbestos management plans for schools, and the performance of asbestos abatement services for schools;

(VIII) Fees for a certificate to perform asbestos abatement;

(IX) Assessment procedures which determine the need for response actions for friable asbestos-containing materials. Such procedures shall include, but not be limited to, visual inspection and air monitoring which shows an airborne concentration of asbestos during normal occupancy conditions in excess of the maximum allowable level established by the commission in state-owned or state-leased buildings. Nothing in this subparagraph (IX) shall be construed to require that such assessments be made in state-owned or state-leased buildings; however, such procedures shall be followed in the event any such assessment is made.

(X) Requirements for asbestos management plans to be submitted and implemented by schools;

(XI) Fees to be collected from schools for review and evaluation of asbestos management plans;

(b) To promulgate rules pursuant to section 24-4-103, C.R.S., regarding the following, as are necessary to implement the provisions of this part 5, as required by the federal "Clean Air Act", 42 U.S.C. sec. 7412 et seq., as amended:

(I) Determination of the minimum scope of asbestos abatement to which the provisions of this part 5 shall apply, but not less than:

(A) With regard to asbestos abatement projects on a single-family residential dwelling, fifty linear feet on pipes or thirty-two square feet on other materials or the equivalent of a fifty-five-gallon drum;

(B) With regard to asbestos abatement projects not subject to sub-subparagraph (A) of this subparagraph (I), two hundred sixty linear feet on pipes or one hundred sixty square feet on other materials or the equivalent of a fifty-five-gallon drum;

(II) Requirements of notification, as consistent with the federal act, to demolish, renovate, or perform asbestos abatement in any building, structure, facility, or installation, or any portion thereof, which contains asbestos, except within such minimum scope of asbestos abatement or when otherwise exempt;

(III) (A) Procedures for the inspection and monitoring of sites where demolition, renovation, or the performance of asbestos abatement is taking place, including rules assuring that aggressive air monitoring shall be utilized only in the context of conducting final clearance of an abatement project as outlined in the federal "Asbestos Hazardous Emergency Response Act of 1986", 42 U.S.C. sec. 2641 et seq., and pursuant to the regulations found at 40 CFR 763. Specifications as listed in "measuring airborne asbestos following an abatement action", published by the environmental protection agency in 1985, shall be adopted by the commission as criteria for aggressive sampling.

(B) The division shall provide information to local governments to be used in connection with the issuance of a building permit regarding the need for an inspection for the presence of asbestos-containing materials prior to renovation or demolition of any building, structure, facility, or installation that may contain asbestos.

(IV) (A) Fees for notifications to demolish, renovate, or perform asbestos abatement and for any associated site inspections or necessary monitoring for compliance with this part 5.

(B) Fees pursuant to this subparagraph (IV) shall be paid on an annual basis for large contiguous facility complexes and on an individual notification basis for small noncontiguous facilities.

(V) Requirements to prevent any real or potential conflict of interest between the identification of asbestos-containing materials and the abatement of such materials, including requirements that project managers be used on projects of a certain size, that project managers be independent of the abatement contractor and work strictly on behalf of the building owner to the extent feasible, and that building owners may seek waivers from the project manager requirements.

(c) To approve the examination administered to applicants for certification as a trained supervisor pursuant to section 25-7-506;

(d) To authorize the division to:

(I) Establish procedures regarding applications, examinations, and certifications required under this part 5;

(II) Enforce compliance with the provisions of this part 5, the rules and regulations promulgated thereunder, and any order issued pursuant thereto.

(e) To promulgate rules setting minimum standards for sampling the asbestos in the air and standards for persons engaging in such sampling and to seek injunctive relief under section 25-7-511.5, including relief against any asbestos air sampler who acts beyond his or her level of competency. In promulgating rules setting such standards, the commission shall not use the term "air sampling professional" in such standards.

(f) (I) To adopt rules pursuant to section 24-4-103, C.R.S., setting out required training for persons applying for certification, recertification, or renewal of certificates as required by regulations promulgated by the federal environmental protection agency or the occupational safety and health administration.

(II) Training required pursuant to this paragraph (f) shall not be unduly duplicative or excessive.

(III) Refresher courses shall be required annually.

(2) Notwithstanding any other provisions of this section to the contrary, neither the commission nor the division shall have the authority to enforce standards more restrictive than the federal standards set forth in the "Occupational Safety and Health Act", on asbestos abatement projects which are subject to such federal standards; except that, nothing in this subsection (2) shall be construed to prevent the application and enforcement of the maximum allowable asbestos level prescribed in subparagraph (II) of paragraph (a) of subsection (1) of this section as a clearance level and a condition of reentry by the general public upon completion of the project.

Editor's note: This section is similar to former § 25-7-504 as it existed prior to 1987.

ANNOTATION

Law reviews. For article, "State and Federal Legislative Response to the Asbestos Threat", see 17 Colo. Law. 1973 (1988).

25-7-504. Asbestos abatement project requirements - certification required for schools - certificate to perform asbestos abatement - certified trained persons. (1) (a) Any person who inspects schools for the presence of friable asbestos, prepares asbestos management plans for schools, or conducts asbestos abatement services in schools shall obtain certification pursuant to section 25-7-507.

(b) Any person who inspects public or commercial buildings for the presence of asbestos, prepares management plans for public and commercial buildings, designs abatement actions in public and commercial buildings, or conducts abatement actions in public and commercial buildings shall obtain certification pursuant to section 25-7-507.

(2) (a) Any person who conducts asbestos abatement in any building, other than a school, shall obtain a certificate to perform asbestos abatement pursuant to section 25-7-505 unless such abatement project is exempt from the requirement for certification pursuant to rules and regulations promulgated by the commission.

(b) Unless otherwise exempt, asbestos abatement shall be performed under the supervision of an individual certified by the division as a trained supervisor pursuant to section 25-7-506, who shall be at the project site at all times that work is in progress.

(3) The requirements of this section shall apply to asbestos abatement on a single-family residential dwelling; except that the requirements of this section shall not apply to any individual who performs asbestos abatement on a single-family residential dwelling that is the individual's primary residence.

Source: **L. 87:** Entire part R&RE, p. 1148, § 1, effective July 1. **L. 92:** (1) amended, p. 1231, § 36, effective July 1. **L. 2001:** (3) amended, p. 773, § 6, effective June 1.

25-7-505. Certificate to perform asbestos abatement - application - approval by division - suspension or revocation of certificate. (1) Any person may apply to the division for a certificate to perform asbestos abatement by submitting an application in the form specified by the division and by paying a fee set by the commission. Such application shall include, but shall not be limited to:

(a) A description of the applicant's employee training program for asbestos abatement;

(b) A statement identifying all individuals employed by the applicant who are certified as trained supervisors pursuant to section 25-7-506.

(2) No applicant shall be certified to perform asbestos abatement unless the applicant, or at least one of the applicant's employees, is certified as a trained supervisor pursuant to section 25-7-506.

(3) Within fifteen days after receiving an application pursuant to this section, the division shall acknowledge its receipt and notify the applicant as to whether the application is complete. Within thirty days after receiving a completed application, the division shall issue a certificate to the applicant if the division finds that, in addition to all other requirements, the employee training program for asbestos abatement described in the application is acceptable. A certificate issued by the division pursuant to this section shall be valid for three years from the date of issuance.

(4) A certificate issued pursuant to this section may be suspended or revoked for the failure to implement the employee training program for asbestos abatement described in the application submitted pursuant to this section.

Source: L. 87: Entire part R&RE, p. 1148, § 1, effective July 1.

25-7-505.5. Testing for certification under part 5. (1) The division shall develop or purchase the examinations administered pursuant to this part 5 for certification under sections 25-7-506, 25-7-506.5, and 25-7-507 and shall set the passing scores on all such examinations based on a minimum level of competency in the procedures to be followed in asbestos abatement. The division shall administer such examinations at least twice each year or more frequently if demand so warrants and shall administer such examinations at various locations in the state if demand so warrants. The purpose of the examinations required pursuant to this section is to ensure minimum competency in asbestos abatement procedures. If a person fails to achieve a passing score on any such examination, retesting of such person shall be with a different examination and after such person has completed remedial training as determined to be satisfactory to the division for minimum competency in asbestos abatement procedures. Prior to such reexamination, an applicant shall file a new application and pay a fee set by the division. Such fee shall be no greater than the amount paid for the original examination.

(2) Notwithstanding the provisions of sections 25-7-506, 25-7-506.5, and 25-7-507, the division may certify an individual under this part 5 by endorsement if such individual possesses in good standing a valid license, certificate, or other registration from any other state or territory of the United States or from the District of Columbia, if the applicant presents proof satisfactory to the division that at the time of application for a Colorado certificate by endorsement the applicant possesses qualifications substantially equivalent to those of this part 5 as determined by the division.

Source: L. 90: Entire section added, p. 1320, § 3, effective May 24. **L. 2006:** Entire section amended, p. 123, § 4, effective March 27.

25-7-506. Certificate of trained supervisors - application - approval by division - rules - responsibilities of trained supervisors - renewal of certificate. (1) Any individual may apply to the division to be certified as a trained supervisor by submitting an application in the form specified by the division and paying a fee set by the commission. Within fifteen days after receiving an application, the division shall notify the applicant as to whether the application is complete.

(2) Within thirty days after receiving a completed application and the results of the examination administered pursuant to paragraph (b) of this subsection (2), the division shall issue a certification valid for a period not to exceed five years as established by the commission by rule from the date of issuance upon a finding:

(a) That the applicant has, within twelve months prior to the date of the application, completed a training course on safe asbestos abatement procedures which has been approved by the division; and

(b) That the applicant has passed an examination administered by the division pursuant to section 25-7-505.5 on the procedures to be followed in asbestos abatement.

(3) An individual acting as a trained supervisor pursuant to this section shall be responsible for supervising a specific asbestos abatement project in such a manner as to assure that asbestos abatement is performed in compliance with the provisions of this part 5 and the rules and regulations promulgated thereunder.

(4) (Deleted by amendment, L. 92, p. 1232, § 37, effective July 1, 1992.)

(5) (Deleted by amendment, L. 95, p. 22, § 3, effective July 1, 1995.)

Source: L. 87: Entire R&RE, p. 1149, § 1, effective July 1. **L. 90:** (2)(b) amended and (5) added, p. 1321, § 4, effective May 24. **L. 92:** (2) and (4) amended, p. 1232, § 37, effective July 1. **L. 95:** IP(2) and (5) amended, p. 22, § 3, effective July 1. **L. 2006:** IP(2) amended, p. 125, § 8, effective March 27.

25-7-506.5. Certification of air monitoring specialist - rules. (1) No person may perform air monitoring or air monitoring specialist activities for asbestos, as set forth in

rules promulgated by the commission, including visual clearance inspections of an asbestos abatement project, without first obtaining a certificate pursuant to this section.

(2) Any individual may apply to the division to be certified as an air monitoring specialist by submitting an application in the form specified by the division and paying a fee set by the commission. Within fifteen days after receiving an application, the division shall notify the applicant as to whether the application is complete.

(3) Within thirty days after receiving a completed application, the division shall issue a certification valid for a period not to exceed five years as established by the commission by rule from the date of issuance upon a finding that the applicant has successfully met the experience, education, examination, and training requirements and has paid a fee, as set forth in rules promulgated by the commission.

Source: L. 2001: Entire section added, p. 773, § 7, effective June 1. L. 2006: (3) amended, p. 123, § 5, effective March 27.

25-7-507. Certification required under federal law for asbestos projects in schools and public and commercial buildings. Pursuant to the federal “Asbestos Hazard Emergency Response Act of 1986” (Public Law 99-519) and the federal “Asbestos School Hazard Abatement Reauthorization Act of 1990” (Public Law 101-637), the division shall certify, in the manner required under the federal law, all persons engaged in the inspection of schools or public or commercial buildings, the preparation of management plans for schools or public or commercial buildings, the design of abatement actions in schools or public or commercial buildings, or the conduct of abatement actions in schools or public or commercial buildings.

Source: L. 87: Entire part R&RE, p. 1149, § 1, effective July 1. L. 92: Entire section amended, p. 1232, § 38, effective July 1.

25-7-507.5. Renewal of certificates - rules - recertification. (1) Any certificate issued pursuant to this part 5 that has lapsed shall be deemed to have expired.

(2) (a) A certificate issued pursuant to this part 5 may be renewed prior to expiration upon payment of a renewal fee set by the commission.

(b) Renewal of a certificate may be made for a period not to exceed five years as established in rules promulgated by the commission.

(3) An individual may reinstate an expired certificate within one year after such expiration upon payment of a reinstatement fee in an amount set by the commission.

(4) An individual whose certificate has lapsed for a period longer than one year after expiration shall apply to the division for certification as required by this part 5 and shall not be recertified until the division determines that such individual has fully complied with the requirements of this part 5 and any rules promulgated pursuant thereto.

(5) (a) Any individual whose certificate has lapsed because such individual has not completed the refresher course required pursuant to section 25-7-503 (1) (f) may complete such refresher course within one year after the date the certificate lapses.

(b) Completion of the refresher course shall be a requirement for recertification.

(c) (I) The commission shall promulgate rules governing refresher training programs for persons in both school and nonschool asbestos abatement. Such programs shall not exceed the requirements of refresher training mandated under the federal “Asbestos Hazard Emergency Response Act of 1986” (Public Law 99-519) and any rules promulgated pursuant to such federal law.

(II) In adopting rules the commission shall ensure that refresher training requirements are related to ensuring continuing competency in asbestos abatement procedures.

(III) The division shall implement a system of testing to measure the knowledge obtained by certified persons attending the refresher training programs. Such testing shall not exceed the requirements of refresher training mandated pursuant to federal law.

Source: L. 95: Entire section added, p. 22, § 4, effective July 1. L. 2006: (2)(b) amended, p. 125, § 9, effective March 27.

25-7-508. Grounds for disciplinary action - letters of admonition - denial of certification - suspension, revocation, or refusal to renew - requirement for corrective education - administrative fines. (1) When an application for certification pursuant to section 25-7-505, 25-7-506, 25-7-506.5, 25-7-507, or 25-7-507.5 is denied by the division, the applicant may contest the decision of the division by requesting a hearing before the office of administrative courts. A request for a hearing must be made within thirty calendar days after the division has issued a denial of the application in writing to the applicant. The hearing shall be held pursuant to section 25-7-119.

(2) (a) The division may take disciplinary action in the form of the issuance of a letter of admonition or, in conformity with the provisions of article 4 of title 24, C.R.S., the suspension, revocation, or refusal to renew certification pursuant to section 25-7-505, 25-7-506, 25-7-506.5, 25-7-507, or 25-7-507.5, should the division find that a person certified under this part 5:

(I) Has violated or has aided and abetted in the violation of any provision of this part 5 or any rule or regulation or order of the division or commission promulgated or issued under this part 5;

(II) (A) Has been subject to a disciplinary action relating to a certification or other form of registration or license to practice asbestos abatement under this part 5 or any related occupation in any other state, territory, or country for disciplinary reasons, which action shall be deemed to be prima facie evidence of grounds for disciplinary action, including denial of certification by the division.

(B) This subparagraph (II) shall apply only to disciplinary actions based upon acts or omissions in such other state, territory, or country substantially similar to those set out as grounds for disciplinary action pursuant to this part 5.

(C) A plea of nolo contendere or its equivalent to a charge of violating a law or regulation governing the practice of asbestos removal in another state, territory, or country that is accepted by the disciplining body of such other state, territory, or country may be considered to be the same as a finding of guilt for purposes of a hearing conducted by the division pursuant to this subsection (2).

(III) Has been convicted of a felony or has had accepted by a court a plea of guilty or nolo contendere to a felony if the felony is related to the ability to engage in activities regulated pursuant to this part 5. A certified copy of the judgment of a court of competent jurisdiction of such conviction or plea shall be conclusive evidence of such conviction or plea. In considering the disciplinary action, the division shall be governed by the provisions of section 24-5-101, C.R.S.

(IV) Has failed to report to the division a disciplinary action specified in subparagraph (II) of this paragraph (a) or a felony conviction for an act specified in subparagraph (III) of this paragraph (a);

(V) Has failed to meet any permit and notification requirement or failed to correct any violations cited by the division during any inspection within a reasonable period of time;

(VI) Has used misrepresentation or fraud in obtaining or attempting to obtain a certificate under this part 5;

(VII) Has failed to adequately supervise an asbestos abatement project as a certified trained supervisor;

(VIII) Has committed any act or omission which does not meet generally accepted standards of the practice of asbestos abatement;

(IX) Has engaged in any false or misleading advertising.

(b) When a complaint or an investigation discloses an instance of misconduct which, in the opinion of the division, does not warrant suspension or revocation by the division but which should not be dismissed as being without merit, a letter of admonition may be sent by certified mail to the certified person against whom a complaint was made and a copy thereof to the person making the complaint, but, when a letter of admonition is sent by certified mail by the division to a certified person complained against, such certified person shall be advised that such person has the right to request in writing, within twenty days after proven receipt of the letter, that formal disciplinary proceedings be initiated against such person to adjudicate the propriety of the conduct upon which the letter of admonition is

based. If such request is timely made, the letter of admonition shall be deemed vacated, and the matter shall be processed by means of formal disciplinary proceedings.

(3) A person aggrieved by an action taken by the division pursuant to subsection (2) of this section may contest the action by requesting a hearing before the office of administrative courts within thirty days after the applicant is notified in writing of the division's action. The hearing shall be held pursuant to section 25-7-119. Any person aggrieved by an action taken by the office of administrative courts pursuant to subsection (2) of this section may appeal the action to the court of appeals in accordance with section 24-4-106 (11), C.R.S.

(4) In addition to or in lieu of the forms of disciplinary action authorized in subsection (2) of this section, the division, in its discretion, may require corrective education in the area of asbestos abatement as a disciplinary action against a certified person when the situation so warrants, such corrective education to be directed toward weak or problematic areas of a certified person's practice.

(5) Any certified person who violates any provision of this section, in addition to any other enforcement action available under this article, may be disciplined upon a finding of misconduct by the division as follows:

(a) In any first administrative proceeding against a certified person, a fine of not less than one hundred dollars nor more than one thousand dollars;

(b) In a second or subsequent administrative proceeding against a certified person for transactions occurring after a final agency action determining that a violation of this part 5 has occurred, a fine of not less than one thousand dollars nor more than ten thousand dollars.

(6) If a certification is revoked by the division, the person against whom such action was taken shall not apply for recertification for a period of one year after such revocation and shall be required to demonstrate compliance with any disciplinary action imposed by the division and to demonstrate competency in asbestos abatement procedures prior to receiving a new certificate.

L. 92: (1), (3), and (5) amended, p. 1232, § 39, effective July 1. L. 95: (2)(a)(II), (2)(b), and (6) amended, p. 23, § 5, effective July 1. L. 2001: IP(2)(a) amended, p. 774, § 8, effective June 1. L. 2005: (1) and (3) amended, p. 858, § 23, effective June 1. L. 2006: (1) and IP(2)(a) amended, p. 124, § 7, effective March 27.

25-7-509. Prohibition against local certification regarding asbestos abatement. Inasmuch as uniformity in the regulation of asbestos abatement practices and uniformity in the qualifications and certification of persons performing asbestos abatement is a matter of statewide concern, no certification or licensing of asbestos abatement projects nor any examination or certification of persons certified under this part 5 shall be required by any city, town, county, or city and county; however, any such local governmental authority may impose reasonable registration requirements on any person performing asbestos abatement as a condition of performing such activity within the jurisdiction of such authority. Registration fees charged by any such local governmental authority to any such person shall not exceed those costs associated with such registration requirements and functions.

Source: L. 87: Entire part R&RE, p. 1150, § 1, effective July 1.

25-7-510. Fees. (1) (a) The fees required pursuant to this part 5 shall be established pursuant to rules and regulations promulgated by the commission.

(b) The commission shall adjust the fees so that the revenue generated from such fees is sufficient to cover the division's direct and indirect costs in implementing the provisions of this part 5.

(2) All fees collected by the division pursuant to this part 5 shall be transmitted to the state treasurer, who shall credit the same to the stationary sources control fund established

pursuant to section 25-7-114.7 (2) (b). The general assembly shall appropriate to the department of public health and environment, at least annually, from the fund, an amount sufficient to implement the provisions of this part 5.

Source: **L. 87:** Entire part R&RE, p. 1150, § 1, effective July 1. **L. 92:** (2) amended, p. 1233, § 40, effective July 1. **L. 94:** (2) amended, p. 2787, § 510, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-7-511. Enforcement. (1) Whenever the division has reason to believe that any person has violated any of the provisions of this part 5 or the rules and regulations promulgated thereunder, the division may issue a notice of violation and cease-and-desist order. The notice of violation shall set forth the provision, rule, or regulation alleged to have been violated and the facts constituting such violation. The cease-and-desist order shall set forth the measures which the person shall take to eliminate the violation and the time within which these measures shall be performed. The order may require that the person stop work at the asbestos abatement project until the violation has been eliminated or may require a school to submit and implement an asbestos management plan by a date specified by the division.

(2) If the recipient of a cease-and-desist order issued pursuant to subsection (1) of this section fails to comply with the terms of the order within the time specified, the division may file an action in the district court of the county where the violation is alleged to have occurred requesting that the court order the person to comply with the cease-and-desist order. When the division alleges that the violation poses a significant danger to the health of any person, the court shall grant such action priority.

(3) Unless the division has filed an action in the district court pursuant to subsection (2) of this section, a recipient of a cease-and-desist order may request a hearing before the commission to contest the cease-and-desist order. Such request shall be filed within thirty days after the cease-and-desist order has been issued. A hearing on the cease-and-desist order shall be held pursuant to section 25-7-119.

(4) Upon a finding by the division that a person is in violation of any of the provisions of this part 5 or the rules and regulations promulgated thereunder, the division may assess a penalty of up to twenty-five thousand dollars per day of violation or such lesser amount as may be required by applicable federal law or regulation. In determining the amount of the penalty to be assessed, the division shall consider the seriousness of the danger to the public's health caused by the violation, whether or not the violation was willful, the duration of the violation, and the record of the person committing such violation.

(5) A person subject to a penalty assessed pursuant to subsection (4) of this section may appeal the penalty to the commission by requesting a hearing before the commission. Such request shall be filed within thirty days after the penalty assessment is issued. A hearing pursuant to this subsection (5) shall be conducted pursuant to section 25-7-119.

(6) All penalties collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the general fund.

Source: **L. 87:** Entire part R&RE, p. 1150, § 1, effective July 1.

25-7-511.5. Injunctive proceedings. (1) The division may, in the name of the people of the state of Colorado, through the attorney general of the state of Colorado, apply for an injunction in any court of competent jurisdiction:

(a) To enjoin any person from committing any act prohibited by the provisions of this part 5;

(b) To enjoin a certified person from practicing the profession for which he is certified under this part 5.

(2) If it is established that the defendant has been or is committing any act prohibited by this part 5, the court shall enter a decree perpetually enjoining said defendant from further committing said act or from practicing asbestos abatement.

(3) Such injunctive proceedings shall be in addition to and not in lieu of all penalties and other remedies provided in this part 5.

(4) When seeking an injunction under this section, the division shall not be required to allege or prove either that an adequate remedy at law does not exist or that substantial or irreparable damage would result from a continued violation.

Source: L. 90: Entire section added, p. 1323, § 7, effective May 24.

25-7-511.6. Refresher training - authorization. The commission shall promulgate rules and regulations governing refresher training programs for persons in both school and nonschool asbestos abatement. Such programs shall not exceed the requirements of refresher training mandated under the federal “Asbestos Hazard Emergency Response Act of 1986” (Public Law 99-519), as amended, and any rules and regulations promulgated under such federal law. In adopting such rules and regulations, the commission shall ensure that refresher training requirements are related to ensuring continuing competency in asbestos abatement procedures. The division shall implement a system of testing to measure the knowledge obtained by certified persons attending such programs.

Source: L. 90: Entire section added, p. 1323, § 7, effective May 24.

25-7-512. Repeal of part. This part 5 is repealed, effective July 1, 2013. Prior to such repeal, the functions of the division under this part 5 shall be reviewed as provided for in section 24-34-104, C.R.S.

Source: L. 87: Entire part R&RE, p. 1151, § 1, effective July 1. L. 88: Entire section amended, p. 931, § 16, effective April 28. L. 90: Entire section amended, p. 1324, § 8, effective May 24. L. 91: Entire section amended, p. 688, § 57, effective April 20. L. 94: Entire section amended, p. 1457, § 9, effective May 25. L. 95: Entire section amended, p. 24, § 6, effective July 1. L. 2001: Entire section amended, p. 771, § 3, effective June 1. L. 2006: Entire section amended, p. 122, § 1, effective March 27.

PART 6

DIESEL INSPECTION PROGRAM

25-7-601 to 25-7-610. (Repealed)

Editor’s note: (1) This part 6 was added in 1988, effective January 1, 1990. For amendments to this part 6 prior to its repeal in 1995, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. The provisions of this part 6 were relocated to part 4 of article 4 of title 42. For the location of specific provisions, see the editor’s notes following each section in said part 4 and the comparative tables located in the back of the index.

(2) Section 25-7-610 provided for the repeal of this part 6, effective January 1, 1995. (See L. 94, p. 2541.)

Cross references: For current provisions concerning the diesel emissions program, see part 4 of article 4 of title 42.

PART 7

TRAVEL REDUCTION TASK FORCE

25-7-701 to 25-7-706. (Repealed)

Editor’s note: (1) This part 7 was added in 1990 and was not amended prior to its repeal in 1991. For the text of this part 7 prior to 1991, consult the Colorado statutory research explanatory note and

the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Section 25-7-706 provided for the repeal of this part 7, effective July 1, 1991. (See L. 90, p. 1328.)

PART 8

TRAVEL REDUCTION PROGRAM

25-7-801 to 25-7-806. (Repealed)

Editor's note: (1) This part 8 was added in 1991. For amendments to this part 8 prior to its repeal in 1994, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

(2) Section 25-7-806 provided for the repeal of this part 8, effective July 1, 1994. (See L. 91, p. 981.)

PART 9

CLEAN AIR TRANSIT OPTIONS

25-7-901. Legislative declaration. The general assembly hereby declares that the state's effort to mitigate traffic congestion and promote clean air will be served by providing clean air transit options to state employees.

Source: L. 96: Entire part added, p. 853, § 1, effective May 23.

25-7-902. Definitions. (1) "State agency" means any department, board, bureau, commission, institution, or other agency of the state, including institutions of higher education.

(2) "State employees" means the employees of any state agency.

Source: L. 96: Entire part added, p. 853, §1, effective May 23.

25-7-903. Clean air transit options for state employees. Any state agency may provide clean air transit options to state employees of that agency, including, but not limited to, the use of available mass transit. The financing of any transit option offered by a state agency to state employees shall be from existing appropriations to that state agency. A transit option shall be considered a perquisite that is subject to the state controller's fiscal rules controlling perquisites under section 24-30-202 (22), C.R.S.

Source: L. 96: Entire part added, p. 853, § 1, effective May 23.

PART 10

AIR QUALITY RELATED VALUES - CLASS I FEDERAL AREAS

25-7-1001. Legislative declaration. In order to establish a fair, practical, and cost-effective process for evaluating and, where appropriate, responding to assertions that air quality related values within Colorado's class I federal areas are being significantly and adversely affected by air pollution, such as air pollution that is causing biological harm, the general assembly hereby institutes the procedures set forth in this part 10.

Source: L. 96: Entire part added, p. 1443, § 1, effective June 1.

25-7-1002. Air quality related values program. (1) In addition to maintaining a program that complies with the requirements of the federal act for prevention and remediation of significant deterioration of visibility in class I federal areas, the commission, in consultation with the general assembly, the governor, and affected federal, state, and local governmental entities, shall maintain a state-retained authority program in conformance with section 25-7-105.1 for nonvisibility air quality related values, referred to in this part 10 as the "program".

(2) The commission shall develop a program under which, except for grant funds secured from other sources, the federal government undertakes the responsibility for the funding of air quality related value baseline data collection and the verification studies needed to substantiate an assertion of significant impairment, and the commission is encouraged to conduct the activities specified in this part 10 in coordination with interested state and local governmental entities and affected citizens and businesses.

Source: L. 96: Entire part added, p. 1443, § 1, effective June 1.

25-7-1003. Definitions. As used in this part 10:

(1) "Air quality related value (AQRV)" means a feature or property of a class I federal area other than visibility that the state of Colorado finds may be affected by air pollution. General categories of air quality related values include odor, flora, fauna, soil, water, geologic features, and cultural resources.

(2) "Air quality related value baseline data" means research data based on site-specific measurements and samplings of air quality related values within a class I federal area needed to substantiate a determination of whether or not a particular observation is within the range of naturally occurring changes or fluctuations.

(3) "Best available retrofit technology" means a control strategy for addressing emissions of a stationary source developed on a case-by-case basis after taking into consideration the costs of compliance, the energy and nonair quality environmental impacts of compliance, any existing pollution control technology in use at the source, the remaining useful life of the source, and the degree of improvement in the air quality related value that may reasonably be anticipated to result from the use of such technology.

(4) "Peer review" means a review of scientific or technical information by a balanced objective panel of experienced scientists qualified to review the subject matter involved in verifying the existence of or attributing the cause of an AQRV impairment.

(5) "Reasonably available control measure" means a control strategy for addressing emissions of a nonstationary source developed on a case-by-case basis after taking into consideration the options available to achieve emission reductions that a particular source or source category is capable of meeting as appropriate to an air quality related value if such steps may be feasibly and practicably taken considering technical and economic constraints.

(6) "Significant impairment of an air quality related value" means a measurable change in an air quality related value that is outside the probability of natural variability, that is caused by human activities, and that is causing a significant adverse effect to flora, fauna, soil, geologic features, cultural resources, or a beneficial use of water recognized under Colorado law.

Source: L. 96: Entire part added, p. 1444, § 1, effective June 1.

25-7-1004. Administration of program by division. (1) In administering the program, the division shall:

(a) Conduct or oversee program activities and scientific studies and determine an appropriate scope, sequence, and timetable for such studies and activities;

(b) Subject assertions by a federal land manager of air quality related value impairment in a class I federal area and studies concerning source attribution and source apportionment to peer review;

(c) Utilize the study design and data collection and analytical techniques set forth in section 25-7-211 that are relevant and appropriate to the activity or study;

(d) Assure that studies proceed as expeditiously as sound science will allow in order to minimize any delay in the process.

(2) As necessary or appropriate, the division may:

(a) Enter into memoranda of understanding for participation in the studies and activities required by this part 10;

(b) Create cooperative public-private partnerships with various entities; and

(c) Perform any other appropriate activity to carry out the intent of the program.

(3) The division shall not be required to pay the cost of any studies that are discretionary as set forth in this part 10 other than as set forth in this section. If the division determines that an air quality related value of a class I federal area has the potential to be significantly threatened by air pollution, or is being impacted by air pollution, then the division shall apply for grants or act as a catalyst to secure financial support from available funding sources in federal, state, or local governments and private entities, to identify the threat by funding the necessary air quality related value baseline data collection, or to assist in remedying the threat by funding necessary attribution or apportionment studies. The division is also authorized to act as a catalyst to secure financial support from other sources for such studies. The results of such studies and data collection shall be made available to the appropriate federal land manager and interested members of the public to assist in the management of these scenic resources and to cooperate in any needed air quality related values assessments.

Source: L. 96: Entire part added, p. 1445, § 1, effective June 1.

25-7-1005. Verification of federal land manager's assertion of air quality related value impairment. (1) The federal land manager of a class I federal area may initiate the procedures of this part 10 by submitting to the governor and division an assertion of significant impairment of an air quality related value, referred to in this part 10 as an "assertion". To be adequate to support a verification of impairment, the assertion shall be supported by sufficient air quality related value baseline data and site-specific evidence of impairment. The assertion may be supported in part by information that concerns other areas with a similar environment to the class I federal area asserted to be impaired, provided such information is relevant to the class I federal area asserted to be impaired and significant site-specific data is also available.

(2) Upon receipt of an assertion, the division shall initiate the following actions concurrently:

(a) Inform the commission at its next regularly scheduled monthly meeting of the receipt of an assertion, at which time the commission shall schedule the matter for a formal report from the division at the regular commission meeting that is scheduled to occur six months subsequent. All such informational briefings and formal reports on the subject shall be noticed on the published agenda of the commission.

(b) Within sixty days of receipt of the assertion, the division shall convene a peer review panel to review the assertion, its supporting documentation, including the adequacy of the baseline data and the adequacy of the site-specific and other evidence of impairment, and any other relevant information submitted to the division by the public. The requirement for peer review as specified in this paragraph (b) is waived with respect to any peer reviewer who has not submitted peer review comments within sixty days of the date on which the division certifies that the assertion, documentation, and other information has been transmitted to the individual peer reviewers.

(c) Convene a consultation process that is open to the public in order to apprise the public and potentially affected sources and source categories of all stages of the program and to solicit the scientific, technical, economic, and managerial views and assistance of the public and the potentially affected sources and source categories; and

(d) Initiate a review by division staff of the assertion and the supporting documentation submitted by the federal land manager to assess whether the federal land manager has demonstrated a significant impairment of an air quality related value in a class I federal area within Colorado.

(3) At the commission meeting required by paragraph (a) of subsection (2) of this section, the division shall report to the commission. The division's report shall include, but is not limited to, the conclusions of the peer review panel concerning verification of the assertion and the division's determination of whether the federal land manager has demonstrated a significant impairment of an air quality related value in a class I area within Colorado. If the division determines that the assertion has not been verified, it shall so notify the commission and the federal land manager of its findings and the fact that the proceedings authorized under this part 10 have been completed. If the division determines that the assertion has been verified, it shall proceed in accordance with the provisions of section 25-7-1006.

Source: L. 96: Entire part added, p. 1445, § 1, effective June 1.

25-7-1006. Source attribution and control strategy development. (1) If the division determines that the assertion has been verified, it shall:

(a) Compile a comprehensive inventory of the sources of the pollutants that are suspected to be causing the impairment;

(b) Subject the development, conduct, and results of the attribution and apportionment studies to appropriate peer review; and

(c) Perform attribution and apportionment studies to the extent feasible in order to develop for the division and the commission the identity and relative contribution of the significant contributors to air quality related value impairment, including, but not limited to, stationary sources, natural sources, wood smoke, agriculture, mining, roads, mobile source categories, and other area sources. The general assembly recognizes that the ability to attribute the cause of air pollution effects and apportion the air pollution effects among sources and source categories identified by attribution studies is an area of evolving science.

(2) (a) The funding of source attribution and apportionment studies shall be derived as provided in this subsection (2). Contributions to support the funding of such studies shall be requested from sources and source categories identified by the division as potentially contributing to the impairment.

(b) If a potential contribution to impairment is identified from federal lands or state lands, the division shall request a funding contribution for such studies from the appropriate federal or state land manager.

(c) If a potential contribution to impairment is identified from stationary sources or source categories, the division shall request a funding contribution for such studies from such sources or source categories.

(d) If a potential contribution to impairment is identified from mobile sources, the division shall seek an appropriation by the general assembly of excess funds in the AIR account in the highway users tax fund for funding contributions to such studies.

(e) The division shall annually report to the legislative council on the adequacy of funding derived pursuant to this subsection (2). If funding derived pursuant to this subsection (2) is inadequate, the legislative council may recommend that the general assembly appropriate funds from available sources for purposes of this section.

(3) Following its review and analysis of the reasonable attribution and source apportionment studies and the reports thereon from the members of the peer review panel, the division shall identify those sources and source categories within the state and region significantly contributing to air quality related value impairment.

(4) The division shall identify the sources and source categories significantly contributing to air quality related value impairment that are located outside the state and report this list to the commission, governor, and general assembly for their consideration in identifying options for remedying such impacts.

(5) The division shall issue an order to the sources and source categories significantly contributing to air quality related value impairment located within the state that have not made a voluntary enforceable commitment under section 25-7-1008.

(6) (a) An order issued pursuant to subsection (5) of this section shall require:

(I) Such sources and source categories to submit a report within a reasonable period of time;

- (II) A stationary source to identify the best available retrofit technology; and
- (III) Other sources and source categories to identify reasonably available control measures.

(b) After considering the responses to an order issued pursuant to subsection (5) of this section, the division shall issue a public report to the commission concerning its recommendations on air quality related value impairment, source attribution, source apportionment, and control strategy options.

Source: L. 96: Entire part added, p. 1447, § 1, effective June 1.

25-7-1007. Commission to consider control strategies in rule-making proceeding.

(1) Upon receipt of a report under section 25-7-1006 (6) (b) from the division, and after the division has made the report available to all significant source or source categories identified pursuant to section 25-7-1006, the commission shall give notice that it is to conduct a rule-making hearing concerning the implementation of control strategies recommended in the report.

(2) In addition to other applicable rule-making provisions, the rule-making hearing shall be conducted:

- (a) In reasonable proximity to the affected class I federal area;
- (b) To allow sufficient time for comment and testimony by all interested persons; and
- (c) To allow reasonable discovery pursuant to section 24-4-103 (13) and (14), C.R.S.

(3) (a) The commission shall order by rule implementation within a reasonable time of a practical and cost-effective control strategy or strategies that will provide reasonable progress toward remedying the impairment, if the commission finds that:

(I) The evidence in the record shows the existence of a significant impairment of an air quality related value in a class I federal area;

(II) An identifiable source or source category is responsible for significantly causing or contributing to the impairment;

(III) The best available retrofit technology exists for any such stationary source;

(IV) Reasonably available control measures exist for any such other sources or source categories;

(V) Implementation of the control strategies would make significant improvement in the impairment;

(VI) Taking into account that the ability to attribute the cause of air pollution effects and to apportion the air pollution effects among sources and source categories identified by attribution studies is an area of evolving science, a correlation of the extent of improvement in air quality related value impairment can reasonably be expected to result from imposition of a control strategy or strategies for each significant source or source category identified by the division.

(b) Within fourteen days after having received the division's report under section 25-7-1006 (6) (b), a source or source category may petition the commission, as part of its rule-making hearing conducted pursuant to this subsection (3), to make a determination that the benefits of phasing, segmenting, or excusing the control strategy or strategies outweigh the benefits of imposing the control strategy or strategies. In making such determination, the commission shall consider all economic and related costs associated with the implementation of the control strategy or strategies involving the source or source category. The burden of proof shall be on the petitioner.

Source: L. 96: Entire part added, p. 1448, § 1, effective June 1.

25-7-1008. Voluntary agreements. (1) The division may convene, at any appropriate time, an informal voluntary negotiation process, with appropriate public participation, to seek voluntary enforceable commitments from sources and source categories to achieve emissions reductions sufficient to make reasonable further progress in reducing any portion of the impairment.

(2) A voluntary enforceable commitment becomes enforceable through a commission rule, local ordinance or resolution, judicially enforceable consent decree, or division permit condition, as appropriate to the circumstances.

(3) If subsequent to January 15, 1996, a source or source category agrees to an enforceable commitment to adopt a control strategy that the division determines is as effective or is more effective than best available retrofit technology for stationary sources or reasonably available control measures for nonstationary sources, the division shall exempt that source or source category from the imposition of further controls pursuant to this part 10 for a period of ten years from the date established for achieving the emission reductions as specified in the voluntary enforceable agreement.

(4) If subsequent to January 15, 1996, and prior to January 15, 1998, a source or source category agrees to an enforceable commitment contained in a judicially enforceable consent decree to adopt a control strategy that the division determines provides both for reasonable progress toward the national visibility goal under 40 CFR Part 51, Subpart P and 5 CCR 1001-4 and for reasonable progress in reducing any present or future impairment of an air quality related value, the division shall exempt that source or source category from the imposition of further controls pursuant to this part 10 for a period of ten years from the date established for achieving the emission reductions as specified in the judicially enforceable consent decree. The provisions of section 25-7-133 shall not apply to that portion of an amendment to the visibility component of the state implementation plan that implements and enforces the control strategy covered by this subsection (4).

(5) If a source or source category agrees to an enforceable commitment to adopt a control strategy that the division determines is not as effective as best available retrofit technology for stationary sources or reasonably available control measures for nonstationary sources but that the division determines will assist in making reasonable further progress in reducing impairment of an air quality related value, the commission may, after public hearing, exempt that source or source category from the imposition of further controls pursuant to this part 10 with respect to those pollutants that the source or source category has agreed to control for a period of up to ten years from the date established for achieving the emission reductions as specified in the voluntary enforceable agreement.

(6) A source that, prior to June 1, 1996, has received a permit under the federal prevention of significant deterioration program, 42 U.S.C. secs. 7470 to 7479 or sections 25-7-201 to 25-7-210, and installed pollution control measures comparable to the best available control technology pursuant to that program shall not be required to install additional control measures pursuant to this part 10 for a period of ten years from June 1, 1996, but may be required to operate pollution control equipment to its maximum efficiency. This section shall not apply to any source that is not subject to compliance with the requirements of 42 U.S.C. sec. 7651 (f), which establishes schedules and emission limitations for the control of nitrogen oxide emissions from certain stationary sources. Nothing in this subsection (6) shall be construed to modify the terms of any permit applicable to such source or excuse compliance with respect to any other requirement under this article or the federal act. Except for the exemption for a period of ten years provided in this subsection (6), nothing in this subsection (6) shall excuse such sources from responding to reasonable requests by the division for information required to complete inventories and attribution and apportionment studies.

Source: L. 96: Entire part added, p. 1449, § 1, effective June 1.

PART 11

LEAD-BASED PAINT ABATEMENT

25-7-1101. Legislative declaration. (1) The general assembly hereby declares that:

(a) Exposure of children to lead represents a significant environmental health problem that is preventable;

(b) According to the federal "Residential Lead-based Paint Hazard Reduction Act of 1992", 15 U.S.C. secs. 2682 and 2684, et seq., as amended, home buyers and renters must

be properly informed of the risks of lead exposure to children, especially children under seven years of age;

(c) Trained and qualified individuals are needed in order to advise consumers about lead hazards in general and about specific measures that may be needed to control such hazards; and

(d) The state seeks to adopt the concept of "lead-safe" housing units and child-occupied facilities, rather than "lead-free" housing and facilities. The goal of the state should not be the removal of all lead-based paint, but the creation of housing and facilities where no significant lead-based paint hazard is present. This goal includes the removal, enclosure, or encapsulation of lead-based paint to remove lead hazards from target housing and child-occupied facilities.

(2) The general assembly declares that the enforcement of the lead-based paint abatement standards may be delegated to local health and building departments in Colorado.

(3) Therefore, the general assembly determines and declares that the enactment of this part 11 is a matter of statewide concern to achieve uniformity in the regulation of lead abatement practices and uniformity in the qualifications for and certification of persons who perform such abatement.

Source: L. 97: Entire part added, p. 1086, § 2, effective July 1.

25-7-1102. Definitions. As used in this part 11, unless the context otherwise requires:

(1) "Abatement" means any measure or set of measures that will contain or permanently eliminate lead-based paint hazards, including:

- (a) The removal of lead-based paint and lead-contaminated dust;
- (b) The permanent containment of lead-based paint;
- (c) The encapsulation of lead-based paint;
- (d) The replacement or enclosure of lead-painted surfaces or fixtures;
- (e) The removal or covering of lead-contaminated soil; and
- (f) All preparation, cleanup, disposal, monitoring, and clearance testing activities associated with the measures described in this subsection (1).

(2) (a) "Child-occupied facility" means a building or portion of a building that:

- (I) Was constructed prior to 1978;
- (II) Is visited regularly by the same child who is under seven years of age;
- (III) Is visited by such child on two or more days within any week, consisting of the period from Sunday through the following Saturday, with each such visit totaling six or more hours; and

(IV) Is visited by such child a total of at least sixty hours in one year.

(b) "Child-occupied facility" includes, but is not limited to, any day-care center, preschool, or kindergarten classroom constructed prior to 1978.

(3) "Commission" means the air quality control commission created by section 25-7-104.

(4) "Division" means the air pollution control division in the department of public health and environment.

(5) "Lead-based paint" means any paint containing more than six one-hundredths of one per cent by wet weight of lead metal, more than five-tenths of one percent by dry weight of lead metal, or more than one milligram per square centimeter of lead metal.

(6) "Lead-based paint hazard" means any condition that causes exposure to lead from lead-contaminated dust, lead-contaminated soil, or lead-based paint.

(7) "Target housing" means housing constructed prior to 1978 other than any zero-bedroom dwelling or any housing for the elderly or a person with a disability; except that "target housing" includes housing for the elderly or a person with a disability if a child under seven years of age resides or is expected to reside in the housing.

Source: L. 97: Entire part added, p. 1086, § 2, effective July 1.

25-7-1103. Powers and duties of air quality control commission - rules. (1) The commission shall promulgate rules pursuant to section 24-4-103, C.R.S., as necessary to implement this part 11 under the requirements of the federal "Residential Lead-Based Paint Hazard Reduction Act of 1992", 15 U.S.C. secs. 2682, 2684, and 2686, as amended, including the following:

(a) Procedures for a training and certification program for persons and companies involved in inspection, risk assessment, planning, project design, supervision, or conduct of the abatement of surfaces containing lead-based paint, as such actions are defined in the federal "Residential Lead-based Paint Hazard Reduction Act of 1992", in target housing or child-occupied facilities;

(b) Performance standards and practices for lead abatement;

(c) Procedures for the approval of persons or companies who provide training or accreditation for workers, supervisors, inspectors, risk assessors, or project designers performing lead-based paint activities in target housing or child-occupied facilities;

(d) Procedures for notification to appropriate persons regarding lead-based paint projects in target housing or child-occupied facilities; and

(e) Establishment of fees for certification of persons under paragraph (a) of this subsection (1), for any necessary monitoring of such persons to ensure compliance with this part 11, and for approval of persons or companies involved in the training or accreditation under paragraph (c) of this subsection (1).

(f) (I) Requirements for each person who performs for compensation a renovation of target housing to provide a lead hazard information pamphlet to the owner and occupant of such housing prior to commencing the renovation.

(II) If the federal funding necessary to comply with this paragraph (f) is revoked, the division shall not be required to comply with this paragraph (f) until such funding is restored.

(2) (a) The requirements for the training and certification program established by the commission under paragraph (a) of subsection (1) of this section shall not be more stringent than:

(I) The training and certification requirements established by the federal "Residential Lead-based Paint Hazard Reduction Act of 1992" or federal rules promulgated pursuant to such act; or

(II) The training and certification requirements of any program that has been established under the federal "Residential Lead-based Paint Hazard Reduction Act of 1992" and that has been approved by the federal environmental protection agency.

(b) The commission shall consider prior experience in abatement of lead-based paint hazards when establishing training and certification requirements.

(3) The provisions of this part 11 apply only to lead-based paint hazards.

Source: L. 97: Entire part added, p. 1088, § 2, effective July 1. **L. 2006:** IP(1) amended and (1)(f) added, p. 131, § 1, effective August 7.

25-7-1104. Duties of air pollution control division - certification of trained individuals. (1) Pursuant to the federal "Residential Lead-based Paint Hazard Reduction Act of 1992", 15 U.S.C. secs. 2682 and 2684, et seq., as amended, the division shall implement, coordinate, and oversee the implementation of the rules promulgated by the commission, including, but not limited to:

(a) Certifying any person or company involved in inspection, risk assessment, planning, project design, supervision, or conduct of the abatement of surfaces containing lead-based paint, as such actions are defined in the federal "Residential Lead-based Paint Hazard Reduction Act of 1992", in target housing or child-occupied facilities; and

(b) Taking actions necessary to enforce such rules of the commission.

(2) Other than training and certification requirements, which are deemed to be matters of statewide concern, the division may delegate the implementation or enforcement of standards under this part 11 to local health or building departments, as appropriate, if requested by such a local department. The air quality control commission shall establish standards regarding such delegations to local health and building departments.

Source: L. 97: Entire part added, p. 1089, § 2, effective July 1.

25-7-1105. Fees. (1) (a) The commission shall promulgate rules to establish the fees required under this part 11.

(b) The commission shall adjust the fees so that the revenue generated from such fees is sufficient to cover the direct and indirect costs to implement the lead hazard reduction program under this part 11 and part 11 of article 5 of this title.

(2) All fees collected by the division or its designee pursuant to this part 11 shall be transmitted to the state treasurer, who shall credit the same to the lead hazard reduction cash fund established pursuant to section 25-5-1106. The general assembly shall appropriate from such fund to the department of public health and environment sufficient moneys to implement the provisions of this part 11 and part 11 of article 5 of this title.

Source: L. 97: Entire part added, p. 1089, § 2, effective July 1.

25-7-1106. Enforcement. Whenever the division or its designee has reason to believe that any person has violated any of the provisions of this part 11 or the rules promulgated thereunder, the division or its designee may commence an enforcement action pursuant to section 25-7-115.

Source: L. 97: Entire part added, p. 1089, § 2, effective July 1.

25-7-1107. Applicability of article - child-occupied facilities and target housing. Nothing in this article shall be interpreted to affect any facility or location other than a child-occupied facility or target housing.

Source: L. 97: Entire part added, p. 1089, § 2, effective July 1.

PART 12

VOLUNTARY EMISSION LIMITATIONS

25-7-1201. Legislative declaration. The general assembly hereby finds, determines, and declares that voluntary emission limitations are an effective and efficient way to reduce emissions of air pollutants. However, the uncertainty of future control requirements impedes an owner or operator of a stationary source or group of stationary sources from making the investments necessary to voluntarily reduce emissions. The department of public health and environment should encourage all owners and operators of stationary sources or groups of stationary sources to voluntarily reduce emissions by providing, to the extent possible, certainty with respect to future control requirements.

Source: L. 98: Entire part added, p. 1044, § 1, effective July 1.

25-7-1202. Definitions. The definitions contained in section 25-7-103 shall apply to this part 12. In addition, the following definitions shall apply to this part 12:

(1) "Actual emissions" means the average amount of emissions, calculated in tons per year, that the stationary source or group of stationary sources emitted during the three-year period immediately prior to the date the proposed voluntary agreement was submitted to the division for review so long as the three-year time period is representative of normal unit operation. A different time period may be used to calculate actual emissions if such time period is more representative of normal unit operation than the three-year period immediately prior to the date the proposed voluntary agreement was submitted to the division.

(2) "Actual emission rate" means the average rate of emissions, calculated in pounds per million BTU or a comparable measure of the mass of emissions per unit of production, that the stationary source or group of stationary sources emitted during the three-year period immediately prior to the date the proposed voluntary agreement was submitted to the

division for review so long as the three-year time period is representative of normal unit operation. A different time period may be used to calculate the actual emission rate if such time period is more representative of normal unit operation than the three-year period immediately prior to the date the proposed voluntary agreement was submitted to the division.

Source: L. 98: Entire part added, p. 1044, § 1, effective July 1.

25-7-1203. Voluntary agreements. (1) The owner or operator of any stationary source or group of stationary sources may obtain regulatory assurance, as described in section 25-7-1204, by entering into a voluntary agreement pursuant to this part 12. The parties to the proposed voluntary agreement shall negotiate in good faith to reach a voluntary agreement as expeditiously as possible. The owner or operator shall provide the division with any information necessary to evaluate the terms and conditions of the proposed voluntary agreement. The parties to the proposed voluntary agreement shall structure the emission limitations or emission reductions contained in a voluntary agreement so as to minimize costs and maximize the operational flexibility available to the owner or operator of the stationary source or group of stationary sources by using, among other things, numeric emission limits, annual emission limits, or emissions averaging across several emission points or sources, as appropriate.

(2) The division shall evaluate the emission limitations contained in a proposed voluntary agreement to determine whether they will result in reductions in actual emissions or actual emission rates, will result in emission reductions earlier than would be required by existing laws or regulations, will result in emission reductions significantly greater than required by existing laws or regulations, and will protect human health or the environment. The division shall also evaluate the assurance period proposed in the voluntary agreement based on the following factors:

- (a) The environmental benefits of the emission limitations and their significance;
- (b) The time necessary to achieve the emission limitations;
- (c) The capital, operating, and other costs associated with achieving the emission limitations; and
- (d) The energy impacts and environmental impacts not related to air quality of achieving the emission limitations.

(3) After conducting the evaluation required in subsection (2) of this section, the division may reject any proposed voluntary agreement that does not meet the requirements of this section. If the division rejects the proposed voluntary agreement, the owner or operator of the stationary source or group of stationary sources may petition the commission for review of the proposed voluntary agreement and the division's rejection thereof in accordance with the rules promulgated by the commission.

(4) If the division finds that the emission limitations and the assurance period proposed in a voluntary agreement meet the requirements of this section, the division shall submit the proposed voluntary agreement to the commission for approval. The commission shall provide the public with notice and an opportunity to comment on the proposed voluntary agreement. The commission shall act upon the voluntary agreement as expeditiously as possible. The commission shall approve the voluntary agreement unless it finds by substantial evidence that the proposed voluntary agreement is inconsistent with the requirements of this part 12. In no event shall the commission adopt emission limitations or an assurance period different than proposed in the voluntary agreement without the express written approval of the owner or operator of the stationary source or group of stationary sources subject to the agreement.

(5) If the commission approves the proposed voluntary agreement, the emission limitations and other provisions contained in the voluntary agreement shall be enforceable under this article against the stationary source or group of stationary sources in accordance with the terms and conditions contained in the voluntary agreement. Such enforcement may include any appropriate mechanism, including rule, permit condition, or consent order.

(6) No voluntary agreement or the underlying emission limitations under subsection (1) of this section shall be made federally enforceable without the written consent of the owner or operator of the stationary source or group of stationary sources.

(7) Except as provided in this part 12 or other applicable law, no voluntary agreement entered into under this part 12 shall alter any existing federal or state requirement otherwise applicable to the stationary source or group of stationary sources subject to such agreement.

(8) The commission may adopt any rules, procedures, or combination thereof necessary to implement this part 12. Notwithstanding this authority, the division may negotiate and evaluate proposed voluntary agreements, and the commission may approve proposed voluntary agreements and review the division's rejection of a proposed voluntary agreement as of July 1, 1998.

Source: L. 98: Entire part added, p. 1045, § 1, effective July 1.

25-7-1204. Regulatory assurances. (1) Except as provided in this section and in section 25-7-1205, the owner or operator of a stationary source or group of stationary sources who enters into a voluntary agreement pursuant to section 25-7-1203 shall be granted the regulatory assurances provided in this section. For the assurance period set forth in the voluntary agreement, not to exceed fifteen years, a stationary source or group of stationary sources subject to the voluntary agreement shall not be required to install additional pollution control equipment or implement additional pollution control strategies to reduce emissions of the air pollutant subject to the emission limitations contained in the voluntary agreement in order to comply with:

(a) State regulatory requirements that are based exclusively on state authority and that, either directly or indirectly, necessitate reductions in the air pollutant subject to the voluntary agreement; or

(b) Federal regulatory requirements that:

(I) Either directly or indirectly necessitate reductions in emissions of the air pollutant subject to the voluntary agreement;

(II) Establish generally applicable goals for the reductions of ambient concentrations of the air pollutant subject to the voluntary agreement or its chemical products; and

(III) Do not establish requirements that apply specifically to the stationary source or group of stationary sources.

(2) Notwithstanding subsection (1) of this section, the owner or operator of the stationary source or group of stationary sources may be required to comply with federal regulatory requirements if:

(a) The owner or operator has agreed in writing to abide by the requirements; or

(b) The commission promulgates the requirements in regulations that first require all other sources, including mobile sources, of the air pollutant within the affected region within Colorado to implement all available cost-effective measures to reduce emissions of the air pollutant. Such regulations, including the requirements contained therein applicable to the stationary source or group of stationary sources subject to the voluntary agreement, shall not apply to any stationary source or group of stationary sources unless and until the general assembly acts to postpone the expiration of the regulations in accordance with section 24-4-103, C.R.S.

Source: L. 98: Entire part added, p. 1047, § 1, effective July 1.

25-7-1205. Exceptions. (1) The regulatory assurances provided in section 25-7-1204 shall not apply to the following permit requirements, emission control requirements, or emission limitations:

(a) Additional requirements provided under section 111 of the federal act, as defined in section 25-7-103 (12), or parts 2 and 3 of this article by any modification or reconstruction of a stationary source after the date of the voluntary agreement;

(b) Emission limitations established for hazardous air pollutants identified in section 112 of the federal act;

- (c) Requirements established to implement Title VI and section 112 (r) of the federal act; and
- (d) Requirements applicable to mobile sources.

Source: L. 98: Entire part added, p. 1048, § 1, effective July 1.

25-7-1206. Coal-fired power plants. (1) (a) If the owner or operator of a coal-fired power plant or group of coal-fired power plants reduces the uncontrolled sulfur dioxide emission rate, measured in either pounds per million BTU or tons per year, by an average of at least seventy percent and the actual emission rate of sulfur dioxide by an average of at least fifty percent from one or more units located within the same airshed, regardless of whether the units are located on the same plant site, and such reductions are pursuant to a voluntary agreement entered into under section 25-7-1203, the assurance period for such units shall be a period ending fifteen years after the date established for achieving the voluntary emission limitations under the agreement.

(b) If the owner or operator of any coal-fired power plant that includes one or more units, each of which already has emission control technologies in place to reduce sulfur dioxide emissions by at least sixty-five percent from uncontrolled levels, significantly reduces the actual emission rate of sulfur dioxide and such reduction is pursuant to a voluntary agreement entered into under section 25-7-1203, the assurance period for such units shall be no more than fifteen years from the date the emissions reductions are achieved. Such a coal-fired power plant that is the subject of a certification of visibility impairment in a federally designated class 1 area as of July 1, 1998, may not enter into a voluntary agreement addressing the pollutants subject to the certification of visibility of impairment under section 25-7-1203 unless:

(I) The owner or operator of the plant has negotiated a settlement with the division that resolves all matters related to such certification of visibility impairment; and

(II) The voluntary agreement is fully consistent with the terms and conditions of the negotiated settlement.

(c) A coal-fired power plant or group of plants may achieve the emission reductions required by this section through a voluntary agreement that allows the plant or group of plants to control emissions by methods other than the installation and operation of pollution control equipment. Such methods may include but are not limited to burning low-sulfur coal, reducing the operation of units, retiring units, and changing fuels. If such methods are included in a voluntary agreement, the agreement shall include the procedure by which the division shall calculate the emission reductions to be obtained by such methods.

(2) It is the intent of the general assembly that the commission should consider any coal-fired power plant or power plants located within the same airshed that are achieving the emission limitations described in this section under a voluntary agreement to be in compliance with any emission limitation that is based on a technology requirement in the federal act. Such consideration should continue for a period of fifteen years after the date established in the voluntary agreement for achieving the emission limitations that are contained in the voluntary agreement. During the fifteen-year period, the commission, by rule, may require the coal-fired power plant to meet a different emission limitation based on a technology requirement in the federal act if:

(a) The commission finds that a different emission limitation is necessary to comply with the federal act; and

(b) The owner or operator of the coal-fired power plant is not required to begin installation of the required emission control technology unless and until the general assembly has acted to postpone the expiration of the commission's rule in accordance with section 24-4-103, C.R.S.

(3) The general assembly further intends that nothing in subsection (2) of this section shall be construed to create a precedent for the application or interpretation of either the "Colorado Air Pollution Prevention and Control Act", article 7 of title 25, C.R.S., or the federal act in any circumstance other than the execution of voluntary agreements between the state of Colorado and the owners and operators of coal-fired power plants in accordance with this part 12.

25-7-1207. Allowances. Notwithstanding any other provision of this part 12, no owner or operator of a stationary source or group of stationary sources shall lose the benefits of regulatory assurances granted under this part 12 by transferring, selling, banking, or otherwise using allowances established under Title IV of the federal act or by any other federally required trading program of regional or national applicability as a result of entering into a voluntary agreement.

Source: L. 98: Entire part added, p. 1049, § 1, effective July 1.

25-7-1208. Economic or cost-effectiveness analyses not required. Notwithstanding section 25-7-110.5, the commission shall not conduct an economic impact analysis, cost-effectiveness analysis, or any other analyses required by section 25-7-110.5 in considering a voluntary agreement or the emission limitations contained therein.

PART 13

THE SOUTHERN UTE INDIAN TRIBE/ STATE OF COLORADO ENVIRONMENTAL COMMISSION

25-7-1301. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The Southern Ute Indian tribe and the state of Colorado have entered into an intergovernmental agreement, as set forth in House Bill 00-1324, enacted at the second regular session of the sixty-second general assembly and found at 24-62-101, C.R.S.;

(b) Pursuant to said intergovernmental agreement, the tribe and the state have agreed to create a tribal/state environmental commission with the authority to promulgate rules and regulations for one air quality program for all lands, all persons, and all air pollution sources within the exterior boundaries of the Southern Ute Indian reservation;

(c) As governments that share contiguous physical boundaries, it is in the interest of the environment and all residents of the reservation and the state of Colorado to work together to ensure consistent and comprehensive air quality regulation on the reservation;

(d) The establishment of a single collaborative authority for all lands within the exterior boundaries of the reservation best advances rational, sound, air quality management and will minimize duplicative efforts and expenditures of monetary and program resources by the tribe and the state;

(e) Pursuant to the intergovernmental agreement, the tribe will seek delegation from the United States environmental protection agency to administer certain programs under the federal "Clean Air Act", 42 U.S.C. sec. 7401 et seq. (1970), as the same is in effect on November 15, 1990, such delegation being contingent upon the existence of the tribal/state commission and the intergovernmental agreement.

(2) It is the intent of the general assembly in enacting this part 13 to establish state authority for the creation of a commission that will establish a separate reservation air program for all lands within the exterior boundaries of the Southern Ute Indian reservation, as provided in the intergovernmental agreement. Therefore, for the duration of the intergovernmental agreement, all lands within the exterior boundaries of the reservation shall be subject to the authority of the commission and the provisions of the reservation air program, as described in this part 13 and in the intergovernmental agreement, and shall not be subject to the authority of the Colorado air quality control commission or the provisions of parts 1 to 12 of this article, except as otherwise provided in the intergovernmental agreement and in this part 13.

(3) In article IV of the intergovernmental agreement, the tribe and the state agreed that neither party intended to alter the existing sovereignty or jurisdiction of any party, and by

approving the intergovernmental agreement, neither party conceded or agreed to any jurisdiction of the other party that would not otherwise exist. To the extent the state has jurisdiction over non-Indians on fee lands within the exterior boundaries of the reservation, it is the intent of the general assembly in enacting this part 13 that the commission shall exercise such authority for the purposes set forth in this part 13.

(4) The general assembly enacts this part 13 with the understanding that the tribe has also adopted tribal legislation that will carry out the terms of the intergovernmental agreement with respect to persons, air pollution sources, and lands within the reservation that are subject to the jurisdiction of the tribe.

(5) The general assembly hereby declares that its intent in enacting senate bill 02-235 is to ratify the continued existence of the Southern Ute Indian tribe/state of Colorado environmental commission after December 13, 2001.

Source: L. 2000: Entire part added, p. 107, § 1, effective March 15. **L. 2002:** (5) added, p. 1093, § 1, effective June 1.

25-7-1302. Definitions. (1) “Commission” means the Southern Ute Indian tribe/state of Colorado environmental commission established by this part 13.

(2) “Division” means the division in the department of public health and environment that pertains to air pollution control.

(3) “EPA” means the United States environmental protection agency.

(4) “Fee land” means real property located within the reservation that is owned in fee by non-Indians.

(5) “Intergovernmental agreement” means the agreement entered into by the Southern Ute Indian tribe and the state of Colorado, as set forth in House Bill 00-1324, enacted at the second regular session of the sixty-second general assembly.

(6) “Reservation” means the Southern Ute Indian reservation, the exterior boundaries of which were confirmed in the act of May 21, 1984, Pub.L. 98-290, 98 Stat. 201, 202 (found at “other provisions” note to 25 U.S.C. sec. 668).

(7) “Reservation air program” means the regulatory air quality program established by the commission for all persons, lands, and air pollution sources within the exterior boundaries of the reservation.

(8) “State” means the state of Colorado.

(9) “Tribe” means the Southern Ute Indian tribe.

(10) “Trust land” means land within the reservation held in trust by the United States of America for the benefit of the tribe or individual Indians.

Source: L. 2000: Entire part added, p. 108, § 1, effective March 15.

25-7-1303. Southern Ute Indian tribe/state of Colorado environmental commission created. (1) There is hereby created the Southern Ute Indian tribe/state of Colorado environmental commission. The commission is not an agency of the state, but is an authority created pursuant to the intergovernmental agreement. The commission’s actions are not subject to the provisions of the “State Administrative Procedure Act”, article 4 of title 24, C.R.S., but rather are subject to procedural rules adopted by the commission.

(2) The commission shall have authority to adopt air quality standards, promulgate rules and regulations, and review appealable administrative actions pertaining to the reservation air program.

(3) It is the intent of the general assembly that the commission’s rules, regulations, and orders shall be effective against all persons located within the reservation over whom the state would otherwise have jurisdiction as provided by state or federal law.

(4) The commission shall consist of three members appointed by the tribe and three members appointed by the governor. The initial members appointed by the governor shall serve terms as follows: One member shall serve until July 1, 2001, one member shall serve until July 1, 2002, and one member shall serve until July 1, 2003. All subsequent appointments by the governor shall be for terms of three years. The governor’s appointees

shall be residents of the state of Colorado. At least two of such appointees shall be residents of either Archuleta or La Plata county and at least one of such appointees shall reside on fee land.

(5) The governor may remove any member appointed by the governor at any time. The governor may not remove any member appointed by the tribe.

(6) Except as provided in section 25-7-1307, commission members shall not receive any compensation from the state of Colorado for their services in the conduct of commission business. Commission members may be reimbursed for necessary travel and other reasonable expenses incurred in the performance of their official duties out of funds collected or received by the tribe.

(7) Each member shall have one vote. The affirmative vote of a majority of all members of the commission on any matter within its powers and duties shall be required for any final determination made by the commission.

(8) The commission shall annually elect a member to preside as chair. The chair shall alternate annually between a tribal and a state member.

Source: **L. 2000:** Entire part added, p. 109, § 1, effective March 15. **L. 2002:** (4) amended, p. 1093, § 2, effective June 1. **L. 2010:** (4) amended, (SB 10-082), ch. 182, p. 655, § 1, effective April 29.

25-7-1304. Commission - powers and duties - rules. (1) The commission shall be the air quality policy-making and the administrative review entity for the reservation air program.

(2) The duties of the commission shall include the responsibility to:

(a) Determine the specific air quality programs under the federal "Clean Air Act", or other air quality programs, that should apply to the reservation, taking into account the specific environmental, economic, geographic, and cultural needs of the reservation;

(b) Promulgate rules and regulations that are necessary for the proper implementation and administration of those programs, including determining which administrative actions are appealable to the commission;

(c) Establish procedures the commission will follow in promulgating rules and regulations and for administrative review of actions taken by the tribe;

(d) Review and approve of a long-term plan, initially prepared by the tribe, to improve and maintain air quality within the reservation, which also takes into account regional planning in the La Plata and Archuleta county region;

(e) Monitor the relationships among the state and tribal environmental protection agencies to facilitate cooperation, information sharing, technical assistance, and training;

(f) Review enforcement actions according to the commission's adopted administrative procedures;

(g) Approve and adopt fees for permits and other regulatory services conducted by the tribe or the state, after considering a proposed fee schedule prepared by the tribe, and direct payment by air pollution sources to the tribe;

(h) Ensure consistency and adherence to applicable standards and resolving disputes involving third parties;

(i) Review emission inventories as developed by the tribe and state;

(j) Conduct public hearings pertaining to the adoption of rules and regulations, or relating to enforcement and permit appeals, and to issue orders resulting from those proceedings;

(k) Request tribal staff to perform any administrative or clerical functions necessary to issue orders and conduct commission business, or the commission, at its option, may appoint a technical secretary to perform such duties; except that no authority shall be delegated to adopt, promulgate, amend, or repeal standards or regulations, or to make determinations, or to issue or countermand orders of the commission;

(l) Any other duties necessary to accomplish the purposes of the intergovernmental agreement and as authorized by the state and tribe enabling legislation.

Cross references: For the federal “Clean Air Act”, see 42 U.S.C. sec. 7401 et seq.; for delegation of the right to administer programs, see § 25-7-1301 (1)(e).

25-7-1305. Administration of reservation air program. (1) After the commission has adopted rules and regulations for the reservation air program and after the EPA has delegated to the tribe administration of programs under the federal “Clean Air Act”, the tribe shall administer and enforce the standards, rules, and regulations adopted by the commission for the reservation air program. The actions of the tribe pursuant to this section and this part 13 shall apply to any non-Indian air pollution source within the reservation as if the state had taken the same action.

(2) Until the EPA delegates to the tribe the authority to administer federal “Clean Air Act” programs, the Colorado air quality control commission and the division shall have authority under this article to continue to enforce any state program or permits, laws, and regulations for any non-Indian owned air pollution sources on fee land within the reservation. The division shall afford the tribe the opportunity to participate in its regulatory activities involving such sources, including the review of permit applications, notices of violations, or other orders, inspections, and other enforcement actions.

Source: L. 2000: Entire part added, p. 111, § 1, effective March 15.

Cross references: For the federal “Clean Air Act”, see 42 U.S.C. sec. 7401 et seq.; for delegation of the right to administer programs, see § 25-7-1301(1)(e).

25-7-1306. Agencies of state to cooperate. (1) Agencies of the state, including but not limited to the division, may provide technical assistance, training, and consultation to the tribe to carry out the purposes of the intergovernmental agreement and this part 13.

(2) The general assembly authorizes state agencies to perform duties on behalf of the commission to administer the reservation air program. State agencies may contract with the tribe to receive payment for the reasonable cost of the services state employees perform for the tribe or the commission.

Source: L. 2000: Entire part added, p. 111, § 1, effective March 15.

25-7-1307. Funding for staff and program costs. (1) The commission shall establish fees for permits and other regulatory services provided by the division or the tribe under this part 13. The commission shall direct air pollution sources to pay said fees to the tribe. The tribe may also apply for and receive EPA grants for the administration of the reservation air program.

(2) From the fees and grants, the tribe shall fund the staff and program costs necessary to perform the tribe’s duties under the intergovernmental agreement and this part 13. The tribe shall pay the state for the personal services costs, at a rate of compensation determined by contract, of any state employee who participates in the administration of the reservation air program pursuant to the intergovernmental agreement or this part 13.

(3) It is the intent of the general assembly that fees and grants shall pay the necessary expenses of the commission. If the fees and grants are not sufficient to pay the commission’s expenses, then the state and the tribe shall be responsible for funding associated with the participation of their respective representatives on the commission. State funding for its expenses must come from either a separate appropriation to the division or from funds otherwise available that the state is authorized to use for such a purpose.

(4) Prior to the establishment and collection of fees from air pollution sources under the reservation air program, the tribe may have expenses associated with its administration of permits for non-Indian owned sources on fee land. If the state continues to collect fees under section 25-7-114.7 from air pollution sources on fee lands, and if the tribe has expenses associated with the administration of a state-issued permit, then the division is authorized

to use such permit and other fees to pay for the tribe's personal services costs. The state is authorized to contract with the tribe setting forth the reasonable cost for such services performed by the tribe.

Source: L. 2000: Entire part added, p. 112, § 1, effective March 15.

25-7-1308. Administrative and judicial review of commission actions. (1) Prior to the formation of the commission, the adoption of the federal legislation contemplated in the intergovernmental agreement, and actual EPA delegation of federal "Clean Air Act" programs:

(a) The state, through the Colorado air quality control commission and the division, shall exercise civil and criminal enforcement jurisdiction over non-Indians on fee lands within reservation boundaries for violations of applicable air quality permits, laws, and regulations.

(b) Appeals of state air enforcement action and other air quality-related decisions may be brought in state court consistent with state law and regulation.

(c) The tribe shall exercise jurisdiction over Indians, on all lands within the boundaries of the reservation, and over non-Indians on trust land, for violations of applicable tribal air quality regulations.

(d) Nothing in this part 13 is intended to restrict, diminish, or define the jurisdiction of the EPA.

(2) Following the adoption of the federal legislation and the EPA delegation of federal "Clean Air Act" programs:

(a) The tribe shall exercise civil enforcement jurisdiction over all persons and air pollution sources on all lands within reservation boundaries for violations of the reservation air program, subject to administrative review by the commission; and

(b) Consistent with the federal legislation provided in the intergovernmental agreement, the general assembly intends that final decisions of the commission shall be subject to review in federal district court in accordance with the provisions of the federal "Administrative Procedure Act".

(3) Following the formation of the commission and the adoption of the federal legislation provided in the intergovernmental agreement, it is the intent of the general assembly that the EPA will exercise criminal enforcement jurisdiction over any persons on all lands within reservation boundaries for criminal violations of the reservation air program.

Source: L. 2000: Entire part added, p. 112, § 1, effective March 15.

Cross references: For the federal "Administrative Procedure Act", see 5 U.S.C. secs. 551-559, 701-706, 1305, 3105, 3344, 4301, 5335, 5372, and 7521; for the federal "Clean Air Act", see 42 U.S.C. sec. 7401 et seq.; for delegation of the right to administer programs, see § 25-7-1301 (1)(e).

25-7-1309. Repeal of part. (1) This part 13 shall be repealed on the occurrence of any one of the following events:

(a) Termination of the intergovernmental agreement by either the tribe or the state; or

(b) Enactment of an explicit repeal by the general assembly, acting by separate bill.

(c) (Deleted by amendment, L. 2010, (SB 10-082), ch. 182, p. 655, § 2, effective April 29, 2010.)

25-8-102. Legislative declaration. (1) In order to foster the health, welfare, and safety of the inhabitants of the state of Colorado and to facilitate the enjoyment and use of the scenic and natural resources of the state, it is declared to be the policy of this state to prevent injury to beneficial uses made of state waters, to maximize the beneficial uses of water, and to develop waters to which Colorado and its citizens are entitled and, within this context, to achieve the maximum practical degree of water quality in the waters of the state consistent with the welfare of the state. It is further declared that pollution of state waters may constitute a menace to public health and welfare, may create public nuisances, may be harmful to wildlife and aquatic life, and may impair beneficial uses of state waters and that the problem of water pollution in this state is closely related to the problem of water

pollution in adjoining states.

(2) It is further declared to be the public policy of this state to conserve state waters and to protect, maintain, and improve, where necessary and reasonable, the quality thereof for public water supplies, for protection and propagation of wildlife and aquatic life, for domestic, agricultural, industrial, and recreational uses, and for other beneficial uses, taking into consideration the requirements of such uses; to provide that no pollutant be released into any state waters without first receiving the treatment or other corrective action necessary to reasonably protect the legitimate and beneficial uses of such waters; to provide for the prevention, abatement, and control of new or existing water pollution; and to cooperate with other states and the federal government in carrying out these objectives.

(3) It is further declared that protection of the quality of state waters and the prevention, abatement, and control of water pollution are matters of statewide concern and affected with a public interest, and the provisions of this article are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

(4) This article and the agencies authorized under this article shall be the final authority in the administration of water pollution prevention, abatement, and control. Notwithstanding any other provision of law, no department or agency of the state, and no municipal corporation, county, or other political subdivision, having jurisdiction over water pollution prevention, abatement, and control, shall issue any authorization for the discharge of pollutants into state waters unless authorized to do so in accordance with this article.

(5) It is further declared that the general assembly intends that this article shall be construed to require the development of a water quality program in which the water quality benefits of the pollution control measures utilized have a reasonable relationship to the economic, environmental, energy, and public health costs and impacts of such measures, and that before any final action is taken, with the exception of any enforcement action, consideration be given to the economic reasonableness of the action. Such consideration shall include evaluation of the benefits derived from achieving the goals of this article and of the economic, environmental, public health, and energy impacts to the public and affected persons.

25-8-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Agricultural chemical” means any of the following:

- (a) A pesticide as defined in section 35-10-103, C.R.S.; or
- (b) A commercial fertilizer as defined in section 35-12-103, C.R.S.

(1.1) “Agricultural management area” means a designated geographic area defined by the commissioner of agriculture that includes natural or man-made features where there is a significant risk of contamination or pollution of groundwater from agricultural activities conducted at or near the land surface.

(1.2) “Agricultural management plan” means any activity, procedure, or practice adopted as a rule by the commissioner of agriculture pursuant to article 4 of title 24, C.R.S., in consultation with the Colorado cooperative extension service and the water quality control division, to prevent or remedy the introduction of agricultural chemicals into groundwater to the extent technically and economically practical.

(1.3) “Best management practices” means any voluntary activity, procedure, or practice established by the department of agriculture, in consultation with the Colorado cooperative extension service and the water quality control division, to prevent or remedy the introduction of agricultural chemicals into groundwater to the extent technically and economically practical.

(1.4) “Biosolids” means the accumulated residual product resulting from a domestic wastewater treatment works or other domestic sources. “Biosolids” does not include grit or screenings from a wastewater treatment works or commercial and industrial septage or on-site wastewater treatment systems regulated by article 10 of this title.

(1.5) “Commission” means the water quality control commission created by section 25-8-201.

(1.7) “Commissioner” means the commissioner of agriculture.

(2) “Control regulation” means any regulation promulgated by the commission pursuant to section 25-8-205.

(3) “Discharge of pollutants” means the introduction or addition of a pollutant into state waters.

(4) “Division” means the division of administration of the department of public health and environment.

(5) “Domestic wastewater treatment works” means a system or facility for treating, neutralizing, stabilizing, or disposing of domestic wastewater which system or facility has a designed capacity to receive more than two thousand gallons of domestic wastewater per day. The term “domestic wastewater treatment works” also includes appurtenances to such system or facility, such as outfall sewers and pumping stations, and to equipment related to such appurtenances. The term “domestic wastewater treatment works” does not include industrial wastewater treatment plants or complexes whose primary function is the treatment of industrial wastes, notwithstanding the fact that human wastes generated incidentally to the industrial processes are treated therein.

(6) “Effluent limitation” means any restriction or prohibition established under this article or federal law on quantities, rates, and concentrations of chemical, physical, biological, and other constituents which are discharged from point sources into state waters, including, but not limited to, standards of performance for new sources, toxic effluent standards, and schedules of compliance.

(7) “Executive director” means the executive director of the department of public health and environment.

(8) “Federal act” means the “Federal Water Pollution Control Act”, commonly referred to as the “Clean Water Act”.

(8.5) “Industrial discharger” means any entity which introduces pollutants into a domestic wastewater treatment works from any nondomestic source subject to regulation under section 307 (b), (c), or (d) of the federal act.

(9) “Irrigation return flow” means tailwater, tile drainage, or surfaced groundwater flow from irrigated land.

(10) “Issue” or “issuance” means the mailing to all parties of any order, permit, determination, or notice, other than notice by publication, by certified mail to the last address furnished to the agency by the person subject thereto or personal service on such person, and the date of issuance of such order, permit, determination, or notice shall be the date of such mailing or service or such later date as is stated in the order, permit, determination, or notice.

(11) “Municipality” means any regional commission, county, metropolitan district offering sanitation service, sanitation district, water and sanitation district, water conservancy district, metropolitan sewage disposal district, service authority, city and county, city, town, Indian tribe or authorized Indian tribal organization, or any two or more of them which are acting jointly in connection with a sewage treatment works.

(12) “Permit” means a permit issued pursuant to part 5 of this article.

(13) “Person” means an individual, corporation, partnership, association, state or political subdivision thereof, federal agency, state agency, municipality, commission, or interstate body.

(14) "Point source" means any discernible, confined, and discrete conveyance, including, but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged. "Point source" does not include irrigation return flow.

(15) "Pollutant" means dredged spoil, dirt, slurry, solid waste, incinerator residue, sewage, sewage sludge, garbage, trash, chemical waste, biological nutrient, biological material, radioactive material, heat, wrecked or discarded equipment, rock, sand, or any industrial, municipal, or agricultural waste.

(16) "Pollution" means the man-made, man-induced, or natural alteration of the physical, chemical, biological, and radiological integrity of water.

(16.5) "Pretreatment requirement and standard" means any requirement, prohibition, standard, concentration, or effluent limitation described in enforceable pretreatment requirements by the commission pursuant to section 25-8-205 (1) (b), (1) (c), or (1) (d).

(17) "Promulgate" means and includes authority to adopt, and from time to time amend, repeal, modify, publish, and put into effect.

(17.5) "Reclaimed domestic wastewater" means wastewater that has received treatment that enables the wastewater to meet the requirements, prohibitions, standards, and concentration limitations adopted by the commission for subsequent reuses other than drinking.

(18) "Schedule of compliance" means a schedule of remedial measures and times including an enforceable sequence of actions or operations leading to compliance with any control regulation or effluent limitation.

(19) "State waters" means any and all surface and subsurface waters which are contained in or flow in or through this state, but does not include waters in sewage systems, waters in treatment works of disposal systems, waters in potable water distribution systems, and all water withdrawn for use until use and treatment have been completed.

(20) "Water quality standard" means any standard promulgated pursuant to section 25-8-204.

Source: **L. 81:** Entire article R&RE, p. 1311, § 1, effective July 1. **L. 90:** (1) R&RE and (1.1) to (1.3), (1.5), (1.7), (8.5), and (16.5) added, pp. 1329, 1337, §§ 1, 2, 1, effective July 1. **L. 93:** (1.4) added, p. 1578, § 1, effective July 1. **L. 94:** (4) and (7) amended, p. 2789, § 517, effective July 1. **L. 2000:** (17.5) added, p. 252, § 1, effective March 31. **L. 2012:** (1.4) amended, (HB 12-1126), ch. 137, p. 494, § 3, effective August 8.

Cross references: (1) For the "Federal Water Pollution Control Act", see Pub.L. 92-500, October 18, 1972, 86 Stat. 816, 33 U.S.C. 1251 et seq.

(2) For the legislative declaration contained in the 1994 act amending subsections (4) and (7), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-8-104. Interpretation and construction of water quality provisions. (1) No provision of this article shall be interpreted so as to supersede, abrogate, or impair rights to divert water and apply water to beneficial uses in accordance with the provisions of sections 5 and 6 of article XVI of the constitution of the state of Colorado, compacts entered into by the state of Colorado, or the provisions of articles 80 to 93 of title 37, C.R.S., or Colorado court determinations with respect to the determination and administration of water rights. Nothing in this article shall be construed, enforced, or applied so as to cause or result in material injury to water rights. The general assembly recognizes that this article may lead to dischargers choosing consumptive types of treatment techniques in order to meet water quality requirements. Under such circumstances, the discharger must comply with all of the applicable provisions of articles 80 to 93 of title 37, C.R.S., and shall be obliged to remedy any material injury to water rights to the extent required under the provisions of articles 80 to 93 of title 37, C.R.S. The question of whether such material injury to water rights exists and the remedy therefor shall be determined by the water court. This section shall not be interpreted so as to prevent the issuance of a permit pursuant to sections 25-8-501 to 25-8-503 which is necessary to protect public health. Nothing in this article shall be

construed to allow the commission or the division to require minimum stream flows or minimum water levels in any lakes or impoundments.

(2) The following criteria, in addition to those otherwise prescribed by law, shall apply to any policy, rule-making, adjudicatory, administrative, or executive decision of the water quality control commission or to any judicial decision related thereto:

(a) All state waters shall be presumed to be available for beneficial uses under and in accordance with the constitution and laws of the state; and a water right includes the right to divert as defined in section 37-92-103 (7), C.R.S., the waters of the state for application to beneficial use.

(b) The commission or division shall not require an instream flow for any purpose.

(c) Mixing zones in state waters shall be allowed in accordance with other provisions of this article in calculating the necessary degree of source pollutant control, so long as water rights are not materially injured.

(d) The commission and division shall consult with the state engineer and the water conservation board or their designees before making any decision or adopting any rule or policy which has the potential to cause material injury to water rights.

(e) Underground water may be extracted from state waters in order to treat or remove pollutants from the water extracted; except that any material injury to water rights resulting therefrom shall be remedied as required by law.

(3) The state engineer shall issue well permits pursuant to section 37-90-137 (2), C.R.S., necessary to accomplish the purposes of paragraph (e) of subsection (2) of this section. Well construction shall be in accordance with article 91 of title 37, C.R.S.

For article, "Quality Versus Quantity: The Continued Right to Appropriate — Part I", see 15 Colo. Law. 1035 (1986). For article, "The Burden of Maintaining Colorado's Water Quality", see 18 Colo. Law. 23 (1989). For article, "Water Rights Protection In Water Quality Law", see 60 U. Colo. L. Rev. 841 (1990). For article, "What is a 'Material Injury' to a Water Right?", see 19 Colo. Law. 1333 (1990).

The water court is not required to consider environmental factors to determine whether to grant conditional water right decree. Matter of Bd. of County Comm'rs, 891 P.2d 952 (Colo. 1995).

Water quality regulation that affects water rights without causing material injury or impairment is not necessarily prohibited. City of

Thornton v. Bijou Irrigation Co., 926 P.2d 1 (Colo. 1996).

The legislative water quality scheme is not designed to protect against quality impacts unrelated to discharges or substitute water and specifically prohibits the water court from imposing the protective measures necessary to remedy depletive impacts of upstream appropriations on a downstream appropriator who is concerned that decreased water quantity caused by city's upstream appropriation will result in water quality problem. City of Thornton v. Bijou Irrigation Co., 926 P.2d 1 (Colo. 1996).

The legislature prohibited the Colorado water quality control commission and the water quality division from imposing minimum instream flows in the course of their water quality protection activities. City of Thornton v. Bijou Irrigation Co., 926 P.2d 1 (Colo. 1996).

Under Colorado law, water quality standards apply to discharges of pollution and not to withdrawals or appropriations of water. Colo. Wild, Inc. v. U.S. Forest Serv., 122 F. Supp. 2d 1190 (D. Colo. 2000).

25-8-105. Regional wastewater management plans - amendments. (1) (a) Regional wastewater management plans which include plans known for purposes of the federal act as "208 plans" may be developed by designated planning agencies or by the state for nondesignated areas or for statewide purposes.

(b) Before submitting a proposed plan or amendment to the division, the designated planning agency shall hold a hearing on the proposed plan or amendment.

(c) The division shall consider any proposed plan or amendment developed by the state.

(d) Notice of a hearing to be held pursuant to this subsection (1) shall be given by at least one publication in a newspaper of general distribution in the area of the proposed plan, and actual notice shall be given to anyone requesting such notice. Such notice shall advise of the opportunity for interested persons to appear and submit written or oral comments on the proposed plan or amendment. The agency holding the hearing shall receive and consider all comments submitted on the proposed plan or amendment.

(2) Each regional wastewater management plan and each amendment to such a plan must be either developed or reviewed by the division.

(3) (a) The commission, after notice and hearing, shall approve or reject proposed regional wastewater management plans and amendments thereto. The commission shall approve, conditionally approve, or reject a plan or an amendment developed by a management or planning agency within one hundred eighty days after submittal of the plan or amendment by the management or planning agency to the division. Only those portions of a regional wastewater management plan which are adopted as a regulation by the commission pursuant to section 24-4-103, C.R.S., shall be binding on regulatory decisions, including, but not limited to, site approvals, construction grants, or point or nonpoint source control decisions. Only those plans or portions thereof which are adopted by the commission as regulations shall be binding for purposes of any federal law, regulation, or action.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), the commission may delegate to the division the authority to approve, conditionally approve, or reject nonrule-making amendments to regional wastewater management plans. If the commission delegates such authority, the division shall give notice of its decision on an amendment to the commission and to anyone who has requested notice of amendments to the affected plan. Notice of such decision shall also be included on the next commission agenda. Upon a request by any affected person, the commission shall review the division's decision. The decision of the division shall be final within forty-five days after agenda notice of the decision has been given unless review is requested by an affected person.

(4) The governor may certify to the federal environmental protection agency a regional wastewater management plan or an amendment thereto which has been approved by the commission or an amendment thereto which has become final after approval by the division. The governor may designate planning agencies for the purposes of the federal act.

25-8-106. Study - organizational placement of water quality control programs. (Repealed)

Source: **L. 92:** Entire section added, p. 1298, § 2, effective July 1. **L. 94:** IP(1), (1)(d), and (2) amended, p. 2789, § 518, effective July 1. **L. 96:** Entire section repealed, p. 1260, § 160, effective August 7.

Cross references: For the legislative declaration contained in the 1996 act repealing this section, see section 1 of chapter 237, Session Laws of Colorado 1996.

PART 2

WATER QUALITY CONTROL COMMISSION

25-8-201. Water quality control commission created. (1) (a) There is hereby created in the department of public health and environment a water quality control commission which shall exercise its powers and perform its duties and functions as if it were transferred to said department by a **type 1** transfer. The commission shall consist of nine citizens of the state who shall be appointed by the governor, with the consent of the senate, for terms of

three years each; except that, of the members appointed to take office in 1984, one shall be appointed for a one-year term, one shall be appointed for a two-year term, and three shall be appointed for three-year terms. Members of the commission shall be appointed so as to achieve geographical representation and to reflect the various interests in water in the state. At least two members shall reside in that portion of the state which is west of the continental divide.

(b) Repealed.

(c) Whenever a vacancy exists, the governor shall appoint a member for the remaining portion of the unexpired term created by the vacancy, subject to confirmation by the senate.

(2) (a) The governor may remove any appointed member of the commission for malfeasance in office, failure to regularly attend meetings, or for any cause that renders such a member incapable or unfit to discharge the duties of his office.

(b) If any member of the commission is absent from two consecutive meetings, the chairman of the commission shall determine whether the cause of such absences was reasonable. If he determines that the cause of the absences was unreasonable, he shall so notify the governor who may remove such member and appoint a qualified person for the unexpired portion of the regular term, subject to confirmation by the senate.

(3) Each member of the commission not otherwise in full-time employment of the state shall receive a per diem which shall be the same amount paid to the general assembly for attendance at interim committees for each day actually and necessarily spent in the discharge of official duties, not to exceed twelve hundred dollars in any one year; and each member shall receive traveling and other necessary expenses actually incurred in the performance of his official duties as a member of the commission.

(4) The commission shall select from its own membership a chairman, a vice-chairman, and a secretary. The commission shall keep a record of its proceedings.

(5) The commission shall hold regular public meetings and may hold special meetings on the call of the chairman or vice-chairman at such other times as deemed necessary. Written notice of the time and place of each meeting shall be mailed to each member at least five days in advance.

(6) All members shall have a vote. Two-thirds of the commission shall constitute a quorum, and the concurrence of a majority of the quorum in any matter within its powers and duties shall be required for any determination made by the commission.

Cross references: For types of administrative transfers, see § 24-1-105.

ANNOTATION

Law reviews. For article, "Oil Shale and Water Quality: The Colorado Prospectus Under Federal, State, and International Law", see 58 Den. L.J. 715 (1981). For article, "Pollution or Resources Out-of-Place: Reclaiming Municipal

Wastewater for Agricultural Use", see 53 U. Colo. L. Rev. 559 (1982). For article, "The Emerging Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

25-8-202. Duties of commission - rules. (1) The commission shall develop and maintain a comprehensive and effective program for prevention, control, and abatement of water pollution and for water quality protection throughout the entire state and, to ensure provision of continuously safe drinking water by public water systems, and, in connection therewith, shall:

- (a) Classify state waters in accordance with section 25-8-203;
- (b) Promulgate water quality standards in accordance with section 25-8-204;
- (c) Promulgate control regulations in accordance with section 25-8-205;
- (d) Promulgate permit regulations in accordance with sections 25-8-501 to 25-8-504;
- (e) Perform duties assigned to the commission in part 7 of this article with respect to

the location, design, construction, financing, and operation of domestic wastewater treatment plants;

(f) Review from time to time, at intervals of not more than three years, classification of waters, water quality standards, and control regulations which it has promulgated;

(g) Promulgate rules and adopt priority ranking for the administration of federal and other public source construction loans or grants, and grants from the water quality improvement fund, which the commission or the division administers and which shall not be expended for any purpose other than that for which they were provided;

(h) Advise and consult and cooperate with other agencies of the state, the federal government, and other states, and with groups, political subdivisions, and industries affected by the provisions of this article and the policies or regulations of the commission;

(i) Exercise all incidental powers necessary or proper for carrying out the purposes of this article including the powers to issue and enforce rules and orders;

(i.5) Promulgate rules and regulations to govern the division's certification activities pursuant to section 401 of the federal act;

(j) Perform such other duties as may lawfully be assigned to it by Colorado statutes;

(k) Act as an appellate body to review all determinations by the division except those determinations dealing with surface water discharge permits or portions thereof;

(l) Coordinate with the United States secretary of the interior and the United States secretary of agriculture to develop water quality management plans for federal lands pursuant to 16 U.S.C. sec. 530, 16 U.S.C. sec. 1604, and 43 U.S.C. sec. 1712;

(m) Adopt rules providing minimum standards for the location, construction, performance, installation, alteration, and use of on-site wastewater treatment systems within the state of Colorado, in accordance with section 25-10-104;

(n) Adopt minimum general sanitary standards for drinking water systems in accordance with section 25-1.5-202;

(o) Develop additions or modifications to the drinking water project eligibility list in accordance with section 37-95-107.8, C.R.S.;

(p) Establish, and revise as necessary, a schedule of nonrefundable fees to cover the reasonable costs of implementing a program for the beneficial use of biosolids, in accordance with section 30-20-110.5, C.R.S.; and

(q) Hear appeals of penalties imposed pursuant to section 25-1-114.1 (2.5) for a violation of minimum general sanitary standards and regulations for drinking water.

(2) The commission shall have authority to implement the legislative declaration as prescribed in section 25-8-102.

(3) The commission shall hold a public hearing during the month of October of each year in order to hear public comment on water pollution problems within the state, alleged sources of water pollution within this state, and the availability of practical remedies therefor; and at such hearing the commission, administrator, and division personnel shall answer reasonable questions from the public concerning administration and enforcement of the various provisions of this article, as well as rules and regulations promulgated under the authority of this article.

(4) The commission shall employ an administrator and shall delegate to such administrator such duties and responsibilities as it may deem necessary, including acting as a hearing officer for the commission; but no authority shall be delegated to such administrator to promulgate standards or regulations, or to make determinations, or to issue or countermand orders of the commission. Such administrator shall have appropriate practical, educational, and administrative experience related to water quality control and shall be employed pursuant to section 13 of article XII of the state constitution.

(5) Repealed.

(6) The commission is hereby designated as the state water pollution control agency for this state for all purposes of the federal act. The commission shall maintain a program which does not conflict with the provisions of the federal act and is hereby authorized to take all action necessary and appropriate to secure to this state, its municipalities, or intermunicipal or interstate agencies the benefits of said act.

(7) The commission and the division shall recognize water quality responsibilities of the following state agencies, referred to in this subsection (7) as the "implementing

agencies”: The office of mined land reclamation; the state engineer; the oil and gas conservation commission; and the state agency responsible for activities related to the federal “Resource Conservation and Recovery Act of 1976”, as amended, and related state programs. Activities subject to the jurisdiction of the implementing agencies that result in discharge to state waters shall be regulated as follows:

(a) The commission shall be solely responsible for the adoption of water quality standards and classifications for state waters affected by such discharges. Except as set forth in paragraph (b) of this subsection (7), such classifications and standards shall be implemented by the implementing agencies, after consultation with the division and the commission, through their own programs. For the purpose of subsection (7), water quality standards and classifications under this section for state waters other than surface waters shall not specify applicable points of compliance, but such points of compliance shall be adopted, in accordance with criteria established through rule-making after public hearing and consultation with the commission and division, by the appropriate agency with jurisdiction as specified in paragraph (b) of this subsection (7) so as to protect present and future beneficial uses of water.

(b) (I) The division shall be solely responsible for the issuance and enforcement of permits authorizing point source discharges to surface waters of the state affected by such discharges.

(II) Neither the commission nor the division shall require permits for, or otherwise regulate, other activities subject to the jurisdiction of the implementing agencies, unless the commission finds, after notice and public hearing, that:

(A) Such regulation is necessary to assure compliance with the federal act, the provisions of articles 80 to 93 of title 37, C.R.S., or water quality standards and classifications adopted for state waters or to protect present and future beneficial uses of water; or

(B) Such regulation is necessary to avoid the imposition of a disproportionate burden on other dischargers or classes of dischargers to the affected state waters who are subject to the requirements of this article; or

(C) The implementing agency fails to provide reasonable assurance that compliance with this subsection (7) has been obtained through its own programs.

(III) Regulation by the commission under this paragraph (b) shall be undertaken solely through the adoption of control regulations under section 25-8-205, or permit regulations under section 25-8-501, and the division may enforce such regulations as provided in this article.

(c) Nothing in this subsection (7) shall relieve any activity from participation in waste load allocation proceedings under this article or limit the emergency authority of the division pursuant to section 25-8-307.

(d) This subsection (7) is intended to restate and clarify existing law and to provide a procedure for coordination between state agencies which have responsibilities to implement water quality protection of state waters. It is not intended either to grant additional jurisdiction to any agency or to curtail the jurisdiction of any agency to fulfill its statutory responsibilities, including jurisdiction to maintain a program consistent with the requirements of the federal “Resource Conservation and Recovery Act of 1976”, as amended.

(8) (a) The commission may adopt rules more stringent than corresponding enforceable federal requirements only if it is demonstrated at a public hearing, and the commission finds, based on sound scientific or technical evidence in the record, that state rules more stringent than the corresponding federal requirements are necessary to protect the public health, beneficial use of water, or the environment of the state. Those findings shall be accompanied by a statement of basis and purpose referring to and evaluating the public health and environmental information and studies contained in the record which form the basis for the commission’s conclusion.

(b) The existing policies, rules, and regulations of the commission and division shall be applied in conformance with section 25-8-104 and this section.

ANNOTATION

Law reviews. For article, “The Burden of Maintaining Colorado’s Water Quality”, see 18 Colo. Law. 23 (1989).

Future as well as existing sources must be considered by the commission to fulfill the purpose of the Act to maximize the beneficial uses of water. *Amax, Inc. v. Water Quality Control Comm’n*, 790 P.2d 879 (Colo. App. 1989).

Judicial review of the commission’s regulations which are predominantly policy determinations is limited to considerations of reasonableness. *Amax, Inc. v. Water Quality Control Comm’n*, 790 P.2d 879 (Colo. App. 1989).

The Colorado water quality control commission and the Colorado water quality control division are expressly delegated authority to approve site locations of wastewater treat-

ment facilities. *Barr Lake Vill. Metro. District v. Colo. Water Quality Control Comm’n*, 835 P.2d 613 (Colo. App. 1992).

When mining company entered into settlement agreement with the mined land reclamation division concerning a permit violation, res judicata did not apply because the division did not have the authority to enforce the permit issued by the Water Quality Control Division. *Mid-Continent Res., Inc. v. Looby*, 877 P.2d 1385 (Colo. App. 1994).

The state engineer’s water quality control responsibilities are integrated into the general administration of water quality under the Water Quality Control Act. *City of Thornton v. Bijou Irrigation Co.*, 926 P.2d 1 (Colo. 1996).

25-8-203. Classification of state waters. (1) The commission may classify state waters.

(2) The types of classes shall be determined by regulations and may be based upon or intended to indicate or describe any relevant characteristic, such as:

(a) The existing extent of pollution or the maximum extent of pollution to be tolerated as a goal;

(b) Whether or not pollution arises from natural sources;

(c) Present beneficial uses of the water, or the beneficial uses that may be reasonably expected in the future for which the water is suitable in its present condition, or the beneficial uses for which it is to become suitable as a goal;

(d) The character and uses of the land area bordering the water;

(e) The need to protect the quality of the water for beneficial uses such as domestic, agricultural, municipal, and industrial uses, the protection and propagation of fish and wildlife, recreation, drinking water, or such beneficial uses as the commission deems consistent with the policies of section 25-8-102 and the need to minimize negative impacts on water rights;

(f) The type and character of the water, such as surface or subsurface, lake or stream, together with volume, flow, depth, stream gradient, temperature, surface area involved, and daily or seasonal variability of any of such characteristics. Waters in ditches and other man-made conveyance structures shall not be classified, and water quality standards shall not be applied to them but may be utilized for purposes of discharge permits.

(3) The particular class into which any particular segment of state waters is placed shall be determined by regulation.

ANNOTATION

Law reviews. For article, "Oil Shale and Water Quality: The Colorado Prospectus Under Federal, State, and International Law", see 58 Den. L.J. 715 (1981). For article, "The Emerg-

ing Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

25-8-204. Water quality standards. (1) Water quality standards shall be promulgated by the commission by regulations which describe water characteristics or the extent of specifically identified pollutants for state waters.

(2) Water quality standards may be promulgated with respect to any measurable characteristic of water, including, but not limited to:

- (a) Toxic substances;
- (b) Suspended solids, colloids, and combinations of solids with other suspended substances;
- (c) Bacteria, fecal coliform, fungi, viruses, and other biological constituents and characteristics;
- (d) Dissolved oxygen, and the extent of oxygen demanding substances;
- (e) Phosphates, nitrates, and other dissolved nutrients;
- (f) pH and hydrogen compounds;
- (g) Chlorine, heavy metals, and other chemical constituents;
- (h) Salinity, acidity, and alkalinity;
- (i) Trash, refuse, oil and grease, and other foreign material;
- (j) Taste, odor, color, and turbidity;
- (k) Temperature.

(3) Water quality standards may be promulgated for use in connection with any one or more of the classes of state waters established by the commission pursuant to section 25-8-203 and may be made applicable with respect to any designated portion of state water or to all state waters.

(4) In promulgating water quality standards, the commission shall consider:

- (a) The need for standards which regulate specified pollutants;
- (b) Such information as may be available to the commission as to the degree to which any particular type of pollutant is subject to treatment; the availability, practicality, and technical and economic feasibility of treatment techniques; the impact of treatment requirements upon water quantity; and the extent to which the discharge to be controlled is significant;

(c) The continuous, intermittent, or seasonal nature of the pollutant to be controlled;

(d) The existing extent of pollution or the maximum extent of pollution to be tolerated as a goal;

- (e) Whether the pollutant arises from natural sources;
- (f) Beneficial uses of water; and
- (g) Such information as may be available to the commission regarding the risk associated with the pollutants including its persistence, degradability, the usual or potential presence of the affected organism in any waters, the importance of the affected organisms, and the nature and extent of the effect of the pollutant on such organisms.

(5) In establishing water quality standards using statistical methodologies or in requiring the use of statistical methodologies for permit or enforcement purposes, statistical methodologies used must be based on assumptions that are compatible with the water quality data.

(6) For the purpose of implementing section 303(c)(2)(B) of the federal act, the commission may adopt numerical water quality standards for toxic pollutants listed pursuant to section 307(a)(1) of the federal act for which criteria have been published under section 304(a) of the federal act, and these standards may be applied in accordance with this article to discharges of pollutants to specified portions or segments of surface waters where such pollutants may be discharged or are present in the affected surface waters and could

reasonably be expected to interfere with classified uses. Monitoring requirements for discharges of such pollutants shall be reasonably related to the potential for the presence of such pollutants in the discharge at levels inconsistent with water quality standards and shall be imposed to the maximum extent practical on those responsible for the presence of the pollutants. This subsection (6) does not in any way limit the commission's authority to adopt water quality standards in order to comply with provisions of the federal act.

(7) If, after full application of publicly owned treatment work authority pursuant to section 307(b)(1) of the federal act, stream standards or effluent limitations established pursuant to subsection (6) of this section are exceeded as a result of a discharge from a publicly owned treatment work, the commission, upon request of a publicly owned treatment work, shall conduct a public hearing to investigate the source of pollution causing such exceedance.

ANNOTATION

Law reviews. For note, "A Survey of Colorado Water Law", see 47 Den. L.J. 226 (1970). For article, "Oil Shale and Water Quality: The Colorado Prospectus Under Federal, State, and International Law", see 58 Den. L.J. 715 (1981). For article, "The Emerging Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

Water quality standards include numerical limits on the concentration of constituents in water and descriptions of water characteristics which are sufficient to protect the particular use classifications. *Amax, Inc., v. Water Quality Control Comm'n*, 790 P.2d 879 (Colo. App. 1989).

25-8-205. Control regulations. (1) The commission may promulgate control regulations for the following purposes:

(a) To describe prohibitions, standards, concentrations, and effluent limitations on the extent of specifically identified pollutants, including, but not limited to, those mentioned in section 25-8-204, that any person may discharge into any specified class of state waters;

(b) To describe pretreatment requirements, prohibitions, standards, concentrations, and effluent limitations on wastes any person may discharge into any specified class of state water from any specified type of facility, process, activity, or waste pile including, but not limited to, all types specified in section 306 (b) (1) (A) of the federal act;

(c) To describe precautionary measures, both mandatory and prohibitory, that must be taken by any person owning, operating, conducting, or maintaining any facility, process, activity, or waste pile that does cause or could reasonably be expected to cause pollution of any state waters in violation of control regulations or that does cause the quality of any state waters to be in violation of any applicable water quality standard;

(d) To adopt toxic effluent standards and pretreatment standards for pollutants which interfere with, pass through, or are otherwise incompatible with sewage treatment works;

(e) To describe requirements, prohibitions, standards, and concentration limitations on the use and disposal of biosolids to protect public health and to prevent the discharge of pollutants into state waters, except as authorized by permit. The commission requirements described pursuant to this paragraph (e) shall be no more restrictive than the requirements adopted for solid wastes disposal sites and facilities pursuant to part 1 of article 20 of title 30, C.R.S., except as necessary to be consistent with section 405 of the federal act. Fees shall be established as set forth in section 30-20-110.5, C.R.S., and the commission shall have no authority to levy additional or duplicative fees.

(f) To describe requirements, prohibitions, standards, and concentration limitations on the reuse of reclaimed domestic wastewater for purposes other than drinking that will protect public health and encourage the reuse of reclaimed domestic wastewater.

(2) In the formulation of each control regulation, the commission shall consider the following:

(a) The need for regulations that control discharges of specified pollutants that are the subject of water quality standards for the receiving state waters;

(b) The need for regulations that specify treatment requirements for various types of discharges;

(c) The degree to which any particular type of discharge is subject to treatment, the availability, practicality, and technical and economic feasibility of treatment techniques, and the extent to which the discharge to be controlled is significant;

(d) Control requirements promulgated by agencies of the federal government;

(e) The continuous, intermittent, or seasonal nature of the discharge to be controlled;

(f) Whether a regulation that is to be applicable to discharges into flowing water should be written in such a way that the degree of pollution tolerated or treatment required will be dependent upon the volume of flow of the receiving water or the extent to which the discharge is diluted therein, or the capacity of the receiving water to assimilate the discharge; and

(g) The need for specification of safety precautions that should be taken to protect water quality including, but not limited to, requirements for the keeping of logs and other records, requirements to protect subsurface waters in connection with mining and the drilling and operation of wells, and requirements as to settling ponds, holding tanks, and other treatment facilities for water that will or might enter state waters.

(3) Control regulations may be promulgated for use in connection with any one or more of the classes of state waters authorized pursuant to section 25-8-203 and may be made applicable with respect to any designated portion of state waters or to all state waters.

(4) The commission shall coordinate and cooperate with the state engineer, the Colorado water conservation board, the oil and gas conservation commission, the state board of health, and other state agencies having regulatory powers in order to avoid adopting control regulations that would be either redundant or unnecessary.

(5) The commission shall not adopt control regulations that require agricultural nonpoint source dischargers to utilize treatment techniques that require additional consumptive or evaporative use which would cause material injury to water rights. With regard to nonpoint source water pollution control related to agricultural practices, the commission and division shall pursue incentive, grant, and cooperative programs in preference to the promulgation of control regulations. When interested water conservation districts, water conservancy districts, and conservation districts recommend nonpoint source control activities related to agricultural practices to the division and commission, the division and commission, after consultation with such districts, shall give substantial weight to the recommendations of such districts into the approved program. Except as provided by section 25-8-205.5, control regulations related to agricultural practices shall be promulgated only if incentive, grant, and cooperative programs are determined by the commission to be inadequate and such regulations are necessary to meet state law or the federal act. This subsection (5) does not allocate wasteloads or relieve any source from participation in wasteload allocations determined necessary under any duly promulgated regulations established by the water quality control commission under this section.

(6) The division may issue a variance from a control regulation of general applicability, based upon a determination that the benefits derived from meeting the control regulation do not bear a reasonable relationship to the economic, environmental, or energy impacts or other factors which are particular to the applicant in complying with the control regulation; except that such variance shall be consistent with the purposes of this article including the protection of existing beneficial uses. No variance shall be issued for longer than five years. Variances shall be granted or renewed according to the procedure established in section 25-8-401 (5).

ANNOTATION

Law reviews. For article, “Oil Shale and Water Quality: The Colorado Prospectus Under Federal, State, and International Law”, see 58 Den. L.J. 715 (1981). For article, “The Emerging Relationship Between Environmental Regulations and Colorado Water Law”, see 53 U. Colo. L. Rev. 597 (1982). For article, “What is a ‘Material Injury’ to a Water Right?”, see 19 Colo. Law. 1333 (1990).

Water quality standards may be revised pursuant to this section in addition to § 25-8-207. This section, unlike § 25-8-207, does not require findings of inconsistency. Bd. of County Comm’rs v. Water Quality Control Comm’n, 809 P.2d 1107 (Colo. App. 1991).

25-8-205.5. Pollution from agricultural chemicals - rules. (1) **Legislative declaration.** The general assembly hereby declares that the public policy of this state is to protect groundwater and the environment from impairment or degradation due to the improper use of agricultural chemicals while allowing for their proper and correct use, in particular, to provide for the management of agricultural chemicals to prevent, minimize, and mitigate their presence in groundwater and to provide for the education and training of agricultural chemical applicators and the general public regarding groundwater protection, agricultural chemical use, and the use of other agricultural methods.

(2) **Definition.** For the purpose of this section only, “groundwater” means any sub-surface water in a zone of saturation which is or can be brought to the surface of the ground or to surface waters through wells, springs, seeps, or other discharge areas.

(3) **Powers and duties of the commissioner of agriculture.** (a) The commissioner of agriculture shall identify agricultural management areas in the state.

(b) The commissioner shall promulgate rules for the following:

(I) Facilities for the storage of pesticides in bulk;

(II) Mixing and loading areas where any of the following are handled in any one-year period:

(A) Five hundred gallons or more, in the aggregate, of formulated product or combination of formulated products of liquid pesticides;

(B) Three thousand pounds or more, in the aggregate, of formulated product or combination of formulated products of dry pesticides;

(C) One thousand five hundred pounds or more, in the aggregate, of active ingredients of pesticides;

(III) Storage facilities where any liquid fertilizer is stored in any container or series of interconnected containers having a capacity greater than five thousand gallons;

(IV) Storage facilities where fifty-five thousand pounds or more, in the aggregate, of formulated product or combination of formulated products of bulk dry fertilizer are stored;

(V) Mixing and loading areas at any storage facility subject to the provisions of this section.

(b.1) No rule promulgated pursuant to paragraph (b) of this subsection (3) shall apply to any field mixing and loading of agricultural chemicals.

(b.2) Every rule promulgated pursuant to paragraph (b) of this subsection (3) shall include a three-year phase-in period after promulgation of the rule for persons subject to the rule.

(b.3) Pursuant to paragraph (h) of this subsection (3), the commissioner is authorized to enforce rules promulgated pursuant to paragraph (b) of this subsection (3).

(c) The commissioner may, in his discretion, develop best management practices for any other activity relating to the use of any agricultural chemical.

(d) If the commissioner determines that the use of best management practices is ineffective or insufficient to prevent or mitigate the pollution of groundwater, the commis-

sioner may require, by rule and regulation adopted pursuant to article 4 of title 24, C.R.S., the use of agricultural management plans.

(e) The commissioner is authorized to adopt, pursuant to article 4 of title 24, C.R.S., any other reasonable rules and regulations for the administration and implementation of this section.

(f) The commissioner is authorized to enter into an agreement with the Colorado cooperative extension service to provide training and education as specified in subsection (4) of this section.

(g) The commissioner shall perform the monitoring specified in subsection (5) of this section. The commissioner shall enter into an agreement with the department of public health and environment to assist in the identification of agricultural management areas and to perform analysis, interpretation, and reporting of groundwater monitoring data supplied by the commissioner.

(h) With respect to any rule or regulation adopted pursuant to paragraph (b) of this subsection (3) only, the commissioner shall have the following investigation and enforcement powers:

(I) At any reasonable time during regular business hours, the commissioner shall have free and unimpeded access upon consent or upon obtaining an administrative search warrant:

(A) To all areas, buildings, yards, warehouses, and storage facilities in which any agricultural chemicals are kept, stored, handled, processed, or transported; and

(B) To all records, if any, required to be kept and to make copies of such records.

(II) The commissioner shall have full authority to administer oaths and take statements, to issue administrative subpoenas requiring the attendance of witnesses before him and the production of all books, memoranda, papers, and other documents, articles, or instruments, and to compel the disclosure by such witnesses of all facts known to them relative to the matters under investigation. Upon the failure or refusal of any witness to obey any subpoena, the commissioner may petition the district court, and, upon a proper showing, the court may enter an order compelling the witness to appear and testify or produce documentary evidence. Failure to obey such an order of the court shall be punishable as a contempt of court.

(III) Any complaints of record made to the commissioner and the results of his investigations may, in the discretion of the commissioner, be closed to public inspection, except as provided by court order, during the investigatory period and until dismissed or until notice of hearing and charges are served on any such person subject to a rule or regulation adopted pursuant to paragraph (b) of this subsection (3).

(IV) (A) Whenever the commissioner has reasonable cause to believe that a violation of any rule or regulation adopted pursuant to paragraph (b) of this subsection (3) has occurred and immediate enforcement is deemed necessary, he may issue a cease-and-desist order, which may require any person to cease violating any such rule or regulation. Such cease-and-desist order shall set forth the rule or regulation alleged to have been violated, the facts alleged to have constituted the violation, and the requirement that all actions be ceased forthwith.

(B) At any time after the date of the service of the order to cease and desist, the person may request a hearing on the question of whether or not such violation has occurred. Such hearing shall be concluded in not more than ten days after such request, excluding Saturdays, Sundays, and any legal holidays, and shall be conducted pursuant to the provisions of article 4 of title 24, C.R.S.

(C) In the event that any person fails to comply with a cease-and-desist order within twenty-four hours, the commissioner may bring a suit for a temporary restraining order and injunctive relief to prevent any further or continued violation of such order.

(D) No stay of a cease-and-desist order shall be issued before a hearing thereon involving both parties.

(E) Matters brought before a court pursuant to this section shall have preference over other matters on the court's calendar.

(V) Whenever the commissioner possesses evidence satisfactory to him that any person has engaged in or is about to engage in any act or practice constituting a violation of any

rule or regulation adopted pursuant to paragraph (b) of this subsection (3), he may apply to any court of competent jurisdiction to temporarily or permanently restrain or enjoin the act or practice in question and to enforce compliance with the rule or regulation. In any such action, the commissioner shall not be required to plead or prove irreparable injury or the inadequacy of the remedy at law. Under no circumstances shall the court require the commissioner to post a bond.

(VI) (A) Any person who violates any rule or regulation adopted pursuant to paragraph (b) of this subsection (3) is subject to a civil penalty, as determined by the commissioner. The maximum penalty shall not exceed one thousand dollars per violation. Each day the violation occurs shall constitute a separate violation.

(B) No civil penalty may be imposed unless the person charged is given notice and opportunity for a hearing pursuant to article 4 of title 24, C.R.S.

(C) If the commissioner is unable to collect such civil penalty or if any person fails to pay all or a set portion of the civil penalty as determined by the commissioner, the commissioner may recover such amount plus costs and attorney fees by action in any court of competent jurisdiction.

(D) Before imposing any civil penalty, the commissioner may consider the effect of such penalty on the ability of the person charged to stay in business.

(4) **Training and education.** The Colorado cooperative extension service, acting in cooperation with the commissioner of agriculture and pursuant to any contract authorized in paragraph (f) of subsection (3) of this section, shall disseminate information and provide training regarding agricultural management areas, best management practices, and agricultural management plans.

(5) **Monitoring.** Pursuant to the commissioner's duties as set forth in any contract authorized in paragraph (g) of subsection (3) of this section, the commissioner shall identify agricultural management areas as defined in section 25-8-103 (1.1) and shall conduct monitoring programs to determine:

(a) The presence of any agricultural chemical in groundwater at a level which meets or exceeds any water quality standard applicable under this article or which has a reasonable likelihood of meeting or exceeding any such standard; or

(b) The likelihood that an agricultural chemical will enter the groundwater, based upon the existence of sufficient, valid scientific data which reasonably predict the behavior of a particular agricultural chemical in the soil.

(6) **Reporting of monitoring results - regulation.** (a) If the division determines that any agricultural chemical exists at a level which meets or exceeds any water quality standard or which has a reasonable likelihood of meeting or exceeding any such standard, it shall so notify the commissioner of agriculture and shall provide him with any written reports it deems necessary or desirable to define the extent of such occurrence. When the commissioner has been notified of such an occurrence related to an agricultural chemical which is registered as a pesticide, he shall take reasonable steps to notify the registrant of any such pesticide. When the commissioner has been notified of such an occurrence related to any other agricultural chemical, he shall take reasonable steps to notify the distributors of such chemical in the area affected by such occurrence.

(b) Unless such occurrence is determined by the commissioner of agriculture and the water quality control commission to require a control regulation as set forth in paragraph (c) of this subsection (6), the commissioner of agriculture may promulgate rules and regulations regarding the use of any agricultural chemical giving rise to the occurrence.

(c) If continued monitoring reveals that rules and regulations adopted by the commissioner pursuant to this section are not preventing or mitigating the presence of the subject agricultural chemical to the extent necessary, the commissioner of agriculture and the water quality control commission shall confer and determine whether an amendment to such rules and regulations may be sufficient to prevent or mitigate the occurrence to the extent necessary. Only if the commissioner of agriculture and the water quality control commission determine that such rules and regulations have been or will be insufficient to meet the requirements of state law or the federal act shall the occurrence be referred to the water quality control commission for the promulgation of a control regulation. In the event that

the commissioner of agriculture and the water quality control commission fail to agree on such a determination, the authority of the water quality control commission shall be final.

(7) **Promulgation of control regulations.** (a) With respect to the regulation of pollutants from agricultural chemicals, the water quality control commission is authorized to promulgate control regulations only when:

(I) Any occurrence has been referred to the commission pursuant to subsection (6) of this section; or

(II) Incentive, grant, and cooperative programs are determined by the water quality control commission to be inadequate as set forth in section 25-8-205 (5).

(b) Any such control regulations shall be promulgated in consultation with the commissioner of agriculture.

(8) **Groundwater protection fund - transfer of moneys to the plant health, pest control, and environmental protection cash fund - fees.** The fees as specified and collected pursuant to sections 35-9-118 (3) (a) and 35-12-106 (1), C.R.S., and any civil fines imposed pursuant to subparagraph (VI) of paragraph (h) of subsection (3) of this section shall be transmitted to the state treasurer, who shall credit the same to the plant health, pest control, and environmental protection cash fund created in section 35-1-106.3, C.R.S. Within sixty days after July 1, 2009, the unexpended and unencumbered balance of the groundwater protection fund, as that fund existed prior to July 1, 2009, shall be transferred to the plant health, pest control, and environmental protection cash fund.

(9) Repealed.

Source: **L. 90:** Entire section added, p. 1330, § 4, effective July 1. **L. 91:** (8) amended, p. 1918, § 41, effective June 1. **L. 93:** (3)(b) amended and (3)(b.1), (3)(b.2), and (3)(b.3) added, p. 996, § 1, effective June 2. **L. 94:** (3)(g) amended, p. 2789, § 519, effective July 1. **L. 96:** (9) repealed, p. 1260, § 163, effective August 7. **L. 2002:** (3)(g) and 1P(5) amended, p. 1101, § 1, effective June 3. **L. 2009:** (8) amended, (HB 09-1249), ch. 87, p. 319, § 15, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3)(g), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration contained in the 1996 act amending this section, see section 1 of chapter 237, Session Laws of Colorado 1996.

25-8-206. Prior acts validated. (1) All acts, hearings, orders, rules, regulations, and standards adopted by the water pollution control commission as constituted and empowered by the laws of this state prior to July 6, 1973, which were valid prior to said date, shall be deemed and held to be legal and valid in all respects, as though issued by the commission under the authority of this article, and no provision of this article shall be construed to repeal or in any way invalidate any actions, orders, rules, regulations, or water quality standards adopted by said commission prior to said date.

(2) All acts, hearings, orders, rules, regulations, and standards adopted by the water quality control commission as constituted and empowered by the laws of this state prior to July 1, 1981, which were valid prior to said date, shall be deemed and held to be legal and valid in all respects, as though issued by the commission under the authority of this article, and no provision of this article shall be construed to repeal or in any way invalidate any actions, orders, rules, regulations, or water quality standards adopted by said commission prior to said date.

(3) All acts, orders, and rules adopted by the state board of health under the authority of part 2 of article 1.5 of this title, part 1 of article 10 of this title, and section 30-20-110.5, C.R.S., prior to July 1, 2006, that were valid prior to said date and not otherwise subject to judicial review shall, to the extent that they are not inconsistent with said provisions, be deemed and held to be legal and valid in all respects, as though issued by the commission under the authority of such provisions of law. No provision of this article shall be construed to validate any actions, orders, or rules that were not valid when adopted by the board of health prior to such date.

Source: L. 81: Entire article R&RE, p. 1320, § 1, effective July 1. **L. 2006:** (3) added, p. 1129, § 5, effective July 1.

25-8-207. Review of classifications and standards. (1) The commission, upon petition or upon its own motion, shall review, pursuant to section 24-4-103, C.R.S., any classification, standard, designation, or regulation adopted pursuant to sections 25-8-203, 25-8-204, and 25-8-209 for consistency with this subsection (1) and consistency with the policies set forth in sections 25-8-102 and 25-8-104. Rule-making hearings on petitions filed under this subsection (1) shall be held expeditiously with respect to such classifications, standards, designations, or regulations adopted prior to July 1, 1992. The commission shall make a finding of inconsistency where:

(a) Use classifications and water quality standards for aquatic life are more stringent than is necessary to protect fish life, shellfish life, and wildlife in water body segments which are reasonably capable of sustaining such fish life, shellfish life, and wildlife from the standpoint of physical, streambed, flow, habitat, climatic, and other pertinent characteristics;

(b) Any use classifications or water quality standards were adopted based upon material assumptions that were in error or no longer apply; or

(c) Any designation does not conform with the provisions of section 25-8-209.

(2) Where the commission determines that an inconsistency exists, it shall declare the inconsistent classifications or standards void ab initio and shall simultaneously establish appropriate classifications or standards.

Source: L. 85: Entire section added, p. 907, § 5, effective June 4. **L. 92:** IP(1) amended and (1)(c) added, p. 1299, § 3, effective July 1.

Cross references: For the legislative declaration contained in the 1992 act amending this section, see section 1 of chapter 188, Session Laws of Colorado 1992.

ANNOTATION

Water quality standards may be revised pursuant to § 25-8-204 in addition to this section. Section 25-8-204, unlike this section,

does not require findings of inconsistency. *Bd. of County Comm'rs v. Water Quality Control Comm'n*, 809 P.2d 1107 (Colo. App. 1991).

25-8-208. Emergency rule-making. In addition to all other powers of the commission, the commission, pursuant to section 24-4-103 (6), C.R.S., shall have the authority to conduct emergency rule-making for the purpose of adopting an interim standard to apply for a specified period of time in place of an existing water quality standard. The commission shall hold emergency rule-making hearings to consider the adoption of such an interim standard whenever it finds, in its discretion, that the petitioner requesting such rule-making has established exigent circumstances which warrant the emergency action.

Source: L. 85: Entire section added, p. 907, § 5, effective June 4.

25-8-209. Water quality designations. (1) The commission may adopt the following water quality designations:

(a) Outstanding waters;

(b) Use-protected waters.

(2) The commission shall promulgate criteria governing the designations provided in subsection (1) of this section. Such criteria shall be consistent with the provisions of this section and sections 25-8-102 and 25-8-104.

(3) (a) **Outstanding waters.** Outstanding waters shall be maintained and protected at their existing quality. Segments shall not be designated as outstanding waters unless the commission determines that:

(I) The quality of the waters is better than necessary to support propagation of fish, shellfish, and wildlife and recreation in and on the water based upon water quality standards

for indicator parameters identified by the commission in the criteria promulgated under the provisions of subsection (2) of this section;

(II) The waters constitute an outstanding natural resource; and

(III) Protection of such resource requires protection in addition to that provided by the combination of water quality classifications and standards and the protection afforded reviewable waters under the provisions of subsection (5) of this section.

(b) All waters that were designated as high quality 1 by the commission prior to July 1, 1992, are hereby designated as outstanding waters.

(4) **Use-protected waters.** Use-protected waters shall be those waters with existing quality that is not better than necessary to support propagation of fish, shellfish, and wildlife and recreation in and on the water. The quality of waters designated as use-protected may be altered if that quality provided for in applicable water quality classifications and standards is maintained.

(5) **Reviewable waters.** Waters that are not designated as outstanding waters or use-protected waters shall be referred to as reviewable waters. The existing quality of reviewable waters shall be maintained and protected unless it is determined that allowing lower water quality is necessary to accommodate important economic or social development in the area in which the waters are located, which shall include all areas directly impacted by the proposed activity. Notwithstanding any other provisions of this subsection (5), that quality which is provided for in applicable water quality classifications and standards shall be maintained for reviewable waters.

(6) Water quality designations and reviewable waters provisions shall not be utilized by the commission or by any other state, federal, or local agency in a manner that is contrary to the provisions of section 25-8-104.

Source: L. 92: Entire section added, p. 1299, § 4, effective July 1.

Cross references: For the legislative declaration contained in the 1992 act enacting this section, see section 1 of chapter 188, Session Laws of Colorado 1992.

PART 3

ADMINISTRATION

25-8-301. Administration of water quality control programs. (1) The department of public health and environment shall administer and enforce the water quality control programs adopted by the commission.

(2) In furtherance of such responsibility of the department, the executive director shall maintain within the division a separate water quality control agency.

(3) The director of said water quality control agency shall be employed pursuant to section 13 of article XII of the state constitution. He or she shall be a licensed professional engineer or have a graduate degree in engineering or other specialty dealing with the problems of pollution and shall also have appropriate practical and administrative experience related to such problems. Such person shall not be the administrator employed pursuant to section 25-8-202 (4).

(4) The division shall act as staff to the commission in commission proceedings other than adjudicatory or appellate proceedings in which the division is a party.

ANNOTATION

Law reviews. For article, "The Emerging Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

25-8-302. Duties of division. (1) The division shall:

- (a) Carry out the enforcement provisions of this article, including the seeking of criminal prosecution of violations and such other judicial relief as may be appropriate;
- (b) Administer the permit system as provided in part 5 of this article;
- (c) Monitor waste discharges and the state waters as provided in section 25-8-303;
- (d) Submit an annual report to the commission as provided in section 25-8-305;
- (e) Maintain a mailing list of persons requesting notice of actions by the division or by the commission and notify persons on the list of such actions, for which service the division shall assess a fee to cover the costs thereof;
- (f) Review and certify, conditionally certify, or deny requests for certifications under the provisions of section 401 of the federal act and this article, known as "401 certificates". Conditions attached to the division's certification shall only implement rules which the commission has made applicable to 401 certifications. General or nationwide permits under section 404 of the federal act shall be certified for use in Colorado without the imposition of any additional state conditions. Appeals by an affected entity of a final 401 certification decision of the division shall be heard in accordance with section 24-4-105, C.R.S., of the "State Administrative Procedure Act".
- (g) Perform such other duties as may lawfully be assigned to it.

Editor's note: Section 17 of chapter 218, Session Laws of Colorado 1985, provides that all conditions which the water quality control division has certified to the army corps of engineers, prior to June 4, 1985, for use of general or nationwide permits under section 404 of the federal "Clean Water Act", are declared to be regulations which are hereby repealed. Said section further provides that the division shall inform the corps of engineers that all such conditions have been repealed and withdrawn, and that general and nationwide 404 permits, which are otherwise applicable in Colorado, do not include the state conditions.

25-8-303. Monitoring. (1) The division shall take such samplings as may be necessary to enable it to determine the quality of every reasonably accessible segment of state waters, wherever practical. In sampling such waters the division shall give consideration to characteristics such as those listed in section 25-8-204 (2), but if pollution is suspected the sampling shall not be limited or restricted by reason of the fact that no water quality standard has been promulgated for the suspected type of pollution.

(2) As to every segment of state waters so sampled, the division shall endeavor to determine the nature and amount of each pollutant, whether a new or different water quality standard is needed, the source of each pollutant, the place where each such pollutant enters the water, and the names and addresses of each person responsible for or in control of each entry.

- (3) As to each separate pollution source identified, the division shall:
 - (a) Determine what control regulations are applicable, if any;
 - (b) Determine whether the discharge is covered by a permit and whether or not any condition of the permit is being violated;
 - (c) Determine what further control measures with respect to such pollution source are practicable.
- (4) The division shall inform the commission of any unusual problem which creates difficulties in abating pollution.

25-8-304. Monitoring, recording, and reporting. (1) The owner or operator of any facility, process, or activity from which a discharge of pollutants is made into state waters or into any municipal domestic wastewater treatment works shall, according to standard procedures and methods prescribed by the division:

- (a) Establish and maintain records;
- (b) Make reports;
- (c) Install, calibrate, use, and maintain monitoring methods and equipment, including biological and indicator pollutant monitoring methods;
- (d) Sample discharges;
- (e) Provide additional reasonably available information relating to discharges into domestic wastewater treatment works.

25-8-305. Annual report. On or before October 1 of each year, the division through the executive director shall report to the commission on the effectiveness of the provisions of this article and shall include in such report such recommendations as it may have with respect to any regulatory or legislative changes that may be needed or desired. Such report shall include the then current information that has been obtained pursuant to section 25-8-303 and information concerning the status of the division's implementation of the discharge permit program established in part 5 of this article. The report shall be filed with the house agriculture, livestock, and natural resources committee and the senate agriculture, natural resources, and energy committee, or any successor committees.

25-8-306. Authority to enter and inspect premises and records. (1) The division has the power, upon presentation of proper credentials, to enter and inspect at any reasonable time and in a reasonable manner any property, premise, or place for the purpose of investigating any actual, suspected, or potential source of water pollution, or ascertaining compliance or noncompliance with any control regulation or any order promulgated under this article. Such entry is also authorized for the purpose of inspecting and copying records required to be kept concerning any effluent source.

(2) In the making of such inspections, investigations, and determinations, the division, insofar as practicable, may designate as its authorized representatives any qualified personnel of the department of agriculture. The division may also request assistance from any other state or local agency or institution.

(3) If such entry or inspection is denied or not consented to, the division is empowered to and shall obtain, from the district or county court for the judicial district or county in which such property, premise, or place is located, a warrant to enter and inspect any such property, premise, or place prior to entry and inspection. The district and county courts of the state of Colorado are empowered to issue such warrants upon a proper showing of the need for such entry and inspection.
